When our company looked at each other in extreme boredom and wiggled their feet experimentally as though they wondered how soon they could decently leave,—Big Red winked at me! He took a deep breath—and began again on the horrors of his case.

Out on the porch, with Big Red's voice just a muted roar our guests expressed their sympathy. "Such a one track mind!" said Mr. Keating.

"Don't you get tired of hearing him talk about pain?" asked Mr. Sanders who never tires of his!

I stepped inside, closed the door on their pity. Then I went to Big Red . . . and we giggled, we roared with laughter. Big Red's bed shook.

"I can't wait 'til we see them . . . next time," I told him, finally.

"If this cure doesn't work," Big Red agreed, "I could always do a repeat!"

Somehow, though—I'm sure there will be no need!

LOOKING AT RELIGION

SEVENTY-EIGHT-YEAR-OLD JENNIE C. POWERS, A MEMBER OF THE WESTSIDE PRESBYTERIAN CHURCH, PHILADELPHIA, HASN'T MISSED SUNDAY SCHOOL IN 75 YEARS. IN 1876, AS A GIRL OF FOUR, SHE COMPLETED HER FIRST YEAR OF PERFECT ATTENDANCE.

KEEPING HEALTHY

'Protective' Foods Prevent Ailments

By Dr. James W. Barton

WHEN an individual who has been suffering with indigestion for years tries out a new diet and finds that it agrees with him, it is only natural for him to pass the good word along and tell his friends, everybody he meets, in fact, that this new diet is the perfect diet for everybody. As a matter of fact, the new diet may be a sensible all-round diet but the fact that it does not cause indigestion does not mean that it is a body-building diet or a complete diet.

Unfortunately, the originators of these new diets advise people not to use the everyday diets used by the majority of people, pointing out that the flour in bread is so refined that roughage, vitamins and minerals are omitted, and only bread with all its minerals and vitamins should be used. And the meat, white bread, potato and sugar foods are said to be responsible for most of the ailments of today.

In their book, "Food, Nutrition and Health," Drs. E. V. McCollum and J. Ernestine Becker, Johns Hopkins University, outstanding authorities on food and health, state that we really should not worry about our diet and its defects and deficiencies. We should not try to live by the book, which often means extra work for the housewife and a "picky" or "choosy" diet for members of the household. These research workers, whose work I have mentioned before, make the task of arriving at a perfect diet for the whole household a very simple matter. This is just the addition or the everyday use of what they call "protective" foods to the usual diet most in use. "There are available two types of 'protective' foods, or foods which are so constituted as to make good the defects of the white bread, meat, sugar and potato type of diet. These are milk and leafy vegetables.

★ HEALTH NOTES ★

The skin contains the oil glands that keep the body soft and pliable.

• • •

The skin is the physical boundary between one's self and the outer world.

• • •

The skin has mental and emotional functions—it shows signs of inner disturbances that help the doctor make his diagnosis.

Milk and leafy vegetables correct deficiencies in our usual daily diets.

• • •

A great majority of the cases of simple or mucous colitis are caused by emotional disturbances.

• • •

Victims of injury lose large amounts of the "building stones" of proteins immediately following their injuries.

Star Dust

STAGE—SCREEN—RADIO

By INEZ GERHARD

IRENE DUNNE and Fred MacMurray held out against starring in a radio series until the Frederic W. Ziv Company came along with a perfect set-up for them. "Bright Star" presents Miss Dunne as a crusading newspaper editor and publisher; MacMurray is her star reporter and romantic interest. The show is transcribed, so that they have time for movies and vacations, like Miss Dunne's trip to Europe with her husband this August and September. "Bright Star" is sold on

IRENE DUNNE

a syndicated basis to sponsors all over this country and Canada. And its stars are each guaranteed a minimum of $300,000 on their fee-plus-percentage agreements.

GRASSROOTS

If Truman Wins Again, Republicans Are Through

By Wright A. Patterson

THROUGH his numerous addresses throughout the nation, notably those in Texas, Washington, Boston and others, General Douglas MacArthur has given the American people "that something to be for" rather than only something to be against.

This he has done in unmistakable words which admit no possible misinterpretations — not weasel words to confuse. Through these statements he has established the clarion call for political battle in 1952.

He calls for a battle for the freedom of the American people as individuals, freedoms established and passed down to us by our forefathers, the founders of this nation.

General MacArthur, without any desire for political reward, has given words to what the Republican leaders either could not or would not express. And he has driven the idea to a point where it must be accepted as a plank on which the campaign will be waged.

Should it, by any chance, not be accepted as the gauge of battle with an insistence that the fight be along that line, the President, if he be the Democratic candidate, will win, and the Republicans as such will be through.

In providing the one issue, that of freedom of the individual, General MacArthur covers all the issues that could be expected. It embraces the opposition toward the drift toward socialism, maintenance of the private enterprise system, the rights of states and local governments—all are wrapped up in one package labeled "freedom of the individual citizen." He has sold freedom as opposed to government direction and persuasion.

There they are, the issues of the 1952 campaign, expressed as the people like them. It only remains for Republican leaders to accept what is their's for the taking with no strings tied to the package.

With it would go the enthusiasm with which the people accepted his statements as the general delivered them from many platforms. Certainly, these Republican leaders cannot be foolish enough to turn away! It's a campaign ready made for any party nominee—with the exception of General Eisenhower. Such a pronouncement would not be a "viewing with alarm" by either the party or MacArthur.

It would constitute a promise of what the party would do in exchange for victory, the thing for which General Douglas MacArthur, the popular hero, has asked to be done.

—✳—

The unsupported statements of the approach of the Russian war wolf have ceased to jar the nerves or arouse the fears of the American people, though they have not stopped the appropriations of more billions for preparedness on the part of congress.

A preparedness that does not seem to advance as rapidly as so many billions would indicate. The people are taking the war cries largely as a hoax. They did react for a time to the President's announcement that Russia had created and exploded an atomic bomb, but there has been no evidence offered to substantiate that statement.

He has not told us the source of his information, and lacking anything in the way of corroboration the people, largely have accepted that statement as but a part of the system of hoaxing, as a means of keeping tax increases flowing.

We hear the name-calling, and denunciations of the Russian representatives to the United Nations, and we hear the equally strenuous name calling and villification for Russia on the part of American spokesmen, including the President. But such statements do not constitute war.

There are no advancing airplanes, or tanks, no gory battlefields. And between the cries of war we have the President's statement that we are nearing a state of peace. That, too, may be but a political hoax, preparing the way for the campaign of 1952. Anyway the people have quit taking the President's statement either way seriously.

—✳—

The 1952 elections will determine whether the nation turns to the right or goes further to the left.

—✳—

Will the next congress see how much it can spend?

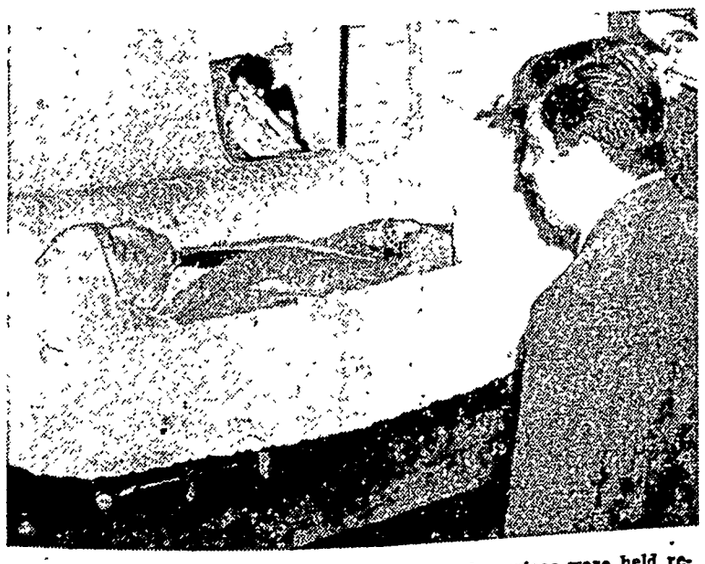
TRAPPED UNDER BOXCAR . . . After two hours of torture under a railroad boxcar, John Claussen Heldt, 51, former middle-west football coach, lies in a grotesque position. The car is a Pacific Electric freight car on tracks near Gardena, Calif. The train ran over him, securing him in this position under car. Note his right foot and left elbow. The right hip was dislocated and the leg lay across his body. He suffered tortuous pain two hours before the boxcar was lifted. Police Sgt. Ben Smith feels his pulse.

INDONESIAN CADETS . . . The Republic of Indonesia has sent some of its air force to an air academy in California for training in the little nation's program for modeling its air force on that of the U.S. Here, an Indonesian student is helped into his parachute by an instructor, as another student climbs into his plane. Dogfights are part of the 46 weeks' course. Sixty cadets were sent to California by Indonesia after extensive examinations. Course costs about $10,000 per man.



SURVIVOR PRAYS FOR VICTIM . . . Funeral services were held recently for George Flores, 20-year-old Brooklyn boxer who died following his knockout at Madison Square Garden in the eighth round of a semi-final bout with Roger Donoghue. Flores rests here in his coffin. At the side of the coffin is Carmine Vingo, New York boxer, who, like Flores, lapsed into a coma after being knocked out a year ago, but survived. Vingo is praying for the soul of the less fortunate fighter.

PLASTIC ARMOR . . . This is the army's new armored clothing for bullet-proofing troops against low velocity shell fragments and small arms fire. The armored clothing is made of nylon and plastic fibers. Jackets are Korea bound.

"SAINTS—NOT POLITICIANS" . . The sole purpose of the Catholic church is to produce "saints, not politicians, generals, lawyers or business men," the most Rev. John J. Wright, bishop of Worcester, Mass., asserted.

KATHLEEN NORRIS
Do Boys Think?

THE FACT that schoolboys are apparently incapable of one minute's serious thought is apt to cost all those who love them very dear.

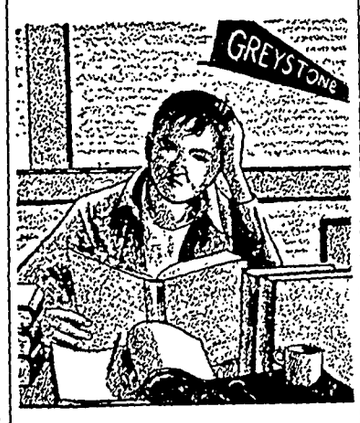
"You know how utterly unthinking boys are!" writes an agonized mother. "A boy who is destined to grow into a fine and responsible man could do something, in his schooldays, that was entirely inexplicable and entirely inexcusable—we all know that! If other boys are doing it, if there is a general careless impression that certain shortcuts to learning are practically taken for granted, isn't it excusable that they follow the fashion? No, not excusable, but something to be censured, and forgiven?

Another Chance?

"My husband," this letter goes on, "has a high standing in this community; we have always been proud of our one son. Our hearts and his sisters' hearts are crushed by this blow. John knew better than to do what he did; he'll never recover from the horror of this time of shame. But isn't he to have another chance?"

Well, it's my personal conviction that he should have that chance. Because honesty isn't natural, and self-protection is. Honesty is a rare plant of slow growth in human hearts; self-protection whether it be from income tax or speeding laws or innocent home gambling for a tenth of a cent, illicit liquor hidden somewhere, or a little speculation on a shady deal, is natural.

We are all sporadically on a high level of honor in some of our affairs, and we all have a blind side to other transactions that are not quite so admirable. I remember years ago the case of a young woman who played races, bought con-



". . . hate study . . ."

traband liquor by the case, had divorced two men, lied her way cheerfully through a score of ticklish negotiations respecting an inheritance.

She and I went to a rather pitiful little church bazaar one day during the last war, and as we looked at the display of aprons and cookies and pincushions Stella suddenly perceived that they were displayed upon a stretched American flag. With a cry of anguish she swept the entire stock upon the grassy dusty ground, clasped the flag to her breast and cried, "Shame upon you! Your country's colors!"

So the college student who does a stupid, unlawful thing is by no means marked for life as a cheat. Most college men and women do little real thinking Girls get into idiotic, impecunious marriages, or worse, and scar their whole lives

Nightmare

With boys this business of "finals" is an absolute nightmare Instead of being marked on their weekly averages, and given constant reminders that they are falling below passing marks, they are left to the dangerous freedom of distractions and interruptions and amusements until the terrifying week that comes twice a year, the week of seminars, boning up, studying all night on black coffee and benzadrine, and attempting to stuff bewildered brains in a few days' time with a half-year of work.

A magazine picture sometime ago showed a smart-looking college boy and girl standing before a classroom doorway upon which was a notice that Professor Brown would postpone the finals in his course from today until the same hour tomorrow.

"Oh, Lord," says the boy in dismay, "do we have to remember all that stuff overnight?"

Funny, but true, too. Healthy young men hate study, especially when, as in so many of our school courses, it is study that they know full well will benefit them not one bit in the years to come. If credits upon fungus diseases of plants, the medieval theories of astrology, the Spartan wars or the Polyponesian languages are considered more easily won than credits for more practical courses, then our students flock to those classes.

"I took Portugese and celestial mathematics," said a fine middle-aged man to me, "each rated five points a week. I forgot 'em both the minute I left college."

Of course he did! How many presidents of shipping companies, great factories, how many successful doctors and dentists and real estate and insurance men, middle-aged, self-respecting, prosperous, were strong enough 30 years ago, not to have taken advantage of the peek or the scribbled hint that helped them through an examination on the subject of Brazil soil?

Cobb Knew Way Around Bases

By GRANTLAND RICE

I had a nice visit with an old friend the other night at Toots Shor's. His name happens to be Ty Cobb.

I was playing a game called poker in the office of the Atlanta Journal back in 1903 when a telegram arrived. It was collect. It said, in effect — "Tyrus Raymond Cobb has just started spring training at Rayston. Keep your eye on him." There was much more. I wired back—never having heard of 17-year-old Ty—"After this the mails are fast enough for Cobb. Who is Cobb?"

Grantland Rice

I found out later. I still believe the original telegram was sent by Cobb. After that he bombarded me with numerous letters, signed by various names. Cobb then was 17 or 18. He was thinking fairly fast as a kid.

Ty still figures that the great division in baseball between skill and power was started by Babe Ruth.

This is no knock at Ruth. You can't knock a tidal wave or a tornado.

"Before the Babe came along," Ty said, "baseball was largely a matter of speed and skill—plus pitching Home runs were unimportant. Home Run Baker got his name by hitting nine home runs back in 1911 and two more in the world series against the Giants off Marquard and Mathewson. Most of us choked bats and pumped the ball to left, right or center. Then we depended on base running speed or skill.

"When the Babe reported the game went entirely to power. The Babe was the greatest power hitter baseball has ever known, no matter who might break his famous 60. But the Babe changed the old game.

"The Babe, a great all-around ballplayer, meant home runs. Don't forget the Babe was also a great pitcher and also a fine outfielder. But most of all the Babe's biggest asset was home runs."

This is all true. The Babe was probably as fine a pitcher as he was a hitter. But it was the big blow that brought him renown. Cobb was an accurate hitter and a cyclone on the base paths.

We won't try to settle the age-old argument between power and skill.

• • •

The Cobb Rating

Ty Cobb today, looking younger than his 60-odd years, likes the old game better—the game that belonged to skill and speed.

Cobb stole close to 900 bases. His base running was even more important than his steals—going from first to home on a single. Today a slugger who doesn't get at least 20 or 25 home runs is a bunter.

I recall a conversation many years ago between Cobb and Ring Lardner, Sr.

"If I wanted to take a full swing, and go after home runs, I could have had my share," Cobb said.

"Why don't you?" Ring said. Lardner was a great Cobb rooter, over the Babe or anyone else.

In the next two days in St. Louis, Cobb got three home runs the first game and two in the second, as I recall it. Five home runs in two games.

"How is that?" Cobb wired Ring.

"Go back to hitting and running," Ring wired. "I like you better that way."

Cobb employed a greater combination of brains and skill than any ballplayer that ever lived. Ty Cobb's life was baseball—for over 24 active years. The Babe loved baseball just as much as Cobb did, but he had other diversions.

• • •

The Third Big League

Will there be a new third big league? And if so, will it be on the Pacific Coast, or a new league involving Los Angeles, San Francisco, Seattle, Baltimore, Buffalo, Milwaukee, etc?

The West Coast knows it isn't ready in a ball-park way to handle a big league at this time. But here is the Pacific Coast idea as it is given to me by one of the prominent club owners:

"We want to be a new third league as soon as possible. But several things must take place before we are ready."

We locate young stars and either have to sell them or see them drafted. If we knew we could keep these players—such men as the two DiMaggios, Ted Williams, Fain, Joe Gordon and many others—we could then build much bigger parks We need parks from 30,000 to 40,000 capacity.

"I have been asked if we could afford to pay a DiMaggio or a Williams or a Feller from $80,000 to $100,000. Not now, of course. But given new parks we could easily afford to pay those amounts—and even more.

• • •

The Heavyweight Gap

The last high-grade heavyweight that happened to come along was Joe Louis. That was some 16 years ago, back in 1935 when he knocked out Primo Carnera, King Levinsky and Max Baer. Louis wasn't the champion then, but he was the best heavyweight in the world.

How to FIX-IT

FIRST AID TO THE AILING HOUSE
BY ROGER C. WHITMAN

Care of New Floors And Woodwork

QUESTION: We are moving into our new home soon and I would like some information on the care of my floors and woodwork. The floors are varnished oak. The woodwork is birch, also varnished. The doors are of flush design and also varnished. It is all very light and I would like to keep it that way What should I use when cleaning the floors and what kind of wax would you recommend? Should finger marks be removed from the woodwork with soap and water? Or what would you advise?

ANSWER: A floor finish should be protected by waxing, except when there are old people or young children in the house. Paste floor wax can be used, applied in a thin, even coat and polished after a half-hour for drying. It can be cleaned with a dry hair broom or cloth, or a specially treated mop. It should not need frequent rewaxing except as required in traffic lanes and near doorways. It should be polished or well rubbed about once a week. This can be done with a polishing weight, or a light electric floor polishing machine. Badly soiled places can be cleaned with a liquid wax made for this purpose. (There are special non-slip floor waxes that are sold in bulks only and made especially for convalescent homes.)

FEEL ACHY?
DUE TO COLD MISERIES
666 gives fast symptomatic RELIEF

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS

"Hot Flashes" Stopped or strikingly relieved
in 63-80%* of cases in doctors' tests

• If you're miserable from the "hot flashes," and accompanying irritable, restless feelings of "change of life"—you may be suffering unnecessarily!

John Josten is a patient at the Mercy hospital.

Mr. and Mrs. Wm. C. Keraus visited at the Verle Keraus home in Garner Sunday.

M. and Mrs. Henry Buseman returned home Friday evening from their extended trip through the South, the Southwest and the West Coast.

Mrs. Walter Lemke, Joan and Earl visited over the week end with relatives at Nora Springs. Walt Lemke drove there Sunday to bring them home.

Mr. and Mrs. Gilbert Kropp are having a new house built in Goodell on a lot north of the Urbatsch hardware store. They will retire from the Chris Hansen farm March 1st, where they have lived for several years.

Mr. and Mrs. George Schoenwetter drove to Cedar Rapids to visit their daughter, Mildred Weisbrod who is a patient at the hospital being treated for virus pneumonia. Mrs. Weisbrod had been attending Coe College.

Mr. and Mrs. Albert Yahnke of Garden City, Minnesota, who had spent the past week visiting with relatives and friends in Klemme, visited Saturday night with Mrs. Fred Griewe at Garner. They returned to their home Sunday. Mr. Yahnke is Mrs. C. A. Larsen's father.

Work on two new houses in Klemme is going right along. The new home for Mr. and Mrs. Carl Wille on East Main is ready for plastering. The new home for Mr. and Mrs. Leslie Hartbeck being built west of the C. A. Larsen residence, is enclosed and about ready for the plasters. Eric Meyer has the basement excavated for a new home north of the Lew Griffin residence.

Announce Engagement

Mr. and Mrs Henry White of Garner announce the engagement and approaching marriage of their daughter Evelyn Leona to Robert Leroy Tiggeman, son of Mr. and Mrs. William Tiggeman of Klemme. No date has been set for the wedding.

Circle Held Meeting

Naomi Circle No. 2 met September 26, at the home of Mrs. Henry Busse with Mrs. Dale Shelton assisting. Mrs. J. A. Chambers gave the lesson. There were 17 members, 1 visitor and 2 children present.

William C. Schmidt Honored On 89th Birthday With Dinner

In honor of William C. Schmidt's 89th birthday, Mrs. Fred Schmidt prepared a big dinner for him on Sunday September 30th and all of Mr. Schmidt's children and their families were present to help him observe the happy event. Mr. Schmidt received some nice gifts from his children, grand children and great grand children. All enjoyed a fine time.

Mr. Schmidt is remarkably agile for a man of his years and is out of doors every day and makes frequent trips to town.

Northeast Iowa Most Beautiful At This Time Of Year

Mr and Mrs. R. A. Jorgenson accompanied Ray Jorgenson Jr. and family on a trip to Northeastern Iowa Sunday.

At this time of the year this part of Iowa is probably one of the most colorful and scenic spots in the United States. Following Highway No. 9 east from Forest City it is a scenic drive all the way to the Mississippi River. There are thousands of hard maple, oak, ash, basswood and other trees on which the leaves are now highly colored in nearly all shades of yellows, reds, browns, orange and gold. There is an ever-changing scene of color at this time of the year.

The party also visited Bily Brothers display of clocks at Spillville and were amazed that there was such a large crowd there at this time of the year.

After leaving Spillville we cut across country to Nashua to visit the Little Brown Church in the Vale. A wedding was in progress at the time.

This is also a scenic part of the state with winding roads and many colorful trees. We returned home via Charles City and No. 18 highway completing over 250 .miles of fall's most beautiful Iowa scenery.

KLEMME LOCAL NEWS

Mrs. Howard Farris and son of Kanawha were visiting in Klemme Thursday.

Mr. and Mrs. John Clements and sons spent Sunday visiting with John's mother and other relatives at Estherville.

Mr. and Mrs. A. H. Yahnke and Mr. and Mrs. Clarence Larsen were dinner guests with Mr. and Mrs. Emil Patet on Thursday.

Mr. and Mrs. Emil Blumer entertained to dinner Friday evening Mrs. Will Riemer and Iola and Robert Blumer, Robert left Tuesday for the service.

Mr and Mrs. Harvey Harberts recently purchased the Paul Dorr proparty in Belmond. They do not plan to retire from their farm southwest of Klemme at this time but will rent their house for the present.

Mr. and Mrs. Herman Gast returned home Friday from the North where they vacationed during the hay fever season.

What are the thoughts of a child who experiences the anguish of a broken home? In The American Weekly, the great color magazine distributed with Sunday's Chicago Herald-American, read "Mine Is Only Half a Home." Here for the first time, is a story telling how the children, the chief sufferers, feel and react towards their divorced parents. Don't miss this heart-rendering story Sunday in The Chicago Herald-American's great color magazine.

Klemme EVANGELICAL AND REFORMED CHURCH

Mr. And Mrs. Lloyd Lau Celebrated Silver Wedding

25TH ANNIVERSARY OBSERVED AT OPEN HOUSE SUNDAY P. M.

Lloyd Lau And Esther Jante Married At Garner Lutheran Parsonage

Twenty-five years ago Miss Esther Jante, daughter of Mrs. Augusta Jante of Garner, and Lloyd Lau, son of Mr. and Mrs. Henry Lau of Klemme, were married at the Lutheran parsonage at Garner, with the Rev. Wrede officiating. The date was Saturday, October 16, 1926.

On Sunday, October 14, 1951, Mr. and Mrs. Lloyd Lau celebrated their 25th or Silver Wedding Anniversary at their home in Klemme by holding open house for relatives and friends from 2:00 until 5:00 o'clock p. m.

As the guests entered the Lau home, Cozette, daughter of Mr. and Mrs. Lloyd Lau had them register in a book. In the reception line were Mr. and Mrs. Lloyd Lau; Mrs. Lau's twin brother, Ernest Jante and wife of Ottawa, Minnesota; and Mr. and Mrs. Herman Keil of Forest City, uncle and aunt of Mrs. Lau who were that day celebrating their 57th wedding anniversary.

A long table in the dining room was beautiful with a pretty linen table cloth and silverware. The color scheme used was pink and white, and the table was centered with a decorated wedding cake. Mrs. Norman Rankin of Miller and Mrs. Carl Hoeft, neices of Mrs. Lau, poured. They were assisted in serving by Mrs. Wm. Hoeft, Mrs. Art Boehnke, Mrs. Eldon Beers, Laura Hollatz and Ernestine Rand of Claremont, Minnesota.

Mr. and Mrs. Lau received many cards and beautiful gifts from the many relatives and friends who called to congratulate them on their Silver Wedding Anniversary.

In the evening brothers and sisters of Mrs. Lau were entertained to dinner after which all enjoyed playing cards at four tables, in the recreation room of the basement.

500 Party Held Saturday Eve

Mr. and Mrs. Wayne Schoenwetter entertained Mr. and Mrs. Garland Brinkman; Mr. and Mrs. Robert Andreae; Mr. and Mrs. Elwood Geary; Mr. and Mrs. Allen Barz; LaVon Franken and Bud Montgomery to a "500" party Saturday evening Oct. 13.

Top honors went to Garland Brinkman and LaVon Franken, with Elwood Geary winning low prize.

After the games a delicious lunch was served by the hostess.

HANCOCK WALTON LEAGUERS MEET

The Hancock county Izaak Walton league met at the Hancock county REA building in Garner W. A. Mack presided in the absence of Sheriff L. M. Brower. president of the league.

Movies featured the entertainment program. W. E. Ayers, local conservation officer, answered questions on game laws and appealed for sportsmanship in the forthcoming hunting season.

ANNOUNCE ENGAGEMENT OF KLEMME YOUNG LADY

Mr. and Mrs. John Suckow, Klemme, have announced the engagement and approaching marriage of their daughter. Helen, to Thomas Roths, Jr. of Klemme, and son of Mr. and Mrs. Tom Roths of San Benito, Texas.

The wedding will take place at the Little Brown Church in the Vale near Nashua, Iowa. on Tuesday, Oct. 23rd. The couple will reside in Klemme.

VAN GORP NEW FIELD EXECUTIVE FOR 4 DISTRICTS

DARWIN A. VAN GORP

Darwin A. VanGorp is a new field Boy Scout executive for the Winnebago Council, it was announced by Peter S. DeJong, executive of the council.

VanGorp will serve Wright, Hancock, Winnebago and Worth districts, He is now attending the Mortimer Schiff Scout Training School in Mendham, New Jersey. He will return here November 1 to begin his duties.

The new field executive is a native of Orange City and was graduated from the high school there. He served in the navy air corps in World War II for two years and then returned to attend Iowa State College, Ames being graduated from there last June with a bachelor of science degree.

VanGorp is an Eagle Scout. He has been scoutmaster, a neighborhood commissioner and served 5 years on various Boy Scout camp staffs. He also served as camp engineer and camp business manager.

Married, he and his wife will make their home at Forest City on November 1.

Completes Audit

Paul Loomis of Mason City, state examiner for the state auditor's office, has completed his annual audit of Hancock county records for 1950. Loomis also made some drainage audits for the Hancock county board of supervisiors.

This is a public safety service of your safety-minded businesses and this newspaper in cooperation with the Iowa Safety Congress.

With the beginning of the corn harvest season in Iowa, some 300 farmers are slated for serious injury and four of five will be killed--if they operate cornpickers carelessly.

Although the cornpicker accident and death record is on the decline. Iowa farmers are still losing arms and legs at a high rate. During the past four-year period 1200 Iowans have been injured and 19 killed in accidents involving cornpickers.

In the majority of cases, accidents are caused by failure to shut off the power while the picker is being adjusted or unclogged of stalks.

The farmer who is in too much of a hurry or is too careless to shut off the power or see that the power take-off is properly shielded is gambling with his arms and legs--and his life.

Your Iowa Safety Congress warn farmers not to get in a hurry and become careless because of aproaching bad weather, or darkness or picking late in the season. The loss of unpicked corn cannot be compared to the loss of a hand, arm or leg.

Do your part to stop the tragic toll of life and limb during the corn harvest season. Remember. Be alert--don't get hurt!

KLEMME FIRE EATERS EAT FIRE AND THEN EAT OYSTERS AT REA

The Klemme Fire Company made a practice run to the Corn Belt Power Cooperative power plant Friday evening to work on oil fires and to inspect the fire fighting equipment at the plant south of Klemme.

A big oil fire was started back of the plant and was put out by the Klemme Fire Company. The fire was started several times and extinguished by different methods, using dry powder, fog and chemical foam. The experiment was a big success so the company returned to Klemme to put away the equipment and then returned to the plant where they were treated to an oyster stew by Mr. and Mrs. Claude White.

The boys were just as adapt at eating oysters as they were at "eating fire and smoke." It was a big evening for all the men.

GIRL SCOUT NEWS

Our meeting was opened by a waffle supper at Mrs. Sumner Trumbell's. The waffles were so good that most of us ate too much.

Carol Bridges and Joan Lemke were the lucky ones to draw the straws that were marked Washing and Wiping the Dishes.

After the dishes were finished the girls had a lesson on bed making. After the lesson the meeting was adjourned and we went home

Their were nine members and two leaders present. We have a new leader, Mrs. Ellen Smith.

Secretary & Treasurer
Joan Lemke

Legion And Auxiliary Plan Family Night Dinner

The American Auxiliary held its regular meeting at the council room on Tuesday, October 9, with Mrs. Flora Back, presiding.

The vote carried to order the same number of poppies this year—1150.

The Legion and Auxiliary are planning a Family Night for November 6. The members and their families will have a pot-luck supper in the Methodist Church parlors at 6:30 p. m. The public will be invited to hear the state Commander of the American Legion, Dudley Wieble, of Forest City speak at 8:00 p. m.

A report was made of the dunches served by the Auxiliary members at the Independent softball tournament last month.

A bill to our sponsored child was allowed.

Mrs. Esther Hess was winner of the door prize.

Following the adjournament of the meeting the members joined the Legion fellows to hear Dr. Larson of Belmond, give an illustrated talk on dental health.

MR. AND MRS. GEO. ALBERS OBSERVED 54TH ANNIVERSARY SUNDAY

Mr. and Mrs. Geogre Albers celebrated their 54th wedding anniversary Sunday with a family dinner for all of their children, grandchildren and great grandchildren, 37 people in all. Their anniversary date was Saturday, but the celebration was held on Sunday so all could be present.

Their children and their families all brought well-filled baskets of excellent food for the big dinner. All present had a wonderful time.

Mr. and Mrs. Albers wish to thank all their neighbors and friends for the nice cards and greetings they sent.

REGIONAL FALL WORKSHOP MEETING TO BE HELD OCTOBER 19

The Regional Fall Workshop meeting of the Women's Guild will be held at the Immauel Evangelical & Reformed Church on Friday, October 19. The guest speaker for this occasion will be Mrs. Ralph Holland of Indianapolis, Indiana. Mrs. Holland is a member of the Commission of Christian Social Action of The Evangelical and Reformed Church. She is also chairman of the Christian Citizenship Department of the Women's Guild. She is a member of the Committee on Christian Social Relations of the United Council of Church Women.

Special music for this occasion will be provided by a women's trio composed of Mrs. A. H. Dulmes, Mrs. Milvern Barz and Mrs. V. Jaberg. This trio will sing, "The Green Cathedral." The Woman's Chorus under the direction of Mrs. William Reinhart will sing "The Guiding Light." The organist for the meeting is Mrs. E. Gerardi. The workshop groups will meet in several of the homes as listed the officers, the church, Education Department, Church Side Room, Missionary Dept., the home of Mrs. A. H. Dulmes, Thank Offering Department, the home of Mrs. Fred Barz, Spiritual and Christian Citizenship departments will meet in the parsonage, Stewardship dept. at the home of Mrs. Ed. Becker, Membership department at the home of Mrs. Fred Nuehring and the Social Service department, church basement sideroom.

Registration will begin at 9:00 a. m. and all the women of our community are cordially invited to attend this meeting.

the Highway Story

IOWA DEPARTMENT OF PUBLIC SAFETY

BY RAY EASTMAN

After a week of traveling the back roads of the county, Art still couldn't tell one country corner from another. Corn rows and fence rows converging at an intersection all looked the same to him.

He got lost at least once a day, which was embarrassing and costly, because Art was supposed to be selling things to farmers.

"Keep thinking while you drive. Know where you're going," the county sales manager told him.

"Find a good landmark and work from there," a farmer suggested.

Art made a effort. He found one intersection where a farmer had cut back the corn in the corner of his field to give drivers a view of the converging road

Art could always recognize that intersection. There was no other like it in the neighborhood. It became his major landmark. Everytime he drove through it he had a feeling of friendship for that farmer who had shortened his corn rows to give drivers a safe intersection.

For about a week after he found his landmark, things went better for Art. He began to know his directions so well that he no longer drove slowly and uncertaintly wondering where he was.

Now he drove with speed and confidence, spraying up gravel, making time Then, he "got lost" again.

It happened one morning as he was clipping through an intersection. His vision to the left was cut off by a corn field, but Art knew where he was, no need to slow down.

The milk truck slid into the left side of his car like a tank. Art was lost again. This time he would never find his way back.

KLEMME FARMER OWNER REGISTERED SWISS BULL

Albert Ausborn, Klemme has recently purchased the Brown Swiss bull "Nancy Jueen's Marlene's Steve 104426" from Charlie L. Gault, Britt, Iowa, according to a report from Fred Idtse, secreatry of the Brown Swiss Cattle Breeder's Association of Beloit, Wisconsin.

LARGE CROWD ATTENDED THE METHODIST LADIES CHICKEN SUPPER

The Methodist ladies report that they had a large crowd at their annual chicken supper Thursday evening, which was served family style. In fact, the ladies ran short of food and had to turn away several people who came in later.

The ladies report that they cleared a little over $185 from the supper.

Mrs. John Etchen Entertained Bridge Club Wednesday Evening

Mrs. John Etchen was hostess to the members of the After Supper Club at her home Wednesday evening. Bridge was played with Mrs. Orville Bridges winning high prize and Mrs. Franklin Cappon, second high. Mrs. Harson won the low prize.

After the games Mrs. Etchen served a nice lunch.

HELLO FOLKS

Mr. and Mrs. Robert Kimball of Ventura are the proud parents of twin girls born in the Forest City hospital, Tuesday, October 16th.

County-Wide Meeting To Be Held Here October 28

DR. DAVID WESLEY SOPER

MEETING WILL BE HELD AT KLEMME HIGH SCHOOL

Prominent Speaker Secured For Annual Meeting

The third annual Hancock Co. Reformation Day service will be held on Sunday, October 28 at 8:00 p. m. in the Klemme high school auditorium. The Hancock County Ministerial Association, believing in a United witness of Christians, is again sponsoring this service and inviting all in this area to share in this unusual event.

The speaker for this service will be the Dr. David Wesley Soper, head of the department of religion at Beloit College, Beloit, Wis. Dr. Soper has spent the past two summers studying and lecturing in Europe.

For the second August he occupied the pulpit of the American Cathedral in Paris. He interviewed 25 representative personalities from all classes in Communist Czechoslovakia, seven major leaders at the Amsterdam Assembly of the World Council of Churches.

In addition to his campus responsibilities at Beloit, Dr. Soper has given an average of 200 addresses a year for the past 6 years in the East, Mid-West and South. Articles from the pen of Dr. Soper have appeared in many leading theological periodicals such as The Christian Century, Theology Today, Religion in Life, The christian Advocate and the Upper Room Pulpit.

Dr. Soper is a member of the American Philosophical Society, the National Association of Biblical Instructors, and the American Association of University Professors. He is listed in Who's Who in Education and Who's Who in Religion.

The Hancock County Reformation Day speaker was born in Elmira, N. Y., November 14, 1910, the son of the Rev. and Mrs. M. A. Soper of Syracuse University. He received his college diploma from Stetson University and his S. T. B. at the Biblical Seminary in New York City, and his Ph. D. at Drew University. In addition, he has completed graduate research at the Sorbonne and at Oxford University.

Dr. Soper has been a member of the New York Annual Conference of the Methodist Church since 1939. Dr. Soper has served as pastor of Dutch Reformed and Methodist churches in New York and Florida. The guest speaker will address the County Reformation Day on the subject, "Christianity is One World."

Special musical selections for this service will be provided by the Methodist Church and the Woman's Chorus of the Evangelical and Reformed Church of Klemme.

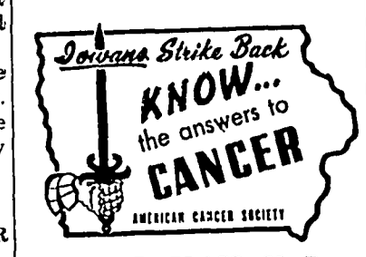
The public is cordially invited to attend this service on October 28, 1951.

High School Driving Class Working On Proper Turning

Eugene Fischer's Driver Education Class of the Klemme high school is learning to turn properly and will try to learn the art of backing with precision.

The State Law quotes: "In turning, a signal of intention to turn right or left shall be given continuosly during not less than 100 feet traveled by the vehicle before turning" 321.315 Iowa Code.

In making a right turn we are stressing the importance of keeping to the extreme right of the roadway, and in making a left turn to keep just right of the center lane before and after turning. The highway of street is no place to make wide race track turns.



By E. D. PLASS, M. D.

(winner of the 1951 Iowa ACS bronze metal for his outstanding contributions to cancer control.)

Are radiation treatments good for all kinds of cancer-

No—only for growths of certain kinds and in certain locations.

During the four decades since radiation (x-ray and radium) treatments have been available, they have been tried on almost every type of cancer. This accumulated experience has shown that there is wide variation in the response of malignant tissues to the rays emitted. Generally, only those tumors which are "radiation sensitive" are now treated by radiation technics . Even in cancers of the same organ, for example, the uterine cervix (mouth of the womb), there are great differences in the reaction to identical amounts of radiation—many tumors are completly destroyed; others are not all killed. Pathologists attempt to determine "radiation sensitivity" by study of stained cancer cells but their forecasts are frequently in error. Presumably the difference can be attributed to some inherent property of the cell but, so far the variations have escaped the investigators.

At present, the skilled clinician plays the odds, i. e., he uses x-rays and radium on those tumors which experience has shown generally to be "radiation sensitive," and surgery on those that are recognized as "radiation resistant." In some instances, where surgical removal is the method of choice, x-rays may be employed before or after operation so as not to miss any benefit possibly accruing from radiation.

For answers to cancer questions write American Cancer Society, Mason City, Iowa

DUCK HUNTERS REPORTED GOOD SHOOTING OPENING DAY

Local duck hunters reported shooting was good on the opening day, Friday October 12 at noon. Many of the hunters got their limit of four ducks on the opening day.

Hunters report that there seems to be quite a number of local ducks that were hatched in Iowa because of plenty of rain and ponds were full of water. A number of mallards and pintails were bagged the opening day.

Serve Baked Beans for Informal Suppers
(See Recipes Below)

Festive Buffet Suppers

THIS IS the season for a flurry of sports activity such as football, baseball and hockey. If there are teen-aged boys and girls in your home, or if the man of the house is an enthusiast of one of the sports,

you're in line to be asked to serve at least one "after the game supper."

These are wonderful occasions because you need food hearty and easy to prepare. The serving is even more simply done because the occasion is so informal. Push the dining room table against the wall, or use a large buffet.

A centerpiece set against the wall is nice, if it's seasonal. Then plan to cover most of the table with food, and leave a bit of space for a stack of plates, napkins and usually, a single fork for each person. Most buffet suppers of this kind can be eaten readily with a single fork.

Another centerpiece uses a shallow bowl of garden flowers in a massed arrangement. Use needlepoint flower holders for the flowers, and also for attaching "penants" made small, with construction paper, and glued to thin sticks.

One menu which will certainly prove popular includes baked beans, served in a bean pot or an old-fashioned casserole of the pottery type.

Serve this with molasses bran brown bread with cream cheese, if you like, sliced tomatoes, pickles, celery, and an apple crisp pudding or a fruit cobbler for dessert.

* * *

Deluxe Baked Beans
(Serves 6)

- **1 uncooked medium ham hock (½ pound)**
- **1 No. 2 can baked beans, without tomato sauce**
- **1 large onion, peeled and chopped**
- **⅓ cup catsup**
- **3 tablespoons brown sugar**
- **1½ tablespoons dry mustard**
- **¼ teaspoon black pepper**
- **1 tablespoon vinegar**
- **1 tablespoon worcestershire sauce**
- **4 whole cloves**
- **1 No. 2 can pineapple chunks**

Remove meat from ham bone and add to beans which may be placed right into the casserole. Stir in onion, then pour in catsup and syrup from pineapple. Sprinkle over all the brown sugar, mustard, pepper, vinegar and worcestershire sauce. Dot four chunks of the pineapple with the cloves and reserve for last. Sink ham bone into center of the bean mixture, and arrange pineapple around the bone. Place the pineapple with cloves on last. Cover and bake in a moderate (350°F.) oven for one hour; remove cover and bake about 15 minutes longer until brown. For a crowd, multiply recipe accordingly and bake in large pans.

***Molasses Bran Brown Bread**
(Makes 2 loaves)

- **1 cup ready-to-eat bran**
- **½ cup seedless raisins**
- **2 tablespoons shortening**
- **½ cup pure dark molasses**

LYNN CHAMBER'S MENU
Baked Beans with Tomato Sauce
*Molasses Brown Bread with Cream Cheese
Cabbage-Carrot Slaw
Baked Apples Cream Cookies
Beverage
*Recipe Given

- **¾ cup boiling water**
- **1 egg**
- **1 cup sifted flour**
- **1 teaspoon baking soda**
- **½ teaspoon salt**
- **½ teaspoon cinnamon**

Measure bran, raisins, shortening and molasses into mixing bowl. Add hot water and stir until shortening is just melted. Add egg and beat well. Sift together flour, soda, salt and cinnamon; add to molasses mixture stirring only until just combined. Fill two greased cans (the size used for baked beans) about ⅔ full. Bake in a moderate (350°F.) oven for 45 minutes. Remove from cans and serve while hot.

* * *

HOT TAMALE pie is an excellent main dish for a buffet meal. With it served a salad of mixed greens and a light oil dressing. Cherry Upside Down Cake wins cheers for dessert.

Hot Tamale Pie
(Serves 6)

- **½ cup cornmeal**
- **1½ cups water**
- **½ teaspoon salt**
- **1½ cups evaporated milk**
- **1 tablespoon fat**
- **1 small onion**
- **1 cup ground raw beef**
- **1 cup tomatoes**
- **1 pimiento**
- **¾ teaspoon salt**

Measure meal into heavy saucepan. Add water and ½ teaspoon salt. Boil until mixture begins to thicken, then add milk and continue boiling 8 to 10 minutes, stirring constantly. Chop onion and cook slowly in fat until yellow. Add meat and cook until red color disappears, then add tomatoes, pimiento, cayenne and ¾ teaspoon salt. Turn into a baking dish which has been lined with ¾ of the mush. Cover with remaining mush and bake in a moderate (350°F.) oven for 45 minutes

* * *

Cherry Upside Down Cake
(Makes 9-inch round)

TOP:

- **1½ cups well drained fresh, canned or frozen cherries**
- **¾ cup light corn syrup**
- **½ teaspoon cinnamon**
- **1 tablespoon butter**

CAKE:

- **¼ cup shortening**
- **½ cup sugar**
- **1 egg, beaten**
- **1 cup sifted cake flour**
- **1½ teaspoons baking powder**
- **¼ teaspoon salt**
- **½ cup milk**
- **1 teaspoon vanilla**

Place cherries, syrup, cinnamon and butter in saucepan and simmer 10 minutes. Cool. Pour into a well-buttered 9-inch round or square pan. Cream shortening, add sugar and egg and beat until fluffy. Sift together flour, baking powder and salt and add alternately to creamed mixture with milk mixed with vanilla. Pour over cherries. Bake for 25 to 30 minutes in a moderate (350°F.) oven.

LYNN SAYS:

Refrigerate Foods
To Speed Preparation

If you don't want to do all your food preparation before a meal, many good things can be mixed in advance, then refrigerated until cooking or baking time.

Thin batters like those for waffles and griddlecakes can be made in advance then refrigerated, provided they are tightly covered to prevent crusting. If desired, thin with a little milk before using.

Do you have difficulty keeping the breaded coating on meats and fish when frying? Chill after breading and they'll stay on better.

Yeast dough for rolls, buns or bread refrigerates well when covered, for several days. Store shaped or in bowls and let rise in a 90°F. oven or at room temperature before baking.

Cookies will be more tender and crisp if you allow the dough to stand in the refrigerator. Or, slip well-wrapped dough in one of the freezing trays if business is "rushing."

KATHLEEN NORRIS
Young Readers

WHEN I WAS a little girl, my mother used to clear the decks for herself and the other women of the household on many a holiday morning by sending us all off on a picnic. This was no mere pleasure expedition, we had to take the very small brother and sister along and keep them amused until afternoon.

We went "up on the hill," where there were oaks, a view of the Pacific, and a breeze on the hottest day. We took sumptuous meals, because we packed them ourselves. We took extraneous matters like knives, string, pencils for games, salt for potatoes baked in ashes, a pan for bacon. We dragged a milk tin of cold water.

But above all we took books. The pervading fear seemed to be that we might run out of reading matter. Everyone took three or four. Lying on the brown California hillside, with the oaks over us and the flashing shadows of buzzards and meadow larks moving overhead, with the small children murmuring beside the tiny brook and the afternoon sun going down over faraway San Francisco, we read.

Good Books

We read some rubbish, I suppose, although the supply of it was not what it is today. We also read Dickens, Thackeray, Tennyson and both Kingsleys. We memorized poems: "The Lady of Shalott," "Sohrab and Rustum," "Prospice," "Grandmother's Story of Bunker Hill." We learned Lincoln's Gettysburg address by

". . . also read Dickens . . ."

heart. Hundreds of shorter poems recited with great gesticulation then, remain with me to this day.

My taste ran to the domestic and tales of large families; Miss Yonge, Miss Carey, Mrs. Molesworth. Every character of Miss Alcott's was, of course, a household word.

My sister, destined one day to marry a poet, loved poetry even at ten. She read "The Idylls of the King," "Marmion," and "The Ring and the Book" before she could grasp half their meaning. She compiled her own book of favorite poems, that ranged from Shakespeare through Rosetti, Imogen Guiney, Lisetta Reese, Andrew Lang and a hundred others down to Gilbert of the "Bab Ballads." She loved Emily Dickenson long before ever the world did.

We would go home from these outings weary, carrying bunches of yarrow or Michaelmas daisies for my mother's vases, leading small bedraggled happy children who were scented by tarwood and sunshine, oakleaves and sooty baked potatoes. And our souls would be filled, with the glory of immortal words. We reported our literary progress to my father at supper, and he matched our discoveries with his own. Fifty years after his voice was silenced, many a classic line comes back to me now in his accents.

Happy Childhood

How much a happy childhood does to create a happy life, who knows? My own life comes back to happiness after all its storms and stresses like a gyroscope. And the part that good books contributed in those young years is incalculable.

If only to show us what other men and women, in other great world crises, have endured and felt and cured, books are great teachers. Macauley's England, Nansen and Shackelton seeking the poles, Swift, so weak and so witty, with his Stella and his Vanessa, Pepys, Evelyn, Patmore and Thompson, and the moderns, Bolitho, Strachey—how they prove to us that terrors need not be realized, that stout courage wins against all odds!

Don't cheat yourself out of good reading. For our children the way is blocked by movies, radio, comics, television. They have no time for great words, for Steerforth lying dead in the cruel tide, "as I had often seen him lie as a boy, at school," for Cleopatra's good-bye to her handmaidens.

"But for any woman who feels her amusements rather puerile, and her leisure somewhat wasted, I recommend the stalwart old classics that have inspired men and women for generations. Not Chaucer, perhaps, he is too irritating; not necessarily Bunyan, Smollett, Fielding. But "Adam Bede" again, and "Bleak House," "Emma," and "Alice for Short." Read Stephen Benet's "Mountain Whipperwill," and Vachel Lindsay's "General Booth." Moore's "Evelyn Innes" stands alone in its field.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

SCRIPTURE: Exodus 1—2. DEVOTIONAL READING: Psalm 27:7-14.

Seeing God's Hand

Lesson for October 21, 1951

NOBODY is ever, in all his life, actually as wise as he thinks he is when he is about 17 years old. We have a remarkable case of this in the Bible, the story of a man whose viewpoint, between his 17th and 56th birthdays, completely changed It is the story of Joseph.

Dr. Foreman

At the age of 17, Joseph was about as nearly insufferable as any one ever has a chance to be. He was the oldest son of the favorite wife of a wealthy cattle-owner named Jacob. Old Jacob needed all the hands he could use, to look after his sheep and cattle; and he put all twelve of his sons to work. Eleven of them had real work; Joseph, though next to the youngest of them all, was a kind of boss or overseer. At least that is what his father intended.

He dressed the boy not in working clothes like the others but in fancy clothes, and used to send him around to see what the other boys were up to. Naturally Joseph's brothers did not take to all this; in fact they hated him so hard that they were on the point of murdering him.

On the very day of the proposed murder, however, the brothers discovered a chance to sell him as a slave. So Joseph was sold off to some traveling slave-traders, and for all his brothers knew or cared, he was off to a lingering death.

* * *

Where Was the Hand of God?

JOSEPH expressed no opinion about this at the time. (He was probably gagged.) But judging from his general character and behavior at that time of his life, it is no trouble to guess his thoughts. He was "fit to be tied"; indeed, he must have been tied on a camel's back, for no slave-trader in his senses would make Joseph walk the 200 miles to Egypt.

The better his condition on arrival, the higher the price. (As it turned out, a very wealthy man bought him; perhaps only a wealthy man could afford him.)

If you had asked Joseph while he was being hauled down to Egypt and the slave-market, Where is God in all this? Joseph might well have answered: "Nowhere. The devil is in this, or my devilish brothers. Nobody means any good by it. The only reason they are selling me instead of killing me is that they are making a little by it; these slave-traders are certainly not in business for their health. I am the only son my father trusted, and now I shall die a wretched death in a strange land."

* * *

The Wisdom of the Years

THAT was Joseph at seventeen. At the age of 56 he saw a different picture. Many strange years had passed; Joseph had been slave and then prisoner; then by a dramatic turn in his fortunes he had risen overnight to be the top food administrator, price controller and economic stabilizer, all in one, for the great empire of Egypt.

His brothers, driven by famine, had fled to Egypt for help, and Joseph, after playing cat-and-mouse with them for months, at last told them (to their great terror) who he was. But he had returned good for evil; had invited down his whole family, father, brothers and all, and given them refuge in a corner of Egypt. At last Jacob died.

The brothers, who made the mistake of thinking Joseph no better than themselves, had supposed that all Joseph was waiting for was his father's death. Now would be the time for Joseph's long-delayed vengeance. Possibly Joseph the boy had dreamed of just such an hour. But Joseph the man was wiser. To his brothers, cowering before him, he said a memorable thing: "You meant it for evil, but God meant it for good." (Gen. 50:20.)

He still had no illusions about his brothers. They had been a bad lot. But God "meant it for good." That wicked act, selling him into slavery, had been the unintentional means of saving hundreds of lives. Joseph now, with the wisdom of his 56 years, can see the hand of God which his 17-year-old eyes could not see at all.

So in times of distress the thought should come to each of us: God's hand may just now be out of sight, but some day, looking back even on this distress we too shall see the hand of God.

FIRST AID TO THE AILING HOUSE

BY ROGER C. WHITMAN

Walls Cracked by Earthquake

QUESTION: After a recent earthquake I noticed that the outside plaster of my house was cracked all over on all four sides of the house. What can I use to fill up these cracks?

ANSWER: I suppose you mean "stucco" when you speak of "plaster." If the stucco had only a few large cracks, they could probably be repaired. Since it is cracked all over, you may need to have it stripped off and new stucco applied. Large cracks should first be widened and deepened, then patched with a cement mortar. The usual mortar mixture for stucco repair is one part Portland cement, either white or gray, and three parts clean, coarse sand, with just enough water to make a workable mixture. Or you can get a ready mixed patching mortar—which is not the same thing as patching plaster. When widening a crack for filling, cut into it so that the groove is wider at the lath than at the surface. Brush out all loose cement, and then soak the edges well with water. Pack with mortar, and just before the patch sets, work the surface into a texture to match that of the stucco. Keep the patches wet for three or four days so that the cement will cure. Sometimes a white stucco wall can be matched with a white cement and light yellow building sand, or white marble dust For a good even effect, you can coat the whole wall with a dampproof cement paint. Very narrow hair line cracks can be filled by painting the stucco with the cement base paint. Get your materials from a dealer in building or masonry supplies. A stucco repair man would know what would be best to do.

Salad Dressing

A quick salad dressing can be made by blending two tablespoons of tomato paste with six tablespoons of mayonnaise. Season this with grated onion, a dash of chili powder, and a few drops of tabasco sauce. This is very good with meat or fish salads.

Kay Burk Won Prize For Catching Big Fish At Clear Lake

Gerald Burk took his son, Kay to Mason City Tuesday evening to attend a meeting of the North Central Iowa Bird & Gun Club. Kay had been invited to attend the meeting to receive a prize for being one of six entered to catch a large fish in Clear Lake during "Adventures in Fishing," there this summer. The prize was a Langley fishing reel valued at $10.00. Gerald and Kay were accompanied to the meeting by Kay's grandfather Jay Griggs of Ventura who when he was fishing when he caught the "lucky" fish.

Report OK'd

Hancock county supervisors approved the quarterly report of Hancock county clerk Ruth Hughes Kaiser. The report listed total office fees in the sum of $721.25 and fines in the sum of $600.

Defendants.

IN EQUITY NO. 11,856

ORIGINAL NOTICE

TO THE ABOVE NAMED DEFENDANTS:

You and each of you are hereby notified that the petition of the above named plaintiffs in the above entitled cause of action is now on file in the Office of the Clerk of the District Court of Hancock County, Iowa, wherein C A Larsen one of the plaintiffs above named, alleges that he is the owner of the following described real property situated in Hancock County, Iowa to wit

The East One-Half (E½) of the South East Quarter (SE¼) of Block Eleven (11), in Barz Addition to Klemme, Iowa;

and wherein the Immanuel Evangelical and Reformed Church of Klemme, Iowa, one of the plaintiffs above named, alleges that it is the owner of the following described real estate situated in Hancock County, Iowa, to-wit

The West one-Half (W½) of the South East Quarter (SE¼) of Block Eleven (11), in Barz Addition to Klemme, Iowa;

That part of the North East Quarter (NE¼) of Section Thirty-one (31), Township Ninety-five (95) North, Range Twenty-three (23), West of the Fifth P. M., Hancock County, Iowa, described as follows: Commencing at a point 214 Feet East of the Northeast corner of Lot One (1), Block One (1), Town of Klemme, Iowa; thence East 165 Feet thence South 82.5 Feet; thence East 99 Feet; thence South 181.5 Feet; thence West 264 Feet; thence North 264 Feet to the point of beginning; and

All of Block Two (2) of Klemme's First Addition to Klemme, Iowa.

That said plaintiffs are credibly informed and believe that the defendants make some claim adverse to the title of these plaintiffs in their respective properties and that said unknown claimants and all persons unknown claim some interest in or to said real estate, but the plaintiffs have no knowledge or information and do not know how said interest as claimed by said unknown claimants and all persons unknown was derived or claimed to have been derived, or the method of obtaining the same. The plaintiffs further allege that the names and residences of the unknown claimants and all persons unknown are unknown to said plaintiffs and the plaintiffs have diligently sought to learn the same, that the plaintiffs in their said petition set out certain instruments of record which cloud the title to the respective property of these plaintiffs and have set forth the pretended claims which have arisen with reference to said title. The plaintiffs further allege in their petition that none of said defendants have in fact any right, title or interest in or to the above described premises or any part thereof, or any color of right, title or interest therein, and that the plaintiffs and their immediate grantors of their respective properties above described have been in the sole, complete, open, notorious, actual and undisputed and adverse possession thereof for more than ten years last past, under claim of right, title, and ownership thereof, adverse to the defendants and each of them, and that these plaintiffs and their said grantors have been for more than ten years the acknowledged sole, undisputed and unqualified owners thereof, and that by reason thereof and by the lapse of time and laches of the defendants in failing to assert any pretended claim thereto, and in permitting valuable improvements to be made thereon relying upon such possession and ownership, the defendants are estopped from asserting any right, title, claim or interest therein, adverse to these plaintiff's title in their respective properties.

These plaintiffs further pray in their petition that a decree be entered by the Court, establishing title to the above described real property in each of them as above set forth, against the adverse claims of the defendants and each and all of them, and all unknown claimants and all persons unknown having or claiming any right, title or interest in or to said premises, and that all persons claiming by, through or under them and all persons claiming by descent, devise, dower, conveyance, mortgage, deed of trust, assignment or succession, or any other method, be forever barred and estopped from ever having, asserting or claiming any right, title or interest in or to the said premises or any part thereof, adverse to the plaintiffs or the plaintiffs' title therein, and that the plaintiffs' title to their respective premises above described be quieted, established and confirmed. The plaintiffs in their petition further pray for such other and further equitable relief as to the Court may seem just and proper

For full and further particulars, see petition now on file as aforesaid.

You are further notified that unless you appear before said Court at the Courthouse in Garner, Hancock County, Iowa, on or before the 19th day of November, A. D., 1951, your default will be entered and judgment and decree rendered against you for the relief demanded in the petition, and the title to the real property above described belonging to these plaintiffs will be quieted in them, and you will be forever barred and estopped from having or claiming any right, title, or interest therein, adverse to said plaintiffs in their respective properties.

Take notice and govern yourselves accordingly.

Dated at Garner, Iowa, this 28th day of September, A. D., 1951.

B. C. BERGE,

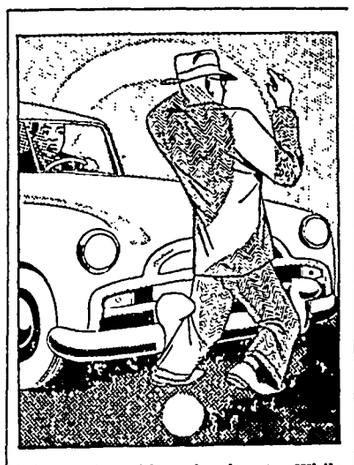
TRAFFIC FATALITIES

1,000,000th Traffic Death Will Occur During December

About the middle of December the 1,000,000th traffic death will occur in the United States.

It is shocking to realize that since the turn of the century, since the first automobile chugged and hissed to the derision and excitement of a horse-drawn era, the lives of almost 1,000,000 men, women and children have been squandered in one of the most senseless and tragic wastes of modern times.

There are numerous reasons for



this great accident death rate. While most states have a statute requiring examination for driver's license, only a few administer the law strictly enough to give it meaning. Thousands of drivers lack the skills, physical faculties and mental attitudes for safe driving. Re-examination of older drivers or those who have been involved in accidents or violations is virtually nonexistent.

Only 13 states permit tests of blood alcohol to be used in court against the most reprehensible motoring miscreant — the drinking driver.

Engineering and road building have fallen far behind the demands of the motor age Lack of funds is the common excuse.

Automatic revocation of a driver's license for serious misconduct is invoked all too seldom. Jail sentences are few. The system of fines and penalties throughout the nation is a hodgepodge of improvisation, the temper of the court, and the stature and legal counsel of the defendant.

These are but a few of the more obvious holes in the dike of traffic safety. They can be plugged, but only through the aroused interest and insistent support of people who care.

Safety authorities report the most shocking thing about the accident toll is the inescapable fact that few Americans feel any real personal concern. As their fellows perish about them, they look on with a detachment and complacency that is difficult to understand and even more difficult to alter.

There rests the keystone of the entire traffic safety structure—personal concern. The duty of every responsible citizen is to strive for traffic safety as a voter, as a volunteer worker in whatever capacity his interests and abilities direct, and as a driver and pedestrian. Even the relatively small percentage of accidents caused by mechanical failure of motor vehicles could be reduced if owners would make sure their cars are in safe condition.

The question remains: what will it take to spur the nation into action? Will it be 1,000,000 deaths?

Star Dust

STAGE—SCREEN—RADIO

By INEZ GERHARD

DONNA REED and John Derek make such an excellent team in "Saturday's Hero," a timely and truthful picture of college football, that Columbia promptly teamed them again in "The Dark Page." In New York to promote the picture they were being run ragged, what with meeting the mayor, keeping radio and television dates, and appearing at ceremonies all over town. At lunch Derek could hardly

DONNA REED

eat; the hardy veteran of those really tough football sequences was booked to appear on TV that night and was really scared. Donna wasn't afraid of anything except that her young family might need her before she gets home; her son's just a year old.

Donna Corcoran will become Metro's new Margaret O'Brien, if the executives' wishes come true. The nine-year-old has appeared in two pictures, "Angels in the Outfield" and "Young Man in a Hurry" and will star in her third.

Maureen O'Hara must like costume pictures, she makes so many of them. Her latest assignment is "Against All Flags," for Universal-International; she'll play the leader of a band of pirates, in the 18th century.

Here's something really new. Paramount will hold the first showing of "My Favorite Spy," new Bob Hope-Hedy Lamarr comedy, in the home of a movie fan, complete with guest stars and spotlights. Just write the winning letter stating "Why I would like to have 'My Favorite Spy' premiered in my home," address it to Bob Hope Contest, Box 382, Hollywood, California, and if you win you'll get the works. Bob is publicizing the contest for the next few weeks on his new NBC radio series. Good luck!

THE FICTION CORNER

THE TRAP

By Daniel Shifren

"Trist!" Howie called again, "Trist! Over here!"

Tristam Olds set the rake against the barn and ran over the knoll to the orchard.

3-Minute Fiction

Howie was bundled against a tree, trussed wrist and ankle, very pale.

"Goodnesh, Boss-sh!" whooshed from Trist's dry, thin lips as he undid the bonds.

"There, that's good enough. I'll finish by myself. Get to the barn fast. It may be ablaze by now."

Trist, amazement on his whisker-framed face, jounced his aging bones and came up the incline breathing hard.

Flame licked over the haymow. He swept up two pails and raced down to the pump. Howie came running too.

They scampered around for half an hour. At last the smoke began to trail away.

"That's for now," said Howie, "but we'll have to keep a sharp lookout."

When Sheriff Gunfrey arrived, Howie had changed clothes and was rocking on the porch.

"What's all this about burnin' barns down? Hasn't been anything like this since I copped the election."

"They tried it right enough," said Howie. "Know of any strangers in town?"

"Nope," said Gunfrey.

"Well, little matter. They're from somewheres round here. But I guess either Sholl or Long is the guilty party—either one or both."

Gunfrey fired the crusty cake in his pipe and puffed. "How you figure that, Howie? They're neighbors, man."

He led a coil of black wire through deep grass until he reached the pine tree. He attached the wire to the house bell.

"In the last couple weeks they tried to buy out my farm. Kept upping the price, but I told 'em 'No.' I got no yen to sell this place."

"Did they make any threats?"

"They sure wasn't pleased."

"Hm. I'll hunt around town and ask 'em some questions. Ring me anything turns up."

HOWIE and Trist alternated on lookout. Chores were left undone. Then, during the night before Howie told Trist to discontinue the watches, he slipped out to the barn and emerged with a shovel and trowel. He worked and as light gray rose over the horizon, he laid out the last strips of straw and grass, returned the tools to the barn and came back.

He led a coil of black wire through deep grass until he reached the pine tree. He wound the wire around and attached the house bell he had in his back pocket.

The next morning he said to Trist. "No use to keep up the watches They're not likely to come back."

Trist grunted. "Sure. Might'sh well get back to work."

The unexpected shrill of the house bell came that night. Howie rushed out without donning trousers, Trist behind him crying, "What's that bell for!" But Howie did not answer.

He swept the pit with a powerful flash, picking up their figures. One's bandanna slipped as he tried to escape the slippery pit and he recognized Jerry, Trist's youngest son

The boy's eyes, large with fright, lit on Trist and he cried out, "Dad!"

Howie's flash went out then. He heard them stumbling away.

The telephone rang before Howie could make his call. It was Gunfrey.

"Which one of 'em was it bought out Trist's boys to fire my barn, Gunfrey?"

Gunfrey said, "You were right, Howie. I didn't know—I mean about Trist."

"More the boys. They wanted the money bad. Trist couldn't do nothing with 'em. Afraid they'd get caught so he kept his mouth shut."

"Howie, I broke Long down. He tried to blame Sholl, but I got him to admit something like what he was up to."

"I was thinkin' I'd hate to prosecute anyone seein's no harm done. . . ."

"I don't want you to, Sheriff, only . . ."

"Yeh, I thought about that." Gunfrey laughed his cackle. "Long won't be around after tomorrow. I'm lettin' him leave town."

Housewrecker Believes Idleness "Killer of Men"

RUXTON, Md.—An 80 year old who holds to the belief that "it's idleness that kills men" has been wrecking buildings for three years just to keep in trim.

William Frederick "Old Pop" Losch has been a busy man in the wrecking field, with four houses. three barns and a Democratic club to his credit.

Before "retiring" to the life of a wrecker, he was a county official.

GRASSROOTS

Socialism in England Is Popular With Laborers

By Wright A. Patterson

THE DEFINITELY ANNOUNCED purpose of the English Labor party is to equalize the wealth and the income of the English people. That is a vote-catching program, especially in England, and it is a program which the party can carry out. It can and is being done through taxes. On an income, which in America would be considered of a reasonable amount, the government is taking ninety five cents out of each dollar. Through taxes, it is easy to pull down the higher incomes, and through "doles" it is easy to increase the lower ones.

But the problem that must be faced is where the "something for nothing" that represent doles is to come from when the wealth of the nation has been taxed to extinction.

Socialized medicine guarantees every one in the British islands a doctor when needed, a place in a hospital when there is a vacancy, which means waiting as much as two years regardless of the urgency of the need.

It means cheap doctor bills, but it is killing the medical profession in England. The doctor is permitted to have as many as 4,000 patients, for which the government will pay him $2.10 per year per patient, then promptly tax that doctor some 50 per cent on his $8,000 income. With what is left he must provide all the expenses of medical practice.

The result is that there is no inducement for the new medical graduate to hang out his shingle in Britain. He goes to the dominions—to Canada, Australia, New Zealand, South Africa. The result will be that in time there will be no doctors to administer to the poor, at any price or on any condition.

On top of the income tax that runs to as high as 95 per cent, there is a purchase tax—our sales tax—which the merchants collect on every item you buy, other than the dire necessities of living, and that purchase tax ranges from 25 per cent on the amount of the purchase to as high as 150 percent of the total, on such automobiles as can be purchased, which is practically none of English make. They are produced for export only, as is true of most other of the better grade English productions.

And along with these conditions there is the rationing. Each individual can have two strips of bacon per week, two eggs, and whatever amount of meat of any kind he can buy for ten cents, with meat selling at prices as high, or higher, than we are paying in this country. Such are but a few examples of English rationing.

Despite it all, English socialism is not too unpopular with the English workers. They are receiving more wages than they did, though they are paying far more taxes, far more living expenses, and living far less better.

Believing the program to be a vote-catcher, the Conservatives, like the Republicans in this country, as applied to the New Deal and Fair Deal programs, are inclined to approve it all, only claiming they could do a better job.

The Conservatives are against the Labor Party, but are for the Labor Party program, and they will not get any farther than the Republicans will get on the same basis in this country.

The Fair Deal does not offer their program as socialistic. It is offered as welfare state, or "planned economy," but the purpose is the same, that of equalizing the incomes of the American people.

Should the Fair Deal continue in office, it will succeed in putting over its nefarious schemes. When they do, there will be nothing left for America but bankruptcy; there will be nothing left with which to provide the "something" for those who are clamoring for "something for nothing" so they may continue to live without effort on their part.

When they understand what is being offered them such conditions will not be favored by a majority of the American people. Will the Republicans tell us what the party proposes as its program, or must we continue on the socialistic trail?

—*—

Gen. Ike will not get a two party and probably not a one party nomination for the presidency.

Man Stands on Foundering Boat 3 Hours Waiting Help

LEONARD, N. J.—Nick Tortorella waved to a man standing in 18 feet of water two miles at sea. Then Nick let out a yell and nosed his fishing cruiser up to the man and he stepped aboard.

The man, Albert Fick, told his rescuer his boat swamped and he had been standing on the foundering craft for three hours waiting for help.

There Is Such a Thing; Buried Treasure Found

PENOBSCOT, Maine—Penobsc is one of the few villages in Amer ca where stories of buried treasur have been justified.

About 110 years ago, a reside. discovered 2,000 coins on a hillsid near the Bagaduce river. Mostly o French origin, the coins bore date as far back as 1652. The cache may have been pirate loot reportedly buried in the area.

A NEW DEAL

The landlady brought in a plateful of extremely thin slices of bread and butter, which rather dismayed her hungry men boarders.

"Did you cut these, Mrs. Brown?" asked one.

"Yes—I cut them," came the stern reply.

"Oh," went on the boarder. "All right—I'll shuffle and deal!"

Point of Truth

Criticism is one of the few things most people would rather give than receive.

THE STRANGEST FRUIT

Two hillbillies were making their first trip on the train and a news vender came through, selling, among other things, bananas, which the hillbillies had never seen before. They decided to try one apiece and one of them, faster than the other, had his unpeeled and took a bite out of it while the other one was still closely examining his. Just then the train plunged into the darkness of a tunnel and the first hillbilly screamed: "Don't touch it, Zeke! I just took one bite and it struck me blind!"

Seen and Heard

"Mother," asked the little one, on the occasion of a number of guests being present at dinner, "will the dessert hurt me, or is there enough to go round?"

Double-Trouble

A friend once wrote Mark Twain a letter stating that he was in very bad health, and concluding: "Is there anything worse than having toothache and earache at the same time?"

The humorist wrote back. "Yes, rheumatism and Saint Vitus's dance."

Different Scales

"Some men are born great, some achieve greatness—"

"And some just grate upon you."

FLAT OR FLUSH?

"Captain Columbus," said a cared seaman on the Santa Maria, "if the world is really flat, like everybody says—"

"Stop fretting," interrupted Columbus impatiently, "I'm telling ou the world isn't flat."

"But what makes you so sure?" persisted the seaman.

"If the world was flat," returned Columbus, "where would I have gotten the money to make this trip?"

Best Prescription Yet

The driver reported to his doctor that he was unable to sleep nights. The doctor got all his facts, then said:

"Whenever you can't sleep, take whiskey at intervals during the night."

"Will that help me to sleep, doctor?" asked the driver.

"It should," replied the sawbones, "but if it doesn't, it will at least make it a pleasure to be awake."

Easy to Make Bunk Beds Ideal for Boys

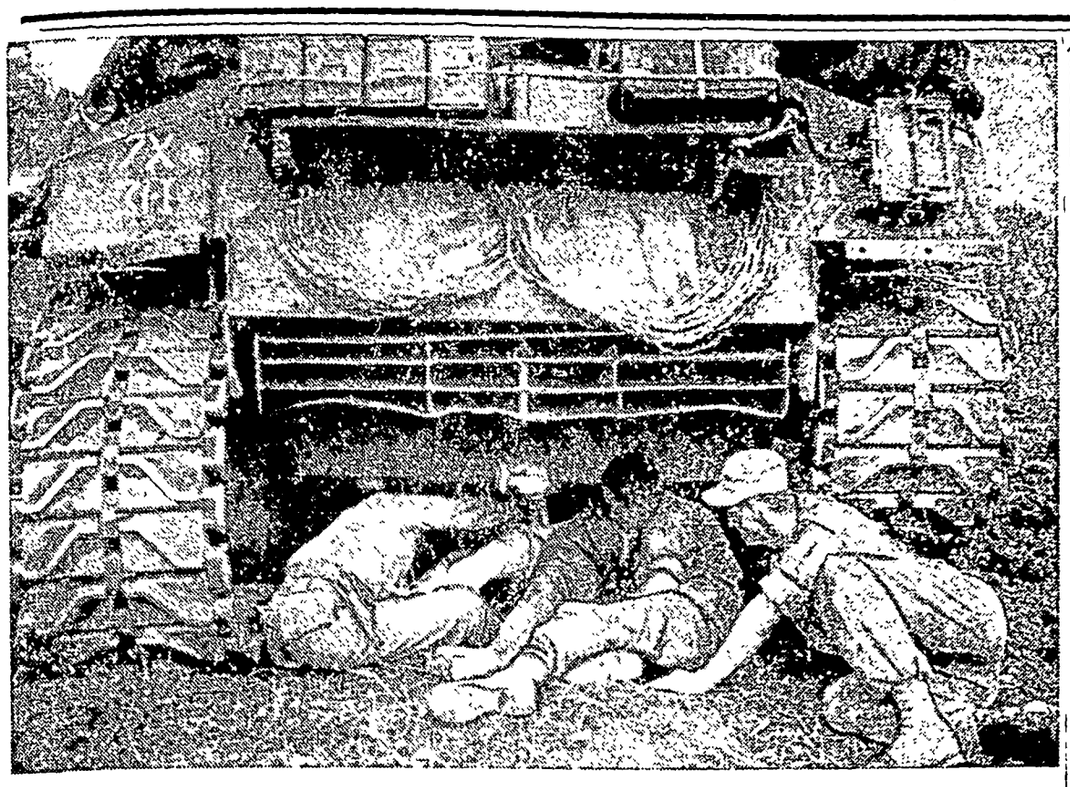
RUB ON MUSTEROLE



TANK SERVES AS PROTECTION FOR WOUNDED CORPSMAN . . . Protected by the armor of a tank, a couple of American soldiers and a war correspondent bandage the wounds of an injured GI, a tank corpsman with the seventh division in Korea. The corpsman was wounded by small arms fire when the tank patrol probed the territory for enemy bunkers and hill positions. The first aid group are, left to right, Lt. Robert Gaul, tank commander of Agua Dulce, Texas, and war correspondent Don Dixon. Man at right is unidentified. The wounded man was loaded on another tank and run through enemy fire to safety.

MAN THROWING THE BULL . . . The camera, it is said, does not lie, but in this particular instance it was experiencing an optical illusion, because what you see here just isn't happening the way it looks. Esperartero, the toreador, who apparently has tossed the gentleman cow for a somersault, is merely holding up his hands in astonishment. The bull, much too eager to insert a horn into Senor Esperartero's epidermis, tripped on the cape that was festooning his horns and threw the full somersault himself. So from now on, do not believe everything you see, especially when someone is tossing the bull around.

PARATROOPER TRAINING . . . On the brink of nothing, a paratrooper of the 187th regimental combat team hangs in midair, suspended by static line which a split second later ripped his parachute open. Then he was at the mercy of gravity and the resistance of his 'chute to the atmosphere. This photo of a jumper poised in air before his downward plunge was made during training exercises conducted recently by the 437th troop carrier wing and the veteran 187th.

KING IS ILL . . . England's King George leaves royal plane that flew him from Balmoral, Scotland, to London for treatment of a lung ailment that has grown worse in recent weeks. He underwent an operation in London.

BUDDHIST WEDDING . . . Mrs. Helen Troy Arlington, author of a series of dog books, and Masefield Thomas Arlington, foreman of her southern California ranch, whose marriage was rent asunder by the Buddhist faith and the girl's girlhood vow of eternal chastity, were re-wed in San Francisco recently. Here the service is performed in Buddhist temple with the Rev. Shinatsu Sanada officiating. "Masefield has agreed to accept my vow of chastity," the bride said.

WANTS BALANCE POWER . . . Chief of naval operations, Admr. William Fechteler, tells Washington women's press club that air power alone has not halted enemy advance in Korea and couldn't stop Russian drive.

Crime in America

By ESTES KEFAUVER
United States Senator

Five of a Series

Corruption of a Small Town: Case Study

So far in this series, the pattern suggested is that crime and contempt for the law is a big city operation. This is not necessarily so. The smaller cities and towns have it, too.

Sometimes, as our senate committee was to learn, crime in smaller places was conducted as a suburban, or branch, operation of the nearest big city gang. This was particularly true in the Chicago and New York areas. On the other hand, there also is the phenomenon of the wide-open small-town, free from big city gang influence and where the local operator—usually a single "string man"—is able to operate without paying any particular tribute to the law.

In many big cities, young people come into maturity with an attitude of contempt for the law, because they see and hear almost daily, that criminals, through alliances with conniving politicians and crooked law enforcement officers, are bigger than the law It would be a frightful thing if this same disillusionment should spread to the small-town youngsters of America

The committee touched briefly on one such case study in its questioning, both privately and in public hearings in Chicago, of a man named Thomas J. Cawley.

• • •

In a way, Cawley, a stocky, unabashed, monosyllabic witness, was a refreshing change from the procession of hoodlum witnesses whose carefully rehearsed refrain, "I refuse to answer on the ground it might tend to incriminate me," became so grating to our ears. He, at least, made no bones of the fact that Thomas J Cawley was the undisputed gambling king of two small Illinois towns—LaSalle, population, 12,023, and Streator, population, 16,442. The two towns, both in LaSalle county, are about 27 miles apart.

I should like to quote simple and unadorned excerpts from the official record of the examination of this small-town gambler.

Cawley's first appearance was in executive (closed) session, October 18, 1950, at the U.S. Court house in Chicago.

Q. What is your business, Mr Cawley? A. A cigar store operator

Q. What other business do you have? A. I operate a farm and a book.

Q. Where do you operate your book? A. 621 First st., LaSalle, Ill

Q. Is that the only book you operate? A. I operate one in Streator, Ill.

Q. Is it (the Streator operation) solely a book? A. Well, it is a gambling room, is what it is. We have dice.

Q. You also have gambling equipment? A. Yes.

Q. What type of games do you run? A. Dice.

Q. Roulette? A. Roulette, LaSalle, and that is all.

Cawley went on to say that he employs about 65 to 70 persons in LaSalle; this includes his restaurant, bar and cigar store employees, in addition to the gambling help.

Q. How long have you operated the book there? A. I imagine . . around 15 years.

Q. Is that in LaSalle? A. In LaSalle; at Streator, I would say 10 years.

Q. Who is sheriff of that county? A. The sheriff now is Ryan.

Q. How long have you known him? A. I hardly know the man.

Q. Did you know Mike Welter? A. Yes, sir . . . He was sheriff three terms . . .

Q. Did you contribute to the campaign funds of any of the other Sheriff's? A. No, sir; only Mike Welter

Q. How much did you contribute to his campaign? A. $500.

Q. Mike Welter knew what business you were in? A. I wouldn't know whether he would or not.

Q. What we want to get at is: How can you run wide open down there without the sheriff knowing about it and doing something about it? It is generally known, is it not, that you operate these places? A That is right. I was born and raised there. I had a good friend, the mayor of the town, and he wouldn't let none of them politicians come into our city.

Q. He would not let any politicians come in? A. He wouldn't let them politicians come from the county into the city from LaSalle.

Q. He would not let the sheriff come in? A. That is right.

Q. So he is the one who let you keep on running; is that it? A. He never let me keep on running He didn't do any more for me than he would for anybody else Anybody can go down in that town right today and open up, and it doesn't cost them a 5-cent piece.

Q. The sheriff does not bother you. A. That is right.

Q. Do the people like it, you think? A. I think they do—90 per cent of them.

Q. What is the present Chief of Police's name? A Eddie Kasprowicz, something like that.

Q. He knows what business you were in? A. Yes. Everybody in town knows what business I am in.

Q. Do you pay money for protection? A. No, sir.

Q. Never have paid any money? A. No. When I do, I will get out of business.

Q. Do you contribute any money to political parties? A I might contribute to both parties a check . . . a hundred dollars here or a hundred dollars there; yes . .

Q. That was to the political party, but to no particular individual? A. That is right.

• • •

Further questioning revealed that Cawley's business was a family enterprise of which he owned 52 per cent. His share of the net profits the previous year (1949) was approximately $67,000. He said his partners were a brother and two sisters; that they "absolutely" were not connected "with anyone from Chicago" or elsewhere, and that when they (the Chicago element) come in, I go out."

We next delved into Cawley's connections with the racing wire service. He was in that business, too, in both towns. His ticker service, which he bought from one of the Continental Press distributors, was cut off at LaSalle shortly before he testified but still was operating at Streator.

Q. You had never been raided? A Yes; I was raided once . . . I have had one conviction.

Q. What was that? A. Well, running a gaming house.

Then, two months later, the committee had Mr Cawley back in Chicago for examinations in open hearings In the meantime we had read in the Chicago newspapers that, the day after he told us in executive session that he ran without interference his place in LaSalle was shut down tight by order of the mayor In Streator, the police chief was quoted as saying he had called at Cawley's Paddock club but found "nothing but punchboards and lucky bowls" But the following is what we heard from the still unruffled Cawley.

Q. Do you still have an establishment in both places (LaSalle and Streator)? A. That is correct.

Q. Are they still operating? A. That is right.

Q Have they been down to speak of for any period of time in the last two or three months? A. Very little.

Q. Everything is going the same as usual? A. Yes.

• • •

Cawley went on to list, perfectly frankly, in response to questions, all the forms of gambling in which he was engaged. In addition to the horse books, he listed a baseball pool, punchboards, roulette and a small poker game. Slot machines had been out for some time.

Still curious as to how he got away with it, I picked up the questioning.

Q. How do you account for the fact that you can operate the way you can, Mr. Cawley? A. Well, it has been going on down there for 25 years.

Q. You said 90 per cent of the people like it? A. That is right. We had an election down there that proved that.

Q. Tell me about that? A. The sheriff—two sheriffs run, one runs on an anti-gambling ticket and the other fellow runs on an open ticket, and the fellow on the open ticket wins the election. Q. Don't you sell liquor in your places? A. . . . They took my liquor license away from me.

Q. And when did they take the liquor license away from you? A. After I got back from this meeting the last time. (Laughter in the hearing room.)

Q. But you still sell liquor? A. That is right.

Q. But it hasn't made any difference in your operation? A. No. No.

Next week: Miami: A Polluted Playground.

Condensed from the book, "Crime in America," by Estes Kefauver. Cpr. 1951. Pub. by Doubleday, Inc. Dist. General Features Corp.—WNU.

THE WHITE SHEEP

Capone's Brother is Justice of Peace

CHICAGO—A long-lost, almost forgotten brother of the late Al Capone has been located by government investigators, living the life of a peaceful, law-abiding citizen.

Assistant US attorney Lawrence Miller said the man is James Capone, 63 year old ex-town marshall and now a justice of the peace at Homer, Neb., where he is known as Richard J. Hart.

The information was disclosed as the first witness appeared before the grand jury investigating alleged income-tax evasion by another Capone brother, Ralph.

Hart was summoned before jury to explain why he holds title to Ralph's home near Merced, Wis. Hart reportedly was not in contact with the Capone family for 33 years. He left home at 16 to join a circus.

JOLLY TIME POPCORN

NEW! QUICK! MOLASSES BROWN BREAD

Ready in ¼ the time old recipes take! Lighter, better-tasting, made with Kellogg's ALL-BRAN and rich New Orleans Molasses. Delicious with oven-baked beans.

1 cup Kellogg's ALL-BRAN	¾ cup hot water
½ cup raisins	1 egg
2 tbsp. shortening	1 cup sifted flour
½ cup New Orleans Molasses	1 tsp. baking soda
	½ tsp. salt
	½ tsp. cinnamon

1. Measure first 4 ingredients into bowl. Add water, stir till shortening melts. Add egg; beat well.
2. Sift together flour, soda, salt, cinnamon; add to All-Bran mixture, *stirring only until combined.*
3. Fill 2 greased baked bean cans ⅔ full. Bake in preheated mod. oven (350°F.) 45 min. Yield: 2 loaves. Or use 8 x 8-in. pan. Bake in mod. oven 35 min. Yield: 1 loaf.

Kellogg's ALL-BRAN

"Monthly Pains" stopped or amazingly relieved

In 3 out of 4 cases in doctors' tests!

• Chances are you're putting up—*unnecessarily*—with the functionally caused pains, cramps and weak, "no good" feelings of menstruation!

For, in actual tests by doctors, Lydia Pinkham's Compound brought *complete* or *striking* relief from such distress in 3 out of 4 of the cases!

Lydia Pinkham's is *modern* in its *action!*

So get Lydia E. Pinkham's Vegetable Compound—or *new, improved* Tablets with added iron. See if—taken through the month—it doesn't give relief from those backaches, jitters—help you feel better *before* and *during* your period!

Or—if you suffer from functional "hot flashes" of "change of life," *find out how wonderful Pinkham's is for that, too!*

It has a quieting effect on uterine contractions that often cause menstrual pain!

It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE —NOT GOOD FOOD

• Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon . . . right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.

FEEN-A-MINT
FAMOUS CHEWING-GUM LAXATIVE

KIDNEYS MUST REMOVE EXCESS WASTE

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS

OFFICIAL COUNTY PAPER

THE KLEMME TIMES

Volume 56. KLEMME, IOWA, WEDNESDAY, OCTOBER 24, 1951 Number 49.

Remember: October Is 4H Enrollment Month, Join

TWENTY NINE 4-H CLUBS IN HANCOCK COUNTY

October is the time for the annual enrollment of the new and old 4-H members. All of the 13 boys clubs and 16 girls clubs of Hancock County are busy with their enrollment of members.

If you are interested in 4-H club training be sure to contact one of the local club leaders in your neighborhood or contact your county extension office.

4-H clubs help you learn by doing. Many young folks have been helped through 4-H club work to better do their job in farming or business when they have grown up and start in the business of making a living. Think of the advantages the 4-H member has in doing the things in a group that the individual cannot do alone.

Join a 4-H club today and be ahead of the parade tomorrow. Remember the 4-H motto "Doing th e Best Better." Just think about this little motto. Isn't it an invitation to become a 4-H member and try to make the motto work- Enroll today.

BRITT HOSPITAL GETS $150,000 FUND

Erwin L. Buck, Britt, chairman of the Hancock County memorial hospital board of trustees, has announced that the Hancock County Hospital project has been allocated slightly in excess of the $150,000 out of the current appropriation of $82,-500,000 made by congress under the provisions of the Hill-Burton hospital construction act. In the current appropriation but 3 Iowa projects were included and the Hancock county project was one of them.

Buck stated that the board anticipates taking bids for the construction of the hospital during the latter part of January, 1952.

Application has been made to the controlled materials division of the Federal government for a permit to build and for the use of critical materials.

Enjoyed Trip Through Illinois And Wisconsin

Mr. and Mrs. John Chambers, accompanied by Mrs. Oma Jacobs of Corwith and Mrs. Mary Aldridge of Minnesota returned home about a week ago from a trip to Illinois and Wisconsin.

They visited several days around Dana, Illinois with relatives and then drove to Wisconsin for a visit with relatives at Tonah and also enjoyed a trip through the Dells of Wisconsin. At this time of the year the scenery was very pretty at the Dells.

NEW CAR AND TRUCK SALES

Junior Barkema, Meservey, a Plymouth.

Howard D. Carlson, Kanawha, Chevrolet.

Tande & Son, Britt, International truck.

Howard or Vera Dasch, Kanawha, Pontiac.

Fred and Rose Bell, Klemme, Mercury.

Flora Drury, Kanawha, Ford.

Ben H. Katter, Garner, Chevrolet.

L. M. Quayle, Forest City, a Chevrolet.

John Richter, Sr., Wesley, a Pontiac.

L. J. Lemke, Garner, Dodge.

F. J. Schoun, Britt, Chevrolet.

Arthur Livingston, Corwith, a Chevrolet truck.

Paul Tlack, Garner, a Dodge truck.

Mr. and Mrs. Edward Johnson, Britt, Chevrolet.

HELEN SUCKOW BRIDE OF JUNIOR ROTHS, TUESDAY

Little Brown Church At Nashua Scene Of Ceremony

The Little Brown Church in the Vale, near Nashua, was the setting for a marriage ceremony Tuesday afternoon when Miss Helen Suckow, youngest daughter of Mr and Mrs. John Suckow of Klemme, became the bride of Thomas Roths, Jr., of Klemme, and son of Mr. and Mrs. Thomas Roths of San Benito, Texas. The Rev. Hanscomb, pastor of the church, officiated.

Tuesday evening a large number of relatives and friends of the couple honored them with a reception and dance at the Surf ballroom at Clear Lake.

A more detailed story of the wedding will be printed in The Times next week.

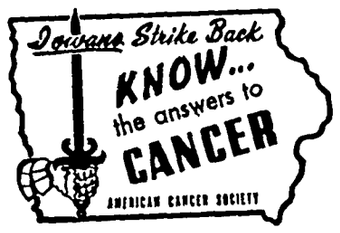
KLEMME SOLDIER WOUNDED IN KOREAN ACTION

Pfc. Harvey R. Ausborn was wounded in action Oct. 9 near Yonchon, Korea, according to word received by his parents, Mr. and Mrs. Albert Ausborn, farmers southeast of Klemme.

Both of Ausborn's legs were injured by shrapnel and he is now in a hospital at Pusan. Pfc. Ausborn, who is with the 8th Cavalry Regiment, entered the service in February 1951 and landed overseas July 1st.

ANNIVERSARY

At Woodward, Mr. and Mrs. Mel Gilbert have observed their 65th wedding anniversary. Mr. Gilbert will be 87 in November; his wife 85.



By E. D. PLASS, M. D.

(winner of the 1951 Iowa ACS bronze metal for his outstanding contributions to cancer control.)

How can cancer be diagnosed?

Actually the diagnosis is never completly established until a piece of the tumor has been examined under the microsope by one especially trained to evaluate what he sees. In advanced stages of the disease physical examination alone may make the diagnosis reasonably sure, but the microscope still remains the only certain method. Even then it is occasionally necessary to obtain a concensus of various qualified pathologists before an opinion can be offered; usually, though, the microscopic picture is clear enough to establish the diagnosis.

Tissue for such examination may be obtained after the organ has been removed, but more often a piece of the tumor is removed before any extensive treatment is undertaken. This is called, "taking a biopsy." Biopsies can, of course, be taken only from tissues that can be exposed either naturally or by surgical incison.

Other methods of diagnosis are available but are not so reliable. X-ray examinations are useful in hidden areas, such, as the bones, gastro-intestinal tract, lungs, and cranium; provided the films the properly interpreted. Microsopic examination of the cells cast off through some natural passage may be helpful but is usually viewed as not truly diagnostic. So far, no blood or urine test has proved very valuable.

For answers to cancer questions write American Cancer Society, Mason City, Iowa

Make Them or Buy Them, But Remember—

TOYS CAN BE TEACHERS

Toys can teach youngsters to use their hands, coordinate mind and muscles. When this tot has experimented more with her "Tree Whirl," she'll learn to put the "branches" on the trunk according to their size so that the completed project will look like a Christmas tree. Both the tree whirl and the push wagon on the left can be made in a home workshop from directions given in the Iowa State College bulletin. "About Toys: Make Them At Home."

A small child lives with a big question mark about the world around him hugged close to his heart. And every day he does all he can to find his way around that question mark. He touches things, tastes them, pokes, prys, shakes things, trys to take them apart and put them together. He jumps, crawls, climbs, experiments and asks questions

Put all these activities together and they spell "learning" learning to use muscles, to solve problems, to get acquainted with things and ideas and people. And, say child development specialists at Iowa State College, the right toys can help tremendously in that learning process.

Toys That Teach

Some toys help children learn body skills—a push-wagon, ladder, building blocks, packing boxes arranged with planks for climbing, a jump rope, the swing hanging from the big old tree in the yard. Other toys help the very young man learn about objects, weights and sizes-toys such as puzzles, peg boards, a ring toss, blocks, a nest of bowls, the tree whirl pictured.

There are toys that help children learn to share and play with other youngsters. A teeter-totter for instance, or a rocking horse. There are toys that help a child express his ideas and feelings, too. Clappers cymbals and a drum all help a little boy or girl show his exuberance, satisfy his wonderful wish for noise or rythm or "music." A tot's creative yen finds expression when he finger paints, molds a piece of clay into a favorite animal, dabs paint on an easel or pastes up a scrapbook.

You have two clues to help you in picking out a toy, say specialists. The first is your youngsters age. Be sure to choose a "do-with" toy, and one that isn't either "kid stuff" or beyond his present coordination or understanding. Your second clue is the child's interests—one tot may like to play with trucks, trains and wagons, while another has much more fun with crayons and paints.

You can learn a lot about the kind or toy to choose by watching your small fry at play with his present toys. How does he use them? what does he try to do with them? What questions does he ask, what comments does he make?

Make Them Yourself

Toys don't have to be expensive. If you have even a mild creative bent, you can whip some up at home from materials at hand . An ingenious train can be made from all sorts of boxes and household items, finished off with a bright coat of enamel paint. A colorful drum can be made from a 2 lb. coffee can, a rattle from a metal shaker filled with pebbles, cymbals from two pan lids.

Child development specialists from the college have written a toy bulletin that gives directions for making these simple toys, and more complicated ones, too. If you have a workshop, dad and the youngsters can have fun making the nail keg rocking horse, teeter totter, push wagon, tree whirl and many others. There's also a chart to help you choose the right toys for children of different ages.

Send for the bulletin now, and get started on some bright-colored, durable toys to put under the Christmas tree. It's called "About Toys: Make Them at Home."

MAYOR'S COURT

KANAWHA YOUNG MAN FINED $25 FOR TRAFFIC VIOLATIONS HERE

Lawrence Vernon Smidt, Kanawha, was fined $25 and costs by Mayor V. A. Cook on a charge of wreckless driving, through the Klemme Park and on the streets without lights early Sunday morning, October 14th.

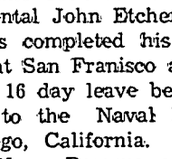
Paul Radics, Jr. Completes Study At San Francisco Navy School

Mr. and Mrs. Paul Radics, Jr. and baby are expected to arrive in Klemme soon for a visit at the parental John Etchen home. Paul has completed his special studies at San Franisco and will be on a 16 day leave before reporting to the Naval Base at San Diego, California. Paul is in the Navy Reserve and is a veteran of World War II.

Twin Lake Go-Getters Elect

Darlene Roul was elected president of the Twin Lake Go-Getters Girls' 4-H Club at a recent meeting at the home of Diana Christianson. Other officers elected for the ensuing year are vice president, Leola Lacey; secretary-treasurer, Blanche Shoop, reporter, Dorothy Lacey; historian, Norma Lacey; music, Faye Janssen and Barbara Shoop.

HELLO FOLKS



Mr. and Mrs. Lawrence Christie of Goodell are the parents of a baby daughter born Wednesday, October 17, 1951 at the Belmond hospital.

Mr. and Mrs. Fred Sobek are the parents of a baby son, wt. 7 lbs. born Friday, October 19, 1951.

Mr. and Mrs. George Paca are the proud parents of a baby girl, weighing 8 lbs. and 4 oz., born Wednesday, October 17, 1951 at the Mercy hospital in Mason City, Iowa.

90% OF TOTAL TAXES NOW IN TILL

Approximately 90% of total taxes to be collected in Hancock county in the year 1951, were collected as of October 1 according to a report released this week by Hancock county treasurer, Roy L. McMillin. Total 1950 taxes to be collected are $1,320,276.19, of which sum $1,163,341.50 was collected as of October 1.

Taxes now unpaid and still unpaid on November 5 will be included in the annual tax sale on December 3.

Homestead credit money received from the state totaled $132,482.52 and military service credit totals $12,492.25.

Recent apportionment made to public administrative bodies in the county following the fall collection of taxes were: School districts, $208,370.94, towns, $34,618.37, and townships, $4,158 76.

LATE OCTOBER RAINS HALT BEAN COMBINING

Rain Saturday afternoon and Sunday delayed the combining of soybeans and arrested the process of corn drying. Combining of beans is in full swing and yield and quality of beans is about average. Corn has dried rapidly but several weeks of drying are still necessary before corn can be safely cribbed.

Moisture content is about the same as it was a year ago at this time. Fall plowing is in full swing and about 70 per cent completed. Sugarbeet harvest is rapidly being completed and yield and quality are a little better than earlier anticipated.

RAILROADS AUDIT BUDGETS AND LEVIES IN COUNTY

Ed O'Dea of Chicago, Rock Island railroad tax auditor and Al J. Scherer of Minneapolis, M. & St. L. railroad tax auditor, were auditing the budgets and tax levies for 1951 of the various school districts and corporations in the office of County Auditor Maynard Schoneman at Garner recently.

The auditors reported that several school districts filed excessive budget askings.

Birthday Celebrated With Dinner

Mr. and Mrs. C. E. Kluckhohn entertained Sunday a dinner in honor of Mrs. Clarence Kluckhohn, of Waterloo, who's birthday on Oct. 20 was celebrated. Those present were: Mr. and Mrs. Uska, Mrs. Dickman, Mrs. Ashworth, and Mr. and Mrs. Clarence Kluckhohn, all of Waterloo.

Services Held Wednesday For Clarence Johnson, 55

FORMER KLEMME MAN DIED AT HIS HOME IN RENWICK

Services Held At Methodist Church By Rev. Chester E. Custer

Funeral services were held Wednesday afternoon at the Methodist Church at Renwick for Clarence Johnson, 55, with the Rev Chester E Custer in charge.

Mrs. W. P. Wittmer was the pianist and a male quartette composed of W P Wittmer, John Zumbaugh, Sherrill Oppedahl and Robert Lane sang "Beyond the Sunset," "Good Night and Good Morning," and Mr. Lane also sang a solo, "The Lord's Prayer."

Interment was in the Renwick cemetery and casket bearers were George Bell, Elston Ashpole, Fritz Britt, Elmer Prillip, Rudolph Blesie and Darrell Matteson.

Near the close of the sermon Rev. Custer read the following obituary:

Clarence Elmer Johnson, the son of Joseph and Anna Sophia Johnson, was born near Morris, Illinois, on October 10, 1896 When he was six years of age he moved with his parents to a farm near Klemme. On June 5, 1920, he was united in marriage to Bernice V. Gimer To this union were born two children, Robert and Barbara, both residing in Renwick. Twelve years were spent in farming; he then moved with his family to Renwick where he has been in the employ of the Renwick Creamery, until early summer when failing health compelled him to give up his work

When a small child he was baptized in the Lutheran church. He was a member of the Methodist church in Renwick. He found much pleasure in his home and among little children. He was a great lover of the out-of-doors.

He passed away at his home in Renwick at the age of 55 years and three days His mother and father and two sisters preceeded him in death. He leaves to mourn, his wife, Bernice; two children, Robert and Barbara; three grandchildren, Vivian, Margaret and Bruce, five sisters, Hulda of Los Angles, Mildred and Irene of Mason City, Maybelle and Gertrude of Klemme; two brothers, George of Mason City and Arthur of Klemme; and many nieces and nephews and a host of friends.

TO WED NOV. 7 - -Mr. and Mrs. Henry DeWeerdt of Garner announce the engagement and approaching marriage of their daughter, Ida, to Duane Floy, of Fertile. The wedding will take place at the St. Boniface Catholic church in Garner on November 7

Tri-County Youth Fellowship To Meet

The Tri-County Youth Fellowship will meet at Immanuel Evangelical and Reformed church on Sunday, October, 28 at 2:45 p. m The local Youth Fellowship will be in charge of the devotional service. Mr. Luverne Schmidt will preside. Dr Soper of Beloit College will address the Youth Fellowship Rally on the subject, "How to Be Happy Through Human." The "CALL" to United Christian Youth to action and service will be represented by Miss Barbara Hofmeister of Ackley A report on the summer conference at Fulton, Missouri will be represented by delegates from this area All young people of the church are invited to attend this rally. The evening luncheon will be served by the local Youth Fellowship.

BY RAY EASTMAN

"He didn't have any troubles. He wasn't the kind. He wouldn't have killed himself."

Comments of the crowd seemed to rule out suicide. Yet, it was apparent that the man scattered along the railroad track had driven into the train at full speed, in full daylight, in full possession of his faculities.

While the grim job of collecting what was left went on, the train was backed over the crossing to clear the highway. Suddenly, everyone in the watching crowd realized what had happened.

The train was made up of four box cars directly behind the engine, then a string some twenty flat cars followed by more box cars. As the train backed over the crossing, the flat cars dissappeared from view beneath a hedge of weeds along the track to the left of the highway.

When the train stopped, the crowd looked soberly at what the dead driver had seen in his final moments - an engine and four cars about to cross the highway. The rest of the train, the long line of flat cars, was hidden behind the weeds.

Apparently the driver decided to make one of those neatly timed movements of speed and direction and without slowing down, pass directly behind the last box car as it cleared the crossing.

His timing was perfect for as much as he had seen. He hit the first flat car right in the middle.

DHIA MONTHLY NEWS REPORT

The Hancock Dairy Herd-improvement Association, for the month of September 1951, tested 23 herds, had 260 cows in milk and had 65 dry cows, making a total number of 325 cows tested. The average production per cow (including dry cows) was 661 lbs. of milk and 26.8 lbs. of B. F.

No new herds started on test during the month.

Eight 305-day lactations were completed for the month. Some of these are listed below

Mitchell Bock, H, 305 days in milk, 18050 lbs. milk and 668 lbs. B. F.; Huling Bros., H, 305 days in milk, 12580 lbs. milk and 551 lbs. B. F; Earl K. Anderson, B. S., 305 days in milk, 8910 lbs. milk and 424 lbs. B. F.; Harold Hall, H., 296 days in milk, 8540 lbs. milk and 389 lbs. B. F.; E. A .Christensen & Sons, H., 305 days in milk and 11690 lbs. of milk and 373 lbs. B. F.

High herd for the month are as follows:

Fern Huling & Sons ,H., 45.8 lbs. fat; Loren Abele, H., 41.0 lbs fat; Huling Bros., H., 35.7 lbs. fat; Lyal Fox, G., 34.3 lbs. fat; and Harold Hall, H., 33.3 lbs. fat.

LABOR FORCE

Ratio of Workers to Persons 65 Or Older Continues to Decline

Today there are only five adult workers in the United States for every person 65 years old or over; in 1850 there were 11 workers, 16 years old or over, for every oldster. In 1900 the proportion was nine workers to one oldster; in 1920 it was eight to one; in 1930, seven to one; in 1940, six to one; by 1950, five to one. In another ten years, under current population trends, there will be approximately four people at work for every person 65 or over These figures vividly point up our fast-mounting problems with respect to our aging population, reports the family economics bureau of Northwestern National Life Insurance company.

As medical science and improving conditions enable more people to live past 65, we are at the same time retiring more oldsters from useful work, says the report.

Simply voting the old people more dollars is no solution, either for them or the nation, the report observes, adding that old people do not consume dollars—they consume goods, like everyone else. Somebody has to produce the extra food, clothes, shelter and other things needed for their comfort.

Therefore any practical program of security for our aged must face two basic requirements, says the report:

(1) Production of goods and services by our young and middle-aged people must be expanded much further, through industrial progress, so there will be a greater margin left over from the workers' own needs, to take care of helpless older members of our population.

(2) At the same time our increasing millions of older people must be permitted and helped to keep on at productive work as long after 65 as possible, instead of being discouraged and penalized for so doing.

Unless these basic realities are kept in mind, the problem will grow worse instead of better, says the report; passing out more and more government dollars looks like an easy solution, but only means that each dollar will buy less and less.

• • •

MOST AMERICANS want to stay useful after 65, says the report, pointing to a recent survey of the retirement aims of 3,000 of the company's male policy-holders. Results, as previously published, showed that only 24 per cent want complete leisure when they reach retirement age. The remaining 76 per cent want either to keep on at their present jobs as long as they are physically and mentally capable, or else to be financially able to ease up a bit, with shorter hours or in some lighter occupation. Thus, three out of four of the men in the survey want to keep right on doing something useful after 65.

Such responses further emphasize the need for all retirement programs, whether based on life insurance, industrial pensions or government payments, to be made highly flexible in their provisions for actual retirement from work, the report concludes.

Year	U.S. Labor Force 16 years old and over	U.S. Population 65 years old and over	Ratio to Labor Force
1850	7,035,000	623,000	9%
1900	27,323,000	3,030,000	11¼%
1920	40,553,000	4,033,000	12%
1930	48,163,000	6,634,000	14%
1940	52,540,000	9,019,000	17%
1950	61,474,000	12,322,000	20%
1960	67,302,000	15,491,000	23%

Proud Father Gets Wish; Triple Mary-ment Occasion

KILDANGANAN, Ireland — Joseph Geraghty had told all his friends that he was wishing for it to be a daughter. In fact, he had already chosen a name to be used when the blessed event happened.

Mrs. Geraghty surprised the proud father by presenting him with, not one daughter, but three female family additions. Proud Joseph still was granted his wish.

The girls, he announced merrily, would be named Julia Mary, Norah Mary and Christina Mary.

Star Dust
STAGE-SCREEN-RADIO

By INEZ GERHARD

JACKIE KELK has so long been identified with his role on radio's "The Aldrich Family" that mail addressed to "Homer, New York" reaches him. Now both star and producer of television's "Young Mr. Bobbin", the new character is taking over; cops near the NBC building are hailing him as "Bobbin". He is a comedian with no desire to be anything else; he began learning his trade when he was a child stooge for Jack Benny, Fred Allen, Eddie Cantor, Burns and Allen and others. But in real life he sheds the naive teen ager role that has brought success; he is actually an astute business man, with many profitable business investments.

Ronald and Benita Colman

Ronald and Benita Colman returned from vacationing in Italy with plans for "The Halls of Ivy"; he so enjoyed writing that one script for it last year that he has done some writing for the NBC show. They also mulled over the idea of appearing in the stage version which Don Quinn has been preparing. They're interested in doing a test television version as a try-out.

While most of the country is busy building super-markets, Renfro Valley, Ky., is rushing construction on an old-fashioned country store. A replica of the town's original general store, it will be heated by a stove, lit by kerosene lamps, and will house the U. S. Post Office cabinet, almost 100 years old. High-topped shoes, copper-toed boots and bustles will be displayed.

Gene Autry is all set to make a picture in Japan, probably early next year. The Japanese adore westerns, and Gene's comic books, suits and shirts have a terrific sale there. So prepare for his appearance in "Cowboy in Tokyo".

THE FICTION CORNER

BERTHA

By Richard Hill Wilkinson

3-Minute Fiction

ROY was correcting his English IV mid-year book reviews and the whistling annoyed him. It came from the alley beneath the window at the end of the hall. It had begun early that morning, a bright, cheery whistle, measured, high-pitched.

Presently he could stand it no longer. He was not a violent man, but as he descended the back stairs there was a grimness about his mouth.

Roy emerged into the alley and headed for a high board fence, from behind which came the measured whistle He went through a door in the fence and stopped short. A voice said, "Hi, kid!"

Suspended from a peg in the fence was a cage and in the cage was a parrot. As Roy stared at it the parrot emitted a shrill, piercing whistle.

Roy was in the act of opening the cage door when someone shrieked. He turned to see a girl with red hair and blazing brown eyes rushing at him.

"Don't you dare touch that cage! Who are you? What are you doing here? You were going to harm Bertha!"

Roy blinked, "Yes," he said calmly, "I was going to wring Bertha's scrawny neck. Bertha's whistling annoyed me. It was driving me crazy. All morning long I have been trying to correct my English book reviews. If the book reviews aren't in by tomorrow I'm apt to lose my job."

The girl's eyes brimmed with tears.

"I'm sorry," Roy said. "Unless you remove Bertha from her present location I shall insist on bashing in her stupid head."

"I'm sorry," said Roy. "Unless you remove Bertha from her present location I shall insist on bashing in her stupid head."

The redhead gasped. "And I'll bet you would do it, too! It's only on bright days that I place Bertha outside Otherwise, she has to stay in where it's dark. If you don't believe me, come and see."

Roy realized that she was appealing to his better nature, if any. He permitted himself to be led into the house. The room, where abode the girl and Bertha, was truly a gloomy place.

"I concede the point," Roy admitted. He stared at the girl closely. "I should think on warm days you'd want to get out into the air yourself."

"I do. I spend nearly all my time looking for a job. Today I stayed home so Bertha could have a sunning. Tomorrow she won't bother you at all."

"Tomorrow," said Roy, "I won't be here to mind." He scratched his chin.

"Look here," he said. "What kind of work are you looking for?"

"I used to be a librarian," said the girl.

"A librarian!" exclaimed Roy. Would you like a job correcting English IV book reviews?"

The redhead's eyes grew round. "Do you mean—why I'd adore such a job!"

"By the way," he said, "I haven't asked your name."

"It's Roberta Cameron. And if you want these papers tonight, I think you'd better let me get to work on them."

IT was in October that Bertha had first aroused Roy's ire. Two weeks before Christmas he asked Roberta an important question. She shook her head. "I couldn't marry you. You don't like Bertha."

"But I've really grown fond of Bertha!" Roy cried. "Why, if it weren't for Bertha, I'd never have met you."

The day after this, Bertha caught a cold. It was bright and warm in the morning and Roberta left the bird outside while she went to town. At noon it turned cold and began to rain. Attracted by a series of hoarse shrieks, Roy rushed into the alley, seized the cage and returned indoors. Bertha died the next day.

"I—I suppose," said Roberta, "I shouldn't have put her out."

Roy stared. A thousand thoughts galloped through his mind. But he had the good sense not to mention them. Instead he picked up Roberta's hand and Roberta smiled.

GRASSROOTS

President Disregards His Dixiecrat Opposition

By Wright A. Patterson

REGARDLESS of what the permanent effect may be on the future of his party, how wide the factional split may spread, the President is determined to make another try at securing legislation on his Fair Deal program.

Senator Humphreys of Minnesota has been delegated to prepare and introduce in the senate eight bills that, if they can be passed, would effectuate the Fair Deal program as contained in the Democratic platform of 1948, for the adoption of which Senator Humphreys was largely responsible.

Senator Humphreys is promised the active support of half a dozen other northern Democratic senators who support anything the President asks for.

The first of these measures is the anti-lynching bill, which the south has been able to talk to death, as an invasion of state's rights. It is the President's belief that the passage of such a measure, with its effect on the northern negro vote, could mean turning the electoral vote of such states as New York, Illinois, Indiana, Missouri, Ohio, and others with a large negro population into the Democratic column, without seriously effecting the white vote of any of the southern states, the people of which are regarded as first protestant, second democratic and third American.

Only a counting of the ballots in the next election can determine the real answer. If the President is right in his surmise, it could mean his election to a third term. All such bills are to be promoted as welfare legislation.

What the action of the Republicans in the senate, whether or not they will support the Dixiecrats of the south, will not be known until the senate votes. The Republicans are not anxious to affront the northern Democratic negroes. The Republicans, too, would like to have as many of those votes as possible. In it all there is much more of politics than of welfare on both sides.

Such a move on the part of the President could mean a permanent split in his party that in time might be politically expensive and mean a third party and a loss of regular Democratic control of congress. Such a result would not be evident in the next election.

—*—

When I was in Hawaii between the first and second world wars, an invariable subject of conversation was "statehood for the islands." A large majority of the people of all the racial groups were for it. A small minority, led by the Honolulu Advertiser, was opposed.

The Advertiser based its opposition on its expressed belief in a lack of loyalty on the part of the Japanese, then the largest of the racial groups in the islands, but the publisher and owner admitted the real reason was the certainty that the publisher and owner of the competing daily, The Star-Telegram, would undoubtedly be elected to the United States senate following admission of the islands to statehood, and that he could not afford to have a competitor selected for such a job which would add to his influence and prestige among the island's people.

I am told the opposition to statehood has grown some, since I was in the islands, and such opposition as exists is fathered, not alone by The Advertiser, but also by the army, especially the intelligence service of the army. It is fearful that statehood would affect the army's privileges and practices.

Such objections as are back of any opposition is not worthy of consideration on the part of congress. The islands are fully entitled to being made a real part of the United States. It has been a step child for an overly long period. To longer continue it on a territorial basis is unfair. Give it a chance to rule itself and to enjoy the advantages of statehood, regardless of petty objections.

—*—

The examples starting the breakdown of morality and integrity in America were to be found in the White House, among the President's cabinet officers, ambassadors, and public officials fairly generally. They have accepted bribes for betraying the interests of the American people. But the President says they have done nothing illegal.

KATHLEEN NORRIS

It Won't Work

"WHEN our daughter Eileen was two years old we adopted another child," writes John Young, from Kansas City "Florelle was then 10, the child of a very poor family who had acted as nurse and sitter for our baby, and of whom we had grown very fond. When my business moved from Albany to Kansas we could not part with her, and took legal steps to make her our own. As younger children came along, this affectionate big sister was a Godsend; we now have another daughter, now 4, and a boy of 2.

Kissless Wife

My wife is a reserved woman, not demonstrative. I think she has never kissed me of her own accord, in all our married years. She manages the children superbly, and is economical, capable and active in social affairs But she regards emotional demonstrations of affection as rather distasteful. Eileen, now 10, is also a cool and unresponsive child, though brilliant and pretty.

"My trouble is Florelle, my adopted daughter. She is radically different. She is now nearly 18, although to me she still seems the gipsy child we found ten years ago. She rushes to meet me at night with laughter and a kiss; if there is disturbing news it is Florelle who

"... goodnight kiss ..."

says 'Oh, don't tell him, Mother, until he's had his supper!'

"In everything I come first with this devoted little heart. At night she never leaves the room without stopping behind my chair to press her cheek against my hair with a goodnight kiss. Any plan means her quick, 'Is Daddy going? I'll stay with Daddy.'

"Of course I like it. I am a loving sort of fellow, and I had a mother who kissed me goodnight and good morning until I was big enough to go away to war. But I've just come to realize what perhaps you have suspected all along, that Florelle means a great deal to me, and that I mean a lot more to her than I ever meant to.

"When I saw this first I spoke to Edna, my wife, about it. She laughed at the whole thing; it was just my vanity. Florelle, she reminded me, has some Latin blood in her veins, and dramatizes everything romantic. Anyway, she could not possibly get along without Florelle's help with the children, so please to forget the whole thing and not be a fool! Later, when a casual remark of mine so hurt Florelle who thought I was scolding her, that she rushed from the room, and was actually ill for a whole day, Edna grudgingly admitted that she might 'have a crush' on me, but observed that the only thing to do was to let it run its course. 'She'll take a fancy to some butcher boy or marine or someone,' she said. And she said again that she could not spare Florelle. What the dickens is a man to do when dynamite like this is right in his own home, and his own wife, who ought to be the first to see it, deliberately shuts her eyes?"

The Reason Why

My dear John, I say in answer, Edna is weighing the invaluable assistance she gets from this daughter-nurse against the overwhelming struggle one woman has with three children of assorted ages, a kitchen, a laundry, marketing, cleaning, cooking. She, being unromantic, feels that Florelle might as well cut her teeth on a first love affair with a sobersided old fellow like John, and that it will all be over soon, and the housework going on undisturbed.

But there are elements here that are dynamite indeed, and it is your immediate business to move Florelle to some family group or preparatory school of business that will launch her into a life of her own.

Obviously, your wife is a practical person, who expects you to be as detached as herself in your devotion to home, family, business, and the future.

But your 44 years and gray temples are anything but a safeguard against wreckage. Wreckage like throwing over all those advantages mentioned above; wife, home, children, position in business.

There was another doctor once, in England, who felt sorry for a pretty impressionable maid-servant, and pity turned to love, and love turned to trouble, and presently the pretty maid-servant was found in her bed, with an unsuccessful attempt at a fire in her bedroom. The fire went out; the police knew that she had been strangled before it had been lighted. And the doctor went out, too, also strangled.

So stop while there's time. Send your lovely Florelle away, and thank the gods for what you have—it's a lot.

Smiles

No Apology

Jane—"Would you be insulted if that good looking stranger offered you some champagne?"

Joan—'Yes, but I'd probably swallow the insult"

—•—

Too Mushy

"And after he kissed you three times, then what?"

"Well—then he began to get sentimental."

—•—

Oh, Her!

Harry—"She sure gave you a dirty look"

Pete—"Who?"

Harry—"Mother Nature."

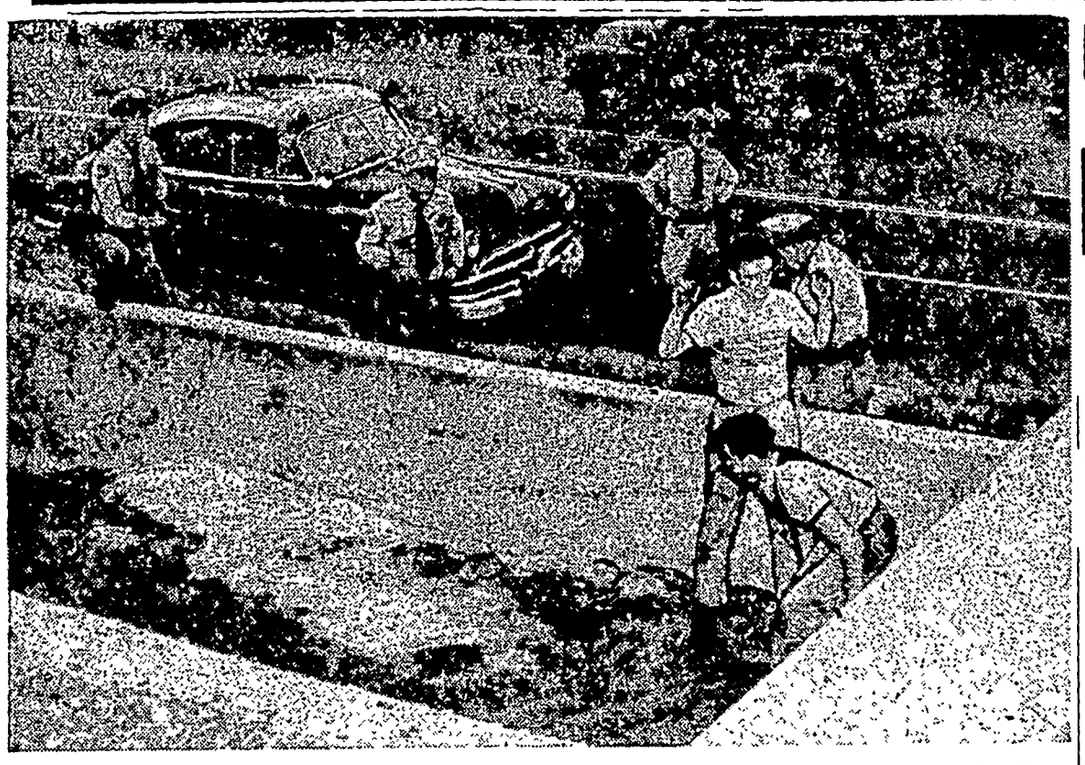
A product of McKESSON & ROBBINS

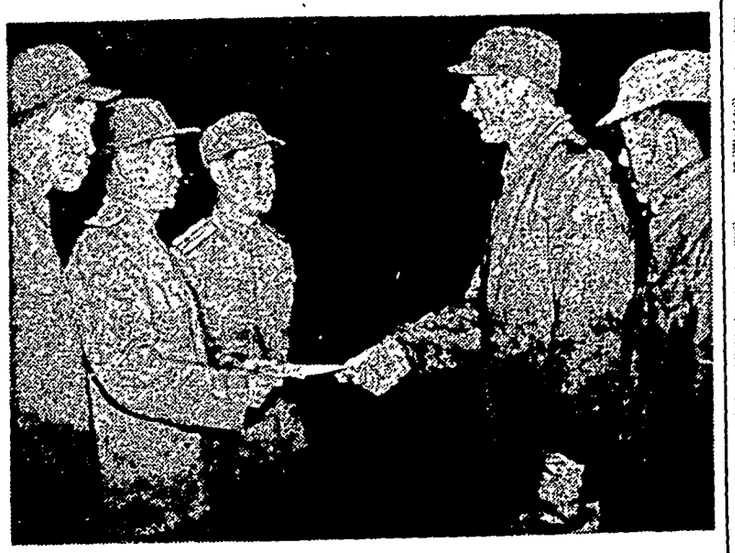


YOUTHS CAPTURED AFTER WIDESPREAD SEARCH . . . This dramatic photo shows armed police in Arcadia, Calif., closing in on two youths who had been sought in a widespread search after four men had kidnapped and robbed a doctor in order to get his drugs. Rawley Ray Poe, 29, and Robert Nausbaum, 24, are seen at right as they were flushed from culvert hiding place and taken into custody by officers carrying pistols and tear gas bombs. Two teenagers were later found in hiding in nearby bushes to complete the roundup of suspects in the crime. All prisoners were booked on suspicion of kidnapping and robbery.

WOUNDED WALK BACK FROM BATTLE . . . Despite peace talks and talks of peace talks, the marines are still fighting the Reds in Korea and some of them are getting hurt. This group of leathernecks, some of them critically injured, are, nevertheless, able to navigate, and so are making their way back to a medical clearing station on foot. Scene is on the eastern Korean front. Note the badly wounded man in the center. Handicapped by a bandaged leg and face and arm in sling, he is being helped by a comrade who apparently is less seriously wounded. Armistice plans do not mean a cessation in the killing and the wounding during a war.

HUK SLAIN . . . Police bullets ended the bloody career of Nicasio Pamintuan, Huk hatchetman, in Manila. He was wanted by Philippine authorities for a dozen murders. In the wild gun battle, he fatally shot three army officers. This battle followed a similar shooting incident in another part of the city. Death toll in the two clashes was six dead on the government side—and two Huks fatally shot. The Huks are aided and abetted by the Communists.

EAST MEETS WEST . . . Faris Glubb, son of Glubb Pasha, British head of the Arab legion, arrives in London to go to school. A blend of east and west is found in his garb. His father is one of the most powerful men in the middle east.



FRIENDLY EXCHANGE . . . All has been smiles and cordiality between the Reds and UN commanders in Korea when they met to exchange notes upon armistice talks, with wrangling and recrimination during the actual talks. Here, Lt. Col. Norman Edwards, head of the UN liaison smiles as he accepts a note from Col. Chang, top North Korean liaison officer at Pan Mun Jon. The note contained Red offers to renew armistice talks immediately, but terms could not be accepted.

MODEL . . . He might be a sculptor's model for a heroic statue, but he's a real hero—P.F.C. Robert Buyers of the U.S. marines—and the dried blood streaks and wounds are real. He was the victim of a Communist grenade in Korea.

Fight Fiasco Punishes Ring Fans

By GRANTLAND RICE

NOW and then a considerable amount of punishment is dealt out in the ring. But the two fighters seldom absorb the punishment the fight fan is forced to take.

After the Robinson-Turpin crowd-handling fiasco, I can see why many thousands wouldn't take the same beating again at the Saddler-Pep show. The fight fan's only recourse for protection is to stay at home. I doubt that too many who were in the Turpin-Robinson upheaval will be in shape to tackle another fight any time soon.

And it might be mentioned that the fight fan gets little or no protection from the State Boxing Commission. Maybe it isn't the business of the State Boxing Commission to see that any protection is offered Apparently the only interest the Commission has is to see that the state tax is collected and delivered

Grantland Rice

The State of New York gets a terrific financial cut from its many games, enough to see that those who pay in this money should get at least some form of protection. But it doesn't work that way.

The main trouble is that the average fan, no matter what the game, is a glutton for punishment. He apparently isn't happy unless he is getting all the worst of it. He doesn't seem to care about being treated as a human being. He's out for the sport.

But few fans think a fight is worth the beating many thousands had to take in the middleweight brawl. Who is to guarantee it won't happen again? No one in sight that I can see, as long as the tax money is properly delivered.

With the fight game almost fading out a few months back, a series of lucky breaks suddenly developed, sparked by Turpin's victory over Robinson in England.

Saddler and Pep have always put on a good show. Marciano's victory over Rex Layne made the Louis assignment look much better than usual.

But the International Boxing Club and Madison Square Garden will have to show they know how to handle a big show before many thousands will return, regardless of who stars in the ring. The fans get mighty tired of being mishandled.

• • •

The TV Barrier

There is one angle of the television game that a great many thousands never seem to understand. The promoter has the complicated problem of selling the show and yet giving it away on the same night. When the day comes when television receipts outmatch the gate returns every show may be televised. It stands to reason.

If promoters can get $750,000 in the way of turnstile receipts without television, and $1,000,000 from television, then we'll have television.

More than a few of those connected with the fight game believe this will happen some day. I know Mike Jacobs said some time ago that we'd soon have big fights with less than 1,000 fight fans present, with television paying possibly $3,000,000 or $4,000,000. It seems that he was right.

But some way must be found to make the television owner pay his share of this money. When some inventive genius discovers the right way, everybody concerned will be happy.

It will be doubly interesting to see how the college football television program will work out. Men like Tom Hamilton, Ralph Furey, Asa Bushnell and others know their jobs thoroughly.

They have prepared the best program possible without wrecking too many teams

Football, it might be stated, is not on a very strong financial footing at the moment. The high cost of recruiting, of taking care of the players, of the double-platoon system has about wrecked the budgets of more than a few big teams. Television was costing them heavily at the turnstiles.

• • •

The Bowl Bids

This seems to be a bit soon for any football Bowl nominations, but you can't get arrested for guessing.

Rose Bowl—Washington vs. Ohio State or Illinois.

Cotton Bowl—Texas A. and M., Texas and Baylor all have a chance. Tennessee, Kentucky, or Alabama or Maryland can make it.

Sugar Bowl—Tennessee, Alabama or Oklahoma. Plus Maryland.

Orange Bowl—Miami vs. Maryland or Alabama.

For those trying to pick football winners in various polls from now on, the teams to watch are Tennessee, Kentucky and Alabama from the South; Ohio State, Michigan State, Illinois and Notre Dame from the Midwest; Pennsylvania, Navy, Princeton and Cornell from the East; Miami from the independents; Baylor, Texas A and M. and Texas from the Southwest; Oklahoma and Nebraska from the Missouri Valley; Washington from the West Coast.

You won't go too far off the happy road by picking most of these

Praises Dry Yeast's Speed

Farmwife is Prize-winning Cook

Fifty-two prizes in 3 years—that's the impressive record set by prize cook Mrs. Joseph J. Rizzo. This Cedar Falls, Iowa, farmwife is the busy mother of three children, including twins Peter and Paula (above). Yet she finds time to enter and win both State and County Fair Contests. Her latest triumph came at the 1950 State Fair where she won eight prizes in three different classifications.

Like so many top cooks, Mrs. Rizzo has *one* favorite yeast—Fleischmann's Active Dry Yeast. "It's so fast—and easy to use," she says. "I depend on this grand dry yeast for prize-winning results."

Everybody loves it—that deliciously *different* flavor of yeast-raised treats. So good to eat—so good for you, too. When you bake at home—do it with yeast—the very best yeast. Fleischmann's Active Dry Yeast is so fast rising, so easy to use—and always dependable! Buy a supply. You'll like it!

Klemme EVANGELICAL AND REFORMED CHURCH

Rev. Vernon E. Jaberg, Pastor

Sunday Services

Worship Service ---- 10:00 a. m.
Sunday School ---- 11:00 a. m.

On Sunday, October 28 in the Worship Service Dr. David W. Soper, chairman, Department of Religion, Beloit College, Beloit, Wisconsin will preach in the subject, "The Difference Between Failure and Success." He will speak to the Adult Bible Class on the Subject, "What Is or Was a Christian." All members and friends of the church are urged to take this opportunity to hear this outstanding theologian and teacher.

All members are reminded of the County Reformation Day Service to be held at the High School on Sunday, October 28 at 8:00 p. m. Dr. David Wesley Soper will speak on the subject, "Christianity is One World."

Thursday:

The Women's Chorus will rehearse at 7:30 p. m. The Mixed Choir will rehearse at 8:30 p. m. Members are urged to attend.

Saturday:

Catechetical instruction class at the regular hours.

School News

(Left Out From Last Week)

KINDERGARTEN NEWS

We are busy decorating our room with Halloween pictures we have colored and cut out. We are also trying to learn a song about Halloween.

Our teacher covered our blackboard with white paper and drew a circus with clowns, animals and a big tent for us to color. We received four new story books this week and one is about a baby elephant who lives with a circus. We like to have our teacher read this story to us over and over.

—Miss Schiek

FIRST GRADE NEWS

In reading we are now working in our third pre-primer. We had several perfect scores on our vocabulary test this week in one of our reading groups. They were Nancy Guth, Marie Hackett, James Hrubes, Kathleen Priebe and Julie Stokesbary.

Wednesday afternoon Julie Stokesbary, Harley Nuehring, Graydon Lau, and Velere Stromer went to Mason City to see Gene Autry.

Verlinda Stahl celebrated her birthday on Thursday by treating the boys and girls to candy bars.

In Art Wednesday we made orange and black chains and wrote Halloween across the back of our room.

There were four birthdays in our room this week. The boys and girls were Bruce Waddingham, Nancy Guth, Gary West and Velere Stromer.

Velere Stromer brought his dental card back this week.

Thursday all of the boys and girls helped build a horse about 3 feet tall out of blocks with steel spring fastners. Many other things can be built with these blocks.

We had perfect attendance Thursday, which was the first time in several weeks.

—Mrs. Brinkman

SECOND GRADE NEWS

Halloween has been the theme of the week for the Second Grade. We have been decorating our room with pumpkins, witches, cats, bats and all other things which are common during this part of the season.

In Spelling class we have made a chart to designate the perfect scores for the week. The pupils who received an "A" get a silver star, the rest get red stars.

We were happy to have several visitors in our room this week. They were: Mr. and Mrs. John Clements and Mrs. Ed. Christians.

—Mrs. Lemke

THIRD GRADE NEWS

Daryl Schlei and Daryl Kothenbeutal returned their dental cards signed this week.

Friday we put our train booklets together. The booklets had 17 pages in them and completed our study of trains in Geography. We learned many new things about trains.

Many boys and girls brought leaves to school. In order to enjoy them more we drew trees on large sheets of paper and glued leaves to the branches.

Several third graders went to Mason City this week to watch Gene Autry put on his show.

We have named our reading groups after birds. We call one class "Bluejays" and the other group "Cardinals."

Billy De Merritt returned to school Monday. He went to Wisconsin with his parents on a trip.

Claudia Neuberger and Ellen Waddingham were absent one day the past week.

Our teacher is reading us a good book. Its title is "Sea Star." It is the story of two children raising and training horses.

Mrs. Barkema

FOURTH GRADE NEWS

This week in Geography we began a new country, Norway. We find it's a very interesting country because it is the land of the "Midnight Sun."

Jane Renner returned her dental card signed.

Monday, William Evans celebrated his tenth birthday by treating the class to candy bars.

We had very good scores in Spelling this week. Twelve people had perfect papers and seven missed only one word each.

—Miss Franken

LET CORN DRY IN FIELDS THIS FALL

One Field Drying Day Equal To 10 In Crib

Farmers who delay picking so that corn will dry as much as possible in the field this fall will have fewer soft corn problems than farmers who pick too early.

One drying day in the field is equal to 10 drying days in the crib, according to C. H. Van Vlack, extension agricultural engineer at Iowa State College. He thinks the secret of saving soft or high-moisture corn is leaving it in the field to take full advantage of the drying weather during October. Corn dries most during warm weather of early fall, and doesn't dry much during the winter months.

Check Moisture Content

Van Vlack recommends checking the moisture content of corn before cribbing. For safe storage in an ordinary crib, the moisture content of the kernels should be down to 20 percent when cribbed.

Its important to get a good sample of corn for the moisture test. The agricultural engineer suggests picking at least 20 representative ears of corn from different parts of the field. Then use a screw driver to remove two rows of kernels from each ear. Mix the corn and seal in a tight container so it won't dry out on the way to the elevator where a moisture test can be made.

Clean Husking Important

If cribs aren't too wide, Van Vlack says that ear corn having 20 to 25 percent moisture can be cribbed. Ventilation must be good from all sides and clean husking is important. Ventilators uesd the length of the crib in effect make a narrower crib. Shelled corn should be screened out and softears sorted out as the corn goes into the crib.

Corn containing 25 to 30 percent moisture in the kernels is very likely to spoil in cribs, according to Van Vlack. It should not be harvested until cold weather, and crib ventilators should be used. The corn will keep during cold weather but will need watching again next spring when the weather turns warm It will likely have to be moved and sorted, Van Vlack says.

Feed Moist Corn Early

Corn containing more than 30 percent moisture in the kernels is likely to spoil in the best cribs if held longer than the winter months. That kind of corn should be fed out as soon as possible.

Maximium crib widths recommended are 6-7 feet for northeasten Iowa, 8 feet for central Iowa northwest to southeast, and 9 feet for southwestern Iowa.

SPIDER—

As she carried some fruit home from the grocer, a former Swea City resident Margery Korsrud of St. Paul, was bitten by a black widow spider. She became unconscoous within 48 hours and was removed to a hospital, she has recovered.

HURT

A truck mishap injured ten men near Garber recently; one of them Fritz Kann, received a crushed chest. The ten men were all riding in the truck when it hit a soft shoulder and overturned into a 14 foot ditch.

BETTER

Hardin county treasurer W. H. Lepley reports that taxes in that county were 96.3 percent "paid up" by the time the Sept. 30 dead-line was reached. The record topped the previous record, set a year ago, when 95.1 percent were collected before the deadline.

SUIT

A $74,934 personal injury suit was begun in district court at Storm Lake recently. Plaintiff Edward L. Larsen seeks reimbursement for injuries said to have been received when struck by a car in Newell.

Attending Meeting Of Grand Chapter At Sioux City

Mrs. Bonnie Beers, Worthy Matron, and Miss Marie Blank, Chaplain of the Eastern Star Chapter at Garner, left Monday for Sioux City to attend the meeting of the Grand Chapter of Iowa.

Mrs. Beers and Miss Blank expect to return home Thursday.

CITY FOLKS NOW—

Mount Vernon, Orange City, Greenfield and Lamoni, formerly towns, have now been officially designated as "cities" as a result of the 1950 official census.

AUCTIONEER
I wish to announce that I am a graduate of the Riesch American School of Auctioneering with training in different types of auctions.
I will sincerely appreciate any help given me in the Auction Business.

On motion and second the Board adjourned to October 8, 1951 at 9 o'clock A.M.

ATTEST:
Maynard Schoneman, County Auditor — F. J. Schoun, Chairman

SPECIAL CALLED MEETING
Garner, Iowa
October 3, 1951

The Hancock County, Iowa, Board of Supervisors met in session on above captioned date pursuant to call of the Chairman, F. J. Schoun, with the following members of the Board present, F. J. Schoun, Clint Daniels and Clarence Bird.

It was motioned by Supervisor Daniels and seconded by Supervisor Bird that the road culvert between the NW¼ of Section 2-94-26, Magor Township and the SW¼ of Section 35-95-26, Boone, Township, be temporarily plugged and that a road culvert be installed at the low point between the same two sections named above until such time as the natural watercourse can be determined and C. F Merten, County Engineer is hereby authorized and directed to determine said natural watercourse and report to this Board.

Upon roll call the motion was carried

On motion by Bird and second by Daniels the meeting was adjourned.

ATTEST:
Maynard Schoneman, County Auditor — F J Schoun, Chairman

HERE COMES THE
4-H BANDWAGON

October means it's 4-H enrollment month again. It's time to get aboard the 4-H bandwagon for the 1951 club year. Tickets are free for boys and girls 10 to 21 years of age. All you need is a 4-H enrollment card. Your local 4- Hclub leader or county extension office has one for you. Sign it soon.

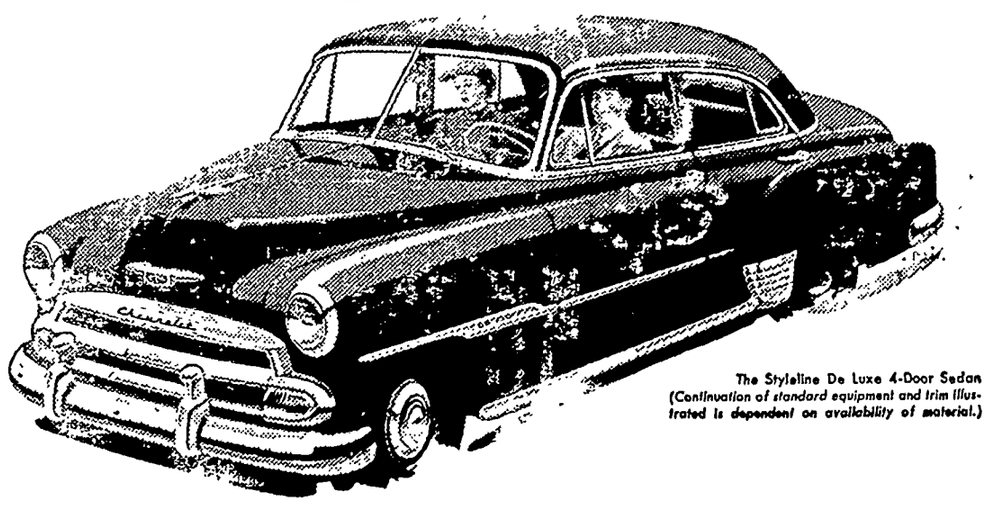
Size it up and you'll see why

More People Buy Chevrolets Than Any Other Car!



The Styleline De Luxe 4-Door Sedan
(Continuation of standard equipment and trim illustrated is dependent on availability of material.)

Longest of the Lot
Chevrolet looks longest, Chevrolet *is* longest . . . a swank and sweeping 197⅛ inches over-all that tops any other car in the low-price field. Size up Chevrolet's greater length, and you'll find it hard to settle for less.

Most Road-Hugging Weight
Gives you more road-hugging, road-smoothing weight . . . a hefty 3140 pounds† in the model illustrated that no comparable car in the field can match. Get the feel of this big car, and you won't settle for less. (†Shipping weight.)

Widest Tread in Its Field
Here's the steadiness of the widest tread in the field . . . 58¾ inches between centers of rear wheels. Once you've known the better roadability of Chevrolet's wider tread, you wouldn't settle for less.

Finest Comfort Features
Luxury of Body by Fisher . . . *cradled ease* of unitized Knee Action . . . *smooth control* of Center-Point Steering!

Biggest Brakes of Any Low-Priced Car
Big, powerful Jumbo-Drum brakes—*largest* in the low-price field! Use the car's own momentum to increase stopping power.

Way Ahead with Valve-in-Head
The trend's to valve-in-head. And Chevrolet's had it for nearly 40 years! Get sparkling performance and real over-all economy.

Join the Shift to No-Shift POWERGlide Automatic Transmission*
Sensationally smooth! Excitingly easy! It's a new experience in driving, the *modern* way to drive. Costs little more—or even less than many a car with standard gearshift!
*Combination of Powerglide Automatic Transmission and 105-h.p. Engine optional on De Luxe models at extra cost.

America's Largest and Finest Low-Priced Car!

Iowa Coins a Word

Around Estherville, some folks claim the word "blizzard" originated in their town.

It happened when a snow storm hit in the 70's. The editor described it as a blizzard. Other editors picked it up, and soon the word spread across the country. Today's dictionary doesn't refute Estherville's claim, either.

Well, that's how our language grows. Someone coins a word. Soon it becomes part of our everyday life. That doesn't happen in some foreign countries. Their language remains rigid and fixed, with few changes for generations.

I guess we Americans are more open minded in things like that. If enough people like a word, we adopt it. Of course, folks who prefer the older words can stick to their choice, too.

We like it that way . . . whether in choosing our words, or exercising our choice for horse races over auto races . . . or a temperate glass of beer over pop or lemonade.

That right of free choice not only keeps our language alive and growing, but our democracy, too.

BURNED

Lawrence Borchardt, farmer of near Carpenter in Mitchell County, was seriously burned last week when a gas explosion occurred in a recreation cabin there. He was attempting to light a gas plate, and his face and both arms were badly burned. Two companions received minor burns.

CAT

A three month old kitten which climbed a 50 foot Chinese elm tree in Cherokee brought out the fire department and all the neighbors in an effort to get it back down again. The firemen finally dislodged it but were unable to prevent it from falling kerplunk to the ground It was unhurt by the drop.

Draperies—Make Them—

DO WONDERS WITH YOUR WINDOWS

One of the fine touchs in making draperies is to line them, particularly if you are working with fabric of lovely quailty. Linings help keep draperies from fading, improve their appearance as seen from the outside and inside of the house, and help them hang better.

So new draperies are in your plan for redecorating the house this fall. Then perhaps you would like to know an easy step-by-step method to make them.

You don't need a sewing machine to make draperies. Use one if you wish, but if you are sewing on fabric for which you've paid a good price, then do what professionals do—make them by hand.

First of all, determine just how long you wish the drapery to be—to the apron or to the floor Plan each length before buying or cutting your material. This is very important—as June Brown, home furnishings specialist, Iowa State College, will tell you—if you have a design which must be matched on every length

Measure Carefully

Allow 7 inches extra on each length to provide for a 3-inch hem at the top and the bottom Cut off the selvage before you do any measuring or cutting.

Also make sure your fabric is on the straight up-and-down (grainline) Otherwise it will not hang carrectly when in place. Some loosely-woven textured materials may have been pulled out of shape in processing, Mrs. Brown cautions.

Place your drapery material wrong side up on a large table To make the side hems on a lined drapery, turn a 2-inch fold to the wrong side on each lengthwise edge Pin and baste. To make the bottom hem, turn a 3½-inch fold across the bottom and baste. Miter the corners to take out the exess material if your fabric is too heavy. One caution is that if you wish to use your draperies in another room at a later period, if the corner has not been mitered you can adjust the length.

Lining

If you do not plan to line your draperies, turn in the raw edges first on the sides and then on the bottom ½ inch, then hem as for a lined drapery Do not let the stiches show on the right side. (If you use a machine, adjust the length of the stitch and tension to the fabric)

If you intend to line the draperies, catch-stitch the raw edges down on each side first and then across the bottom.

Now turn down a 3-inch fold at the top so it covers a strip of crinoline cut 2 3-4 inches wide and long enough to extend across your drapery. Pin, baste and catch-stitch the raw edge down on the wrong side of the drapery

Perhaps you will use the new ready-made strip to make pinch pleats for your draperies. You can get it at a yard goods counter. Follow the instructions that come with it. This stiffening goes on the outside over both the fabric and lining, so is applied last.

To make the lining, cut it the exact width of your hemmed drapery, but 1½ inches longer to allow for a hem at the bottom. Turn up 2½ inches at the lower edge of the lining, and pin, baste and hem.

Mark Center Line

Mark a center line lengthwise of the drapery and lining. Place lining on top of drapery with wrong sides together, and with drapery hem extending about 2 inches elow lining. Keep center lines matching Fold the lining back on itself lengthwise, exactly on center line. Tack the line of lining to center line of drapery with knot stiches 6 inches apart, keeping thread loose. For a wide drapery there should be three rows of tacking.

Pin baste, and slip-stich along the sides. Turn in top edge of lining and slip-stitch at base of top hem of drapery.

Best finishes for the top are French pleats or box pleats even if you do plan to use a valance.

57 YEARS

Mr and Mrs Joe Heimer, a Stacyville couple, observed their 57th wedding anniversary recently. They were married in Stacyville in 1894.

HURT

Janice Walker, 2 year old Bancroft youngster, fell from her parent's car north of Algona recently and was seriously injured. The young lady was rushed to the hospital and was unconscious for 24 hours.

BARN GONE

Lightning won't strike the barn on the Milford Sampson farm near West Union a second time. The $12,000 structure went up in smoke. Mr. Sampson was leaning against a steel post when the bolt struck and received a wrenched back.

DON'T FEED CALVES TOO MUCH CONCENTRATE

Results of dairy calf feeding tests at Iowa State College confirm a hunch held by dairy feeding specialists that a farmer can over-do it when it comes to feeding calves concentrate mixtures.

Calves did just as well in the tests on a simple, inexpensive concentrate mixture as on several highly complex, expensive mixtures. Calves grew as well on the simple mixture and looked as good. The feeding tests covered the growth period through the first 7 weeks of the calves' lives. Calves were on a limited milk feeding program.

The simple concentrate mixture used in the tests consists of: 40 percent cracked corn, 30 percent crushed oats, 28 percent soybean oilmeal or similar high protein feed, 1 percent steamed bonemeal and 1 percent iodized salt.

Calves will start eating the simple grain mixture when they are about a week old. While soybean oilmeal was used in the mixture and fed in the experiments, it may be replaced in part by linseed oilmeal or cottonseed meal. The amount of high protein concentrate in the mixture can be reduced after the calves the 4 months old, the level depending on the quality of the roughage fed.

4-H club work has proven to be the key to success for many farmers and homemakers in this county. And many more boys and girls between 10 and 21 years of age are now taking advantage of the opportunities of the 4-H club program. We hope that you will join, too.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

SCRIPTURE: Genesis 37: 39: 41-47; 50. DEVOTIONAL READING: Psalm 105: 12-24.

When Life Gets Hard

Lesson for October 28, 1951

IN an army training center there is plenty to gripe about. Time was, when sundown came, every one was off duty. Now night only begins the trouble. Night marching, night "village fighting," night everything else, in snow and ice and mud all the same, and never with enough sleep. But the army keeps on rubbing those poor boys' heads in the dirt.

Dr. Foreman

Of course the army knows what it is doing. When the boys get through with camp, most of them will be sent to where some real fighting is going on. The enemy, unfortunately, does not confine his activities to the daytime. He fights at night, in the rain, in zero weather, even on your birthday. He picks some very rough hills to fight on. In the roaring confusion of shifting battle lines the soldier does not always get his chow on time, and the nearest hospital may be too far to reach. He is out where he has to be tough.

It is not only in the army that a toughening-up course is just what the doctor ordered. In real life it happens over and over again. It is not the boys who had the easiest childhood who rise most often to the top. It is the boys who worked, who had to work somehow for a living, who develop the toughness in mind and muscle to carry them through life's long struggle.

• • •

When Life Gets Hard

IT is sometimes thought that God should arrange things differently. What most of us want (lazy as we are) is a soft life, something pleasant, big pay and no work if we can help it. When life is easy for us we think, if we are religiously inclined, that God has blessed us; but if life gets hard, we think God must have forgotten us. Quite the contrary.

There is an almost forgotten verse in the New Testament: "The Lord disciplines the man he loves, and scourges every son whom he receives." (Heb. 12:6, Moffatt's translation.)

The man who is undisciplined never grows up, he is a perpetual boy. For the same reasons, no one ever became God's man except through God's discipline.

• • •

Forge For A Sword

THIS is as true of nations as of individuals. The story of the Hebrews in Egypt is one case in point. They had it hard, about as hard as any people who ever lived. They became slaves, and remained slaves for hundreds of years.

Humanly speaking, God's total plan would not have succeeded unless the Hebrews had gone through that "furnace of affliction." If Jacob and his family had stayed on in Palestine, there never would have been any Hebrew nation any more than there was an Ishmaelite nation.

Somewhere, some time, those Israelites had to be forged into tempered steel, a sword for God. And the slavery in Egypt was the first stage of the forging. It was a hard life; no doubt many died under the lash. But the hardy ones lived.

If Moses, when the time came, had had to take out into the wilderness a caravan of luxury-loving Egyptians, they would have wilted on his hands. It was because the Hebrews had lived hard in the slave-pens of Goshen that they could live hard in the wilderness when they were free.

• • •

Life Goes On

THIS is not the whole story, of course. Life, even the hardest kind of life, is not merely a preparation for battles to come. It can be worth living for its own sake.

The trainee may find friends and happiness even in a very tough camp. And down in Egypt, in all the years of Hebrew hardship, life went on. People fell in love and were married, children were born, were brought up somehow, were taught the difference between right and wrong, were taught about the true God.

People nowadays are sometimes jittery about the prospect of "life as we know it" being destroyed. Well, maybe it will be; who can deny that we have it coming to us?

But life will not be destroyed. Under the harshest of circumstances, life will go on, and those who will accept life's troubles as the sending of God will find a blessing even in what at the moment hurts the most.

A Tree Should Be Kept Within Bounds Always

Shade trees require trimming in the summer when they grow out of bounds.

Dense foliage of street trees create hazards by hiding traffic lights and obstructing views. Lush growth of lawn trees darkens the interiors of houses. A low-hanging branch, bowed under the weight of leaves, restricts passage over doorways and can become annoying to pedestrians on sidewalks.

Corrective pruning will eliminate these faults.

There are few trees that cannot be improved, in beauty and health, by judicious pruning. Raising limbs by eliminating lower branches will prevent sidewalk obstructions. It also lets in more light to the turf beneath, which is highly desirable under lawn trees.

BEST POP CORN I EVER ATE —TRY IT!
WHITE OR YELLOW
AT YOUR GROCERS

EAT ANYTHING WITH FALSE TEETH!

If you have trouble with plates that slip and rock and cause sore gums—try Brimms Plasti-Liner. One application makes plates fit snugly and stay that way, because Brimms Plasti-Liner is a permanent reliner. It relines and refits loose plates in a way no powder or paste can do. Even on old rubber plates you get good results six months to a year or longer. YOU CAN EAT ANYTHING! Simply lay soft strip of Plasti-Liner on troublesome upper or lower. Bite and it molds perfectly. Easy to use, tasteless, odorless, harmless to you and your plates. Removable if desired. Money back if not completely satisfied. Ask your druggist!

BRIMMS PLASTI-LINER
THE PERMANENT DENTURE RELINER

"hot flashes" Stopped or strikingly relieved
in 63-80%* of cases in doctors' tests

• If you're miserable from the "hot flashes," and accompanying irritable, restless feelings of "change of life"—you may be suffering unnecessarily! *For ...in tests by doctors ...Lydia Pinkham's Compound and Tablets brought relief from such functionally-caused suffering to 63% and 80% (respectively) of the women tested! Complete or striking relief!

Yes! Research has proved these medicines thoroughly modern in action ... has shown you where to look for relief from those distressing, nervous, "out of sorts" feelings of mid-life "change"!

So.. get Lydia E. Pinkham's Vegetable Compound—or new, improved Tablets, with added iron! (Wonderful, too, for the functional pains of menstrual periods.)

It acts through a woman's sympathetic nervous system to relieve distress of those awful "heat waves".

it's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE —NOT GOOD FOOD

• Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon ... right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.

FEEN-A-MINT
FAMOUS CHEWING-GUM LAXATIVE

Crime in America

By ESTES KEFAUVER
United States Senator

Six of a Series

Miami: Polluted Playground

As we opened hearings in Miami, it oppressed us that an area so blessed by nature could be so polluted by man. The fabulous coast had become the plunder-ground as well as the playground for America's most vicious criminals.

With the nod of well-paid so-called law enforcement officers, Miami was the winter capital of the national crime syndicate.

A great deal of this has been changed. The senate crime committee's investigation bolstered the efforts of Miami's decent citizens to strike back against the underworld.

Even months after our disclosure in Miami, the lid still was clamped tight upon illegal bookmaking, in so far as any large scale activity was concerned, and many of the gambling casinos run by out-of-state hoodlums were shut down

• • •

Let us begin with the story of Walter Clark, sheriff since 1933 of neighboring Broward County, of which prosperous Fort Lauderdale is the seat. In Sheriff Clark's bailiwick, there were three notorious gambling joints Among the out-of-state racketeers said to be associated with them—as well as in Miami casinos — were the infamous Joe Adonis, the brothers Meyer and Jake Lansky, Vincent (Jimmy Blue-Eyes) Alo, and bookmaker Frank Erickson (since imprisoned), all of New York City and New Jersey, and, from Detroit, Joe Massei and William G Bischoff, alias Lefty Clark.

I asked Clark why he violated his oath of office by ever letting them operate. He gave the brazen reply:

"I was elected on the liberal ticket, and the people want it and they enjoy it."

Clark went on to reveal he had been well acquainted with gambler Jake Lansky for 12 or 15 years and that Lansky among others, "contributes to the campaign."

In Miami (Dade County), we looked into the activities of James A. (Smiling Jimmy) Sullivan, a former traffic policeman who had been sheriff since January, 1945. The voluble Jimmy, who wasn't smiling much toward the end of his examination, admitted that his assets jumped from $2,500 to approximately $70,000 during his five years in office.

• • •

Of Smiling Jimmy's performance on the witness stand, the committee, in its report, had to conclude: "Much of Sullivan's testimony was vague and evasive, and the committee does not consider it credible." The fantastic aftermath, however, was this:

After a grand jury indicted Sullivan, charging him with neglect of duty, failing to enforce gambling laws, and permitting deputies to accept bribes, Governor Fuller Warren, in October, 1950, suspended him from office. Early in April, 1951, however, the indictment having been dismissed on a technicality, the Governor reinstated him.

A tragic sidelight was told us by George Patton, who, after serving his country honorably in World War II, became a Miami Beach policeman and later a deputy. He declared he had intended to be an honest officer but soon "learned that law enforcement didn't always operate the way I thought it did."

Patton said that when he later became a deputy of Sheriff Sullivan, he collected "close to $50,000" in bribes over a period of nine months for protecting gambling on Miami Beach. He was the "bag man," or collector, he said.

• • •

Two other Miami Beach hotels had special prominence in the operations of mobsters. One was the Sands hotel operated jointly by Alfred (Big Al) Polizzi, one-time Cleveland mobster and Dave Glass and Benny Street, both of whom had convictions in Philadelphia as horse-book operators. We also learned from questioning Polizzi that his good friend, John Angersola, silently held half of Polizzi's 25 per cent interest in the Sands. Angersola, in addition to interests in the Wofford and the Sands, had a piece of still another mob-favored hotel, the Grand.

Purely local and state political matters, of course, were outside of our jurisdiction, but we had a legitimate interest in Governor Warren's 1948 campaign financing because of a $100,000 contribution from William Johnston, the Chicago and Miami horse and dog track operator, and long time associate of the Capone gang.

Johnston insisted, of course, that it was merely his "strong friendship" for the governor which prompted the gift.

The gigantic operation of the S&G bookmaking syndicate was another major avenue of inquiry. The syndicate, which itself admitted that it grossed $26,000,000 in 1948, was started in Miami Beach in 1944 by five "local" boys.

For a long time, the S & G monopoly over Miami Beach bookmaking was almost 100 per cent complete Even the then-powerful Frank Erickson, who had paid $45,000 for a three-month bookmaking concession at Meyer Schine's luxurious Roney Plaza hotel, came to grief when he attempted to buck it. Schine, after he broke off an arrangement with S & G and made the contract with Erickson, was visited by Detective Pat Perdue of the Miami Beach police Schine said that Perdue told him he should not let the contract go to Erickson.

• • •

There was only one flaw in the S&G's highly efficient operation. It became so profitable that it aroused the cupidity of the prosperous crimesters from Chicago who, in the approved manner of upper bracket-hoodlumdom, wintered on beautiful Miami Beach, soaking up the sun on their daily walks from hotel to horse parlor

Then, as our Committee reconstructed the story, the ubiquitous and sinister partnership of Guzik & Accardo entered the picture. It is the Committee's contention that Guzik & Accardo acting for the Chicago-Capone Syndicate, dispatched Harry Russell, a Chicago gambler to S&G early in 1949

Understandably devoted to their $26,000,000 business, the S&G partners didn't want to be "muscled." They declined The Chicago interests were disappointed but gentlemanly about it. Nothing crude transpired

Their Mr. Russell simply began building up a syndicate of his own, and bookies at a number of plush hotels, dominated by the Chicago mob, flocked over to Russell.

• • •

Next, Governor Warren's crime investigator, W O Crosby, appeared. Here things get a little complicated: His friend, Russell, Crosby conceded to us, started feeding him information on various books that he might raid, and Crosby started raiding them. All were places operated by S&G bookies.

Finally came the crusher: S&G was buying its wire service from the local distributor of the same Continental Press that already had undergone the experience of being squeezed by Guzik and Accardo. This service was abruptly shut off, leaving S&G paralyzed.

In just about 10 days, the S&G partners took another look at Harry Russell and decided they had been wrong. They decided to recapitalize their business—though they admitted to us that they really did not need any capital—and to let Russell have one-sixth interest. The price they asked for this one-sixth interest in a business that had grossed $26,000,000 the previous year was $20,000

At the same time Mr. Russell bought into the S&G for $20,000, the S&G "boys" happened to buy a boat named the Clari-Jo. The price of the Clari-Jo happened to be $20,000, and the owner of the boat—lots of coincidences here— just happened to be Tony Accardo.

Accardo, when we had him in the witness chair later, refused repeatedly to answer questions about it. Finally, however, Senator Wiley innocently inquired, "Who baptized that name, Clari-Jo? Accardo, momentarily off-guard, replied, "That is my wife's first name and my middle name." As spectators roared with merriment, the crestfallen hoodlum rubbed his jaw with the hand that has a dove tattooed between the thumb and trigger-finger.

"I fell into that one!" he blurted.

Guzik and Accardo's 1949 tax return showed a loss of $7,252 due to "S&G Service."

Anyway, the S&G squeeze hit lemons instead of the jackpot. The combination of the senate committee's disclosures and the opposition of the law-abiding elements in Miami Beach finally generated a heat that even the powerful S&G syndicate could not cool off. Abruptly, "the boys," without consulting their Chicago associate, Mr. Russell, decided to go out of business.

Next Week: Tampa, Wholesale Murder.

Condensed from the book, "Crime In America," by Estes Kefauver. Cpr. 1951. Pub. by Doubleday, Inc. Dist. General Features Corp.—WNU.

VOTED DOWN

Attempt To Re-Create Crime Body Fails

WASHINGTON — A Republican proposal to re-create the Senate Crime Investigating Committee and give it $150,000 for a new probe was voted down by a Senate Commerce committee.

Chairman Johnson (D., Col.) said that the proposal was defeated because Democrat members of the committee felt the Senate District of Columbia committee, now looking into crime conditions in Washington, has the authority to extend its investigations to other parts of the country if necessary

He also pointed out that the previous committee investigations had left a big calendar of legislation.

The session did approve four anti-gaming bills, three of which were recommended by the Kefauver committee.

UP AGAINST IT

A country merchant received a dunning letter from a wholesaler. A few days later the Wholesaler received this reply. "Dear Sur—I received your letter about what I owes you. Now be pashent. I ain't forgot you, and as folks pay me I'll pay you. But if this was judgment day and you was no more prepared to meet your God than I am to meet your account, you shore would visit Satan. Goodby."

Forthright

At a dinner party several doting mothers were discussing their children's illnesses with the guest of honor, a noted pediatrician. One mother asked, "Doctor, what do you find to be the principal ailment of children?"

The doctor considered the question, then answered gravely, "Mothers, madam."

FARM FABLE

A New Yorker, pointing to a hillside field, complimented the New Englander on his corn.

"How do you plow that field? I looks pretty steep."

"Don't plow it; when the sprin thaws come, the rocks rolling dow hill tear it up."

"That — How do you plant it?'

"Don't to plant it really. Just stan in my back door and shoot the seed in with a shotgun."

"Is that the truth?" asked the New Yorker.

"No. That's conversation."

Bred and Bored

To please his father, orator Wendell Phillips attended Harvard law school. After receiving his degree, he hung out his shingle, but no clients were attracted. Several months passed and still his office was empty. In disgust, Phillips decided to quit and enter a more lucrative profession.

"Don't be ridiculous," a friend advised. "Stick to it and you'll get ahead. You were bred to the bar."

"Maybe so," Phillips cracked back, "but the bar isn't bread to me."

Check or Cash?

Excited Neighbor: "Come quickly, Mrs. James. Your husband's took hold of a thousand volts."

Mrs. James: "How exciting. And how much is that in dollars and cents?"

FIRST AID TO THE AILING HOUSE
BY ROGER C. WHITMAN

White Painted Walls Turned Yellow

QUESTION: What can be done to keep walls that are going to be painted white, from turning yellow? My white painted walls have always turned yellow or have discolored. Would putting bluing (laundry blue) or else some blue paint in with the white paint prevent this discoloration? How much should I use in each gallon of paint?

ANSWER: A good grade of paint should not turn yellow or discolor I believe you bought an inexpensive grade. I would not advise using laundry blue. If you wish to add a small amount of blue paint to the white, it should be perfectly all right, and might help to give a good white effect. But do not attempt to mix the paint yourself Ask your paint dealer to mix it for you in his mechanical mixer If you try it yourself, add very small quantities of color in oil and thoroughly stir each amount until you get the desired shade.

Housework Easy Without Nagging Backache

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Wellemeyer Store To Hold Opening Friday-Saturday

NEWLY REMODELED STORE WILL HOLD OPEN HOUSE TWO DAYS

Will Serve Coffee And Doughnuts To All Visitors Two Days

Friday and Saturday are big days at the Wellemeyer Furniture Store when they will hold their formal opening. The store has been remodeled and redecorated extensively from top to bottom and the firm is displaying an unusually large line of new furniture and floor coverings.

Mr. Wellemeyer has also two new young men as partners in the business. Donald Bacon of Lake Mills and Howard DeMotts of Clear Lake. Henry Wessels has been with Wellemeyer for several years as linoleum layer.

During the two days a demonstrator will be at the store teaching all interested women new methods of using sewing machines and how to use attachments that come with the machine.

Hot coffee and doughnuts will be served throughout the two days: Friday and Saturday of this week. The store is aiso giving away a number of valuable gifts to the people who call to visit the new store.

HOSPITALIZED IN KOREA

Pfc. Harvey Ausborn

Mr. and Mrs. Albert Ausborn have received further word from their son, Pfc. Harvey Ausborn, who was wounded in action October 9th near Yonchon, Korea. At last reports Harvey expected to undergo an operation on one leg. He was struck by shrapnel in both legs and was hospitalized at Pusan.

REFORMATION DAY SERVICE DREW LARGE CROWD TO HEAR DR. SOPER

The county-Wide Reformation Day service held in the Klemme high school auditorium Sunday evening drew a capacity crowd and most parts of the county were well represented.

Dr David Wesley Soper gave an inspiring address in the subject of "Christianity In One World." Special music was furnished by the two church choirs in Klemme.

Klemme Folks Return Home From Ten Day Trip

Mr. and Mrs. Irving Haupt, Mrs. Bertha Schlei and Mrs. Axel Juhl of Clear Lake have returned home from a ten day trip and visit with relatives and friends in Illinois.

Mrs. Juhl, who is Mrs. Dale Schlei's mother, visited at the home of her daughter at Elgin, Illinois.

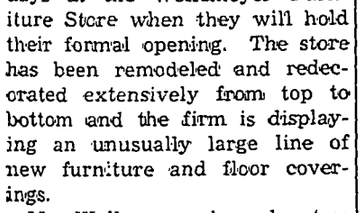
At Pekin, Illinois the Haupts and Mrs. Schlei visited with Mr and Mrs. Floyd Burnham, who send greetings to their many Klemme friends. Mrs Burnham is a sister of Mrs. Calvin Grosshuesch. They attended the corner stone laying of a new E. & R. Church at Pekin. The new church will cost in the neighborhood of $400,000.

All enjoyed their trip very much and enjoyed their visits.

Naomi Circle Held Meeting

The Naomi Circle, No. 2 met at the home of Mrs. Bud Neuberger on Wednesday with Mrs. Dale Shelton as lesson Leader.

There were 18 members and one visitor present.



By E. D. PLASS, M. D.

(winner of the 1951 Iowa ACS bronze metal for his outstanding contributions to cancer control.)

Is Cancer Spread As A Result Of Surgery?

In all probability, "no." When surgery is employed to treat cancer and the result is unfavorable in that the tumor continues to grow, it merely means that for one reason or another the tissue removed did not contain all the cancer cells. Either (1) the tumor had grown locally farther than could be determined at operation, or (2) for technical reasons the cancer could not be completly removed, or (3) the tumor had already spread to distant areas (metastases) by way of the blood or lymph stream. Possibly the best support for that belief that surgery does not cause cancer to spread lies in the freedom with which tissue may be safely removed for biospy from available areas. Cancer experts are well convinced that biopsy does not spread the tumor and yet in regions such as the breast the entire mass is generally removed as an added precaution. In other places where this is impossible, for example, the uterine cervix, even repeated biopsies do not unfavorably influence the course of the disease.

Surgery, then, does not spread cancer; but the cancer may spread in spite of surgery, when ever conditions are such than the entire tumor cannot be removed.

How does cancer compare with other diseases as a cause of death?

Cancer now stands second to heart disease as a cause of death in this country. In 1948, there were 482,000 deaths from heart disease and 197,041 from cancer.

In Iowa, there is one death from cancer every 2¼ hours, every day; in the country as whole, 550 cancer deaths every day, two every five minutes.

For answers to cancer questions write American Cancer Society, Mason City, Iowa

This is a public safety service of your safety-minded businesses and this newspaper in cooperation with the Iowa Safety Congress

Sometime within the next few weeks a traffic accident will deposit a most remarkable corpse on the conscience of this nation. The one-millionth person will be killed in or by the use of an automobile.

The millionth man will die because he or someone else will perform a careless act. Probably it will be nothing unusual- a thoughtless step into a busy street, needless speed, a driver's moment of inattention, a hurried pass, an ingored stop sign.

These are mistakes any one of us is capable of making. This makes any one of us eligible to be the millionth traffic victim. Given the right time and the wrong move and you can become Mr. Million.

Your Iowa Safety Congress advises: Take your time in traffic. Make the right moves, whether walking or drifving. Realize that you can be the millionth traffic death. Determine not to be. Reserve your best judgement for your biggest job - driving.

SCHOOL MUSIC DEPARTMENT TO GIVE CONCERT

A concert will be held at the Klemme high school on Wednesday, November 7th at 8:00 p. m. under the direction of Mr. Charles Whitford.

There will be selections by the Junior band, boys and girls Glee Clubs and the Senior band. Over seventy students will participate.

Following the Concert the Music Motners will serve cake, orange drink and coffee.

Persistant Hunters Bag Honker After Six-Mile Chase

Henry Ward and his son-in-law, Melvin Schaefer were duck hunting on a pond near the Ward farm Sunday morning when a goose flew over. Schaefer banged away at the honker, which wavered and came down further away on the Ward farm.

The two hunters gave chase, the goose got up and flew west and again landed at the Elmer Schneider farm. They found the goose which again got up and flew west to the Harvey Harberts farm.

Henry Ward again found the goose along side of a corn field but this time was in range and as the goose got up Henry dropped it with a heavy charge. It was a Canadian honker and weighed 9 pounds.

The story closes with the "goose hanging high" and two tired but happy hunters. There will be wild goose served for Thanksgiving.

Mrs. Lena Schroeder Given Birthday Suprise In Oklahoma

Mrs. Lena Schroeder left Saturday, October 20th for an extended visit with her daughter and family, Mrs. Cleo Ingle at Dover, Oklahoma.

On Sunday afternoon she was pleasantly surprised by all the Ingle relatives who came bringing gifts and wishing her happiness.

A two-tiered decorated cake with 70 candles was served with ice cream and coffee late in the afternoon.

BASKETBALL TOURNAMENT DRAWINGS ARE ANNOUNCED

Drawings for the two basketball county tournaments, boys and girls, have been announced as follows:

Girls Tournament At Klemme

The Hancock County Girls Basketball tournament will be played in the Klemme Gym on December 13, 14 and 15 1951 with the following pairings in the top bracket:

Corwith vs. Crystal Lake and Woden vs Klemme. In the lower bracket Goodell vs. Kanawha and Hayfield vs bye.

Britt Is Tournament Site

For the first time in several years the boys county tourney will be held in Britt The pairings are as follows: upper bracket: Goodell vs. Britt, Woden vs. Corwith. Lower bracket: Garner vs. Klemme, Kanawha vs. Hayfield. and the winner of that game vs. Crystal Lake

The boys tournament will be played January 23, 24, 25, 26 and 27.

Mrs. Fred J. Arnold Entertained Bridge Club Thursday P. M.

Mrs. Fred J. Arnold was hostess to the U-Delt-Em club at her home Thursday afternoon.

Contract bridge was played with Mrs. A. H. Dulmes winning high prize and Mrs. Edna Thada, second. Mrs. Lloyd Lau was a guest. Mrs. Arnold served lunch after the games.

HELLO FOLKS

Mr. and Mrs. Eugene Haberkamp of Huxley are the proud parents of a baby girl, Linda Carol, born Tuesday, October 23, 1951 at a Des Moines hospital.

Mr. and Mrs. Marvin Bredlow are the parents of a baby girl born October 30 at the Forest City hospital. She tips the scales at seven pounds and seven ounces.

ANNOUNCE HANCOCK COUNTY FAIR ASSOCIATION ELECTION

Floyd Friedow president of the Hancock County Agricultural "Fair" Society announces their annual meeting set for Monday night, November 5th at the REA Building in Garner at 8:00 p. m.

The business will be to elect 5 directors; 2 directors for 3 year terms, 2 directors for 2 year terms and 1 director for a 1 year term. Mr. Friedow reminds you that each eligible voter in the county is a member of the Society of Fair Association.

Friedow also points out that with the plans to build and finance a set of buildings for a Junior Fair everyone interested in this program should make an attempt to be at this annual meeting.

Auxiliary Family Pot Luck 6:30 p. m.

The Auxiliary members and their families are invited to the Methodist church on Tuesday, November, 6th for a pot luck supper. At 8:00 p. m. that evening State Commander Weible will give a talk and the public is invited to attend.

BY RAY EASTMAN

We step aside this week and give place to an unkown Japanese who managed to give a safety message more charm-if less grammer-than any we have ever read.

This is reprinted from Public Safety magazine and was taken from "an old Japanese digest of traffic laws and ordinances."

"At the rise of the hand of policeman, stop rapidly. Do not pass him by or otherwise disrespect him.

"When a passenger of the foot hove in sight, tootle the horn trumpet to him melodiously at first. If he still obstacles your passage, tootle him with more vigor and express by word of mouth the warning 'Hi, Hi!'

"Beware of the wandering horse that he shall not take fright as you pass him. Do not explode the exhaust box at him. Go soothingly by, or stop at the roadside till he pass away.

"Give big space to the festive dog that make sport in the roadway." Avoid tanglement of the dog with your wheel-spokes. Go soothingly on the greasemud, as there lurk the skiddemon.

"Press the brake of the foot as you roll around the corner to save the collapse and the tieup."

Here the excerpts ends. Some of the advice is good and some of it impractical. We can't see, for example, pulling to the side of the road and waiting for a horse to die. Sorry.

But we like this easy, poetic view of traffic and wish it were possible today. What a happy situation if all "tootles" were melodious; if we could all "go soothingly by."

Brother Of Mrs. C. Christie Killed In Korea Oct. 10

CORPORAL BILLY LEWIS

CPL. BILLY LEWIS KILLED ON FIELD OF BATTLE

Mrs. Charles Christie Notified Of Brother's Death By Government, Friday

On Friday, Mrs. Chas. Christie, Klemme young lady, received the sad news from the War Department, that her only brother, Corporal Billy Lewis was killed in action in Korea October 10th. No other details were given but she was informed that full details would be sent later.

Corporal Lewis, 19 is Mrs. Christie's only near relative. He enlisted at the age of 17 and was stationed at Fort Ord, California. He attended a special engineering school at Fort Belvoir, Virginia and from there went to Camp Stoneman. He left the States on Good Friday for the Pacific theatre and was in Japan shortly before going to the Korean front. Later he was transferred to Eta Jima where he took a special foreman course from which he graduated September 9th and then went back to the Korean battlefront where he was killed in action on October 10th, according to the message received by his sister.

Corporal Lewis was 19 years old on his last birthday, September 30th. Both of his parents are dead and his sister, Mrs. Charles Christie was his next of kin.

FIRST WOMAN BORN IN KLEMME DIED AT MASON CITY HOME

Mrs. Vernon (Hazel Peitzke) Stone, 61 died suddenly Thursday evening at her home at 616 Polk S. W., Mason City.

Mrs. Stone will be remembered as the first baby born in the new village of Klemme 61 years ago. She was born in a small 2-room house located on the same lot, but just south of the present Wallace Pavey residence. The J. W. Buettner or Pavey house was built some little time later.

In the fall of 1891 Mr. Peitzke moved their small house to lots he bought of August Barz and is now part of the house where Vern Bisom lives.

Mrs Stone and her husband have lived in Mason City for the past 25 years and operated a grocery store in connection with their home.

Surviving are her husband, Vernon Stone, mother, Mrs. Myra Peitzke of Fort Dodge; brother Roy Peitzke of Waterloo; and 3 sisters, Mrs. Blanche Allen, Minneapolis; Mrs. Fay Thompson, Eagle Grove and Mrs. George Ditzel, Spencer.

Funeral services were held Saturday at the James-Patterson Chapel in Mason City, with Dr. Lloyd A. Gustafson, pastor of the First Methodist Church, officiating. Interment was at Luverne, Iowa.

NO SCHOOL FRIDAY

TEACHERS WILL ATTEND STATE INSTITUTE

The Klemme Schools will have a vacation this week Friday, when all of the teachers will go to Des Moines to attend the annual state institute. Classes will be dismissed at 2:40 on Thursday.

Mary Circle

Circle Three met at the home of Mrs. C. A. Larsen Thursday afternoon, with Mrs. A. H. Ahrenkiel as assistant hostess. Mrs. Roy Jacobs had the lesson and presented a short play. 19 members, 4 visitors and 10 children were present. A delicious lunch was served.

FATHER OF MRS. FRANK SCHULTZ DIED AT AGE OF 93

Funeral services were held at the Hayfield Methodist Church on Saturday, Oct. 20 for Garret V. Geddes, 93, a long time resident of the Hayfield community.

Mr. Geddes died on Thursday, October 18 at the home of his daughter. Mrs. Frank Schultz at Klemme after a brief illness caused by the infirmities of old age. He had made his home with Mr. and Mrs. Frank Schultz for the past few years.

Officiating at the funeral was the Rev. G. J. Hjelmaas. Two hymns were sung by Mr. and Mrs. Owen Taylor. Interment was in the Concord cemetery, Garner, the pallbearers being; Robert Schultz, Lester Neuberger, Harold Geddes, Orville Borg, Donald Geddes and Harland Thompson.

Mr. Geddes was born August 1, 1858, the son of Abram and Jane Geddes, at what is now South Chicago, Ill. There he lived until a young man. He came to Hancock county 68 years ago and has resided here since, except for ten years spent in northern Wisconsin.

He was married February 22, 1885, to Minnie Stiniker at Garner. They established their home on a farm east of Garner, later moving to this locality.

Mr. Geddes improved several farms in this locality, bringing the raw prairie to fruitful farmland. He owned several farms and town properities. He was considered a hard worker during his active years, and by thrift assumed responsibility for himself and his community.

Since the death of his wife in 1934 he had lived at the home of his daughter, Mrs. Frank Schultz. She and her family did everything to help make his last years as comfortable as possible.

Besides his wife, Mr. Geddes was preceded in death by two children, in infancy; a daughter, Mable, in 1918; and a son, Abram, on the sixth of this month.

Surviving are three sons; Guy, Chester and Quentin, all of this locality; and one daughter, Mrs. Gertrude Schultz; 12 grandchildren, several great grandchildren; and an aged brother, Jason of Grand Forks, N. D.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

SCRIPTURE: Exodus 3—4. DEVOTIONAL READING: Deuteronomy 32:1-9.

God and a Man

Lesson for November 4, 1951

WHEN God created this world he did it by himself. Since that time, where affairs of this planet are concerned, when God wants to do something for mankind or for a man, he seldom does it by himself. He always has assistants.

Dr Foreman

When God wants to raise a crop of wheat he never raises it alone When God wants to feed a city he feeds it by the innumerable hands of farmers, merchants, carriers of cargo the world around. When God wants children cured of diptheria he does so—with the help of the men who discovered and perfected diphtheria anti-toxin.

Doubtless God could work alone; but just as doubtless, he seldom does. Even when God wants to split a granite cliff in the wilderness, he does not use a magic axe; he uses things we can see: the frost-crystals and the sunshine

* * *

God's Man for God's Work

THIS is also the story the Bible tells. Centuries ago there were some thousands of slaves in Egypt, Hebrew slaves, descended from the free man Abraham. God, we are told, wanted those slaves set free.

How would you have expected God to do it? If God is all-powerful, if he can do just anything he wants to do, and he wants these men set free, how will he do it? Will he reach down a mighty hand and lift them as you might lift a handful of the smalest ants, and set them down on some bit of free soil far away from Egypt? Will he send an army of angels to batter down the fortresses of Egypt, destroy her armed forces and set his people free?

Let us waste no time arguing whether God could or could not do such things. Let us assume that he could. The point is: he did not.

He called a man, a man named Moses. Already Moses had gone through a long life, and perhaps he thought of himself as at the end of his trail. If Moses had been asked, he might even have said that all his life's experiences had gone for nothing. But God knew better. God knew that everything that had formed Moses' mind and character—his family, his training and education, even the long lonely years as scout and sheepherder at the back of beyond,—everything in his past life was to be useful in the most important part of his life that still lay ahead. For God's work, Moses was God's man.

* * *

Moses Has Many Opposite Numbers

JUST as Moses was God's personal agent in liberating the slaves from Egypt, so down through the centuries Moses has had his "opposite numbers"—men and women who have brought to pass what (religious persons find reason to believe) God intends to bring to pass.

God wanted the good news about Jesus to be spread throughout the world. But this has come to pass only as Paul and a long line of missionaries have gone through one country after another with the message of God. God wanted the records of Jesus' life, or at least some facts about Jesus and his teachings, put down in writing and not left to men's memories.

But he did not write the Gospels—he inspired certain men to write them. God wanted the Christian world, in our time, to awake to the "open sore of Africa" and to send missionaries to that dark continent. But he chose a man, David Livingstone, to do this for him.

Wilberforce was God's agent for freeing the slaves of Great Britain, as Lincoln and many another were in America.

* * *

God's Ways Are Not Always Understood

IT is easier to say these things years or centuries after the event than at the time they happen.

Moses at first could not believe he was the man God wanted; tried in fact to talk God out of it. Jeremiah doubted whether he should ever have been a prophet. Lincoln often had moods of the blackest. John Calvin sat up half the night in a Geneva boarding house giving Pastor Farel all the good reasons why he, Calvin, could never be a suitable man for the very job in which he became a famous hero.

Even God's own man sometimes does not realize his greatness But God knows! And in time we all do

A Lesson

One of my pet canaries ate a lot of frankfurters. He felt so happy he started to chirp. My cat heard him chirp and ate 'em up.

Your cat ate the frankfurters?

No, he ate the canary.

What has that got to do with me?

You should keep your mouth shut when you're full of bologna.

Reds Explode Second Atomic Bomb; American Harvest Is Satisfactory

THE RUSSIAN BOMB—The question of what the Russians have been doing about the atomic bomb since the first explosion was announced in September, 1949, was answered last week with a White House announcement that another bomb has been exploded.

A few days later Stalin made the announcement in Russia. It was the first time the Russian people had been given any information concerning that country's atomic bomb progress.

The announcement was received in the home towns of the nation much more calmly than the report of the first explosion. The White House statement which said the new explosion was an atomic bomb, belies Communist propaganda that Russia's atomic energy development is strictly for peaceful purposes and not the manufacture of weapons.

The White House announcement said, in part: "In spite of Soviet pretensions that their atomic energy program is being directed exclusively toward peaceful purposes, this event confirms again that the Soviet Union is continuing to make atomic weapons."

Warren Austin, (left), chief U.S. delegate to the UN, is greeted by Philip Jessup as he reported to a senate committee to testify in defense of Jessup's nomination as a UN delegate. Austin volunteered to appear in behalf of Jessup, who is accused by Sen. McCarthy of being "a dupe of the Communists."

Shortly after the new explosion was announced, a British source said the Russians probably now have a stockpile of 50 atomic bombs. Although the Russians have many able scientists, much of their rapid progress in atomic development is due to secrets learned by such men as Klaus Fuchs and Bruno Pontecorvo.

IDENTIFICATION TAGS—The Federal Civil Defense administration has recommended that every civilian in the United States and its territories wear an identification tag bearing his name and address, blood type, religion, and the name and address of a person to be notified in case of injury or death. The agency recommended the tag be worn permanently on a neckline, bracelet or on a chain around the ankle.

In the event of all-out war or atomic attack, the tag would serve to identify not only the injured or dead, but the mentally ill, persons suffering from shock or amnesia, and small children. It would facilitate medical attention, help to reunite families, and be useful in legal claims of various kinds associated with damage to or destruction of life and property.

The procurement and distribution of such an identification device, and the establishment of rules for wearing it, will be the responsibilities of state civil defense agencies.

THE WHITE HOUSE—Senators, ever conscious of grass roots democracy and its lack of pretentiousness, asked a few pointed questions last week concerning the White House which has been under-going remodeling since December 7, 1949.

The senators were told "there is no royal elegance in the building. It is in keeping with dignity, but there is nothing of elegance in this building that is not equaled in many, many a private home throughout the country. It is dignified and fine, but not too fine."

All this was told behind closed doors to the senate appropriations committee before it recommended spending another $261,000 on the reconstruction of the building. Reconstruction is expected to be complete early next year.

The need for additional funds ($5,500,000 has already been spent) was attributed to increased costs of materials and unexpected delays. The building which had been on the verge of collapse has been reinforced with steel, a basement added, and new quarters made in what was formerly the attic.

AMERICAN HARVEST—Americans will eat well this coming year and, at the same time, will be able to fill its world food commitments, according to the Department of Agriculture's report of the 1951 crop situation.

It has been a trying year due to the Kansas-Missouri flood area and drought damage in a number of other sections. But the 1951 harvest is described as satisfactory.

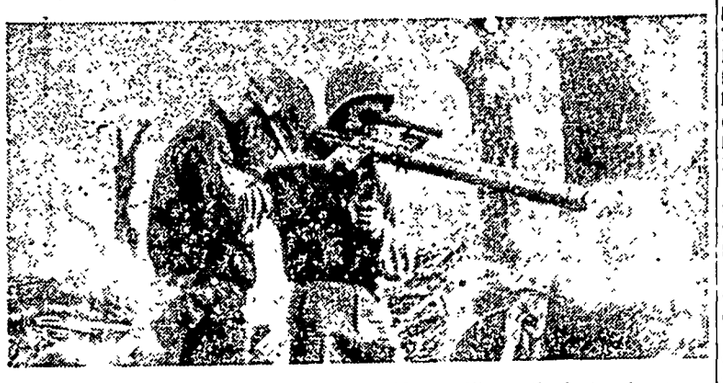
The corn crops will be in excess of 3,000,000,000 bushels. The Agriculture department had asked for 3,500,000,000 bushels. The winter wheat harvest is expected to total 1,000,000,000 bushels, a little less than the department asked, but not dangerously low.

Generally other crops followed the wheat-corn pattern.

NEW TRUCE TALKS—Gen. Matthew B. Ridgway has agreed to the Panmunjom area as a site for new Korean cease-fire talks. The village is located six miles east of Kaesong and 12 road miles northwest of Munsan.

The agreement on a site for the talks does not mean, however, that the talks will actually take place. There remains to be settled a number of technical questions concerning neutrality and policing of the area that could disrupt the best made plans.

Meanwhile, savage battles were being fought in west Korea with the Reds using artillery at a rate unknown to the Communists since the start of the war. But the Allied fall offensive continues to grind out small, hard-won gains at tremendous cost to the enemy.



American infantrymen fire a 75-MM recoilless rifle during front line action in Korea. Fighting in Korea has increased in recent weeks.

DRAFT CALL—Home town draft boards have begun reclassifying 500,000 married non-fathers. Maj. Gen. Lewis B. Hershey, selective service director, said the men would be inducted into the armed forces as rapidly as they can be reclassified and processed, but estimated that fewer than 200,000 of the 500,000 would be reclassified 1-A.

Hershey urged men who have failed to notify their local draft boards that they have become fathers to do so immediately. He also reminded draft eligible men that the selective service law places upon the registrant the responsibility to notify his board of a change of status. Once the order to report for induction has been issued it is too late to reopen the case.

THE SERIES—Americans in every part of the nation last week forgot their worries long enough to listen to the world series. Wherever there was a radio, at home, in the grocery stores, filling station, poolrooms or fire stations, baseball fans listened to the Giants and Yankees battle for the championship. And it was the Yankees, playing ball like the Yankees of old, making 10 double plays during the series, who were crowned champs, taking the final game from the Giants 4-3.

DEFENSE BOND DRIVE

Americans Are Hanging on to Bonds

The Treasury department reported last week that more Americans are hanging on to more defense bonds than ever before. The Treasury said a new peak of $34,566,000,000 in defense bonds outstanding was reached October 1. The previous high was $34,543,000,000 in June, 1950.

The defense bond drive which began September 3 and ends October 27 is proving to be a big success. In addition, fewer bonds were cashed last month than at any time in the past 17 months.

The department reported 6,200,000 Americans are buying bonds through payroll deduction. At present one out of every two families in the nation hold defense bonds of some kind. The ratio is expected to increase.

Crime in America

By ESTES KEFAUVER
United States Senator

Seven of a Series

Tampa: Wholesale Murder

It was well known that Tampa was an important sub-capital of the Mafia-backed narcotics ring, with national links in the gambling and murder-for-hire traffic. Law enforcement was so corrupted that even the Cuban gamblers who ran the profitable bolita racket, referred contemptuously to the sheriff as Cabeza de Melon—"Melon Head."

Human life was almost as cheap as the sands of the beach: in 19 years, there have been 14 murders and six attempted assassinations in the Tampa underworld—and only one conviction.

The explosive element that keeps Tampa in a ferment of violence, the Senate Crime Committee found, is the long-standing rivalry between two equally hot-blooded gang factions. One is the Mafia-backed clique or criminals of Sicilian or Italian extraction, the other the numerically larger Cuban faction. Mixed in, of course, is a leavening of native racketeers.

The two principal roles in the Tampa story were played by Salvatore (Red) Italiano, Italian-born ex-convict and reputed strong man of Tampa's underworld, and Clifford Hugh Culbreath, the official called "Melon Head." Italiano was among the missing when Sen. Lester Hunt, who conducted our hearings there, went to Tampa. But from "Melon Head," the committee counsel drew a fantastic story of how he had managed to make deposits of at least $128,000 in half a dozen banks scattered throughout Florida and Georgia during his nine years as sheriff.

• • •

One purely local racketeer interrogated was Charles M. Wall, a nonchalant, almost whimsical, 71-year-old gambler who once was "brains of the underworld." He was the victim of at least three attempts by presumably "unknown" parties to assassinate him. Almost humorously, the old man assured us:

"I wasn't much interested in who it was that was doing it. I was interested in keeping from getting killed."

As Red Italiano could not be found, we summoned Vincent Spoto to answer a few questions Spoto is president of Anthony Distributors, a wholesale beer and wine corporation owned by the Italiano family Spoto earned $100 a week, not, he explained, for his duties as president, but for work he did in the shipping department. Italiano drew $300 a week as general manager. He was only one of many criminals found throughout the country who had managed, contrary to state and federal regulations, to infiltrate the liquor business.

• • •

From other witnesses, we heard that Italiano was a big-shot in Bolita, the Cuban lottery played with 100 numbered balls. Oscar J. Perez, formerly chauffeur to a murdered bolita racketeer named Jimmy Velasco, told us Italiano and Velasco had quarreled violently Perez also testified that Italiano's chauffeur and bodyguard—Joe Provenzano, who was tried and acquitted for Velasco's murder—used to carry shotguns in the front seat of his car when he drove on Tampa's main streets.

Noah W. Caton, a marine engine mechanic, told of a strange alleged tieup between Sheriff Culbreath and Red Italiano, involving ownership of a fish business.

From Mrs. Anthony DiLorenzo, estranged wife of a special deputy for Sheriff Culbreath, the committee heard that in 1947 Red Italiano obtained a deputy's commission for her husband, "to do special duties." Thereafter, she testified, both Red Italiano and Sheriff Culbreath regularly telephoned DiLorenzo to give him instructions as to his "special duties." DiLorenzo also collected his $200-a-month "salary" from Italiano, Mrs. DiLorenzo testified.

Q. What was your impression of what he was doing as a result of these telephone calls? What were his duties?

MRS. DiLORENZO: Well, he was checking different places with them, different bolita places.

Q. Was he collecting from them or was he arresting them? A. He was just more of a go-between between the underworld and the law, as a messenger between those

But the first witness to accuse Culbreath of having received money from the gambling interests, was Paul Giglia, a former bolita peddler for the late Jimmy Velasco. During Culbreath's reelection campaign in 1948, Giglia testified, Velasco told him "to take some money down to the sheriff."

• • •

He swore that Velasco regularly sent money to the "old man"—meaning Sheriff Culbreath. The euphemism for these payments—sometimes $1,000 at a time—was "rent," and Giglia said that "the money was going out faster than it was coming in."

It was Anthony Deschamps, Velasco's cousin, who used to check receipts for the murdered gambler, who first told us how the Cuban bolita peddlers called Culbreath "Cabeza de Melon." Velasco showed him his "pay-off" list, on which there were notations of alleged weekly payments of $500 to "Cabeza de Melon"; the same amount to "R," and $250 to "E D." Deschamps charged that "Melon Head" was Sheriff Culbreath; "R" was State's Attorney Rex Farrior, and "E D." was former Chief of Police J. L. Eddings. (All three denied this).

Oscar Perez said he used to drive Velasco to the county jail, where Velasco and the sheriff would confer in a special inner sanctum called "the rat hole." According to Perez, he used to help Jimmy count out the weekly pay-off, and the amounts would vary from week to week.

Q. Why would it vary?

PEREZ: Well, as in every kind of business, I guess you had to balance your budget.

• • •

The 53-year-old sheriff told the Committee some interesting facts about his career and his activities. In 1932, he was elected constable. He operated a private fishing business during the period he was constable, but filed no income tax returns on his earnings. In 1938, a grand jury indicted "seven of the most prominent gamblers of the city and nine public officials without whose acquiescence or co-operation these flagrant violations of the law could not have continued."

One of them was Constable Culbreath, and the grand jury publicly requested the then governor of Florida to remove Culbreath, along with others, from office. Nothing, however, happened. In 1941, Culbreath became sheriff.

The sheriff insistently denied he ever had any dealings with Red Italiano, except to call on him occasionally in search of information that might help him to solve crimes.

• • •

At one point, Sheriff Culbreath tried to convince the Committee he really wasn't very bright. "I am not a smart boy . . . and never was," he said, assuring us he couldn't even remember the street address of a friend he visits three times a week. He also said he could qualify as a prime example, of "Exhibit A," of how a fellow in public life could be abused falsely by "harping critics, jealous and disgruntled politicians, discontents, malcontents, has-beens, would-bes" and what-not.

For a "not smart" boy, Exhibit A" had done rather well for himself. The Committee figured from the sheriff's income tax declaration that his net income for the years 1941 through 1949, after deductions and taxes, had been $36,014 98. He admitted to having cash, bonds and property holdings valued at $95,893 52. Counsel was able to establish that at least $128,000 had passed through five of Culbreath's bank accounts in the past nine years and that, currently, the sheriff had $45,700 divided between his various bank accounts, his safe deposit box and the home safe, also, $6,500 in government bonds

Another bit of low—yet tragic—comedy was the disclosure by two witnesses, formerly connected with the sheriff's office, that Ernest (Rookie) Culbreath, the sheriff's brother and his chief criminal deputy, ran a gambling book right at the county jail.

• • •

Associate Counsel Rice produced a match book cover which read: "Briggs & Company—Rookie Culbreath and Leslie Cathcart. We do small things big. Everything in sports."

What did the sheriff have to say about that "Everything in Sports"? "Well, sir," Sheriff Culbreath said, "I think someone that put out matches did this to play a trick on them."

Next week: The Black Market and Business Infiltration.

Condensed from the book, "Crime in America," by Estes Kefauver Cpr. 1951. Pub. by Doubleday, Inc. Dist. General Features Corp.—WNU.

SUCKER DIVORCE

Sucker Cut-Off Causes Separation

BRAZIL, Ind.—A short sucker supply was grounds enough to get Geneva Mae, a 20-year-old blonde, divorced from her 72-year-old husband. She was granted her freedom because he cut off her supply of frozen suckers.

In awarding the divorce from Sam Pollum, a judge also included $400 alimony, which, the girl said, she won't use to buy more suckers. She intends to buy clothes with whatever amount is left after she buys a scrap book in which to put her clippings of the trial for future reference.

Geneva testified that her husband had ordered the family grocer not to charge any more frozen suckers to their account. They were married on May 8 and separated June 22.

Place de la Concorde Never Too Peaceful

After nearly three centuries of fame, excitement and conflict, a beloved bit of Paris has just had its face lifted.

The new look on the Place de la Concorde is less glamourous than practical—a firm surfacing of stone blocks instead of the wooden paving trod by citizen, soldier and sight-seer for the past 50 years.

This innovation, however, is not likely to change the character of the celebrated quadrangle that has often failed its name as a place of peace and agreement, thereby playing a prominent part in the history of Paris and France.

The square was first laid out in 1763 when King Louis XV, was pleased to have an equestrian statue of himself set up in an uncultivated field west of the Tuileries. The field was accordingly tidied up and given the name: La Place Louis Quinze

Tragedy struck there seven years later when a large crowd gathered to celebrate the marriage of the Dauphin, later Louis XVI, to Marie Antoinette. A rocket misfired during a fireworks display and the resulting stampede killed some 1,200 people, injuring another 2,000—a bitter omen of the blood-letting that was to come in little more than two decades.

FOURTH GRADE NEWS

Eight girls received cards this week for having perfect scores in Health Inspection for the past four weeks. They were Roxanne Back, Sherryle Clabaugh, Edna Heginger, Miaiam Hartbeck, Jo Ann Helps, Maurine Johnson, JoAnne Jacobs, and Jane Renner.

Gordon Lassahn celebrated his birthday on October 18 by treating the class.

Sherryle Clabaugh returned her signed dental card last Tuesday.

Those to have perfect scores in spelling this week were Donald Anderson, Candace Carlson, Roxanne Back, Sherryle Clabaugh, Jo Anne Jacobs, Maurine Johnson and Gordon Lassahn.

This week in arithmetic we learned about the fraction ½. We find fractions fun to add.

In language we have been busy making reports as they happen. Also, we've learned about two kinds of sentences the statement and question.

Jo Anne Helps brought a bouquet of flowers for our room.

—Miss Franken

BROKEN BACK—

F. X. Deitering, 83 year old Bancroft resident, received a broken back, when he fell over after slipping on a wet board. An x-ray examination showed a fractured vertebrea and he will be in a cast indefinitely.

RABID—

Two year old Danny Wagner of Corwith is taking rabies shots, after being bitten by a rabid kitten as he played with it at his home. His father killed the animal and a repor from Iowa City showed it to be rabid.

PHEASANT

At Waukon, a cock pheasant caused some commotion when it flew into town and right through a screen door into Hales department store. It made its first stop at the jewelry counter, then switched over to the sweater department and was finally trapped in the woolens when somebody threw a blanket over it. The bird was returned to the countryside, unharmed.

STANDPIPE GONE—

Forest City lost one of its oldest landmarks this week, a 100-foot standpipe. Built in 1895, the standpipe was the "best in the state" at the time of its erection.

THIRD SET

At Hawkeye, in Fayette Co., Mr. and Mrs. W. H. Suhrs recently became parents of their third set of twins, Alvin and Malvin. Already in the Suhr household is Jerry and Judy, 11 and Louis and Lois, now7. In addition to the six twins the Suhrs have seven other children

HUNTING ON PRIVATELY OWNED LAND IS A PRIVILEGE---NOT A RIGHT. DON'T ABUSE THIS PRIVILEGE!

ASK THE FARMER FIRST!

As the 1951 hunting season swings into high gear with the opening of the quail season on November 1 and the peasant season at noon on November 11, it is again time to remind hunters that hunting on privately-owned land is a privilege which should not be abused. It is the responsibility of the individual sportsman to make himself welcome in the quail and pheasant territories. Extending to the farmer the common courtesy of asking permission to hunt on his land will pay dividends to the hunter in the form of better hunting, new and profitable friendships, and the promise of return visits to good hunting grounds.

Wildlife is common property as long as it is at large in the fields or woods. It belongs equally to all. The landholder has the right to control trespass on his land. So, while a farmer does not hold sole title to the wildlife on his farm, he does control the means of access to that wildlife. For this reason, hunters are urged to look over prospective hunting grounds ahead of time, contact the landholder, and make the necessary arrangements for hunting.

The importance of good farmer-sportsman relationship cannot be over-emphasized. One thoughtless or malicious act on the part of a single hunter may close an area to hunters for a long period of time. If every hunter conducts himself as a true sportsman "No Hunting" signs will soon disappear from farm fences.

PROCEEDINGS OF THE HANCOCK COUNTY BOARD OF SUPERVISORS

6TH ADJOURNED SEPTEMBER MEETING

Garner, Iowa
October 15, 1951

The Hancock County, Iowa, Board of Supervisors met in session on above captioned date pursuant to adjournment with Clint Daniels, F. J. Schoun and Clarence Bird present.

The minutes of the last meeting were read and approved as read.

In the matter of the leasing of the W½ of the NW¼ of Section 29-96-24, Garfield Township by Hancock County, Iowa, by its Board of Supervisors, from Mrs. Anna Wellik for a period of one year from and after March 1, 1952 according to the terms set out in the Lease.

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, that the lease on the W½ NW¼ Sec. 29-96-24, Garfield Township by and between Mrs Anna Wellik and Hancock County, by its Board of Supervisors, is hereby approved and F. J. Schoun, Chairman of the Board, is hereby authorized to execute a contract in behalf of Hancock County, Iowa.

The foregoing resolution was offered and read by Supervisor Daniels who moved its adoption, was seconded by Supervisor Bird, whereupon the Chairman, F. J. Schoun placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels, Clarence Bird and F. J. Schoun, ayes. Nayes, none Whereupon the Chairman declared the resolution duly adopted.

This being the 15th day of October, 1951, a date heretofore set for an adjourned hearing on the report of L. W. Mahone, Engineer, recommending that the contract of Schram Brothers of Titonka, Iowa for labor and material on the construction of D. D. No. 153 be accepted as complete and final estimate in the sum of $4685.84 be paid, the hour for said adjourned hearing having arrived and the Board being fully advised, said hearing was held as scheduled.

There being a tile connection to be completed, further hearing is hereby adjourned to 1:30 P.M. on the 22nd day of October, 1951 at the Courthouse in Garner, Iowa.

WHEREAS the minimum bond of Justices of the Peace in Iowa is set at $500.00 by Sec. 64.9 Code of Iowa, 1950, and

WHEREAS said bond can, in accordance with Sec. 64.8, Code of Iowa, 1950, be fixed by the Board of Supervisors, and

WHEREAS the State Auditor's report has advised raising the bond of R. J. Fritsch, Justice of the Peace of Concord Township, due to larger volume of fines and failure to make remittance and file reports on fines collected as required said bond to be fixed in an amount set by the Board of Supervisors.

BE IT THEREFORE RESOLVED by the Board of Supervisors that the bond of R. J. Fritsch, Concord Township Justice of the Peace, be and the same is hereby increased to, and set at, $1500-.00 per annum, effective immediately and the County Attorney is hereby directed to advise R. J. Fritsch of this resolution and request immediate compliance.

The foregoing resolution was offered and read by Supervisor Bird who moved its adoption, was seconded by Supervisor Daniels, whereupon the Chairman, F J. Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clarence Bird, Clint Daniels and F. J. Schoun, ayes. Nayes, none. Whereupon the Chairman declared the resolution duly adopted.

WHEREAS, Wm. Henschen was appointed Engineer as commanded in Chapter 455, Code of Iowa 1950, and laws amendatory thereto on July 2 1951, to make a survey, investigation and report on the necessity and feasibility for repairs or a new tile line on Lateral A-3 of D. D. No. 13, petitioned for by George Klesel, et al and said Engineer did file his report on September 6, 1951, which report states he has investigated and surveyed the lands in the proposed repair of Lat. No. A-3 of D. D. No. 13 and finds the present system of drainage inadequate and recommends that a new tile line be constructed as prayed in the prayer of the petitioners and that such improvement will be conducive to the public health, convenience, welfare and utility and that the benefits to be derived will be greater than the cost thereof. No action taken of Lateral C-3 of D. D. No. 13.

BE IT THEREFORE RESOLVED by the Board of Supervisors acting for and in behalf of Lateral No. A-3 of D. D. No. 13 petitioned for by George Klesel, et al that the report of the Engineer be and the same is hereby approved as a tentative plan and may be amended before final action thereon pending filing of waiver of notice of hearing in the office of the County Auditor at which time, after approval by the Board of Supervisors, a date for letting will be fixed

The foregoing resolution was offered and read by Supervisor Daniels who moved its adoption, was seconded by Supervisor Bird, whereupon the Chairman, F J Schoun placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels, Clarence Bird and F J Schoun, ayes. Nayes, none. Whereupon the Chairman declared the resolution duly adopted.

Supervisor Schoun is hereby appointed a committee to investigate and cause repairs to be made in D. D. No. 7, Lat. No. 225.

On motion and second the elimination of branch No. 73+13 from the contract on the reconstruction of D. D. No. 1&2, Lat. No. 8 is hereby approved as petitioned for by Edmund F. Korsa and as approved by the Contractor, Cooper Construction Co. of Fort Dodge, Iowa.

The Chairman of the Board proceeded to open all bids on file and after duly considering all bids on file the bid of Gerber and Buscher Construction Company of Algona, Iowa is hereby accepted as the lowest and best bid on file for labor and material on D. D. No. 156, Hancock County, Iowa. All other bids are hereby rejected.

This being the 15th day of October, 1951, a date heretofore fixed for a letting on the construction of D. D. No. 156, a sub-district of D. D. No. 10, Hancock County, Iowa, the hour for said letting having arrived, the proof of publication being on file and the Board being fully advised, said letting was held as scheduled.

BE IT FURTHER RESOLVED that a contract is hereby awarded to Gerber and Buscher Construction Co. of Algona, Iowa, and F. J. Schoun, Chairman of the Board is hereby authorized to execute a contract in behalf of Hancock County, Iowa.

The foregoing resolution was offered and read by Supervisor Bird who moved its adoption, was seconded by Supervisor Daniels whereupon the Chairman, F. J Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clarence Bird, Clint Daniels and F. J. Schoun, ayes. Nayes, none. Whereupon the Chairman declared the resolution duly adopted.

On motion and second Wm. Henschen is hereby appointed construction Engineer on D. D. No. 156 and his bond as such is fixed at $300.00

On motion and second Wm. Henschen, Engineer, Wm. Boehnke and Chas J. Goll are hereby appointed a commission to assess benefits and classify the lands in D D. 156, Hancock County, Iowa as commanded in Section 455.45 Code of Iowa 1950 and laws amendatory thereto, said Commission to file its report on or before the 3rd day of December A.D., 1951.

WHEREAS, C. F. Merten, Engineer, Walter Kahl and W. J Rasmuson were heretofore appointed commissioners to view and reclassify the lands in D. D. No. 3 & 4, Lat. No. 18 and to designate seperately the tax per cent each tract shall pay on said lateral for the repair of Lateral No. 18 of D. D. No. 3 & 4 and for future repairs, all in accordance with Section 455.72, Code of Iowa 1950, and

WHEREAS, said Commissioners did qualify as by law directed and did file their report on October 10, 1951, which report sets out in detail the classification against each tract and parcel of land and highway and railroad in the district as provided by law.

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, acting for and in behalf of Drainage District No. 3 & 4, Lateral No. 18, that the report of the Commissioners heretofore appointed to reclassify lands in the watershed of D. D. No. 3 & 4, Lat. No. 18, Hancock County, Iowa, is tentatively approved and a hearing thereon will be held at the Courthouse in Garner, Iowa on 26th day of November, 1951 at the hour of 1:30 P.M. at which time taxpayers in said district will appear and show cause why said reclassification designated shall not be accepted against the lands in the watershed of D. D. No. 3 & 4, Lateral No. 18, Hancock County, Iowa

All objections to such reclassification of assessment of benefits shall be filed in writing in the office of the County Auditor in Garner, Iowa at or before the hour set for hearing thereon. The County Auditor be and he is, hereby directed to cause notice of such hearing to be published in The Garner Leader and Signal, a newspaper of general circulation published at Garner, Iowa, together with the description of the real estate and the designated reclassification each tract, parcel of land, highways and railways in the district is charged with.

The foregoing resolution was offered and read by Supervisor Daniels who moved its adoption, was seconded by Supervisor Bird, whereupon the Chairman, F. J. Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels, Clarence Bird and F. J. Schoun, ayes. Nayes, none. Whereupon the Chairman declared the resolution duly adopted.

This being the 15th day of October, 1951, a date heretofore fixed for a hearing on the proposed construction of D. D. No. 157, petitioned for by the Town of Goodell, Iowa, by its Mayor, J. J Cook, et al, the hour for said hearing having arrived, the report of the Engineer recommending such construction, the proof of publication being on file and the Board being fully advised said hearing was held as scheduled.

The petition, report of the Engineer and objections were read by the County Auditor and objectors and proponents were given an opportunity to discuss the necessity and feasibility of the construction of the district and objectors thereto, petitioned for by the Town of Goodell, Iowa, by its Mayor, J. J. Cook, et al, as recommended in the report of the Engineer.

After duly considering discussions of the objectors and proponents, it was deemed advisable by the Hancock County, Iowa, Board of Supervisors to adjourn said hearing until the 19th day of November, 1951 at the hour of 1:30 P M. at the Courthouse in Garner, Iowa, to enable the Engineer, C. F. Merten, time to prepare and submit an amended report.

The foregoing resolution was offered and read by Supervisor Bird who moved its adoption, was seconded by Supervisor Daniels, whereupon the Chairman, F. J. Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clarence Bird, Clint Daniels and F J Schoun, ayes. Nayes, none. Whereupon the Chairman declared the resolution duly adopted.

On motion and second the Board adjourned to October 22, 1951 at 9:00 o'clock A.M

ATTEST:
Maynard Schoneman, County Auditor — F. J Schoun, Chairman

Party Held For Lowell Greiman Saturday Afternoon

Lowell, son of Mr. and Mrs. Eugene Greiman was 9 years old so his mother had a birthday party for him Saturday afternoon, and had as his guests his schoolmates and teachers, Mrs. Lemke and Miss Franken.

The children enjoyed playing a variety of games after which they had a nice lunch. Lowell received many nice gifts from his friends.

Birthday Party Dinner

Sunday, Mr. and Mrs. Herman Back and their house guests, Mr. and Mrs. Ralph Palmer of Marshalltown and Grandma Back drove to the Franklyn Buseman farm where they joined other relatives in a family dinner. Other relatives present were: Mr. and Mrs. Lynford Back and family, Mr. and Mrs. Graydon Back and daughter and Mrs. Mae Back of Ventura.

The dinner was in honor of Mrs. Herman Back and Mr. Ralph Palmer who had birthdays that week.

Ruth Circle Held Meeting At Home Of Mrs. Dale Brede

On Thursday the Ruth Circle, No. 1 met at the home of Mrs. Dale Brede, with Miss Marie Blank as co-hostess and Mrs. Lester Neuberger lesson leader.

There were 17 members, 4 children and three visitors: Mrs. Howard Farris and Dennis of Kanawha; her mother, Mrs. John Wright of Princeton, Ind., and Mrs. Brede's mother, Mrs. Roy Halfpop.

Tax Assessors Meet In Garner

The north central group of county assessors met at the courthouse and adopted a resolution to appoint a committee to work with the State Tax Commission to revise existing forms now being used in reporting inventories.

Sales ratio and its relation to assessments was also on the agenda. The group will meet again at the courthouse in Garner on Wednesday, November 14, at which time there will be a study of existing forms, sales ratios and the proposed 1952 price guide.

Leaf Colors Not Due To Effects Of Frost

Iowa State College extension botanists disprove the stock answer given to little Iowans when they ask why leaves turn brown in the fall. Parents usually come back yith the wrong answer—"Jack Frost does it."

Botanists would tell pint-sized nature lovers that coloring leaves is just a signal that trees are dismantling their summer factories and preparing for winter.

Arden Sherf explains it this way. During the growing season food is produced in millions of tiny leaf cells by small, green bodies called chloroplasts. These bodies make tree food out of carbon, hydrogen and oxygen from the air and water and from minerals taken at the roots. They also give leaves the green color.

The tree's food factory slows down when weather gets cool—a frost is not necessary for this to happen, Sherf says. The machinery, of chloroplasts, in this food factory is dismantled after the slow-down, and broken up into different substances. Plant food goes into the tree for winter storage. The material left in the leaves accounts for a yellow coloring.

This still doesn't account for the wide range of colors in leaves, ranging from the brilliant red of dogwood leaves to the oak's brownish red. Sherf has an answer for this too. When there is more sugar in the leaf than can be transferred back into the tree, this excess sugar forms a chemical combination with waste substances in the leaves. A wide variety of color results, hence a lot of questions from the youngsters.

Liberty 4-H Club Met

The October 4-H meeting of the Liberty Go-Getters was held at the home of Glenn Schleuger.

Election of officers was held with the following results: President, JoeWellik; Vice president, Michael Brouwer; Secretary, Gordon Lemke: Ass't sec. Vern Prohaska; Treasurer Gary Lenz and reporter, Clayton Grieman.

70c was collected for those missing meetings. The boys voted to have as their leaders Richard Brouwer and Jerry Psotka. It was decided to have an officers meeting at the Richard Brouwer home to make out the program for the coming year.

The meeting for November will be held at the Allen Jass home. The meeting was adjourned and lunch was served.

90% For! 10% Against

Railroad workers are represented by 23 standard unions. By mutual agreement, 20 of these unions—comprising about 1,200,000 men, or more than 90%—are working under wages and rules agreed to by them and the railroads. But leaders of three unions—with only about 130,000 men, or less than 10%—still refuse, after more than a year of negotiations, to accept similar wage and rules agreements. These are even more favorable than the terms recommended by the Emergency Board appointed by the President.

Time to settle...

Yes, it certainly seems to be finally about time that the leaders of the three unions stop their delaying tactics—their quibbling. But the leaders of the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors continue to refuse. They continue a course of dillying and dallying. It is definitely time to

END THIS QUIBBLING!

On June 15, 1950, an Emergency Board appointed by the President under the terms of the Railway Labor Act—an Act largely fathered by the unions themselves—made its recommendations on certain wage and working conditions ("rules" in railroad language) which had been in dispute between employes and the railroads.

More Than 90% of Employes Accept

Since then, terms equal to or better than the Board recommendations have been accepted by about 1,200,000 railroad employes—more than 90% of the total of all workers. They are represented by 20 of the 23 standard railroad unions.

Less Than 10% Refuse

But three unions—with about 130,000 men, or less than 10% of the total—have refused to accept, even after months of negotiations. These three unions are the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors. These are three of the so-called "operating" unions. Already the highest paid men in the industry, their leaders demand still further advantages over other workers.

In all, there are about 270,000 operating employes. But not all of them, by any means, are represented by BLE, BLF&E, or ORC. As a matter of fact, less than half—132,000 to be exact—are in these three unions. More than half—about 140,000—are in other unions, principally the Brotherhood of Railroad Trainmen. What makes the whole situation so hard to understand is that these 140,000 operating employes are working under wages and rules which the leaders of the other 130,000 say they cannot agree to.

What Do the Railroads Offer?

They offer these three unions the same settlement which was contained in a Memorandum of Agreement signed at the White House on December 21, 1950, by four brotherhoods and the railroads. Later these brotherhoods sought to repudiate this agreement. But on May 25, 1951, the Brotherhood of Railroad Trainmen signed a complete agreement carrying out the principles of the Memorandum Agreement of December 21. They have been working under this agreement since May 25.

What About Wages?

Under the terms of the agreement, yard engineers, firemen and conductors would now be receiving a wage increase of $.34 an hour ($2.72 a day) and road engineers, firemen and conductors would now be receiving an increase of 19½ cents an hour ($1.56 per day). Large sums of retroactive pay have already accrued and if the agreement is carried out, will be paid promptly.

What About "Cost of Living" Increases?

The White House Agreement includes an "escalator" clause under which wages will be geared to changes in the Government's cost-of-living index. Two such increases—April and July, 1951—have already been paid to the 90% of railroad employes covered by signed agreements.

What About the 40-Hour Week?

The White House Agreement calls for the establishment of the 40-hour week in principle, for employes in yard service. The employes can have it any time after January 1, 1952, provided the manpower situation is such that the railroads can get enough men to perform the work with reasonable regularity at straight time rates. If the parties do not agree on the question of availability of manpower, the White House Agreement provides arbitration by a referee appointed by the President.

What Else Do the Union Leaders Demand?

The continued quibbling of the leaders of the three unions has to do principally with rules changes, which have already been agreed to by the Brotherhood of Railroad Trainmen. Of these, the principal one seems to be that having to do with so-called "interdivisional service"—runs which take in two or more seniority districts.

The union leaders would bar progress and efficiency in the industry, and better service to the public, by maintaining a situation where they can arbitrarily stop a railroad from establishing such interdivisional runs. The carriers propose that if a railroad wishes to set up an interdivisional run, the railroad and the unions should try to agree on such run and the conditions which should surround its establishment, and if the railroad and the unions can't agree, the matter will be submitted to arbitration.

But the three union leaders still refuse.

Rules Can Be Arbitrated

The railroads have not only offered these three unions the same rules agreed to by the BRT and covered by the White House Agreement, but have even agreed to submit such rules to arbitration.

The Industry Pattern Is Fixed

With the pattern so firmly established in the railroad industry, it seems fair to suggest that the leaders of BLE, BLF&E, and ORC stop their quibbling and take action to make the railroad labor picture 100% complete. Certainly today's economic and international situation calls for a united front. And certainly no good reason has been advanced why these three unions should be preferred over all other railroad employes.

the Highway Story
IOWA DEPARTMENT OF PUBLIC SAFETY

BY RAY EASTMAN

He listened while the city went to sleep. The sounds of traffic rising to his apartment bedroom gradually disentangled, lessoned and fell into long periods of silence Then came the single, lonely sounds: the last bus, the solitary, quick crack of heels on the walk as someone hurried home against the clock, the dragging hum of a car his car followed far up the empty street.

When these sounds ended, he knew the city slept. His wife, his children in another room, his friends, few enemies, the hundreds of people he knew by sight in the daily streets, the thousands he didn't know at all, they all were turned now to that quiet business of sleep. He felt like the only man unemployed in a busy place.

He got out of bed, dressed, and scribbled a note in the kitchen: "Couldn't sleep again so have gone for a drive. Be back for breakfast."

Outside, on the street, he felt better, almost as though he had some definite business there. A light, fine rain misting down reflected the few lights still burning in the city like a false dawn.

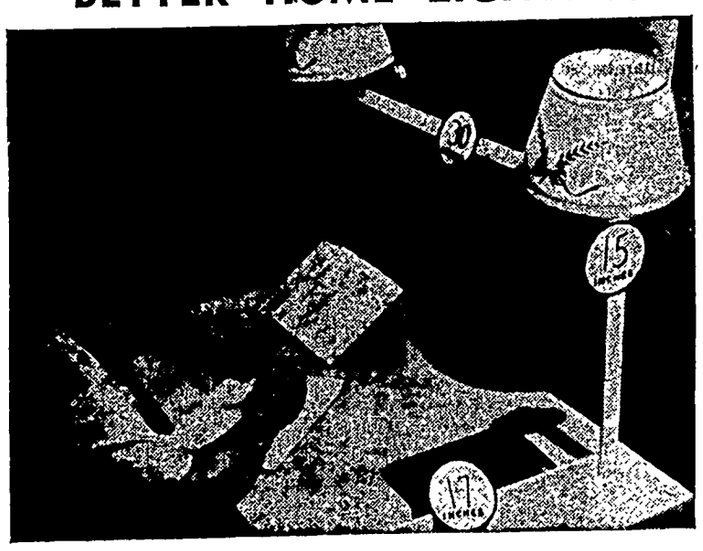
He drove to the nearest crosstown ave. In a few hours he would be driving down this street again with morning traffic, toward a day's work without sleep.

He began to drive fast. The rumble of brick under his tires sounded like escape toward something reassuring and solid. Then, perhaps, a moment of sleep came at last. Or, perhaps, the last twing of desperation or an instant or neglect.

The car was sliding on the wet street. The lights of a bridge flashed ahead. He turned, frantic to avoid the gray abutment. The car crashed down the bank into a darkness of water, a flood and current of sleep.

Try These Recipes For—

BETTER HOME LIGHTING



Research lighting experts have made home lighting as simple as using a yardstick. Good lighting, they say is just a matter of setting the lamp at the correct height and distance from the object it is to light. The result—less eyestrain, pleasanter living.

Much study and reading will be done at your home this winter. Will the lighting be easy on the eyes, pleasant and comfortable?

A good way to make sure is to use lighting recipes. All you need to do is get out your yardstick or tape measure and follow the directions, says Naomi Shank, extension home management specialist, Iowa State College. If you place your lamps where they can give maximum light for the specific purpose, then add general room illumination, you will give your rooms a cozy charm and at the same time will eliminate the strong contrasts between light and dark areas which cause eyestrain.

For Reading

Common lighting arrangements for reading are (1) a floor lamp or lamps located next to upholstered chairs or the davenport, or (2) a table lamp on a table next to such furniture. Here are the recipes which apply:

For floor lamp and chair or davenport: Place book or newspaper where you would normally hold it when reading. Now measure out 15 inches to right or left from center of reading matter. From this point, make a right angle measurement 26 inches long back toward the back of your chair. This is the spot where your floor lamp should be centered. The lower edge of the shade for a regulation large size floor lamp should be 49 inches from the floor. You'll get good lighting results with a combination reflector bowl and a 100 to 300-watt three-way bulb plus a shade with a bottom diameter of 18½ to 20 inches.

For a junior floor lamp, bridge lamp or swing-arm lamp, the lower edge of the shade should be 46 inches from the floor. Position of the lamp should be the same as given for the large floor lamp. These smaller sized lamps use a 150-watt bulb with reflector bowl and a shade or a 150-watt white indirect-light bulb with a suitable shade.

For table lamp, table and davenport or chair arrangement: Use a lamp measuring from 25 to 30 inches top to bottom. Bottom diameter of shade should be at least 16 inches and bottom of shade should be 15 inches above table top. To place lamp in proper position, measure 20 inches to the right or left from the center of the reading material, then at a right angle 20 inches toward the rear of chair. The lamp should be centered over correct location.

If you use a taller senior table lamp, 28 to 30 inches high, the bottom of the shade should be 17 to 18 inches above the table top.

Desk Lighting

If your study or business center uses two wall lamps, as pictured, space them so the centers of the two lamp shades are 80 inches apart and 17 inches in from the front of the desk. If the desk is more than 2 feet from front to back, arrange supports so each wall lamp centers 17 inches from the desk's front edge. Bottom of the shade should be 15 inches above desk top. Use light-colored shades, 100-watt frosted bulbs and reflector bowl.

If you use a table lamp, set the lamp 12 inches in from the front of the desk and 15 inches to left of center of your book (right of center if person is left-handed). Lower edge of shade should be 15 inches above table top. Use a light-colored shade, and 50-100-150 watt three light bulbs of 150-watt frosted bulb. Place a large pastel blotter to cover the desk top to prevent reflections and avoid contrasts with light-colored papers.

PURCHASED MORE LAND FOR EXPERIMENTAL WORK

The Soils Conservation Commission has purchased more land for experimental purposes in Hancock County. An 80-acre tract of Webster-Clarion loam was purchased from the Carthage College and is located 1½ miles south of Kanawha. This land will be especially used by Iowa State College for experimenting in drainage work. Hancock County became the 26th in the state to have land for this special purpose. Another 88 acres near Kanawha has been used for experimental purposes for several years.

BANANAS

Bob Bissell, Tipton florist, is perhaps the only person who is growing bananas—in Iowa. A banana tree he acquired two years ago is now bearing fruit in his greenhouse.

FATALLY

When Mrs. James Conklin of Randolph stumbled and fell into a pile of burning trash recently, she sustained burns from which she died a half-hour later at the hospital in Hambury.

FACTS ABOUT WEIBLE WHO WILL SPEAK IN KLEMME

Dudley Weible was born on a farm near Friend, Nebr., on September 13, 1906. His parents moved a few years later to Des Moines where he graduated at Roosvelt high school in 1924.

He attended Grinnell College one year and received his B. A degree from Drake in 1928

He received his law degree in 1931 at Iowa University and after being admitted to the bar he came to Forest City to practice his profession.

Weible was elected County Attorney of Winnebago county in 1938, a position he held for 10 years. In 1943 he joined the Armed forces and served 2½ years in the Navy.

In 1948 he was elected president of the Iowa County Attorney's Association.

He served as Commander of Forest City Post 121, commander of the 8th District and was elected unanimously as State Commander August 22, 1951.

67 YEARS

At Sigourney, Mr. and Mrs. Peter Kerkove recently observed their 67th wedding anniversary. The couple was married October 14, 1884.

Modern Methods Now Give—

NEW LOOKS FOR OLD FLOORS

That smudge of dark material on the very coarse sanding paper is floor paint, thick gobs of it. If the floor in your home is buried underneath several thicknesses of paint, you probably don't know how good looking it can really be until it's refinished. And like many home owners, you can do the sanding and finishing yourself.

You live in a home which has ugly looking floors, hard or soft wood, and you've tried to make the best of it by painting or varnishing each year. No more layers. That's the advice to give yourself. Get down to that wood one again, and see how lovely you can make it look.

Modern equipment, which you can rent for a reasonable price, can help you take the old finish off quickly—even get the area near the floor boards all reconditioned.

June Brown, home furnishings specialist, Iowa State College, is the person who suggests you go into action on your floors. In most communities, sanding equipment is now available for rent, for there's a big trend toward the "do-it-yourself" idea, she says.

Difficult floors call for the use of three grades of sanding paper — very course, medium and a fine sanding paper for the final touches. Either you or your husband or son can run the equipment with a bit of practice so you take the old finish off evenly.

Ideal Floor

An ideal floor is non-porous, smooth, hard enough to resist abrasive action and will stay good looking for a long period of time under normal wear and care.

If you have hard wood floors, sand them, vacuum off all the sawdust, then apply the modern floor finish—the penetrating wood seal. It combines the advantages of oil and varnish finishes, closes all the surface openings to dirt of moisture and resiste wear and discoloration, Mrs. Brown explains. Furthermore you can apply it easily and renew it where wear shows in lanes of traffic without having the repaired places show. And it dries so quickly that you can apply the second coat within a few hours.

This is the type of finish now being used in schools and office buildings where heavy traffic takes place, but it is also wonderful for homes. Secret of the finish is that it penetrates only a short distance into the pores of the wood, then hardens at the surface.

You may use the seal on any floor except rubber or asphalt tiles. Take off paint, varnish of other surface coatings first, of course.

If you use a penetrating finish, you won't need to use a wood filler.

Old Floors

If you have an old wood floor look it over carefully before deciding to spend the time and energy to fix it up, Mrs. Brown Advises. If your floor is not sound, reasonably level and in fair condition, you will be wiser to lay new hardwood flooring or to put linoleum down, than to try to make the old floor look like new. Many old floors can be fixed up for refinishing, though. Replace decayed sills, straighten warped floor joints, and nail the old floor securely to make the surface regular. This takes some skill so you may want an experienced workman to do this for you. For cracks and knots in the flooring, use a filler made of sawdust and urea resin glue. It's waterproof and not bothered by temperature changes.

Then get some sanding equipment, take off the old finish and proceed as you would on a new floor. If the surface isn't nice enough as a natural wood surface under the floor seal, use paint or enamel as a finish.

KILLED

Henry Schutte of Marshalltown was killed last week as he attempted to drive a tractor on to a truck for loading purposes. One of the planks forming the incline slipped and the tractor turned over on the 64 year old implement dealer. Death followed shortly.

FUEL OIL

Eleven month old Corliss Koth, of George, has now learned all about kerosene. She was rushed to the hospital after drinking a quantity of it and is recovering.

INJURY

Bruce McKay of Ida Grove may lose the sight of one eye, the result of a target shooting incident. The revolver backfired and part of the shell hit Bruce in the eye. He is a member of the U. S. naval forces and was home on travel leave when the mishap occurred.

PILLS

Two little Osage boys, William Curtis and Bruce Biedermann, four and three years old respectively, recently ate some pills which they found in the glove compartment of the Biedermann truck. Both were rushed to the hospital for stomach-pumping and were released the next day in good health. The pills were deadly if taken in quantity.

KILLED—

As he strolled toward his home in Graettinger, elderly Lars Solheim was struck and killed by a southbound freight train in front of the railroad station there. The train was moving at a slow speed and witnessess say he did not seem to see it.

SENATE RESTAURANT

Restaurant Manager Says Most Senators Are Meat, Potato Men

WNU Washington Bureau

When a moment of leisure hits Capitol Hill, many members of congress automatically head toward the restaurants in the capitol building for food and relaxation. On the house side the restaurant is one of the most easy, relaxed, and informal spots in all of the capitol. Its counterpart across the building, the senate dining room, is much more formal.

The house restaurant runs smoothly under the supervision of William A. Brockwell, manager, and Mrs. Edith G. Ridgely, hostess. They must, and do, know every representative, member of the press, and employee in the house, since the patrons are limited to these three groups and their guests. Working under some difficulty, the lack of space and the fact that invariably everybody wants to eat at one time, Mr Brockwell and Mrs Ridgely, and their staff of 110 are able to serve and satisfy their clientele, with only 250 seats.

It is not at all unusual for them to learn at 10 or 11 a.m. that a congressman is planning a luncheon for as many as 50 that day. These parties are generally limited to 50 because that's the capacity of the speaker's dining room, which is separate from the restaurant. Provisions are kept on hand at all times for any of these short notice affairs In addition to the restaurant and the speaker's dining room, there is a large cafeteria in the house office building across the street, and another one in the senate office building where hundreds of employees in these buildings generally eat.

There are also two small snack restaurants, one on each side of the capitol. When the house is in session, the restaurant is open from 8 a.m. to 5:30 p.m., and when the house has adjourned, it closes at 3.00 p.m.

• • •

SOME CONGRESSMEN have frequent parties, many never entertain. Representative Frank W. Boykin of Alabama has the largest and most frequent parties. The Texas delegation has lunch en masse every Wednesday in the speaker's dining room when congress is in session. The Iowa delegation makes a point of a breakfast once a week when congress is in session. The Republican members of the Ohio delegation meet frequently, as do the delegations from Alabama, Arkansas, and Tennessee.

To bring a home town flavor to the representatives in Washington, the restaurant imports special food from many parts of the country for parties held on the hill or for general consumption. For instance, they bring in salmon from the west coast, muskrats from Louisiana, strawberries from Alabama, and a special rice from Arkansas to make into a pudding.

The favorite dessert of the congressmen is apple pie. Generally, they are meat, potato, and apple pie men. Most of them like plain, substantial food, and as Mr. Brockwell points out, none of them are trying to lose weight.

Only about a dozen of them ever ask about fads or diets, such as the recent yen for yogurt or black strap molasses and whole wheat germ.

In such a place where many personalities meet, funny incidents occur, such as the two ladies who had secured passes to the visitors' gallery of congress and stopped at the restaurant to ask if they could get lunch. Mrs. Ridgely told them that in order to be served they would have to be accompanied by a member of congress. They held a whispered consultation, then turned brightly to Mrs. Ridgely and said: "Oh, that will be all right, we don't mind!"

The relaxed atmosphere of the house restaurant makes a daily, pleasant retreat for the legislators of the country.

Star Dust
STAGE • SCREEN • RADIO

By INEZ GERHARD

WITH USO Camp Shows once more providing entertainment for American servicemen, Hollywood is again doing its share to supply glamour names to play to overseas GI's. Audrey Totter's tour took her to Korea, where she did a great job of cheering up soldiers in the hospitals; Jennifer Jones made a similar trip, with so little fanfare that not until after she got home did most people know she had gone. Jack Carson went to

AUDREY TOTTER

Europe with a comedy cavalcade, which Farley Granger and Shelly Winters said they'd join. And of course there was the Jack Benny, Marjorie Reynolds and Errol Flynn trip to Korea, which took them near the fighting fronts.

Irene Beasley celebrated the fifth birthday of her radio program, "Grand Slam", with a party, as usual—and as usual, it was one of the best parties of the year. Everyone, including the sponsors, always has a wonderful time. It's as much fun as Irene's hilarious show, which is heard on the CBS Radio Network weekday mornings at eleven-thirty, E. S. T.

At the request of Montana's Governor John Bonner, Producer-Director Howard Hawks will send a 63-foot replica of an early American keelboat used in "The Big Sky" to the State capitol, for permanent exhibition by the Historical Society.

Eddie Cantor will headline the "Colgate Comedy Hour" on the 28th, after making history Sept. 30th by doing the first commercial telecast of a comedy program, emanating from Hollywood, to go coast to coast. The following week Dean Martin and Jerry Lewis, having completed "At Sea with the Navy" for Hal Wallis, return to the series, as headliners, of course.

THE FICTION CORNER
TEEN-AGE LOVE

By Richard Hill Wilkinson

IT was only natural that Rose should be thrilled at thoughts of meeting Loring Hunt. After all, Loring Hunt was the most glamorous of modern day screen stars And Rose—well, Rose was just another young girl with dreams.

3-Minute Fiction

She had fallen in love with Loring Hunt when she was 12 years old. Maturity had rather dampened her enthusiasm; at least she never betrayed the real depths of it.

When told of Loring Hunt's pending arrival Jerry had snorted.

"What!" he cried disgustedly. "That sap coming here? To your house? Why, your mother must be out of her mind!"

"Mother's far from out of her mind," Rose replied furiously. "It's only common decency that she ask Mr. Hunt to stay with us while he's in town. His father and mine were close friends. Since Daddy's death, the Hunts have been splendid to mother." She added spitefully: "We're giving a party in Loring Hunt's honor and I guess you'd better not come."

"Try and keep me away," said Jerry. "I'm not letting the girl I'm engaged to run around unprotected with that lizard in the vicinity."

"We're not engaged," Rose told him.

"We're practically engaged," said Jerry.

A week later Loring Hunt arrived. He was wearing a mustache and colored glasses, both of which he removed as soon as he was inside the house. "It's my defense," he smiled by way of explanation. "I'd be mobbed without them."

Loring was all and more than she had expected. There were a few grey hairs about his temples, but what are a few grey hairs when the man of her dreams was here in the flesh and seeming to take a particular interest in her.

"I look under 30, eh?" Loring chuckled. "They do marvelous things in Hollywood."

At least Rose imagined he was taking a particular interest in her.

DURING the first of the evening Jerry assumed an attitude of aloofness. He stood in a corner and tried to look disdainful and superior. But when this attitude failed to impress Rose he abandoned it, and took to following her around.

Toward the end of the evening Loring Hunt asked her if she'd meet him outside on the terrace in five minutes.

"Quite a trick, getting away from that crowd," Loring Hunt smiled. He drew her to a hammock and sat down. "I wanted to have a few moments alone with you before I left."

"Yes?" whispered Rose.

"You remind me so much of your father. He was a fine man. I remember him well."

"You remember my father? But I was only a child when he died!"

"You were at that," said Loring Hunt. "I was young too." He sighed. "Ah, me! How time does fly. Here I am almost 50 and———"

"Fifty!" cried Rose. "Why, I thought.———that is———in your pictures———"

"I look under 30, eh?" Loring chuckled. "They do marvelous things in Hollywood. But, here! Let's not talk of me Tell me about yourself. Are you in love? I noticed a fine looking boy giving you a lot of attention."

Rose was a bit overcome. She hadn't dreamed that her ideal was———was an old man!

She started to speak, but a figure had glided up and was standing in front of them. It was Jerry. In the pale light she could see the set look to his jaw.

"Ah," said Loring Hunt, rising, "here he is now. We were just talking about you, young man. Rose was telling me——— well, rather I was telling her that it was a pity her father couldn't have lived to see his daughter grown to womanhood."

"Yeah?" said Jerry.

There was a pause, Rose leaped to her feet. "Mr. Hunt was asking me if I'm in love and——— and I told him yes. I told him I was in love with you, Jerry."

Slowly Jerry relaxed. Rose had taken his arm and was hanging on for dear life. It was a good thing, he told himself importantly, for Loring Hunt, that she had come to her senses.

No Record

There is no authentic record of the origin of the office of poet-laureate of England.

KATHLEEN NORRIS

Dollar Sense

LONG AGO, when I was cub reporter," writes Katharine Crosby MacInnis in Harpers Magazine, "my editor told me, when I asked for a raise, that if I couldn't live on $20 a week I couldn't live on $50. I thought then," continues this spirited article, which she calls **Living High**, "that he was weak in the head. But now I see that he was right."

Mrs. MacInnis and her husband have done nothing sensational in living happily and richfully, and what is more important, living absolutely without fear, on an assured income of $90 a month. At least it oughtn't to be sensational. But it actually is.

Inevitable Story

Her story is the inevitable one when a man and wife are determined to get what they want from life without beggary, debt, charity —or worry. Of course they went to an unfashionable neighborhood on the outskirts of town; their first

". . . had fruit trees . . ."

home-owning venture was of a house that cost $825 and stood on a 50x120 lot, and had fruit trees. They preserved the fruit, raised vegetables, and paid $10 a month until they owned their place. After awhile they sold this house at a small profit and bought another, a bungalow with a view. Mrs. MacInnis rarely has to buy clothes; perhaps she would answer that as a dignified Boston lady did: "We do not buy hats; we have our hats." When they entertain they turn to good old Boston beans and Apple Jonathan. I don't know Apple Jonathan, but I do remember that my hospitalities years ago used to run to spanish omelet, hot biscuit, and chocolate cornstarch with a little orange peel in it, and I imagine that it is about as economical a menu.

Of course the MacInnises sometimes augmented their income, which was not always as much as $90, in many small ways. But they lived on the $90 and put everything else aside for a backlog.

The backlog provides tickets when they travel. They are elderly persons and they love travel. Every little while they rent their house, go to some attractive place and settle down. They say that for what they want in the way of housing and food, expenses run about the same everywhere.

Gay Adventure

Well, theirs is a gay adventure, and you feel it as you read **Living High**. And you wonder how many families with five and 10 times that income are as free from worry, and, like them enjoying every minute of life. This woman has found the secret; the secret of not struggling to get more money than you legitimately can claim, for one thing, and not living at a rate that indicates that you have much more than you have. The difference between owing $453 in old bills, and having $453 in the bank, is the difference between freedom and slavery. And if slavery is the insufferable condition to us Americans, freedom is certainly the most prized and wonderful.

Make all the money you can, of course. Ask for the raise; climb to the higher place. Make a plan for success, and follow it. But while you are waiting, get down under your income, and you will find that eiderdown itself is not a more welcome covering on a cold night.

Life is short. It's a pity to miss the thrills that come from a good realistic look at one's affairs, and a heroic decision to tear up roots, burn bridges, tilt with windmills and in every other way defy metaphors and the opinion of the neighbors at the same time. For Mrs. MacInnis' editor was right; if you want to live on any income at all today, you can, without worry and without debt. You can see all the good old movies, you can buy all the classics, and you can eat well. And if you can't manage that on $1,500 a year you couldn't manage it on that much a month.

For proof of this look at your friends who have $1,500 a month. They are talking money trouble just as hard as everyone else.

They talk of taxes, insurance, wages, car maintenance, household equipment, dentist bills and the cost of private schools. One family I know on about that income keeps a son at a school whose charges are $200 a month. Junior recently borrowed another boy's car and had an accident. "So I suppose the next thing is a car for Junior," said his mother with a sigh.

Another family, whose income is not much more than $500 a month, crippled itself by payments of $190 a month on a pretentious home.

SHOPPER'S CORNER

By DOROTHY BARCLAY

FISH OR FOWL

FISH or fowl or raw red herring? Never mind the herring, lady, for you're in luck with both fish and fowl.

Frozen fish is plentiful in your store refrigerator—fish to suit all tastes and all purses, and to put away in your freezer for the answer to a future question. Yellow perch and Canadian yellow pike are in big wholesale supply, which means that your market will be getting more and more of these succulent appetite-satisfiers. Don't set your heart on a planked white fish, however, unless it's for a very special fish-cater. For whitefish is scarce, and the price is rising higher than the water it comes from. Trout, too, is in the present luxury class but lake herring is coming in in greater quantity at the market, and costing less with each load.

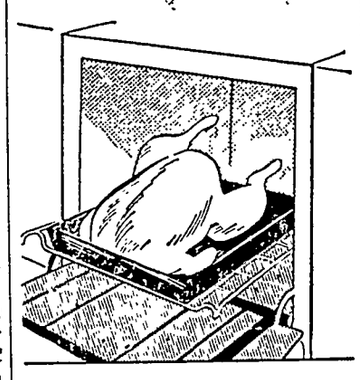
A MAIN STREET FEATURE

Smelts, while few at the moment, are low priced, and make a delicious cold-night supper. And if you like oysters — heart-warming stew, or oven-warmed scalloped casserole, you're in luck, too. For fresh oysters are approaching their heyday.

The best news is in the fowl line. Broilers are a third more plentiful now than they were a year ago. In fact, apples share the lead with broiling chickens for the tops on the department of agriculture's shopping list. And you know about apples—this is the third large crop in a row for them. So chickens are not only plentiful but much more reasonably priced than comparable meats—and it's always a feast with chicken dinner.

THE FESTIVE TURKEY

And turkeys! You can start right now celebrating the holidays with a record turkey crop. Eat turkey often, for you can get turkeys of any size. It doesn't have to be a big party one day, and left-overs for ten days, any more—it can just be a family turkey dinner, be your family 2 or 4 or 10.



For the small family, or for the bride who wants to show her skill on this most festive of all meats, the best buy is the small Beltsville white type turkey, which represents 16 per cent of the total crop. In some regions in the south, the proportion of these small meaty birds is as high as 41 per cent of the entire output. These smaller birds give you just enough for the occasion, and not too much aftermath of soup, hash, croquettes, turkey a la king, which used to make you say "once a year's enough for turkey." In fact, after the first one most small families will have them more often.

You may have to wait till later for your chief fixin's, the traditional cranberry accompaniment. While smaller than last year's crop, cranberries are still 26 per cent above average, and they'll begin pouring in from the west, where they are already being harvested, in plenty of time for Thanksgiving!

THE GOOD EGG

And while we're speaking of fowl, what's wrong with an occasional taste of second-generation chicken, the good egg? Eggs, you know, have as much protein, vitamin and mineral content as the finest meats. You know a multitude of uses for eggs, but do you know how to treat them and store them, to get the most in food value, and for your money? Three C's cover the storing of eggs—clean, covered and cold. Be sure the shells are clean, by wiping them with a damp cloth. Don't wash them until just before use; and store them in a covered bowl or pan away from aromatic foods. Eggs are sensitive creatures, easily influenced by other things too close to them. Stored at low temperatures, eggs keep fresh for weeks.

Small Town Couple Raise Game Birds at a Profit

VIDALIA, Ga.—Mr. and Mrs. Dewey Joyce started a strange career of rearing wild game birds in captivity several years ago. It has proved to be a profitable business Quail, pheasants and chukkar partridge are the most profitable. The quail sell for $5 to $6 per pair. Pheasants sell at $7.50 per pair. The business was started as a hobby several years ago and recently put on a commercial basis.

How True

Hear that fellow blowing about his business?

Yeah. Trade winds!

TO KILL Chicken Lice AND Mites
Apply Black Leaf 40 to roosts with handy Cap Brush. Fumes rise, killing lice and feather mites, while chickens perch. One ounce treats 60 feet of roosts —90 chickens. Directions on package. Ask for Black Leaf 40, the dependable insecticide of many uses.
Tobacco By-Products & Chemical Corporation • Richmond, Virginia

"Monthly Pains" stopped or amazingly relieved
in 3 out of 4 cases in doctors tests!
• Chances are you're putting up—*unnecessarily*—with the functionally caused pains, cramps and weak, "no good" feelings of menstruation!
For, in actual tests by doctors, Lydia Pinkham's Compound brought *complete* or *striking* relief from such distress in 3 out of 4 of the cases!
Lydia Pinkham's is *modern in its action!*
So get Lydia E. Pinkham's Vegetable Compound—or *new, improved* Tablets with added iron. See if—taken through the month—it doesn't give relief from those backaches, jitters—help you feel better *before* and *during* your period!
Or—if you suffer from functional "hot flashes" of "change of life," *find out how wonderful Pinkham's is for that, too!*
It has a quieting effect on uterine contractions that often cause menstrual pain.

Kidney Slow-Down May Bring Restless Nights
When kidney function slows down, many folks complain of nagging backache, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.
Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!
DOAN'S PILLS

It's Wonderful the Way Chewing-Gum Laxative
Acts Chiefly to
REMOVE WASTE —NOT GOOD FOOD
• Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!
Doctors say that many other laxatives start their "flushing" action too soon . . . right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.
But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.
FEEN-A-MINT
FAMOUS CHEWING-GUM LAXATIVE

Rural Population Is Salvation of Today's Civilization

By Wright A. Patterson

THE FIRST WEEK of December, 1951 will mark the end of 11 years that I have been writing this column. Through those eventful 11 years I have, on many occasions, recalled the content of that first column, but I have never reprinted it. It contained a prophecy, made to me by Arthur Balfour, whom during World War I, I considered the most capable, the most discerning of the British statesmen.

The time was the day that marked the close of that conflict in November of 1918. The place was a parlor in the Savoy Hotel on the Strand in London. In that parlor we listened to the wildly hilarious Londoners, millions of them, expressing their joy over the close of the war. Balfour put down the window that he might make himself heard, and then said to me:

"Today we English and all the others of the allied world are crazed with joy over the ending of the war. They do not realize that the world faces a more serious problem now than at any time during the last four years. We know what has happened in Russia; we know that France, Italy and the Balkans, are on the verge of Bolshevism; in England we are seriously affected, and in the great cities of America the virus is working.

"Within a comparatively short time we will be engaged in another global struggle that will mark the end of civilization in Europe as we have known and enjoyed it. Our hope of having it returned to us lies in the rural population of America, the people of your towns, your villages and farms. They are the safest, sanest people in the world today. If America stays out of that coming conflict, those people of rural America will bring our civilization back to us within one or two generations. If America joins in that conflict, she will lose her civilization, and it will take centuries, rather than only generations, to get it back."

It was a startling, an unbelievable statement, but I have lived to see much of what Balfour said come to pass. There was that second global war, more destructive, more terrible, than the first one. Considerable portions of Europe are today living under the blighting influence of Communism; England has turned to socialism, and France and Italy are on the verge. I have lived to see the victorious Democratic party, dominated by the socialistic New Deal, and this followed by the even more dangerous Fair Deal. We are moving toward socialism at an all too rapid pace.

Since that first week in December, 1940, with that Balfour prophecy before me as a text, I have endeavored to convince my rural audience, the people of the villages, the towns and the farms, of the dangers in the trend of the socialistic left. I have hoped to cause them to realize their part in the saving of the nation and the world civilization. For us, the destruction will be marked by personal and national bankruptcy, caused largely by the effort to meet the demand of those seeking something for nothing. "With the coming of bankruptcy there will be nothing from which to provide that something that is expected.

I have seen that second and greater conflict come and the Hitler legions destroyed. But with that conflict there was destroyed much of the European civilization. Poland and the Balkan states have been enveloped within the destructive folds of Communism; France and Italy are on the verge.

England has gone socialistic, and we in the United States have followed the New Deal, and then the Fair Deal, along the socialistic trail. My feeble efforts, as well as the efforts of many others of greater ability and with larger audiences, have been outweighed by the something-for-nothing provided through doles to the farmers for not planting or high food prices.

They proved more effective than mere words, and they have followed the Pied Piper of socialism, until we are now standing on the brink of the precipice. Because the Jeffersonian Democrats of the south refused to follow the socialistic program, we are still on that brink. We have one last chance to escape the abyss.

That is the next national election. If we at that time defeat the forces of destruction, we can turn back from that socialistic brink.

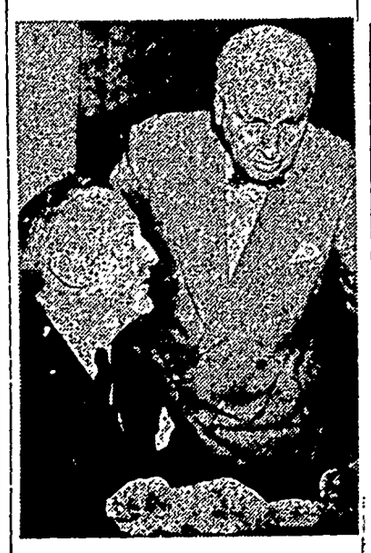
CONFER ON ALL-OUT ATOMIC EXPANSION . . . From left to right, Senator Brien McMahon (D., Conn.), chairman of the joint congressional atomic energy committee, talks with atomic energy commissioners, Henry D. Symth, Thomas E. Murray and J. Keith Glennan, shortly before the A.E.C. members met with the atomic committee in secret session at the Capitol recently. McMahon announced that he will ask the atomic committee to approve his resolution calling for an all-out atomic expansion. McMahon has said that $6 billion a year could give the United States an atomic army, air force and navy.

CZECH FUGITIVES FROM RED URANIUM MINES . . . These six Czechs are happy in the refugee camp Valka, near Nuernberg, Germany, after their escape from the dreaded Joachimov uranium mines where they were forced to mine uranium ore for the Russians. The six were sentenced to long-term forced labor by a Czech court for anti-Communist activities. They were in the mines for two years, working under inhuman conditions 435 feet below the surface, before they made their daring escape and surrendered to German border police. They hope to reach the U. S. or Canada. They were fed the best meal they had enjoyed in five years when they were taken to the German camp.

CLAIMS CHILD . . . Mrs. Dorothea Hooker, Newport, R.I., socialite, mother of slain Dorothy Hooker Cahill, meets her grandson, Michael Cahill, for first time in San Francisco. The child was placed in a guidance center after body of his mother was found in apartment of her common-law husband, Thomas Cahill, who admitted stabbing his wife to death. Mrs. Hooker has asked custody of little Michael. Charles McGinnis, a friend of Mrs. Cahill, has also filed a claim.

"MISS EUROPE" . . . Lovely Jaqueline Genton parades up the ramp after she was chosen as "Miss Europe" in Palermo, Sicily. This lovely lady from Losanna, Switzerland, won out over beauties from other European nations.

RUSSIAN NEWSMEN . . . Bill Mardo (left), newcomer to the Washington staff of the Soviet news agency Tass, stands beside a phone booth as Mikhail Federov, chief of the Tass Washington bureau, dictates his account of a recent Presidential press conference. Mr. Truman had told newsmen that his secrecy order to government agencies was necessary because 95 per cent of U. S. military secrets had already been published.



JOLT FOR JOE . . . Senators Benton and Gillette are talking about Senator Joe McCarthy's fitness to sit in the U. S. senate, a question that is before the senate elections committee of which Gillette is chairman.

Texas Breeds World's Best Golfers

By GRANTLAND RICE

WHAT element is there in the air of Texas that produces golf champions? What quality is there in Texas soil that makes a golf swing? The record of this somewhat expanded commonwealth is certainly an uncommon one in golf.

The Open Golf Champion of the U. S. is Ben Hogan, a Fort Worth Texan. The Women's Open Golf Champion is Betsy Rawls, another Texan. The U. S. Amateur Champion is Billy Maxwell, also born and bred a Texan.

Who was it that came before Hogan to rule U. S. golf? Ralph Guldahl, a big Texan who won the U. S. Open and the Western Open two years in succession. Who followed the brilliant Guldahl? Byron Nelson, one of the great golfers of all time. Byron Nelson, another Texas product, belongs to the nonpareils Who were in there swinging all along the route? Lloyd Mangrum and Jimmy Demaret, also from Texas

Grantland Rice

What state or section ever gave the game so many star golfers as Ben Hogan, Byron Nelson, Lloyd Mangrum, Ralph Guldahl and Jimmy Demaret?

When Billy Maxwell, a 22-year-old stylist, captured the recent Amateur Championship, Texas owned practically all the upland country.

When Miss Rawls finally moved past Babe Didrikson to win the Women's Open, it was all Texas

The recent victory of young Miss Rawls at Atlanta recalls again the number of brilliant women golfers Texas has given the game. I played with Babe Didrikson in Los Angeles back in 1932, 19 years ago when she was just starting out.

She has proved to be the finest woman golfer the game has ever known, able at times to turn in a 66 or a 67. In recent years, Texas has turned out a remarkable group of girl stars, includig, among others, Peggy Chandler, a low-70 shooter.

California set something of a record in the number of tennis stars it developed, year after year. But California's tennis colony doesn't match the class of men and women Texas has given to golf. Why should one state, a state even as big as Texas is, keep such a grip on one sport?

One reason is that one star can work up increased local interest among the kids. For example, you may recall when Bobby Jones came along in Georgia. Before you could turn around, all types of kids were playing golf, such as Perry Adair, R. Watts Gunn, Alexa Stirling, Crawford Rainwater and many others. The present Woman's Champion is an Atlanta girl, one of the country's best.

It got to be that way in Texas. I recall when Ralph Guldahl came along, they began to talk about young Jimmy Demaret and then Byron Nelson. The rivalry soon became so keen that golfers such as Ben Hogan really went to work.

No golfers ever worked harder than Hogan and Nelson to perfect their swings. Hour after hour, month after month, year after year, they hit an incredible number of practice shots. They got their swings almost perfectly grooved for every type of shot. I've seen Hogan work two hours on one type of shot from 90 yards off the green. The Texans often worked together, more than willing to help each other out when any kink attacked a swing.

I recall one occasion where Hogan won a 72-hole Open tournament with 263 for the 72 holes, a new record—something like 26 under par. Yet next day Ben was out taking a lesson and working over a slight change in his grip.

* * *

Looking Back

The National League got away like a flash. It won four of the first five modern world series' contests. The A. L. was almost a joke, meeting the Cubs and Giants. But the tide turned—as tides always will. Since 1910 the American League has taken over.

It must first be admitted the American League has had most of the great ballplayers: Cobb, Ruth, Gehrig, Sisler, Speaker, Collins, Lajoie, DiMaggio and Feller.

The National League can't quite match this collection even with Wagner, Hornsby, Frisch, Hartnett, Musial, Alexander, Mathewson, Traynor, Kling, Hubbell, Dean and Terry. Not quite.

Who is going to match Ruth and Cobb for a starter? Name four or five? Gehrig or Sisler? Wagner was the greatest National Leaguer. Hornsby was next. It might be Musial is third.

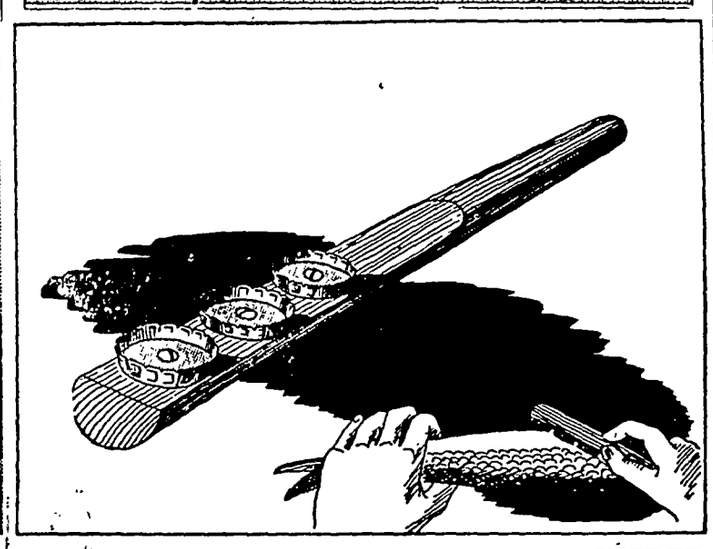
The Dodgers, with a better-than-average catcher, infield and outfield, had to struggle along with one good pitcher. His name was Preacher Roe. Newcombe, Branca and others were merely throwers.

Just a fair pitcher should have won 20 or 25 games with the Dodgers with such first-class talent in other positions as Campanella, Hodges, Robinson, Reese, Furillo and Snider.

No reasonably sane party can doubt that from August first on to the fading stretch the Giants were a much better team than the Dodgers were all year.

How to FIX-IT

BY HAROLD ARNETT



FISH CAN BE SCALED WITH A GADGET MADE BY SCREWING THREE BOTTLE CAPS TO A PIECE OF BROOM HANDLE.

SCANTY SUIT

Joe: I'd like to see you in one of them low cut, skimpy evenin' gowns with a bare midriff. Maybe there'd even be a scene where you'd wear a bathin' suit.

Judy: Uh, uh. The studio asked me if I'd wear one of them new 1951 bathing suits and I really blew my top.

Joe: A new 1951 bathin' suit? What was it like?

Judy: A bottle of suntan oil and a zipper.

Repeat Performance

The hen pecked husband was told that his wife had been kissed by a pal of his at a party the night before. "She was shocked speechless," said the informant. "What are you going to do about it?"

The husband grinned and said, "I'm going to ask my pal to drop by the house and kiss her every night."

STRONG WIND

A nearsighted man lost his hat in a high wind. After 10 minutes of chasing it through the streets of a small town, he was stopped by an agitated farm woman.

"What do you think you're doing?" she demanded.

"My hat blew off in the wind!" he called, running on.

"Your hat!" the woman shouted. "Your hat is over by the wall. You've nearly run the legs off my little black hen."

An Error

An Englishman was in the United States for the first time. Some of his friends in New York took him to see the Yankees play baseball. After the Yanks had been hitting the opposing pitcher all over the lot the Englishman was heard to remark: "Jolly good pitcher, eh, what? Hits the bloomin' bat every time."

PLANS BEING MADE FOR COMMUNITY CHRISTMAS CANTATA, DECEMBER 23

Singers From All Churches Are Invited To Attend Rehearsals

Rather than have separate Christmas Cantatas at the several churches this year, plans are now being made to have a community Christmas cantata to be held at the Klemme High School auditorium on the evening of December 23.

Choirs and singers from the Klemme Evangelical and Reformed Church, Klemme and Ligerty Methodist Church, Peace Reformed Chruch in Ell Township and the Goodell E. U. B Church are invited to attend the first rehearsal which will be held in the Klemme Methodist Church on Wednesday evening, November 14th at 8:00 o'clock. Any others who enjoy singing are also invited to attend the rehearsal and sing in the Community Chorus.

The Community Chorus will be directed by Raymond Barz, Mrs. Wm Reinhart and Mr. Charles Whitford. Organists will be Mrs. Ernest Gerardi and Maurice Jacobs.

W. AHRENKIEL, GOODELL GROCER DIES SUDDENLY

Funeral services for Walter Ahrenkiel, 64, Goodell were held Monday at 2 p. m. in the E. U. B. church at Goodell with the Rev. G. M. Talbott officiating and burial was in the Amsterdam cemetery. He was born September 9, 1887, at New Hartford, a son of the late Mr. and Mrs. John Ahrenkiel.

The family moved near Goodell to farm and later purchased the general store at Goodell. For several years Walter was employed with a printing company in Minneapolis. He served overseas in World War I. The past few years he has managed the Ahrenkiel grocery at Goodell. He suffered a heart attack and died in his sleep about 7 a. m. Thursday. His mother died in August.

Survivors are a brother, Leo, in Salem, Ore.; two sisters, Mrs. Matt Smith of Klemme and Louise Johnson of Goodell, also two nieces and 3 nephews.

KLEMME COUPLE MARRIED AT THE LITTLE BROWN CHURCH

Miss Helen Suckow Bride Of Junior Roths In Ceremony On October 23

MR. & MRS THOMAS ROTHS

The Little Brown Church in the Vale, near Nashua, Iowa, was the setting for a quiet wedding on Tuesday morning, October 23, 1951 at 11:00 o'clock, when Miss Helen L Suckow, youngest daughter of Mr. and Mrs. John Suckow of Klemme, became the bride of Thomas F Roths, Jr, Klemme, son of Mr. and Mrs. Thomas Roths of San Benito, Texas.

The couple was attended by Miss Neva Anderson, cousin of the bride, and Bill Roths, cousin of the groom. Rev. F. L. Hanscom, pastor of the church, performed the ceremony.

The bride wore a wine-colored suit with black accessories with a bouquet of yellow roses. Miss Anderson wore an aqua suit with black accessories and pink roses.

After the wedding ceremony the couples returned to Klemme where a wedding dinner was served at the John Suckow home by Dr and Mrs D P Anderson. Others present besides Mr. and Mrs. John Suckow, the Andersons and the wedding party were Mr and Mrs. Thomas Roths of San Benito, Texas and Mr. and Mrs. Arnett Waddingham and family

The bride attended the Klemme schools and graduated with the class of 1948 The groom also attended Klemme schools and is a Veteran of World War II and saw over-seas service. Since returning from army duty he worked as a truck driver and recently became employed by the Josten Hardware and Applhance Store as serviceman

The couple was honored with a reception and dance at the Surf ballroom at Clear Lake on the evening of their wedding They recently returned to Klemme from a ten days wedding trip in Wisconsin and Illinois and are now at home in their apartment above the Kroehnke Cafe.

Bicycles For Boys And Girls

KLEMME MERCHANTS TO GIVE AWAY BICYCLES AND MANY OTHER GIFTS

Klemme merchants are planning to make a lot of boys and girls happy for Christmas by giving away bicycles, a radio, tricycles, coaster wagons, sleds, and many other fine gifts to boys and girls in about 3 age groups.

Ask your merchant about how you can earn a new bicycle or a radio or any other fine gifts.

This is not a drawing—but a merchandise plan with votes given for each dollar purchase. You collect the votes—the more votes you get, the better your free gift.

Boys and girls—you can begin today to get free votes!

Be SURE of your target

GUN SAFETY WEEK NOV. 11-18

This is a public safety service of your safety-minded businesses and this newspaper in cooperation with the Iowa Safety Congress.

The hunting season is here and during the next few weeks more than 350,000 Iowa hunters will take to the fields in search of pheasant, duck and quail.

To remind hunters of gun safety rules and teach youngsters proper handling of firearms, your Iowa Safety Congress, in cooperation with the State Conservation Commission, Boy Scouts and other organizations, has planned the second annual observance of Gun Safety Week, November 11 to 18.

Timed to coincide with the opening of the pheasant season, the gun safety observance emphasizes that firearms provide safe recreation only if properly used.

When you're out hunting this weekend, especially if you're with a group -- be sure of your target before you pull the trigger! There's no open season on human life, so be sure before you shoot and prevent a tragedy.

Remember shooting is fun for those who are careful!

UNUSUALLY COLD WEATHER HIT IOWA THIS WEEK

An unusually cold spell, coldest in history for this time of the year, struck Iowa over the week end Monday morning lowest readings in Iowa were down as much as 2 to 4 below zero.

The cold wave slowed up bean combining and corn picking until warmer weather again arrives.

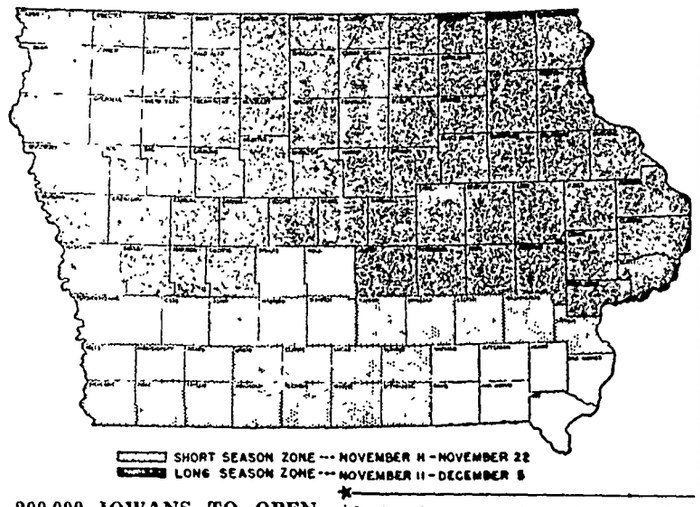
Mrs. George Paca And Martha Ann Honored At Shower

A miscellaneous shower was held at the home of Mrs. Orris Lundy Saturday afternoon honoring her daughter, Mrs. George Paca and baby, Martha Ann.

A large group of ladies were present who enjoyed a social afternoon. Mrs. Lundy served a nice lunch. Mrs. Paca and Martha Ann received many nice gifts from their friends.

Pheasant Season Opens Nov. 11

1951 PHEASANT SEASON



200,000 IOWANS TO OPEN PHEASANT SEASON

Twelve o'clock noon will hear the opening guns of the 1951 pheasant season and conservation officials expect more than half of Iowa's 250,000 licensed hunters will be out in pursuit of ringnecks. Census returns indicate better population of pheasants than in 1950, which was considered a good year. Hunters will be handicapped, however, by unusally dense cover, and much unpicked corn. Surveys indicate, generally speaking, the heaviest densities of pheasants are in the northern three tiers of counties in the western two-thirds of the state, although pockets of heavy densitres are found outside of this area.

Hungarian partridges, quite rare for the past several seasons, are making a spectacular come-back The season on partridges is closed this year.

In a last minute plead to sportsmen, the Conservation Commission asks all hunters to carefully observe the "Kill No Hen" regulation and pointed out that a part of the success of this year's pheasant crop is due to the fact that hunters have refrained from shooting hen birds the past few seasons. A heavy hatch of ringnecks in late summer has caused more immature birds to be available at the opening than usual, and special care will be needed to tell young cocks. from hens.

The commission also reminded hunters to secure permission of landowners before hunting on private property, and after permission has been secured, to refrain from hunting in standing corn, or unharvested soy beans.

With a state-wide gun safety campaign under way, all hunters are urged to observe the simple safety rules of firearm handling. Carrying loaded guns in automobiles on the highways is dangerous and unlawful. Almost 1,000 arrests are made each year in Iowa for this illegal practice.

The season opens at noon and closes at 4:30 p. m. each day. The bag limit is 3 cock birds with a possession limit of 3 cock birds. In the following counties in the short zone the season is November 11 through November 22: Harrison, Pottawattamie, Cass, Adair, Madison, Adams, Union, Clarke, Lucas, Taylor, Ringgold, Decatur, Wayne, Louisa, Washington, Keokuk, Mahaska, Dallas, Mills, Montgomery, Fremont, Page, Monroe, Appanoose, Polk, Warren and Marion.

In the following counties in the long season zone the season is November 11 through December 5: Lyon, Osceola, Dickinson, Emmet, Kossuth, Winnebago, Worth, Mitchell, Howard, Winneshiek, Allamakee, Clayton, Fayette, Chickasaw, Floyd, Cerro Gordo, Hancock, Palo Alto, Clay, O'Brien, Sioux, Plymouth, Cherokee, Buena Vista, Pocahontas, Humboldt, Wright, Franklin, Butler, Bremer, Woodbury, Ida, Sac, Calhoun, Webster, Hamiliton, Hardin, Grundy, Black Hawk, Buchanan, Delaware, Dubuque, Jaskson, Clinton, Scott, Jones, Linn, Benton, Tama, Marshall, Story, Boone, Greene, Carroll, Crawford, Monona, Shelby, Audubon, Guthrie, Jasper, Poweshiek, Iowa, Johnson, Cedar and Muscatine.

the Highway Story

IOWA DEPARTMENT OF PUBLIC SAFETY

BY RAY EASTMAN

Mr. Million
Anywhere
U. S. A.
Dear Sir:

This is to inform you that the American people, after some consideration, have apparently decided that very little of a constructive nature can be accomplished in your case. You must, therefore, be killed in a traffic accident as previously scheduled, sometime between this date and the first of the year.

Please understand, however, that we are all men of good will. None of us actually desires your death It is simply that we cannot gather enough interest and determination to do much for you. The fault is ours. The fate, unfortunately, is yours.

I might remind you, however, that your death will be surrounded by some distinction. Yours will be the one-millionth traffic death in this country. You will pass into our headlines and history as a symbol of error and disregard. I hope that is some comfort.

Furthurmore, you will not lack for fellowship of common experience among the 999,999 persons who will have gone before you. This may seen like a small consideration in view of your fate, but then, you have very little more to look forward to.

In the meantime, I would advise you to act as though you had not given up hope for there are many who will work, up to the last second, for your reprieve They may gain you a few extra days or weeks of life. Uuder present conditions we can promise no more.

Best wishes for a quick and painless death when your time comes.

Regretfully yours-

WELLEMEYER STORE OPENING DAYS WAS GRAND SUCCESS

There were large crowds present both Friday and Saturday at the Wellemeyer Store opening.

Hot coffee and doughnuts were served throughout the two days and Saturday evening: A factory demonstrator was present explaining to interested women new methods of sewing and using special attachments on the sewing machine.

Door prizes were given away Saturday evening. Mrs Gerald Koerner received the frist prize, a nice mattress; Mrs. Ed. Becker received a blanket; Gail Thayer of Belmond was the winner of a large mirror; and Mr. John Clements won a carpet sweeper. Twenty-five additional small prizes were given out.

People came from a long distance for the opening sale and were registered from all over Hancock County and from all of the adjacent counties: Wright, Cerro Gordo, Worth, Winnebago, Franklin and Kossuth counties.

Altogether, the opening was a great success according to Mr. Wellemeyer, Don Bacon and Howard DeMotts, proprietors.

ELECTRIC COMPANY WILL INSTALL 4th DIESEL AT BRITT PLANT

The Iowa Electric Light and Power Company, successors to the Central States Electric Co., is installing the 4th Chicago Pneumatic 1,500 h. p. diesel engine in the plant at Britt.

The first diesel started manufacturing electric energy at the Britt plant on Dec. 8, 1949; the second engine went into production in 1950 and the 3rd was recently installed and the 4th engine will soon be hooked in.

When all of the diesles are connected and operating, the Britt plant will have facilities to supply 6,000 horsepower of the generating machinery.

Last Rites For Wm. Bell At Methodist, Thursday

CHARLES F. MARTIN

The Hancock County Education Association will have a dinner meeting in the Garner High School gym Wednesday evening, November 14, at 6:30.

Special speaker for the all-county meeting will be Charles F. Martin, Executive Secretary of the Iowa State Education Association. All teachers in Hancock County, as well as all members of Boards of Education, are urged to attend and hear Mr. Martin's address on "Where Do We Go From Here."

METHODIST BAZAAR AND HOT LUNCH THURSDAY, NOV. 15TH

Bazaar Selling And Lunches Will Begin At 2:30 In Basement

The annual Klemme Methodist Church Bazaar and serving of hot lunches will take place on Thursday afternoon and evening, November 15th at the church dining room.

The bazaar selling will start at 2:30 o'clock with a large line of merchandise suitable for Christmas gifts. The selling will continue throughout the afternoon and evening. There will be a nice display of fancy work, novelties, home-made candy, food delicacies, aprons, rugs, etc and a fish pond for the children.

Hot sandwiches, coffee, doughnuts, cakes, pies, will be served throughout the afternoon and evening. The ladies invite you to come for supper also

NEW FAIR BOARD ELECTED AT MEETING MONDAY NIGHT AT GARNER

At a meeting of interested voters of Hancock County at the R. E. A. Building in Garner on Monday evening five directors were elected to the Hancock County Fair Board:

Mitchell Bock and Dale Brede of Klemme; Floyd Friedow of Kanawha; Merle Hall of near Miller and Roy Hodds of Crystal Lake.

The directors will meet to elect their chairman and other other officers.

HELLO FOLKS

Mr. and Mrs. Curtis Greiman of Garner are the parents of a daughter born at the Municipal hospital in Forest City, October 29, 1951.

Mrs. Clarence Bacnman received a telephone call from Brownsville, Texas, Wednesday from her brother, Dave Henry. He told her that he and Mrs. Henry are now the parents of a little girl weighing 5 pounds. born Wednesday, October 31.

She has been named Darlene Marsha after Mrs. James Reinig of Garner, who is a neice of Mr. Henry.

WILLIAM BELL, 82, DIED AT HIS HOME EARLY ON TUESDAY MORNING

Funeral Services Thursday At 2:00 P. M., Methodist Church, Burial In Ell Cemetery

Funeral services for William Bell, 82, will be held at the Klemme Methodist Church this Thursday afternoon at 2:00 o'clock P M, with the Rev. E. Morris Egeland officiating Arrangements are in charge of the Wellemeyer Funeral Service. Burial will be in the Ell Township Cemetery near Klemme.

Mr. Bell died at about 2:30 o'clock Tuesday morning from a heart attack at his home on a farm southeast of Klemme. Mr. Bell had been in fairly good health and he was very spry for his age and was in town with his son Jeff a few days before his death and enjoyed visiting with his many friends.

Mr. Bell is survived by four sons. William Jeff at home, Fred, Russell and Kenneth, and one daughter, Mrs. Wm. Lassahn. Mrs Bell preceded him in death.

Girls Team Will Play Legion Here

MARGIE ARENDS

HOUSEHOLD MEMOS... by Lynn Chambers

Ham and Eggs Make a Supper Loaf
(See Recipe Below)

Supper Topics

"WHAT'S FOR SUPPER, Mom?" Once the homemaker has spent a lot of time preparing a big dinner, she's apt to feel it's a bit of a strain to think of supper.

She's right, of course! Supper should be simple, though satisfying.

Families require something good-tasting and nourishing and when the main dish can be prepared easily from ingredients on hand, so much the better.

Once the main dish has been decided on, a salad and very light dessert with beverage should easily complete the meal.

• • •

HAM AND EGGS can be a fine dish, and there's no reason why this all-American team has to be simply a breakfast standby. The same basic combination of ham and eggs, toast and coffee can be made interesting and varied enough to be suitable for a delectable supper, lunch or even brunch dish.

***Ham and Egg Loaf**
(Serves 6)

- 12 slices whole wheat bread
- 1 cup ground, cooked ham
- 1 teaspoon grated onion
- 1 can condensed mushroom soup
- 4 hard-cooked eggs
- ½ teaspoon celery salt
- ½ cup milk
- 2 tablespoons melted butter

Chop two of the hard-cooked eggs; mix with ham, seasonings, ¼ cup milk and half of the soup, undiluted. Trim crusts from bread; place 3 slices close together on baking sheet; spread with ham mixture; top with three bread slices. Repeat until there are three layers of ham mixture and four layers of bread. Brush top slices with half of the butter; bake in a moderately hot (375° F.) oven until lightly browned. Blend together remaining milk, butter and soup; heat. Add remaining eggs, sliced. Serve loaf, sliced, with sauce.

• • •

A GOOD POT of coffee makes the perfect accompaniment for any ham and egg meal. Use ¾ cup (a measuring cup) of cold water and two level measuring tablespoons of coffee for each cup to be served.

• • •

DEVILED EGGS need not be confined to picnics, as they make a delicious supper dish when mushrooms are added to the yolk mixture, and tomatoes and cheese made into a sauce:

Deviled Eggs, Tomato Sauce
(Serves 2-4)

- 4 hard-cooked eggs
- ¾ cup chopped mushrooms
- 1 tablespoon minced parsley
- 1 tablespoon butter
- 2 tablespoons chili sauce
- Salt and pepper
- ⅓ cup cooked or canned tomatoes
- 2 tablespoons grated cheese

Cut eggs into halves; remove yolks and mash. Saute mushrooms and parsley in butter until tender and combine with egg yolks, chili sauce, salt and pepper. Refill whites. Place in buttered baking dish and add tomatoes; sprinkle with cheese. Bake in a moderate (350°F.) oven until heated through

LYNN CHAMBERS' MENU
*Ham and Egg Loaf
Tossed Green Salad
Olives and Pickles
Canned Peaches Cookies
Coffee, Milk
*Recipe Given

• • •

Ham and Egg Souffles
(Serves 6)

- 5 eggs, separated
- 2 tablespoons butter, melted
- 1 cup milk
- Salt and pepper
- 1 cup cooked diced ham or pork

Beat egg yolks well, then add butter, milk, salt, pepper and ham or pork. Beat thoroughly. Fold in well-beaten egg whites. Pour into custard cups and place in a pan of hot water. Bake in a moderate (350°F.) oven until firm, about 25 to 30 minutes.

• • •

CORN MADE INTO a custard with a crisp topping of buttered cracker crumbs can be a tempting supper. If a more nourishing meal is desired, serve the custard with broiled slices of Canadian bacon or bacon strips.

Southern Corn Custard
(Serves 6)

- 3 eggs
- 2 cups canned corn
- 2 tablespoons melted butter
- 2 cups milk
- 1 teaspoon salt
- ⅛ teaspoon pepper
- ½ teaspoon sugar
- Cracker crumbs
- Butter

Beat eggs thoroughly. Combine with corn, melted butter and milk. Stir well. Add seasoning and sugar. Pour into a buttered casserole and sprinkle with cracker crumbs, dot with butter and bake in a moderate (350°F.) oven for 40 minutes or until custard is firm.

• • •

Noodle Oyster Loaf
(Serves 4)

- ¼ pound noodles
- ¾ cup milk
- ¼ teaspoon salt
- 3 eggs, beaten
- ½ pint oysters
- 4 hard-cooked eggs
- 2 cups white sauce
- Parsley
- Paprika

Cook noodles in boiling, salted water until tender. Drain. Combine with milk, salt, eggs, cleaned oysters and mix thoroughly. Pour into a greased loaf pan dusted with cracker crumbs or flour. Set this pan in a larger pan with hot water; bake in a moderate (350°F.) oven, 45 minutes. Unmold on a platter and slice. On each slice place a hard-cooked egg cut in halves, lengthwise, then cover with hot white sauce and garnish with parsley and paprika.

LYNN SAYS:
Try these New Ways With your Meals

Ever try deep-fat fried sweet potatoes? They're interesting, and good, too. Peel and cut uncooked potatoes in strips; soak in cold water. Drain and dry, then plunge into hot deep fat for 3 to 5 minutes. Good with pork chops!

If meat balls are a mainstay of many a menu, vary them for greater interest. A bit of sausage meat with the ground beef and a dash of nutmeg do wonders for meat balls.

Chicken livers sauteed gently in butter can make an excellent main dish for a supper. Serve over a bed of hot, fluffy rice with a sauce made by heating a can of condensed chicken soup in the drippings from the livers mixed with ⅓ cup sliced, stuffed olives.

Smothered onions do wonderfully well with hamburgers, frankfurters or leftover roast beef. Slice the onions thinly and cook in drippings in a heavy skillet, until light brown. Sprinkle with salt and pepper and serve.

KATHLEEN NORRIS
Safety Belts

HOW ABOUT SAFETY BELTS for all the seats of our cars? Belts like those we fasten so regularly on the shortest of air trips?

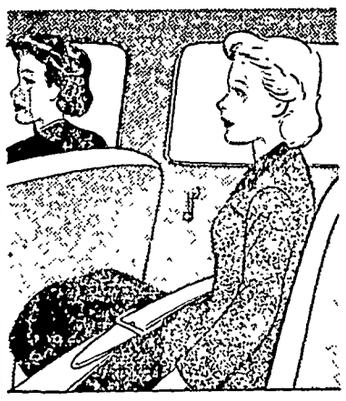
Before an airplane leaves the ground, and before it lands, and if ever any rough weather threatens, passengers are required to strap about themselves a broad webbing belt. This belt opens with a single flip of one finger, there is no question of getting entangled in it or being unable to open it instantly.

"Why not have similar belts in cars?" asks Clayton M. Allen, engineer in the department of water and power in Los Angeles. Mr. Allen has studied and charted the all-important subject of accident control, and in a long talk we had on the subject he called my attention to what he calls the "secret weapon" against accidents in cars. The secret weapon is the safety belt.

Law of Inertia

We all know that when a car is stopped suddenly while going at good speed, the bodies on the seats of that car do not stop. They are subject to what he calls the "keep-on-going" law. And they keep on going, straight through the glass of the windshield, or onto their knees from the back seat, with a consequent danger of concussion.

This year our fatalities in motorcars will reach the million mark. We've actually killed a million of our fellow creatures since cars



". . . the secret weapon . . ."

came into everyday use some 45 years ago. This figure exceeds the combined fatalities for all our wars, by the way.

But it isn't just the dead. It's the nine million more who have suffered shocking injuries and disfigurements by being flung against seats and doors and handles, or gashed with broken glass.

One night years ago my brother and I were walking a hospital corridor, waiting for the announcement of a baby's arrival. A man of perhaps 50 was walking, too, and it was natural to ask him if he was also awaiting a delightful event of the sort.

"No," he said mildly, "I'm waiting for my wife. She's telling our little girl, Ellen, who is 16, that the accident she was in yesterday has blinded her for life."

Another girl I know, 5 years old, wears a long white cut across a little face that is lumpy and misshapen because a sudden stop of her father's car flung her against the door handle when she was two. And in my town stands a church built by the heartbroken parents of a beautiful 18-year-old who was thrown from a car when the door opened and chanced to be hurled against a tree. These girls, and hundreds more, could have been saved by the simple device of safety belts.

We've all experienced accidents that involve violent jerking and flinging about. We would be the last to protest when the sign "fasten seat belts" flashes up in the plane. We would have no respect for the traveler who thought it smart to laugh at them. Yet anyone who travels on our highways at crowded hours and in Sunday congestion now is in infinitely more danger than he who comes down to earth in the great clearances that are landing fields.

Why Not Belts

So why not seat belts in cars? It seems to me that the mothers and fathers of America's children and teen-agers ought to welcome this idea. Mr. Allen talked of such abstruse matters as "the law of inertia, the law of momentum, the law of opposing forces," and of the fearful velocity of the occupant of a car when that car is abruptly jarred or suddenly stopped.

We don't all know about these technical terms, but we do all know the anxieties that beset us whenever the children we love are in the car. We shudder at the accounts—daily accounts—of what has happened to other people's children. We shrink away from pictures of crumpled cars, glass and blood.

"There are other safety features, of course," Clayton Allen said. "Loose seats, insecure doors, protuberances like handles and ashtrays, the sharp hood ornaments that sometimes act as pedestrian 'cutter-uppers,' bumper guards and fenders that tend to spin the car if it upsets. But since a large proportion of in-the-car injuries and maimings and even killings would be removed by safety belts, why not safety belts?

Careful driving is, of course, the first requirement. But that depends upon the other driver.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

SCRIPTURE: Exodus 5-15.
DEVOTIONAL READING: Exodus 15: 11-18.

A People Delivered

Lesson for November 11, 1951

ONE of the strange truths about God—strange when we are not used to it—is that he can never be seen directly No man has seen him nor can see him, the Bible tells us (I Tim. 6:16) God cannot be photographed nor televised. The disc has never been made that will record his voice; it will not be heard on any telephone Then how do people know God? By the eye of faith, the ear of faith. The Bible suggests that it is God himself who opens men's eyes to his presence, opens their ears to his voice.

Dr Foreman

• • •

God in History

IT is so when we speak of "God in history" The historian can tell us what happened; but why does it happen? The last, the final, the all-inclusive Why? is religion's question, and religion's answer, faith's answer, is always God

Take, for example, the well known story of the Exodus, when the Children of Israel got out of Egypt where they had been slaves for about as long as the Negroes were slaves in America before 1863 All historians agree (1) that Israelites were in Egypt; and (2) that they got out.

But the history books do not read like the Bible. In the "Cambridge Ancient History" or in any history of the ancient Middle East, you can read the account of the Exodus with the miracles left out.

Furthermore, the historians never bring God into their tale. All they can tell us is what you could have caught with a moving picture camera or a recording machine. But God cannot be caught that way. The story of the Exodus, in the Bible, has another slant. The Hebrew folk never said "We escaped" or "It was a lucky break" or "Moses took us out." They always said, "God brought us out."

If you had been there when they crossed the Red Sea (the original Hebrew in Exodus does not use the expression "Red Sea" in this story, and it may have been one of the Bitter Lakes or even an arm of the Mediterranean—it makes no difference), armed with your camera and sound-recording devices, you could have caught the roaring of the wind and after long hours of the hurricane you would have seen the water level going back and back till finally solid ground appeared. But when your pictures were developed you would not have seen God.

• • •

God in Our History

IT would not do us much good, indeed, it would only make us jealous or bitter, if we thought that God had a hand in the history of Israel, but took no interest in the history of other peoples. Many centuries after the Exodus, the prophet Amos said that God not only brought the Israelites out of Egypt, but he also brought the Philistines out of Crete (Caphtor) and the Syrians out of Kir.

Still later on in the Bible God's hand is said to be leading the great conqueror Cyrus of Persia (Isaiah 45:1-4), even though Cyrus knew nothing of it. God was there, but the eye of faith was not. God is always there; and sometimes the eye of faith is there to see him.

In the history of England two of the most famous events are the defeat of the Spanish Armada, and the retreat from Dunkirk. In each case the English people were to all appearances helpless, just as the Hebrews were helpless at the Red Sea; in both cases, as at the Exodus, "the weather came to their rescue." A great wind swept the Spanish navy to destruction; and a great cloud-cover kept the Nazi airforce pent in until the British army had escaped from Dunkirk.

The weather, say historians. God, say voices of faith. Are not both right?

• • •

Side of the Free

IS God on the side of the little nation?

Not always. But taking history as a whole, Christian people have reason to believe as the people of the Bible did: that God hates oppression and violence, and his "hand is against" nations that live by such means. On this Armistice Sunday it is well to remember that. If our cause is just it is not because we never lost a war.

Our cause is just if and only if it is the cause of human freedom. We have no assurance that God will stand by us otherwise.

FIRST AID to the AILING HOUSE
by ROGER C. WHITMAN

Asbestos Shingle Siding

QUESTION: I would like to nave some information regarding asbestos or cement shingles Do you think they make a good siding for a house? How long do they last and can they be painted? Could they be put on over shingle weatherboard? Do you know of a better way to tighten and protect the outside of a house?

ANSWER: Good asbesto-shingle siding is considered a very fine finish for a house and would improve its appearance greatly besides providing some degree of extra warmth in winter time as it acts as a sort of "overcoat" The siding can be painted, for special paints have been manufactured for the purpose You will give good protection to your house with asbestos siding Being a composition of asbestos and Portland cement that will not disintegrate, there is no reason why the shingle should not last for many years.

Champion cook an enthusiastic user of Dry Yeast

FRANKLIN WOMAN TOP WINNER AT STATE FAIR

That's a big display of ribbons and trophies—and they all belong to Miss Opal Hayes, State Cooking champion from Illinois and top Fair winner. Her grand total for 1950 alone added up to 80 ribbons, *forty* of which were first prizes!

Undoubtedly one of America's foremost cooks, Miss Hayes is enthusiastic in her praise of Fleischmann's Active Dry Yeast. "Just give me Fleischmann's," she says, "and I know it will never let me down. It's so dependable and so easy to use . . . dissolves in a jiffy."

Everybody loves it — that deliciously *different* flavor of yeast-raised treats. So good to eat—so good for you, too. When you bake at home—do it with yeast—the very best yeast. Fleischmann's Active Dry Yeast is so fast rising, so easy to use—always dependable! Buy several packages today. You'll like it!

JUNIOR FORMANEK TO HEAD HANCOCK BOYS 4-H CLUB IN 1952

Junior Formanek of the Garfield Sluggers was elected co. 4-H Boys Club president for 1952 at a meeting of voting delegates Thursday night November 1st. Other County Officers elected were Delwyn Brede of the Avery-Twin Lake Club was elected Vice-pres.; Lyle Hall of the Concord Yanks was elected as Sec-treas.; Merle Oxley of the Magor Mustangs was elected as recreation chairman to attend the District Training School for county officers to be held November 12th in Mason City.

—Merle Oxley, reporter

Young Married Group To Mason City

The Hancock County Young Married Advisory Committee will attend a district meeting in Mason City on Thursday evening, November 15th. Along with committee from 20 other counties, this group will discuss plans and topics for discussion for their series of monthly meetings. The Hancock County Young Married Group meet once each month for a pot-luck supper, an educational program of approximately 45 minutes and ends up with an hour of recreational activity, usually of several sets of square dancing.

The Young Married activity is one of the very important parts of the Farm Bureau Program. The 1952 committee for Hancock County is: Mr. and Mrs. Donald Cook, Kanawha; Mr. and Mrs. Donald Anderson, Britt; Mr. and Mrs. Merlyn Upmeyer, Garner; Mr. and Mrs. Loren Abele, Graner.

Mr. and Mrs. Paul G. Shurts, and Mr. and Mrs. Paul Henderson will accompany the group to Mason City.

An estimated 45 officers and members of the Hancock county Farm Bureau will attend the 33rd Annual Meeting of the Iowa Farm Bureau Federation in Des Moines Nov. 26-29.

The local group will hear several outstanding speakers, including Congressman Walter Judd of Minnesota, Dr. W. H. Alexander, Oklahoma City pastor and Mrs. Raymond Sayre, Ackworth, chairman of the Associated Country Women of the World.

Also scheduled for this year's streamlined four-day convention are special meetings for Farm Bureau Women, Rural Youth groups, livestock committees and many others.

Meetings and general sessions of the convention will be at the Savery, Kirkwood and Fort Des Moines hotels and the KRNT Theatre in Des Moines.

Besides the 45 Farm Bureau members and officers from Hancock county, extension director Paul Henderson and Fieldman Paul G. Shurts, Home Economist Elsie Mae Van Wert will attend the convention.

Reservations have been requested by these Hancock county members: Gilbert Guenther, Mr. and Mrs. Franklin Bredlow, Mrs. Verne Grau, Mrs. Aaron Stromer, Mrs. Marie Wille, Mrs. Roy Quintus, Mrs. O. W. Freidow, Mrs. Lyal Fox, Mr. and Mrs. Albert Chizek, Mr. and Mrs. Harry Ostendorf, Mr. and Mrs. Wm. Phillips, Mr. and Mrs. Clarence Attig, Mr. and Mrs. Charles Jackson and Miss Joan Lechelt.

Isabelle Gibbs Pledged To Morningside Sorority

Miss Isabelle Gibbs, daughter of Mr. and Mrs. H. R. Gibbs of Klemme, has been pledged to the Alpha Sigma sorority at Mornings.de college, Sioux City.

Miss Giggs is in her junior year at Morningside and is majoring in Sociology. She is a member of the Women's Athletic Association, the Student Christian Association and the Kappa Chi Christian Fellowship.

Attends National Oil Jobbers

E F. Bock, owner of the Bock Oil Company of Garner, is attending the annual conference of the National Oil Jobbers in Chicago The convention will close Thursday

Hancock County supervisors have approved the bonds of Engineer C F. Merten on Hancock County Drainage District No. 157 and Lateral 18 of Drainage District No. 3 and 4. Merten was previously appointed engineer on the two projects.

The 4-H Boys leaders met at the County Extension Office Thursday nite, November 1st to discuss the 1951 boys program with County Extension Director Paul Henderson. The 1951 record books that have been cheecked and scored by the local leaders were returned to each club whose leader was present. The Fair Association (Hancock County Agricultural Society) annual meeting to elect directors was discussed. The KGLO North Iowa Fair train to the International Livestock show was also discussed. It was emphasized that the train leaves Mason City at 10:45 p. m. November 22 and arrives back in Mason City 8:00 a. m. Tuesday morning November 27th.

It appears that Hancock Co. will have about 12 people going on this train. Other topics discussed at this meeting were 1951 enrollments, the Awards Night and plans for future leaders meeting to assist these men with their job as local leader.

PROCEEDINGS OF THE HANCOCK COUNTY BOARD OF SUPERVISORS

7TH ADJOURNED SEPTEMBER MEETING

Garner, Iowa
October 22, 1951

The Hancock County, Iowa, Board of Supervisors met in session on above captioned date pursuant to adjournment with F. J. Schoun, Clarence Bird and Clint Daniels present.

The minutes of the last meeting were read and approved as read.

WHEREAS, it is deemed advisable to transfer $10,000.00 from the County Fund to the Poor Fund, and

WHEREAS there is sufficient money in the County Fund to meet all demands thereon, until said money can be returned to the Poor Fund, and

WHEREAS all laws relating to transfers of Funds have been complied with

NOW THEREFORE BE IT RESOLVED by the Board of Supervisors of Hancock County, Iowa, subject to the approval of the State Comptroller, that said sum of $10,000.00 be and the same is hereby ordered transferred from the County Fund to the Poor Fund and the County Auditor is directed to correct his books accordingly and to notify the Treasurer of this transfer and of this resolution and the record of its adoption.

The vote thereon being as follows.

Ayes: F. J. Schoun, Clint Daniels and Clarence Bird Nays, none. Whereupon the Chairman, F J. Schoun, declared the resolution duly adopted.

On motion and second the application for permission to grade the fence lines along the north boundary of the NE¼ Section 12-95-26, Boone Township, by Jake Sweers and for the grading along the roads, both north and west, of the NW¼ Section 12-95-26, Boone Township by Howard L. Hoenk, are hereby approved.

On motion and second C. F Merten is hereby appointed Engineer to make an investigation into the feasibility of the inclusion of the W½ SW¼ NW¼, Section 12-95-26, Boone Township, into D. D. No. 108, as petitioned for by Howard L. Hoenk.

This being the 22nd day of October, 1951, a date heretofore set for an adjourned hearing on the report of L. W. Mahone, Engineer, recommending payment on the contract of Schramm Brothers of Titonka, Iowa for labor and material on D D. No. 153 on their final estimate in the sum of $4685.84 the time having arrived and the Board being fully advised said hearing was held as scheduled.

There being a tile connection to be completed, further hearing is hereby adjourned to 1:30 P M on the 29th day of October, 1951 at the Courthouse in Garner, Iowa.

On motion and second the third quarterly report of R. J. Fritsch, Concord Township Justice of the Peace, is hereby approved.

On motion and second the bonds of Wm. Henschen, Construction Engineer on D. D. No. 156 and on D. D. No. 1 & 2, Lat. No. 8, are hereby approved.

On motion and second the contract and bond of Gerber and Buscher Construction Company of Algona, Iowa, on D D No. 156 is hereby aproved.

WHEREAS the land owners in the watershed of D D No. 13, Lat. No. A-3 have signed a request of waiver of notice of hearing on the reconstruction of a tile line in said district and said waiver of notice of hearing is on file in the office of the County Auditor, Sec. 455 24 Code of Iowa, 1950, and

WHEREAS the report of the Engineer, Wm Henschen recommending the reconstruction of the tile line in Lat. No. A-3 of D D No. 13 was approved October 15, 1951

NOW BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County Iowa, acting for and in behalf of Lat No. A-3 of D. D No. 13, petitioned for by Wm A Hoeft, et al that the waiver of notice of hearing is hereby approved and November 6, 1951, at the hour of 1:30 P M. at the Courthouse in Garner Iowa is hereby fixed as a time and place for letting of the reconstruction thereof

The County Auditor be and he is directed to cause notice of such letting to be published in the Garner Leader and Signal, a newspaper of general circulation published at Garner Iowa, which notice shall request bids on labor and material for the reconstruction of said drainage improvement, the time of commencement and completion, the approximate amount and kind of work to be done, that the Board reserves the right to waive technicalities and to reject any or all bids, all in acordance with Chapter 455, Code of Iowa, 1950.

The foregoing resolution was offered and read by Supervisor Daniels who moved its adoption, was seconded by Supervisor Bird, weherupon the Chairman, F J Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels Clarence Bird and F J Schoun ayes Nayes, none. Whereupon the Chairman declared the resolution duly adopted

Supervisor Daniels is hereby appointed a committee to investigate and cause repairs to be made in D D. No. 49, Main.

On motion and second the amended report of C. F Merten, Engineer, on D D No. 157 is hereby approved.

On motion and second the Board adjourned to October 29, 1951 at 9 o'clock A M

ATTEST:
Maynard Schoneman, County Auditor — F J Schoun, Chairman

8TH ADJOURNED SEPTEMBER MEETING

Garner, Iowa
October 29, 1951

The Hancock County, Iowa, Board of Supervisors met in session on above captioned date pursuant to adjournment with Clarence Bird, Clint Daniels and F. J. Schoun present.

The minutes of the last meeting were read and approved as read.

On motion and second the bond of R. J Fritsch, Justice of the Peace of Concord Township, in the sum of $1500.00, is hereby approved.

WHEREAS the bond of R. J. Fritsch, Concord Township Justice of the Peace has been increased from $500 00 to $1500.00, and

WHEREAS the bond by and between R. J ritsch and Maryland Casualty Company is now on file and has been approved by the Board of Supervisors in said amount of $1500.00

NOW THEREFORE BE IT RESOLVED by the Board of Supervisors that the former bond of R. J Fritsch in the sum of $500 00 filed 1-16-51 and approved 1-22-51 is hereby cancelled and the bond with Maryland Casualty Company is hereby declared the one and only bond in force with said company and R. J Fritsch Concord Township Justice of the Peace

The foregoing resolution was offered and read by Supervisor Daniels, who moved its adoption, was seconded by Supervisor Bird, whereupon the Chairman, F J Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels, Clarence Bird and F J Schoun, ayes Nayes, none. Whereupon the Chairman declared the resolution duly adopted

This being the 29th day of October, 1951, a date heretofore set for an adjourned hearing on the report of L. W. Mahone, Engineer, recommending that the contract of Schramm Brothers of Titonka, Iowa for labor and material on D. D. No. 153 be accepted as complete and final estimate in the sum of $4,686.84 be paid, the hour for said hearing having arrived and the Board being fully advised said hearing was held as scheduled No objectors appeared and the tile line hookups being now completed

BE IT THEREFORE RESOLVED by the Board of Supervisors acting for and in behalf of D D. No. 153, that the report of the Engineer recommending a final payment on the contract with Schramm Brothers of Titonka, Iowa for labor and material on D. D. No. 153 be approved, is approved and final estimate ordered paid as by law directed.

On motion and second the transfer from the County Fund to the Poor Fund, as approved by the State Comptroller, is hereby approved

Supervisor Bird is hereby appointed a committee to investigate and cause repairs to be made in D D No. 108, Main.

Supervisor Schoun is hereby appointed a committee to investigate and cause repairs to be made in D. D. No. 3, & 4, Lat. No. 35.

On motion and second the resolution between Northern Natural Gas Company and Hancock County, Iowa, by its Board of Supervisors, in regard to the construction of a pipe line which will intersect D. D. No. 5 is hereby approved and permission granted said company at the location of D. D. No. 5 in Section 32-96-23, Concord Township.

On motion and second the contract with Maudlin Construction Company of Webster City, Iowa, for surfacing of roads in Hancock County, Iowa, is hereby approved and F J. Schoun, Chairman of the Board is hereby authorized to execute said contract.

On motion and second Wm. Henschen is hereby appointed Engineer to make an investigation into the necessity and feasibility of the reconstructioin of Drainage District No. 38 and Added Lands, by open ditch and tile drains, said district being located in land included in the original D. D. No. 38 and additional lands located in section 32-97-25, Crystal Township and in sections 8, 9, 16, and 17-96-25, Britt Township, petitioned for by Harold Loney, et al, which petition was filed on October 22, 1951. Said engineer to report to this board at his earlest convenience.

On motion and second the Board adjourned to November 2, 1951 at 9 o'clock A.M.

APPROVE REPORT ON DRAIN DITCH

Hancock county supervisors approved the report of Drainage Engineer Mahone and the final estimate of Schramm Bros., Titonka drainage contractors, on the construction of Hancock county drainage district No 153, petitioned for by Roy W. Rogness, et al. The district is located near Crystal Lake. The contract totaled approximately $21,000 of which a final estimate in the sum of $4,685 84 remains to be paid.

Bond Sales Lagging Says Ollenburg

With the final date of the first Defense Bond drive only a few days away, total sales of series E, F and G bonds in Iowa amounted to $14,400,783., an increase of less than two million dollars since last week's report.

Herbert L. Ollenburg, Garner, Hancock county chairman of the savings bonds division, announced that total purchases of Defense bonds in this county since the drive opened Labor Day reached $81,450. which is 49 70 per cent of the quota.

BOLSON EGG FEEDS
If you are changing egg feeds, put part of your pullets on either Bolson's Full Basket Breeder 20% Egg Mash or Bolson's 26% Grain Balancer. Or, if you like to mix your own mash use Bolson's 36% Concentrate. The only way to make a fair test with any egg feed is to make a comparison test over a period of time, feeding part of the flock one feed and the other part another feed. Under this kind of test you'll be surprised to find how Bolson fed birds lay. Check Bolson egg feeds point for point, ingredients against ingredients, protein against protein, fat against fat, fibre against fibre. Especially check the fat content. You do not have a top mash unless it is marked at least 4.0 fat. A Minnesota state test taken 8-14-51 showed Bolson Egg Mash carried 4.7 fat.
Remember when you feed your pullets Bolson's, they are getting a feed that will produce all the eggs your pullets are capable of laying, keep their pigmentation up, and save you money, too. Buy Bolson's Feeds From—

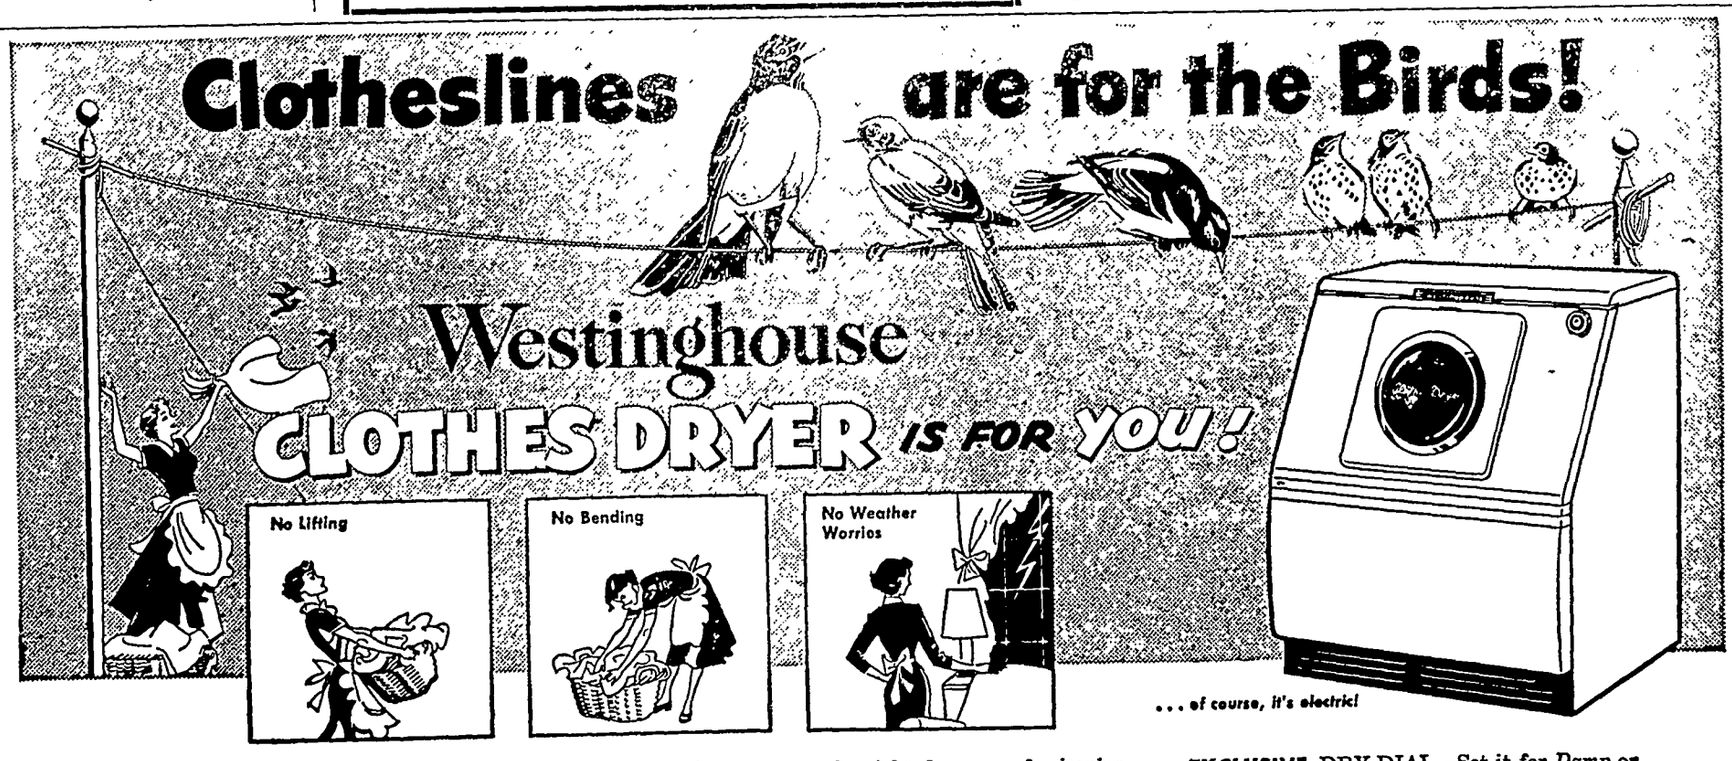
Clotheslines are for the Birds!



Westinghouse CLOTHES DRYER IS FOR YOU!
... of course, it's electric!
Let the birds have the clotheslines. Let all the hard work of line-drying clothes be a thing of the past for you!
With a Westinghouse Dryer, you simply take the clothes from the washer, place them in the Dryer, set the Dry-dial Control for the way you want the clothes to come out—bone-dry for folding and putting away, or the right dampness for ironing. That's all there is to it!
The Westinghouse Dryer dries a full washer load of clothes at one time. You'll never have another care or worry about *soot, dirt, rain* or *work* with a Westinghouse Dryer. You'll never dampen clothes again and you'll cut ironing time in half! See it today.
EXCLUSIVE DRY-DIAL—Set it for *Damp* or *Dry*. Clothes come from the Dryer on the *Damp* setting just at the preferred dampness for ironing. On the *Dry* setting, clothes will be bone-dry, ready to put away.
HANDY LOADING SHELF—Only the Westinghouse Dryer has this loading and unloading shelf-door. No stooping or bending to load or unload this Dryer.
WESTINGHOUSE AIRFLOW DRYING—Blows warm, clean air *directly into the clothes*. Dries clothes quickly and thoroughly. Economical, too.
YOU CAN BE SURE...IF IT'S Westinghouse
IOWA ELECTRIC LIGHT AND POWER COMPANY

FORGERY IN GOLD

Nation's Busiest Forger Keeps Out of Prison Only Block Away

The busiest forger in the country plies his trade just a block from Iowa's state penitentiary. But he has no fear his vocation will lead him behind the grim walls as it has hundreds of other forgers.

Mild-mannered, law-abiding James Jordan is well started on a career of counterfeiting signatures at the age of 24. Already he has forged more than 5,000 including those of Herbert Hoover and Gen. Douglas MacArthur—but he's never been at odds with the law.

Every day since October 1, 1950, Jim has duplicated about 20 signatures per day, nearly three every

James Jordan of Burlington, Ia., is shown "forging" the 5,000th signature he has engraved on Sheaffer fountain pens during the past year.

working hour. And he forges only on gold.

Jordan is the signature engraver at the Sheaffer Pen company, whose factory in Fort Madison, 19 miles from here, is just a stone's throw from the prison. Sheaffer products include special fountain pens, mechanical pencils and ballpoints which bear a gold band containing the signature of the owner. It's Jim's job to reproduce the signatures, engraving them on the gold bands.

His kind of forgery is more difficult than the illegal varieties that land their makers in jail after discovery by hawk-eyed bank tellers or merchants. The illegal forger does his signature imitations on flat paper with pen and ink. Legal forger Jordan has to cut his on a rounded surface of hard 14-K gold

If you would have a hard-to-duplicate signature, Jim recommends neat, compact handwriting. It's harder to duplicate than a signature in long, flowing strokes. Most difficult for him to copy are John Hancocks with many loops and criss-cross lines Cutting the loops and crossovers into the gold is a tough job.

• • •

JORDAN ALSO does other kinds of free-hand engraving on special gold-banded pens. It was he who gave the "peace pens" used at the San Francisco signing of the Japanese peace treaty their identification by engraving "Japanese Peace Pact, 1951" on their bands. Those pens have become collectors' items.

Forging signatures on writing instruments is Jim's first engraving job He was born and raised in this city. After four years as a shipping clerk here, he studied engraving at Kansas City where he served his apprenticeship In 1950, he joined Sheaffer's working under Ambrose Zeigler, perhaps the world's most prolific forger who engraved more than 40,000 different signatures in his lifetime. When Zeigler died last year, Jim succeeded him.

Jordan naturally prefers the title "engraver." His spouse balks at being known as "the Forger's wife."

One signature Jim finds just as hard to duplicate as any is his own. His imitations have satisfied more than 5,000 "forgees" including politicians, actors, sports figures and business leaders. But when he attended a bazaar at the State Penitentiary and offered to pay for his purchases by check, he was asked to give cash. Why? His signature on the check differed too much from that on his driver's license.

Stars Of Stage Screen Radio

By INEZ GERHARD

RICHARD "RED" SKELTON, the son of a famous American clown, launched his own television show just ten years from the day when he stepped out as star of his own radio program. The thousands who have enjoyed him in films and on the air now find him doing some of the same characterizations that

"RED" SKELTON

they enjoyed, but he plans to add some new ones. In this new medium he is, of course, screamingly funny. He is supported by David Rose, musical conductor and composer, and the Skylarks vocal group.

Stanley Kramer, who gave us "The Champion", "Home of the Brave", "The Men" and "Cyrano de Bergerac", is making his first western in "High Noon", and insiders say it may be his most brilliant venture so far. The picture's entire action takes place in 90 minutes. Gary Cooper, whom Zane Grey termed his "ideal westerner" is starred, with an excellent cast.

Jack Benny does just a bit in "Somebody Loves Me", the film based on the lives of Blossom Seeley and Benny Fields, the vaudeville stars. Benny is an old friend of theirs. The picture stars Betty Hutton as Miss Seeley.

Moira Shearer expects to arrive in this country November 12, with her husband, head straight for Hollywood, and begin practicing her ballet routines for Samuel Goldwyn's "Hans Christian Andersen". The lovely star of "Red Shoes" will be accompanied by her husband, Ludovic Kennedy. Danny Kaye and Farley Granger will co-star in what should be a delightful picture.

THE FICTION CORNER

ALL IN FUN

By Richard Hill Wilkinson

THERE has probably never been a greater hatred than that which existed between Barney Craig and Dan Chester. It all started because of Barney's eagerness to become a member of the local lodge. As one of three candidates he was introduced to Dan at the September meeting Imbued with the feeling of good fellowship which the brothers always emanated, Barney assumed at once a familiar attitude and took liberties. Jovially, he made a crack about Dan's ears, which protruded from the Chester head horizontally, instead of perpendicularly, as is the case in normal man. The blush which mounted to Dan's cheeks provoked guffaws of amusement from the delighted Barney.

3-Minute Fiction

After the meeting in which Barney's name was voted on, Dan publicly announced that he would have shot any man who had blackballed him. Every one knew what he meant. Barney's initiation would last for two months and would involve a good deal of horseplay. Dan was out for revenge.

And he got it. During the two months of initiation, Barney suffered all the humiliations, indignations and unrestrained paddlings of a college freshman.

When it was over, the night that Barney received the ritual and became a full-fledged brother, Dan grinned at him good-naturedly. "You sure can take it, Brother Craig. Of course it was all in fun."

"Yeah," said Barney. "And now that, I'm a full-fledged member I'm as good as you? Is that right?"

"Absolutely, brother," said Dan.

"Good," said Barney, "because for a long time I've wanted to do this." And he hauled off and let Dan have a smart

Barney poked a neat one at Dan's chin and it connected.

one on the point of his jaw. "All in fun, you know," Barney grinned savagely.

Dan picked himself up and nodded. "O.K., Brother Craig, suppose you and I go outside."

They went outside and removed their coats. Ten minutes later Barney was lying on the ground staring up at Dan through the one eye that he could still open a crack.

"All in fun, Brother Craig. Come around again some time when you feel in a playful mood."

BARNEY spent most of November and December in a gymnasium. Shortly after the first of the year he encountered Brother Dan again. "Hello, Big Ears," he remarked, "suppose we go outside?"

Dan was willing. They went outside, and in nine and one half minutes Barney decided that Dan must have practically slept in a gymnasium.

Barney went home and cursed himself to sleep. He decided that he'd lick Dan Chester if he died trying which by the feeling of his jaw he thought might happen any minute.

Barney hired K. O. McManus to train him. K. O. was pretty rough and Barney suffered a lot, but he acquired knowledge. On the first of March he invited Brother Dan "outside."

The battle lasted 20 minutes this time.

Spring was in full bloom when Barney again sent word to Dan to meet him outside. There was quite an audience on hand this time.

The fight lasted 25 minutes. Both participants were pretty groggy. They were swinging wild and without much zip. It began to look like a draw, when suddenly it occurred to Barney that for the first time Dan wasn't beating him. The thought gave him a feeling of elation and a burst of energy. He poked a neat one at Dan's chin and it connected. Barney, thrown off balance, too weak to steady himself, fell across his opponent's prostrate form and lay there.

It took an hour to revive the battlers. Barney came to first and looked at Dan thoughtfully. Presently Dan stirred and opened his eyes. He saw Barney and propped himself up on an elbow.

"Well, well, Brother Craig. Congratulations!"

"Thanks," said Barney, and grinned too. "All in fun you know."

"Sure," said Dan, "all in fun." And he extended his hand.

Barney gripped the hand and started to make a crack about Dan's big ears, but changed his mind.

Youth Recipe

History has it that Queen Elizabeth of Hungary, who possessed the original recipe for Hungary water, became so beautiful by its use that at the age of 72, her hand was asked in marriage by the King of Poland.

GRASSROOTS

People Rank Herbert Hoover Greatest Statesman

By Wright A. Patterson

THREE OR FOUR DAYS before Herbert Hoover moved from the White House back to his home in Palo Alto, Calif., I wrote him a note in which I said: "Regardless of the result of the last election, the historians will classify you as one of the great Presidents of America, and the people of the nation will accept the historians' verdict."

The people did not wait for the verdict of the historians. Of their own volition they have accepted Herbert Hoover as the greatest of present day American statesmen. In every way they can show it they approve his policies They accept him as an American leader far more than at any time in the past. They have written their own verdict.

While I was visiting with Representative Joe Martin in his office in the capitol building at Washington, a few days before the convening of the Republican national convention at Philadelphia, he asked, "Who is your choice as a Republican for President?"

"My first choice is Herbert Hoover, my second is Joseph Martin," I replied.

"I believe we could elect Hoover, but I doubt if we could nominate him. As for your second choice, I do not want to be President, now. I do want to be speaker of the house of representatives first."

At that Philadelphia convention Hoover was scheduled to deliver an address. The Willkie managers were afraid of the result of that address. They were fearful it might sweep the delegates off their feet and result in a Hoover nomination, which I believe he would have accepted at that time.

Not necessarily Willkie, but his managers, in an effort to prevent such a possibility, pulled the dirtiest political trick I have ever seen played in any of the more than 20 national conventions I have attended as a reporter.

The instant Hoover stepped to the loud speaker microphone, the system was put out of commission, and it stayed out until the address was finished. Hoover's voice was not strong enough for an auditorium of that size, and no one of the delegates or the audience heard any part of his address.

There followed no demonstration as there had been at Cleveland four years earlier. Had Hoover not left the convention hall the instant his address was completed, he would have been the nominee. I know he did not want it at that time. He had told me so as he left the Philadelphia convention hall. It was reported to me, and I believe it, that he said: "I will never again be a candidate nor will I accept a nomination for any elective political office."

Today, if it were left to the choice of the Republican voters, Herbert Hoover could be nominated and elected President of the United States. The people believe in the policies that—as an elder statesman—he enunciates from time to time. They would cheerfully follow his leadership, and believe he would get them out of the inflationary mess in which we are involved; would reduce the heavy burden of taxation; would dispense with the larger part of the vast army of bureaucrats, for which we are paying.

Today he has the confidence and appreciation of the people as a competent leader, who could, and would, better than any other one man, solve our national difficulties. He would keep us away from any war with Russia, not by any policy of appeasement, but by a firm stand that would be typically American, and convince Stalin that it is time to stop Russian aggression, and Russian propaganda.

But I am sure Herbert Hoover will not be the Republican nominee, or that he would accept it if such nomination was tendered. I believe he made the statement credited to him at Philadelphia, and if he did that statement was final. It meant he was out of partisan politics and would stay out. He is not the kind who changes his mind, with each change of the political wind.

A great character has passed from partisan political life, much to the regret of the American people who first elected him by a tremendous majority and then as ruthlessly defeated him, because they credited him with responsibility for conditions which in reality he had no part in creating.

—*—

The effort to stop undesired legislation resulted in a heavy increase for the post-office department. Letters from the folks back home.

Crime in America

By ESTES KEFAUVER

United States Senator

Eight of a Series

Brass Into Gold: The Black Market

Black marketing—the ugly racket that plagued America in World War II—was threatening again to become a menace. There was reason to suspect that racketeering money once again was in it.

So midway in its investigations into 'the shame of the cities," the Senate Crime Committee turned to this phenomenon of national scope.

We singled out a particularly flagrant case, involving illegal sugar operations, the shoddy story of Eatsum Food Products. Eatsum was a candy company owned by a manufacturer David George Lubben, of Woodcliff Lake, N. J.

Lubben went to New York during the war years to go into business for himself as a candy wholesaler and manufacturer The Eatsum company which he bought had not been in business long enough, under OPA regulations, to have any appreciable sugar quota

Then he met William Giglio, a smart operator, and Frank Livorsi, an ex-convict. The pair had acquired a jelly factory with a sugar quota of 14,000,000 pounds a year As Lubben told us all he could think was that "14,000,000 pounds would make me as big as Hershey "

Soon the operator and the ex-convict were his partners in Eatsum, and then came the inexorable finale: Lubben was out and they were in

Livorsi, the 47-year-old ex-convict, was an admitted friend of such underworld characters as Frank Costello, Willie Moretti, and others He had been arrested, according to his own recollection, at least 10 times, including twice on homicide charges His only conviction, however, was a two-year sentence for narcotics peddling

Could Livorsi, we asked, think of any legitimate business he ever was in before he went to jail? "I can't think of any legitimate business," he suddenly replied In 1945, Livorsi teamed up with smooth-talking William Giglio, then 30 years old They acquired Tavern Fruit Juice, a jelly manufacturing business With the company came the precious sugar quota

Lubben made a deal to transfer a 50 per cent interest in his company to Giglio and Livorsi; the sale price was around $40,000, but Lubben claimed his new partners actually paid nothing until they had drawn out enough profits to effect a "paper" liquidation of the purchase price. In exchange for half of his business, Lubben said, his new partners "were to see that I got some sugar." But, he mournfully related, he "never got so much sugar that you could sweeten your coffee with."

• • •

Lubben was no angel. He confessed that he set up arrangements for buying corn syrup by making under-the-table black market payments to farmers and selling it on the same basis Everything was done for cash and, in five months of 1945, more than $400,000 in cash was received from these transactions, Lubben testified.

The money was kept in "a little green cash box" hidden in "a panel in back of the bar in the wall" of Giglio's office. "The last time I knew about it there was $140,000 in there."

But Lubben, after about nine months, lost both his nerve and his taste for the fantastic deal. He had a harder time getting away from Giglio & Co. than Br'er Rabbit had with the Tar Baby. The business at that time, according to Lubben's figures (disputed by Giglio) was worth $940,000

Lubben claimed he took back the lease on the plant and machinery he originally had in the Bronx and turned everything else over to the Giglio group, with the understanding "that they would pay my income tax for the nine months in which I was a partner." "In fact," said Lubben, "they later on charged me back, about $23 because some raisins I had in the warehouse shrunk a little bit."

Senator Tobey asked Lubben if he had not had "a sense of apprehension and fear that if you did not play ball and do what they said, they might do physical harm to you?"

"I did, yes, I did," Lubben fervently replied. "That was the reason I wanted to get away from them." He had counted, he went on, on receiving half of the money in the cash box. But when he asked Giglio about it, Lubben testified, Giglio coldly told him, "You know we had OPA trouble."

"I said," Lubben continued, "'I don't know anything about it, but certainly you had not $140,000 worth.'

"In that office that day were Frank Livorsi, John Ormonte and a couple of other people. I looked around there, and Giglio said, 'You are not going to get my money'"

So Lubben, letting discretion be the better part of valor, walked out The final snapper was that he never got his income tax paid by his ex-partners, either

William Giglio was evasive But step by step Counsel Rudolph Halley led him through an absorbing recital of his career

His Tavern Fruit Juice Co engaged in a sharp operation. The years before, Giglio explained, manufacturers were being encouraged by OPA to make as much jelly as they could: "In 1944 fats and oils and butter were in short supply and OPA requested of all jelly manufacturers to manufacture more spreads, more bread spreads."

Tavern manufactured jellies from sugar it received under OPA allotment but, again in Giglio's own words, "all of our imitation-flavored jellies were sold to a very limited number of customers, only the top customers in the country" These customers, it developed, were large cookie manufacturers, short on sugar themselves, who were buying Tavern's products as "baker's jelly" and paying, as Halley charged, a "premium price"

At the time he testified, Giglio (his own corporation in bankruptcy and under investigation by the Internal Revenue Bureau) had found a new position as general manager, he said, of a pharmaceutical firm

All throughout our investigations, the committee discovered evidence of infiltration of legitimate business fields by crimesters and their associates We saw it in Chicago, where Joe Fusco, once labeled a "public enemy" by the Chicago Crime Commission became one of the city's largest wholesale liquor dealers We saw it in Miami, where hoodlums took over hotels The committee found more than 70 separate types of businesses into which countless hoodlums had infiltrated

• • •

This pattern is a familiar and often a vicious one It begins with the hoodlum finding himself with more money than he knows what to do with, accrued, of course, from his illegal ventures

A good example is Newark gangster Abner (Longie) Zwillman, confessed rum-runner and strong-arm man of the prohibition era, named by former District Attorney William O'Dwyer of Brooklyn as one of the old leaders of "The Combination" which ran "Murder, Inc."

Zwillman wound up the prohibition era with a fortune Now he is a participant in a tobacco vending machine company, a truck sales and parts agency, a trading company that buys and sells auto equipment and used machinery, another company that deals in scrap iron, and a company that places and operates some 700 washing machines in apartment buildings

He also has investments held for him in the names of other persons. He declined to give us information about these because "sometimes my name kills a deal."

None of us on the Committee would deny the right of an honestly repentent wrong-doer But there was too much evidence before us of the unreformed hoodlum gaining control of a legitimate business, then utilizing all his old mob tricks—strong-arm methods, bombs, even murder—to secure advantages over legitimate competitors All too often such competition either ruins legitimate business men, or drives them into emulating or merging with the gangsters

• • •

The hoodlums also are clever at concealing ownership of their business investments A legitimate business is a very convenient front for a gambler or criminal. It can be used as a "cover" for the profits of his illegal operations, enabling him to defraud the government of taxes

Another drawback is the basic unwholesomeness of having gangsters in control of companies that perform vital services or distribute necessary commodities to the public.

Next Week: Kansas City: Law Of the Jungle.

Condensed from the book, "Crime In America," by Estes Kefauver. Cpr. 1951. Pub. by Doubleday, Inc. Dist. General Features Corp.—WNU.

LAWRENCE CLEARED

Pittsburgh Mayor not Party to Deal

PITTSBURGH, Pa.—A grand jury cleared Pittsburgh's mayor David H. Lawrence of misdemeanor in office in connection with the city's recent $3,500,000 street lighting scandal.

The misdemeanor had charged that the mayor, a national Democratic committeeman, had failed to make a coal company and a maintenance corporation live up to their contracts with the city.

Four other officials of the city, however, and three top men of a New York maintenance firm were indicted on charges ranging from misdemeanor to bribery and conspiracy.

The men were charged with swindling the city on a street lighting system let to the Broadway Maintenance Corporation.

Kaesong Once Center Of Korean Power

Kaesong, the site accepted for truce talks between UN and Red Chinese-Korean leaders, is in line to pick up again a long lost historic spotlight.

Although left behind in modern times by many faster growing and developing Korean cities, Kaesong was once the center of Korean power and culture.

The town was made the capital of the Koryo, or Wang, dynasty in the early 900's A D, and as such was the focal point for the first centralized control extended over the peninsula Kaesong maintained its position for nearly 500 years, and after its fall the dynasty name was carried on in the name "Korea."

Meanwhile, toward the end of the weakening Koryo reign, numerous invasions by Mongols from the north had brought about foreign domination of the entire country for the first time With the retirement of the Golden Horde and the rise of the new Yi dynasty, the capital, in 1392, was moved to Seoul

It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE —NOT GOOD FOOD

• Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon ... right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.

FEEN-A-MINT
FAMOUS CHEWING-GUM LAXATIVE

"Hot Flashes" Stopped or strikingly relieved

In 63-80%* of cases in doctors' tests

• If you're miserable from the "hot flashes," and accompanying irritable, restless feelings of 'change of life"—you may be suffering unnecessarily!

*For ...*in tests by doctors*...Lydia Pinkham's Compound and Tablets brought relief from such functionally-caused suffering to 63% and 80% (respectively) of the women tested! *Complete or striking relief!*

Yes! Research has proved these medicines *thoroughly modern in action* .. has shown you where to look for relief from those distressing, nervous, "out of sorts" feelings of mid-life "change"!

So.. get Lydia E. Pinkham's Vegetable Compound—or new, improved Tablets, with added iron! (*Wonderful, too, for the functional pains of menstrual periods.*)

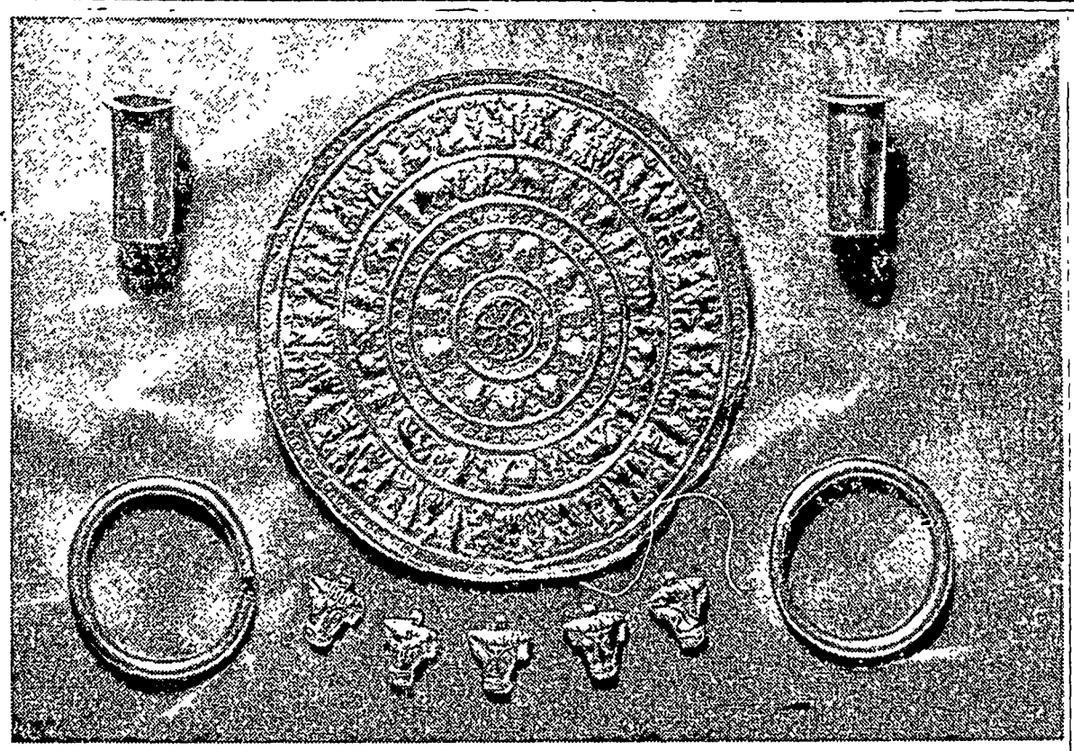
It acts through a woman's sympathetic nervous system to relieve distress of those awful "heat waves"!

KIDNEYS MUST REMOVE EXCESS WASTE

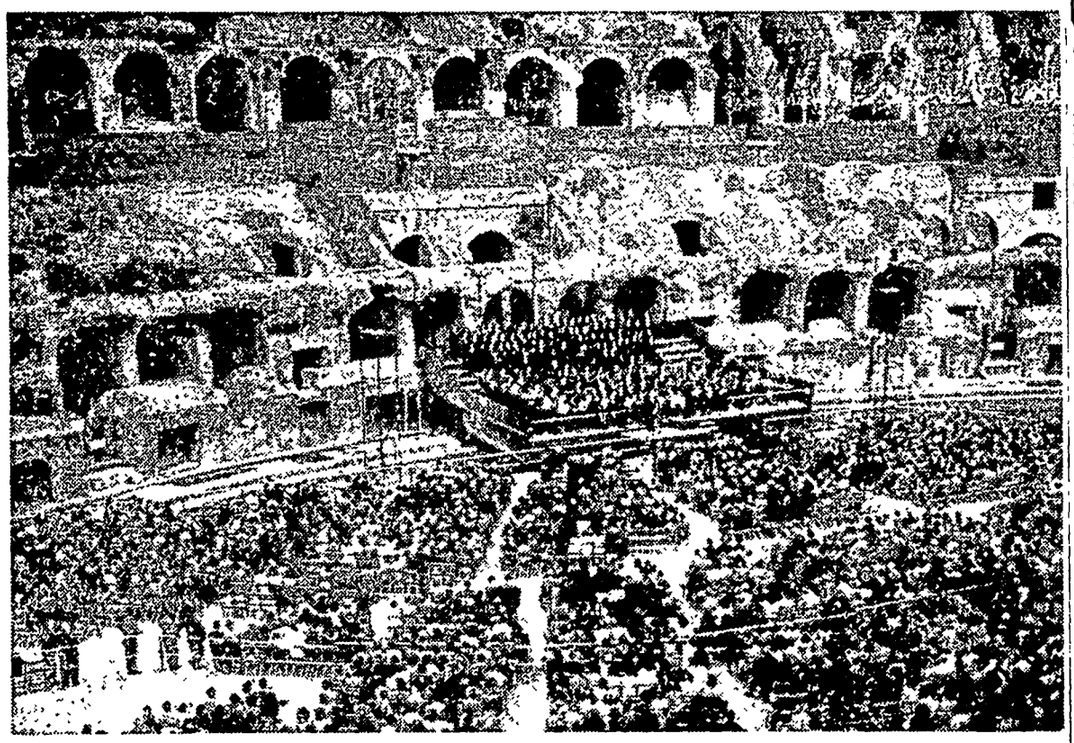
When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS



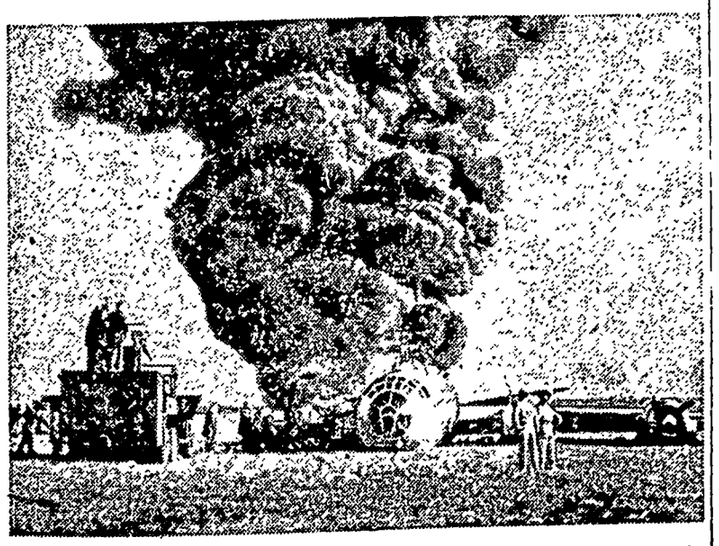
ANCIENT ORNAMENTS . . . A collection of gold ornaments, the personal jewelry of a Cypriote princess who lived more than 3,000 years ago, is the newest acquisition at the University of Chicago's oriental institute. The collection is believed to have been the adornments of a princess, Ar-si-pa-si, who lived in the period between 1400 and 1250 B.C. Her jewelry came from the various sections of her wedding journey, from her home in Cyprus, from Syria, and from her new home in Asia Minor. Collection is composed of large gold pectoral, several heavy gold bracelets, a group of golden pendants and the golden handles from toilet articles.



ROME COLOSSEUM SCENE OF CONCERT . . . Three thousand persons, including many American tourists, jammed Rome's 19-century-old Colosseum to hear three hours of selections from the operas of Giuseppe Verdi, as the ancient arena was restored as a scene of public spectacles. The program was conducted almost entirely by lights of hundreds of oil lamps of ancient Roman type, augmented by two spotlights beside the orchestra and chorus.

GREETING FRIEND IN NEED . . . Ambassador-at-Large Philip Jessup is warmly greeting Warren Austin (left), chief U.S. delegate to the United Nations, as the latter reported to a senate foreign relations sub-committee yesterday to testify on Jessup's behalf. Jessup had been nominated as a U. N. delegate, but confirmation was opposed by Senator Joseph McCarthy of Wisconsin, who charges that Jessup is "a dupe of the Communists" and has "an unusual affinity for Communist causes."

SPY EXPELLED . . . The Russian spy Orlov, who figured in spy trial in Sweden in which an officer of the Swedish navy sold military secrets, boards the Russian ship Beloostrov at Stockholm after being expelled by the Swedish government.



CLOSE CALL FOR SUPERFORT CREWMEN . . . A thick cloud of smoke rises from the B-29 Superfort that crashed at Forbes air force base at Topeka, Kansas, shortly after the take-off on a training flight. All 12 men aboard the bomber escaped. Only one, Major John S. McIntosh, was injured. He suffered a broken leg. At the left is a foam fire-fighting wagon, and on the ground beside it are fire fighters in asbestos hoods.

BACKED CHIANG . . . Henry A. Wallace says that his recommendations to the late President Roosevelt were intended to help Chiang Kai-Shek, nationalist leader. He defended his China mission before a senate anti-subversive group.

Giants, Yanks, Dodgers; '52 Teams

By GRANTLAND RICE

WITH the passing of another world series it might be time to ask this question—what about the two pennant races next year? What has 1952 to offer? In the National League there are only two clubs who should again stand out. They are the Giants and Dodgers. And the Giants will have to duck another eleven-game losing streak or sinking spell.

The other six clubs are from 16 to 33 games away from the top.

Grantland Rice

That's a killing margin to wipe out in one season. Or two seasons. From the Cardinals on down all six are packed with weak spots. The Cardinals looked better than the rest.

The Phillies were over 20 games away from 1950 This can't all be charged to Curt Simmons, although part of it can. Robin Roberts had another big season, so the entire answer certainly wasn't pitching.

The Cardinals finished a trifle stronger than the others, but their play against the Dodgers was entirely too sour to have them rank close to Chuck Dressen's squad.

I can't see much hope for the Reds, Cubs and Pirates. They have so many wide-open gaps that filling half of them would be a big job.

The American League would have been far better if it hadn't been for the near collapse of the Tigers and White Sox. The White Sox looked like pennant contenders up through June. Then not even Paul Richards could keep them aloft any longer.

The Tigers simply didn't have it. Art Houtteman's loss didn't help anyway, but there were other flaws that Red Rolfe couldn't cure.

You can be sure that Cleveland will start the 1952 race with the best pitching staff. The Yankees will be next. The Red Sox cause looks almost hopeless. An old team got much older down the stretch. It will be even older next season. There are few young fellows on the club coming along. And what will the Red Sox use for pitchers?

The White Sox will improve. They can be dangerous. The Athletics, who played better than .500 ball the last five weeks will be much tougher. Jimmy Dykes turned in a fine job.

The race should be again between the Yankees and Indians. I can't see the Tigers in there seriously menacing the leaders.

The National League race should be another Giant-Dodger battle The Dodgers have too many good minor leaguers to be too far away. The Giants will be just as good next year. The Cardinals look to have some promise with young pitchers hanging around to help.

I can't see much hope for the Pirates, Cubs, Reds and Braves. Spahn is no longer a kid. It takes quite an imagination to figure clubs from 18 to 25 games off the pace closing this heavy gap within a year or two.

The prospect for a close race in the National League is poor. This league has too many second-division clubs. Too few first-division teams.

You don't rebuild second-division teams into pennant winners overnight. There are too few major league ballplayers around to plug up too many open gaps.

• • •

Battle of the Boroughs

The Battle of the Boroughs, meaning New York and Brooklyn, was the past season's greatest feature. The old game has never seen more dramatic openings, looking as far back as early August.

On August 11, Leo Durocher's harassed and almost hopeless young men were 13½ games back of the Dodgers. That's an old story. But in the next 50 days the Giants won 37 out of their last 44 games for the incredible percentage of .841. This was far beyond the pace the Boston Braves of 1914 set.

If these Braves were the Miracle Team, the Giants are the Double Miracle Team.

This stretch of the Giants, led by the hustling Leo Durocher and supported by his entire squad, will never be forgotten. It stands alone against a team rated in August as one of the greatest in National League history.

What about the Dodgers? They had been front runners most of the year.

Suddenly on Saturday, September 29, they were in second place The Giants had won the afternoon game The Dodgers were now the pursuers They moved up even again

On Sunday, September 30, the Dodgers were in second place for an hour or so. The Dodgers were trailing 6 to 1, then 8 to 5. Only brilliant defensive play by Pafko and Robinson saved their weary hides.

The Dodger infield is the best in baseball, with something to spare. Campanella is a standout. But even all this didn't offset somewhat ragged pitching. Dodger pitching wasn't bad, but neither was it spectacular or brilliant.

The Giants were extra good since their springtime crash. They had good pitching and good power. There isn't much you can say for the rest of the National League, in spite of the Cardinal's late splurge.

Without a great pennant team, the National League is still close to the best in the American.

Funeral Services Held Thursday For Wm. Bell, 82, At Methodist

HAD FARMED NEAR KLEMME FOR OVER THIRTY-SIX YEARS

Interment Was On The Family Lot In Ell Township Cemetery

Funeral services for William Bell, 82, were held in the Klemme Methodist Church on Thursday afternoon, November 8, 1951, with the Rev. E. Morris Egeland delivering the funeral sermon.

Arrangements were in charge of the Wellemeyer Funeral Service and interment was on the family lot in Ell Township Cemetery. Neighbors and close friends of Mr. Bell were casket bearers: Paul Kramer, B. E. Gruis, Verner Nelson, Harry Boelman, Harlow Helps and Virgil Waddingham.

The story of Mr. Bell's life as read from the pulpit by Rev. Egeland appears elsewhere in this issue of the Times.

KLEMME COACH AND TWO GIRLS ATTENDED B. B. CLINIC

Mr. Ellingson, coach of the Klemme High School Girls basket ball team, accompanied by Sharon Bridges and Miriam Priebe attended the basket ball clinic at Titonka on Saturday. Other activities there included dedication of the new gym and games between Lakota & Meservey, Titonka and Pocahontas.

Sharon Bridges qualified for the free throw contest by looping 10 out of 15 shots, as also did a Titonka girl. The qualifications were then lowered to admit more girls to the contest. In the official contest Sharon won third place by hitting 27 out of 50, while the Titonka girl came in second with 32 out of 50 and the champion ship was won by a Lakota girl who looped 33 out of 50 shots.

There will be a High School Youth Fellowship Sub-District Rally Sunday at the Belmond Methodist Church.

Last Rites Monday For Retired Farmer

Funeral services for Frank D. Hoyt, 71, were held at the St. John's Lutheran Church northeast of Garner at 2 p. m. Monday afternoon, the Rev. L. W. Heidemann officiating. Interment was in the Concord cemetery at Garner.

Mr. Hoyt died suddenly Friday afternoon at the home of his son, Emmett, while assisting with corn husking. Death was attributed to a heart condition.

Frank D. Hoyt, the son of Christopher and Mary Hoyt, was born on March 26, 1880, at Marengo. On April 26, 1905, he was united in marriage to Flora Ebert. The young couple established a home in Benton county where they lived for 13 years, then purchased a farm southeast of Garner where they lived until 1946 when they retired to their present home in Garner.

Survivors are his wife, Flora; one daughter, Mrs. Harry Frandson; one son, Emmett of Ventura; two sisters, Mrs. William Hampel and Mrs. George Herill; two brothers, John of Norway, and Harry of Cedar Rapids and 4 grandchildren.

LOIS HUENEMAN RETURNS FROM GERMANY

Lois Hueneman, daughter of Mr. and Mrs. Victor Hueneman of Garner, has returned from her 5 months of living with families in Germany

Lois was one of the International Youth Exchanges sponsored by the Iowa 4-H girls and boys clubs and RYP groups in the state. The program is set up to develop a better understanding between people of foreign countries and our own.

While in Germany Lois lived in the homes of three different families. Her experiences with each family was varied and she found it difficult to leave each one when the time came for departure.

Lois is scheduled to speak at Hancock County 4-H award night which will be held on Saturday evening, December 1, at the Memorial Hall in Britt. She will also show some of her pictures.

Organizations wishing to schedule Lois should write to Paul C. Taff extension service, Ames, Iowa, and give the date, time and place of the meeting at which you wish her to speak.

Hancock County Over Half Way In Bond Sales

With one week of the accounting period remaining, purchases in Iowa of series E, F and G defence bonds during the Defense bond drive totaled $16,348,077.

Herbert L. Ollenberg, Garner, Hancock county chairman of the savings bonds division, reports that sales in the county to date amount to $84,618, for 51.63 per cent of the quota of $163,885.

BY RAY EASTMAN

Al waited a few seconds while the chill, foggy mist seemed to seep into his backbone. He leaned on the hood of the car and peered in at the driver through the smeared windshield.

"Worn out," he shouted. "It won't take this stuff off." He pulled the windshield wiper across the glass and the driver's face disappeared behind a gray blur.

The driver rolled down his window and gave Al a 'no sale' grin. "Wouldn't want to keep you out a night like this," he said. "I'm just gong home anyway."

"Just tak a minute if you want one," Al said and gave up the sale. He wiped off the windshield with a rag, collected two dollars for gas and ducked for the coal stove in the office as the tail lights of his late customer dimmed away in the dripping night.

At almost the same moment, an elderly man named Jacobs placed a newspaper back on the rack in the Library reading room, snapped his gold-framed glasses into a worn case and stepped almost blindly into the night. His eyes, he always said, took a long time "coming back" after an evening with the papers.

Al still tells the rest of the story. Most of his customers have heard it more than once. He likes to dramatize it by holding a new windshield wiper in his hand and waving it under the nose of his listener.

"You wouldn't believe what a little strip or fresh rubber is worth, would you," he says. "If that guy had let me hang one of these things on, he might have seen the old fellow in the street.

"How about it? Just take a minute."

This is a public safety service of your safety-minded businesses and this newspaper in cooperation with the Iowa Safety Congress.

Nearly 400 Iowans shot down in cold blood since 1940!

Yes, this is the tragic record of hunting accidents in Iowa--accidents caused by sheer carelessness because someone "didn't know the gun was loaded" or didn't care.

Would you intentionally shoot your brother, or dad, or son, or your best friend? Of course not! Yet, if you put a loaded gun in your car, you are guilty, not only of breaking an Iowa law, but of taking the first step toward killing yourself or someone dear to you

This week, in the midst of the hunting season, is Gun Safety Week. Your Iowa Safety Congress and co-operating organizations solemnly warn you. There's never any open season on human life.

Break your gun and take out the shells or cartridges as soon as you leave the hunting field or duck blind. Remember: loaded guns in cars mean trouble!

Be safe--treat every gun as a loaded gun.

METHODIST ANNUAL BAZAAR WILL BE HELD THIS THURSDAY

The annual Bazaar of the Klemme Methodist Woman's Society will be held in the church parlors this week Thursday, beginning at 2.30 o'clock

In addition to the sale of varied articles, foods, candy, etc., hot lunches will be served all afternoon and evening.

The public is invited to attend the bazaar. Make it a supper date and bring your friends and family.

Farmers Aid Youths Stalled On Highway

A Webster City school bus with driver and 35 F.F.A. youths and instructor were on their way home from a meeting at Forest City when a connecting rod on the bus burned out about two miles north of Goodell.

The driver pulled off from the highway near the Elmer Anderson farm. The Andersons took the young folks into their home and Mr. Anderson went to town for food.

Mrs. Anderson served them hot cocoa and a nice lunch. The bus driver refused to leave his bus, so Mr. Anderson took a lunch down to him. Another bus came and got the party some hours later and took them home.

HANCOCK P M A ELECTIONS STARTED NOV. 12

Hancock county PMA elections in townships will be conducted by mail this year according A. E. Rasmussen, PMA chairman. This practice is being followed over the entire state this year.

Ballots have been mailed to all producers and instead of voting at the usual polling places in the various townships, producers will check their ballots and return them by mail to the PMA office in Garner

Three township committeemen and two alternates will be elected in each township and two delegates to the county conference will also be elected. The balloting opened on November 12 and must be completed by November 24.

LEGION STATE COMMANDER SPEAKS TO LEGION AND AUXILIARY

The American Legion Auxiliary cancelled its regular meeting this month. Instead they enjoyed the 6:30 pot-luck supper with the Legion members and their families at the Methodist Church parlors on Tuesday, November 6. Special guest of the evening was the State Legion Commander, Mr Dudley Wieble of Forest City, who later gave an address to the group. Other Legion and Legion Auxiliary units of the county were invited to hear the talk

FORMER KLEMME IMPLEMENT DEALER DIED IN CALIFORNIA

Word has been received in Klemme of the death of Lt. Col Dwight H. Osborne, who died of a cerebal hemmorage November 11 1951 at Arroyo Grande, California.

Mr. Osborne was a former Klemme man and was manager of the Northern Implement Co for several years.

HELLO FOLKS

Mr. and Mrs. Dale Schlei announce the arrival of an adopted baby daughter, Cheryl Louise, born July 23, 1951 and arriving at their home November 7, 1951.

T. B. CONTACT PROGRAM CONCLUDED IN COUNTY

During the tenth annual case finding program in Hancock County 48 persons were X-rayed, according to reports from the Iowa Tuberculosis and Health Association and the Division of Tuberculosis-State Department of Health.

No case of tuberculosis was found. The program was directed by Ann Garrard, public health nurse, who interviewed persons believed to have been exposed to tuberculosis. She took 30 case histories, called in 25 homes and had conferences with 10 physicians.

The case-finding program is sponsored jointly by the Hancock County Tuberculosis and Health Association, the Iowa Tuberculosis and Health Association and the State Department of Health It has the approval of the Hancock County Medical Society Local Christmas Seal funds help defray the expenses of the program.

Two non-tuberculosis findings were revealed in the chest x-rays for which further medical study was recommended. There were 46 persons for whom miniature x-ray films showed to be healthy chests.

The Contact Program was initiated in Iowa in 1937 and it has gained momentum until there are now approximately 80 counties participating in this case-finding survey to detect tuberculosis in its early stage when it is most curable.

Through the continous effort to find the case and treat the patient, the eventual goal of the more than 3,000 Tuberculosis Associations in this Nation will finally be achieved-- THE ERADICATION OF TUBERCULOSIS.

TWO DEER ILLEGALLY SHOT FOUND NEAR HANSON-PRINGNITZ FARMS

Monday "Aim" Pringnitz was driving along the road between his farm and the Russel Hanson place southwest of Klemme when he observed two dead deer lying in some tall grass along the ditch.

Mr Pringnitz got out and investigated the unusual sight. Both deer, a buck and a doe, had evidently been shot a few days before. There were marks of buck shot on the animals and both had been bled by cutting the throats. Conservation Officer "Bill" Ayres of Goodell was notified and investigated.

Evidently someone had shot the deer some distance from where they were found, as there was no pool of blood where the deer were lying, from cutting their throats. The illegal hunters must have gotten "cold feet" and then dumped their load, probably with the intention of returning later to pick up the two deer.

The meat was not fit for food. Mr. Ayres took the two deer to the rendering plant. The hides would be salvaged. Both deer were young and fat.

Klemme Woman Openned Grocery Store At Goodell

PLENTY OF BASKET BALL FOR THE FANS NEXT FEW DAYS

Professional Team Here Thursday Of This Week, Belmond Tuesday

Basket ball fans will have a full week at the Klemme high school gym. Thursday night of this week Hazel Walker's Arkansas Travelers, an all-star girls team will play the Klemme Legionaires. This game should be worth the money and will be full of thrills, fancy shooting and special exhibitions of fast plays.

Shamrocks At Belmond Tuesday

The Shamrocks travel to Belmond Tuesday night, November 20 to meet their old rivals, the Belmond Broncos. This will be a double-header boys game

On next Friday night the boys again hit the road to meet another old rival, the Garner Cardinals on the Garner floor. This is always a good game and usually in doubt until the final minutes of play if past history is an indication.

SHAMROCKS AND ROCKETTES OFF TO GOOD START

The Klemme high school basket ball teams had a big night Tuesday as the Rockettes routed the Woden girls 31-27.

The Shamrocks blasted the Woden boys 51-26.

By E. D. PLASS, M. D.

(winner of the 1951 Iowa ACS bronze metal for his outstanding contributions to cancer control.)

Are cancers in men and women different?

No. When the new growth affects the same tissue or organ, there is no sex difference in the cancer although there may be variations in the probability of involvement of that organ or tissue. For example, cancers of the skin and lip are more common in men. Obviously, a man can't have cancer of the uterus, or a woman be afflicted with cancer of the prostrate gland. On the other hand, cancer of the male breast does occur and appears at least as virulent as that in the female breast.

Is cancer caused by a germ?

That question has not yet been satisfactorily answered and will not be until the cause of cancer, if there is a single cause, is known. Certain malignant tumors in animals are evidently caused by viruses, which are closely akin to bacteria, but there is still no good evidence that human cancers are caused by those agents. In fact, we don't know what causes cancer, and it is even doubtful if there is a single cause for all malignant growths. Much of the research work which is supported by funds collected by the American Cancer Society is being used to explore various ideas about the causation of malignant tumors. Some day the answer will be available and then it will most probably be possible to offer cancer-patients better treatment than at present. The ultimate goal of all cancer research is to reduce the toll of cancer among human beings.

For answers to cancer questions write American Cancer Society, Mason City, Iowa

MRS. INA SMITH WILL OPERATE AHRENKIEL STORE

Took Over Grocery Store At Goodell Monday This Week

Monday, Mrs. Ina Smith and daughter, Ruth of Klemme, took over the operation of the Ahrenkiel grocery store at Goodell, which was operated for several years by the late Walter Ahrenkiel

Mr. Ahrenkiel, who was a brother of Mrs. Smith, died about a week ago Mrs. Smith and Ruth are at the present driving to and from Goodell each day, but expect to move to Goodell soon.

Mrs. Smith, who has been employed at the Klemme Food Market, is experienced in the grocery business. She expects to do some remodeling and rearranging of the stock at Goodell. She is well known in the Goodell area

PERMITS NEEDED FOR WINTER FISHING SHELTERS

In order to insure removal of fish houses from state-owned lakes before the ice breaks up in the spring, the State Conservation Commission has inaugurated a permit system for all winter fishing houses. The system provides that for all houses privately owned a permit must be secured from the Commission. A deposit of $5.00 is required for each house. The fee is returned in the spring after the fish house is removed from state-owned property by its owner. The fee is forfeited if the house is not removed by February 15.

On fish houses used for commerical purposos, that is, rented by their owners to other fishermen, a fee of from $10 to $25 on each house is charged, depending on the size of the structure. These fees are not returned.

Permits may be secured from the fish and game conservation officer in the territory, or from the state park conservation officer stationed in the park on the various lakes, or from the State Conservation Commission office, East 7th and Court Avenue, Des Moines.

Winter fishing has become extremely popular on several of the Iowa lakes since the fishing season was extended through February 15 each year. As many as 300 structures have been in use at the same time on West Okoboji Lake where the heaviest winter fishing pressure has occurred.

MUSIC CONCERT WAS WELL ATTENDED WEDNESDAY EVENING

There was a large crowd present at the school gym to hear the concert put on by the two bands and the glee clubs.

Mr. Whitford's music department is making a good showing. The Junior Band showed some good talent which can later be "graduated" to the High School Band. Both the girls and boys glee clubs showed good harmony and both are a valuable addition to the music department in our schools.

After the concert the Music Mothers served a nice lunch.

BOARD ACTS ON DRAINAGE LATERAL OF NO. 7

The Board of Supervisors tentatively approved the report of the reclassification commission for Lateral 7 of D. D. Nos. 1 and 2 and the assessment commission report on Lateral 8 of that drainage district. Further hearings on these matters are scheduled for 1:00 and 1:30 A. M. on December 17.

Obituary Of William Bell, 82

WILLIAM BELL, age 82, a resident of this community for 40 years, died at his Avery Township farm home early Tuesday morning, November 6th, 1951.

He was born October 2, 1869 on a farm near Cisco, Platt County, Illinois, the first of five children born to his parents, William Bradford Bell and Mary Jane Pettijohn Bell.

He completed his common school education in the rural schools and attended church with his parents and in due time became a member of the U. B. Church at Shilo, Illinois.

In December 1892, at the age of 23, William Bell and Julia Brannam were married. They became the parents of five children, all of whom survive. They commenced housekeeping on a farm near Maroa, Illinois, and continued to farm in Illinois for 21 years and then moved to Iowa. They farmed one year near Garner and thirty-six years near Klemme.

They celebrated their 50th wedding anniversary in 1943 and three years later the family circle was broken by the death of the wife and Mother, Mrs. Julia Bell. How lucky they were to have had 53 years together; very few marriages last that long.

For the last five years William Bell made his home with William Jeff Bell, his son, who had taken over the operation of the farm.

Nature was kind to allow William Bell to remain with us four score years and two as head of this farm family How fortunate that his two sons who served in World War I came home unharmed. How nice to have children, grandchildren and great grandchildren grow up to call him blessed and how noble that his good son Wm. Jeff provided a home and cared for his father in his declining years. And, what a nice way to die; his heart stopped and he was gone.

Yes, indeed, William Bell was a lucky man to have received so many blessings.

He leaves to mourn his passing, five children:

William Jefferson Bell, Klemme
Fred Bell, Klemme
Mrs. Myrtle Lassahn, Mason City
Russell Bell, Mason City
Kenneth Bell, Garner

—also five grand children, three great grandchildren, and one brother, David Bell of Chickasha, Oklahoma.

DEVOTIONAL READING: Deuteronomy 6:16-25.

All Men Need Laws

Lesson for November 18, 1951

WHY do we need so many laws? Why can't we trust people to follow their conscience? There are two reasons why we can't do that: Some people won't follow their consciences, and some other people have crooked, inaccurate and dull consciences, — if they did follow them they would be wrong most of the time. Why can't we have just the Law of Love? Love is important, to be sure, but "love" by itself doesn't tell us what to do in any concrete case. And besides, too many people have no love to speak of.

Dr Foreman

• • •

Are Bible Laws Out of Date?

WELL then, can't we get along with the Ten Commandments? They cover everything, don't they?

They do, to be sure; but only in a very general way. What we need is something that gets down to cases. Surely, you might think, the ancient Israelites could have gone along pretty well without laws. But God wanted them to have laws. They could not be a nation without them.

In Exodus 21-23 we have a simple code which is the earliest known group of laws applying the Ten Commandments to actual conditions and situations of living. Christians are not altogether agreed about whether the laws in Ex. 21-23 (and elsewhere in the Old Testament) apply to us today.

The majority of Christians look at it like this: The Ten Commandments, as great sign posts and standards, are everlastingly in force; the other laws (as those in Ex. 21-23) were meant for that particular nation. When that nation disappeared, the laws went with it, just as (for example) the laws of Rome perished with the Roman Empire.

• • •

Getting Down to Cases

HOWEVER, while these laws were not directly intended for us, and are not all usable by us, they are well worth our study, because they are examples of how the great basic principles of the Ten Commandments were once applied in practical living, and they give us valuable hints on the way to apply the Ten Commandments in our own times.

One illustration of this point can be seen in Ex. 21:28-36, the Law of the Goring Ox. The Commandment reads simply: Thou shalt not kill. But what if the killing was done not by a man but by his ox?

The law goes into the question of responsibility in an interesting way. Not many readers of these lines own oxen,—more likely tractors or station wagons! But the principle of responsibility for damage, the principle of criminal negligence, is as good today as it was in 1200 B.C.

• • •

"Right" Isn't a Sum

SOME of these laws, indeed, could be taken literally today. For instance, take Exodus 23:2, first part of the verse. This says pretty clearly something that millions of people to this day don't understand. It means this: The number of people who say a thing is right, or is wrong, has nothing whatever to do with the question, IS it right or wrong?

Most young people, at least, have the notion that if "everybody does it" it must be right. Not at all. The Judge of all the earth is God, not a majority vote. A thing can be made legal by a majority vote in a legislature, parliament or the like. But not all the congressmen from Maine to California can make a thing right just by saying so.

Yet how many people in our time settle the liquor question (for example) by looking, so to speak, at the score board! A majority of our lawmakers voted to make the sale of liquor legal; so "it must be right." "Everybody I know" says it's all right, so "it must be right."

Every once in a while it dawns on some smart person that the right and wrong of the liquor question can't be settled, for a Christian, by a simple counting of votes for and against.

The number of cocktail parties in New York, Washington or Denver doesn't settle the question. It has to be studied from a Christian point of view, and the big question is not: How many people do it? But, Is it right for those who are their "brothers' keepers"? Is it right for those whose bodies are to be temples for the Holy Spirit?

Two Generations of Prize-Winning Cooks Take Honors at Iowa State Fair

"This Active Dry Yeast is so easy to use"

15-year-old Shirley Kintner and her mother, Mrs. S. H. Kintner, talk over their cooking triumphs at the Iowa State Fair. Mrs. Kintner entered her first state fair cooking contest 4 years ago and has been a top winner ever since. Shirley has taken top awards for the past 2 years!

Mrs. Kintner is relatively new to the ranks of prize-winning cooks. But she agrees with so many long-time champions when it comes to Fleischmann's Active Dry Yeast. "I like it!" says Mrs. Kintner of Des Moines, Iowa. "This Active Dry Yeast rises in a hurry. And it's so easy to use!"

The holiday meals ahead call for plenty of yeast-raised goodies. They're so festive, so delicious . . . wholesome and nourishing, too! When you bake at home, use yeast. And be sure to use the best—Fleischmann's Active Dry Yeast. It's so fast and easy—gives you grand results every time. Get several packages of Fleischmann's Active Dry Yeast today.

Those Seasonal Pastries Are Made to Order For Luscious Deserts

THINK OF the word pie about this time of year, and some of the most luscious pastries come to mind. Can't you almost smell homemade pumpkin pie, for instance, with its spicy golden custard baking in a tender crust?

There's apple, the most favored of all pies, with so many different kinds of pie apples in season right now. Custard types and mincemeat pies are in for their share of the attention, too, and they're all delicious if you make them correctly.

Pie making can be easy if you use a pastry mix on hand on the pastry shelf. If you prefer your own, and bake many pies, keep a quantity of mix on hand which needs only the addition of water.

Cool fall weather calls for a hearty dessert such as pie, so start today with some of these delightful pastries:

Custard Pumpkin Pie
(Makes 1 9-inch pie)

- **2 eggs, slightly beaten**
- **2 cups canned pumpkin (No. 303 can)**
- **¾ cup sugar**
- **½ teaspoon salt**
- **1 teaspoon cinnamon**
- **½ teaspoon ginger**
- **¼ teaspoon cloves**
- **1¼ cup evaporated milk or light cream**
- **1 unbaked 9-inch pie shell**

Combine eggs and pumpkin. Mix sugar with salt and spices and add to pumpkin mixture. Blend in milk. Pour into pie shell. Bake in a hot (425°F.) oven for 15 minutes. Reduce temperature to moderate (350°F.) and continue baking 45 minutes or until knife inserted in center comes out clean.

* * *

A CHIFFON TYPE of pumpkin pie has been achieving popularity for some time now because it's a light dessert suitable for a heavy dinner of traditional turkey or chicken:

Pumpkin Chiffon Pie
(Makes 1 9-inch pie)

- **1 9-inch baked pie shell**
- **1 tablespoon unflavored gelatin**
- **¼ cup cold water**
- **4 egg yolks**
- **¾ cup light brown sugar**
- **1¼ cups cooked or canned pumpkin**
- **½ cup milk**
- **¼ teaspoon salt**
- **½ teaspoon cinnamon**
- **¼ teaspoon ginger**
- **½ teaspoon allspice**
- **½ teaspoon nutmeg**
- **4 egg whites**
- **½ cup sugar**
- **1 cup whipping cream**
- **2 tablespoons confectioners' sugar**
- **1 tablespoon chopped nuts**

Soak gelatin in cold water 5 minutes. Beat egg yolks and brown sugar until thick; add pumpkin, milk, salt and spices. Cook in double boiler until thick. Add gelatin softened in cold water, stirring until dissolved. Cool. Beat egg whites until stiff; add ½ cup sugar. Fold into custard. Pour into baked pie shell and chill. Whip cream and add confectioners' sugar. Spread over pie. Sprinkle with chopped nuts.

* * *

SQUASH PIE is much like pumpkin pie in texture and flavor, and is preferred by some to the latter. If you have squash available in quantity, you'll enjoy using some in this way.

***Squash Pie**
(Makes 1 8-inch pie)

- **¾ cup brown sugar**
- **2 eggs**
- **1 cup milk**
- **½ teaspoon cinnamon**
- **¼ teaspoon allspice**
- **1 cup chopped pecans**
- **1½ cups squash, cooked and mashed**
- **¼ teaspoon cloves**

Beat eggs, add spices, sugar, milk and squash. Add nuts last. Pour into pastry lined pan and bake in a hot (425°F.) oven for 10 minutes, then reduce heat to moderate (350°F.) for 40 minutes.

* * *

Apple Pie
(Makes 1 8-inch pie)

- **2 cups sliced apples**
- **½ teaspoon salt**
- **1 cup sugar**
- **½ teaspoon cinnamon**
- **1 tablespoon butter**
- **Few gratings of nutmeg**
- **2 tablespoons cold water**

Mix together apples with salt, sugar, cinnamon, butter and nutmeg. Sprinkle with cold water if the apples are dry. Place apple mixture in unbaked pastry shell and cover top with pricked pastry. Seal edges. Bake 10 minutes in a hot (425°F.) oven and then reduce heat to moderate (350°F.) and bake for 25 to 30 minutes or until apples are tender.

* * *

Homemade Pastry Mix
(Makes 8 single pie crusts)

- **7 cups sifted, enriched flour**
- **4 teaspoons salt**
- **1¾ cup lard for soft wheat flour, or**
- **2 cups lard for hard wheat flour**

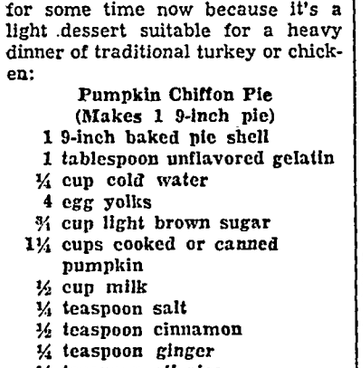
Add salt to flour. Cut lard into flour and salt with a fork or pastry blendor until the crumbs are about the size of small peas. Cover and store in refrigerator until ready to use. Mixture will keep at least a month if refrigerated. For a single pie crust, use 1½ cups of the pastry mix and add 2 to 4 tablespoons of cold water to it.

* * *

Golden Nesselrode Pie
(Makes 1 9-inch pie)

- **1 tablespoon unflavored gelatin**
- **¼ cup cold milk**
- **4 egg yolks, beaten well**
- **1 cup sugar**
- **½ teaspoon salt**
- **1 cup scalded milk**
- **½ cup cream**
- **1 teaspoon vanilla**
- **4 egg whites, stiffly beaten**
- **1 tablespoon finely chopped maraschino cherries**
- **1 9-inch pie shell, baked**
- **Shaved sweet chocolate**

Soak gelatin in cold milk. Mix egg yolks, ½ cup sugar and salt. Stir in scalded milk. Place over hot water, stirring and cooking until mixture thickens slightly. Remove from heat and add soaked gelatin; stir until dissolved. Add cream and flavoring and chill until sirupy. Fold in beaten egg whites and cherries. Pour into pie shell and chill until firm.



Can you imagine the cheers of delight from the family when you serve this sweet and spicy pumpkin pie wreathed with whipped cream around the edge? Tender crust and correct spices contribute to the goodness of pumpkin pie.

Pumpkin pie can come to the table in several different costumes. For a hearty dinner simply sprinkle plain or toasted coconut around the edge. It gives a lacy appearance but does not cost as much as whipped cream or make the pie quite as rich.

LYNN SAYS:
Here are Ways to Perfect Your Cooking of Meats

Broiled steaks and chops are best when they're seasoned with salt and pepper after browning.

Kitchen shears are excellent to have on hand for dicing bacon or cooked meats for casseroles and salads.

Beef, veal, smoked pork and lamb do best when roasted at a constant temperature of 300°F. Fresh pork is best roasted at a temperature of 350°F.

When you're cooking meat in liquid, for stews or soup, never let the water boil. It should simmer very gently so the meat will be tender rather than stringy.

If you place meat in the roasting pan on a rack with the fat side up, no basting is necessary. As the fat melts it will drip down and baste the meat.

When pan-broiling, always pour off fat from the meat as it accumulates. If this is not done, you are frying the meat rather than broiling it.

Crime in America

Nine of a Series

Kansas City: Jungle Law

My first impression of Kansas City was of a place struggling out from under the law of the jungle.

It was a staggering example of a prosperous city, blessed with many industries and the same type of good citizens found everywhere, but which, through civic inertia, had fallen completely under the thumb of vicious criminals. The mob, led by men high in the Mafia, had run the town—and milked it: A federal grand jury in Kansas City found that the illegal gambling business had grossed more than $34,000,000 a year.

The mobsters could do this because they were able to "buy" many small and middle-sized officials, and to influence some big ones.

Actually, the Kansas City police department was headed by a good chief and included some officers who made an excellent impression on the Senate Crime Committee. In the county, however, it was different. There the committee found Sheriff J. A. Purdome "notably lax."

One fantastic facet was that Purdome permitted a racketeer, Wolf Riman, juke box and pin-ball king, to hold a deputy sheriff's commission and to operate a car equipped with siren and red light. Riman was murdered and Sheriff Purdome married his widow.

* * *

No responsible person condones murder as an instrument of social justice, but there seemed to be a moral lesson in the violent end met by Charlie Binaggio, Kansas City's reigning evil genius. This conniving, particularly courageous gangster, a fixer rather than a muscle man, was murdered in his political clubhouse. Dead beside him was his lieutenant and "enforcer," Charlie Gargotta.

If ever a human deserved the title of "mad dog," it was Gargotta. His record showed 39 arrests on charges ranging from attempted burglary to murder. Once he killed a man in cold blood on the streets, but a corrupt police officer switched identification tags on the murder weapon, and Gargotta beat the homicide charge.

Binaggio, Gargotta, Tano Lococo, Fat Tony Gizzo and grizzled old Jim Balestrere, reputed Mafia chieftain in Kansas City, were known as "the Five Iron Men." These five and their henchmen controlled most of the important gambling in the Kansas City area. Binaggio & Co. would spot a profitable gambling operation and decide they ought to be "invited" in. If the operators were not smart enough to issue such an "invitation," their places of business would be bombed, robbed or otherwise harassed until they got smarter.

* * *

Among other Binaggio properties, in partnership with Gargotta, Lococo, Snag Klein, and Eddie Osadchey, was the Last Chance Tavern.

The Last Chance was an intriguing establishment on the border between Kansas and Missouri, with a thin wall right on the state line. When cops from one state would come to "raid" it, the gamblers would shift over to the other side, and carry on. Cops from both states never seemed to arrive at the same time.

Osadchey, Gargotta, Lococo, and Klein muscled in on Simon Partnoy's profitable wire service in Kansas City after the Chicago-Capone syndicate set out to take over the nationwide race news racket. Another time, Osadchey and Klein, without putting up a dollar, moved into Iowa to "muscle" themselves 50 per cent of a Council Bluffs gambling place called the Stork club, in which the original owners had invested $90,000.

Eddie insists that there really was no "muscle." It was merely a case, he explained, where, after he and Snag offered to "buy" the whole club for $20,000, the owners countered with a proposition that they take half of it for nothing.

* * *

Jim Balestrere, the old Sicilian-born mobster identified as one of Kansas City Mafia leaders, played dumb. He represented himself to us as a poor, old jobless fellow who lived on a little income from a piece of business property (once rented to a gambling house) and on a few dollars given him by his children. But he didn't impress us as dumb at all. People in Kansas City rackets used to say that "Balestrere has a piece of Binaggio."

* * *

We delved into the question of how—and through whom—he carried out his political machinations. The gangsters themselves, of course, did their part. Eddie Osadchey testified that "Charlie told me" to travel around the state and line up his "friends" for Gov. Forrest Smith. Rumors were prevalent that Binaggio had raised sums as large as $150,000 to the Smith-for-Governor campaign, but we were unable to secure any tangible proof of large-scale contributions.

The committee had a session with Roy McKittrick, former state senator and attorney general of Missouri, concerning his knowledge of the alleged tie-up between Binaggio and Governor Smith.

In January, 1948, McKittrick decided he would be a candidate against Smith.

Q. Did you have any conversation with Charles Binaggio about your candidacy?

A. Yes, sir . . . He wanted to discuss what he thought the chances to win were. It impressed me what he meant was the importance that he had to have a governor.

Later, McKittrick continued, the Kansas City boss told him he ought to get out of the race. McKittrick told us he said to Binaggio "If you have made up your mind, I think the race is over right now because you are going to elect whoever you support for governor." Senator Hunt asked the witness why he placed such confidence in Binaggio's ability to dominate an election.

McKittrick: He had a lot of friends and supporters in St. Louis, and he was the controlling factor in Kansas City. He had good alliances at St. Joe. He was very active. He was well supplied with money.

Binaggio, McKittrick said, told him, "I have made a deal with Smith."

The Kansas City police board was composed of four men, R. Robert Cohn and Colonel Hampton S. Chambers, both holdovers who had been appointed by a previous governor, and two Smith appointees, Jacob L. (Tuck) Milligan, a boyhood friend of Governor Smith and Sheridan E. Farrell, a Kansas City hotel man. It took three votes of the four-man board to effect any important policy or personnel changes.

* * *

Cohn told us that Milligan and Farrell were "credited to the Charlie Binaggio group." Therefore, it was necessary for the Binaggio interests to line up either Colonel Chambers or himself. Cohn testified that he was approached several times by Binaggio and other emissaries "who suggested that I be on their team and to follow through the program they had planned." But all efforts to bring either Cohn or Chambers into the Binaggio camp failed.

The pay-off for the entire board came after the murder of Binaggio and Gargotta on April 5, 1950. The eyes of America were focused with disgust on Kansas City, and decent citizens there did not like it.

Governor Smith reacted by calling for the resignations of all the Kansas City police commissioners. Milligan and Farrell resigned, but Cohn and Chambers refused to do so, forcing the governor to "fire" them, that was their intention, they said, as they felt they were clean and did not want to be in a position of quitting under fire. The present Kansas City police board, our report noted, "is made up of four men of undoubted integrity," and the citizens of Kansas City have helped drive for better law enforcement by forming a local crime commission.

* * *

As for Governor Smith, it seemed to the committee, after he had testified before us concerning the various allegations against him, that he either was a much lied about person, or a man of exceedingly bad memory. Smith said he didn't even know Binaggio by name until around November, 1947 (though Binaggio's name by then was a byword in Missouri political circles).

Smith explained that Binaggio just walked up to him in a Kansas City hotel lobby and said "he hoped I would run for governor, that he was going to support me." "When he told you those things," Counsel Halley inquired, "did you ask him who he was?" Governor Smith replied: "I did not."

The governor did recall that Binaggio visited him several times at the state capitol.

STIRRED TO ACTION

Kentucky Studies Anti-Bribery Laws

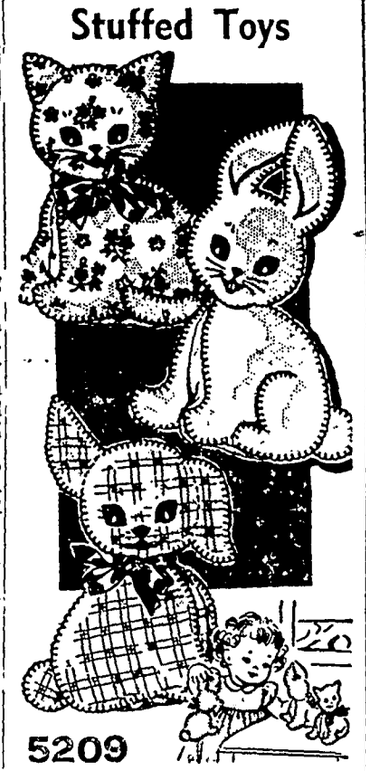
LEXINGTON, Ky.—The 1952 Kentucky General Assembly is expected to enact legislation covering bribery in a sports contest.

State Senator R. P. Mahoney, majority floor leader in the upper house, said that he had made a careful study of a law enacted in New York in 1950, and felt it would be adopted without change in Kentucky.

Support for the measure was offered by Governor Lawrence Wetherby, who said he "would be in favor of a law which would make it tough on persons bribing athletes."

The education committee of the Kentucky Chamber of Commerce also adopted a resolution urging the legislature to consider enactment of "appropriate legislation."

Stuffed Toys



Stuffed Toys

GAY little stuffed toys that are just the right size for a tiny tot to carry around. The amusing kitten, puppy and bunny are simple to make from work basket scraps. Finish each with a ribbon bow.

Wake Up!

"What a horrible noise comes from that radio set!"

"Well, I guess you would make just as bad a noise if you were coming out of ether."

Housework Easy Without Nagging Backache

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Save Money On This Home Mixed Cough Syrup

Big Saving. No Cooking. So Easy.

You'll be surprised how quickly and easily you can relieve coughs due to colds, when you try this splendid recipe. It gives you about four times as much cough medicine for your money, and you'll find it truly wonderful for real relief.

Make a syrup with 2 cups of granulated sugar and one cup of water. No cooking needed. (Or you can use corn syrup or liquid honey, instead of sugar syrup.) Then put 2½ ounces of Pinex (obtained from any druggist) in a pint bottle, and fill up with your syrup. This makes a full pint of medicine that will please you by its quick action. It never spoils, and tastes fine—children love it.

This simple mixture takes right hold of a cough. It loosens the phlegm, soothes the irritated membranes, quickly eases soreness and difficult breathing.

Pinex is a special compound of proven ingredients, in concentrated form, well-known for its quick action in coughs and bronchial irritations. Money refunded if it doesn't please you in every way.

FOR EXTRA CONVENIENCE GET NEW READY-MIXED, READY-TO-USE PINEX!

BAKE THIS PRIZEWINNER WITH **RED STAR** *Special Active* **DRY YEAST**

Senior contest winner, Grand National Baking Contest, Waldorf-Astoria, Mrs. Fredericka A. Vici, Ripley, Ohio.

$1,000 CHEESE SNACK BREAD

Cheese, a trace of onion and caraway or poppy seeds are baked right on top of this unusual bread! According to Mrs. Vici, "The recipe had been in Father's family for many generations, and he gave it to Mother, who made it every Wednesday and Saturday. She always served it warm, with hot soup or hot coffee. It tasted equally good for breakfast, luncheon or supper." BAKE at 425°F. for 15 to 20 minutes. MAKES 15x10 or 13x9-inch coffee bread. **Dissolve** 1 package RED STAR Special Active Dry Yeast (or 1 cake of compressed yeast**) in ¼ cup warm water (110° to 115°F.) **COMBINE** 2 tablespoons shortening, 1 tablespoon sugar, 1 teaspoon salt*, ¾ cup scalded milk. Cool to lukewarm. **BLEND IN** the dissolved yeast. **ADD** 2¼ cups sifted Pillsbury's Best Enriched Flour*; mix thoroughly. **KNEAD** dough on lightly floured board for 3 minutes; place in greased bowl and cover. **LET RISE** in warm place (85° to 90°F.) until double in bulk, about 1 to 1½ hours. **PRESS** dough into greased 15 x 10 or 13x9x2-inch pan. **LET RISE** in warm place until double in bulk, about 45 minutes. **COMBINE** 1 egg, 5 tablespoons milk, ¾ teaspoon grated onion, ¼ teaspoon salt, ½ lb. (2½ cups) yellow cheese, grated, spread over top of dough. Sprinkle with 1½ teaspoons caraway seed or poppy seed, if desired. **BAKE** in hot oven (425°F.) 15 to 20 minutes. Serve warm.

*If you use Pillsbury's Best Enriched Self-Rising Flour, omit salt.

**If compressed yeast is used, dissolve in ¼ cup lukewarm water.

G. Co. 516th Abn. Inf. Regt.
101st Abn. Division,
Camp Breckinridge, Kentucky.

HONOR MEMBERS OF O.E.S. AT GARNER CHAPTER

The Eastern Star honored past matrons and patrons at a special program at the Masonic hall at Garner Tuesday at 8 p.m.

Past matrons who filled the stations were: Adah, Bella Kurtz; Ruth, Rita Hamilton; Esther, Dorothy Bethke; Martha, Shirley Love; Electa, Zora Merten; marshal, Mary Jane Jorgenson; warder, Mrs. Charles Grau; chaplin, May Strate; treasurer, Hazel Tompkins, and secretary, Joy Ziegler.

The Methodist men's quartet, consisting of Jeff Moffatt, Leroy Bredlow, James Gatchel and Clare Tompkins, appeared on the special program with several numbers and a former high school girls' trio consisting of Charlotte Fiero, Sheryl Goll and Maxine Beal also favored with several numbers.

All 25-year members of the Star were given special recognition at the meeting and all 25-year members of the relief chapter were extended in invitation to attend. Margaret Beattie was chairman of the special program.

Ask Amended Report In Drainage Hearing

Hancock County supervisors held a hearing on the petition of Engsler and Markman for a cleanout of the main open ditch in Hancock county drainage district No 6 and the report of the engineer recommending that such cleanout be made.

Due to numerous objections and objectors to the proposed project present at the hearing, the board requested the engineer to file an amended report to include only such items as are drastically detrimental to the proper functioning of the district to enable the board to order repairs in a modified form. William Henschen is drainage engineer on the project.

Assessors Meeting Today

The County Assessors Group for Hancock and surrounding counties are meeting today, Wednesday at the Court House in Garner.

School News

(Last Week's)

FIRST GRADE NEWS

Reading group 1 completed their third primer Thursday and will be very happy to start in the new books on Monday.

Wednesday afternoon we had a Halloween party. We ducked for apples although some of us had to take our apples with our hands because of missing front teeth. We dressed up in our paper sack costumes and went through the other rooms in the grade building. We said a Halloween verse about a jack-o-lantern in each room. We played games and had candy and peanuts.

Our room helpers this week are Janice Greiman and Harley Nuehring.

Mrs. Alfred Jurgemeyer visited our room for a short time Wednesday morning.

—Mrs. Brinkman

SECOND GRADE NEWS

This week we have had two birthdays in our room, Inez Nuehring and Johnny Juhl's. They both brought treats for the room.

To end up the Halloween activities in our room we had a masquerade party Wednesday afternoon. Three children were awarded prizes for the best costumes. Those who won prizes were Denny Fuller, Johnny Juhl and Joyce Hummel.

The only student who has received an "A" in Spelling for every week of the first nine week period is Jimmy Clements.

—Mrs. Lemke

THIRD GRADE NEWS

Ellen Waddingham was absent two days this week.

Ellen also brought her dental card to school Monday.

Wednesday afternoon we had a costume parade and a Halloween program. Dean Neuberger and Marijane Baack won the prizes for the best costumes.

Mrs. Barkema

FOURTH GRADE NEWS

Last Wednesday afternoon we had our Haloween Party. The Third Grade judged Craig Wilson and William Evans as having the best costumes. We played three games and then passed the treats. Sharon Blau brought popcorn balls for the class.

This week we begun studying Holland in geography. We find this land interesting because it is lower than sea level.

Spiders are the main subject now in Science. We plan to make a small booklet about them.

—Miss Franken

SCHOOL NEWS
(This Week's)

KINDERGARTEN NEWS

This week we have been working very hard with our number game and most of us can count to five.

We have been reading and talking about Indians and we colored some big Indians that Miss Schiek put on the wall.

We got a new record that we can march to and we all like it very much.

We have learned two new songs this week. "Lazy Mary" and "Do You Know The Muffin Man?"

—Miss Schiek

FIRST GRADE NEWS

We have been studying signs of winter in our science class. Winter birds, snow, ice and shorter days are included.

We learned the poem, "The Little Elf," this week. We also wrote the poem to put in a poem book.

Julie Stokesbary returned her dental card on Friday.

Our room helpers this week were Vernon Jurgemeyer and Julie Stokesbary.

—Mrs. Brinkman

SECOND GRADE NEWS

This week the children made a Pilgrim scene for Thanksgiving. Jimmy Bock and Johnny Juhl brought their "Lincoln Logs" from home and constructed the log cabin, fence and covered wagons. Some of the other children made turkeys and pilgrim boys and girls.

Linda Meinders gave treats to the pupils this week as it was her birthday. Mrs. Meinders and Richard visited part of the afternoon.

—Mrs. Lemke

THIRD GRADE NEWS

Claudia Neuberger had a birthday this week and treated us to candy bars.

Billy DeMerritt was absent three days this week. Wayne Schlichting was absent Friday.

Thursday afternoon we took Reading Achievement tests.

We had a contest to see if boys or girls could remember to return their report cards first. This time the girls won. Next time the boys are hoping to do better.

Jerry Stokesbary returned his dental card Friday.

—Mrs. Barkema

FOURTH GRADE NEWS

This week our class began to make a Holland scene on our library table. We plan to finish it next week and hope many grades come in to see it. We are trying to do our best work.

Roxanne Back celebrated her birthday by bringing treats to class, Friday.

Roger Sobek has been absent all week because of illness. Jerry Hackett has not been in school for three days because of the flu.

Eight people received perfect scores in Spelling. They were: Donald Anderson, Candace Carlson, Sherryle Claubaugh, Lowell Greimann, Edna Heginger, Jo Anne Jacobs, Maurine Johnson and Gordon Lassahn.

JOLLY WORKERS CLUB MET AT GREEN'S

The Jolly Worker Club met at the home of Reike Green, October 10th with 20 members answering roll call, telling of an embarrassing moment. Nellie Ausborn passed out the Christmas cards. Lily Pearson told of a Home Extension Meeting to be held at Mrs. Brede's. She appointed Louise Pearson, Alvina Helps and Maude Bachman to go to this meeting and give the lesson at the November meeting The lesson was on "Making Different Kinds of Bread and Rolls."

Edith Kramer is to give the Christmas party this year. Alvina Helps and Mildred Gruis are to help plan the Christmas dinner.

After the business meeting Nettie Roths had charge of the entertainment and we all enjoyed some interesting games.

The November meeting will be at the home of Dorothy Helps, with Marilyn Bachman as co-hostess.

Election of officers will be held. A lovely lunch was served by Reika Green, with Luella Boelman as co-hostess.

NEW CASES FILED

Cecil Jolliffe and Martha Jolliffe vs. Mr. and Mrs. Robert Ennen: Plaintiff as owners of E½ of NW¼, Sec. 9-97-25 claim unpaid cash rent in the amount of $245.00 and ask that attachment under landlord's lien issue against the property of Mr. and Mrs. Robert Ennen.

Stenseth Motor Company vs. Melvin Anderson. Stenseth asks judgement for balance due on unpaid gasoline and petroleum products account in the amount of $25.28, against Melvin Anderson.

DIVORCE GRANTED

Judge Tom Boynton granted a divorce to Lois Carmody of Garner from Roger W. Carmody of Charles City on November 12. The couple was married in Mason City on May 11, 1948. Divorce was granted on grounds of desertion and on grounds of cruel and inhuman treatment. Mrs. Carmody was awarded absolute care, custody and control of the minor child.

● MARRIAGE LICENSES

Duane R. Floy, 23 and Ida DeWeerdt, 19, both of Garner.

Schools Now Exempt From Federal Admission Tax

Effective November 1, 1951, the Revenue Act of 1951 exempts public and parochial grade and high schools (But Not Colleges) from collecting Federal admissions tax on charges made for admittance to their athletic contests and entertainments.

The above mentioned exemption does not apply to charges made for admissions to movies, boxing wrestling matches, or carnivals, rodeos and circuses sponsored by such schools where paid professionals take part.

Wednesday Evening Club Met At Home Of Mrs. Cappon

Mrs. Franklin Cappon was hostess to the Wednesday Evening Club on Thursday, so that the members could take in the band concert on Wednesday evening.

Mrs Sumner Trumbell won the high score in contract bridge and Mrs. Don Christiance won the low score. Mrs. Cappon served a nice lunch.

BOLSON EGG FEEDS

If you are changing egg feeds, put part of your pullets on either Bolson's Full Basket Breeder 20% Egg Mash or Bolson's 26% Grain Balancer. Or, if you like to mix your own mash use Bolson's 36% Concentrate. The only way to make a fair test with any egg feed is to make a comparison test over a period of time, feeding part of the flock one feed and the other part another feed. Under this kind of test you'll be surprised to find how Bolson fed birds lay. Check Bolson egg feeds point for point, ingredients against ingredients, protein against protein, fat against fat, fibre against fibre. Especially check the fat content. You do not have a top mash unless it is marked at least 4.0 fat. A Minnesota state test taken 8-14-51 showed Bolson Egg Mash carried 4.7 fat.

Remember when you feed your pullets Bolson's, they are getting a feed that wil lproduce all the eggs your pullets are capable of laying, keep their pigmentation up, and save you money, too. Buy Bolson's Feeds From—

BELL'S PRODUCE

SQUIRREL SEASON CLOSES NOVEMBER 15

One of the most successful squirrel hunting seasons for several years closes November 15th. Game officials are optimistic about carrying over of breeding populations. With an unusually heavy crop of acorns and nuts, squirrels are expected to have an "easy" winter with ample food available near suitable den sites. This will limit winter losses and guarantee a good spring breeding stock.

BOARD APPROVES BOND OF MAUDLIN CO.

The bond of Maudlin Construction Company of Webster City was approved by the Board of Supervisors on November 5, for the gravel surfacing of 30 miles of road in Hancock County at a contract price of $10,-670.00.

12 Hancock Youths Go To International

Twelve Hancock county 4-H boys and leaders will attend the International Livestock Exposition at Chicago in November according to a report from County Extension Director Paul Henderson The group will board the KGLO North Iowa fair train at Mason City at 10:45 p. m. on Thursday, November 22, and return to Mason City at 8:00 a. m. on Tuesday November 27.

The county 4-H leaders held a recent meeting at the Farm Bureau office at which time plans were made for the trip. The 1951 4-H program was reviewed and record books checked. Other topics discussed were: Awards night, 1951 enrollments and plans for future leaders meetings.

Mrs. Dulmes Entertained U-Delt-Em Club Wednesday

Mrs. A H. Dulmes was hostess to the U-Delt-Em Club at her home Wednesday, with Mrs. E. C. Buntenbach a guest.

High score was won by Mrs. Fred J. Arnold and second high by Mrs. Wm. Fuss.

A nice lunch was served during the games by the hostess.

Pheasant Hunters Report Good To Poor Shooting First Day

Sunday was the opening day on pheasants in North Iowa Hunters report good to no luck at all on opening day. It was generally supposed North Iowa would have excellent hunting, but many hunters went home with no pheasants. A few reported getting their limit.

Either a large number of pheasants had moved out, or they were sticking very tightly to cover, of which there was plenty this year.

Award Contract For Drainage Ditch

Stille and Greiman, Garner drainage contractors, were awarded a contract by the Hancock county board of supervisors in session here this week for the construction of an additional tile line in lateral 3 of Hancock county drainage district No. 13. The improvement was petitioned for by George Klesel et al. The contract totals $2;578.16

Work on the project is to get under way immediately and be completed by December 15 (weather permitting). William Henschen has been named construction engineer on the project.

Birthday Club Meets

HONOR MEMBERS OF O.E.S. AT GARNER CHAPTER

The Eastern Star honored past matrons and patrons at a special program at the Masonic hall at Garner Tuesday at 8 p.m.

Past matrons who filled the stations were: Adah, Bella Kurtz; Ruth, Rita Hamilton; Esther, Dorothy Bethke; Martha, Shirley Love; Electa, Zora Merten; marshal, Mary Jane Jorgenson; warder, Mrs. Charles Grau; chaplin, May Strate; treasurer, Hazel Tompkins, and secretary, Joy Ziegler.

The Methodist men's quartet, consisting of Jeff Moffatt, Leroy Bredlow, James Gatchel and Clare Tompkins, appeared on the special program with several numbers and a former high school girls' trio consisting of Charlotte Fiero, Sheryl Goll and Maxine Beal also favored with several numbers.

All 25-year members of the Star were given special recognition at the meeting and all 25-year members of the relief chapter were extended in invitation to attend. Margaret Beattie was chairman of the special program.

Ask Amended Report In Drainage Hearing

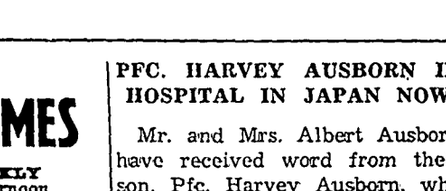
Hancock County supervisors held a hearing on the petition of Engsler and Markman for a cleanout of the main open ditch in Hancock county drainage district No. 6 and the report of the engineer recommending that such cleanout be made

Due to numerous objections and objectors to the proposed project present at the hearing, the board requested the engineer to file an amended report to include only such items as are drastically detrimental to the proper functioning of the district to enable the board to order repairs in a modified form. William Henschen is drainage engineer on the project.

Assessors Meeting Today

The County Assessors Group for Hancock and surrounding counties are meeting today, Wednesday at the Court House in Garner.

UNDERSTANDING SYMPATHY SERVICE



We endeavor at all times to render helpful assistance.

BOLSON EGG FEEDS

If you are changing egg feeds, put part of your pullets on either Bolson's Full Basket Breeder 20% Egg Mash or Bolson's 26% Grain Balancer. Or, if you like to mix your own mash use Bolson's 36% Concentrate. The only way to make a fair test with any egg feed is to make a comparison test over a period of time, feeding part of the flock one feed and the other part another feed. Under this kind of test you'll be surprised to find how Bolson fed birds lay. Check Bolson egg feeds point for point, ingredients against ingredients, protein against protein, fat against fat, fibre against fibre. Especially check the fat content. You do not have a top mash unless it is marked at least 4.0 fat. A Minnesota state test taken 8-14-51 showed Bolson Egg Mash carried 4.7 fat.

Remember when you feed your pullets Bolson's, they are getting a feed that wil lproduce all the eggs your pullets are capable of laying, keep their pigmentation up, and save you money, too. Buy Bolson's Feeds From—

School News

(Last Week's)

FIRST GRADE NEWS

Reading group 1 completed their third primer Thursday and will be very happy to start in the new books on Monday.

Wednesday afternoon we had a Halloween party. We ducked for apples although some of us had to take our apples with our hands because of missing front teeth. We dressed up in our paper sack costumes and went through the other rooms in the grade building. We said a Halloween verse about a jack-o-lantern in each room. We played games and had candy and peanuts.

Our room helpers this week are Janice Greiman and Harley Nuehring.

Mrs. Alfred Jurgemeyer visited our room for a short time Wednesday morning.

—Mrs. Brinkman

SECOND GRADE NEWS

This week we have had two birthdays in our room, Inez Nuehring and Johnny Juhl's. They both brought treats for the room.

To end up the Halloween activities in our room we had a masquerade party Wednesday afternoon. Three children were awarded prizes for the best costumes. Those who won prizes were Denny Fuller, Johnny Juhl and Joyce Hummel.

The only student who has received an "A" in Spelling for every week of the first nine week period is Jimmy Clements.

—Mrs. Lemke

THIRD GRADE NEWS

Ellen Waddingham was absent two days this week.

Ellen also brought her dental card to school Monday.

Wednesday afternoon we had a costume parade and a Halloween program Dean Neuberger and Marijane Baack won the prizes for the best costumes.

Mrs. Barkema

FOURTH GRADE NEWS

Last Wednesday afternoon we had our Haloween Party. The Third Grade judged Craig Wilson and William Evans as having the best costumes. We played three games and then passed the treats. Sharon Blau brought popcorn balls for the class.

This week we begun studying Holland in geography. We find this land interesting because it is lower than sea level.

Spiders are the main subject now in Science. We plan to make a small booklet about them.

—Miss Franken

SCHOOL NEWS
(This Week's)

KINDERGARTEN NEWS

This week we have been working very hard with our number game and most of us can count to five.

We have been reading and talking about Indians and we colored some big Indians that Miss Schiek put on the wall.

We got a new record that we can march to and we all like it very much.

We have learned two new songs this week. "Lazy Mary" and "Do You Know The Muffin Man?"

—Miss Schiek

FIRST GRADE NEWS

We have been studying signs of winter in our science class. Winter birds, snow, ice and shorter days are included.

We learned the poem, "The Little Elf," this week. We also wrote the poem to put in a poem book.

Julie Stokesbary returned her dental card on Friday.

Our room helpers this week were Vernon Jurgemeyer and Julie Stokesbary.

—Mrs. Brinkman

SECOND GRADE NEWS

This week the children made a Pilgrim scene for Thanksgiving. Jimmy Bock and Johnny Juhl brought their "Lincoln Logs" from home and constructed the log cabin, fence and covered wagons. Some of the other children made turkeys and pilgrim boys and girls.

Linda Meinders gave treats to the pupils this week as it was her birthday. Mrs. Meinders and Richard visited part of the afternoon.

—Mrs. Lemke

THIRD GRADE NEWS

Claudia Neuberger had a birthday this week and treated us to candy bars.

Billy DeMerritt was absent three days this week. Wayne Schlichting was absent Friday.

Thursday afternoon we took Reading Achievement tests.

We had a contest to see if boys or girls could remember to return their report cards first. This time the girls won. Next time the boys are hoping to do better.

Jerry Stokesbary returned his dental card Friday.

—Mrs. Barkema

FOURTH GRADE NEWS

This week our class began to make a Holland scene on our library table. We plan to finish it next week and hope many grades come in to see it. We are trying to do our best work.

Roxanne Back celebrated her birthday by bringing treats to class, Friday.

Roger Sobek has been absent all week because of illness. Jerry Hackett has not been in school for three days because of the flu.

Eight people received perfect scores in Spelling. They were: Donald Anderson, Candace Carlson, Shernyle Claubaugh, Lowell Greimann, Edna Heginger, Jo Anne Jacobs, Maurine Johnson and Gordon Lassahn.

JOLLY WORKERS CLUB MET AT GREEN'S

The Jolly Worker Club met at the home of Reike Green, October 10th with 20 members answering roll call, telling of an embarrassing moment. Nellie Ausborn passed out the Christmas cards. Lily Pearson told of a Home Extension Meeting to be held at Mrs. Brede's. She appointed Louise Pearson, Alvina Helps and Maude Bachman to go to this meeting and give the lesson at the November meeting. The lesson was on "Making Different Kinds of Bread and Rolls."

Edith Kramer is to give the Christmas party this year. Alvina Helps and Mildred Gruis are to help plan the Christmas dinner.

After the business meeting Nettie Roths had charge of the entertainment and we all enjoyed some interesting games.

The November meeting will be at the home of Dorothy Helps, with Marilyn Bachman as co-hostess.

Election of officers will be held. A lovely lunch was served by Reika Green, with Luella Boelman as co-hostess.

NEW CASES FILED

Cecil Jolliffe and Martha Jolliffe vs. Mr. and Mrs. Robert Ennen: Plaintiff as owners of E½ of NW¼, Sec. 9-97-25 claim unpaid cash rent in the amount of $245.00 and ask that attachment under landlord's lien issue against the property of Mr. and Mrs. Robert Ennen.

Stenseth Motor Company vs. Melvin Anderson. Stenseth asks judgement for balance due on unpaid gasoline and petroleum products account in the amount of $25.28, against Melvin Anderson.

DIVORCE GRANTED

Judge Tom Boynton granted a divorce to Lois Carmody of Garner from Roger W. Carmody of Charles City on November 12. The couple was married in Mason City on May 11, 1948. Divorce was granted on grounds of desertion and on grounds of cruel and inhuman treatment. Mrs. Carmody was awarded absolute care, custody and control of the minor child.

MARRIAGE LICENSES

Duane R. Floy, 23 and Ida DeWeerdt, 19, both of Garner.

Schools Now Exempt From Federal Admission Tax

Effective November 1, 1951, the Revenue Act of 1951 exempts public and parochial grade and high schools (But Not Colleges) from collecting Federal admissions tax on charges made for admittance to their athletic contests and entertainments.

The above mentioned exemption does not apply to charges made for admissions to movies, boxing wrestling matches, or carnivals, rodeos and circuses sponsored by such schools where paid professionals take part.

We Agree!

Ah-h-h butter — *plenty* of golden delicious butter — is back with us. It is bread's best companion. Good company, too, for other foods. Butter makes the difference between just eating and *something better!*

Butter accentuates the goodness of golden brown waffles . . . tempting baked potatoes . . . inviting vegetables . . . juicy steaks . . . piping hot biscuits. In baking too, butter makes cakes, cookies and pastry so much better.

Distinctive in flavor . . . rich in vitamins . . . high in energy — butter is beyond all duplication. Made from the pure cream of milk—nature's *best* in food—butter is one of the real things of life. *Only butter can be butter.*

SQUIRREL SEASON CLOSES NOVEMBER 15

One of the most successful squirrel hunting seasons for several years closes November 15th. Game officials are optimistic about carrying over of breeding populations. With an unusually heavy crop of acorns and nuts, squirrels are expected to have an "easy" winter with ample food available near suitable den sites. This will limit winter losses and guarantee a good spring breeding stock.

BOARD APPROVES BOND OF MAUDLIN CO.

The bond of Maudlin Construction Company of Webster City was approved by the Board of Supervisors on November 5, for the gravel surfacing of 30 miles of road in Hancock County at a contract price of $10,670.00.

12 Hancock Youths Go To International

Twelve Hancock county 4-H boys and leaders will attend the International Livestock Exposition at Chicago in November according to a report from County Extension Director Paul Henderson. The group will board the KGLO North Iowa fair train at Mason City at 10:45 p. m. on Thursday, November 22, and return to Mason City at 8:00 a. m. on Tuesday November 27.

The county 4-H leaders held a recent meeting at the Farm Bureau office at which time plans were made for the trip. The 1951 4-H program was reviewed and record books checked. Other topics discussed were: Awards night, 1951 enrollments and plans for future leaders meetings

Mrs. Dulmes Entertained U-Delt-Em Club Wednesday

Mrs. A H Dulmes was hostess to the U-Delt-Em Club at her home Wednesday, with Mrs. E. C. Buntenbach a guest.

High score was won by Mrs. Fred J. Arnold and second high by Mrs. Wm. Fuss.

A nice lunch was served during the games by the hostess.

Pheasant Hunters Report Good To Poor Shooting First Day

Sunday was the opening day on pheasants in North Iowa Hunters report good to no luck at all on opening day It was generally supposed North Iowa would have excellent hunting, but many hunters went home with no pheasants. A few reported getting their limit.

Either a large number of pheasants had moved out, or they were sticking very tightly to cover, of which there was plenty this year.

Award Contract For Drainage Ditch

Stille and Greiman, Garner drainage contractors, were awarded a contract by the Hancock county board of supervisors in session here this week for the construction of an additional tile line in lateral 3 of Hancock county drainage district No. 13. The improvement was petitioned for by George Klesel et al. The contract totals $2;578.16

Work on the project is to get under way immediately and be completed by December 15 (weather permitting). William Henschen has been named construction engineer on the project.

Birthday Club Meets

FORD'S THEATRE

Senator Young Wants Congress To Rehabilitate Ford's Theatre

WNU Washington Bureau

Senator Milton R. Young of North Dakota is again trying to get legislation through congress to rehabilitate historic Ford's Theatre in Washington, D C., where Abraham Lincoln was shot by John Wilkes Booth on April 14, 1865.

After an unsuccessful attempt in 1946, Senator Young recently introduced a joint resolution asking that the secretary of the interior be directed to prepare and submit an estimate of the cost of restoration. Estimates in the past have been as high as $500,000.

In his statement to congress, Senator Young said: "Each year, thousands upon thousands of visitors come to Washington, the most beautiful capital in the world, where they view with pride many magnificent monuments and edifices Unfortunately, most everyone who visits Ford's Theatre is disappointed because of its present state In sharp contrast to many well-preserved shrines, this one has degenerated to a point where a person must rely on his imagination almost completely to realize that it ever existed as a theatre "

Senator Young added that "through the ensuing years, little has been done to preserve this historic place. The property was acquired by the government shortly after the assassination and was utilized for a number of purposes of no historic significance."

The building now houses a museum, consisting of 750 relics of the life of Lincoln, bought by the government from Osborn H. Oldroyd, a native of Ohio and a collector of Lincoln articles, for $50,000 in 1926. There are footprints painted on the floor tracing the path of Booth as he ran across the stage and escaped through a rear door to his horse. A miniature has been constructed of the theatre as it looked that night, and is displayed as part of the museum collection.

In spite of all these efforts, however, the entire effect is a constant disappointment to more than 100,000 visitors annually who walk in and ask "Where's the theatre?"

After the assassination, guards were posted at the theatre and it was closed until the following June when it was restored to John T. Ford, the owner. Ford then tried to reopen the theatre, but met with such public disapproval that the War Department ordered it closed again. Ford threatened to sue, after which the government rented the building and then bought it for $100,000 in 1866.

The former theatre was then used for a government office building. Another tragedy occurred in 1893 when the three floors collapsed following excavation in the basement which weakened the structure. Twenty-two persons were killed and 68 injured. The building was restored the following year and was used for storage purposes. The present exhibit was opened to the public in 1932.

• • •

THE VISITOR is much more easily transported back through the years by viewing the house where Lincoln died, just across the street from Ford's Theatre. Its appearance today is substantially the same as it was in 1865. Originally the home of William Petersen, a Swedish tailor, it was built in 1849. Because the three-story house had more rooms than the family required, Petersen rented some of them. The room to which Lincoln was taken was then occupied by a young soldier. The Petersen house was later purchased by Mr. and Mrs. Louis Schade, who for many years were constantly asked by tourists for permission to view the room in which Lincoln died. Long before they sold the property, they had moved away and rented the house. The Government purchased the building from the Schade family in 1896.

The house where Lincoln died was refurnished in 1932 by several women's patriotic organizations following as nearly as possible a diagram made shortly after Lincoln's death. Several pieces of furniture were originally in the Lincoln home in Springfield, Ill. Both the exterior and the interior of the house have been so well restored that the appearance is very much the same as it was the night Lincoln was shot. The Petersen house was chosen as a place to carry the dying President because the doctor in attendance had asked that Lincoln be taken to the nearest house that had a light.

He had to be laid diagonally across the small bed, his extreme height not permitting any other position. A meeting of the cabinet was held in the back parlor, where Secretary of War Stanton began his investigation of the assassination. At 7:22 the next morning April 15, 1865 Lincoln died whereupon Secretary Stanton voiced the historic words: "Now he belongs to the ages."

Star Dust

STAGE—SCREEN—RADIO

By INEZ GERHARD

GEORGIE PRICE has come a long way since, as a child, he toured the country with a Gus Edwards unit that included Eddie Cantor and Walter Winchell. He became a stage star, a top radio comedian, then abandoned both for Wall Street; he still works there days, as senior partner of a brokerage firm. In his new radio show, "Big Time," on the CBS Radio Network, he returns to the 1900-1930 period, bringing back the songs which vaudeville made famous. Also, each week he will sing a novelty number made famous in the manner of the person who sang it.

EDDIE CANTOR

Eddie Cantor's new NBC show, Sundays, "Eddie Cantor—Show Business", is somewhat similar. He dips into his experiences in 42 years of show business to relate incidents about the people he has known, with recordings of famous voices and songs taken from his private collection of nearly 50,000 records.

THE FICTION CORNER

PERSONAL SYSTEM

By Richard Hill Wilkinson

JEFF CHAPPELL was dumb. He was a big, burly lad. You couldn't help liking him. But he was dumb.

I was assistant coach that fall at Redfield and I had all I could do to keep Jeff in the first string varsity. Head Coach Charlie Judd was impatient about it.

3-Minute Fiction

"There's no place on this team for a guy who can't remember signals," Charlie said. "We can't afford to take the chance. If you and I are going to keep our jobs we've got to chalk up a few scores—after last year's record."

"He's the best halfback I've ever seen work," I argued. "You'll make a mistake dropping him. "He's our big hope for this year."

Charlie consented to let Jeff play in the first three games. After the third he came stomping into my room, his face black. "Well," he he snorted, "what you got to say now? Your friend lost today's game. He lost it because he got his signals twisted in the last quarter."

"But how about the first two games?" I asked. "It was that same boy that turned defeat into victory for us. Two to one isn't bad, Charlie. It's better than any of those other lugs are doing."

"Nuts!" said Charlie.

But when Charlie thought it over he agreed. He was still pretty sore. Any kid who couldn't absorb a set of simple signals ought to have something done about him.

I tried to do it. I got Jeff up to my room nights. We went over and over the signals.

The next Saturday we played Herrick, and beat them easily. Or Jeff Chappell beat them. You

Uncannily, Jeff, a lone figure, was there to stop him.

couldn't stop the boy. The victory gave us a lift, but behind it there was always that haunting fear that next Saturday or the next or the next, the kid would go haywire and start running in the wrong direction, or something.

Charlie and I held our breaths all fall. Figuratively, of course.

NOVEMBER came around and time for the all-important Hubbard fracas. Hubbard was our traditional enemy Beating them was all that was necessary to make the season complete.

Two days before the game Charlie came up to my room. "If we win Saturday," he said, "we won't have to worry about being in solid." He looked thoughtful. I knew what he was thinking.

"If you don't let the kid play we won't have a chance," I said.

"There's a bare hope of winning without him." Charlie scratched his chin. "If I put him in there's always a chance——"

"The kid's got the signals down pat," I said quickly. "He's proved it. You know as well as I that without Jeff Chappell we're licked."

Charlie wasn't sure. You could see he was scared stiff. He wanted assurance, and I gave it to him. My confidence in the kid settled the thing in Charlie's mind. He agreed to play Chappell. Despite our record and the fact that we had Jeff Chappell the odds were on Hubbard. Hubbard had a clean record. Their victories had been won by big margins

The first quarter and the second ended with no score. In the third, the Hubbard fullback snaked through our line and sprinted 30 yards for a touchdown. They failed to kick the point.

In the fourth the Hubbard left half came around right end on a trick play. Our whole backfield was fooled. All except Jeff Chappell. Uncannily Jeff, a lone figure, was there to stop him. That gave us the ball. We made three yards in three downs, and then, instead of booting, Cole, our quarter, gave Jeff Chappell the ball and Jeff made as pretty a run as you'd ever seen anywhere. Cole kicked the extra point. A minute later the whistle blew.

After it was over I got Jeff up into my room. "Listen," I said, "how about it? That trick play of Hubbard's was a corker. How come it didn't fool you, too?"

He grinned sheepishly. After awhile I got the story. Jeff never did get the signals straight, but he discovered a system all his own. He'd watch the toes of the opposing players. If the play was going left, the majority of toes would point that way. Instinctively. And the same applied to our boys. It never failed. Jeff said he'd heard something like that on the radio.

I never told Charlie.

KATHLEEN NORRIS

America's Fault?

SOMETIMES I get a letter that makes me angry. It may be written quite innocently and in good faith, but the effect of it is to make me say to the writer: "Why don't you go play in your own backyard?"

Such a letter lies on my desk today. It is signed by a woman who lives in Philadelphia; both she and her husband are foreign-born, but came to this country as small children.

"If this is the finest country in the world, we don't see it," says the letter. "We would certainly go back to our own country if we could afford it. But salaries there are very low and there is no work for women or girls. Here my husband makes about $138 a week, and I am paid $35 a week for night work as chambermaid in a hotel. We have seven children, and live in a five-room apartment which does not, naturally, allow for comfortable living. My two older boys have a paper route that pays them well, and my husband is very thrifty, we are saving money, although giving the children a television last Christmas and in other ways trying to make up to them for crowded quarters. Rents are high and space scarce everywhere.

Impudent Child

"My problem is our oldest child, Bev, who is 15. She has been acting with great independence lately, and has come home late on three occasions, smelling of liquor and

". . . is pretty enough . . ."

cigarettes, and saying that she could not remember where she had been. She is in first year high, does well, is pretty enough, and liked by her classmates. Her father whips her, but it seems to have no effect. His desire is that she stay home, as I am absent from 5 to 11 p m. daily, get dinner and keep an eye on the younger children, so the boys can get their papers delivered. But she is impudent, and says she will run away. She has lately been offered a job as ticket clerk in a movie, after school hours, but we forbid her taking it.

"I cannot myself see what is so great about a country," Marta's letter continues, "in which the young people have so much freedom for dangerous associates. At home girls are obedient and make themselves useful in the house. Here it is all cigarettes, lipstick, permanents, boys and running the streets. A lady came here recently to tell me that Bev would be put into a school for girls, a kind of institution, if she was seen again with certain men. Am I to blame if in our neighborhood these dangers exist? What argument can we use to save our girl from ruining her own life?"

As I say, this letter makes me mad. I often get mad these days at parents who do as they please, live their own lives, neglect their families in body, soul and mind, and look calmly to America to educate, amuse, instruct, train and discipline their children for them.

Absent Mother

Seven children packed into five rooms, through Pennsylvania's burning summers and freezing winters; mother gone all through the afternoon and evening hours, father coming home tired and work-stained to find a rebellious 15-year-old child trying to control younger children, boys made to gulp their dinners and get away, and little Bev, hungry for her own share of this money-making and freedom, for the delights of the lighted streets and the crowds and the cokes and sodas and flickers, is expected to spend her evenings washing dishes, cleaning rooms, and getting small children to bed.

Years ago this mother should have gotten her brood away from the city. When a man and a woman are responsible for seven other human beings they have to make changes and sacrifices. These people should have found some rambling old deserted place in the shabby outskirts of the city, made sure there was a spacious backyard, and devoted themselves to becoming a family, and not a group of detached money-makers. Don't write me, Marta, that there are no such places; there are hundreds of them.

Modern plumbing, electric light, washing machine, double garage, television included? Of course not! But neither have any of the villages of the European country from which Marta and her husband came any of these things. Marta's ancestors worked hard to gain the comforts of family life, but they never heard of such luxuries, nor of cokes and movies, cars and corner drugstores. They never heard of free schools whose curriculum included gyms, musical training, organized play, theatricals, swimming pools, medical and dental inspection.

GRASSROOTS

President Truman Will Be Hard To Beat in 1952

By Wright A. Patterson

JONATHAN DANIELS, the editor of the Raleigh, S. C. Chronicle, a friend of President Truman, a one time employee in the White House, says in the August American Magazine that Harry S. Truman will be the Democratic nominee for President next year, and gives a number of reasons why he will be elected. No one of his reasons are as potent as the one that he fails to mention.

That is the assured Truman vote of the Democratic army of bureaucrats, now numbering 2,300,000, and their relatives and friends, who want to see them hold onto their federal government jobs. In the days of Tammany control of New York city, the sachems claimed that each job was good for eight Tammany votes in any city election, and frequently demonstrated the correctness of that claim. But should each bureaucratic job be good for only half of that number, four votes, there, for the President to start with, is more than eight million votes, and that is some handicap for any Republican nominee to overcome.

Especially so, when the party is only against what the opposition has done, but for nothing with which to appeal for votes, while the Democratic party stands for a definite, and well defined program. That program is one reason for the Daniels assurance of Truman success.

The Republicans can take full credit for that 8,000,000 vote handicap they must overcome if their candidate is to win. In the 80th congresss, they had a majority in both houses of congress, and might have forced the disbanding of that bureaucratic army by not appropriating money to pay it, but they did not do so, and now they must face the consequences.

That army will be larger, rather than less, when the 1952 election day arrives. For each new job there will be, at least, four more Truman votes. I would say that betting against the President is in no sense a sure win. A California state official, a Republican, said to me recently: "Unless Warren is the Republican nominee, the state will be in the Truman column."

It hardly seems probable, but Daniels could be right. Anyway let's wait until the votes are counted.

—o—

The people and state officials of California think it is quite proper for the federal government to spend billions in building dams, irrigating land and preventing floods in California, from which only the people of California benefit, but they seriously object to the same procedure in Arizona.

The central valley project of California, is as much a state project as is the central Arizona project. The one difference is the smaller cost in California. Neither project will benefit any one outside of the state in which the money is spent.

But it is the tax-payers in all the states who will pay the bill for both, and the people of both states eventually will sacrifice much of their local sovereignty through accepting and using the billions the federal government pours into such projects.

For those states it means the death of constitutional state's rights. Congress should stop all such appropriations, other than those that can be self liquidating over a reasonable number of years. The Hoover dam in the Colorado river, while benefitting in one way or another five states and though built with government money, was not a gift.

The cost is being returned to the federal treasury, and within a reasonable number of years it will all be paid, plus interest. Others should be financed in the same way, including the central Arizona project, but the wealthy land owners are like all the other indigents who want their water supplied to them at no cost.

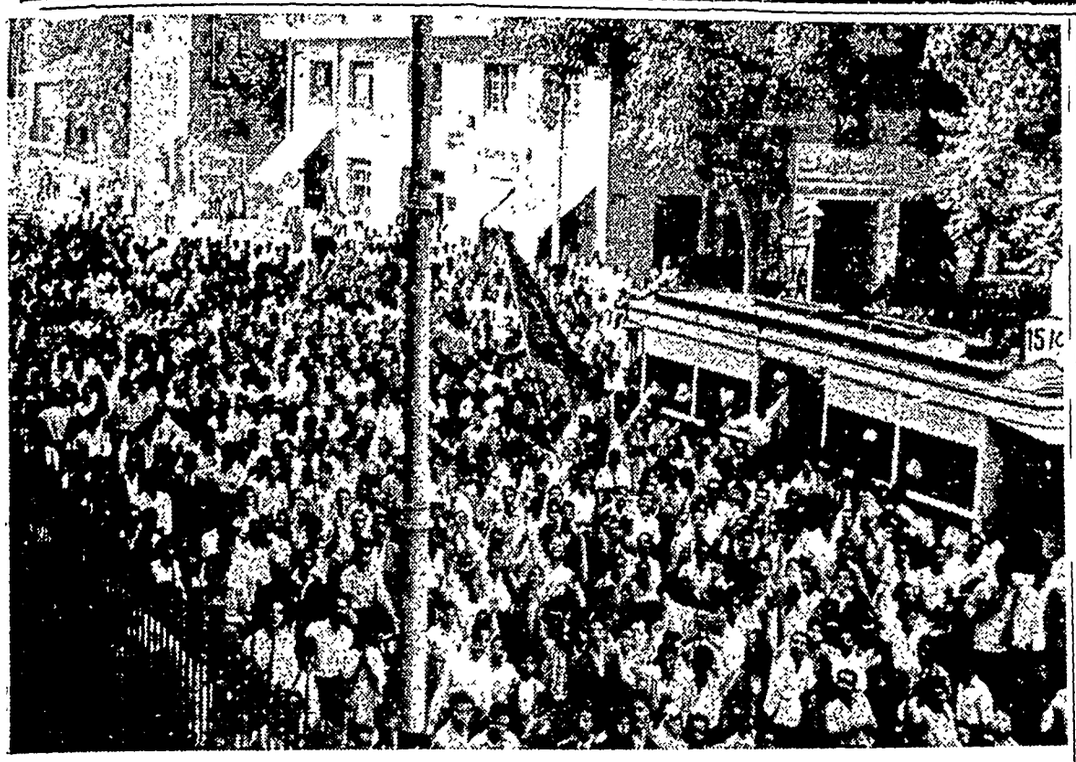
NEXT TIME YOU GO AWAY

Notice how much you miss the old home town, your friends and neighbors. And then, how happy you are to come back again! Our town is a great place to live!

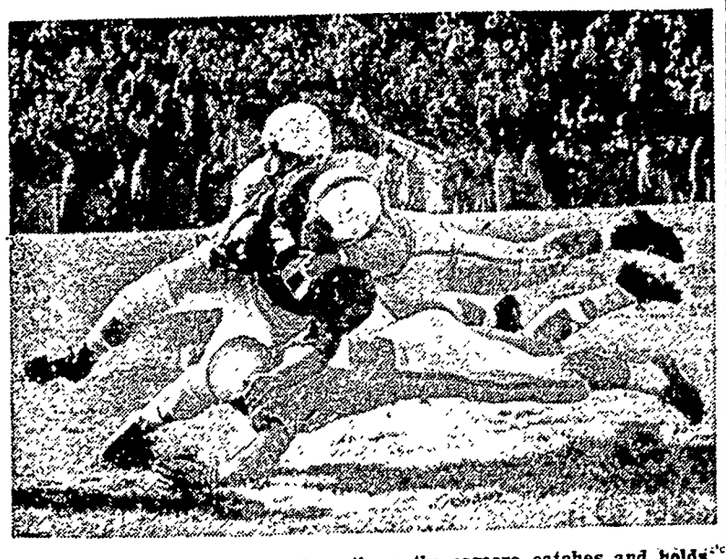


ANTI-BRITISH DEMONSTRATION IN CAIRO . . . This throng of Egyptians is taking part in one of the demonstrations touched off by the demand of Premier Nahas Pasha of Egypt that parliament abrogate the 1936 treaty with Great Britain and take over the Sudan. Parliament acceded to his demand. The crowd shouted for the ouster of British troops from the Suez canal zone and rioted briefly in front of the British embassy. Egypt refused a full partnership in an allied middle east command with Britain, France, Turkey, and the United States. Britain later isolated the Suez canal zone from the rest of Egypt and divided Egypt's army.

KOREAN POWS HOLD SERVICES . . . Chinese and North Communist prisoners of war voluntarily attend a camp religious service conducted by Chaplain Harold Voelkel, a former missionary in Korea (right, with book), in Pusan, Korea. Many of the prisoners, including Christians who had been forced into the Communist armies, have even built their own churches. Christian services, conducted in Korean and Chinese tongues, consist chiefly of morning prayer meetings. Non-Christian POWS are encouraged to hold services in their own rites by the chaplains of the United Nations forces and some have done so.

TOO LATE . . . Medical aid arrives too late to save life of an American soldier of the first cavalry division who lies dead on a stretcher somewhere on the Western Korean war front. Medical corpsmen are attaching the tag to the dead soldier's clothing that reads "killed in action." Identity will be made and a study of how he met his death, and his nearest of kin will be notified. He will be buried either in a military cemetery in Korea or the remains will be sent home.

WHING DING . . . 1952 swim suit styles were introduced at the beach at Santa Monica recently. Models were all set to smile prettily while displaying suits called "whing ding" when a whing ding of waves came along to wet them.



SUSPENDED ACTION . . . Sometimes the camera catches and holds a play in sports which the naked eye is incapable of appreciating. This unusual photo was snapped in the first quarter at Baker field recently as Yale's Arthur Martin (40) was stopped by Columbia's Robert Schwegler and (bottom) Robert McCullough. At the moment the camera clicked, the runner and both tacklers in the action were off the ground. Martin gained five yards on the play.

THREATENED . . . Concert singer Ruth Swain has filed suit for $35,000 against lyricist Otto Hoffman in New York charging that he threatened "to subject me to involuntary flagellation" with a riding whip. He denies this.

Football Loses Stars to Diamond

By GRANTLAND RICE

AS A RULE most good baseball players in college give up football to hang on with the so-called national pastime.

Joe Gordon at Oregon was a star football player, one of the best. He gave up football for baseball.

Greasy Neale offered Al Dark a big check to play football for his Eagles. Dark turned the offer down. He took less pay for baseball.

Theodore Barnard Kluszewski, star football player from Indiana, one of the game's best, had any number of pro football offers. He went with Cincinnati's Reds where he is doing quite well.

So did Lloyd Merriman of Stanford, one of the best on the West Coast, who also quit football to play baseball with the Reds. But I have an opposite case. This is the story of a great looking young pitcher who was offered a bonus of $100,000 to play baseball, but who happened to like football better. He turned down ten fabulous big-league offers to go to Minnesota and throw passes for the Gophers.

Grantland Rice

"I'll tell you about Paul Giel," writes a former Minnesota backfield mat Giel is the hero of this romance. "In my opinion he might be better than Mathewson, Alexander, Johnson or Cy Young. He is the greatest looking kid pitcher I ever saw. He is big, strong, with fine speed, control and a fine curve.

"How good is he? Before entering Minnesota at the age of 19 he pitched six consecutive no-hit games at high schools and much tougher spots. In these six games he averaged 22 strikeouts a game. I know of at least ten big-league scouts who have been on his trail. I know of several fabulous offers he has received. He has everything a great pitcher needs. I still feel he might be the greatest of them all. But he has one weakness. He likes football better than baseball. He would rather play football for nothing than baseball for $40,000 a year. I mean this. As a freshman he threw three touchdown passes against Minnesota's varsity. But I still wish he had gone in for baseball. He would have made all of these other bonus kids look like nothing."

• • •

More About Giel

I followed young Giel this fall. I knew he was with a green, rather ragged outfit. Minnesota is now in what they call the rebuilding stage, with Bernie Bierman out and Wes Fesler in.

Yet with this faulty support Giel threw two or three touchdown passes against Washington, a far better outfit. He was the star of the day. So he can't be all dream—all fantasy.

George Rogers, an old Minnesota star, rates Giel the best pitching prospect he ever saw. And Rogers has seen his share.

But that isn't the odd part. The odd part is that while most college football players are on college payrolls — where the good baseball players are ducking football jobs —this young sophomore Giel is turning down more money than Curt Simmons or Wakefield ever got, to play football for nothing at all—except the fun of it. It has been so long since I've seen or heard of an amateur doing something for fun when he could get money for some other game that Paul Giel's case seems out of the ordinary.

It will be interesting to see what happens to him as a baseball pitcher after he finishes his football career.

• • •

Saving Football

If football is to be modified and possibly saved from almost complete destruction we believe that Chancellor Harvie Branscomb of Vanderbilt University has most of the correct answers.

1. Reduction of time demanded of the college football player, specifically elimination of spring practice.

2. Elimination of bowl games because they place such extraordinary premiums upon winning.

3. Reduction in the number of football scholarships to a point where the athletic budget no longer is a major financial risk.

4 Limitation of intercollegiate competition to bona fide college students and planning of physical education courses, when offered, from the standpoint of the student's future rather than from the standpoint of getting and keeping athletes in school.

5. Elimination of unlimited substitutions that resulted in a boy's being trained for one play or one type of play and in specialization.

6. Elimination of special funds for current athletic support, whether contributed by race tracks, downtown quarterback clubs or alumni.

For example, there is no real reason for the terrific cost of football today. We know of several well-known colleges that finished over $100,000 in the hole last season. Others tell us it takes around $250,000 to run a football program.

When a college requires double platoons and such, and hands out over a hundred scholarships, the cost runs high.

It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE —NOT GOOD FOOD

• Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!
Doctors say that many other laxatives start their "flushing" action too soon . . . right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.
But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.
FEEN-A-MINT FAMOUS CHEWING-GUM LAXATIVE

MARTIN BARZ, Manager KLEMME, IOWA

Visiting around Iowa

by Joe Marsh

Widening Iowa's Roads

With all this new road work going on in Iowa, I suppose you've been a bit put out, sometimes, just as I have.

Detours, watchmen holding up traffic, long lines of cars with no chance to pass . . . yes, it's aggravating.

But when those new, wider roads are opened, we'll forget the inconvenience, and there'll be fewer traffic accidents, too.

Narrow roads, like narrow-minded people, just naturally make for trouble. You've seen a stubborn driver on a narrow road holding up traffic, keeping you from passing, showing his cussedness in a dozen ways.

And, in his home town, he's the same way. Usually he lectures you about how to eat, what to drink, what's wrong with your neighbors, and a thousand other trifling things. That's why folks give him a wide berth, whether at home or on the highway.

Yes, happy communities are made by broadminded people. There are fewer accidents on broad highways, and fewer troubles in a broad minded town.

Joe Marsh

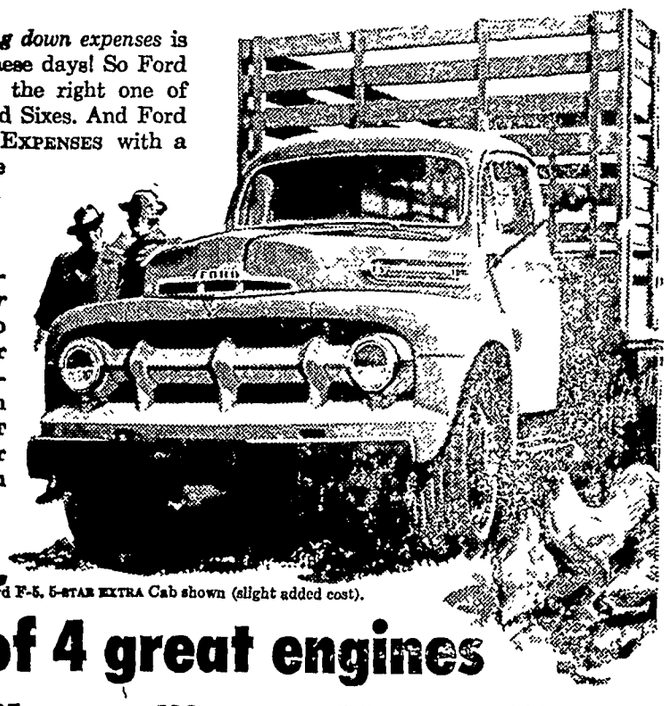
Joe Marsh, Copyrighted, U. S. Brewers Foundation

Whatever your load, there's a FORD POWER CHOICE for it!

And whatever your load, *holding down expenses* is one of your biggest problems these days! So Ford takes care of your LOAD with the right one of *four* truck engines . . . V-8's and Sixes. And Ford takes care of your RUNNING EXPENSES with a wealth of economy features, like the famous POWER PILOT. . . .

MOST POWER, LEAST GAS!

The POWER PILOT is a fully-proven way of getting *most power* from *least gas!* It's designed to fire gas *twice* as accurately—under all conditions! The 50-million-mile Ford Truck Economy Run *showed* what the POWER PILOT can do. Let your Ford Dealer show you how Ford Trucks can save you money every mile!



Try taller in the heavy duty field!... the Ford F-5, 5-STAR EXTRA Cab shown (slight added cost).

...with one of 4 great engines

95-H.P. SIX ...top performance at low cost! High turbulence Power Dome combustion. On all Ford engines: chrome-plated top rings . . . and the POWER PILOT!

100-H.P. V-8 ...most service-proved engine in trucking! A smooth hustler on every job. Like all Ford engines, has new auto-thermic pistons ..and the POWER PILOT!

110-H.P. SIX . . . big reserves of power for tough jobs! Gives you a 3-engine choice in F-6 Heavies! In all Ford engines new Free-Turn valves . . . and the POWER PILOT!

145-H.P. V-8 ...the BIG JOB engine, mightiest Ford has ever built! Setting economy records! Like all Ford, engines has new high-lift camshaft . . . and the POWER PILOT

FORD trucking costs less because Ford Trucks Last Longer!

Lifting latest registration data on 7,314,000 trucks, life insurance experts prove Ford Trucks last longer!

Christmas Decorations And Displays In Klemme Soon

CHRISTMAS SHOPPING WILL BEGIN IN KLEMME THIS WEEK

In trend with modern ideas of merchandising,, most of the Klemme stores are getting their Christmas merchandise on display for right after Thanksgiving Day.

Klemme's Christmas street lighting committee plans to have the colored lights up soon and several of the stores are getting their displays ready for the holiday display of gifts.

Klemme merchants have a nice line of gifts for men, boys, women and girls and they are moderately priced compared to city prices. The line of toys will be larger than ever this year. Some of the stores are featuring gifts for the home . . . gifts that every member of the family will enjoy all year 'round. There are many nice, useful individual gifts being shown; items of wear, etc.

Shop early, shop in Klemme and save both time gasoline and money.

EXPECT SAME HOG PRICES NEXT YEAR

Parallel In All Phases Of Swine Enterprise Seen

Iowa's swine producers and feeders can expect 1952 to about parallel 1951 as far as the hog business is concerned, according to Francis Kutish, extension economist at Iowa State College.

Bigger Slaughter

Kutish believes hog slaughter during the first 7 or 8 months of next year will run ahead of that during the same time in 1951, reflecting the larger 1951 pig crops. But 1952 farrowings will be lower than they were this year, he says.

The Bureau of Agriculture Economics figures that the overall price for hogs in 1952 will average about the same as in 1951, according to Kutish And if hog price ceilings stay in their present form, economists in the bureau think they will continue to restrict prices only at times of smallest hog marketings, he adds.

Normal Hog-Corn Ratio

The hog-corn ratio of 1952 will be about normal, Kutish forecasts, with the ratio during the winter of next year depending on the 1952 corn crop. A good corn crop next season should improve the feeding ratio, but another crop like this year's would make it less favorable.

Hog production has gone up rapidly since the end of World War II. But we are now at the end of this rise— unless feed output is boosted further. The farmers have fed up more corn than they raised for the last 2 years.

KLEMME, HAYFIELD SPLIT DOUBLEHEADER

Klemme and Hayfield split a doubleheader here Friday night. Klemme won the girls game 25-17 with Iris Schaefer scoring 13 points. Grozik topped the Hayfield team with 9. Hayfield squeezed out a 34-31 win in the boys tilt. Ronald Karsjens of Klemme was high point man with 14 while Nedved had 10 for Hayfield.

Mrs. George Schoenwetter Had Birthday Party Friday

Mrs. George Schoenwetter had a birthday Friday and to celebrate the event she entertained 14 members and guests of the Birthday Club at her home in the afternoon. Games were played after which the ladies enjoyed a nice lunch. Mrs. Schoenwetter received some nice gifts from the ladies.

ALL STAR GIRLS BASKET BALL TEAM BEAT THE LEGIONAIRES

The game between Helen Walker's Arkansas Travelers and a Klemme Legionaire team playing at the Klemme gymn Thursday night brought out a large crowd.

The girls put on a real exibition of shooting, passing and floor work that was really marvelous.

Playing for Klemme was Kilgore, Cappon, Red Schmidt, G. Brinkman, B. Brinkman Cal Josten & Pearson Pleying for Walker were Jones, Johnson, Mullins, Garroute, Arends of Kamrar, Iowa and White. Miss Walker, the manager became ill suddenly and was hospitalized at Jewell where the girls played on Wednesday evening. One of the other team members also stayed at Jewell with Miss Walker.

Klemme lead at the end of the first quarter 12-10 and the girls were in front 24-23 at the half. They also lead at the third quarter 24-30 and won 48-36.

Klemme Officer Commented For Alertness

Henry Smid, Klemme policeman was commended by the Iowa Department of Public Safety for his alertness.

An out of town driver was stopped for a minor traffic violation and the driver was asked to show his license. He had left it at home and was given 24 hours time to produce it, which he later did.

The payoff was that the gentleman stopped was an official of the Department of Public Safety!

Was his face red!!

BY RAY EASTMAN

The big laugh, the big slap on the back, the bone-crushing handshake - that was Jay Emerson. Big, everything about him, big, bluff and, sometimes, a little brutal when he was carried away with his own strength.

But Jay was liked, for the most part. People know there was a wild sort of kindness in that giant frame an intense desire to be a well-loved man, and they responded to it.

Jay was traveling salesman. The sight of him shoving through a door with his sample cases, the sound of his booming voice in the lobby, were familiar to a dozen clerks in small hotels in small Iowa towns.

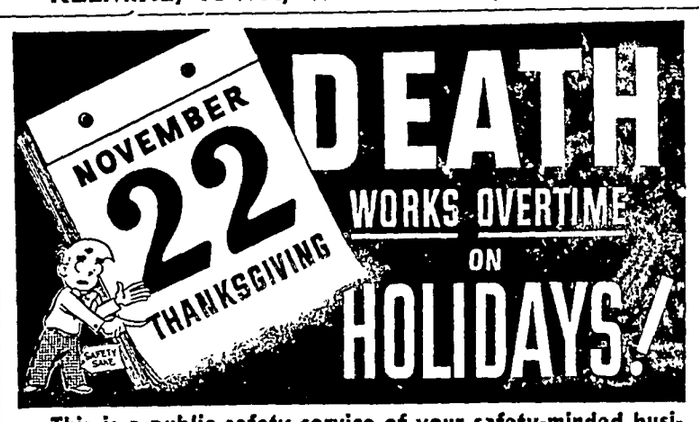
The clerk in a northeast Iowa hotel was the last to talk to Jay. "That night was the first time I ever saw him look tired," the clerk remembers. "He was even a little nervous and Jay was never a jumpy sort. Told me he'd had a hard day and still 200 miles to drive.

"I tried to get him to stay over. Not just for business. He needed rest."

A motorist saw another part of the story. "I followed his business coupe for about ten miles. Twice it went off the road and a couple times clear to the wrong side. I was afraid to pass because I thought he was drunk. I saw his head keep falling forward."

Twenty minutes later a highway patrolman looked at Jay and said. "A big man like that is hard to get out of a wreck. But I guess there's no hurry now."

Fatigue, the quiet killer, the quiet, persistant killer of big men and small, of strong men and weak.



This is a public safety service of your safety-minded businesses and this newspaper in cooperation with the Iowa Safety Congress.

Now comes the season of good cheer, of family reunion and multiplied death. Thanksgiving traditionally opens the winter holiday season with joyous climax in Christmas and New Year; its jarring climax in increased auto crashes.

Crowded streets, hurried drivers, bundled pedestrians and bad weather will all mix into a thicker, tricker traffic situation as the holidays approach.

Death works full and fatal hours under these conditions. Death works overtime on holidays.

When you drive, when you walk, work as hard for your own safety as you do for a living. During these days of festive preparation, death will be working overtime against you.

When families gather, when there's heavy, holiday cooking in the kitchen, when the crowd of young cousins is turned out in the yard to play, be on guard. Death moves in on carefree gatherings.

Death works overtime on holidays. Don't you pay the bill.

IOWA WILL PRODUCE 26 MILLION HOGS

Iowa farmers will produce close to 26 million hogs this year, according to projected estimates of the U. S. Department of Agriculture, constituting an income of about $1 billion.

Iowa produces over 20 percent of the nation's total swine crop, which is expected to top 106 million head this year. Hogs rank as the number one cash farm crop in this state, bringing in 36.9 per cent of the total farm income.

This year's huge hog crop is expected to be the nation's second largest on record. Probably an important factor in the current rise in hog production is the use of the antibiotic feed supplements. The reports from farmers in this and other Midwestern states prove that among herds fed an aureomycin-vitamine B12 supplement, mortality is decreased, growth is more rapid and less feed is consumed up to sell-off time.

Iowa's 1940 hog crop was 27 per cent of the state's total farm income, while the 1930 crop brought 39 per cent of the total.

Sugarbeet Harvest Finished In Hancock

The sugar beet harvest in Hancock county has been completed and the beet dumps have been closed for the year. The cold weather delayed the harvest as is has the harvesting of corn and soybeans.

Wet corn is presenting a major problem for farmers. Unless the winter is more favorable than usual for drying corn in the cribs more of the crop will have to be moved during the winter months than in previous years. Yield and quality are not up to earlier expectations.

ASSISTED

When officers captured two runaway teen-age youths in a cornfield near Grinnell recently, flyers Wayne Estal and Len Halstead were credited with a major assist. They spotted the boys in a corn field and kept circling over them as the posse closed in.

JR. HI. BASKETBALL OPENED NOVEMBER 14

The Klemme J. High under coach Bob Juhl opened their basketball season November 14 at Goodell.

The "Rockettes" were fielding a line up of veterans in the forward positions in the name of Jo Ellen Clabaugh, Shirley Barz and Carol Bridges plus a newcomer Barbara Thompson who will see a lot of action.

The guard posts will consist of Gracka Gerardi, Margaret Haefner and Fonda Bier, Adeline Medaus, or Ione Rosendahl who is one of our forwards. We have about 18 girls out for practice.

"Coach" Juhl's "Rockets are an entirely new team this year with the exception of Dennis Haefner, Donald Kramer and Martin Brinkman who played some last year.

The starting lineup for our first game was Donald Kramer and Martin Brinkman at forwards, Dennis Haefner center and Douglas Jones, Dave Waddingham, Butch Terhufen and Bob Larson at guards.

There are about 15 boys out for the team.

Our schedule is as follows.

Nov.	14 Goodell	T	3:30
	21 Kanawha	H	7:00
	26 Crystal Lake	T	7:00
Dec.	5 Hayfield	H	7.00
	10 Goodell	H	3:30
	17 Hayfield	T	7:00
Jan.	3 Thornton	T	4:00
	7 Ventura	T	3:30
	17 Crystal Lake	H	7:00
	21 Thornton	H	4:00
Feb.	2 Corwith	T	1.30
	6 Kanawha	T	7:00
	11 Ventura	H	3:30
	18 or 20 OPEN		
	23 Corwith	H	1:30

There will be a boys county tournament and a girls county tournament.

Be sure to come out and support your future champions at all the home games.

Klemme EVANGELICAL AND REFORMED CHURCH

Rev. Vernon E. Jaberg, Pastor

The first Christmas program rehearsal will be held on Sunday, December 2.

AUTO DAMAGE SUIT SET FOR TRIAL TUESDAY

The case of Martin L. Stokes vs. Calvin Josten and Ewald Josten, in which the plaintiff seeks judgement in the sum of $486 46, because of damages sustained in an automobile collision in Klemme October 26, 1950, is scheduled for jury trial in the Hancock county district court Tuesday of this week.

Plaintiff alleges that the vehicle he was driving collided with one driven by Calvin Josten, which was owned by Ewald Josten and driven with his consent, on an intersection in the town of Klemme and seeks judgement in the sum of $486.46, with interest and costs.

Bryant and Bryant, Mason City law firm are attorneys for the plaintiff and Senneff and Buck, Britt law firm, are attorneys for the defendants.

Additional jurors selected to augment the panel selected earlier the: Betty Kern, Garner; Caroline Klook, Garner; Lenabelle Bock, Garner; Myrtle Schneider, Garner; H. H. Stewart, Kanawha; Kenneth Sabin, Kanawha; Albert Vander Ploeg, Kanawha; F. D. Reibsamen, Britt; Don Butz, Garner; Mrs. Al Driste, Britt; Bess Jacobson, Britt; Mrs. Carl Frick, Britt; John Pritchard, Britt; and Mildred Johnson, Kanawha.

FORMER KLEMME BARBER DIED AT LOS ANGELES FRIDAY

G. P. "Zip" McCullough died at a Los Angeles hospital Friday following a major operation earlier Funeral services for Mr. McCullough were held at Los Angeles on Tuesday.

Mr McCullough was a barber in Klemme for several years and is well known here. Mr. and Mrs. McCullough resided at 1159 West 39th Street, Los Angles 37, California.

Mr. McCullough left Klemme about 20 years ago and was a State Inspector in California.

OVER FORTY SINGERS TAKING PART IN COMMUNITY CANTATA

Will Rehearse Tonight At The E. & R. Church, More Singers Wanted

The Community Chorus will rehearse tonight, Wednesday, at the Klemme Evangelical and Reformed Church at 7:30 o'clock.

Last week some over forty singers were present for the rehearsal. Any others who would like to take part are invited to attend rehearsals for the Christmas cantata, "Chimes of the Holy Night," which will be given in the Klemme high school auditorium on Sunday evening, December 23.

Liberty Society To Meet

The Liberty WSCS Executive Committee will be held on Friday afternoon at 2:00 o'clock at the home of Mrs. Kenneth Zwald.

Methodist Ladies Bazaar Was A Good Success

The ladies of the Methodist Church had a good day Thursday when their bazaar and sale of lunches brought them about $360.00. They sold merchandise and lunches throughout the afternoon and evening.

They wish to thank all who helped and all who patronized them.

KLEMME STORES WILL BE CLOSED THANKSGIVING

Klemme business places will observe Thanksgiving Day, Thursday, November 24 by being closed on that day. Business places will be closed Wednesday evening until Friday morning. Klemme Schools will be dismissed on Wednesday afternoon until Monday morning in order to allow teachers to spend Thanksgiving and the week end at their respective homes.

Over Million Dollars Tax Collected By Roy McMillin

EMIL BLUMER IN HOSPITAL FOLLOWING FARM ACCIDENT

Emil Blumer is a patient at the Mercy hospital following a farm accident Thursday afternoon.

Emil Blumer and Carol Brager were working with corn. Brager was about to pull a wagon load of corn with a tractor when Mr. Blumer was stepping on the wagon tongue to get into the wagon box. Mr. Blumer slipped and fell to the ground and one of the rubber-tired wheels passed over his chest.

Mr. Blumer was taken to the Mercy hospital. X-rays showed no broken bones but he was bruised and possibly had internal injuries. At the time of going to press Mr. Blumer's condition was reported good.

Legion Auxiliary Met Tuesday November 13

Tuesday evening, November 13, the American Legion Auxiliary met in the Council Room with Flora Back presiding.

It was voted to have the meetings during the winter months in the afternoon. The next meeting will be at the home of Flora Back on December 4 at 2:00 p. m. It will be the annual Christmas Party with each member bringing a 50c gift for exchange.

KLEMME YOUTHS TO BREAKFAST AT REFORMED CHURCH

The young people of the churches in the community will be guests of the young people's group of the Klemme Evangelical and Reformed Church this Thursday morning at 7:00 a. m.

By E. D. PLASS, M. D.

(winner of the 1951 Iowa ACS bronze metal for his outstanding contributions to cancer control.)

Is It Ever Safe To Say That A Patient With Cancer Has Been "Cured?"

While many cancers are certainly "cured" when proper surgical or radiation treatment is employed early, the cautious cancerologist prefers to speak of "control" rather than "cure." Experience has shown that if a cancer does not reappear within five years after treatment it is unlikely ever to show itself again. Consequently, cancer statistics usually deal with "five-year cures" of preferrably with "five-year controls," and the effectiveness of different forms of therapy is evaluated on that basis.

In rare instances cancers have reappeared at the orginal site ten or even 20 years after treatment. Such cases lead to hesitation in speaking of "cures." Whether the reappearence of the cancer indicates a recurrence or the development of a new malignant growth, the fact remains that the orginal treatment prevented the individuals death within two to five years and has therefore justified itself.

In a philosophy vein, it may be argued that medical treatments never "save life" although they do frequently "postpone death." In an almost certainly fatal disease like untreated cancer it then becomes a minor medical triumph to add some years to a sufferer's life even though "cure" has not been achieved.

For answers to cancer questions write American Cancer Society, Mason City, Iowa

REPORT OF ROY McMILLIN, CO. TREASURER FOR HANCOCK CO.

Total Tax Collections Alone Amount To $1,191,690.00

We have about finished collection of Tax for the year 1951 and our per cent of collections to November 15 show 100.39%. this is caused by the additional tax that we have added to the year total after they were handed to us for collection.

We do have a number of personal taxes that are still unpaid and we hope to get these in before the first of the year.

The Homestead exemptions allowed for the year are some higher than before as they are always figured on the valuation of the homes in the county and this has been increased, and we do have a number of new homes that also bring us additional money. For the year we received to pay Homestead exemptions, $134,481.00.

Military exemptions were allowed on all G. I. property and these exemptions amounted to $12,492.00.

With the collection in the office above the 100 percent it means that the Schools, Corporations and Townships will receive the full amount of tax asked for to operate each department.

Writing of tax receipts is spread over a number of months as we must have them all ready for the first of January, 1952 and there are near to 10,000 receipts for real estate and personal tax.

Drainage receipts are written for special assessments that are to be made for the coming year, we have 156 drainage districts, not all of these are active, but they are numbered and have work done on them and where they do not have a balance in the account we must make assessments to cover the cost.

Automobile Plates Go Out Soon

With 6500 automobile and 1350 trucks, to have ready for December 1st, the Auto Department is really busy. We have mailed to each owner of an automobile a notice of the number and cost of his license. This is an extra job this year as you still have your 1950 plates and the registration is for our record. We will issue these as soon as possible after December 1st.

You will receive only one plate, to be on rear of car for both autos and trucks, for the year 1952 and these are to be used for 2 years, we will not issue new plates for 1953. This is caused by the shortage of steel will be a saving to the tax payer.

The duties of the treasurer's office would make a long list, Mr. McMillin said, and each takes time. Even the Agriculture land tax refund that must be set out to each land owner where the school mills is above 15 takes a lot of time. Checks must be figured and sent out to each one. Tax collections for 1952 show some increase.

Two Escape Injury In Car, Truck Crash

Icy highways were the cause of an accident involving a gasoline truck and a car west of Klemme last weekend. A car driven by Mary Jo Ann Kling of Britt collided with a gasoline truck driven by Evertt D. Weiland of Klemme on a curve just west of Klemme near highway No. 69. Ice caused the rear end of the truck to skid in the path of the automobile. The car was damaged considerably and the truck sustained minor damage. Both occupants escaped without injury. Deputy Sheriff R. E. Nesbit investigated the accident.

Why We Worship

Lesson for November 25, 1951

FEWER than two out of every three Americans belong to any church or synagogue. Yet the traveler across America is never long out of sight of some house of worship. With or without a cross, with or without paint, every few miles there will be a church or chapel or meetinghouse, where like-minded people meet to worship the One God.

Dr. Foreman

• • •

Variety

IT is amazing, the confusing variety of ways in which God is publicly worshipped. Some churches are liturgical; that is, the form of the service is prescribed, printed in a book, used with little change from generation to generation. Roman Catholic churches are of this kind (though there is a wide range of detail in the procedures of different Catholic churches); so are the Lutheran, the Reformed and the Episcopal churches, among others.

Other churches are non-liturgical, or free, in their mode of worship, varying all the way from churches with optional forms of worship on out to snake-handling sects like the "Church of God with Signs Following," where you never know one minute what is going to happen next.

The liturgical churches, too, are different as can be. Some liturgies are filled with chanting, incense, long and not easy for a stranger to follow. Other liturgies are brief and simple. The insides of these various kinds of churches are just as different as the interiors of hotels—all the way from the elegant Waldorf-Astoria down to the ramshackle boarding house of a frontier town. The leader of the worship may be clad in vestments gorgeous in the extreme, or in a plain black gown, or dressed in shirt-sleeves.

The "man from Mars" would be so bewildered by all this that he would ask: Is there anything at all that these different kinds of worship have in common?

• • •

Communion

FOR an answer, we can go back more than 3,000 years to the time when Moses was organizing his people's worship as he organized the rest of their lives. You would hardly have recognized that little "tabernacle" in the wilderness as a place of worship at all; it looked like neither church nor synagogue.

And what went on in the tabernacle would look strange to a Jew of today, stranger still to a Roman Catholic, strangest of all to a "nonliturgical" Protestant. And yet, what went on to make that tabernacle possible in the first place, and what went on in it afterwards, give us the answer to the question: What do all the innumerable forms of worship have in common?

First of all is communion with God. In true worship we become aware of Him; in the New Testament phrase, we "approach with boldness the throne of Grace." Worship is right when it actually brings the worshipper into a cleansing consciousness of the nearness of God,—when, indeed, he feels and knows that it is "in Him we live and move and have our being."

Not every one reaches this divine awareness in the same way.

• • •

Consecration

BUT there is another sine to worship: Consecration. However varied the order of worship may be, one part of it will be found nearly everywhere: the offering.

This is actually one of the most important parts of the service, though it is often neglected and "skimmed." For the offering is not only important in itself, but it is a great symbol of what worship ought always to be, a call to dedication.

Into the offering plate go bits of silver, green paper, checks . . . money? Yes, and more. This represents something of the life and work of the worshippers. Every man has some better moments when he would generously like to do something to help the world. On Sunday the church harnesses his vague good will. It gives him a channel for his generosity.

What a man gives ought never to be TO the church but THROUGH the church; it would be an expression of gratitude to God from one who knows that his whole life is God's gift.

(Copyright 1951 by the Division of Christian Education, National Council of the Churches of Christ in the United States of America. Released by WNU Features.)

Smile Awhile

Acute Stage

"How's your insomnia?"

"Worse and worse I can't even sleep when it's time to get up."

—•—

Backwards

A reader doesn't understand why goods sent by ship constitute a cargo, while goods sent in a car are a shipment.

—•—

Bet He Did

"Who invented the hole in the doughnut?"

"Oh, some fresh air fiend, I suppose."

—•—

Correct Odds

"What do the three balls in front of a pawnshop mean?"

"Two to one you don't get it back."

—•—

Why, Sure!

"Do you know what is the very best skin food."

"No, I do not."

"Why, sausages."

—•—

No Good

"They tell me in Mexico you can get three pounds of sugar, a pound of coffee, a quart of whiskey and a wife for three dollars.

"I'll bet it's rotten whiskey."

Joins other prize cooks in praising Dry Yeast

Springfield Cook Wins 50 Awards at Illinois State Fair

That's an impressive display of ribbons Miss Edith Smith has spread out on her dining-room table. And she won 50 of them just last year at the Illinois State Fair—including third prize as the "Grand Champion Cook of Today" and second prize for the "Governor's Cookie Jar" award. A record like that certainly makes Miss Smith one of this section's leading cooks.

Like so many good cooks and prize winners—all over the country—Miss Smith swears by Fleischmann's Active Dry Yeast. "It's such a time-saver," she says. "Dissolves so fast—rises in a hurry, too, and it gives me grand results!"

The holiday meals ahead call for plenty of yeast-raised goodies. They're so festive, so delicious . . . wholesome and nourishing, too! When you bake at home, use yeast. And use the best—Fleischmann's Active Dry Yeast. It's so fast and easy—gives you grand results. Just add to warm water, stir well—it's ready to use. Get several packages of Fleischmann's Active Dry Yeast today.

Stuff the Turkey with Goodness
(See Recipes Below)

Hail Thanksgiving!

THANKSGIVING is one time of the year when traditions and traditional foods take the spotlight. Dinner on this big day wouldn't be complete without turkey and the trimmings, like a favorite or succulent stuffing, cranberries in a relish, pumpkin pie and of course, the edible centerpiece of nuts and fruits!

Most of us have a favorite stuffing recipe, one handed down in the family or one of our own variations to please the family. It may be sausage, cornbread, strong on the sage, celery or onion. No matter what the source, however, Thanksgiving is the time to stuff the turkey, and with a good stuffing.

• • •

AS WITH MOST very old recipes with such definite character, sooner or later the old recipes are modernized and given changes which make them more typical of today's food preferances. Here is the recipe in its modern form which is unusually fluffy and richly moist:

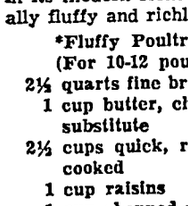
***Fluffy Poultry Dressing**
(For 10-12 pound turkey)

- **2½ quarts fine bread crumbs**
- **1 cup butter, chicken fat or substitute**
- **2½ cups quick, rolled oats, uncooked**
- **1 cup raisins**
- **1 cup chopped nutmeats**
- **1 tablespoon poultry seasoning**
- **2 teaspoons salt**
- **½ teaspoon pepper**
- **1 teaspoon baking powder**
- **¾ to 1 cup water**

Rub butter or chicken fat into bread crumbs and toast in broiler or hot (425°F.) oven until golden brown. Add rolled oats, raisins, nutmeats, seasonings and baking powder, mixing thoroughly. Sprinkle water over surface, stirring lightly until dressing is of desired moistness. Stuff lightly into neck region and body cavity of the bird. Note: Many delicious variations can be made by adding any of the following: sliced, cooked chestnuts, oysters, mushrooms or cooked sausage.

• • •

ANOTHER TYPE of turkey dressing which probably originated in the South has now become famous throughout the country. This, too, is a light, fluffy dressing with a slightly crisp texture from the celery and green pepper. The sausage is optional but it, too, adds its own distinctive flavor. The cornbread may be made in advance.



Sausage Cornbread Dressing
(For 12 pound turkey)

- **1 pound pork sausage meat**
- **1 cup diced celery**
- **½ cup minced onion**
- **½ cup chopped green pepper**
- **2 teaspoons salt**
- **½ teaspoon pepper**
- **5 or 6 cups corn bread, crumbled**
- **6 cups soft bread crumbs**
- **2 eggs, beaten**
- **1 to 1½ cups water**

Pan-fry pork sausage meat Drain. Cook celery and onion in ½ cup sausage drippings for 5 minutes. Add green pepper and seasonings, mixing thoroughly. Combine with corn bread, bread crumbs and cooked sausage. Add beaten eggs. Sprinkle water over surface, stirring lightly, until dressing is of desired moistness. Stuff lightly into neck region and body cavity of the bird.

• • •

Those with Scotch ancestry are probably familiar with a Scotch Oatmeal dressing, truly an heirloom recipe. This old-fashioned recipe is still used in the "old country" as well as many homes where traditions are cherished and carried over from generation to generation.

Here is the unusual recipe with its main ingredients, rolled oats, onions and sage.

Scotch Oatmeal Dressing
(For 10-12 pound turkey)

- **4 cups quick, rolled oats, uncooked**
- **1½ cups butter or substitute**
- **2 small onions, finely chopped**
- **2 teaspoons salt**
- **½ teaspoon pepper**
- **1½ teaspoons sage**

Rub butter or substitute into rolled oats until they just hold together. Mix in onions, salt, pepper and sage. Stuff lightly into neck region and body cavity of the bird.

• • •

HERE IS ONE interesting way of preparing sweet potatoes for the big dinner:

***Toasted Croquettes**
(Makes 6)

- **2 cups mashed sweet potatoes**
- **1 teaspoon salt**
- **⅛ teaspoon pepper**
- **1 teaspoon brown sugar**
- **1 teaspoon lemon juice**
- **6 marshmallows**
- **¾ cup cereal flake crumbs**

Blend mashed sweet potatoes with salt, pepper, brown sugar and lemon juice. Shape in balls around the marshmallows. Roll in crumbs and brown in a moderate (350°F.) oven for 15 minutes. Or, dip in slightly beaten egg, then in crumbs and deep-fat fry.

• • •

***Cranberry Conserve**

- **1 quart cranberries**
- **1 cup chopped raisins**
- **2 oranges, ground**
- **3 cups sugar**
- **¼ cup chopped walnuts**

Wash cranberries; cover with water, heat to boiling and simmer until tender. Put through sieve or food mill. Add chopped raisins and ground oranges. Cook over low heat for 10 minutes. Add sugar and simmer over low heat until thick. Stir in walnuts. Chill before serving or seal in hot sterile glasses.

THANKSGIVING DINNER

Cream of Oyster Soup
Bread Sticks Salted Nuts
Celery Sticks
Roast Turkey Giblet Gravy
*Fluffy Poultry Dressing
*Toasted Croquettes
Baked Squash
Buttered Green Beans
*Cranberry Conserve Hot Rolls
Pumpkin Pie with Whipped Cream and Toasted Pecans
Beverage

*Recipes Given

When dinner is set for a certain time, start roasting the turkey a half an hour or so ahead of schedule to avoid delay at serving time. This allows time for longer cooking if necessary, time to make gravy, remove the trussing and arranging the bird on the platter.

Have some good, smooth gravy with your turkey. Use 6 tablespoons of drippings with an equal amount of flour blended into it until smooth Then add slowly 4 cups liquid (water, milk or broth) and cook, stirring until thickened.

LYNN SAYS:
Plan to Have
Delicious Turkey

When you can move the drumstick easily up and down, the turkey is cooked as necessary. Or, press the fleshy part of the drumstick, protecting the fingers with a cloth. If done, the meat feels soft.

It's wise to salt the inside of the body cavity before putting in the dressing so that the meat near the inside will have enough flavor, and so the stuffing will retain what salt it has.

Crime in America

By ESTES KEFAUVER
United States Senator

Ten of a Series

St. Louis: Where Gambling Is Big Business

Crime is big business in the St. Louis area.

Mostly, the section's shadowy activities are centered on illegal gambling. However, the Senate Crime Committee found that this gambling is not merely the innocent, harmless "biological necessity" which James Joseph Carroll, the cantankerous multi-million-dollar-a-year bookmaker, called it.

In the past 10 years, there have been 25 unsolved gang murders in the Missouri-Southwest Illinois area of which St. Louis is the center—a studied plan of assassinations to control all large-scale commercial gambling and vice.

During this time, five major gangs operated in St. Louis: the Hogan mob, the Egan Rats, the Cuckoo gang, the so-called Green Dagoes, composed largely of Sicilians, and a gang of Americans of Italian descent.

An off-shoot of the Sicilian mob was the Pillow gang, so named because its leader, Carmelo Fresina, once was shot in the buttocks and thereafter carried a pillow with him to use when he sat. Eventually, Fresina, an extortionist and bootlegger, was dispatched with two bullets in the head and no longer needed his pillow.

In Central and Southern Illinois, two infamous mobs—the Sheltons and the Birgers—operated.

We gleaned an indication of the magnitude of book-making from testimony of Gambler J J. Carroll The 64-year-old Carroll, engaged in some form of horse-betting activities since he was 12, admitted that the Carroll-Mooney bookmaking operation—with huge wire rooms in St. Louis, Mo., and East St. Louis, Ill.—handles "in excess of $20,000,000" a year in bets. Profits come to approximately $750,000, and his own take is approximately $110,000 a year.

Carroll seemed to have a characteristic in common with Frank Costello. Costello, a racketeer, wanted to pose as a business man. Carroll, a gambler, glorified himself with the title of "betting commissioner."

It was Carroll who, in St. Louis, became the first witness to decline to testify before the television cameras. "The whole proceeding outrages my sense of propriety," said Mr Carroll, walking out. I promised him I would recommend that he be prosecuted for contempt. To avoid this, Carroll later came to Washington at his own expense to testify. We had more trouble there but managed to get it over by keeping the cameras off his face.

• • •

Another huge St. Louis operation was C. J. Rich & Co., a clearing house for bets on major sports, operating under the guise of a gold-bronzing company We questioned two partners in this outfit, Charles J (Kewpie) Rich and Sidney Wyman. Wyman was a dark, heavy-set man who put on a great show of scowling ferociously as he taxed his memory for answers to our questions "Kewpie" Rich was a pudgy, roundfaced, unhappy looking soul, who in appearance lived up to his nickname

Neither would quite admit they were in the gambling business So we compromised by discussing their business as "Operation X" Their company is less coy Among other things, we introduced as evidence a circular openly distributed by Rich & Co. which said "We do not restrict our transactions solely to racing. We would gladly handle wagers on all other sporting events, including baseball, football, fights and elections "

Wyman started off by telling us that "Operation X" grossed about $1,000,000 a year; after he left the stand, he sent in word through his attorney that he was wrong and the correct figure would be $4,000,000 to $5,000,000.

• • •

I asked the Russian-born Rich why he never had become an American citizen. He answered he had applied "many a time" but had been turned down repeatedly I asked why He unhappily replied: "On account of the business I participate in "

One aspect of both the Rich-Wyman and Carroll-Mooney-Grady operation that gave the committee particular concern was the admitted involvement of the Western Union Telegraph Co.

A raid on the Rich company storehouse turned up a card index of between 100 and 150 names of Western Union agents throughout the United States who acted secretly as betting agents for the Rich & Co The Western Union employees were given "gratuities" to handle and, in some cases, solicit bets in their communities for Rich Some even were paid a percentage of Rich's winnings as a commission

Western Union, of course, found the gambling account highly lucrative. Rich & Co. received 500 to 1000 telegrams a day. In May, 1950, alone, its telegraph bill was $26,700 The Carroll-Mooney-Grady operation was worth $77,749 to Western Union in 1950.

Our committee report said: "One wonders whether the Western Union's obliviousness to its public responsibility not to permit its facilities to be used in violation of state law, was in part due to the fact William Molasky of St Louis, a well-known gambler, is one of its outstanding stockholders."

• • •

The committee learned a great deal about William Molasky, the millionaire magazine distributor, whose finger was in many pies An ex-newsboy, Molasky publishes a scratch sheet for horseplayers, and is a 35 per cent partner in Pioneer News, the bookies' racing news wire. He and his family own 18,050 shares of stock in Western Union, valued at the time of his testimony at $783,000.

• • •

Louisiana: Fantasia In Law Enforcement

In Louisiana, the Senate Crime Committee wrapped up a complete history of local infiltration by the national crime syndicate. Through alliances with home-grown racketeers, these big-town mobsters put gambling and other profitable rackets on a big-time basis.

New Orleans, though it has been cleaned up steadily since Mayor DeLesseps S. Morrison took office in 1946, became an important provincial capital of the East coast Costello-Lansky-Adonis mob. As his proconsul, Frank Costello installed a trusted lieutenant, Philip (Dandy Phil) Kastel, convicted swindler. Then through Kastel, he controlled an important segment of the area's slot machine and gambling casino rackets and effected a working partnership with a local criminal. Carlos (Little Big Man) Marcello. Marcello, reputed Mafia leader of Louisiana, is building a criminal dynasty that one day may rival Al Capone's.

• • •

In every line of inquiry we pursued we found Marcello's trail. The Little Big Man with some of his brothers and aides owned all or part of more than 40 enterprises—all but a few of them illegal. These included gambling casinos, an interest in the local wire service, horse parlors and slot machine companies.

Our report stated: "The committee had information that Carlos Marcello and his brother, Anthony, owned a boat used in running narcotics into the port of New Orleans." Carlos had been convicted in 1938 of narcotics peddling and had served time for it

We also established beyond doubt that the out-of-state gangsters who came to Louisiana depended on the negligence, the active support, or the participation of some local law enforcement officials.

On the day in 1946 that John J. Grosch took office as sheriff of Orleans parish (New Orleans), local newspapers ran a picture captioned "Just a Gift for Johnnie " It showed the new sheriff standing alongside a brand new Cadillac limousine presented him by "unnamed friends."

• • •

We heard from the sheriff's divorced wife, Mrs. Viola Grosch, a woman who holds a responsible position at the Tulane University hospital, that in the last six years of their married life together, ending in 1940 when he was chief of New Orleans detectives, Grosch had accumulated $150,000 which he kept at home in a steel box. She said she had seen him receive money weekly from a local slot machine dealer, and another character, who reputedly ran a house of prostitution, bought all the food for the week

Next week: The Cleveland Area: "Middletown" of Crime.

Condensed from the book, "Crime in America," by Estes Kefauver Cpr 1951 Pub. by Doubleday, Inc. Dist. General Features Corp.—WNU.

NEXT YEAR, WE EAT BETTER

Agricultural Bureau Predicts More Food

WASHINGTON—Food supplies in this country will be large enough next year to allow people to eat a little better, the Bureau of Agricultural Economics has predicted. The Bureau also pointed out that the dietary average for the current year is slightly above average.

Consumers will probably pay slightly higher prices, however In a forecast of the 1952 outlook, the bureau said it appears there will be more poultry products, beef, fluid milk, ice cream, fats and oils, except butter, frozen fruits and fruit juices, frozen vegetables and dried fruits available next year Declines were forecast in the consumption of butter and sweet potatoes, with production of these two items on the way down. Farm production costs also are going up.

World's Biggest Tree

While California's Big Trees (Sequoia gigantea) have no peer as a species either in bulk or age, there is a single tree that outranks even the biggest sequoia in diameter and may surpass it in age.

The botannical colossus is the Tule cypress of Santa Maria del Tule, six miles from Oaxaca in southern Mexico. It is a Taxiodium mucronatum, the same cypress as those in Chapultepec Park in Mexico City. Thousands of years old, yet still green and vigorous, the Tule tree's plump, rounded shape suggests an old oak rather than the usual slim cypress. "El Tule," as it is called, is so massive that 28 people, touching fingertips of outstretched arms, barely can encircle it.

CHEAPER by the DOZEN!

Bullets and Bolos

Mount Bangbanglan is an 8,000-foot peak guarding "No Man's Land" between the domains of the Kalingas, Tingians, Ifugaos and Bontoc Igorot tribes of northern Luzon. As tribal war flared recently on its forest-covered slopes, gunfire made Mount Bangbanglan's Malayan name ring true. Tattooed warriors found bullets better than bolos.

NO CONSTIPATION NOW AFTER YEARS OF MISERY

"For years I had been taking many kinds of laxatives. Then I tried ALL-BRAN. It not only keeps me regular . . . I really *enjoy* eating it every day!" Rudy R Adler, 1410 20th St., Miami Beach, Fla. *One of many unsolicited letters from ALL-BRAN users* You, too, may expect to overcome constipation due to lack of dietary bulk if you follow this advice: Eat an ounce (about ½ cup) of crispy Kellogg's ALL-BRAN daily, drink plenty of water! If not completely satisfied after 10 days, return empty carton to Kellogg's, Battle Creek, Mich. DOUBLE YOUR MONEY BACK!

Economical Cough Relief! Try This Home Mixture

No Cooking. Makes Big Saving.

To get quick and satisfying relief from coughs due to colds, mix this recipe in your kitchen.

First, make a syrup with 2 cups granulated sugar and one cup of water. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Then get 2½ ounces of Pinex from any druggist. This is a special compound of proven ingredients, in concentrated form, well-known for its quick action on throat and bronchial irritations.

Put Pinex into a pint bottle, and fill up with your syrup. Thus you make a full pint of splendid medicine—about four times as much for your money. It never spoils, and tastes fine.

And for quick, blessed relief, it is surprising. You can feel it take hold in a way that means business. It loosens phlegm, soothes irritated membranes, eases soreness. Makes breathing easy, and lets you get restful sleep. Just try it, and if not pleased, your money will be refunded.

FOR EXTRA CONVENIENCE GET NEW READY-MIXED, READY-TO-USE PINEX!

The new arrival has been named George J.

Get The Family Together And Work Out A—

SPENDING PLAN FOR CLOTHES

A family council on clothing needs will help you work out a good spending plan for the year. Include the children in the get-together and planning as soon as they're old enough to take in interest in their clothes and learn about the value of money. And be sure to look at your clothing needs in relation to all the other necessary family expenditures.

KLEMME JUNIOR HIGHS WIN DOUBLE HEADER

The Klemme Junior High Girls basketball team began the 1951-52 season with a 26-7 win over Goodell. The girls played quite well for their opener

Jo Ellen Clabaugh and Carol Bridges lead the scoring with 8 points each and Shirley Barz with 4. Faye Janssen, Ione Rosendahl and Barbara Thompson completed the scoring with 2 points each

Coach Judd's Rockets won from Goodell 30-7 in a well played game The score at half time was 10-4.

Dennis Haefner lead the scoring with 14 points while "Mart" Brinkman and Dave Waddingham each had 6 points, "Butch" Terhufen had 4

Game Tonight, 7:00 P. M.

The next J H. game is Wednesday, Nov 21 at 7 00 o'clock with Kanawha here The Junior Highs invite you to attend. No admission charge but donations are accepted at door

Forrest Cutshall Slightly Injured In Corn Picker

Forrest Cutshall, farmer living northwest of Klemme, had a narrow escape from a serious accident last week Wednesday while working with a corn-picker which became clogged.

Cutshall's fingers were caught in the husking rolls as he was cleaning the machine Fortunately his hand was not drawn into the machine, but he lost a finger-nail and his fingers were slightly bruised.

In most families along about now there's talk of new clothes from all corners of the house. Sounds as if it's time to gather round and work out what home management and clothing specialists at Iowa State College call a "family spending plan" for clothing.

Be sure to count the children in on these planning sessions—even a youngster of 4 or 5 can sit in and get the idea, and he will learn much from these clothing councils from year to year Don't forget how important clothes can be to children of all ages, say specialists, and especially to those in their teens and early 20's.

If your high school girl is told point-blank that she can't have that new frock, she might feel seriously unhappy and wronged. But if she gets acquainted with the financial situation and the rest of the family's clothing problems, it will make a tremendous difference in her attitude. Or perhaps after talking things over, the family will decide her dress is very important and work out a way for her to get it.

Talking things over will help you to see the total needs of the family From there you are ready to launch into a clothing spending plan.

Planning Suggestions

1. Take stock of the family's clothing spending last year If you kept no records, gather up check stubs, receipts, and bills. Fill in the gaps with your own lists of remembered buys. Don't forget to add in cleaning and laundry bills. Did you make good buys? Did any clothes hang idle in a closet for want of repair, a good pressing or some other reason? Did you run up bills that were difficult to pay off?

2 Go into a family huddle. Decide on how much you can spend on clothes, with an eye to last year's experiences. Look at the total family needs. Should they seem impossible to fill, start with the largest of expenditures and decide together who needs what the most. Work out a plan for staggering the buying of larger items, such as coats and suits, over a period of several years. Face the facts of your clothing needs on paper and add up that right-hand column.

Add Up Personal Skills

3. Take stock of the family's personal resources. Remember, you can strech clothing dollars with your own knowledge, skill, time and energy Are you teaching the children to make wise choices when they buy? Have you helped them develop pride in both wearing and caring for their clothes? Did you yourself know how and when to mend and make over, when to discard? Have you or your teen-age daughter the time, skill, energy and inclination to do more clothing construction at home? If so, have you a handy sewing set-up?

4. In buying, read labels and know what you're getting. Learn construction features to look for.

5. Keep informed on new fabrics, finishes, wearable styles and clothes care. If you find it hard to keep up to the minute on this score, your best plan is to buy only those goods well labeled by a reliable manufacturer. The label should tell you exactly what you're getting in fabric and finishes, the wear to expect, and how to take care of the article.

And remember—always, always look at your family spending plan for clothes in its proper relationship to that long list of expenditures throughout the year. With careful planning and management, they can all fit comfortably under the umbrella of your available family income.

DUCK SEASON TO CLOSE NOVEMBER 25

The 1951 duck season closes one hour before sunset, November 25.

SHAD

A seining crew removed 20 tons of shad from Blackhawk recently, or a million and a half individual shad.

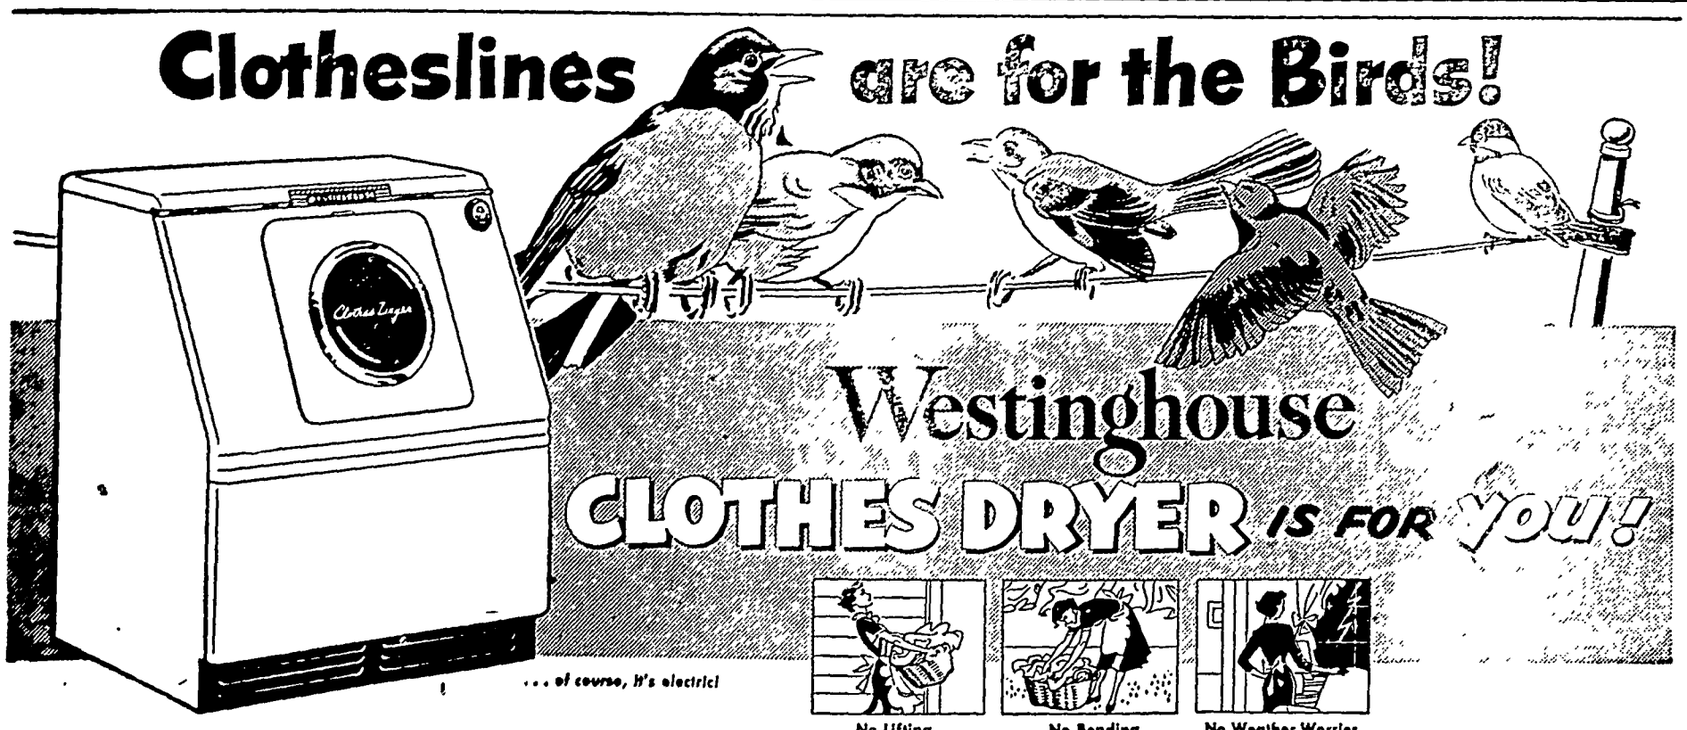
Clotheslines are for the Birds!



EXCLUSIVE DRY-DIAL—Set it *for Damp*. Set it *for Dry*. Clothes come from the Dryer on the *Damp* setting just at the preferred dampness for ironing. On the *Dry* setting, clothes will be bone-dry—fluffy, soft, ready to fold and put away.

HANDY LOADING SHELF—Only on the Westinghouse Dryer will you find this loading and unloading shelf-door. No stooping or bending to load or unload this Dryer.

WESTINGHOUSE AIRFLOW DRYING—Blows warm, clean air *directly into the clothes*. Dries clothes quickly and thoroughly. Economical, too.

Let the birds have the clotheslines. Let all the hard work of line-drying clothes be a thing of the past for you!

With a Westinghouse Dryer, you simply take the clothes from the washer, place them in the Dryer, set the Dry-dial Control for the way you want the clothes to come out—bone-dry for folding and putting away, or the right dampness for ironing. That's all there is to it!

The Westinghouse Dryer dries a full washer load of clothes at one time. You'll never have another care or worry about *soot, dirt, rain* or *work* with a Westinghouse Dryer. You'll never dampen clothes again and you'll cut ironing time in half! See it today.

YOU CAN BE SURE...IF IT'S Westinghouse

IOWA ELECTRIC LIGHT AND POWER COMPANY

ANNIVERSARY

At Hamburg, Mr. and Mrs. I. D. Mohler celebrated their 60th wedding anniversary October 30. The couple was married in 1891 and have spent their entire married life as residents of Hamburg.

THANKSGIVING

While you are eating be thankful that you live in a country where "Mr. Average" can do and say as he pleases, and set a table unmatched elsewhere, except by a privileged few—

PETE'S SERVICE CENTER
Klemme - Iowa

AROUND IOWA

Jerry Thucks, 16 year old Coon Rapids youth, was killed recently in a hunting accident. As he picked up his gun, it accidently discharged and death was almost immediate.

NEW TRADE

Two years ago things looked pretty bleak for Steve Slappendel of Souix Center: a freak whirlwind wrecked a corn crib on whick he was working, killing his companion and sending Slappendel to the hospital blind in one eye, and paralyzed from the waist down. Now he's getting along fine at a new trade he has learned, operating an electric saw filing machine.

LADY AGENT

Sanborn is losing one of its unique distinctions, that of being one of the few towns in the United States with a "lady" station agent. Mrs. Jim Burns has been relieved by her husband, whom she had relieved in turn, several months ago when he was called to Mason City. A competent telegrapher, Mrs. Burns is also the mother of four children.

CURIOSITY

Its curiosity dost a wild deer its life near Frederika recently. The animal leaped into the highway and stood in the path of an automobile, gazing at the headlights. Driver, William Bergmann was unable to stop in time and the auto struck the deer, killing it.

Decorators' Tricks Add Great Charm to Rooms

Have you discovered how much distinction unusual colors can give your rooms? With decorative textiles in gay colors and smart contemporary furniture in a variety of woods, such colors as shadowy blue, sun gold, and nut brown have come into favor with decorator and homemaker alike.

You can, of course, obtain many of the fashion-right shades you desire already mixed—or—you can do the mixing yourself. Just be sure to mix enough to cover the entire surface to be painted. Tell your paint dealer the measurements of your room so that he can estimate the amount you will need. The colors you will use to obtain the desired hue come in tubes or small cans, if you're planning to tint an oil base paint or enamel.

In tinting oil base paints, add a little of your base paint to a small quantity of tinting color and mix them together thoroughly Then combine the mixture with the paint in the large container and blend it well. After you add the final dab of color to your paint, see that all of the tinting compound is absorbed. Then strain the whole quantity through a regular paint strainer, a wire screen, or an old stocking—just to make sure there are no lumps left in the bottom of the can.

To alter the color of a lacquer, a casein or an emulsion paint, you usually combine two or more of the ready-mixed coatings. Your dealer can advise you and show you samples of the colors than can be obtained by such mixing.

Farm Pond Owners Warned Of 'Stale Pond Diseases'

Make sure that farm ponds do not become reservoirs of livestock diseases during summer dry spells, livestock owners are advised.

An animal health bulletin points out that low water levels and contamination of farm ponds may cause much sickness among farm animals and bring heavy losses to the owner.

Stale pond water may bring about, or intensify, coccidiosis, stomach and nodular worms, mouth sores, algae poisoning and scours.

This happens so often that veterinarians sometimes refer to these problems as 'stale pond diseases.'

Another dangerous condition arises when shorelines recede due to lower water levels. Cattle walk in the soft mud, leaving holes and sharp ridges which later harden when exposed to the sun and air

Veterinarians have found that this 'washboard' ground is a serious hazard to the animals' feet. It may easily cause cuts and bruises. Germs lurk in stagnant water, thus gaining entrance to cause 'foul foot.'

Livestock raisers are strongly advised to either fence off ponds or to remove cattle when water levels drop, or when scum on the surface indicates that ponds are becoming stale. This simple precaution may save livestock owners a heavy toll of dead and diseased animals.

Antihistamine for Animals

Reports are beginning to pile up on the use of antihistamine drugs in treating various disorders of livestock and pets. Articles by veterinarians, published in scientific journals, stress that these drugs are not a "cure-all" but that they do appear to be helpful against some types of ailments when used in conjunction with good nursing and other lines of treatment. Their main value, investigators say, seems to be the temporary relief and "lift" they give sick animals. Repeated trials have shown that cattle, sheep, and horses suffering from founder can be returned to normal conditions within a few hours after treatment with antihistamine drugs now available to veterinarians. These preparations also give animals relief from other kinds of digestive disturbances as well as allergic skin diseases.

Facts About Pentagon

Crowded wartime Washington was reluctant to make space for a building the size of the Pentagon, so it was located across the Potomac in near-by Virginia. Pentagon planners flouted the conventional classic government architecture and "did everything by fives." For instance, there are five sections to the Pentagon, one building nesting within another, and each has five sides. The perimeter of the outer building measures a fifth of a mile on each side and is joined to the other sections by a network of corridors. Naturally, there are five floors.

Nation's Food Reserves

By maintaining the soil's productive capacity, farmers can have a vital part in supplying the needs of our military forces for national defense. The U. S. department of agriculture reports that the nation's food reserves and reserves of food materials in the soil are in better condition today than they were at the beginning of World War II. Much of this improvement is a direct result of the continuous protection and development of the land through the participation of nearly three million farmers in the agricultural conservation program throughout the nation.

You're The Doctor For—

HOME SPRING CUSHION SURGERY

Perhaps a neighbor would like to pitch in and help you rebuild that lumpy, uncomfortable cushion. Here the rows of springs in their new pockets are being sewn together to form the repaired spring unit. Next it will be padded with upholsterer's cotton and placed in the cover again.

If your husband's favorite chair has developed uncomfortable humps and lumps in the cushions, you may decide to be the doctor and operate. According to June Brown, home furnishings specialist at Iowa State College, this "operation" isn't costly or complicated.

What's happened is that the muslin or burlap covering the spring coil has worn out and released the spring. Sometimes that cushion is so "sick" that when you open it up there's only a tangled mass of loose springs, muslin or burlap and string

Steps in Operation

Briefly, here are the steps in the operation that can make your cushion well and comfortable once more. measure and remove the old cover, make a boxed muslin cover to encase the cotton spring unit. This muslin cover enables you to remove the outside slip cover or upholstery cover for cleaning. Then remove the padding covering the spring unit, write down the number and rows of springs before separating them, and make new cloth pockets to hold the springs.

How to Make Pockets

Making the pockets for the springs and then fastening the springs and rows together is the most important part of the operation, Mrs. Brown explains

To find the width material needed for each row of pockets, add the height of the spring when compressed (always 3½ inches), the distance across the top of the spring coil, and the seam allowance (always ½ inch) Multiply by 2.

To find the length of material needed for each row of pockets, measure the distance around the top of the spring and divide by 2 for the width of one pocket. Multiply the width of one pocket by the number per row and add 1 inch allowance (½ inch at each end).

Cut or tear strips of the correct length and width, mark the top ½ inch seam allowance, mark and stitch the pockets Slip each spring in sideways and pin each tightly so it stays sideways and compressed. Stitch the top seam, remove all pins, turn springs to upright position, adjusting so that seams run through the middle of the tops of the springs. Repeat until each row of springs is encased in its cloth strip of pockets. Now you're ready to tie the springs together, each row separately and then all rows together to form the spring unit.

Mrs. Brown's new bulletin, "Rebuilding Spring Cushions" has just come off the press. It gives step-by-step directions, and you can order it free from the Bulletin Office, Iowa State College, Ames.

LONG TIME

Charles Abrahamson has been a resident of Lucas county for over 70 years. Born in Sweden, he came to Lucas county with his parents at the age of four years.

KILLED

Two year old Sharon Gielau, of Denver, in Bremer county, was killed recently in the driveway of her home. She was run over by a cream truck, the driver being unaware of the little girl's presence in the drive.

AMBITIOUS

A hen belonging to Herbert Hansen of near Manning recently produced a seven-ounce egg, containing three yolks.

DIES

Just 11 days after her 103 birthday, Mrs. Matilda Teeple Manning, of Hubbard, passed away at her home She was Hardin county's oldest resident.

ANNIVERSARY

At Mediapolis, Mr. and Mrs. E. E. Johnston recently observed their 55th wedding anniversary.

PLAYMATE

Carl Schweinfurth, Waukon farmer, found a baby screech owl last spring, unable to fly, Now the owl, "Chuckie," is a household pet.

LOST HAND

Bud Weiss, Wesphalia farmer, lost his left hand in a corn-picker accident recently.

LIGHTNING

bolt of lightning killed 23 year old Anthony Noonan recently, as he worked on the farm of his brother near Ayrshire.

MONOXIDE

Carbon Monoxide poisoning caused the death of 82 year old Gottlieg Fritz at Sumner last week, as he changed the tire on an automobile. Apparently he had started the motor without opening the garage door and was overcome within a few minutes.

BEQUEST

When the will of the late James Kent of Britt was admitted to probate recently, it was learned he had left $65,000 to philanthropic projects.

FIRE

Almost as unusual as a fire in a fire station, was a blaze at Manning recently, when a water tower caught fire The tower was not in use, however.

On motion and second the board adjourned to November 5, 1951 at 9 o'clock A. M.

ATTEST:

MAYNARD SCHONEMAN
County Auditor
F. J. SCHOUN
Chairman

10TH ADJOURNED SEPTEMBER MEETING

Garner, Iowa
November, 5, 1951

The Hancock County, Iowa, Board of Supervisiors met in session on above captioned date pursuant to adjournment with F. J. Schoun, Clint Daniels and Clarence Bird present.

The minutes of the last meeting were read and approved as read.

On motion and second the bond of Maudlin Construction Company of Webster City, Iowa is herby approved

WHEREAS, in accordance with Section 332.15, Code of Iowa, 1950, certain records which have been on file in the office of the County Auditor, for a period of 10 years or more, may be destroyed, and

WHEREAS storage space is needed for new records which must be kept on file.

BE AND IT IS THEREFORE RESOLVED that authorty is hereby granted the County Auditor to destroy such records which are included in said section 332.15, Code of Iowa, 1950 to make space available for later records which must be on file.

The foregoing resolution was offered and read by Supervisor Bird who moved its adoption, was seconded by Supervisor Daniels, whereupon the Chairman, F J Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clearnce Bird, Clint Daniels and F J. Schoun, ayes, Nays, none. Whereupon the Chairman declared the resolution duly adopted.

On motion and second the resolution of the Forest City Council passed 11-1-51 in regard to Road No. 542 is hereby approved.

This being the 5th day of November, 1951 a date heretofor fixed for a hearing on the cleanout, to grade, D. D. No. 6 petitioned for by Markman and Engstler, et al, the hour for said hearing having arrived, the report of the Engineer recommending such cleanout to grade, the proof of publication being on file and the board being fully advised, said hearing was held as scheduled

The petition, report of the Engineer and objections were read by the County Auditor and objectors and proponents were given and onportunity to discuss the necessity and feasibility of said proposed cleanout to grade and objectors thereto, petitioned for by Markman and Engstler, et al as recommended in the report of the Engineer.

After duly consfdering discussions and proponents of said proposed cleanout to grade, it was motioned by Supervisior Daniels and seconded by Supervisior Bird that said D. D. No. 6 be cleaned out, to grade, at the places of fills in accordance with recommendations of the Engineer in charge, Wm. Henschen, and further action to await the amended report of the Engineer to be filed with this board.

The forgoing resolution was offered and read by Supervisor Daniels who moved its adoption, was seconded by Supervisior Bird, whereupon the Chairman, F. J. Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels, Clarence Bird, and F J Schoun, ayes. Nays, none. Whereupon the chairman declared the resolution duly adopted.

On motion and second the report of benefits, other than agricultural land, on Highway No. 111 is hereby approved.

WHEREAS Wm. Henschen, Engineer, Wm. Boehnke and Chas. J Goll were heretofore appointed commissioners to view and reclassify the lands in Drainage District No. 1 and 2 Lateral No 7, and to designate separtely the tax per cent each tract shall pay on the Lateral ditch for future repairs, all in accordance with Sections 455 72 and 155.45 to 455.51, Code of Iowa 1950, and

WHEREAS said Commissioners did qualify as by law directed and did file their report on November 2, 1951, which report sets out in detail the classification against each tract and parcel of land and highway and railroad in the district as provided by law

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisiors of Hancock County, Iowa, acting for and in behalf of D. D. No. 1 and 2, Lateral No. 7 that the report of the Commissioners heretofore appointed to reclassify lands in the watershed of D. D No. 1 and 2, Lateral No. 7, Hancock County, Iowa, as tentatively approved and a hearing theron will be held at the Courthouse in Garner, Iowa on the 17th day of December, 1951 at the hour of 1:00 P M. at which time taxpayers in said district will appear and show cause why said reclassification designated shall not be accepted against the lands in the watershed of D. D. No. 1 and 2, Lateral No 7, Hancock County, Iowa.

All objections to such reclassification of assessment of benefits shall be filed in writing in the office of the County Auditor in Garner, Iowa at or before the hour set for hearing thereon. The County Auditor be and he is hereby directed to cause notice of such hearing to be published in The Britt News-Tribune, a newspaper of general circulation published at Britt, Iowa, together with description of the real estate and the designated reclassification each tract, parcel of land, highways and railroads in the district is charged with.

The foregoing resolution was offered and read by Supervisor Bird who moved its adoption, was seconded by Supervisor Daniels whereupon the Chairman, F. J. Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clarence Bird, Clint Daniels and F J Schoun, ayes, Nayes none. Whereupon the Chairman declared the resolution duly adopted.

WHEREAS Wm. Henschen, Engineer, Wm. Boehnke and Chas J. Goll were heretofore appointed commissioners to view and classify lands and assess benefits in the watershed of D. D. No. 1 and 2, Lateral No. 8, Hancock County, Iowa all in accordance with sections 455.45 to 455 51, Code of Iowa 1950, and

WHEREAS said Commissioners did qualify as by law directed and did view said lands and assess benefits as by law directed and did file their report on November 2, 1951, which report sets out in detail the assessment against each tract and parcel of land and highway and railroad in the district as required by law

BE IT THEREFORE RESOLVED by the board of Supervisors of Hancock County, Iowa that the report of the Commissioners heretofore appointed to classify lands in the watershed of D. D. No. 1 and 2, Lateral No. 8, Hancock County, Iowa is tentatively approved and a hearing theron will be held at the Courthouse in Garner, Iowa on the 17th day of December, 1951 at the hour of 1 30 P. M., at which time taxpayers in said district will appear and show cause why said lassification sall not be accepted and assessment taxed against the lands in the watershed of D. D. No 1 and 2, Lateral No. 8, Hancock County, Iowa. All objections to such assessment of benefits shall be filed in writing in the office of the County Auditor in Garner, Iowa at or before the hour set for hearing thereon The County Auditor be and he is hereby directed to cause notice of such hearing to be published n The Britt News-Tribune, a newspaper of general circulation at Britt, Iowa setting out the names of the owners of said lands in D. D. No. 1 and 2, Lateral No.8, Hancock County, Iowa, together with the description of the real estate and the designated assessment each tract and parcel of land, highway and railroad in the district s chrged with

The foregoing resolution was offered and read by Supervisor Daniels who moved its adoption, was seconded by Supervisor Bird, whereupon the Chairman, F J Schoun placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels, Clarence Bird and F J Schoun, ayes, Nays, none. Whereas the Chairman declared the resolution duly adopted.

On motion and second the Board adjourned to November 6, 1951 at 1:00 P. M.

Visiting around Iowa

by Joe Marsh

Thanksgiving, 1622

Speaking of Thanksgiving . . . Do you know the Pilgrim fathers might have landed in Virginia instead of Plymouth, if their supplies hadn't run low?

Digging up some facts for a Thanksgiving column the other day, I ran onto this item from a journal of the Pilgrims' voyage, published in 1622.

The Journal says the Mayflower had to seek harbor ahead of schedule because . . .

" . . . we could not now take time for further search; our victuals being spent, especially our beer."

Like many people through the ages, the folks on the Mayflower depended on beer as a nourishing and sustaining beverage during that long voyage. And it's held a similar place in millions of American homes for over 300 years.

COMIC BOOKS

Educators Believe Comic Books May Have Future in School Work

Comic books may soon be required reading for children.

Psychologists and educators have been contending for some time that comic boks of the proper kind could be used to further the emotional, mental and educational development of children The only trouble, they have added, is that such magazines would have to be especially designed to meet psychological theories and still be entertaining.

One of the country's leading comic book publishers, after a year of intensive research, has begun issuing a comic magazine based on the recommendations of psychologists and educators as to the "ideal" comics magazine for children in the three-to-eight age bracket. He is convinced that if his new publication is a success, other comic book publishers will recognize the need for really constructive comic magazines and follow his lead.

The publisher, Leverett Gleason, expects the test to prove the theories of authorities that the powerful influence of comics magazines on children can be utilized in a constructive way.

Gleason estimates that 80,000,000 comic magazines are purchased each month and that each of these has three readers.

Prominent educators and psychologists have agreed that comics magazines can be used to emphasize the moral and ethical teachings of parents. They have advocated comics magazines as a means of draining normal aggressions of children that might otherwise erupt into outright aggressive acts. These authorities see comics as a means of teaching a child how to read, and the use of good grammar and a sense of artistic discrimination. And they have at the same time complained that the widely distributed comics magazines are not accomplishing all these objectives.

"There is no reason why all of these objectives cannot be achieved in a comics magazine that is still exciting enough to hold the young reader's interest," Gleason said.

He quoted Josette Frank, educational associate of the Child Study Association:

"One must regret that comic magazines have, in some respects, missed their opportunities for giving children more than they do.

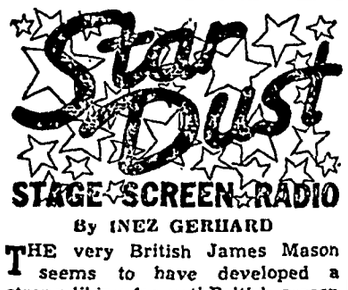
"The comic magazine has a high potential value not only because its form is so acceptable to children but because it can be timely and contemporary in a way books cannot. Here, perhaps, more effectively than elsewhere, we can find an opportunity to give children forward looking attitudes, ideas and ideals about the world they live in."

• • •

OBVIOUSLY, no desirable comic book could portray sex, cruelty or primitive violence, Gleason said. But the findings showed that many other factors were of equal or greater importance.

Perfect grammar should be used by the characters so that children can learn through the example of the heroes and heroines. Particular attention should be devoted to the art work which would be of a quality comparable to that of the best in children's hard-cover books. As with all comic books, these pictures, used as a guide to the meaning of the words, should help the young child learn to read.

Six thousand schools already are using comic books in connection with the school curriculum, Gleason reported The issuance of comic magazines of superior quality might easily make them an instrument all schools would want to use to further the teaching of young children, particularly as a means of teaching them to learn to read and to like to read.



By INEZ GERHARD

THE very British James Mason seems to have developed a strong liking for anti-British screen roles. His two latest for 20th Century-Fox certainly indicate it. In "The Desert Fox" he gives a magnificent performance as the late Field Marshal Rommel, one of England's most unrelenting enemies during World War II. And he has just finished work in "5 Fingers", in which, as the highest paid spy

JAMES MASON

in history, he does his prying at the British Embassy in Istanbul, for the Nazis But his next film will probably find him playing a Frenchman; he's pretty well set as Inspector Javert in "Les Miserables"

Mason has the support of an outstanding cast in "The Desert Fox", which was produced by Nunnally Johnson and directed by Henry Hathaway. Jessica Tandy, Cedric Hardwicke, Luther Adler and Leo Carroll are all excellent.

Marilyn Monroe will be starred by Darryl Zanuck in "Night Without Sleep", playing a baby sitter —which will be pretty easy, for she was acting as a baby sitter when she was discovered by William Mayberry She went to school on the lot, did "Asphalt Jungle" at MGM, whereupon her own studio realized that she was really stellar material

NBC's Ed Herlihy has been vacationing in Bermuda with his wife and children year after year So he's finally bought a cottage there Maybe he was egged on after a recent storm flooded the basement of his home in a suburb of New York The basement is used as a party and play room, and the household formed a bucket brigade to bail it out.

"Tembo", a feature-length film dealing with Archer Howard Hill's big game African bow-and-arrow hunting safari, will be distributed by RKO.

THE FICTION CORNER

JANE

By Richard Hill Wilkinson

JANE was a member of a large family. There were four boys and three girls besides Jane. The mother was dead. The eight children lived with their father on a farm on the edge of Gransberry. Jane was the eldest of all the children. When their mother died Jane assumed the responsibilities of the household. She was a large girl, very plain and rather dull looking.

3-Minute Fiction

I met her and the rest of the family last summer when vacationing in Gransberry. She fascinated me because she was so sturdy and strong and uncomplaining. The longer I knew the family the more I came to realize how easy it was for the others to lean on Jane. She did two-thirds of the work.

It was interesting (and a little annoying) to watch. I soon came to understand that Jane was the goat. When one of them wanted a holiday he or she would pretend to be sick. Jane kept things going.

It seemed unfair to me. They thought Jane was dull. They took advantage of her.

The more I talked to Jane the more I began to wonder if she were really dull. Yet sometimes I become discouraged. She seemed absolutely stupid.

"Last year," I said to her one day, "I met a family named Burdon, down south. There were six children in the family, and poor Mrs. Burdon had her hands full. She assumed all the responsibility and did all the work. Her children had never been used to anything else, so it never occurred to them to pitch in and help. The more she gave, the more they asked. It really wasn't the children's fault. They never

I came to realize how easy it was for the others to lean on Jane.

knew anything different. Eventually the inevitable happened. Mrs. Burdon wore herself out. One day she was taken sick and died. She was only 51 years old." I shook my head. "It was certainly a pity. After she had gone the children discovered that they could get along very nicely by themselves. They found out that they could do the things they had heretofore always believed themselves incapable of doing."

I stopped talking and looked steadily at Jane But she only returned my look dully. "Wasn't it a shame!" she said.

I didn't see Jane again that summer. Three days after my talk with her I went home.

This summer I came to Gransberry again. One day I drove past the Whitefield farm and, acting on impulse, drew up at the front gate. Amelia, Jane's oldest sister, was sitting on the front porch.

"Is Jane in?" I asked.

Amelia looked at me with wide eyes. "Yes, but she's not feeling well. She's lying down this afternoon."

"Lying down? Jane? May I see her?"

Amelia went into the house. A moment later she came to the door and beckoned to me. I went into the front room. The shades were drawn. It was quiet and cool. Jane was lying on a couch. She smiled up at me. She looked much prettier than the last time I saw her.

"She's been having attacks," Amelia explained. "She can't go on for very long without lying down. We've been doing everything to make her well. We don't let her do much of the work."

"I'm sure I'll be all right very soon," Jane said.

Amelia's eyes lighted. "Oh, I hope so!"

I didn't say much. I merely listened. Presently I understood that Jane was spending a good deal of time on the couch these days. Occasionally she was able to go out driving in the evening with a young man from town who had developed an interest in her.

After a while I rose to go. "Take care of yourself," I told Jane. "Don't try to rush things. If you started in too soon you might have a setback."

"I know," she said. "How are the Burdon children?"

"Who?——Oh! They're fine! Getting along nicely."

She sighed. "I'm glad. My sisters and brothers won't let me work much. When I get strong again they want to be sure I'll stay strong." And Jane's right eyelid fluttered downward as she looked at me.

Drinking Fish

Fresh water fish and sharks do not drink water. Other fish do.

KATHLEEN NORRIS

Helpless Parent

"WHEN I MARRIED Harold, I didn't intend to marry his father as well," writes Tessie La Blanc from Galveston. "I'm 32, Harold is four years older He has a good job, and what with one thing and another, owning our home and having a good nest egg of government bonds and only one little girl, we haven't much to worry about. Hal gets six weeks' holiday every year, and up to four years ago, we had lovely times on those holidays, and in fact all the year 'round. We went off in the car, or into the mountains, and once got as far as California, and more than once to New England.

"Four years ago my mother-in-law died, leaving this house jointly to my husband and his father So that, in a sense we live rent free, for the old man feels that his board balances our interest. My daughter is 8, and she dislikes her grandfather, and no wonder.

Completely Idle

"Pops, as we call him, is lame, very stout and heavy, and completely idle. He gets up late and wants quite a hearty breakfast. He listens to the radio, watches the television, lumbers about scattering ashes and matches, tells me every day of his life that all he

". . . I will kill him . . ."

wants for lunch is just a sandwich and coffee—there are times when I think I will kill him if I hear that again!

"Then he always asks me what's for dinner. I wonder if this makes any other woman as mad as it does me? I just hate to say 'baked fish and eggplant and cornbread and pie.' It just seems that I can't say it! Then he annoys Shirley with teasing; he teases her about her homework, her admirers, asks her if she's going to marry little Larry So-and-so. Meanwhile the radio is going at a roar."

"At dinner he chews everything a long time, and then puts it on the side of the plate. Sometimes he turns aside and takes out his teeth. Harold doesn't mind, he loves his father, and beside that he is away all day, and evenings he is sometimes at his lodge, club, or off fishing or hunting.

"Naturally, I can't entertain, I can't even have any peace, what with the radio, the tobacco smell, and the continual talk. Sometimes I feel that I really can't stand it, and yet I don't want to do anything mean or hurt anyone's feelings. Please help me; is there any way out of this?"

Tessie, the sad truth is that there isn't. It is the rare family that does not have some such responsibility to carry, and sometimes the obligation lasts for years. The old mother, the helpless useless old father may be puttering about in the background for a long time, interfering, criticizing, making endless work and worry.

That's Life

But that's life. And believe me, such burdens teach us great lessons, and enrich our lives even though they seem to be complicating them so dismally. Family after family explains to you in a rueful undertone that Mama, Daddy, Cousin Emma, Uncle Van are coming to live with them; and there's no way out.

Your case, however, is exceptionally hard, because I don't see that you benefit in any way at all. Most old mothers do something, if it is only mending the sheets or acting as an unpaid sitter. And many an old grandfather is a lovely figure in the picture, with his affectionate pride in his family, and his wise comments upon passing events.

But you get nothing but constant strain and the need to render constant patient service. It could make you a saint, but since the very hardest thing in all our human story is to reach the point of humility, patience, and sacrifice that makes a saint, here are a few suggestions that will help.

Shift the bedrooms about to acquire a little upstairs study of your own; put your telephone, desk, favorite books and a couch up there.

Then twice a month go away with Shirley for two nights. Let Harold run Pops and the house for a whole Saturday and Sunday. Be hard about arranging this, if it is difficult, because it really will mean that things run more smoothly, and that you are under far less nervous pressure. The more fuss Harold makes, and he may appreciate the situation more than you think and be glad to have you make the break, the stronger your argument will be that if he can't stand it for 48 hours it is unfair to expect you to take it always, day in and out

EAT ANYTHING WITH FALSE TEETH!

If you have trouble with plates that slip, rock, cause sore gums—try Brimms Plasti-Liner One application makes plates fit snugly without powder or paste, because Brimms Plasti-Liner hardens permanently to your plate. Relines and refits loose plates in a way no powder or paste can do. Even on old rubber plates you get good results six months to a year or longer. YOU CAN EAT ANYTHING! Simply lay soft strip of Plasti-Liner on troublesome upper or lower. Bite and it molds perfectly. Easy to use, tasteless, odorless, harmless to you and your plates. Removable as directed. Money back if not completely satisfied. Ask your druggist!

BRIMMS PLASTI-LINER
THE PERMANENT DENTURE RELINER

"Hot Flashes" Stopped
or strikingly relieved
in 63-80%* of cases in doctors' tests

• If you're miserable from the "hot flashes," and accompanying irritable, restless feelings of "change of life"—you may be suffering unnecessarily!

*For in tests by doctors Lydia Pinkham's Compound and Tablets brought relief from such functionally-caused suffering to 63% and 80% (respectively) of the women tested! Complete or striking relief!

Yes! Research has proved these medicines thoroughly modern in action has shown you where to look for relief from those distressing, nervous "out of sorts" feelings of mid-life "change"! So . get Lydia E. Pinkham's Vegetable Compound—or new, improved Tablets, with added iron! (Wonderful, too, for the functional pains of menstrual periods.)

It acts through a woman's sympathetic nervous system to relieve distress of those awful "heat waves"!

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS

It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE —NOT GOOD FOOD

• Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon . . . right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.

Nation Is Not Preparing For War That It Dreads

By Wright A. Patterson

DOES THE PRESIDENT really believe that we are destined to be engaged in a full scale shooting war with Russia, or are his numerous war scares merely for the purpose of encouraging more and larger appropriations and the levying of more and greater taxes

His actions in connection with our preparations for war would not indicate that he fears an immediate conflict. We are certainly not preparing for such an eventuality.

He announced a year ago that Russia had perfected an atom bomb. On the basis of that statement congress authorized an air fleet of 75 fighting groups including a larger number of bomber groups The President did not then think such an air force was needed, and arbitrarily reduced the number to 62 groups, despite the verdict of the congress and the air commission which he had appointed

Since then he has raised the figures to 85 groups, but has not ordered the planes or recruited the personnel for such a force We are told that Russia has now an air force of 50,000 fighting planes, and the President said that Russia has the atom bomb with which to destroy our ground forces and to devastate the towns and cities of our European allies as well as those of this country.

To meet that force we have, including those of our European allies, some 5,000 effective planes, which include some 50 or 60 capable of attacking Russia. We are talking of or planning for a fleet of from 50,000 to 75,000 war planes. But so far it is only talk, none of them have been ordered.

We have adequate facilities for building such a force, but the job cannot be done overnight. Should Russia have the force she is credited with having, and if she has atomic bombs, as the President tells us she has, without our having adequate air protection for our airplane plants, Russia could destroy those plane plants, and there would be no possibility of our meeting the Russian bombers.

We are told we are building tanks, guns, and other equipment for the ground forces We are recruiting, by draft methods, an army of 2,500,000 men, but such an army cannot hope to alone meet the some 7,000,000 men of the Russian Red army. No ground army we can muster, whatever its size, can defeat Russia, without an adequate air force to support and protect it. Such an air force is the first thing needed should war come, and it is seemingly the last thing being provided.

Possibly those who are directing the preparedness program are listening only to the top brass of the army They would think in terms of ground troops and their equipment. To win a war ground troops are necessary but Eisenhower knows that air power is equally needed.

Congress authorized and appropriated funds for the construction of radar listening equipment for both the east and the west coast that our planes might have an advance warning of Russian planes, should an attack come. The President has ignored that legislation. It was a lack of radar that primarily was the cause of the Pearl Harbor catastrophe.

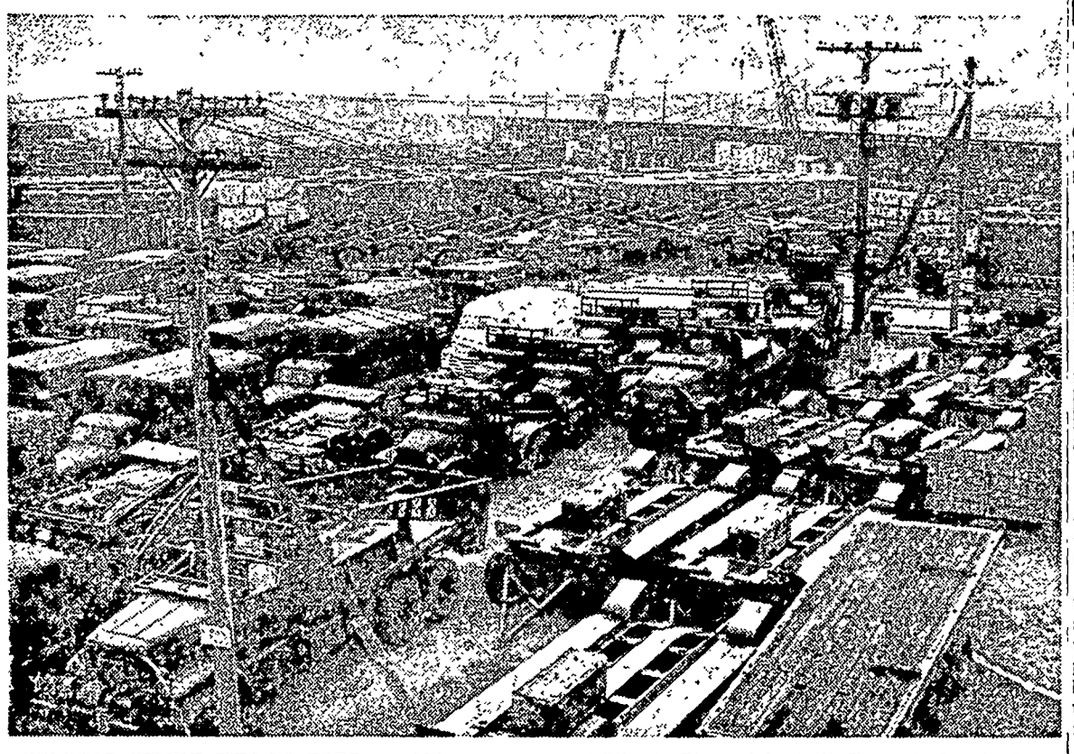
A German contractor had delayed the completion of the station, and, because they did not know of the approaching Jap planes, such air force as we had in Hawaii were caught on the ground and destroyed along with the naval vessels that could have gotten out of the harbor, had their commanders known what was coming.

But with that recent illustration as a reminder, the President has not taken steps to protect our east and west coasts, with all they would need should war actually come.

It is such things that cause me to think that the President is using his frequently repeated war scares for political purposes rather than because of his actual belief in any threat of war. A full scale congressional investigation of our preparedness program and what is happening might be well worth while. It is too serious a matter merely for the playing of politics.

If we are threatened with war, we must prepare both for offense and defense, but we must do it in a practical way, not merely talk about it, and do first things first.

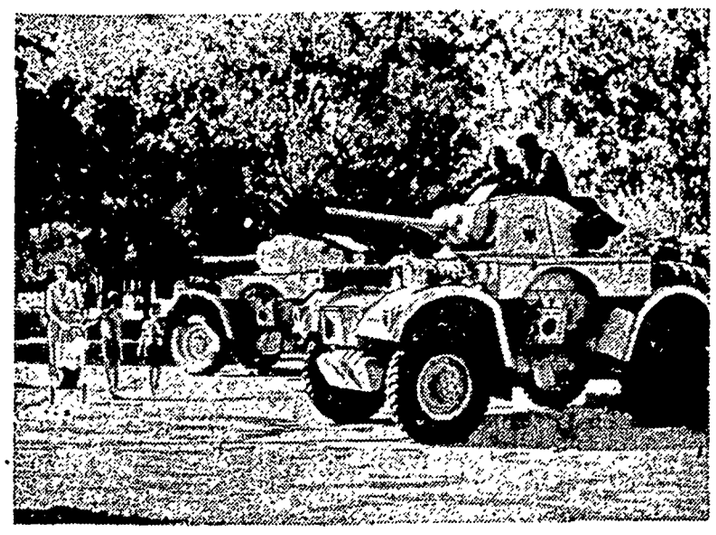
ANGLO-EGYPTIAN ENCOUNTER IN ISMAILIA . . . In this street scene in Ismailia, where the first shooting of the Anglo-Egyptian dispute took place recently, British Tommies keep a truck carrying Egyptian soldiers under the muzzles of their rifles at one of the barricades that seal off streets of the turbulent city. The British have now established a canal zone perimeter beyond which Egyptians cannot proceed. A column of Egyptian tanks headed for the canal zone, but turned back before reaching the British deadline. Cairo newspapers have been playing up a meeting between Egyptian and Soviet ministers to talk about Egyptian moves for freedom.



WILDCAT STRIKE TIES UP PORT . . . Military equipment fills the Staten Island, N. Y., port of embarkation as the wildcat strike of longshoremen prevents loading. But authorities were hopeful that a compromise was in sight which will effect a settlement of the dock strike which has shut down the entire port of New York and also hit other eastern seaboard ports. A spokesman for the striking New York longshoremen promised that if a satisfactory compromise is effected the dock workers will return to their jobs immediately, pending further negotiations.

STRIKE-BREAKING. . . . Tony Anastasia, brother of Albert Anastasia, reputed triggerman of "Murder, Inc." and dock strawboss, talks some of the striking dockers back to work at the army base in Brooklyn. The men went back to work when Anastasia arrived with 200 men. Anastasia was labeled by the Kefauver committee as a strike-breaker, strongarm model. He denied his act was strike-breaking and said he wanted the men to go back to work for patriotic reasons as the army wished it.

STARTS BALLGAME . . . Mrs. Matthew B. Ridgway tosses out first ball to open exhibition baseball game between American all-stars and the Manchi Orions recently in Tokyo. She is wife of the supreme commander, allied forces.



BRITISH UNITS IN ISMAILIA . . . Britain clamped a blockade on all Egyptian rail traffic in the Suez canal zone and Egypt retaliated with a stoppage of movement along the road from Cairo to embattled Ismailia (18 miles south of Cairo). This scene shows British armored trucks cruising the streets of Ismailia. The new battle of blockades broke out as Egypt was threatening to bring Britain to severe account and was expected to charge England with aggression.

MAHARAJAH'S VALENTINE . . . Former actress Nancy Valentine unpacks in her cabin on Queen Mary as she sails from New York to London to wed the Maharajah of Cooch-Behar. Some columnists say she is already married to him.

SPORTLIGHT

Baseball and the Third Big League

By GRANTLAND RICE

THE up-and-coming West Coast has been asking to be rated as the third big league. This is a reasonable request if the West Coast can dig up enough big-league cities and enough big-league ballplayers.

Suppose we inspect the situation at large. There are now 16 major-league clubs with an enrollment of some 500 ballplayers. Does anyone think there are 500 major-league ballplayers in action today? Does anyone actually believe there are 200 major-league ballplayers around? Does anyone believe there are 100 certified, dead sure major league ballplayers operating?

Grantland Rice

Look over the records of the hitters. Look over the even more scarred and tattered records of what they now call big-league pitchers. Look over the home-run balls and the bases on balls and the blow-ups and the frantic rush from 16 bull pens.

What is a big league ballplayer? The stars are Musial, Robinson, the DiMaggio brothers, Campanella, Ashburn, Berra, Fain, Rizzuto, Williams, Kell, Minoso, Irvin, Dark, Kiner, Reese, McDougald and a few more. Especially Rizzuto, who outclasses many of these.

The good pros include Country Slaughter, Gil Hodges, Furillo, Snider, Lockman, Pafka, Fox, Carrasquel and a few more. The promising kids include Mays, Mantle plus a small number of others But if you add up the entire list you won't reach 100 old-fashioned big-league ballplayers.

Look over the old Cubs—Johnny Kling, catcher—one of the greatest. Brown, Overall, Ruelbach, etc., pitchers. Chance, Evers, Tinker, Steinfeldt, infield. Sheckard, Hofman, Schulte and Slagle, outfield. Every one a major leaguer.

The old Athletics—McInnis, Collins, Barry, Baker, Thomas, Schang, Bender, Plank, Waddell, Coombs, Coakley, Bush, and Pennock. These were exceptional teams, of course. But it strikes me that the real big leaguers abounded in those good old days.

• • •

The Big League Angle

The West Coast first needs more big-league ball parks and big-league populations in many cities Los Angeles and San Francisco? One hundred per cent big-league. But what about Baltimore or Buffalo? What about Houston or Dallas?

It is hard to understand the big-league slump More kids are playing baseball today than ever before. The Little League has thousands under good instructors. There are many, many other leagues or teams for players ranging from 10 to 18 years.

Maybe they haven't had time to develop But many of them should a little later on.

To show the scarcity of big-league players, meaning real big-league caliber, take the Dodgers. Well, the Giants did. The Dodgers had five or six men nominated for an all-star team. These men were Campanella, Robinson, Hodges, Roe and Newcombe, with Reese close up.

They were among the elite of 1951 baseball. Yet they couldn't hold a 13-game lead on August 11. This included a 16-game lead on the important losing side.

Now the Giants were a good ball club. So were the Yankees. But certainly neither was a great ball club.

• • •

Texas Talk

At this point in the annual fall proceedings the state that leads the field by a wide margin is Texas In Texas A. and M., Texas and Baylor this expansive commonwealth has three of the country's finest football teams. You can add SMU to this list from now on with Rice and TCU always dangerous.

Why should Texas have so many fine football players year after year? The answer is fairly simple The state has more strong high-school football teams than any in the country. One Texas statistician wrote me they had over 600 high schools with good teams.

This may be true, but it sounds rather high These teams start playing in September and many are still battling late in December Many of these squads are well coached and they go all out at every start. No wonder they give football such men as Sammy Baugh, Bull Dog Turner, Dave O'Brien, Doak Walker, Kyle Rote, Larry Isbell and Fred Benners.

• • •

Football Story

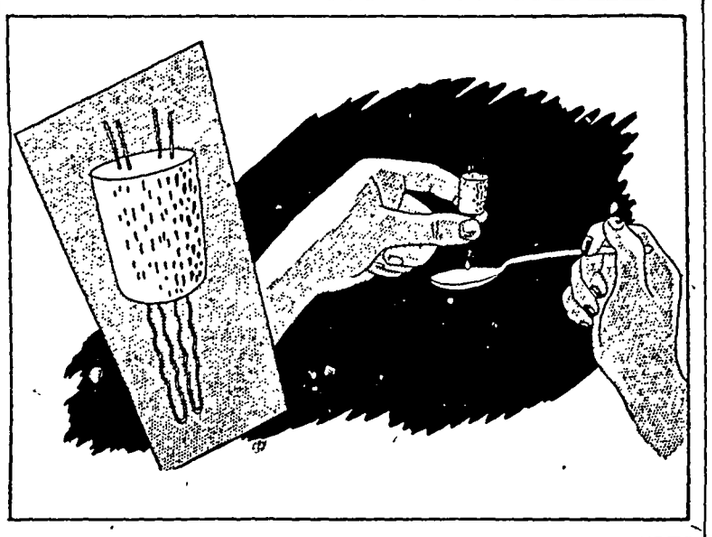
Years ago, when football players were much cheaper, eastern crowds often ran from 75,000 to 80,000.

Today's trouble is that football's costs have mounted heavily. The double-platoon system has been partly responsible for this. One big university admits it has 80 men who must be taken care of, including scholarships and boards.

I know of one coach who was offered $18,000 a year with $80,000 a year for his scouts' expenses.

How to FIX-IT

BY HAROLD ARNETT



MAKE A MEDICINE DROPPER IN AN EMERGENCY FROM TWO HAIRPINS AND A CORK. PINCH THE HAIRPINS TOGETHER TO RELEASE THE DROP INTO THE SPOON.

Household Hints

Cooking Spinach

The only water needed when cooking spinach is that which clings to the leaves during the washing process.

• • •

Strawberries

High-quality strawberries should be firm, bright red in color, uniform in size, and free from sand and dead leaves.

• • •

Russian Dressing

Chopped green peppers can be used in Russian dressing to be served on salads, or in tartar sauce for use with fish.

• • •

Daily Quota

One medium-sized pepper will provide more than a person's daily vitamin-C requirement, as well as generous amounts of vitamin A.

• • •

Good Source of "C"

Fresh ripe strawberries, when served whole or immediately after being crushed, are a good source of vitamin C.

• • •

Market Hint

Beware of buying fresh peppers with surface blemishes, for there may be much waste if the blemish extends through the outer wall.

Clare Kilgore of Tacoma, Washington, came the latter part of the week for a visit of a week at the parental C. C. Kilgore home. Clare, who is a public accountant is being transferred to another location. He will leave in a few days for Chicago for his new assignment. His family will remain at Tacoma until he is again established.

School News

KINDERGARTEN NEWS

We are busy getting our room decorated for Thanksgiving. We have colored Indians Pilgrim Men and turkeys and have put them up on our wall.

We have learned to count to five and write our numbers to three.

We have learned two new songs, this week. Row, Row Row, Your Boat and Oh,Where Has My Little Dog Gone?

—Miss Schiek

FIRST GRADE NEWS

Our room helpers were Marilyn Baack and Linda Waddingham.

We have been making turkeys and other Thanksgiving pictures in Art.

In science class we are making a winter scene. Verlinda Stahl brought some cotton for the snow and Kathy Koerner brought some evergreen branches for trees. We have a mirror for an ice pond.

Our teacher was ill Wednesday afternoon and Thursday. We want to thank Delores Thieman and Mrs. Brown from Garner for teaching us.

—Mrs. Brinkman

SECOND GRADE NEWS

This week in Art class we made the Thanksgiving turkey. Also pictures of what we give thanks for, such as our church home, school, parents, and the gifts of mother nature.

In Arithmetic we have been dealing with money. The children will soon learn how to count small change.

Friday afternoon we invited the First Grade in to listen to some records with us.

Fifteen students received a perfect score in Spelling this week.

—Mrs. Lemke

THIRD GRADE NEWS

This week we made a large poster telling the story of the landing of the pilgrims.

In Geography we have been talking about the 3 necessities in life. We decided it was very true that food, houses and clothing should be called necessities.

In Language we have been learning to use capital letters in sentences and on proper names.

Mrs. Barkema

FOURTH GRADE NEWS

For "Story Time" we finished our book, "Sea Star" and we all liked it very much.

Miss Franken was absent on Tuesday and Mrs. Brown from Garner was our teacher for the day. She showed us new games to use while studying and read many interesting dog stories.

Maurine Johnson fell from the slide Friday and was taken home in the afternoon.

For art we each made a turkey which could stand by itself and then we took them home to decorate our rooms.

Eight people in the fourth grade room bought savings stamps this week.

—Miss Franken

KLEMME LOCAL NEWS

Andrew Brown, father of Mrs. Thieman is a patient in Forest City hospital.

Carol Pavey will leave Wednesday for Webster City to spend the Thanksgiving vacation with her parents.

Rev. and Mrs. E. Morris Egeland visited with Klemme patients at the Mercy hospital Friday.

Mr. and Mrs. Lloyd Lau and Cozette were dinner guests on Thursday evening at the Tillie Boehnke home at Garner.

Mrs. C. E. Kluckhohn is still a patient at the Mercy hospital. She had a set-back following a major operation and will probably be in the hospital for several more days.

Paul Radics, Jr. left Thursday for San Diego via train from Ames. He expects to board ship soon for over-seas service. Paul works with electronics in the U. S. Navy, to which he was recalled for active service a couple of months ago. Mrs. Radics and young son will remain at the parental John Etchen home while Paul is at sea.

Bride Elect Honored At Shower At Home Of Her Aunt

Miss Jo Ann Hummel was honored by a group of ladies at a miscellaneous prenuptial shower given by her aunt, Mrs. Arthur Kudje at the Kudje home on Friday afternoon.

The afternoon was spent informally and all enjoyed a delicious lunch served by the hostess. Miss Hummel received many beautiful gifts.

Greetings..

Thanksgiving 1951

THANKSGIVING DAY rolls around again and all of us should be remindful of the many things for which we should be thankful . . . . above all we should be thankful for living in a free country . . . . we should be thankful for being a part of our fine community of good schools and churches, fine farms and homes and the most friendly folks on earth.

And once again we at the Creamery want to express our sincere thanks to our patrons and our friends for their patonage and loyalty extended to us during the past year. Without your fine spirit of cooperation it would not be possible for us to forge ahead.

This is YOUR cooperative and with your continued support we will continue to grow in the years ahead and our Thanksgivings and your Thanksgivings will all be happy ones.

GREETINGS FROM ALL OF US TO ALL OF YOU—

Klemme Cooperative Creamery Co.

Thanksgiving Greetings

To say that we appreciate your business and friendship during the past year is putting it mildly. We are indeed very grateful to the people of this community for their loyalty and their fine spirit of cooperating with us in the past year.

This is YOUR Cooperative and by all of us pulling together we can continue to grow as we have done in the past years. By patronizing your Cooperative you are helping yourself as well as your Cooperative. This splendid team-work has shown wonderful results and so we have a lot to be thankful for at this Thanksgiving Season.

From the Officers, Directors, and Personnel of this home-owned firm, we extend Hearty Thanksgiving Greetings and Best Wishes.

Klemme Christmas Party For Kiddies Satur. Dec. 22

KLEMME'S WIN-A-PRIZE VOTING CONTEST IS GATHERING MOMENTUM

All Boys And Girls From 18 Years And Under May Participate For Prizes

The voting boxes around the town are getting fuller every day, but there is still plenty of time for more of the boys and girls in the Klemme trade territory to enter the contest and compete for a prize—and they are sure dandy prizes— for 3 age groups.

You don't have to spend one cent, boys and girls, just ask your relatives and friends for their votes. The boys and girls who get the most votes will get the big prizes. But there are around 100 prizes, so lots of you will have a chance to get a nice gift for Christmas.

List Highest Fifteen

Up to Saturday night the judges counted votes and here are the highest 15·

Linda Waddingham
Gary Baack
Sharon Polsdofer
Bueford Polsdofer
Bruce Waddingham
Neva Anderson
Craig Weaver
Terry Weaver
Lee Gruis
Becky Back
Bryant Lemke
Pamela Lemke
James Bock
Janelle Hanson
Douglas Schlei

But, that is only a part of the list—there are lots more and lots of the boys and girls are right up near the top of the the list, so you all have a good chance to get enough votes for a big prize.

Three Age Groups

Boys and girls are divided into three age groups, so all will have a better chance for one of the major prizes. The age groups are 18 years down to 13 years; 12 years down to 7 years and 6 years and under.

The major prizes are a boy's Monarch bicycle, a girl's beautiful Schwinn bicycle, a G. E table model radio. Then there is a long list of other fine gifts for boys and girls of all ages.

Ask at any business places how you can enter the contest and win a prize.

This contest is for children only—no adults.

Gifts At Annual Party

The winners will be announced at the annual Christmas party when Santa Claus comes to town on December 22

Bring the kiddies to town and see the nice Christmas displays featured in the stores.

WEDDING PLANNED—Mr. and Mrs. Roy Quintus, Garner, announce the approaching marriage of their daughter, Virginia Louise, to Harlan H. Haberkamp, son of Mr. and Mrs. Verner A. Haberkamp. The wedding will take place in the United Presbyterian church in Garner, on December 28.

MR. & MRS. DUANE FLOY

Ida DeWeerdt, daughter of Mr and Mrs. Henry DeWeerdt of Garner, and Duane Floy of Fertile were married at the St. Boniface Catholic church in Garner, the Rev. M. J. Manternach officiating at the double ring ceremony.

The bride was given in marriage by her father. Her attendants were her sisters, Mrs. Glenn Wille, matron of honor, and Joanne DeWeerdt, bridesmaid. The flower girl was Patrica Barker, niece of the bride.

The bridegroom was attended by Glenn Wille, brother-in-law of the bride, and Marlowe Floy brother of the bridegroom. David Weiss was ringbearer.

A dinner and reception was held at the home of the bride after the ceremony with about 40 guests present. A wedding dance was held at the All-Vets Social Center at Clear Lake.

The couple is living in the Bates apartments in Garner.

the Highway Story
IOWA DEPARTMENT OF PUBLIC SAFETY

BY RAY EASTMAN

It was at the far edge of the city, where the houses became smaller and humbler, the street lights fewer and the nights darker A door opened and a man was framed momentarily in dim light as he turned for some last word to his wife.

The door closed him into darkness and he felt his way carefully down a worn path to reach the sidewalk. Then he walked across a broad, empty street to a corner where the bus stopped

One other man was waiting there on the dark corner They stood together and talked a moment, then fell into silence of men going to work while the rest of the city goes to sleep. When one man turned up his collar against the cold, the other man did too Then they simply waited for the lights of the bus to find then.

Suddenly, the first man began to feel in his pockets, muttered that he had forgotten something, and walked quickly into the street, crossing toward his house.

Two cars were approaching, one behind the other, on the far side of the street. The man began to walk at an angle toward the cars, apparently thinking he would let them pass then cut directly across the street.

The driver of the first car saw the dark figure walking in the street. He slowed down. The driver of the following car could see nothing and pulled out to pass. The man who had forgotten something was caught for a second in the glare of sudden headlights then died in the street.

As the sirens wailed up from the city, the door of a small house opened and a slight figure of a woman stood in the dim light, looking out to see what had happened.

This is a public safety service of your safety-minded businesses and this newspaper in cooperation with the Iowa Safety Congress.

What does a man think in those unbelievable seconds before his car hits the child running in the street, the woman who clutches her bundles and turns bewildered back to the curb, the man who throws up his arm in a futile attempt to protect himself.

Maybe it's all summed up in that phrase of regret so many drivers have had to speak "I didn't think!!"

Winter is closing in now, obscuring vision with its darkness, lengthening stopping distance with its wet and icy streets. It's time to think.

Think now to have your car inspected for safe mechanical condition. Think now to change to winter driving habits. Slow down when vision is obscured. Watch for the hurried pedestrian

Think now "I didn't think" is too late.

JORGENSONS OPEN OFFICE SUPPLY STORE AT GARNER

Will Be Only Business Of Its Kind In The County

Ray Jorgenson, Jr. is manager of a new business at Garner, "The North Iowa Printing Co.," now open for business in the building at Garner formerly occupied by the Gamble store, next to the Lehmann Bakery.

The new business is the only one of its kind in the county and will carry a complete line of office supplies, steel desks and filing cabinets, office chairs, typewriters, adding machines, cash registers and bookkeeping supplies.

The date for the formal opening will be announced later.

SHAMROCKS WON TUESDAY NIGHT FROM THORNTON

Coach Cappon's Shamrocks stepped back into the win column Tuesday night at Thornton when they defeated the Thornton boys 48-46.

The Rockettes came out on the short end of the scoring and were defeated by the Thornton lassies 40-32.

MR. & MRS. ROBERT DODD

VOWS EXCHANGED — Miss Verniel Humphery, daughter of Mr. and Mrs. John Humphery, Garner, and Robert Dodd, son of Guy Dodd of Clear Lake, were married in a double ring ceremony at the Little Brown church near Nashua. The Rev. F. L. Hanscomb officiated. Mrs. Hanscomb played traditional wedding music and sang the wedding hymn.

The bride was attended by Mrs. Eugene Schaefer, sister of the bride, and the bridegroom was attended by Eugene Schaefer, brother-in-law of the bride.

The wedding party was entertained at the Einer Christensen home near Ventura at a wedding supper, after which a reception was held at the All-Vets Social Center at Clear Lake.

The couple left on a short wedding trip and will live in Garner where the bridegroom is employed at the Gerdes Implement company and the bride is employed as a stenographer in the Hancock County PMA office.

Basketball - -

GARNER CARDINALS DUMP SHAMROCKS IN 2 GAMES

Coach Cappon's Shamrocks met their Waterloo at Garner Friday evening when they lost a double header.

The Little Shamrocks and the Little Cardinals played a good close game but the Garner boys nosed out their visitors 28-26

The varsity feature was not close as the Cards stepped into a first quarter lead15-5 and at half were in front 28-15. The final score was Garner 61 and Klemme 26.

BELMOND TAKES 40-25 TILT FROM KLEMME

Belmond pulled away from Klemme in the second half to take a 40-25 decision at Belmond Tuesday night. The winners had only a 3-point margin, 18-15, at halftime. Dave Helland was Belmond's high scorer with 17 points. Ronald Karsjens led The Klemme Shamrocks with 7 Belmond also won the freshman-sophomore tilt 27-14

JUNIOR HIGH WINS ONE AND LOST THREE

Coach Juhl's "Rockettes" lost to Kanawha here last Wednesday night 14-12 in a poorly played game, but gained revenge at the hands of Crystal Lake Monday night by drubbing them 42-18. The girls were leading 26-8 at halftime. Bridges was high with 18, Clabaugh had 14, Thompson 8 and Barz 2.

The 'Rockets' lost both of their games, the first to Kanawha 15-15, and Monday night to Crystal Lake 25-13

Dennis Haefner and Douglas Jones led with 4 points each and Larsen and Waddingham had 2 each.

Our next home game is Dec 5 with Hayfield at 7:00 o'clock Be sure and follow the Junior High teams. We are trying to collect money for suits, so we will accept donations at the entrance to the gym.

HELLO FOLKS

Mr and Mrs. Arnold Blau are the proud parents of a baby girl, born Sunday, November 25, 1951 at the Lutheran Hospital at Hampton . She weighed 7 lbs. Mr. and Mrs. Blau now have three daughters and one son.

Of interest is the fact that all of the Blau children have birthday anniversaries with some member of the Schwichtenberg family, The latest baby in the Blau family will celebrate her birthday with Grandpa Dave Schwichtenberg and her aunt, Mrs. John Schwichtenberg. 16 members of the Schwichtenberg family will now celebrate their birthdays together at various dates.

HARVEST CORN FOR FARMER NEAR KLEMME

Twenty-seven neighbors and friends gathered at the Victor Hueneman farm north of Klemme recently with corn pickers, wagons and elevators and harvested 70 acres of corn.

Mr. Hueneman has been in ill health for the past several months and has been unable to assist with the farm work.

Those who assisted with the harvesting or the corn were Rudy Bienart, Ben Katter, Elmer Hueneman, Lyle Katter, Clifford Anderson, Fernon Griggs, Mike Maley, Wm Haberkamp, Ben V. Greiman, Albert Kehl, Walt Henschen, Fred Goll, Gideon Wittenberg, Verner Stromer, Sylvanous Wacker, Addis Greiman, Duane Katter, Cecil Katter, Laurence Greiman, Dick Maser, Clarence Lenz, Albert Streyle, Robert Allen, Henry Boland, Ray Haberkamp, Richard Brouwer and Roger Schlawin.

At noon dinner was provided for the men at the Hueneman home Mrs. Hueneman was assisted in the preparation of the meal by Mrs Rudy Bienart, Mrs. Ray Haberkamp, Mrs. T Hueneman and Mrs. Fernon Griggs

The Hueneman family expresses a deep debt of gratitude to the men who gave generously of their time and effort and to the women who contributed food and assisted with the preparation of the noon meal,

They Enjoy Reading The Times

The editor acknowledges receipt of a letter from Josephine Ell, of Panama, Nebraska, enclosing check for another year's subscription. Part of the letter says, "The Klemme Times is very much a part of us. Thanksgiving was a clear and cool day, started raining and sleeting but cleared off by noon. No snow to speak of."

Klemme Couple Married Thirty-Eight Years, Sunday, Nov. 25

Mr and Mrs. Herman Paul, steward and stewardess of the Hancock County Farm, observed their thirty-eighth wedding anniversary on Sunday, November 25th by attending services at the Methodist Church Sunday morning. They then had to leave for their duties at the county farm.

Mr and Mrs. Paul have spent most of their livetime in and near Klemme. Congratulations!

DOROW AWARDED STATE 4-H HONORS

WINTON DOROW

Iowa's 1951 entry in the national community service scholarship 4-H program is Winton Dorow, 19, Garner, the county extension office was advisd this week by G. A. Lineweaver, state boys' 4-H leader. He also has been named to receive a $25.00 Savings Bond in the state 4-H Food Production program, Lineweaver said.

Dorow, son of Mr. and Mrs. W. F. Dorow, received the recognitions because of his work as a 4-H member in promoting good community relations for his 4-H club and the extensive contributions he has made to the nation's food supply through his 4-H projects.

Liberty Methodist Thank Offering Service Sun. Dec. 2

REV. DOUGLAS P. COOLE

THANK OFFERING SERVICE

The Woman's Society of Christian Service of the Liberty Methodist Church will hold its annual Thank Offering Service in the church on Sunday evening December 2nd, at 8:00 p. m. Guest speaker for the service will be the Rev Douglas P. Coole Methodist missionary recently returned from Kutien, Fukien Province, China

Rev Coole is the son of the late Dr and Mrs. Thomas H. Coole, medical missionaries to Foochow, China The son had the unique distinction of serving as a missionary in Malaya, in India and in China. In 1926 Mr. Coole went to Malaya where he was appointed as resident missionary in Sitiawan, serving a great number of Chinese immigrants to that state Later he added to the duties of district missionary those of principal of the Anglo-Chinese School in Satiawan When the Japanese invaded northern Malay Peninsula, he was missionary in charge at Kampar; and also chief warden or air raid precautions and director of Passive Defense for Kampur.

With others he escaped in 1942 to India where for two years he taught in Leonard Theological College, Jubbulpore, and also served as chaplain of the British Garrison Church in Jubbulpore, famous military headquarters. Still later he was transferred to China where he conducted evangellistic campaigns in Foochow and Kutien. Most of his youth was spent in China, and he is fluent in the Chinese language as spoken in Fukien Province.

The offering at the service will be devoted to missionary work around the world under the Woman's Division of the Board of Missions. The public is invited to hear The Rev. Coole speak.

GOOD NEIGHBOR POLICY HELPS LIBERTY FARMER

Neighbors Have Husking Bee To Help Emil Blumer After Accident

After Emil Blumer had suffered an accident on his Liberty township farm and was hospitalized for several days for chest injuries when run over by a wagon while picking corn, his neighbors and friends decided they would do something about clearing the field of unpicked corn.

Carol Brager, Art Lyons, Merlin Nueberger, Wiley Weaver Wallert Mayland, Emil Beier, Bernard Pringnitz, James and Ben Ridder. The ladies came and cooked a big dinner for the men and the fields were picked and the corn all cribbed in a short time and everybody had a fine time.

Iowans Strike Back
KNOW... the answers to CANCER
AMERICAN CANCER SOCIETY

By E. D. PLASS, M. D.

(winner of the 1951 Iowa ACS bronze metal for his outstanding contributions to cancer control.)

Is it possible to acquire an immunity to cancer as with diphtheria or typhoid fever?

There is no way of developing even a relative immunity to cancer as there is to several of the communicable diseases due to germs and viruses. Even the fact that one has had, or at the time even has, cancer does not protect him from development of another malignant growth. In fact, it is not too uncommon (2 to 4 per cent) for an individual to have two or more in dependent cancer in different tissues of organs at the same time.

Is pain an early sympton of cancer?

Unfortunately, "No," except in cancers of the bones and nerves when pain may appear early Usually, the occurance of pain means that cancer is far-advanced and that the new growth is pressing upon nearby nerves.

Physicians, confronted with cancers that have become incurable because the symptoms they produce have been ignored, often express the wish that early cancers were painful. People just naturally do not like pain, and therefore are likely to seek relief. It is so much easier to "laugh off" something which does not produce discomfort. This is one of the reasons the American Cancer Society stresses the "Danger Signals." Pain is not one of them it would be better if it were.

For answers to cancer questions write American Cancer Society, Mason City, Iowa

NAMED INSTRUCTOR — Sgt. Wilford W Back, son of Mr. and Mrs Herman E. Back of Klemme, has been assigned to Amarillo Air Force Base, Texas as instructor. He was transferred to Amarillo from Sheppard Air Force Base, Wichita Falls, Texas. He has been with the Air Force since May, 1951.

TWO BIRTHDAYS CELEBRATED SUNDAY AT SCHWICHTENBERG'S

Mr. and Mrs. Dave Schwichtenberg entertained to dinner Sunday Mr. and Mrs. John Schwichtenberg and sons; Jesse Schwichtenberg; Mr. and Mrs. Harvey Gruis of Thornton and Mr. and Mrs. Arnold Blau and three children.

The occasion was to celebrate Dave Schwichtenberg's and Mrs. John Schwichtenberg's birthdays on November 25th. There are now 14 people in the immediate Dave Schwichtenberg family. With the arrival of a baby daughter Sunday to the Blaus, there are now 15 members.

Thanksgiving

THE BLESSINGS that we Americans inherit, and take so much for granted, culminate and effervesce and are symbolized and reach their heights in Chicago, the great lake city in the middle of the Union's very heart.

This is the American City—America of the Americans. Here we are in our glory; our whole incomparable story epitomized; past, present and future.

The glass of this magnificent lake reflected Indian canoes not so very long ago; the dust of covered wagons rose in these Bagdad streets. The acid test of a devastating fire swept over them; the later test of great battles between labor and capital rocked the city; the wheat pit shook the markets of the world, the jeweled Fair that commemorated the voyages of Columbus rose shining from the ashes; crime touched its highest mark—but the graph that is Chicago's story showed many a higher mark; the marks of great social improvements, of care for the aged, of charities and civic betterments.

I Meet Chigago

One night in October of this year I met Chicago. I walked in a warm sunset to the cathedral and had supper in a resturant on Chicago avenue near State street. Then I walked on to see the last light on the lake, and afterward turned south into the very heart of the city.

There was more light glittering and shining in that city that night than there was in all the capitals of Europe put together. Yes, perhaps it was wasteful, but it was gloriously gay. The shops were lighted, the theatres and movies gushed happy folk, the restaurants were all aglow, and along the sidewalks streamed the Chicagoans, relaxed after the hot, hot day, and gratefully looking up at the cool high vault of the sky.

". . . Indian canoes . . ."

After awhile I began to ride about on buses. I went out to the end of lines, and everywhere it was the same. Some of the homes were small and shabby, but they had tricycles and baby buggies near the doors, shabby little cars parked every which way, and television aerials like little fences up against the sky. People were still on their doorsteps at 10 o'clock, and babies wandered about unreproved. And we all discussed the senational ninth-inning of October 3; some with regret, many with rejoicing.

Lots of these people were not of my religion, color, race or background. Some didn't speak my language. But when a woman came screaming out of a drugstore shouting that she had taken poison and she hoped that would show them, we all helped her into the ambulance and agreed thankfully that she was more hysterical than hurt. Three little boys gathered about a dog who had been hit by a car, but he proved not to be badly hurt either. Mothers of some 10 nations smiled over the boys' relief; we didn't need words.

"America, America, America!" I kept saying in my heart, "This is your city. Not my own western city, with its fogs and hills. Not great New York where the plays and songs and styles and shows are born. Not sprawling Los Angeles, too rich with oil, too blinded with Klieg lights. Not any port city; ports are on our fringes, but Chicago is snug in our very heart."

Sinta Escapes

There was a reason for that mood in which I discovered Chicago; a reason for that hot night when I walked about, and came into my hotel at the highly disreputable hour of four o'clock. A few days before I had had a letter from Sinta. Sinta escaped from a European city a few years ago with her baby and her son, her husband having been tortured and shot before her eyes. Sinta heard footsteps coming up dark stairs in the night, over and over again.

Sinta's baby girl, two years old, died of thirst in her mother's arms. There was water in sight, but not for the baby.

Sinta and her boy were so bullied, so shifted about, starved and weary and cold, that when they finally came down a gangplank into America, and saw the flag of freedom really there, not a dream, but the American flag, flying over American soil, they saw it through tears People laughing, people buying things, people saying what they thought, changing jobs when it pleased them, people planning, house hunting, talking of new cars and new stoves and new clothes. "Life can be a miracle," Sinta whispered.

IT ISN'T TOO SOON!

Christmas is poking its head around the corner of the calendar and wise shoppers are already poking through the drawer for the Christmas list. To make your Christmas shopping as easy as possible, check off the cigarette-smokers, the pipe-smokers and the "roll-your-owners" on your list. Then plan to shop early for both America's most popular cigarette and most popular smoking tobacco. They are: cigarette, Camels . . . smoking tobacco, Prince Albert! Camels come in a special, bright Christmas carton, all ready to give. The one-pound tin of Prince Albert comes in a cheery red and green Christmas box. Both the Camel carton and the Prince Albert box have a space right on them that serves as your Christmas card. Just write in your greeting and your name and they're ready to give. It's so simple—and both gifts are always so welcome. Remember, it isn't too soon. See your dealer today. Say "Merry Christmas" with America's most popular cigarette, Camels—and most popular smoking tobacco, Prince Albert! —Adv.

Praises Dry Yeast's Speed

Farmwife is Prize-winning Cook

Fifty-two prizes in 3 years—that's the impressive record set by prize cook Mrs. Joseph J. Rizzo. This Cedar Falls, Iowa, farmwife is the busy mother of three children, including twins Peter and Paula (above). Yet she finds time to enter and win both State and County Fair Contests. Her latest triumph came at the 1950 State Fair where she won eight prizes in three different classifications.

Like so many top cooks, Mrs. Rizzo has *one* favorite yeast—Fleischmann's Active Dry Yeast. "It's so fast—and easy to use," she says. "I depend on this grand dry yeast for prize-winning results."

The holiday meals ahead call for plenty of yeast-raised goodies. They're so festive, so delicious . . . wholesome and nourishing, too! When you bake at home, use yeast. And use the best—Fleischmann's Active Dry Yeast. It's so fast and easy—gives you grand results. Get several packages today.

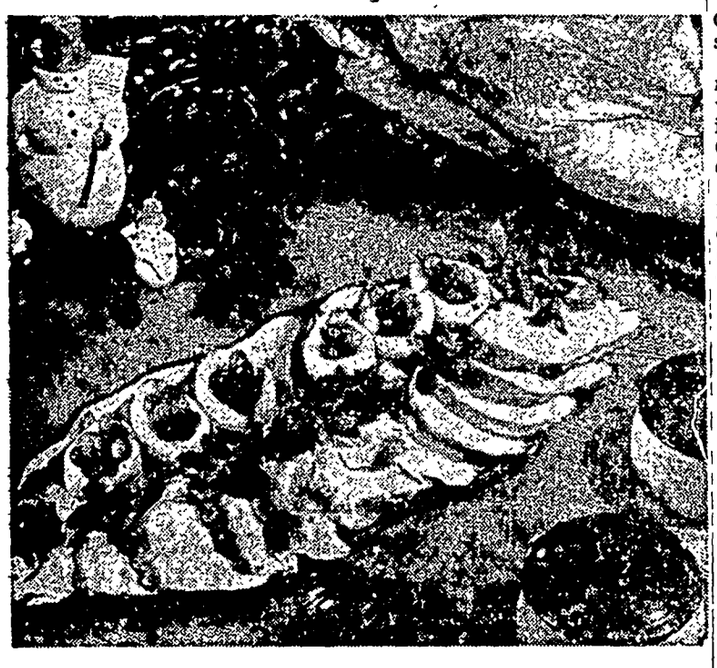
HOUSEHOLD MEMOS... by Lynn Chambers



Leftover Turkey Does a Delicious Encore
(See Recipes Below)

Serve Turkey Again?

HAVE ONE OF THOSE big turkeys for Thanksgiving? There are bound to be leftovers, but they can be delectable morsels that the family looks forward to having if you'll use some ingenuity.

Turkey need not get tiresome on the second and third time around if you prepare it differently than the roast bird served originally. Dress it up, serve with different accompaniments and the family will be thoroughly pleased. So will you, when you see how your ingenuity has changed a leftover into a real favorite.

Sometimes people get so tired of leftovers, they just throw away the last of them. Waste of food? They get so bored with the same taste, they don't care. Don't let it happen to you.

• • •

BIG, JUICY SLICES of turkey are first on the program, as long as you still have a half or most of the half left. Lay those slices on your prettiest platter, all along one side. On the other side serve a new and different relish in pear cups prepared like this:

***Pears with Cranberry Sauce**

Cooked pear halves, canned or fresh
1 cup liquid from cooked or canned pears
¾ cup sugar
2 cups fresh cranberries
½ lemon, sliced thin
Few whole cloves

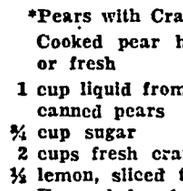
Place pear halves in refrigerator to chill while preparing the sauce. Combine pear liquid, sugar, cranberries, lemon and cloves in saucepan. Cook over moderate heat until berries pop, about 10 to 12 minutes. Cool in saucepan, then chill. To serve, fill pear hollows with cranberry sauce. Spoon some sauce over filled pears to give a pinkish tinge. Use a garnish and relish with meat.

• • •

Chicken Chow Mein
(Serves 4-6)

¾ cup shredded onions
4 tablespoons fat
2 cups diced celery
2 cups diced cooked chicken or turkey
2 cups bean sprouts
½ cup cooked or canned mushrooms
1½ cups chick stock
1 teaspoon bead molasses
2 tablespoons soy sauce
3 tablespoons cornstarch
½ cup cold water
Chinese noodles

Fry onions in fat until delicate brown. Add celery and cook 3 minutes. Add chicken, bean sprouts, mushrooms, chicken stock, molasses and soy sauce; Cook about 15 minutes. Blend cornstarch with cold water and to chicken mixture. Cook for a few minutes, stirring, until thickened. Serve on top of Chinese noodles. Note.—Chopped turkey may be substituted for chicken.



LYNN CHAMBERS' MENU
*Scalloped Turkey Supreme
*Pears with Cranberry Sauce
Buttered Asparagus
Carrot-Raisin Salad
Hot Biscuits Jelly
Beverage
Lemon Meringue Pie
*Recipes Given

Turkey Puff
(Serves 4)

1½ cups flour
2 teaspoons baking powder
½ teaspoon salt
2 egg yolks, beaten
1 cup milk
1 cup turkey, cut fine
2 teaspoons grated onion
½ cup grated raw carrot
2 tablespoons melted fat
2 egg whites, stiffly beaten
Turkey gravy

Sift together flour, baking powder and salt. Mix beaten egg yolks with milk and blend in with flour mixture. Mix with turkey, onion, carrot and melted fat. Fold in stiffly beaten egg whites. Bake in buttered baking dish in a hot (425°) oven about 25 minutes.

• • •

***Scalloped Turkey Supreme**
(Serves 4)

½ cup turkey or chicken broth
½ cup cooked rice
4 tablespoons butter, melted
6 tablespoons flour
1½ cups turkey or chicken broth
1½ cups milk
½ teaspoon salt
⅛ teaspoon pepper
⅛ teaspoon ginger
2 cups diced cooked turkey

Mix together ½ cup turkey or chicken broth with rice. Melt butter, add flour and blend well. Combine 1½ cups turkey or chicken broth with milk and add to butter-flour mixture and cook, stirring, until thick. Add salt, pepper, ginger and turkey. Better a large casserole and place a layer of rice on bottom, then turkey mixture. If desired, sprinkle with finely chopped pimiento, sliced mushrooms and slivered, blanched almonds. Repeat until all ingredients are used. Sprinkle top with buttered bread crumbs and paprika. Bake in a moderate (350°F.) oven for 30 minutes.

• • •

Molded Turkey Salad
(Serves 8)

2½ cups cold cooked turkey, diced
¾ cup diced celery
¼ cup chopped green pepper
2 tablespoons gelatin
2 cups turkey stock
½ cup mayonnaise
½ cup cream, whipped

Mix turkey, celery and pepper. Soften the gelatin in the cold stock and dissolve by bringing to the boiling point. Add to the first mixture and let stand until it begins to stiffen. Fold in the mayonnaise and whipped cream. Turn into a ring mold and chill until firm. Unmold onto a bed of lettuce hearts. Fill the center with mayonnaise to which has been added an equal quantity of whipped cream.

LYNN SAYS:

Fresh or Canned Fruits Yield Delightful Desserts

If you canned a lot of applesauce, try this: whip ½ cup of heavy cream, blend in ¼ cup confectioners' sugar and 1 teaspoon vanilla Fold in ½ cup applesauce. Chill, then serve dusted with nutmeg This serves two.

Dice some oranges and mix with sliced bananas. Place in serving dishes and top with whipped cream and a grating of lemon peel.

If your refrigerator gets cold enough, or if you have a freezer, freeze fruit right in the can. Open, slice and serve with whipped cream and a sprinkling of coconut.

Do something different with your prune whip: alternate layers of prune whip with sliced bananas in parfait glasses, top with whipped cream and a cherry.

Peach halves that are good enough for a party are filled with ice cream and topped with raspberry jam. If desired, place peach halves on a sponge cake square.

Crime in America

By ESTES KEFAUVER
United States Senator

Eleven of a Series

Cleveland Area: 'Middletown' of Crime

Moe Kleinman's story is pretty much the story of the whole Cleveland mob—from rum-running to gambling to a noisy, fussy show of surface respectability.

During a single bootlegging year, 1929, Morris (Moe) Kleinman is said to have grossed almost $1,000,000. There were gang wars then, with beatings, bribery, shakedowns, and unsolved killings, and more than a few of the victims were Kleinman's foes. One of the former pug's proteges—a dubious honor—was Mickey Cohen, now of the Los Angeles police files.

Eventually, Kleinman served a sentence for income tax evasion. Now he is esteemed by many honest people in his community. He disavows any link with ill-doing; his contributions to charity are generous. However, the Senate crime committee gathered evidence which plainly proved that he still is deep in the gambling combine.

This mold which Kleinman and others in Cleveland fit so tidily—the picture of gangsters shifting, when prohibition ended, from illicit liquor to illicit gambling—was one we found everywhere. Yet, crime-wise, Cleveland is a city of dazzling inconsistencies, a sort of Middletown of crime.

First off, the area has been plundered for years by as vicious and powerful a congregation of criminals as the committee spotlighted anywhere. But, ironically, the city is a cheering sample of what good local and state governments can attain when they really lash out at the underworld.

The ex-FBI man who now is the city's public safety director, Alvin J. Sutton Jr., listed for us the main members of the Cleveland gambling syndicate — Kleinman, Thomas Jefferson McGinty, Samuel (Gameboy) Miller, Louis Rothkopf, Moe Dalitz, and Samuel Tucker. The Big Three in prohibition whisky, he said, had ben Kleinman, Dalitz and Rothkopf

Rothkopf is a marked-down model of Kleinman and, like him, served time for income tax fraud. The two hid out from the committee for months.

Finally apprehended, they made a great display of refusing to testify They would not look at our counsel when being interrogated or, finally, even voice the stock "I-refuse-to-answer" refrain. Kleinman sat mute when we confronted him with a printed card from the Beverly Hills Country Club, one of the Kleinman-Rothkopf enterprises. The card read:

"Open Sunday, April 1. Beverly Hills Country Club, Southgate, Ky., Route 27 This card admits bearer to gaming room. This card has been mailed to only privileged customers. Keep it, and do not pass on. If you do not wish to use it, destroy it."

Moe Dalitz, who never has been convicted of a crime, is a prosperous laundryman and, with other exbootleggers, owns a substantial share of the Detroit Steel Co. On the side, he also is a partner in gaming casinos with Kleinman and others, his accountant told us.

After repeal, Cleveland was glutted with gambling. But honest officials—among them Gov. Frank Lausche and Mayors Harold Burton and Thomas A. Burke—cracked down. Gradually, the wide-open gambling clubs were driven out.

The syndicate already had mapped its strategy: it simply moved into the counties outside of Cleveland where local police were more pliant. To make up for the inconvenience of locations, the gamblers arranged transportation for out-of-town and out-of-state customers, hauling them to the clubs.

How did they operate? Tommy McGinty, a stocky, triple-chinned man who looks like the movie version of an old-time bartender, laconically told us that when he ran his Pettibone Club in Geauga county he made regular contributions, solicited by the county clerk, to help the county buy fire engines, tractors, or whatever the clerk said was needed.

• • •

He also described how he operated an illegal race track in the county without molestation: he ran under what he called "the contributions system" which he said he thought was "legal." He gave 5 per cent to the county. "They took it as a tax," he explained.

When Governor Lausche moved into the state capitol, he found four particularly flagrant gambling casinos, all dominated by the Cleveland gang, running full-blast in rural counties.

Local sheriffs ignored his orders to shut them, so the governor plastered the points with violations of such workaday laws as fire, liquor control, unemployment compensation, building, and workmen's compensation. The casinos closed

After he made even the counties too hot for them, the Cleveland syndicate moved its operations across the Ohio river into wide-open northern Kentucky communities in Campbell and Kenton counties Covington and Newport, just across from Cincinnati, became the big gambling centers There the casinos were so unconcerned with police that they advertised openly in Cincinnati newspapers, and placed streamers on automobile windshields.

The syndicate became so rich that when Gambler Wilbur Clark needed more than $1,000,000 to complete his luxurious Desert Inn in Las Vegas, he obtained the money from Cleveland gamblers who, in turn, acquired a 60 per cent interest in his gambling.

Some members also branched out to Florida Gameboy Miller, for one, was a partner in Miami's swank Island Club

Cleveland itself, Safety Director Sutton said, has erased virtually all traces of gangdom. "Racketeers still may make their headquarters here," he declared, "but they have to set up shop somewhere else if they are going to make any money"

We ferreted out the case of a racketeer who set up shop somewhere else, and made money. He was a Cleveland hoodlum who got his start in gambling and bootlegging, amiable Alfred (Big Al) Polizzi.

• • •

Big Al loudly announced, in about 1940, that he was going straight. He had plenty of money. He had been dabbling in Florida real estate with Arthur (Mickey) McBride, the Cleveland millionaire who founded the Continental Press racing news service. Then, too, there was the money he had made in breweries and, of course, from his illegal activities.

He went straight, all right, straight to prison on a black market whisky charge. Once freed, he moved to Miami Beach. He became a partner in a construction company there and in a plush hotel, the haunt of visiting mobsters.

Tanned and dapper, Big Al was the picture of propriety in his appearance before us He gestured with his horn-rimmed glasses and, when I asked him one question, cried: "Well, goodness! I don't know." He primly apologized when he was forced to use the word "hell" in quoting someone else.

• • •

What bothered us, however, was Polizzi's association with his old gang-mates. He confessed that his construction company partner had sponsored the parole of extortionist James Licavoli. Al had visited New York ("to see the fights") with his old pal, Moe Kleinman, and around his hotel fraternized with other known gangsters.

"I don't butt into other people's business," he argued.

In Cleveland, we also unfolded the strange story of Alvin Giesey, former internal revenue agent and now a thriving public accountant. It was Giesey's gumshoeing which sent Moe Kleinman to prison in 1933 on an income tax count. Oddly, when Kleinman was freed, he persuaded Giesey to resign from the government and take over his own tax and accounting problems.

Giesey went further. He also took over the tax problems of such shadowy figures as Polizzi, Dalitz, and Rothkopf, and became secretary of the "real estate" phase of two gambling clubs.

"What is the inducement to you?" Committee Counsel Rudolph Halley asked him in awe. "Why do you do these things?"

The ex-treasury man blurted back: "For the almighty dollar! The same as you're doing, the job you're doing right now ."

SUSPEND CONSTRUCTION

Air Force Curtails Keesler Expansion

MOBILE—The District Army engineer reported that he has received instructions to suspend part of a $16,000,000 contract for additional construction at Keesler Air Force Base, Biloxi.

Col. W. K. Wilson, Jr., Mobile district engineer, revealed that the suspended contract was with J. A. Jones Construction Co., of Charlotte, and called for barracks buildings.

The announcement came shortly after Keesler commander Maj. Gen James Powell announced that the Air Force is considering curtailing a $60,000,000 base expansion program.

The general said the curtailment had no connection with gambling findings of a senate committee study of nearby Biloxi, Mississippi's resort city.

Greenland's Iceberg Export Drops Behind

Greenland's largest export, icebergs, hit a new low this year when, of an output estimated at 10,000 to 15,000 bergs, none succeeded in reaching the crowded shipping lanes between North America and Europe.

The largest Arctic icebergs take off from the continually advancing glaciers and icecap fringe of Greenland's west coasts, says the national geographic society. In an average year about 400 of the total production survive an 1,800-mile southward drift before disintegrating in the warm Gulf Stream. This year no icebergs were reported below the 46th parallel along the southern tip of Newfoundland.

Moving south through Baffin Bay and Davis Strait to Labrador, many of the crystal "castles" and plain "flattops" jam against the coast or are caught in the natural traps of islands and bays. A few swing into the Labrador current and continue southward. Some drift toward Belle Isle Straight and some move around Newfoundland by way of Grand Banks to invade main traffic arteries and threaten shipping

Major Arctic icebergs are produced by about 18 "name" glaciers. The Humboldt, near Thule, north of Cape York, is one that supplies outsize models. Mountains of ice a mile across and rising 200 feet above water have been reported, but the largest are puny compared to the 20-mile-long bergs sighted by Australian air reconnaissance in the Antarctic in 1948.

Nature Boy

"Above all," the doctor argued, "you must eat more fruit, and particularly the skin of the fruit. The skin contains all the vitamins. What, by the way, is your favorite fruit?"

The patient looked gloomy, "Coconuts," he said.

Telling 'Em Off

An immigrant who had recently become a naturalized citizen was applauding a contingent of Loyalty Day paraders in New York City. A man standing in front of him turned and with a superior attitude demanded to know why he was applauding.

The Russian-born citizen replied, "I am applauding good people who are affirming their faith in democracy."

"And if you don't like it," he suggested, "why don't you go back to where I came from."

TO KILL Chicken Lice AND Mites

Apply Black Leaf 40 to roosts with handy Cap Brush. Fumes rise, killing lice and feather mites, while chickens perch. One ounce treats 60 feet of roosts —90 chickens. Directions on package. Ask for Black Leaf 40, the dependable insecticide of many uses.

Effective Cough Syrup, Mixed at Home for Economy

No Cooking. No Work. Real Saving.

Here's an old home mixture your mother probably used, and is still one of the most effective for coughs due to colds. Once tried, you'll swear by it.

Make a syrup with 2 cups granulated sugar and one cup water. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Now put 2½ ounces of Pinex into a pint bottle, and fill up with your syrup. This makes a full pint of cough medicine, and gives you about four times as much for your money. It keeps perfectly and tastes fine.

And you'll say it's really excellent for quick action. You can feel it take hold swiftly. It loosens phlegm, soothes irritated membranes, helps clear the air passages. Thus it makes breathing easy and lets you get restful sleep.

Pinex is a special compound of proven ingredients, in concentrated form, well-known for its quick action on throat and bronchial irritations. Money refunded if not pleased in every way.

FOR EXTRA CONVENIENCE GET NEW READY-MIXED, READY-TO-USE PINEX!

GOT A COLD
TAKE 666 for fast symptomatic RELIEF

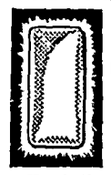
KIDNEYS MUST REMOVE EXCESS WASTE

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS

It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE —NOT GOOD FOOD



• Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon . . . right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.

FEEN-A-MINT
FAMOUS CHEWING-GUM LAXATIVE

The first Christmas Program rehearsal will be held at 2 p. m.

Monday Dec. 3
The Adult Bible Class will meet Monday, December 3 at 8:00 p m. The serving committee for this meeting is composed of Mr. and Mrs. Walter Rosendahl, Mr and Mrs. LeRoy Johnson, Mr and Mrs. Erwin Nuehring and Mr and Mrs. Maxwell Bock.

BULL

When a 1900 pound whiteface bull jumped out of a truck and ran away at Grundy Center last week it caused no little concern for fear the animal would injure some one before it was corralled. Searchers caught up with the animal a half-mile east of town.

TWO FARM SALES ADVERTIZED IN THE TIMES THIS WEEK

On Monday, December 3 Mrs. Winnifred Bradwell, on highway No. 18 east of Garner, will hold a public sale of livestock and machinery. Ed. D. "Red" Bumenbach will cry the sale which will be clerked by the Hancock County National Bank at Garner.

On Tuesday December 4th Walter Rosendahl living southeast of Klemme will dispose of all his farm equipment at auction. The Rosendahls have quit farming and will move to town. Ben Beemsma will cry the sale and the First National Bank of Klemme is the clerk.

Read these two ads in this issue.

Grimes Little Feeders 4-H Club Met November 20

The regular meeting of the Grimes Little Cattle Feeders 4-H Club was held at the home of Carol and Judy Morris, November 20, at 8:00 p m. The meeting was called to order by the president, Galen Gruis. The club had perfect attendance. The roll was called by answering with the name of your favorite tractor. We elected officers and the results are as follows:

Pres.—Carrol Morris
Vice Pres.—Don Kramer
Sec-Treas.—Lois Helps
Club Reporter—Melvin James

We drew names for Christmas and made out the yearly calendar. Three new members, Paul Gilpin, Donald Gobeli and Kathleen James joined the club.

After the meeting Mrs. Morris served a delicious lunch.

Customers in Bill Davis' hamburger stand in Tama were amazed recently when a cigarette advertisement started smoking. The early morning sun, shining through an empty coffee pot, had become focused on the placard and ignited it.

COLD, UNINSULATED FARM BUILDINGS CAN ACTUALLY WASTE UP TO ⅓ OF ALL THE FEED YOUR ANIMALS GET

Low Cost Zonolite Insulation Easiest to Install!

ZONOLITE vermiculite Insulating Fill pours easily from the bag into attic or low joists, or sidewall studs. Fills snugly, leaves no bear leaks or voids. Will not settle. Cuts fuel bills in farm homes up to 40%—will maintain a temperature of 50° in your barns when it's below zero outside.

AS LOW AS $67.60 TO INSULATE YOUR FARM HOME!

Stop in today for free estimate for your home.

Animals kept in cold, uninsulated buildings require more body heat, so that feed that should go for more meat, milk or eggs, is used instead for maintaining warmth. Let us show you how to increase your production, how to stop wasting feed by insulating those buildings with the wonder insulation — ZONOLITE vermiculite Insulating Fill. You can insulate your farm buildings in an afternoon or day, and once it's in, ZONOLITE is there for the life of the building. ZONOLITE is rodentproof, verminproof and FIREPROOF.

ZONOLITE Insulating Concrete Aggregate, used with cement in place of sand, can be poured over old floors or directly on the ground. Easily installed in poultry houses, hog houses and dairy barns. Provides warm, dry floors.

PROCEEDINGS OF THE HANCOCK COUNTY BOARD OF SUPERVISORS

12TH ADJOURNED SEPTEMBER MEETING

Garner, Iowa
November 7, 1951

The Hancock County, Iowa Board of Supervisors met in session on above captioned date pursuant to adjournment with Clint Daniels, Clarence Bird and F. J. Schoun present.

The minutes of the last meeting were read and approved as read.

This being the 7th day of November, 1951, a date heretofore fixed for an adjourned letting on the reconstruction of D. D. No. 13, Lateral A-3, Hancock County, Iowa, the hour for said letting having arrived, the proof of publication being on file, and the board being fully advised, said letting was held as scheduled.

The Chairman of the Board proceeded to open all bids on file and after duly considering all bids on file, the bid of Stille and Greiman of Garner, Iowa, was found to be the lowest and best bid on file for labor and material.

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors acting for and in behalf of D. D No. 13, Lateral No. A-3, that the bid of Stille and Greiman of Garner, Iowa is hereby accepted as the lowest and best bid on file for labor and material on D. D. No. 13, Lateral No. A-3, Hancock County, Iowa. All other bids the hereby rejected.

BE IT FURTHER RESOLVED that a contract is hereby awarded to Stille and Greiman of Garner, Iowa and F J. Schoun, Chairman of the Board is hereby authorized to execute a contract in behalf of Hancock County, Iowa.

The foregoing resolution was offered and read by Supervisor Daniels who moved its adoption; was seconded by Supervisor Bird, whereupon the Chairman, F J Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels, Clarence Bird and F. J. Schoun, ayes. Nays, none. Whereupon the Chairman declared the resolution duly adopted

On motion and second Wm. Henschen is hereby appointed Construction Engineer on D. D. No. 13, Lateral No. A-3, and his bond as such is fixed at $150.00.

On motion and second the contract of Stille and Greiman of Garner, Iowa, on D. D. No. 13, Lateral No. A-3, is hereby approved.

WHEREAS Chas. F Merten, Engineer, has to report that Howard Greiman of Garner, Iowa, has completed his contract for the construction of Lateral No. 18 of D. D. No. 3 & 4 to his entire satisfaction and there is due on said contract a final estimate in the sum of :376 64

BE AND IT IS THEREFORE RESOLVED that the report of the Engineer be and the same is hereby tentatively approved and further hearing on the report will be held at the Court House in Garner, Iowa at 1 00 P M on the 19th day of November, 1951 The County Auditor is hereby directed to cause notice of such hearing to be published as by law directed.

The foregoing resolution was offered and read by Supervisor Bird who moved its adoption was seconded by Supervisor Daniels, whereupon the Chairman, F J Schoun, placed the motion of its adoption and upon roll call the vote is Clarence Bird, Clint Daniels and F J Schoun, ayes. Nays, none Whereupon the Chairman declared to resolution duly adopted.

On motion and second the Board adjourned to November 12, 1951 at 9 o'clock A. M.

REGULAR NOVEMBER MEETING

Garner, Iowa
November 12, 1951

The Hancock County, Iowa, Board of Supervisors met in session on above captioned date as required by law with F J Schoun and Clint Daniels present Absent was Clarence Bird.

The minutes of the last meeting were read and approved as read.

Supervisor Schoun is hereby appointed a committee to investigate and cause repairs to be made in D. D No. 7

WHEREAS Wm Henschen, Engineer, Wm. Boehnke and Chas. J Goll were heretofore appointed commissioners to view and classify lands, and assess benefits in the watershed of D D. No. 156, Hancock County, Iowa, all in accordance with Section 455.45, Code of Iowa 1950, and all laws amendatory or additional thereto, and

WHEREAS said commissioners did qualify as by law directed and did view said lands and assess benefits as by law directed and did file their report on November 10, 1951, which report sets out in detail the assessment against each tract and parcel of land and highway in the district as provided by law

BE IT THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, that the report of the commissioners heretofore appointed to classify lands in the watershed of D. D No 156, Hancock County, Iowa, is tentatively approved and a hearing thereon will be held at the Court House in Garner, Iowa, in the 24th day of December, 1951 at the hour of 1 00 P M., at which time taxpayers in said district will appear and show cause why said classification and assessment shall not be accepted and assessment taxed against the lands in the watershed of D D. No 156, Hancock County, Iowa. All objections to such assessment of benefits shall be filed in writing in the office of the County Auditor in Garner, Iowa at or before the hour set for hearing thereon The County Auditor be and he is directed to cause notice of such hearing to be published in The Britt News-Tribune a newspaper of general circulation, published at Britt, Iowa, setting out the description of the real estate and the designated assessment each tract and parcel of land and highway in the district is chargd with

The foregoing resolution was offered and read by Supervisor Daniels who moved its adoption was seconded by Supervisor Schoun whereupon the Chairman, F J Schoun placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels and F J Schoun, ayes. Nays, none. Whereupon the Chairman declared the resolution duly adopted

On motion and second the assessment commission's report of benefits, other than drainage in D D No 156 is hereby approved

WHEREAS there are deficits and outstanding warrants on the following named reclassified drainage and laterals thereof in payment of repairs, and

WHEREAS it is deemed for the best interests of the taxpayers in said districts that a levy be made at this time to reimburse said districts for outstanding warrents and laterals thereof

BE AND IT IS THEREFORE RESOLVED by the Hancock County, Iowa, Board of Supervisors acting for and in behalf of the following named reclassified drainage districts and laterals thereof, that there be and is levied the sums set opposite each named district and lateral as follows

D D. No. 5 Main	$3,400.00
Lateral No. 47	500.00
Lateral No. 110	400 00
Lateral No. 150	200.00
D.D. No 9, Lateral No. 1	550 00
Lateral No. 3	350.00
Lateral No. 4	250 00

BE IT FURTHER RESOLVED that the levies hereinbefore set out be extended against all lands, tracts parcels, highways and railroads in the watershed of the hereinbefore named districts in accordance with the reclassification of said districts and when so extended to be collected with the regular tax of 1951, payable in 1952, all as provided for by law

WHEREAS there are deficits and outstanding warrants in Hancock County, Iowa drainage districts numbers 7, 26 34, 41 and 116-A expended for minor repairs, and

WHEREAS is is deemed for the best interests of the taxpayers in said districts that a levy be made at this time to reimburse said districts for deficits and outstanding warrants, and

WHEREAS the total of such levies will be less than 25 per cent of the original cost of said districts,

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, acting for and in behalf of the hereinbefore named districts, that there be and is hereby levied the percentages set opposite the following named districts

D. D No. 7	1%
D D No. 26	1½ %
D. D No. 34	2½ %
D D No. 41	1½ %
D D No 116-A	4½ %

BE IT FURTHER RESOLVED that the levies hereinbefore set out be extended in accordance with the original classification against all lands tracts, parcels, highways and railroads in said districts and when so extended to be collected with the regular tax for 1951 payable in 1952 all as provided for by law

On motion and second the Board adjourned to November 19, 1951 at 9 o'clock A M

NEWS AROUND THE COURT HOUSE—

The 1951 report of Hancock County Weed Commissioner, Ray Hunsley, was approved by the Board of Supervisors November 19. The report rates Canadian thistle, infesting 1,,750 acres; wild mustard increased to 1200 acres and cocklebur showing an increase as the 3 top noxious weeds in the county. Mr. Hunsley states that the wild sunflower is increasing, but there is no control on it, since it is not considered a noxious weed

---

The Board at its November 19 meeting approved the contract bond of Stille & Greiman on Lateral A-3 of D D. N.o 13. The contract calls for $2578 16. The Engineer's report on D. D. No. 114 in Crystal township, petitioned for by Laurice Larson, et al, recommending the cleanout would be beneficial, was also approved by the board at the meeting.

Hearing was held on the final estimate of contractor Howard Greiman on Lateral No. 18 of D. D Nos 3 and 4 in the amount of $386 64 and approved. The contract price was $1883.20 and Charles Merten was engineer for the project.

No objectors were present at the adjourned hearing on D. D. No. 157. This district, petitioned for by the Town of Goodell, Iowa, was established and date for letting was set at 1·30 P. M. on January 14, 1952.

PONIES

K. E Reisinger, Eldora pony raiser, lost three head of registered ponies, recently. The animals were found dead in a tract of timber, killed by rifle or pistol bullet.

CHOKED

When his clothing caught on the tumbling rod of a grain elevator, Burton Newby, 42, of Spirit Lake was choked to death recently His jacket was found to have wound up in the machinery, strangling him.

New 2-Cent Post Card Available On December 1

The Post Office Department said Monday it hopes to have the new 2-cent postal card available for sale in all postoffices throughout the nation by December 1.

Actually, the 2-cent card is not effective until January 1, and the old penny post card will be good for mailing any time prior to midnight of December 31.

However, the 2-cent card is being placed on sale early to accommodate advertisers and others who desire to obtain them in quantity to be printed up for mailing early in 1952.

Bridge Club Met

The Wednesday Evening Bridge Club met at the M. L. Harson home. Mrs. Don Christiance won the high score in bridge, while Mrs. Harvey Hubbard won second high. The travel prize was won by Mrs. John Etchen.

Before You Put That Machine Away!!

Before you put that machine away for the season, check it over for the repairs it will need next harvest, then get those repairs and get them on. In years past, this has been a good rule to follow.

Right now, why not let us overhaul your OLIVER picker and get it ready for next year. We can have plenty of time to do everything that is necessary to put the machine in the best of condition and you will have less trouble next season.

UNDERSTANDING SYMPATHY SERVICE

Satisfactory service is worth much--
we try to give it.

Wellemeyer Funeral Service
Klemme, Iowa

Clotheslines are for the Birds!

Westinghouse CLOTHES DRYER IS FOR YOU!

... of course, it's electric!

Let the birds have the clotheslines. Let all the hard work of line-drying clothes be a thing of the past for you!

With a Westinghouse Dryer, you simply take the clothes from the washer, place them in the Dryer, set the Dry-dial Control for the way you want the clothes to come out—bone-dry for folding and putting away, or the right dampness for ironing. That's all there is to it!

The Westinghouse Dryer dries a full washer load of clothes at one time. You'll never have another care or worry about *soot, dirt, rain* or *work* with a Westinghouse Dryer. You'll never dampen clothes again and you'll cut ironing time in half! See it today.

EXCLUSIVE DRY-DIAL—Set it for *Damp* or *Dry*. Clothes come from the Dryer on the *Damp* setting just at the preferred dampness for ironing. On the *Dry* setting, clothes will be bone-dry, ready to put away.

HANDY LOADING SHELF—Only the Westinghouse Dryer has this loading and unloading shelf-door. No stooping or bending to load or unload this Dryer.

WESTINGHOUSE AIRFLOW DRYING—Blows warm, clean air *directly into the clothes*. Dries clothes quickly and thoroughly. Economical, too.

YOU CAN BE SURE...IF IT'S Westinghouse

$2.00 OF OIL HEAT FOR ONLY 92¢—
with Siegler 5-way automatic furnace type oil heater!

Before you buy any oil heater... open the door and look inside!
ONLY IN SIEGLER WILL YOU FIND THE "TWO-IN-ONE HEATMAKER"
THE HEATER WITH THE HEAT TUBES!
Double the heating surface... double the heat forced from every drop of oil!
FORCED AIR
FREE—TROPICAL FLOOR HEAT!
GETS TO THE BOTTOM OF THE COLD FLOOR PROBLEM

MONEY BACK GUARANTEE
If your Siegler oil heater doesn't deliver more and hotter heat over the floor than ANY comparable size heater regardless of make or price, you get your money back.

You get *everything* you've ever wanted in an oil heater when you get a Siegler! You get appearance, compactness, *furnace-volume full-house* heating! It circulates heat off the top . . . *radiates* heat off sides, front and back! It floods heat, ankle-high over the floors. And, thanks to the new, patented Sieglermatic Draft . . . you get constant, uniform heat! Compare Siegler with *any* oil heater . . . *regardless of make or price!* It's sturdier . . . it's porcelain-finished . . . it has the exclusive "Two-In-One Heatmaker"—an *extra* Tubular heater inside!

FREE BUILT-IN SIEGLERMATIC DRAFT
Usually would cost $30 additional—it's built in—increases heat output tremendously... costs you nothing extra!

KLEMME LOCAL NEWS

Bob and Delbert Green of Buffalo, New York, came last week for a visit at the parental Ed Green home, and with their brother, Lyle Green and family southeast of Klemme.

Mrs. Merle Janssen last week received word from her husband, Cpl. Janssen, that he was in a hospital in Japan recovering from illness and that he expected to return to Korea soon.

Walter Rosendahl and family drove to St. Louis, Mo., Sunday and brought Iris Rosendahl back to Des Moines to finish her nurse's training at the Methodist hospital. Miss Rosendahl has been at St. Louis for a few months and has completed her Psychiatric training there in a St Louis hospital.

Mr. and Mrs. Lester Stille entertained to dinner Thanksgiving day: Mr. and Mrs. Lavon Tue and Miss Lois Stille of Des Moines, Mr. and Mrs. Lee Anderson, Linda and Monty, of Charles City; Mr. and Mrs. LaRayne Stille and Stephen of Osage; and Mr. Wm. F. Stille of Klemme.

Wm. F. Stille went to Charles City Friday for a few weeks visit with his son-in-law and daughter, Mr and Mrs. Lee Anderson and children.

Mr and Mrs. Carold Larson entertained to dinner on Thanksgiving Day Alvin Larson and family of Wichita, Kansas; Mr. August Larson of Forest City and Mr anr Mrs. Fred Kluckhohn.

Mr. and Mrs. Kenneth Gast entertained to dinner on Thanksgiving Day, Mr. and Mrs. Smith of Wesley; Mr. and Mrs. Will Gast of Garner, and Mrs. Jennie Sampson and Irma of Des Moines.

Mr. and Mrs. Albert Preibe Miriam, Luella and Francis Ames Mr. & Mrs. Dick Gaffney & son and the Verner Preibe family were guests with Mr. and Mrs. Herman Preibe Thanksgiving Day.

Mr. and Mrs. T. G. Ahrenkiel entertained to dinner on Thanksgiving Day: Mr. and Mrs. Hugh Clark and Jean, and Mrs. Ruth Clark of Conrad; Mrs. Agnes Ahrenkiel of Goodell and Miss Marie Blank.

Mrs. Rosa Mitchell of Swea City entertained to dinner on Thanksgiving Day: Mr. and Mrs. C. G. Waterman and Mrs. Mary Waterman of Klemme, and Mr and Mrs. Hal Pollock and two children of Garner.

Those present were: Mr. and Mrs. Walter Rosendahl and family; Mr. and Mrs. Harvey Barz and family; Mr. and Mrs. Marvin Barz; Mr. and Mrs. Ronald Barz and family; and Mr. and Mrs. Eugene Greiman and family.

AROUND IOWA

LOST HAND

Dean Eggert of near Ladora, in Iowa County, lost nearly all of his right hand in a corn-picker accident last week.

DROWNED

Thin ice claimed its first Iowa victim, when Gerald Bordwell, 12 year old Livermore youth, fell into a creek near his home there and was drowned. His seven year old brother Wayne also broke through the ice but managed to reach the shore.

ACCIDENT

A hunting accident cost the life of Dick Knoke, 16 year old Griswold youth, last week. The boy was killed when he stumbled over a log and was struck by the charge of his shotgun.

FISH

Some 20,000 catfish will find a new home in the Skunk river soon. A biological survey has disclosed that nearly all of the fish in the river were killed durthe last winter and spring.

EGG

Double-yoked eggs are not too infrequent. But a hen on the Ben Buehler farm near Odebolt produced a perfect three-yoker recently.

DREAM

When Bill Otis, Red Oak coal truck driver, lost his billfold recently, his wife put her mind to work on the problem. Mrs. Otis dreamed that the billfold was in the Odd Fellows hall. Acting on his wife's hunch, Mr. Otis went to the hall to look for his wallet and there it was.

CORN PICKER

The corn-picker is maiming lots of Iowans this season. At Sioux. Center, Calvin Mouw of Terril lost his thumb and three fingers.

THE WHITE HOUSE

$5 Million Spent on Renovation Of Historic Executive Mansion

WNU Washington Bureau

When President Truman and his family move back into their home at 1600 Pennsylvania avenue shortly after the first of the year, they will find the historic old White House a stronger, safer structure designed to last another century as the residence of the nation's presidents.

During the two years of its renovation at a cost of well over $5,000,000 the architects and builders have been careful to preserve the traditional appearance of the White House both as to exterior and interior, so that to all intents and purposes the old mansion remains the same as it always has been in the minds and hearts of the American people.

Four new bedrooms have been added, making the total number of rooms now 54 Only the strengthening of the basic structure has been concentrated upon; there has been no change in the architectural arrangement of the house.

On the first floor, there are no great changes except in the state dining room, used only for official dinners. Formerly paneled in dark oak, this room is now painted a celadon green. An antique Hepplewhite four-pedestal dining table which seats 22 is a new addition. The private dining room, used by the President and his family, has Sheraton and Hepplewhite furniture in the 18th century tradition, most of which has been in use in the Blair House, temporary residence of the Truman family during the reconstruction, but which is refinished and recovered and placed in the original location.

In general, the first floor retains its air of simple dignity, while undergoing a strengthening of color throughout. The blue room, frequently called the prettiest in the house, is a deeper and more vibrant blue.

The red room is a lighter red, not as dark and brown as before. The draperies are red silk damask of 18th century design, and the same material is used to cover the walls. The only different note in the room is white damask used on a set of Hepplewhite chairs and a Chippendale wing chair.

The walls and draperies of the green room are the same shade of striking emerald green silk damask. Much of the furniture in this room had been in use in the Blair House. The green room had been redecorated and restored only a few months before the house was vacated.

THE EAST ROOM, the largest in the White House, where Abigail Adams, wife of the first occupant hung her washing, is used only for state receptions. A white and lemon-gold silk damask has been woven from an old document characteristic of many used in the 18th century. This material is used for the draperies, replacing the old cranberry red silk ones. Here, too, hang the portraits of George and Martha Washington saved when the British burned the original building in 1812.

The grand stairway to the second floor is entered from the main hall, rather than the secondary cross-hall as before the restoration. The marble floor, columns, pilasters, and wainscot of the main floor hall are new. A set of walnut framed Louis XIV benches have been installed. The hall is somewhat sparsely furnished, in keeping with its essentially plain architectural nature.

The second floor is brighter and more informal. The Monroe room is furnished with its restored and refinished original pieces. The draperies here are of an 18th century print of fruits and flowers in rose and blue. This room is very simply furnished with a desk, bookcase, sofas and lounge chairs suited to its historical background.

Having undergone a varied history and having been relegated to different rooms in the White House, the massive Victorian bed in which Abe Lincoln slept is once again the main feature of the Lincoln room on the second floor. Other pieces of furniture belonging to Lincoln are also used in the room, once Lincoln's study and where he signed the Emancipation Proclamation.

While the treatment of the second floor for the most part expresses a spirit of informality, the third floor is even more informal. The third floor bedrooms are smaller and economy and simplicity have been sought in the process of their renovation. There are 17 full bathrooms and 16 half baths in the house

The original kitchen, on the ground floor of the White House, with its vaulted ceilings and stone fireplaces has been replaced by a new and modern kitchen. The old kitchen will be used as a conference and broadcasting room. Here will be sofas and lounge chairs of more modern vintage but completely restored, together with an old pine table and large hutch built from old rafters of the house at the time the building was reconstructed in 1815-17.

The main interior change is a strengthening of color throughout, and in contrast to this, the executive mansion will be a "whiter" White House.

THE FICTION CORNER

THE FIREBUG

By Daniel Shifren

DR. Hawes made whipping motions his staff interpreted as, "Grab the extension, quick!"

Sadie Pruitt lifted a phone; then Hewlitt Stevenson, Dr. Hawes' expert in things linguistic.

3-Minute Fiction

Lieutenant Linstrum was saying, "Doc, against my better judgment, the commissioner and the rest of the boys thought you ought to be called in on this case."

Dr. Hawes had been a psychiatrist until one of his cases caused him to see the application of psychology to criminal detection.

"Lieutenant, don't tell me only the commissioner How about the business men whose properties are endangered by this firebug?

The Lieutenant's voice crackled. "The business men too!"

Doc suppressed a laugh. "The case interests me. But first, your department lets the story out to the papers that Doc Hawes has been called in." The howl was just what Hawes expected. "Listen, Lieutenant, I like publicity, as you may have heard, but that doesn't matter here. I know these arsonists. Play ball or I can't be much help."

Hawes observed the pleasant reactions in his staff, waiting for the silence to break.

"Okay, Doc. I hope you know what you're doing."

Stevenson had the tape recorder ready; the front-page story in the Chronicle was spread out.

The waiting was getting to be monotonous. Doc eyed the phone morosely. But this time it pealed.

The stranger said, "Dr. Hawes, I've been an admirer of

"I've come about your ad in the Chronicle," the little man said.

yours . . ." Doc knew who it was immediately. "Do you have any ideas on nabbing the culprit?"

To keep the man talking, Doc Hawes asked who was calling and waved for Sadie to notify the Lieutenant to trace the call, and for Stevenson to start the recorder.

"My name is Harris," said the stranger. "Just an admirer, you see"—

"Thanks for your interest, Mr. Harris. No, I don't have much of an idea. This arsonist is a very clever man and is going to be hard to catch."

Hawes heard a delighted laugh. He fed the conversation until Stevenson signaled "enough."

STEVENSON played the tape back. "Definitely! That's Lancashire, glossed over some by residence in America. Afraid that's all I have on this one, Doc."

"You mean Lancashire, England?" Stevenson nodded.

Sadie Pruitt said the call had fizzled. It had come from a drug store.

"Is the Lieutenant still on? . . Lieutenant? Can you manage to look like a lawyer for a while tomorrow? Got a slim lead. I'm going to try something in the Chronicle."

In the quiet office Lieutenant Linstrum poured over a sheaf of stage-prop briefs, uncomfortable in his role.

He said, "Doc, this setup looks screwy. How you get any results playing these games I'll never know."

A whispered "Shhhhh!" came from behind the slightly open inner door. "There's someone coming."

A little, mild-mannered man entered. "Solicitor Linstrum?"

"Yes?"

"I've come about your ad in the Chronicle. I lived most of my life in Lancashire."

Doc Hawes stepped into the office. "Oh, it's our 'Mr. Harris'. How are you, sir?"

The man was startled, ran.

"Grab him, Lieutenant. That's our firebug."

At police headquarters, the Lieutenant asked, "Mind telling me now, Doc, how you baited this fish?"

"Simple," said the Doc, smiling "Few men can resist the chance at some easy money. Here's the ad I ran in the Chronicle."

The little rectangle read: "Attorney, settling large estate, requires point of information that can be supplied only by a former resident of Lancashire, England. Most liberal reward."

"How liberal would you say, Lieutenant?"

"About twenty years."

GRASSROOTS

Great Britain Did Not Use Well Money U. S. Gave

By Wright A. Patterson

THIRTY-FIVE BILLION dollars of American tax payers' money have gone down the rat hole of English socialism, says Fulton Lewis, Jr., after a careful and thorough investigation in England. He found every other war-devastated nation of Europe well-recovered, fully employed with production at prewar figures with ambition aroused, both as to each nation generally and with their individual citizens, with the shops and stores well stocked with both the essentials and the luxuries of living.

In England there was only austerity, meagre supplies, rationed food, a lack of ambition, reduced production, an ever-increasing burden of debt. All of that, regardless of the fact that this country has contributed to England more than two and a half times as much money as it has contributed to all the other war devastated nations of Europe. England did not use the money we generously provided for the purposes for which we intended, the reconstruction of the war-devastated sections of that country, but did use it to finance the venture into socialistic experiments which did not work.

The wealth of England has been dissipated without benefit to any class. The "something for nothing" of the Attlee labor government, in so far as it has worked at all, has been only possible through the money paid to the labor government by the people of America. And we are urged to follow the example of England, to follow the pied piper of socialism over the precipice into the oblivion that is today the fate of England.

The legislation the President has so ardently urged congress to enact is but additional steps toward socialism. The Brannan farm plan, medicine, federal aid for education—these and others are but moves for a centralized government that could easily become as much of a menace as the Atlee government.

We need a leadership that will turn us away from these socialistic dangers. No political party will provide such leadership, but there is one man, one individual, in whom the people of America have implicit confidence. That one man is the discredited general of the Army, Douglas MacArthur.

His words of warning against the socialistic advance are stirring millions of his countrymen to the battle front to oppose that more to be feared enemy than any other, socialism. Gen. MacArthur led our forces to victory in a terrible war. He administered the defeated enemy, starting the Japanese people in the ways of peace and instilling in them the desire for individual liberties. But he was not permitted nor invited to witness the final chapter of those great events of which he had been the central figure. Now he turns to another leadership. He does not do so as a candidate for the nomination to any public office. He does so only as a truly great American interested in the future of his country with the hope of defeating that greatest of all enemies that could threaten us—socialism. My guess is America will follow where he leads. It is our last chance for a continuance of the America we know and love.

—*—

All of the wild, reckless and needless spending of the taxpayers' money is not confined to members of the congress in Washington. Some of the same disregard for the interests of the people may be found in the council chambers of our towns and cities, in the court houses of our counties, in the legislative halls of our state capitals. It may not be in sums of billions, or even millions, but small or large, as it may be, it is not the money of our elected officials that is being foolishly or needlessly spent, but ours, the people who elected them to office. Congress may be too far away for us to reach in any practical way, but that is not true of our town, county and even state officials. We see them at frequent intervals, and should not hesitate to call them to account for not seeking ways to economize, rather than only ways to spend.

—*—

The chiselers on the relief rolls are so draining the wealth of the nation that it will not be long before there will be nothing with which to provide relief for those really entitled to consideration.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

SCRIPTURE: Exodus 33; Numbers 11-14.
DEVOTIONAL READING: Deuteronomy 11 13-21.

'There Is a Tide'

Lesson for December 2, 1951

"There is a tide in the affairs of men,
Which, taken at the flood, leads on to fortune;
Omitted, all the voyage of their life
Is bound in shallows and in miseries."

SO Shakespeare said, and he was at least half right. Opportunity sometimes knocks twice; but don't count on it.

The Bible lesson for the week is a failure-story, not a success-story. It is the story of some persons who contracted the grasshopper complex, a mental disease that still attacks people today. The story is from the wild days when the Israelites, now two years out from Egypt, were first knocking at the doors of the Promised Land.

Dr. Foreman

The Israelites were land-hungry, but the only land they wanted was what we now call Palestine and it was not theirs for the asking. They would have to fight for it, every foot of it. They all knew this, Moses knew it. There was no going back to Egypt and slavery. Nobody wanted to stay in the desert. The obvious thing was to go ahead into Palestine. But there were two questions filling the people's minds: (1) What kind of country is it, really? and (2) can we fight our way into it?

• • •

Investigating Committee

SO a committee of investigation was formed, of one man from each of the twelve tribes,—grown men, trusted leaders, by no means "boy scouts"

Don't think of these men as sneaking through Palestine from bush to bush, peeping out Indian fashion to see what they could see. They walked into Palestine, not unobserved but unmolested. They spoke Egyptian, of course, and could easily pass as Egyptian traveling salesmen. They spent around six weeks in that country, visiting the cities, no doubt talking with the people.

In late summer they went back to the encampment on the edge of the desert, carrying with them some of the fruits of the land. (Incidentally, those pictures showing bunches of grapes six feet long are a funny misunderstanding. Palestine has good grapes, but not quite that good! They carried the grapes on poles because that was the best way to keep them from being crushed.)

At the big mass-meeting at the desert camp, the twelve made their report. On the facts, they were all unanimous. It was a wonderful country, "flowing with milk and honey," a great country for cattle and bees. Palestine did look marvelous to their desert-burned eyes. But on question number two there was a serious division: Can we fight our way in? Yes, said the minority of two. No, said the majority of ten.

• • •

Grasshopper Complex

THE majority put their reasons in a single revealing sentence: We were as grasshoppers in their sight, they said, and so we were in our sight.

Nowadays we call this state of mind the "inferiority complex"; our name is a new one for an old trouble. Think of yourself as a grasshopper, and grasshopper is what you shall be. Take yourself at other people's lowest estimate, and that is all you will be worth.

The trouble with the grasshopper complex is that it is catching. The majority report was wrong, as majority reports so often are. But the people believed them rather than the courageous pair who stood up to declare boldly, We can do it, with the help of God.

Well, what did God do about it? That is perhaps the saddest part of the story. He did nothing about it. He let the people impose their own sentence. Grasshoppers? Very well, so be it. Grasshoppers die, they never amount to anything, no one bothers to kill them, they just die. God was believed to strike men dead in anger, or command the earth to open and swallow up the wicked, or hurl lightning from the skies on his enemies. But he wasted no miracles on these self-elected grasshoppers. He only let them die. Ten, twenty, forty years . . . just drifting about in the wilderness, till they all died, and a new generation took their places.

Opportunity did not knock twice. There was a tide in those men's lives.

(Copyright 1951 by the Division of Christian Education, National Council of the Churches of Christ in the United States of America. Released by WNU Features.)

Rebirth of Religion

SOME people in Washington are predicting that President Truman's nomination of Gen. Mark Clark to be U S. ambassador to the state of Vatican City will turn the next election into another religious debacle reminiscent of the Al Smith campaign of 1928. However, a number of events in recent weeks indicate there may be a rebirth of religion in this country which would belie a growth of religious bigotry and intolerance.

One was a gathering here of 40,000 members of Jehovah's Witnesses faith at the American Legion ball park. The following week more than 70,000 Catholics gathered at Washington's monument to recite the Rosary. And the same day, approximately 10,000 Protestants celebrated the second annual Festival of Faith at Uline arena. Also, from other sections of the country, particularly rural areas, come reports of increased church attendance and impressive demonstrations of faith in God. As in the past, the people of Christian nations are turning to religion as a panacea for the world's ills when troubled and confused.

Many of those who express opposition to diplomatic relations between this nation and the Holy See are ignorant of the history of such relations. The President's establishment of diplomatic relations with the Vatican is not new. And despite the protests from some sectors, the President believes he is right and has said he will press for the ratification of General Clark's nomination.

• • •

Early Relations

One of the earliest acts of congress of the new-born Republic of the United States was to establish consular relations with the Papal States in 1797. Consular relations were maintained until 1854 when the post of diplomatic representative to the Papal States was raised to the rank of minister. This country then maintained a minister there until 1867, a total of 70 years, until the Pope lost his temporal power. In 1870 the Papal States were incorporated into the Kingdom of Italy.

Our last minister to the Papal States was Rufus King, who resigned January 1, 1868, when congress declined to appropriate further money for maintenance of the legation in Rome.

As a result of a treaty in 1926, a new accord was entered into between the Pope and the Italian government which set up the state of Vatican City. It is over this independent state the Pope has temporal power and to which President Truman nominated a representative. Thirty-seven other nations now maintain diplomatic relations with Vatican City.

• • •

Area Is Small

The area of the state is small, only 108.7 acres, with a population of approximately 3,000. It includes St. Peters' church, the Vatican palace and museum which covers more than 13 acres, the Vatican gardens and other buildings. Thirteen buildings in Rome, housing offices and administration of the Holy See have extra-territorial rights.

The Secretariat of State represents the Vatican in diplomatic relations with foreign countries.

• • •

Neutrality Pledged

Under the 1926 treaty with the Italian government, the Pope is pledged to perpetual neutrality with respect to political disputes between governments and the abstention from international congresses, unless his mediation is specifically requested by both parties to a dispute.

The flag of the state is white and yellow, charged with the crossed keys and triple tiara. The state also has its own postage stamps and coinage system. Police duties are carried out by the Pontifical Armed Corps, which comprise the Noble Guards, the Swiss Guards, the Palatine Guard of Honor and the Pontifical Gendarmerie.

• • •

Roosevelt Envoy

In 1939 President Roosevelt named Myron Taylor, former president of U. S. Steel, as his personal envoy to the Vatican. He served until his resignation in 1947.

President Truman said in his nomination of General Clark that national security, and the purpose of diplomacy and humanitarianism would be served by having a full-fledged ambassador in the most sensitive listening post in the world in the battle against communism.

• • •

Civil Service

Frank E. McKinney, the new Democratic national chairman, went into action the day after he assumed his new post. He recommended a plan to put collectors of Internal Revenue under Civil Service. The plan won President Truman's approval and he will pass it along to congress in January. By putting collectors under Civil Service it is believed it will lessen graft and increase efficiency of the tax department.

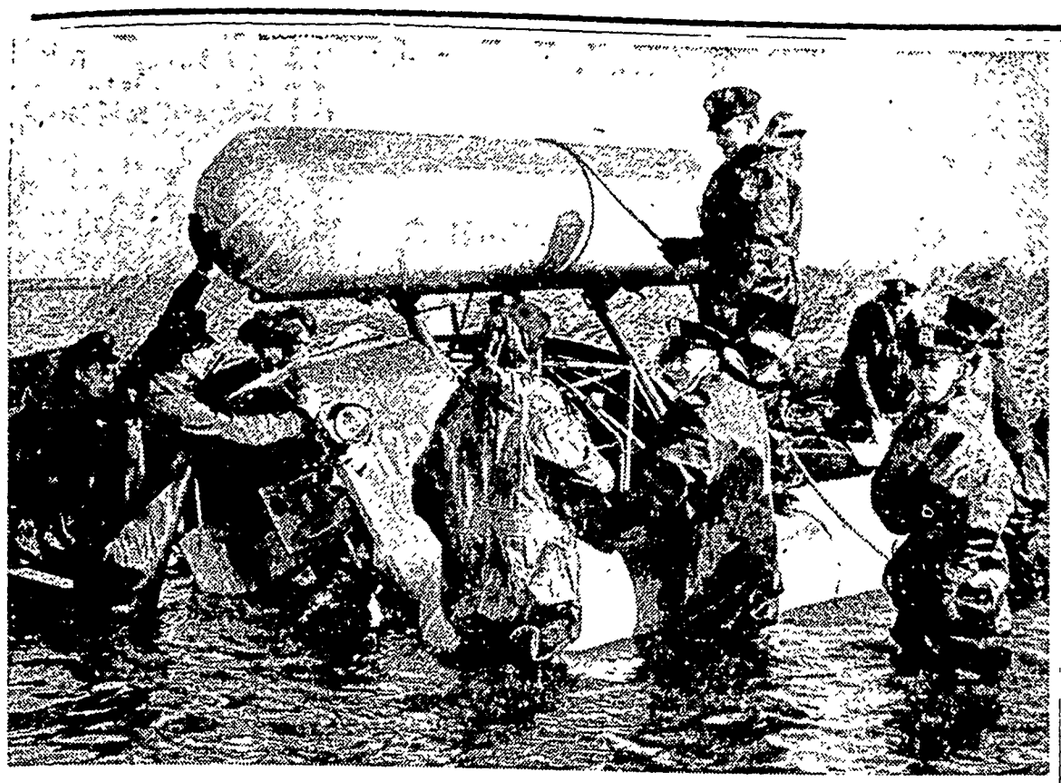
How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial membranes. Guaranteed to please you or money refunded. Creomulsion has stood the test of millions of users.

CREOMULSION
relieves Coughs, Chest Colds, Acute Bronchitis



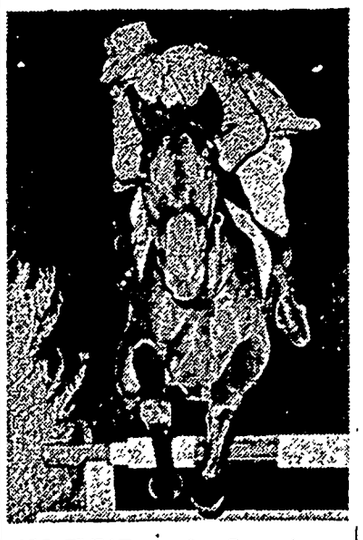
RESCUE COPTER OVERTURNS . . . A police helicopter which had rescued two young girls who had been adrift all night in a rowboat in Jamaica Bay, N. Y., overturned after picking the girls up and spilled two policemen and the girls back into the river. Alice Hartman, 15, and Nancy Adams, 15, and their pet collie were rescued from a marshy section of the bay a second time. Clad only in dungarees and sweaters, the girls spent a terrifying night, drifting with the tide. They kept warm by cuddling up to the collie. The sandwiches which the girls carried became wet and inedible, but the pooch was provided with a tin of dog food.

SAVED FROM THE SEA . . . Six Cuban seamen who clung to a life raft for 48 hours were rescued by members of the crew of the coastal tanker Henry C. Wallace, 40 miles off Key Largo, near Miami, Fla. Their 136-foot motor vessel, the Cocoa, is said to have sunk and left its crew in the sea on a trip for Cardenas, Cuba. The six rescued men are Eulalio Perez, Jacinto Palacio, Mario Serafin, Luis Diaz, Manuel Sebrian, and Almado Batista. They were the entire crew of the sunken vessel. Here a lifeboat from the tanker, manned by members of the tanker's crew, takes the men to safety aboard their ship. They know their ordeal is over.

MRS. ROSENBERG DONS "MAE WEST" . . . In Tokyo Rear Adm. Ralph A. Ofstie, chief of staff to Vice Adm. C. Turner Joy, commander naval forces far east, helps Mrs. Anna Rosenberg, assistant secretary of defense, button her "Mae West" before sending her by helicopter from Tokyo to Yokosuka naval base, where she was to have lunch. She visited the carrier Bon Homme Richard. Mrs. Rosenberg was making an official visit to the far eastern war areas for a first hand inspection.

IN THE SWIM . . . This is the plunging bra suit designed by Rose Marie Reid, Los Angeles. It is called Tiffany Ice and is made from lace over metallic satin. Price of the suit is $50. It is one of the new 1952 fashion creations in beach wear.

ATTEMPTS MILLION-DOLLAR HOLDUP . . . Kenneth Ashcraft (left), San Francisco, is arraigned by federal officials in New York to await charges on conspiring to steal air force funds. Ashcraft and three others—two of them soldiers—were seized by the FBI while allegedly planning robbery of an air force pay roll at Mitchell Field, L. I. G-Men said the plotters gave up the plan to hold up the payroll convoy and agreed instead to employ an expert safecracker.



ALL CLEAR . . . Joe Green hangs onto his seat as he clears a barrier with Balkos Edge in the national horse show at Madison Square Garden, New York City. The horse is owned by Harry D. Ryan, Uniontown, Pa.

Lost, But How You Played Game!

By GRANTLAND RICE

ONLY a few days ago we ran across one of the best coaches in football. I might add he is also a man of high character. We talked about many things connected with football.

"After all," he said, "don't forget the main thing. That's to win. We must make our teams believe that winning is about everything."

The trouble is this philosophy can be overdone. It is more important to any real man to play well and lose, than to play badly and win.

At least that was the philosophy of Devereux Milburn and Tommy Hitchcock, two of the greatest competitors I ever knew. When two teams or two men meet—only one can win. How can both win? It isn't possible.

Look what the overstressed idea of winning has done to football. Protests of a broken jawbone in the Drake - Oklahoma A. and M. game Drake says it was done deliberately Terrific feud between Marquette and Tulsa. Charges made beyond the brutal actions of a dock-side brawl. Texas A. and M beaten on an illegal play. Southern California accused of deliberately crippling the star California back.

Grantland Rice

And all over the map hundreds of college football players are imported and paid (one way or another) for the purpose of winning games. What a beautiful picture! How well it speaks for the game!

What thrill can any college get out of winning with hired or rented players, from teams packed with scholarships, free board and, too often, so much under the table? I can't quite get the philosophy of such people. Maybe we live in different worlds.

Naturally it is usually more fun to win than to lose. But when too much of a premium is put on winning above everything, you are heading for cheating or some other form of crookedness. It cannot be escaped.

This is the main trouble with college football today. It is rushing at break-neck speed to disaster, unless a few sane people check the downward rush of what should be the finest game of them all—at least on a par with baseball.

• • •

Milburn On Winning

The late Dev Milburn was as fine a competitor as I ever knew. Match him up with Tommy Hitchcock, who feared nothing, including violent death.

"I never think much about winning or losing," he said to me once "I want a tough contest. (About half his body was held together by wires from polo injuries.) I'd rather lose in a tough polo match than win a setup. That goes for golf. I'd rather be beaten 5 and 4 or 7 and 5 by Hogan or Hagen than beat a dub 9-up.

"What's the score got to do with it? It's the fight on the field—the contest—where you give everything you've got to do the best you can. I never cried when I was beaten. Who am I that I should always win? Let the kids cry—not the men.

"Anyone who can't take defeat gracefully isn't much of a sportsman. It's the game—the playing of the game—that means everything. Why can't these blind people see it?"

I asked Dev one day what he put above winning

"Many things," he said. "First, conditioning That means getting ready for any test ahead. It means self-discipline. Second, giving the best you have in you on every play."

"Even if it means breaking your collar bone?" I asked.

"Even if it means breaking your neck," he said with a grin.

Milburn had seven bones broken from waist to neck. But at 57 he was still playing big-time polo. He knew how to play.

"When you have trained and gotten ready—when you have given all you have—the score doesn't matter. At least it never mattered too much to me. The man who won't train and get ready, the man who won't give all he has in him, is not a good competitor—even if he wins."

I'll kick in with Dev Milburn. And a fellow known as Tommy Hitchcock who dived out of an English sky to test a plane as you or I would light a cigarette.

• • •

Football's Money Cost

Tim Mara, head of the Mara clan that owns the very able Giants checked us on the march.

"You wrote," he said, "that big time college teams today cost just about as much as the good pros cost. Well, they don't come that high. It cost us around $325,000 to $350,000 a year to run the Giants Other pro teams cost almost as much. Pay for good players is still high and so is equipment and everything else."

College teams of the big-time variety, now cost from $250,000 to $280,000. Father Guthrie of Georgetown, which wasn't quite big time in 1950, figures Georgetown's grid expenses last year resulted in a net loss above $250,000. The last ten years cost Georgetown one million dollars for football.

There are colleges taking this same beating all over the map.

OFFICIAL COUNTY PAPER

THE KLEMME TIMES

Volume 57. KLEMME, IOWA, WEDNESDAY, DECEMBER 5, 1951 Number 3.

Klemme Site Of Hancock County Girls Tournament

TOURNAMENT WILL BE HELD HERE THREE NIGHTS

Seven Teams Will Compete For Top Honors Next Week End

The annual Hancock County Girls Basket Ball Tournament will be held in the Klemme high school gymnasium next week end, Thurdsday, Friday, Saturday, December 13, 14, and 16.

The first game gets underway at 6.30 o'clock Thursday evening when Corwith and Crystal Lake will tangle. The next game will be between Klemme tnd Woden at 7:50. Hayfield drew a bye so will play their first game on Friday evening when they battle the winner of the Goodell-Kanawha game at 9:00.

Other games on Friday will be the winners of the Corwith-Crystal Lake game vs, the winners of the Klemme-Woden game. This semi-final will be played at 7:30.

On Saturday night the consolation game is scheduled for 7:30 o'clock and the championship game at 9:00 o'clock.

There are some mighty good girls teams in the county and there should be plenty of thrills for the fans. Who will win? That is anybody's guess.

GLENN L. WILLE

GI IS GRADUATED — Pvt. Glenn L. Wille, son of Mrs. Marie Wille of Klemme, recently was graduated from the radio maintenance course at the infantry school at Fort Benning, Ga., it was announced by Maj. Gen. John H. Church, commandant. Pvt. Wille is a graduate of Klemme High School.

By E. D. PLASS, M. D.

(winner of the 1951 Iowa ACS bronze metal for his outstanding contributions to cancer control.)

Is cancer a blood disease?

Cancer is not a "blood disease" in the sense in which that term is generally used. However, cancer may develop in the tissues which form the blood cells—cancer of the blood-forming organs, such as leukemia, Hodgkin's disease, etc. Moreover, certain cancers are carried from their original sites to distant parts of the body by the blood, when small pieces of tumor break loose in a blood vessel. In such cases the blood serves merely as a mechanical carrier of the cancer cells.

Are all tumors cancerous?

No, pathologists recognize two types of tumors-benign and malignant which generally behave differently clinically. The former is "not life-endangering," while the latter is "virulent" and malicious," and "endangers life." At the two extremes, these differences are well accentuated but there is a small group of tumors in which the differentiation microscopically is difficult or impossible. Under such conditions, the pathologist usually "plays safe" by calling the tumor malignant.

Benign tumors are usually slow-growing and develop by pushing aside the tissues that surround them; they produce symptoms by their size. Malignant tumors, cancers, support themselves at the expense of the neighboring tissues; they destroy normal tisues with which they come in contact and thus interfere seriously with their function.

The final criterion of the benign or malignant character of a tumor depends upon whether it can by itself, kill the host; but common sense indicates that it would be foolhardy to await such biological proof. Instead, the physician removes a piece of all of a suspicious tumor and asks the pathologist for his opinion based upon microscopic examination--this constitutes a "biopsy."

For answers to cancer questions write American Cancer Society, Mason City, Iowa

Neighbors Help

HUSKING BEE HELD ON FARM NEAR GOODELL

A corn huskinug bee was held on the M. C. and Ralph James farm near Goodell recently, when 10 good neighbors, headed by Harry Ostendorf picked and cribbed 45 acres of corn. Ralph has been sick and unable to attend to his farm duties.

Four pickers were used by the following: Harry Ostendorf, Koehler Bros., Lauen Bros., and Arnett Ostendorf, who operated the James Picker. There were also four tractors and eight wagons on the job The men in the "Good Neighbor" group were Harry Ostendorf Walter Koehler, Arnett Ostendorf, Gilbert Koehler, Herman Lauen, Andrew Lauen, Christopher Lauen, Bert Suntken and Raymond Wille.

Mrs. Gilbert Koehler and Mrs. Walt Koehler, assisted with the dinner and lunches. Mrs. Gilbert Koehler, driving to the field, to be sure those operating pickers were served with lunch.

Neighbors Aid Garner Farmer

Neighbors went to the farm of Mr. and Mrs Asa Legge recently and husked and cribbed 35 acres of corn and combined 8 acres of soybeans

Dinner was prepared by Mrs. Otto Klinge and Mrs. George Legge at the Asa Legge home Mrs. Legge teaches school at Liberty District No. 4, and was unable to be present but had assisted with the preparation of food the evening before.

There were 4 pickers and 1 combine to complete the job with the following men assisting:

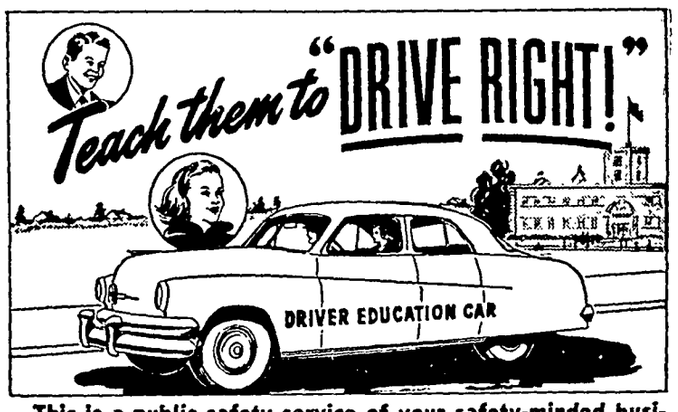
Wiley Weaver, Walbert Mayland, Aaron Stromer Ben Klinge, Joseph Ptacek, Otto Klinge, Geo. Legge, Jim Legge, Ben Ridder and James Ridder.

VERDICT GIVEN DEFENDANTS IN DAMAGE ACTION

In the case of Martin L. Stokes vs. Calvin Josten and Ewald Josten tried in the Hancock Co. district court, the jury deliberated several hours and found for the defendants.

The case grew out of an automobile collision at an inter section in Klemme early on the morning of October 26, 1950, in which the plaintiff claimed damages in the sum of $486.46.

District Judge Tom Boynton of Forest City was the presiding judge. Bryant and Bryant, Mason City Law firm, represted the plaintiff and Senneff and Buck, Britt law firm the defendant.



This is a public safety service of your safety-minded businesses and this newspaper in cooperation with the Iowa Safety Congress.

We Iowa drivers pile up about 50,000 accidents a year It's obvious quite a few of us make quite a few mistakes

Yet, many of us are now teaching the young son or daughter how to operate an automobile. Out of the usual concern of parents, we do the best job possible

In that teaching process, however, we may pass on to the youngsters the same mistakes we habitually make in traffic. Then those mistakes become multiplied. They become "family" errors that may follow your youngster all through his driving life

Driving is not a business where hand-me-down knowledge holds up. Put your youngster's driving future in the right hands. Driver education teachers in high schools have the training, the patience, the purpose to teach your teen-ager how to drive right.

If your high school does not offer driver education, find out how you can help establish this valuable training in your community. Teach them to drive right.

PMA Election Analysis

RASMUSSEN ELECTED PMA CHAIRMAN

Serving on the Hancock County Production and Marketing Administration Committee in the coming year will be A. E. Rasmussen of Garner, as chairman, Sam A. Barber of Kanawha, as vice chairman, and L. S. Fisher of Britt, regular member.

They were elected at the annual county PMA convention held Saturday, December 1st, at Garner. Delegates to the convention came from each township in the county, having been elected by mailed ballots distributed to all farm owners and operators in November. Also elected at the convention were first and second alternate committee members to serve in the event any of the first three should become unable to serve at any time during the year. The first and second alternates are Lester Stille of Klemme and Chas. Hoeft of Garner.

With the aid of the community or township PMA committeemen elected in November by farmers, the county PMA committee will administer the Agricultural Conservation Program, Commodity programs, federal crop insurance and price support operations during the coming year. All three members of the county PMA committee automatically become members of the County Agricultural Mobilization Committee.

The balloting for township PMA elections was by mail this year, where other years it had been at meeting in the townships.

More interest was shown in the elections with a total of 717 ballots cast in the county this year.

Alt. Delegate ------ Wm. Rabe

By Paul Henderson, County Extension Director

The price of new corn varies widely over the state of Iowa. In the soft corn areas of the northwestern part of the state, new corn is selling out of the field for as low as from 85 cents to $1.15 per bushel. In eastern Iowa, where the quality of the 1951 crop is good, the price is reported up around $1 70 per bushel for new corn.

The U S. Department of Agriculture crop reports show a larger corn crop this year than last, for the nation as a whole. Many Iowa farmers find that hard to believe. But there's a good corn crop in Indiana and Illinois.

Much of Iowa's current crop is of low quality. Its high moisture content means that it will have to be feed up or moved by the time warm weather rolls in next spring. Francis A. Kutish, Iowa State College farm economist, says that this means a heavy run of feeding this winter with the good corn likely to be scarce next summer.

But he points out that Canada has a lot of low-quality wheat that she would like to sell in the United States when Great Lake shipping opens up next spring This Canadian feed wheat could replace a lot of cash corn that normally goes to the Alantic and New England states to feed dairy cattle and hogs. That could take some of the pressure off corn prices next summer, particularly if the prospects for the 1952 corn crop are good then.

Yet, the situation is likely to be serious enough that it looks like good business for Hancock County farmers to line up needed feed supplies this fall We have more livestock to feed than a year ago. Some farmers may find good buys of high moisture corn—saving any good corn they have for next summer. It's almost a sure bet that a farmer with good corn on hand then will have some mighty good property.

The higher feed costs will make feeding ratios narrow in 1952. Returns from feeding grain to livestock won't be as they were in 1951. Kutish does not look for any increase in the total U. S. pig crop next spring. He figures the western Corn Belt will cut back enough to fully offset the expected slight increase by farmers in the eastern Corn Belt. In fact, the cutback out here may be enough to pull the whole national 1952 spring pig crop down slightly. We are at the end of our post-war hog expansion until bigger corn crops are harvested, Kutish concludes.

BY RAY EASTMAN

Lightening may never strike twice in the same place, but death on the highways does not conform to such cosmic rules.

The first ice of an early winter month was on the country road when an Iowa farmer started a hurried trip to town. His ten-year old son, out of school for the Saturday, went with him.

About two miles from home, their car approached a through highway and the farmer set his brakes instead of pumping them, gently, for a safe stop on ice.

The car went into a skid, snapped off the highway stop sign and crashed off the high grade. The point of the culvert smashed through the right window, striking the boy on the head, killing him instantly.

Two months later, the same man approached the same highway stop in a pick-up-truck. He was driving slowly, almost listlessly. Perhaps his mind was filled with such terrible regret as he drove to the fatal spot that he simply forgot to stop.

The truck moved slowly but steadily onto the highway. The long blare of a horn trailed across the countryside. The cattle in a near by field started and galloped away from the sound of a grinding crash.

The farmer died within two months and 200 yards of his son and a family was twice broken.

BELMOND BRONCOS TRAMPLE KLEMME SHAMROCKS

A strong Belmond team defeated Klemme here Friday night 44-24. Belmond led at the half 20-16. The Belmond frosh-soph team also won its game 33-12. Karsjens was the top scorer for Klemme with 12 points. Severseike led Belmond with 17 points.

KLEMME HIGH SPLIT WITH KANAWHA TEAMS

In a double header basket ball game here Tuesday night with Kanawha, the local girls won their game and the boys lost in a close contest.

After trailing 18-22 at the half, the Klemme Rockettes forged ahead to put the game on ice and won 41-30.

The Kanawha Bulldogs had a lead all the way and were in front 22-12 at the half. The Shamrocks then gathered up some momentum and played a close game in the last half but the Bulldogs nosed them out of the race 34-28.

VAGABONDS WIN OVER HAYFIELD INDIES—

Thursday night a newly organized Klemme Vagabonds independent basket ball team went to Hayfield and took the Independent team there 70-65, with Merlin Brinkman and Calvin Josten leading the attack with 28 and 20 points respectively.

Others on the team were Bob Baack, "Red" Schmidt, Bill Lacey, LaVern Schmidt and Harlan Carolus. "Pete" Kilgore is manager of the team.

HELLO FOLKS

Mr. and Mrs. Elmer Meinders are the proud parents of a fine baby boy, weight 9 lbs. and 7 oz. born at the Mercy hospital in Mason City on Wednesday, November 28 1951.

An 8 pounds and 15 ounce baby boy was born to Mr .and Mrs. Lloyd Halfpop on Wednesday, November 28, at the Mercy hospital in Mason City.

Streets, Business Places Decorated For Christmas

Hancock County Rural Young People Hold Election

The 1952 Rural Young People officers were elected at the Regular November meeting and will take over their duties in January. President is JohnBurgardt, who replaces his brother, Connie, who was 1951 president; Vice-president, Miriam Hueneman; Sec Ruth Uumeyer, Treas Donna Wallrett, Reporter, Marian Everett; Music Ch. Edith Jensen; Recreation Chairman, Charles Sheets.

Lois Hueneman will speak at the regular monthly meeting December 10, and will show the pictures which she took while in Europe this summer. There will also be a candy making demonstration.

Birthday For Sondra

Sondra, daughter of Mr and Mrs. Kenneth Medin celebrated her 12th birthday on Monday, December 3rd. In honor of the event the family took in the movies at Garner.

4 Legged Pheasant

VALUABLE COW SHOT LAST WEEK AT EMIL & VERNER LAU FARM

The fore part of last week Emil Lau and son, Verner, who farm the Emil Lau place in a partnership, found one of their best cows dead in a field.

The dead animal was posted and found to have been shot, the shot perforating the animal's stomach and causing death.

It is presumed that some "sportsmen", who in the first place did not have permission to hunt on the Lau farm, had been shooting pheasants in the field where the cows were grazing and hit the cow when a pheasant flew up.

Mr. Lau stated that the cow was valued at $275 to $300 and that the insurance did not cover loss by shooting, so the Laus are out quite a sum with no chance to collect as the guilty parties are unknown.

There were some 60 head of livestock in the field and the farm was posted against tresspassing. That should have been warning enough for any hunter to stay out of that field.

Mr. Lau and his sons, like many other farmers, are very liberal with hunters and do not object to their hunting if they stop and ask at the house and get permission. Its those "sportsmen" who sneak in from the back lands that the farmers hate. Other hunters hate them too as it makes it difficult for the good fellows who like to hunt and act like gentlemen.

Before you hunt, ask permission so the farmer will know who is in his field.

KLEMME GRANDMOTHERS CLUB ORGANIZED

Is Second Town In State To Have National Club

A number of Klemme ladies organized a Grandmothers Club Tuesday afternoon at the home of Mrs. George Schoenwetter.

Mrs. Edna Thada , presided and told the ladies of the plans of a Federated Grandmothers National Club. Mason City was the first town in Iowa to have such an organization, and now Klemme is the second town in the State to organize a Grandmothers Club.

There were 16 women present at this meeting. After the business meeting a contest was held to guess baby pictures of some of the grandchildren. Games were played and a nice lunch was served by Mesdames Thada, Schoenwetter and Jorgenson.

The next meeting will be at the home of Mrs. Albert Etchen on December 17th.

COLORED STRINGS OF LIGHTS AND EVERGREEN FESTOON MAIN STREET

Many Stores Have Nice Decorations And Display Of Holiday Gifts

Klemme really took on a Christmas appearance the past week when the Civic Club decorating committee put up the strings of colored lights and evergreen festoons across Main street. The committee did a good job and the street looks very nice both day and night.

Quite a few of the business places have gone in for some extensive decorating which all adds up to the fact that Klemme is ready for the holiday trade.

Several Klemme merchants have reported they have already done a good business in Christmas gifts and that many people are shopping earlier this year. The stores are well supplied with gift items that are reasonably price, too. Some stores say they are selling more of the larger gifts also, gifts for the home that the whole family can enjoy the year around.

Shop early and have the advantage of larger selections.

KLEMME YOUNG LADY HONORED BY GROUP AT KANAWHA

A large number of friends and relatives gathered at the grade school building in Kanawha last Wednesday evening and held a pre-nuptial reception and shower honoring Miss JoAnn Hummel of Klemme and her fiance, Harry Peters of Kanawha

The evening was spent informally. A wire recording was made of the party and refreshments were served. JoAnn and Harry received many nice gifts.

Shower Held Thursday Eve

On Thursday even ng a shower was held at the home of Mrs. Clarence Abbas in honor of JoAnn Hummel and Harry Peters who are soon to be married. A nice lunch was served and Miss Hummel was given some very nice gifts.

JUDGES 'SNOWED UNDER" COUNTING WIN-A- PRIZE CONTEST VOTES

The judges who have been detailed to count the Win-A-Prize votes for contestants are literally "snowed under" and did not get the tabulations in order for this week's publication.

The list of contenders for the Civic Club's Christmas gifts is growing and competition is getting keener, according to Ernie Gerardi who is chairman of the campaign. Ernie says "the list is now so long it will reach across the street, and interest is really red-hot."

Boys and girls, if you are not collecting votes, start right now as you can still win a nice gift for Christmas.

Boys and girls who have parents in business, or working at business places are not eligible.

ONLY ONE PLATE FOR YOUR CAR THIS YEAR

Quite a few car owners thought they were shorted one auto license plate this year, but that is all there will be, just one. The plate is to be attached to the rear of the car, not in the front.

Birthday Dinner

Monday evening, Mr. and Mrs. James Carlson entertained the following for a six-thirty dinner; Mr. and Mrs. R. W. Elder, Art Wellemeyer, and Mr. and Mrs. Danold Bacon and family. Mr. Elder's birthday was December 4th, Mrs. Carlson's, Dec. 6th and Mrs. Bacon's Dec. 7th Needless to say there was a lovely big birthday cake.

"And to think it all started with him getting the wrong number!"

KATHLEEN NORRIS
The Doll House

"IT IS a thoroughly unhappy wife who is writing you," says the letter of Harriet Evans of Chicago. "And if you think I ever dreamed I could write those words you are entirely mistaken! Two years ago, when I was married at 19, I thought Justin was the most attractive, impressive, handsome, adorable man I ever had known—and I think so still.

"But two things make me desperately sad, and I get sadder and sadder, and I can't bear to look ahead to months—years—to my whole life going this way

"This is the situation. When we married Justy was 39, and I was 19. It was terribly exciting, especially as Mother and all my relatives were pleased. I came to a lovely apartment, and we have a little lake house where we go in summer.

"Justy told me all about his financial affairs and what he planned, and I felt very proud to be trusted by him. He said he did not want children for at least five years, at which time he should be assistant superintendent of sales, and perhaps one of the vice-presidents, and said of course he did not want his wife to go on working.

Had Good Job

"For a year I had had a good job with my aunt who employs about 12 girls in her millinery store - or rather rooms, for one is on the second floor of a big building. She makes hats for some of the smartest women in the city. I was one of her salesgirls, and was paid $50 a week.

"I loved this work, I had friends, and it was fun. My aunt is very

". . . adorable man . . ."

strict with her girls, but they adore her. I miss them. I would not mind if I had a baby, or one coming, for I love babies, and always wanted two girls and two boys. But I did tell Justy, when we were engaged, that if he felt it would be silly to have them too soon I would agree to whatever he liked.

"We have an excellent cook, who does everything. I dust the rooms, fill vases, write notes, and sometimes go downtown to a movie. Justy usually has lunch at his club, and quite often goes in for a rubber of bridge after his office day, and I am glad of all that, and that he plays golf and sometimes goes fishing.

But this leaves me very lonely. Am I ungrateful to feel this way, with all the blessings I have? I feel like a puppet, dressed up to play a part, when I used to feel as if life wasn't long enough for all the fun that was in it! Please help me out."

The answer is, Harriet, that you have two problems: one not serious, and the other fundamental. To take the unimportant one first, it is unfortunately true that there are still men left in this world who feel that to have a pretty, useless, devoted little wife as a sort of appendage to their own magnificence, is flattering to their self-esteem. She must look pretty, she must be obedient, she must be out of the way when more interesting things absorb him, and ready to amuse him in leisure hours. This is an unsatisfactory and even degrading role for a woman to play, but since you are his wife, and he is generous and kind and steady and devoted you'll probably have to play it, for a while at least.

Right to Motherhood

But the other thing, the calm decision to cheat you of your right to motherhood, is much more serious, and you should not tolerate it for a moment. Whatever silly promise you made in your girlhood, about a situation and conditions of which you were entirely ignorant, no decent man would hold you to in these early years of your wifehood.

It isn't only the moral consideration and that delaying the coming of children works physical miseries, and often lessens the devotion between husband and wife, but it has a bad effect upon a woman's nerves She feels herself belittled, supported and dressed and taken about as an exhibition of beauty and charm and wifely devotion, but not considered worthy of the deeper and more basic responsibilities and joys of her position.

Even though you are only 21, and he 20 years older, you don't have to endure this situation. Before you try any drastic measures, such as telling him with honest regret and reluctance that you cannot longer be his wife, in fact, while he feels this way toward children, try more diplomatic means. With such a man it would be easier to play on his vanity; dwell casually on the pride other men feel in a small son or daughter, and regret mildly that Justin will leave no descendants to admire him.

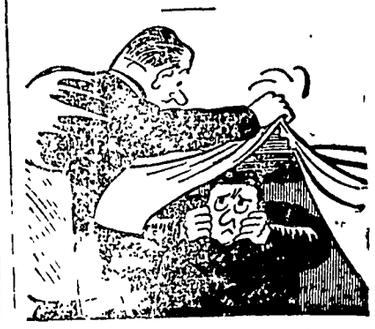
A youngster was delighted to receive two live baby rabbits for an Easter present. He enjoyed them even more as they grew up, but they became a nuisance to his parents.

The mother and father began to consider various ways of disposing of the rabbits without breaking their little boy's heart. One day the father asked: "Phil, how about having one of your rabbits for dinner tonight?"

The child's face brightened, and he said: "Sure, Daddy, but how would he hold his spoon?"

They kept the rabbits.

UNDER THE TABLE



Like most singers, Enrico Caruso was haunted by the fear of catching cold. One day, while he was lunching with a friend in a restaurant, the waiter opened the window, causing a draught.

Caruso jumped up to leave, but his companion persuaded him to sit down again. The friend called the waiter and asked to have the window closed.

He then turned to the singer. Caruso was not in his seat. The friend lifted the tablecloth and looked under the table. There sat the singer, his coat pulled tightly about him.

Home-Baked Rolls, Coffee Cakes Add Special Menu Interest

HOW LONG IS IT since you've made hot rolls or coffee cake? It's a great satisfaction to make good ones, and there are many easy ways to do it.

Hot roll mix insures satisfactory results for those who do not have the time to mix their own dough. It may even give them courage to try a yeast dough from the very beginning, when they realize the pleasures of working with yeast-made products.

• • •

HERE ARE RECIPES for both experienced and novice cooks. Try them on days when the menu needs an extra nice food or for a special occasion when you want to stimulate compliments on your cooking

Almond Yeast Buns
(Makes 12 3-inch rolls)

- ⅓ cup roasted, blanched almonds
- ½ cup seedless raisins
- ¼ cup diced, preserved citron
- 1 package hot roll mix
- ¼ cup granulated sugar
- ½ teaspoon cinnamon
- ½ teaspoon nutmeg
- 1 egg
- Few drops almond extract
- Candied cherries
- Halved, blanched almonds

Chop almonds. Rinse and drain raisins. Add citron, roll mix, sugar, spice and almonds, and mix well Add liquid to yeast as directed on package, scanting liquid by 2 tablespoons. Beat egg yolk lightly and mix into yeast mixture with flavoring. Stir into dry mixture, blending thoroughly. Shape into 12 round buns and place on greased baking sheet. Allow to stand in warm place until doubled in bulk, about 1 to 1½ hours. Brush tops with egg white beaten until foamy. Top each with a cherry half and several almond halves. Bake in moderately hot oven (375°F.) about 25 minutes.

• • •

Raisin Orange Rolls
(Makes 15 rolls)

- 1 cup seedless raisins
- ½ cup unstrained orange juice
- ½ cup granulated sugar
- 2 tablespoons butter
- 1 teaspoon grated orange rind
- 1 package hot roll mix

Rinse raisins and drain thoroughly. Combine orange juice and sugar and boil 10 minutes or until thickened. Remove from heat and stir in butter, rind and raisins. Cool. Prepare hot roll mix as directed on package. Turn dough out onto floured board and roll into rectangle about 12x18 inches. Spread raisin-orange mixture over dough. Roll lengthwise as for jelly roll. Cut into 1 inch slices with scissors. Place out side down in greased pan (about 7x15 inches). Cover and let rise in warm place until doubled in bulk about 1 hour and 15 minutes. Bake in moderately hot oven (375°F.) 30 to 40 minutes. Serve hot.

• • •

***Fruit-Nut Bread**

- 2 packages compressed or fast granular yeast
- ½ cup warm water
- ¼ cup milk
- ¼ cup sugar
- 1 teaspoon salt
- 2 tablespoons soft shortening
- ½ cup chopped nuts
- 3 cups sifted flour

Add yeast to warm water and let stand. Scald milk and pour into a large bowl with sugar and salt. Blend together and cool to luke warm. Stir yeast mixture well and pour into bowl. Add shortening, chopped nuts, fruits and flour; mix to blend well. Scrape down batter from sides of bowl. Cover and let rise in warm place 30 to 45 minutes or until doubled. Stir down. Spoon into four No. 2 greased tin cans filling ⅓ full, or into one bread pan, 5x9x3 inches Cover and let rise until dough is within 1 inch of top of cans. Bake 30 to 40 minutes in quick, moderate oven (375°F.). Remove from cans or pan and cool on racks Brush tops with confectioners' sugar frosting (1 cup confectioners' sugar mixed with 2 to 3 tablespoons warm milk) allowing icing to dribble down the sides.

• • •

Pennsylvania Dutch Coffe Cake

- 1 package compressed or fast granular yeast
- ¼ cup warm water
- ¾ cup milk
- ¼ cup sugar
- ¼ cup soft shortening
- 1 teaspoon salt
- 1 egg, unbeaten
- ½ cup seedless raisins
- ⅛ cup finely chopped citron
- 3½ to 3¾ cups flour, sifted

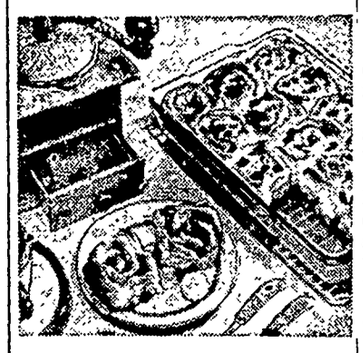
Add yeast to warm water and let stand. Scald milk and pour into bowl with sugar, soft shortening and salt; blend together and cool to lukewarm. Stir yeast mixture well and pour into bowl with milk mixture. Add egg, seedless raisins, chopped citron and enough of the flour to make a soft dough. Turn out onto lightly floured board and knead until smooth. Place in greased bowl, turning once. Cover bowl with damp cloth and let rise in warm place 1½ to 2 hours or until impression remains when finger is pressed deep into side of dough. Punch down dough Place in lightly greased oblong pan, 9x13x2 inches or in two 8-inch square pans. Pat dough evenly into pans. Let rise in warm place about 30 minutes, covered. While cakes are rising, mix together 1 cup brown sugar packed in cup, 1 teaspoon cinnamon. Measure out 1½ cups thick sour cream. After coffee cake has risen, make little dents in the top with fingers. Pour sour cream on top and spread evenly. Sprinkle with the sugar-cinnamon mixture. Bake 35 to 45 minutes in quick-moderate oven (375°F.) Topping will puff up while baking.

Cinnamon Rolls

- 1 package hot roll mix
- 6 tablespoons melted butter
- ½ cup brown sugar
- 2 teaspoons cinnamon
- ½ cup chopped walnuts

Make dough according to directions on package. On well-floured board pat dough into rectangle about 12 x 18 inches. Brush with butter, sprinkle with brown sugar, cinnamon and chopped nuts. Roll as for jelly roll, cut in 12 slices. Put slices, cut side down, on greased baking sheet about 1-inch apart. Let rise in warm place until double in bulk Bake in moderate oven (350°F.) 20 minutes. Glaze rolls if desired.

Almonds, raisins, citron and spices added to a packaged roll mix will give you these Almond Yeast Buns with a very superior flavor. They're easy to prepare for special occasions and will provide many compliments on your culinary skill.



An outstanding treat at any breakfast, luncheon, dinner or afternoon tea are Raisin Orange Rolls. They'll be plump and fluffy with raisins, and fragrant and flavorful because of the sugar, orange juice and butter mixture wrapped in them before baking.

LYNN SAYS:

You Should Know These Facts When Baking with Yeast

Milk has to be scalded in making bread, rolls and coffee cake with yeast so that the action of the enzymes in milk will not interfere with the activity of yeast.

If you're going to refrigerate dough for rolls, place in a deep bowl. Cover first with waxed paper and then a damp cloth. Doughs made with milk should not be kept for more than three days.

Eggs are not always beaten separately before adding to yeast batters because the final beating after mixing, 100 strokes, blends it perfectly into the batter.

When you're beating yeast dough, beat "from the shoulder." This not only exercises the dough more easily, but it's also less tiring.

A good way to handle dough which is rising is to place in a closed cupboard alongside a bowl of warm water. This gives the desired high temperature and also keeps the dough away from a draft.

Crime in America

By ESTES KEFAUVER

Twelve of a Series

Detroit: Where Underworld And Business World Merge

An alarming aspect in the pattern of crime in America is that certain manufacturers have deliberately allied themselves with racketeers as a means of controlling labor relationships

In Detroit, the Senate Crime Committee turned up four instances in which large industrial concerns awarded lucrative contracts to gangsters or men who had underworld connections

Typical was the link between Santo (Sam) Perrone and the Detroit-Michigan Stove Co. The bespectacled, balding Perrone once served a six-year sentence for violating the prohibition laws and both he and his brother, Gaspar, had been arrested for questioning on murder charges, though later released Ironically, Santo had a license to carry a revolver at the time we questioned him. It was promptly revoked by Detroit authorities

Perrone barely can read and write English. He went to work more than 40 years ago as a coremaker for the stove works, perhaps the largest non-union plant in the area Perrone insisted he never even had discussed labor problems with John A. Fry, company president, and Mr Fry testified he never had heard of any labor difficulty or any physical violence at the plant.

Around 1934, however, there was a serious strike when a union made a strenuous effort to organize the stove works Twelve years later, Fry told a grand jury investigating labor rackets that during the dispute "I talked with some of the fellows in the plant, including the Perrones, and I wanted to know whether or not we could get some help to come in, and they said they thought they could

"There was some fights outside the gate on the part of the pickets attacking the men when they came in to lunch I think after the first day we had 75 or 80 policemen around the plant"

Shortly after this violent strike, Santo Perrone, the coremaker, Was given a contract to purchase and haul away the scrap from the stove works Thus, the illiterate manual laborer acquired an income which in recent years has netted him between $40,000 and $65,000 a year. He lives in a luxurious mansion, drives a costly car, and has been able to lend large sums of money

The company also took care of Santo's brother, Gaspar, changing its coremaking department to a subcontractorship Using company materials and the same company-owned equipment with which he had worked as an employe, Gaspar became the contractor who supplied the factory with sand cores.

• • •

Later, Santo and Gaspar were sent to the penitentiary for illegally manufacturing whisky. The company kept Santo's scrap contract in effect for him when he was in prison Also, while the Perrones were imprisoned, the United Auto Workers, CIO, which previously had been kept out of Detroit-Michigan Stove, was able to organize one of the plants A UAW organizer said, though, that when Mr. Perrone got out of jail, "the organization disappeared."

An Immigration and Naturalization Service inspector told us that, while investigating aliens illegally in the United States, he learned that 20 such violators were working at the Detroit-Michigan Stove Co. Gaspar was questioned by the committee about a speed boat which he owns and operates on the Great lakes between Michigan and Canada, but he denied that he ever smuggled in any aliens.

The Perrone-Stove Works story fits neatly with that of a larger plant, Briggs Manufacturing Co., makers of auto bodies. President Fry of the Stove Works and President Dean Robinson of Briggs are close friends

For approximately 20 years, Briggs had contracted with an established firm, Woodmere Scrap Iron, for removal of ferrous scrap from the Briggs plant. In 1945, Santo Perrone's son-in-law. Carl Renda 28, suddenly applied for the contract.

The contract was taken away from Woodmere and awarded to Renda, despite the facts that he had no knowledge of the business, no equipment and not even a telephone or office where he could be called.

Then, Perrone's son-in-law turned around and made a subcontract with Woodmere, the old contractor, whereby Woodmere kept right on doing the work. But Woodmere paid Renda $2.50 a ton more than he had paid Briggs for the scrap, giving him an income which has reached $101,000 a year. As our report commented: "the inference is inescapable that what Rendo was being paid for was the service ('muscle') of his father-in-law, Perrone"

• • •

Six prominent officials of the Briggs union were badly beaten by unknown persons in the year that followed granting of the Renda contract

Before going to Detroit, the committee explored in the New York New Jersey area the tie-up between the Ford Motor Co and the notorious gangster, Joseph Dota, alias Joe Adonis Adonis is a principal stockholder of the Automotive Conveying Co of New Jersey, which transports automobiles away from the Ford plant at Edgewater, N. J

• • •

Because of this, the committee looked into possible relationships between Ford's plants in the Detroit area and other racketeers We found that the principal hauling operator was the E&L Transport Co., in which one Anthony D'Anna, ex-convict and former sugar supplier to bootleggers, was a 50 per cent stockholder. D'Anna drew a $27,000 salary from E&L but apparently he did nothing to earn it

Before acquiring his E&L stock, D'Anna, through negotiations with Harry Bennett, labor boss for the late Henry Ford Sr., had obtained a 50 per cent share of a profitable Ford agency in Wyandotte, Mich.

• • •

Bennett, now retired, had, as the committee noted, "employed virtually a private army recruited from ex-convicts and criminals to engage in battles against labor and in other anti-social activties" Subpoenaed from his California ranch to testify, he was a hostile and difficult witness When we asked him about the gang factions in Detroit, he snapped: "Do you want me to get my head blown off?"

Bennett admitted that, although he was a key man in one of the largest plants in the world, he kept no files, records or memoranda of any kind.

"In fairness to Ford," our report observed that the company "is taking vigorous steps to disassociate itself from these racketeer-held contracts." It now is attempting to terminate by some legal means its deal with Adonis

Also in Detroit, the committee cleared up the mystery of how Cleveland gamblers acquired an important block of stock in a vital industry, the Detroit Steel Corp. Max J. Zivian, president of Detroit Steel, told us that in 1944 Detroit Steel merged with Reliance Steel Corp. of Cleveland.

Zivian undertook to purchase the Reliance president's stock for approximately $580,000. He said he was in Cleveland when gambler-businessman Morris Dalitz, whom he had known slightly, "bumped into me in the street." Zivian said he told him that he was attempting to close a big deal but was short $100,000. Dalitz, without even looking at a balance sheet, arranged a bank loan for the necessary money. So the Cleveland syndicate acquired 10,000 shares of Detroit Steel stock

Zivian subsequently became friendly with the Cleveland gambler and once took a trip on Dalitz' yacht.

Next week: Philadelphia: Police tactics in the City of Brotherly Love.

Sports Stars Like Biking

Sports stars have long known the leg-strengthening benefits of bicycling Prominent athletes pictured riding bikes recently include Sugar Ray Robinson, middleweight boxing champ; Dick Kazmaier, Princeton's grid wizard; Roy Campanella, Brooklyn's famed catcher; Luke Easter, Cleveland's slugging first baseman; and Stewart Iglehart, America's high-goal polo player, who thinks nothing of two-wheeling ten miles a day.

INTERNAL REVENUE PROBE

House Committee Carries On Investigation

WASHINGTON—House investigators are looking into charges of alleged unethical practices in the Detroit Internal Revenue office and into the handling of tax-fraud cases originating in North Carolina. Scandals have hit other offices.

Tips relayed to the House ways-and-means chairman of investigation committee Senator Moody caused a special agent to be sent to Detroit.

Adrien Dewind, subcommittee counsel, announced that the Senior Internal Revenue agent at Charleston had been under questioning in Washington.

Moody said that materials for the investigations was gathered by his committee during investigations of gray markets in critical materials some weeks ago.

Refinishing Woodwork

QUESTION: Our home has fir woodwork. This was painted with white enamel when we purchased it twelve years ago. With two small children, the woodwork was left with their hand and finger prints. Several years ago I used an undercoat and finished it with light oak and stain varnish. The last few times I washed it, it cracked and peeled, leaving the old finish showing. Would it be possible for me to finish my woodwork myself?

ANSWER: When you varnished over the old finish you evidently did not prepare the surfaces sufficiently to take the new finish; therefore the finish failed. Before doing anything more, all the old finishes should be well scraped off down to the bare wood. If you can get hold of an electric portable sander, this would save time and work in removing the old finishes. Or you can use a varnish remover to soften the finish, and follow by scraping with scrapers, steel wool and rough cloths. Then clean the surfaces very thoroughly with turpentine, for every trace of remover must come off; if any is left on, it will work on the new finish. (Liquids are inflammable—be careful of fire.) For the finish that you like so well, bleach out the wood with a prepared wood bleach. Next, coat the surfaces with a liberal coat of white paste wood filler tinted with color-in-oil thinned with turpentine to the consistency of thick paint. (Or you may be able to buy a special "pickled" wood stain.) After fifteen minutes wipe off most of the coating across the grain with a coarse cloth. The remaining filler should be allowed to dry hard Then smooth the wood with very fine sandpaper. Wipe off dust thoroughly and finish with white shellac or varnish.

Three Damage Suits Settled For $1,500

Three lawsuits which totaled $6,396 filed in connection with an accident near Garner have been settled for $500. each.

Plaintiffs were Elsie and Francis P. Forcier of Minnesota, whose car was involved last February 16 in a crash with a truck owned by Cecil Smith and operated by Robert Schupfer, both of Palo Alto County.

Judge Tom Boynton recently awarded Mrs. Forcier $500 damages against the defendants, Smith and Schupfer.

The other two actions, one filed by Mrs. Forcier on behalf of the Forcier daughter, Diane, and one filed by Mr. Schupfer, were dismissed after defendants paid $500. in settlement of each.

Report Approved

The report of the committee recently appointed to classify lands and assess benefits in lateral No. 18 of Hancock County drainage district No. 3 and 4 was approved by Hancock County Supervisors at a hearing this week. The classification and assessments as set out by the commissioners, Charles F. Merten, engineer, Walter Kahl and W. J. Rasmussen were confirmed by the board.

Pre-Nuptial Shower

Miss JoAnn Hummel was honored at a pre-nuptial shower Monday evening, at the home of Miss Shirley Bisom. Miss Bisom, with Miss Sondra Bridges as co-hostess invited all of the girls that graduated from Klemme High School last spring, to a miscellaneous shower in honor of their class mate, JoAnn. All but three of the girls were able to attend JoAnn received some nice gifts which will remind her often of her school pals.

A lovely lunch was served after the games.

Ell Midgets Meet

The Ell Midgets 4-H Club met on November 27th at the home of Lyle Goll. The Club decided to have a grab bag at the next 4-H meeting. The members voted on whether the girls can join the boys club. The vote was in favor of the girls joining the club if the County Boys Club Committee approves. Enrollment cards were signed by the new members.

After the meeting was adjourned lunch was served.

Trappers Active

Hancock County Recorder Edith Sonquist reports the sale of 2,8000 trapping tags thus far for this year's trapping season. The season opened on November 20 and will continue for 20 days. Trappers report the season the best in recent years.

PHEASANT SEASON CLOSED

The 1951 pheasant season closed at 4:30 p. m., Wednesday, December 5, after a 25-day season characterized by heavy cover and smarter-than-ever cock pheasants.

Hunters in the short season zone in southern Iowa, in general, enjoyed the best success they have had since that region was opened to pheasant hunting. Much unpicked corn remained in northern Iowa pheasant range until the end of the season, and grass and weeds in picked fields provided enough cover to delay the concentration of birds ordinarily follows the dissappearance of standing corn.

Lowest-Priced Car with Hydra-Matic Drive*
Twin-Duct, Built-In Ventilating System
Unmatched Record for Long, Trouble-Free Life

*Optional at Extra Cost.

Here is your invitation to test drive the automotive engineering triumph of the year—the great 1952 Pontiac with *Dual-Range* performance!

No description can give you a complete understanding of the spectacular performance built into this new Pontiac. Only your own hands at the wheel, your own foot on the accelerator can tell this great story—for there has never before been driving like this!

Just set the new *Dual-Range* Hydra-Matic in the Traffic Range and feel Pontiac's high-compression engine whisk you out in front with the most eager surge of power you ever felt! Then flick into Economy Range and relax—a ride so smooth, so effortless you almost forget you have an engine.

That kind of *power* and *economy* is built into Pontiac to *stay!*

It's a great story, a great car, and a great value—come in and see!

Dollar for Dollar you can't beat a Pontiac

NATIONAL AQUARIUM

1,500 Species of Marine Life Housed by National Acquarium

WNU Washington Bureau

The National Aquarium in Washington, although housed in the Department of Commerce building, has been operated by the Fish and Wildlife Service under the Department of Interior since 1940 In that year, the service was created by the consolidation of the Bureau of Fisheries of Commerce and the Bureau of Biological Survey of the Department of Agriculture.

The original aquarium, established in 1888 by the former U.S. Fish Commission, occupied an old pre-Civil War building in another part of the city. When the present Commerce building was built in 1932, the fish were moved to the new and larger aquarium under the main lobby, but operation continues by the Fish and Wildlife Service.

The present aquarium occupies a floor space of about 14,000 square feet, and has 50 tanks which hold about 30,000 gallons of water The water is changed on an average of three times a day. Since the aquarium is situated below the sewer level, the water is drained into underground reservoirs which must, in turn be pumped out, an expensive operation

The heavily chlorinated city water supply, which the aquarium uses, is a constant problem because chlorine would mean overnight death to the fish. All the water used must therefore pass through carbon filters. Temperature control must also be watched carefully. The hot Washington summers require complete refrigeration of the tanks of northern fishes, and the warm water of the tropics must be duplicated in those tanks which have fish accustomed to that climate.

The aquarium now houses 1500 individual kinds of fish of which the rarest is a collection of albino catfish—the only such collection now in this country. Another great attraction to the 250,000 visitors each year is Siamese Sue, a tiny turtle with one body but two heads. Sue is a perfect example of turtle frustration. Each brain controls the set of legs on its side so that indecision as to whether she's going to move or stay still is a major factor in Sue's life. Each head must be fed simultaneously or the other one will try to grab the food. Sue has grown from the size of a quarter to about the size of a silver dollar in the two years that she's been at the aquarium. A two-headed turtle usually lives only a few months.

THE NATIONAL Aquarium seeks primarily to maintain an attractive display of the principal fresh-water game fishes which are propagated and distributed throughout interior waters of the country, John C. Pearson, director of the aquarium, says

Reactions of aquarium spectators are watched as carefully as the behavior of the fishes themselves. It has been noticed that women like the fancy Oriental goldfish, the black Chinese Moors, and the multi-colored Shubunkins. Men seem to prefer the rainbow and brook trout while Siamese Sue remains the favorite of most children. The most generally liked attraction, however, is the shallow pool filled with turtles of all varieties.

Future improvements to the aquarium call for better lighting effects in the display tanks. They are all electrically lighted now with the surrounding area kept just a bit darker so as to better show off the displays. More naturalistic backgrounds for the exhibits is another aim. Real moss grows in the tanks, but most of the greenery used is bamboo because it retains its color under water for a longer period than most other types of greens. Aquarium officials also hope for a more complete display of native food and game fish so well appreciated by many millions of American fishermen.

The attendents are occasionally offered bribes by thoughtful visitors who want to take a fancy goldfish home to the children. A "gem collector" once offered $5 for a pearl-bearing oyster from Hawaii. As Mr. Pearson says, a good motto for any aquarium management is. "If it fits into a pocket, keep it locked up."

Star Dust
STAGE-SCREEN-RADIO

By INEZ GERHARD

DOROTHY LAMOUR, Paramount's "Road" girl, who landed in a circus when Cecil B DeMille picked her to play the worldly wise "iron jaw girl" in "The Greatest Show on Earth" will always be associated with the sarong that she made famous Yet she has worn it in only 12 of her many films But it made her famous a year and a half after she broke into films, following three years as vocalist with Herbie Kay's band and a short career as a radio singer She probably has more

DOROTHY LAMOUR

friends among the studio "little people" than any other star; she says they're the ones who have made it possible for her to get ahead.

Gene Tierney, one of Hollywood's best dressed women, says she always gets caught in slacks and a sweater on Beverly Drive, in Beverly Hills, where she does most of her shopping. Just as sure as she dashes out in a hurry to make some purchases "There I am in my slacks, and I meet somebody like Joan Crawford looking like a movie queen."

Jean Simmons, the little English actress under contract to RKO, who will have the starring role in "Pilate's Wife", has had a spectacular career. Her "Ophelia" in Olivier's "Hamlet" made her famous, and she ranks fourth in Fame's poll of international film favorites. She is currently before the cameras in "Androcles and the Lion".

THE FICTION CORNER

BRIGHT SUNSET

By Frances Rider

ABOVE the brow of grim El Huerfano a pale pink cloud was fluffing out her rose-edged ruffles Desbah lifted her dark eyes from the blanket she was weaving. For a moment the brown hands were still, then they took up the wool again and the design continued to grow. She must work while there was still light upon the mile high mesa about her, for inside the hogan it was difficult to blend the grays and browns of the sheep's fleece.

3-Minute Fiction

A breeze stirred her hair and again her glance sought the cloud. Ah! Just as she had expected, the wind from the north had brought another cloud and although at first the pretty pink cloud slipped behind El Huerfano and pretended to hide, soon the two would touch and merge. Desbah had watched them often.

"For quilted clouds are mating, high
Above the plains in the summer sky—"

she and Yazza——

Yazza the Long was a silversmith. Like many Navajo men he fashioned sturdy enduring jewelry from coin silver and engraved it with simple lines signifying good fortune and long life. Desbah looked down proudly at her wrist.

Yazza was different from the others. It was he who had made the bracelet she wore. He had decorated it with the thunderbird. A square turquoise was set on either side and beside them flowering cacti, symbolizing courtship. It meant that Yazza and she would like to marry and build a squat

Coming toward her was a tall figure black against the flaming sky.

round hogan of their own. If only they had the money for a license.

The winter had been long and cold; and the summer rains scanty. Her father's sheep had died off. The few left were weak because they hadn't enough gamma grass. Desbah looked at them now, grazing at a distance among the sun-baked stones. Among them several children played a game with pebbles.

The blanket was nearly finished but she could not try to sell it. She would have to trade it for overalls and calico and flour. The few remaining sheep needed salt.

EL Huerfano's far lonely peak was afire with the sunset as Desbah rose and went to the door. Yazza had gone to the mission that afternoon and soon he would pass on his way back. When Desbah was twelve she had spent a few weeks at the mission school. Only orphans could stay longer. There was too little money. Remembering the services she had attended there she moved her lips in unaccustomed prayer.

When she lifted her head she saw a tall figure black against the flaming sky. It was Yazza. Coming toward her he held out his hands showing her many bills and much silver. Desbah had never seen that much money all at once.

"Oh, Yazza! Tell me."

Yazza spoke with no excitement in his voice. "At the mission was a letter. The lady read it to me. A store in California wants all my rings, all my pins, all my bracelets. When I make more we will get more money." Beneath the beaded band his eyes sparkled with the glory of the sunset and his own pride.

"Yazza, Yazza, it is good. Now we can get the license."

"Not yet, my patient one. My parents have debts. I must help them."

"But you said there would be more money when you make more bracelets and pins."

"Yes, my patient one, but first—" Yazza drew from his pocket a jewel-like piece of petrified stone. "Why do you think I polished and polished this tiny stone?"

Shyly Desbah looked into Yazza's eyes. "For our wedding ring?"

"For our wedding ring. Tonight I will burn the candle low while I make the ring for you."

"Then tomorrow you will make the things to sell?"

"Tomorrow, my patient one, I will make the things to sell."

Shadows slipped along the sides of El Huerfano and filled the arroyo. From behind the tall lonely peak slipped into view one cloud with just a tinge of pink ruffles at one edge.

GRASSROOTS

Officials Should Be Legally and Morally Honest

By Wright A. Patterson

IT MAY BE within the letter of the law, but it is not within the spirit of the law for those holding government positions or having government influence to use their influence on behalf of people or corporations seeking government loans from R.F.C

It is very possible that the man holding the position of head of the Democratic party could not be convicted for indicating to officials of the R.F.C. that he might have a hand in keeping them on the job, or naming someone for the job of director of R.F.C. What he did was undoubtedly legal, but it represented a lack of morality the people expect from those holding positions of public trust.

Had the same thing happened during the administration of Theodore Roosevelt, Boyle would have continued on the job he held for just the few minutes it took the President to fire him. But we have degenerated morally since the days of Theodore Roosevelt and are doing now what was done during the days of Harding. But the Harding crew was not wise enough to violate only the spirit of the law. They violated the letter of the law, and were caught in the toils of justice.

Abraham Lincoln said "the republic cannot live half free and half slave" Today he would say, as others are saying, "the nation cannot live half legally honest, but half morally dishonest," and moral dishonesty should not be countenanced.

There can be no place in American public life for either those who exert influence through holding places of power, or for those who demonstrate that they are susceptible to influence, whether that influence be paid for in the form of deepfreeze units, mink coats, free hotel bills, free vacations, or as attorney fees. All such rewards are but bribes, and both the bribe-taker, and the bribe-giver should be summarily discharged from any form of government service. Our public officials must be both legally and morally honest, whether they be cabinet officers or clerks.

To the men folks of the nation it seems hardly fair that they should have to pay the present exorbitant charges of the barbers and at the same time must collectively pay for the "prettying up" of the members of the United States senate. But the recent action of the senate forces them to do just that.

The senators will get their hair cuts, their shampoos, their shaves, and all the other items the barbers can suggest as something needed at public expense. The tickets will be handed to the tax payers.

Each hair cut will be the same $1 charge whether the senator be a baldy, or one having a luxuriant crop. The tax paying public will pay the $1, plus the charges for all the extras. The cost to the people for the tonsorial needs of the senators will be more than $1300 more for this year than for last. But the senators will pay their own tips, if any.

—*—

At about the time of the starting of the Korean war, living costs were going up faster than at any time since then. At that time, congress gave the President control legislation which he then said he did not want, did not need and would not use. Now the President is condemning congress for not giving him the control legislation he did not want, and did not use, and now living costs are leveling off at about the point they reached at the start of the Korean war. Congress feels the President is inconsistent.

—*—

Instead of raising the postage rates, which the people must pay, congress might well cut out better than three billions of cost for the propaganda services that are of no benefit to any one unless it be the heads of departments who wish to justify their existence. It does not present factual information regarding the operations of government. Because it is propaganda, not factual, reputable publications will not use it. The some 30,000 people employed in its production and distribution costing more than three billions a year, is an entirely unwarranted expense. Saving that three billion would represent a real economy that would mean far more than the adding of a few hundred millions in an increase in postage rates.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

SCRIPTURE: Deuteronomy 29-34.
DEVOTIONAL READING: Deuteronomy 30:11-20.

Hero's Farewell

Lesson for December 9, 1951

A moving picture company once conceived the idea of recording and putting on the screen all over the country what two opposing candidates were saying on various problems. It was enjoyable, or maddening, according to your political views, to observe the contrast. Both men read what they had to say, but their reading was entirely different.

Dr. Foreman

One man kept his eyes on his little desk, never made a gesture, never looked at the audience. It was not inspiring,—just a middle-aged man reading to himself. Candidate B on the other hand never let his script come between him and his listeners; he kept his eye on them and unless one observed him carefully one would not notice that he was reading. (He won in a walk, too.) Now the way to get the true flavor of Deuteronomy, especially the chapters selected for this week, is to listen to some one read it who can read like Candidate B. For Deuteronomy is not a desk-book; it is mostly out-of-doors oratory. It was not meant for the eye first, but for the ear.

* * *

After the Great Man, What?

A great hero, Moses, was taking leave of his people. In spite of all the grumblings and the rebellions, it is no exaggeration to say that for those people he stood in the place of God. He not only towered above his own generation, but he cast a light far into the centuries, so that to this day we are indebted to the inspired greatness of Moses, the man of God.

Yet the greatest of men must die. When it came time for him to say farewell it is hard to imagine the sinking of heart that all his people felt.

Before them lay the unknown; their whole course of life was about to change, in ways they could not foresee; with Moses gone, how could they face the future? Was he to leave after him (as some "great" men have done) only a vacuum?

* * *

A Challenge

IN the closing days of his life, Moses focussed his people's eyes on two things. First was the Law. Life is not lived by impulse and inspiration only. Life, to have power and meaning, must be a patterned life, clear and definite lines, a sense of direction. So Moses left behind him—not full details, these were for others to work out—the main lines of civic and social, as well as individual life, in the Law which God had made clear to him as the true "design for living."

But Moses does not simply pound it into people's ears: You shall, you must, these are the orders! He sets it out as a clear choice. He shows the people the alternatives: Life and Good on the one hand, Death and Evil on the other. Make up your mind, he says: Choose. The Law of God does not force you.

It is not an arbitrary thing. The reason for the Law is never "just because." The reason for the Law is that it is the way to live. You don't have to keep it, Moses says in effect; but if you choose to reject it, the end of the other road is Death.

This is true for individuals, it is true for nations. It is a terrific mistake to think of God as ordering us about for his own amusement, or to tie us down. He gives us orders for our own sakes.

* * *

A Song

ANOTHER legacy Moses Leaves behind is a Song. We do not usually think of Moses as a poet, but Deut. 32 is ascribed to him. He knew people might forget the Law, but a Song they would not forget. "I care not who writes a nation's laws," said a philosopher, "if only I can write its songs."

What Moses gave his people was no mere tuneful trash, but a grand hymn of faith. What Moses most of all wants his people to do, is not to remember him but to remember God. So after all the law is on the books, and all the speeches have been made, at the last he gives his people a Song, to remember God by.

Is it not so always? What are the parts of the Bible that mean most to all generations? Always the singing words of Psalm and prophet and gospel, the rhythm of Paul's chapter on Love, the majestic choruses of the Revelation. Though great men pass, though the mind forget the Law, the heart will not forget the Song.

Prevent Rug Slipping

Three rubber jar rings held together by thread and sewed under the corner of a throw rug will prevent it from slipping.

Champion cook an enthusiastic user of Dry Yeast

FRANKLIN WOMAN TOP WINNER AT STATE FAIR

That's a big display of ribbons and trophies—and they all belong to Miss Opal Hayes, State Cooking champion from Illinois and top Fair winner. Her grand total for 1950 alone added up to 80 ribbons, *forty* of which were first prizes!

Undoubtedly one of America's foremost cooks, Miss Hayes is enthusiastic in her praise of Fleischmann's Active Dry Yeast. "Just give me Fleischmann's," she says, "and I know it will never let me down. It's so dependable and so easy to use . . . dissolves in a jiffy."

The holiday meals ahead call for plenty of yeast-raised goodies. They're so festive, so delicious . . . wholesome and nourishing, too. When you bake at home, use yeast. And use the best—Fleischmann's Active Dry Yeast. It's so fast and easy—gives you grand results every time. Get a supply of Fleischmann's Active Dry Yeast today.

DEMAND GEERLINGS HI-BRID SUPPLEMENTS TO BALANCE HYBRID CORN

HI-BRID FEEDS are doing in the feedlot what HYBRID CORN is doing in the field. They're a winning combination. See your Geerling HI-BRID FEED dealer, or write direct.

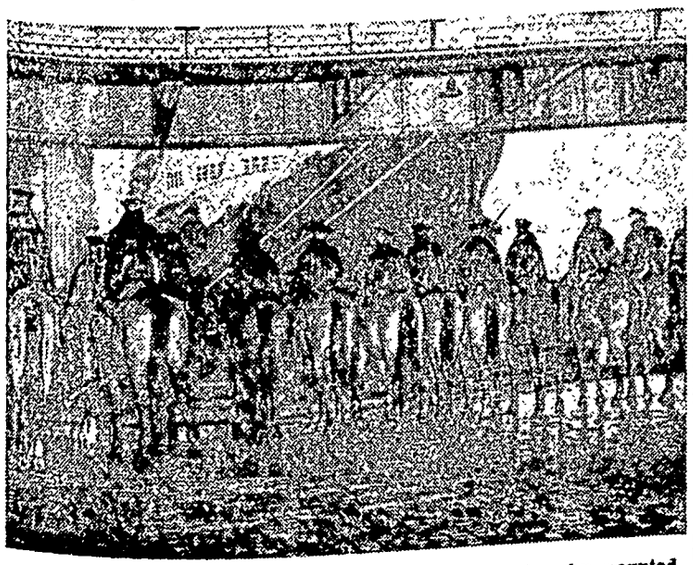
GEERLINGS FEED MILLS . . . . . WATERLOO, IOWA

NEAR CATASTROPHE HITS ATLANTIC CITY . . . A one-million-dollar blaze sweeps a path of destruction through one of Atlantic City's finest boardwalk blocks with the danger of shifting winds driving the fire down other equally fine blocks. Near panic swept over storekeepers as they saw their expensive stocks about to go up in flame. Here, they are running out of their stores with bundles of rare oriental rugs, trying to save what they can as the fire spreads. Much of the stock was insured, but because of its rarity could not be replaced. Firemen frantically battled the blaze as smoke eveloped the area.

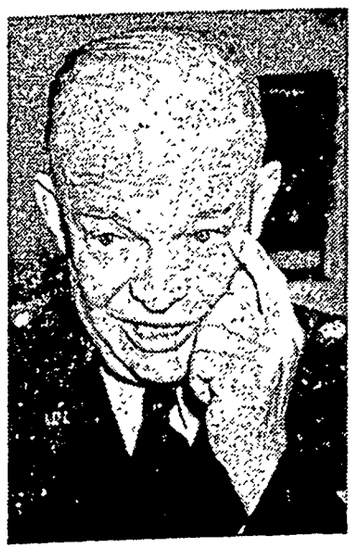
DRESSED TO KILL . . . Armed guards are in attendance at all the Korean truce talks now. Guards of both the United Nations and the Communist forces are stationed at the conference tent in Pan Mun Jom. Here two United Nations military policemen, Lieutenant Howard C. Hoppus (left), Warsaw, Ind., and Lieutenant Price Mosher, Brookline, Mass., are interested in the quilted cotton uniform of a North Korean Communist sentry who is armed with a bayoneted rifle instead of the sidearms carried by the Americans. The Communist is impassive under the scrutiny of the men from the West.

IDENTIFIES BROTHER AS POW . . . Mrs. William Cloud, San Francisco, holds a news photo in which she identified the man at extreme right as her brother, S/Sgt. Dan Oldewage, Santa Ana, Calif. The picture originated with a Hungarian Red correspondent who released the photo as the picture of American prisoners of war at a camp near Pyongyang. The correspondent identified the man at extreme right as Sgt. Daniel Aldewage of Santa Ana, Calif., captured recently by Communist forces.

BRUTALLY BEATEN . . . Masaichi Kobayashi, shirt manufacturer, is given first aid in New York city by ambulance attendant after he was brutally beaten by three thugs in his office apartment. The thugs who emptied his pockets got a mere $8



MOUNTIES READY FOR ACTION . . . Solid wall is set up by mounted police at a New York pier ready for action as the French line's luxury ship, Liberte, docked. Not a single strike picket was there as 100 workers walked on the dock to begin unloading the craft. Another deadlock out of nearly 12 hours of negotiations in the strike of the long- men. The strike was called to a halt recently as leaders of both reached accord.



WILL HE? . . . Or won't he make himself available for nomination for the presidency by one of the parties? That is the big question concerning General Dwight Eisenhower since his visit home. He seems to be in some perplexity.

Kazmaier Is Among Greatest Backs

By GRANTLAND RICE

NEW YORK—It may be considered a piece of heresy to compare any modern back with Red Grange, Jim Thorpe, Ernie Nevers, Walter Eckersall and one or two more from the glory road of the past But that is the way it happens to be at this date with a number of football experts in their rating of Dick Kazmaier.

Grantland Rice

Dick Kazmaier is the Princeton passer and runner who practically wrecked a good Cornell team using both the turf and the air for this purpose

But Kazmaier's fame doesn't stop with the game against the big red He has been the shining star in most of Princeton's victories There has been no game since Dick put on an orange and black jersey wherein he failed to star.

You might remember that Kazmaier, from Maumee, Ohio, was the sole surviving member from Princeton's brilliant offensive squad last fall. The other 10 regulars had left him, with younger talent coming on.

What happened in his Cornell test? Kazmaier completed 15 out of 17 passes for close to a 900 percentage. He picked up more than 230 yards with his right arm. His legs gathered in an additional 120 yards as a ball carrier

He led an attack that scored 53 points against an unbeaten rival rated Princeton's equal before the game

In my opinion Kazmaier was probably the best back of 1950, considering his all-around value As far back as 1888 and 1889 Princeton had a back known as Knowlton (Snake) Ames

Princeton never had a better all around back until Kazmaier came along And it isn't a question now as to whether Kazmaier is the best back of 1951, which he undoubtedly is, but as to how he will be ranked with the best backs of football

I doubt that anyone has had the amazing over-all running elusiveness of Grange and Thorpe But Dick Kazmaier, a star runner on his own, is a much better passer than the redhead or the Indians in their prime

• • •

Princeton's High Place

More than a few of us placed Princeton on a par with Tennessee or any other college squad last fall The Tiger may have been even better

His place today is equally high although it is difficult to get many football writers away from the east to give an ivy team much credit Certainly Charlie Caldwell is again in the running as coach of the year

Everyone knows Tennessee's all-around strength. But so far her schedule hasn't been too hot, if teams are to be ranked on what they have beaten.

Michigan State has had a flock of close and harrowing afternoons. Illinois has had a terrific year. In the matter of accomplishment it could be accorded first place.

The Illini have handled U.C.L.A., Wisconsin, Syracuse, Washington and Indiana. In Karras, the Blue and Orange has one of the year's star backs

Illinois and Georgia Tech have handled the rougher paths among the top teams, although Southern California must be given a high rating. And so must Stanford.

The game they are still talking about is Army's stand against a good Columbia team. The goal-line play of Red Blaik's high-spirited squad won't be soon forgotten. Certainly not by Columbia.

• • •

Where's The Defense?

Anyone who cares to look back over Saturday's scores might stand up and ask one simple question: "What's become of football's defense?"

Here may be found all the proof one needs of how far the defense has slipped back of the offense. Almost any team can score, even when it is outclassed. The main answer is this—the great improvement in forward passing—both concerning the passers and the receivers Potent passers are plentiful across the nation.

There was a time when football only had two or three high-class passers They were extremely scarce Now they clog up the campuses. Kazmaier, Isbell, Agannis, Parilli, Price, Franz, Parks, Giel, Henrich and so many more you can hardly count 'em

This is the only answer I can give you S.M.U.'s passer piles up 26 or 27 points against a good Notre Dame team and scorns any form of running attack That was Fred Benners The Southwest is packed with riflemen who can hit a receiver in the eye at 40 yards.

• • •

Notre Dame's Place

Where will Notre Dame's place be at the end of the road for 1951? Frank Leahy will tell you that his team has done far better than he thought it would

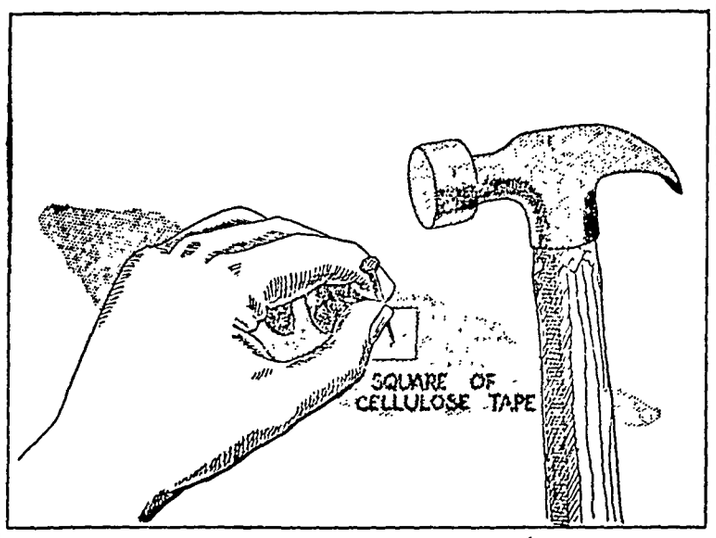
At the season's start I wrote asking Frank to be on a radio program in Baltimore, November 2.

"I'll be glad to be with you," he wrote, "if you don't mind having the coach of a team that has lost five games by that date."

He won four of the five.

How To Fix It

BY HAROLD ARNETT



DRIVING A NAIL INTO A PLASTER WALL WILL NOT CRACK THE PLASTER IF A SQUARE OF CELLULOSE TAPE IS STUCK TO THE WALL AND THE NAIL DRIVEN THROUGH IT.

Wouldn't Work

A woman complained to a friend that the walls of her new apartment were so thin that the neighbors on either side could hear everything she said.

"Oh, I think you could eliminate that trouble," the other replied. "Just hang some tapestries over your walls."

The woman considered the suggestion briefly, then shook her head.

"No, that wouldn't do," she replied. "Then we couldn't hear what they say."

SHOPPING CAN BE SIMPLE!

There's no need to rush around for Christmas gifts. You can do most of your shopping in a jiffy. You don't even have to wrap the packages. Here's how you do it: give all the folks on your Christmas list who smoke cigarettes a carton or two of Camels . . . and give the men who smoke pipes or roll their own cigarettes the big, one-pound tin of Prince Albert. They're gifts that are certain to please, for they're America's most popular cigarette and America's most popular smoking tobacco, respectively. The special Christmas Camel carton is a beauty and there's a space right on it for your Christmas greeting. The one-pound tin of Prince Albert comes in a gay red and green Christmas box and it, too, has a space for your greeting. Both the Camels and the Prince Albert are all set and ready to give. No fuss. No bother. And you'll be giving real smoking pleasure—mild, flavorful Camels, America's favorite and rich, mellow Prince Albert, the largest-selling smoking tobacco in America. Do it today. Stop in at your dealer's It will be a big load off your mind! —Adv.

EAT ANYTHING WITH FALSE TEETH!

If you have trouble with plates that slip, rock, cause sore gums—try Brimms Plasti-Liner One application makes plates fit *snugly without powder or paste*, because Brimms Plasti Liner hardens permanently to your plate. Relines and refits loose plates in a way no powder or paste can do. Even on old rubber plates you get good results six months to a year or longer. YOU CAN EAT ANYTHING! Simply lay a soft strip of Plasti-Liner on troublesome upper or lower. Bite and it molds perfectly. *Easy to use*, tasteless, odorless, harmless to you and your plates. Removable as directed. Money back *if not* completely satisfied. *Ask your druggist!*

BRIMMS PLASTI-LINER THE PERMANENT DENTURE RELINER

Save $2.00 On This Home Mixed Cough Syrup

Easily Mixed. Needs No Cooking.

Cough medicines usually contain a large quantity of plain syrup—a good ingredient, but one which you can easily make at home. Mix 2 cups of granulated sugar with 1 cup of water No cooking! Or you can use corn syrup or liquid honey, instead of sugar syrup.

Then get from your druggist 2½ ounces of Pinex, pour it into a pint bottle, and fill up with your syrup. This gives you a full pint of wonderful medicine for coughs due to colds. It makes a real saving because it gives you about four times as much for your money Never spoils, and children love it.

This is actually a surprisingly effective, quick-acting cough medicine. Swiftly, you feel it taking hold It loosens phlegm, soothes irritated membranes, makes breathing easy

Pinex is a special compound of proven ingredients, in concentrated form, a most reliable, soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way

FOR EXTRA CONVENIENCE GET NEW READY-MIXED, READY-TO-USE PINEX!

It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE —NOT GOOD FOOD

• Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon . . . right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.

FEEN-A-MINT FAMOUS CHEWING-GUM LAXATIVE

Housework Easy Without Nagging Backache

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

KLEMME LOCAL NEWS

Mr. and Mrs. Harlow Helps and Mrs. Merlyn Helps were Mason City visitors on Saturday.

Mrs. Edna Thada went to Mason City Sunday and visited until Tuesday morning at the home of her sister.

Mrs. J. W. "Bill" Johnson who is a patient at the Thompson Nursing Home at Rockwell, is reported to be getting along fine.

KLEMME LOCAL NEWS

Mr. and Mrs. Herman Priebe visited at the Ed. Becker home Sunday afternoon.

Mrs. R. A. Jorgenson and Mildred Day visited with Mrs. Ina Smith and daughter, Ruth at Goodell Monday afternoon.

Mrs. R. A. Jorgenson and Mrs. Ray Jorgenson visited Saturday at the Lyle Liebendofer home in Mason City.

Klemme and all of Iowa was blanketed with a dense fog the last of the week which made driving hazardous. Along with the fog was a warm spell and the highest temperature ever recorded in Iowa for December was broken. The temperature went near 70 degrees.

A number of local nimrods went to Goodell to enjoy a raccoon supper at the Dempsey Cafe Monday evening. Some of the local coon hunters provided the meat for the occasion. They said the supper was really delicious and that Bill Dempsey sure knows how to roast coons.

KLEMME LOCAL NEWS

Al Phillips of Britt was a business caller in Klemme Monday forenoon.

Rosemary Medin was a supper guest of Judy Jorgenson Sunday evening at the R. A. Jorgenson home.

Orville Bridges carried the mail on the route Monday as Sumner Trumbell, the regular carrier was attending an insurance convention.

Mr. and Mrs. Paul Kramer and family returned home from Sullivan Missouri, where they had visited with relatives over Thanksgiving.

Mr. and Mrs. Eugene Haberkamp and baby Linda Carol of Huxley spent the week end visiting at the home of the Becker Sisters. It was the first time the Becker Sisters had seen the new baby.

Mr. and Mrs. Tom Roths and Miss Lola Smith left Friday for California on a trip and from there will return to their home at San Benito, Texas. They had been visiting with relatives and friends here for the past month or more.

Mr. and Mrs. Pete Lewerke of Hayfield left Monday for a visit with relatives in Holland. Mr. and Mrs. Lewerke operate a vegetable farm near Hayfield and were one of the first in the county to go into the vegetable business.

Mr. and Mrs. Dorance Day and Gary of Des Moines came Saturday and visited until Sunday afternoon at the parental Mildred Day home. They also attended the wedding of her neice, Miss Petersen of Clear Lake.

Mr. and Mrs. Frank Mondett of Mazon, Illinois, left Monday for Ruskin, Florida, after visiting with her father, "Bill" Johnson here and with her mother at the nursing home in Rockwell. The Mondetts will spend the winter at Mr. and Mrs. Johnson's winter home in Florida.

Mr. and Mrs. John Waddingham and Children and Larry Stille were dinner guests Sunday with Mr. and Mrs. R. W. Elder. The occassion, being Grandpa Elder's birthday dinner. All enjoyed a nice birthday cake.

The Klemme Fire Department members met at the R. E. A. plant last Wednesday night for a school of instruction sponsored by the Corn Belt Power Cooperative. Mr. Floyd Nelson of Iowa State College at Ames, and Mr. Chester Strait of Iowa Rural Electric Cooperative Association were the instructors. Lunch was served by Mr. and Mrs. Claude White after a very instructive meeting.

Friday evening, the members of the Corn Belt Power Cooperative Board of Directors made an inspection tour of the Klemme Plant. They found everything to their satisfaction. Mr. White tells us that he will welcome any of the people of the community any time they wish to come and see the plant in operation.

Will the Duke and Duchess of Windsor ever separate? In the American Weekly, the great color magazine distributed with Sunday's Chicago Herald-American, Elsa Maxwell tells the truth about the gossip linking the Duchess' name romantically with other men. Don't miss Elsa's inside story of this great romance and where it's headed, in The Chicago Herald-American's great color magazine!

Joan Bacon Had Party Saturday Evening

Miss Joan Bacon entertained six boys and girls at a party at her home Saturday evening. The evening was spent playing games and singing after which Mrs. Bacon served a nice lunch to the young people.

Mary Circle Met

The Mary Circle met at the home of Mrs. J. C. Thomas with Mrs. Frank Schultz as assistant hostess. Sixteen members were present and four childern. Mrs. Franklyn Cappon gave the devotions and the lesson. Mrs. Ahrenkeil presided over the business meeting. A lovely lunch was served by the hostesses.

Follow-Up Meeting

The follow-up meeting for District No. 9 on storage space will be held Friday, December 7 at the home of Mrs. J. A. Chambers. Please bring a few cookies for lunch.

KLEMME LOCAL NEWS

Mr. and Mrs. Clarence Bachman and Roger visited Sunday afternoon at the Bill Lacey home.

Mr. and Mrs. Schissel of Forest City were supper guests of Mr. and Mrs. Emil Patet Sunday evening.

Ray Jorgenson, Jr. and family of Garner were entertained to dinner Sunday at the R. A. Jorgenson home.

J. W. "Bil" Johnson, accompanied by Mrs. Herman Bridges, Mrs. Mary Waterman, Mrs. Clara Stille and Mrs. Frank Sandry drove to Rockwell Friday for a visit with Mrs. Johnson at the Thompson Nursing home.

Mr. and Mrs. Delbert Bachman and Colleen, Mr. and Mrs. Clarence Bachman and Roger were supper guests Thursday evening at the home of Mr. and Mrs. James Reinig in Garner. The supper was in honor of Mr. and Mrs. Clarence Bachman as they were celebrating their 29th wedding anniversary on that day.

KLEMME LOCAL NEWS

Mr. and Mrs. Ed. Becker visited at the Dwight Helps home Sunday evening and enjoyed seeing the new television which was recently installed in the Helps home.

Annual Christmas Party Movies, Treats, Dec. 22

BIG PARTY FOR KIDDIES TO BE HELD AT HIGH SCHOOL GYM

Santa Claus Will Be Here In Person To Hand Out Bags Of Treats

Hey, kiddies, the big day is getting closer . . . when Santa Claus in person will be in Klemme to give the kiddies of this community a big free party. There will be a swell moving picture, western, cartoons and everything at the high school gymn beginning at 2:00 p. m. Saturday, December 22.

And, don't forget, this is also the time when all those big Win-A-Prize gifts will be given out to the kiddies who have the most votes. A lot of kids are going to be mighty proud of those gifts from the Klemme business men.

And, last but not least, Santa Claus is going to be be here after the big party to greet the chidren and give out treats. So don't miss being in Klemme on Saturday afternoon, December 22. Bring all your friends, too.

BY RAY EASTMAN

To Bill Garlock, driving the last few miles of his milk route that day a year ago, the future promised everything he loved: watching and guarding the growth of his 4 children, working and learning with the companionship of his wife, doing what needed to be done in his community.

But between Bill Garlock and that future lay a small patch of ice on the highway near Waukee.

He had a sense of responsibility beyond his 31 years. He seriously considered installing safety belts in his car to protect his family in case of accident.

During the early years of his marriage, when he was farming near Grimes, Bill would often stop his tractor near the airport that adjoined his property and he and his son, Ronnie, would watch the planes.

Sometimes, Bill couldn't resist the temptation and he'd go over and take up one of the small planes himself. He loved to fly but gave it up because he thought it wasn't fair to his family.

Bill's interest in flying was typical of him. He never stopped wanting to learn new things and he and his wife went to night classes every winter. He wanted the same thing for his children. All of them were to go to college.

This serious side of Bill never dampened his enjoyment of the present or other people's enjoyment of him, however. Pictures of him show a face where sturdy reliability combined with kind wit and intellegence.

He was the kind of man you might have wanted to speak or nod to, involuntarily, as you passed him on the street; the kind of man you hate to see lose everything on a small patch of ice on the highway near Waukee.

DINNER HELD TO CELEBRATE JOAN HELPS'| BIRTHDAY

Joan, daughter of Mr. and Mrs. Dwight Helps was 9 years old on December 5th. In honor of the event her uncle and aunt, Mr. and Mrs. Ed. Becker had a birthday dinner in her honor on Sunday.

Present were Dwight Helps and family; Mrs. Hazel Johnson of Mason City; Mr. and Mrs. Ben Hall and Robert of Buffalo Center; and Mrs. and Mrs. Jim Gorenson and Jimmie of Forest City.

All had a fine time and Joan received some nice birthday gifts.

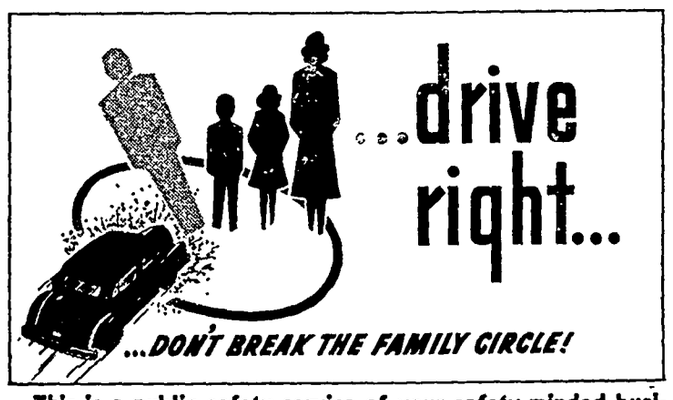
Held Christmas Party Sunday Evening At Kudje Home

Several couples enjoyed a turkey dinner Sunday evening at the Hull Cafe after which they went to the Arthur Kudje home where bridge was played at 4 tables.

High scores were won by Mrs. C. G. Waterman and M. L. Harson, and low scores were won by Mrs. Harson and R. A. Jorgenson. All exchanged gifts by drawing packages from under the decorated Christmas tree.



This is a public safety service of your safety-minded businesses and this newspaper in cooperation with the Iowa Safety Congress.

The derbis of the fatal traffic accident is quickly cleared away. The name of the traffic victim slips out of the news in a day The life of the community flows on and the filling up the empty places left by the man who was killed. These are the demands of life over death

But one thing is broken that never can be mended. One place is never filled up You find it in the paragraph of the news story that begins, "He is survived by . . . . . "

Into the family circle broken by a traffic accident flood gray days of emptiness despairing bewilderment and, often, poverty. The future draws away from children without parents, from the mother left without a husband.

They are the innocents who daily live in the shadow of Iowa's traffic accident death toll which, to those of us who are untouched, is often only a statistic

There are now hundreds of such broken families in Iowa. Every week there are more. What can you do? On December 21, the Iowa Safety Congress will begin its second Drive Right campaign. All you need to give is your best driving ability and judgment. But you must give that.

Drive Right. Don't break the family circle.

NOTICE

The parents of those children who will not be able to attend the Christmas Party, December 22 due to illness should notify the Times Office if they wish Santa to visit them.

DRAFTED . . .

The following registrants of Hancock County who had previously been found to be qualified for general military service reported for induction on December 12 1951.

Merrel C. Carpenter -- Goodell
Avin James Becker -- Wesley

Klemme Delegate At Gas Meeting

Went To Omaha To Attend Meeting With People's Natural Gas Co.

A special meeting of the Town Council and the Civic Club was held Wednesday evening after Mayor V. A. Cook had received a telephone call from Mr. Harrison, vice president of the Peoples Natural Gas Company of Omaha stating they were to hold a meeting the following day and that it would be advantageous to Klemme to have a representative at the meeting.

W. C. Keraus, ex-mayor of Klemme, and well versed in the proceedings and history of the effort to obtain natural gas service for Klemme, was delegated to attend the meeting at Omaha as representative from Klemme. Mrs. Keraus accompanied him to Omaha the following morning

The Peoples Natural Gas Company is doing everything possible to bring gas lines into Klemme, as well as a few other towns which they have on the franchise list. The whole deal is being held up by the Federal Power Commission in Washington D. C and another meeting was scheduled in Washington for Tuesday for a hearing.

The outcome of this hearing will determine if and when Klemme will get gas service. All the Peoples Natural Gas Company needs is th go-ahead signal from the FPC. The Town Council and the Civic Club made contacts in Washington to bear pressure at the meeting. The outcome of the meeting will be published next week.

Walt Rosendahl Had Good Sale

Walt Rosendahl reports that he had a very good sale and everything sold at a good price. B A. Reemstma cried the sale which was clerked by the First National Bank of Klemme.

Mr. and Mrs. Rosendahl expect to move to Klemme. They are now on a trip to Massachusetts with Mr. and Mrs. Eugene Greiman for a visit with Ardell Rosendahl at an army camp. They are taking Ardell's car to him and all will return home together in the second car as both Walt and Eugene are driving cars on the trip East.

SCHOOL CHRISTMAS PROGRAM DEC. 18TH

The Klemme Grade School will present a Christmas Program with Kindergarten through 6th grade taking part. It will be held in the Klemme Gym on Tuesday evening, December 18th at 7:30 p. m. Everyone is welcome.

Jo Ann Hummel Bride Of Harry Peters In Candle Light Ceremony

MARRIED IN THE KLEMME METHODIST CHURCH

Miss Jo Ann Hummel, daughter of Mr. and Mrs. Dwight Hummel of Klemme, became the bride of Harry Peters, son of Mr. and Mrs. John Peters of Kanawha, in a candle light, double-ring ceremony performed at the Klemme Methodist Church, Wednesday evening at 7:30. The Rev. H. L. Herlein of Des Moines and Rev. E. Morris Egeland officiated. Baskets of yellow and white chrsthanthamums and lighted tapers decorated the altar.

Before and during the ceremony, Mrs. Jay Veldhouse sang "O Promise Me", I Come To Thee" and "The Lord's Prayer." Maurice Jacobs was organist.

The bride, who was given in marriage by her father, wore a white satin gown fashioned with a fitted bodice of Aleucon lace with a scalloped neckline inserted with net, the fitted sleeves were of lace. The lace peplum tapered into the train. The fingertip veil was of bridal illusion, held by a hat of Aleucon lace with hand appliqued iris sequins.

She carried a bouquet of white roses and carnations, Her only jewelry was a single strand of pearls, a gift from the groom.

Miss Janice Hummel, sister of the bride, was maid of honor. She was attired in a gold satin and net gown and carried an arm bouquet of gold and bronze chrysanthemums.

Donald Abbas, cousin of the groom, was best man. Miss Donna Heivilin, cousin of the bride and Mrs. Donald Abbas, were bridesmaids, they were dressed in similiar gowns of blue net and carried arm bouquets of yellow mums. All had shoulder length veils and mitts to match their gowns.

Ushers were Leland Hummel, Virgil Ruter, Laurence Smidt and Herman Schunun.

Joyce Hummel, sister of the bride, was flower girl, she wore a floor length dress and mitts of white satin with a head clip of white baby mums. She carried a white basket filled with rose petals, yellow and white mums tied with a yellow satin ribbon.

Bob and Tom Abbas twin cousins of the groom were ring bearers, they carried the rings on matching white satin pillows.

Virginia Kudje, cousin of the bride and La Vonne Johnson, cousin of the groom, were candle lighters. They wore identical floor length dresses of green taffeta with headclips of yellow baby mums.

Miss Marie Perkins was in charge of the guest book. She was attired in a yellow floor length formal.

The bride's mother wore a purple crepe dress with white accessories and a corsage of pink edged carnations. The groom's mother wore a blue crepe dress with white accessories and a corsage of pink edged ivory carnations.

A reception was held in the church parlors immediately following the ceremony. Rev. L. Benzine of Kanawha read scripture and led in prayer. A square tiered wedding cake topped with a miniature bride and groom centered the bridal table. Mrs. A. J. Kudje, aunt of the bride was hostess. Mrs. Stuart Heivilin aunt of the bride, cut the wedding cake. Mrs. Robert Johnson and Mrs. Melvin Sorenson poured.

Mrs. Leland Hummel, Mrs. Ernest Pergundy, Mrs. Carl Swearingen and Miss Shirley Bisom were in charge of the gifts.

The couple left on a wedding trip to Texas and Mexico and for going away the bride wore a purple velveteen dress with a white corsage of roses and white accessories. They will make their home on the Peters farm near Kanawha.

THE FARM OUTLOOK

By Paul Henderson, County Extension Director

Has the hog market hit the winter bottom? That's a question bothering a lot of us. Francis A. Kutish, who handles the farm outlook work for Iowa State College says there is a good argument for the belief that it has. The hog run during Thanksgiving week was the heaviest since 1944. Yet the market broke only 50 to 75 cents.

Runs continued heavy last week. The interior market eased slightly, but the terminals were strong. The wholesale pork market opened last week on a steady basis, after a month of falling prices.

Kutish sees signs that hogs are pretty well cleaned up in the eastern Corn Belt. Indianapolis has been bidding strong for light hogs. He says that's a good market clue to what's happening in the eastern Corn Belt.

Kutish says. "Another sign of basic strength in the hog market lies in the weight range of hogs bringing top prices here in he western Corn Belt. Most markets stay the same prices for 180 to 270 weights. Often, the markets start discounting hogs over 240 pounds in weight along this time of year."

Hog prices normally reach their peak sometime in August and September & then go down as hog marketings gradually increase The peak in sales by farmers normally comes sometime in September of early January. This year, the summer peak came the first week in August.

More farmers are rasing earlier pigs. And farmers are using better feeding and management methods. So more pigs came to market in August and September than in earlier years. Most farmers have marketed their hogs at lighter weights than a year ago, too.

Thus, last spring's pig crop was up 7 per cent for the country as a whole. Farmers here in the Corn Belt raised 8 per cent more pigs. But we've been selling these pigs faster and at lighter weights than a year ago. Federally inspected slaughter from August 1 to late November ran 17 per cent over the same period last year. In addition, more pork moved out of storage than a year ago.

This pork has been coming to market fast enough that the packing industry has had to lower the prices of dressed pork to get the consumers to eat the extra supply Thus, the Chicago wholesale market on 10 to 12 lb. pork loins at the start of December was about 25c a pound lower than in mid-October.

Bl Kutish feels that the decline in hogs has about run its course The hog market will be rising by late December and the winter rise in hog prices should carry on until sometime into February, he believes.

GIRLS TOURNAMENT WILL BE HELD THIS WEEK

This is the week end when the Annual Hancock County Tournament will be played at the high school gymn.

There are seven teams in the tournament and it looks like the teams are pretty evenly matched, so right now it's anybody's championship There will be plenty of excitement in the tournament as there are a lot of girls who are pust plenty clever shooting baskets and handling the ball. Turn to the schedule elsewhere in The Times

Jr. High Wins Doubleheader

Coach Juhl's "Rockettes" won their third game in a row here Monday afternoon by defeating Goodell 16-13. The final score was an indication of how close the game was throughout. It was 8-8 at halftime Bridges was high with 12 and Faye Janssen scored 4 points to complete the scoring This gives the girls a record of 4 wins and one loss.

The "Rockets" also won their game from Goodell 29-9 in a losely played game This was their second win as compared to 3 losses.

Be sure to attend our next home game with Hayfield. Dec. 17 at 7 00

Supervisors Entertained Highway Workers Saturday Eve

The men who are employed on the county highways were entertained at a six o'clock dinner at Hull's Cafe by the members of the county board of supervisors Saturday evening. This is an annual event which the men look forward to.

Klemme Youth Wins 4-H Dairy Championship In Hancock County

Delwyn, son of Mr. and Mrs. Dale Brede of Klemme, is already looking ahead to the time he completes school as his ambition to take up dairy farming.

Delwyn is an outstanding 4-H club worker and the ribbons and awards he has won the past five years would fill a good sized trophy case. Delwyn's latest award was received December 1st at Britt when awards were given out at a county meeting. Delwyn earned among other awards the coveted plaque given by the Minnesota Valley Breeders Association in recognition of being named the County Champion in Dairying.

Delwyn, who is now 14 years old, has a bright future ahead of him in 4-H work. He was recently elected Vice-Pres. of the County Boys 4-H. He is a member of the Avery-Twin Lakes Boys 4-H and that is a very lively organization.

In his third year of competition young Brede received the Dairy Medal given by Krafts of Chicago. His 4th year he had one of the top record books and was awarded a trip to Chicago; also received a cash award and was a member of the Demonstration Team.

In his 5th year he took up a Market Litter, along with his

DELWYN BREDE

Dairy work, showing hogs at Albert Lea Spring Barrow Show where his hogs ranked in the top group. He has won a number of lesser awards for his work.

Others in his own club to receive honors and awarded a five year membership were Byron Heginger, Dean Burgess and Roger Halfpop, as well as a number of others over the county.

Next year he plans as his projects Pure Bred Durocs and Holstein Heifers.

Santa Claus Making Extra Trip To Visit Kids Here

WILL BE IN KLEMME WEDNESDAY EVENING DECEMBER 19TH

Kiddies Can Visit With Him Here At Any Of The Stores

Here's special good news for the kiddies of Klemme and Community Santa Claus is making an extra trip to Klemme this year just to visit with the kiddies and ask them what they would like for Christmas when he again makes his regular trip.

Santa has telephoned ahead that he will come with his reindeers and sled and that he will stop at Verner Stromer's Pony Farm north of Klemme to feed his reindeer and come in town from there. He expects to arrive at 8:00 o'clock and will go from store to store and visit with all the children.

He said he might leave his reindeer at the Stromer farm to rest up, but he will borrow some of Mr. Stromer's shetland ponies to pull his sled to town, so watch for him to come over the hill in his bright sled.

He isn't bringing his bag of toys and treats this time as he will make another trip later for that. This trip he justs wants to visit the kiddies as he says the kiddies in Klemme and community have been pretty good this past year.

Watch for Santa in Klemme Wednesday evening. December 19. All the stores will stay open so that Santa can keep warm while visiting with the klds.

American Legion Auxiliary Held Christmas Party

The Christmas gift exchange among the members present highlighted the December meeting of the American Legion Auxiliary at the home of Mrs. Flora Back on Tuesday afternoon Dec. 4th.

During the business meeting, it was voted to send $2.00 to our sponsored child for a Christmas gift.

Mrs. Margaret Thomas, rehabilitation chairman, reported that $20.00 worth of Christmas gifts had been sent to the Veterans Hospital in Knoxville.

Mrs. Neva Hartzell and Mrs. Doris Back are to send Christmas Cards to the servicemen who are sons of Auxiliary members.

Following the gift exchange, a lovely lunch was served to the large group present.

The next meeting will be postponed till the second Tuesday afternoon, January 8 Place of meeting will be announced later.

Mrs. Ella Polsdofer was winner of the attendance prize.

WIN-A-PRIZE VOTING CLOSES DECEMBER 19

The Civic Club's Win-A-Prize voting contest comes to a close Wednesday, December 19th, so boys and girls hustle around and get your votes and turn them in at any store before closing time December 19th.

The votes will then be counted and the decision of the judges will be final. The free gifts will be given away at the annual Chistmas party on Saturday, December 22.

Hancock Drainage Petition Approved

Hancock County supervisors approved the petition of Frank H. Guth et al for the establishment of a new drainage district in the extreme southeast corner of Hancock county. The proposed district extends into Wright and Franklin counties and will be administered by the boards of supervisors from the 3 counties if established at a hearing to be fixed at a later date. Wiliam Boehnke of Garner has been named as the Hancock county commissioner on the project.

KATHLEEN NORRIS

Worried Mother

"ARE THERE NEVER to be any more chaperons, and what can we put in their place?" demands a harassed mother, Madeleine Thorne of Evanston. "I have three girls and two boys, and we've always been proud of our beautiful family," the letter goes on. "But for the last few years the situation has gotten pretty well out of hand and neither Lane nor I know just what to do.

"Our oldest girl, Susan-Lee, is 18, Sally-Ann is 16, and Mab, who follows two brothers, only 9. All three girls are pretty, with the red-blonde hair and brown eyes of Lane's folks. Both older girls are popular, and they have been dating boys for some years. At first that was simple; they moved in herds of six and eight, and after school parties Lane or I could pick them up at 10:30.

Can't Say Ns

"But children get an awful lot of amusement now; something social goes on Friday nights, all day Saturday, Saturday nights, and Sunday. We simply cannot be with them all the time. My other children have rights and demands, and when the older girls say 'may we go, the others are going, Mrs. Smith is letting Gloria go, Elsie's

"... hours of floor walking ..."

brother is going,' what can I say? Can I say 'no, you stay at home and do your needlework and put your bureau in order?'

"It's movies mostly now, cokes and hamburgers, and home early. But once or twice lately the near-by movies haven't been attractive, and so 'this awfully nice boy who really drives carefully, Mother, and his father lets him have the car' has taken Lee and Sally-Ann and others further away. And once when Lee was alone on the trip, it was a nice girl's voice at two in the morning, explaining that there had been a bump, no one hurt, nothing to worry about, they were being brought home.

"Nothing to worry about! What do they know of the agonies, the endless hours of floor-walking, watching the clock, telephoning, sitting down to wait again! It isn't as if there weren't accidents; It isn't as if there weren't dangerous boys even in high-school groups, for there are.

"How can Lane and I keep an eye on them? We've tried to raise our own with high principles, but other families don't. We've tried to warn them of the dangerous and stupid things that can happen but when did youth ever take that seriously!

Keep Things Going

"Being friendly with their friends, letting them have friends in their own home, supplying pop and cookies after school—we do all that! Lane is nice with the girls' friends; to get things started we used to superintend pencil games, keep things going.

"But do what we will, there are times, a good many of them, when our girls are off with their friends, and nothing would seem stranger than for me or any other adult to go along, sit through the awful shows, yawn at the table in the candy store, accept the youngsters' forced politeness. Long ago, when mothers chaperoned their girls, life was quieter, parties few and far apart, movies and night clubs, soda counters and motor cars and telephones unknown, youngsters didn't expect to be amused all the time.

"Now do advise me. I want my girls to be happy. I don't want them to be the freaks whose parents lock them up in high towers. They love me, they trust me and confide in me completely. I'm never shocked, never affronted or surprised. Help me to do the right thing in these all-important years, because so soon they'll step into lives of their own, and understand better what is going on now, and what the values of home guidance and influence are."

This letter made me think pretty seriously, for no one knows better than I if a mother attempted to chaperon one girl today she would have her time completely filled.

No, Madeleine, you can't do it. While you were watching Lee dance, Sally-Ann and her date would be a mile away at a movie, holding hands.

The only thing to do is talk with the girls, constantly and casually and earnestly and at all times in all moods. If they've had the right little-girl years in your house, and it sounds as if they had, they're going to believe you when you tell them that coarse words, rotten stories, immodest dress, and the acceptance of all sorts of liberties from boys are destructive

HOUSEHOLD MEMOS... by Lynn Chambers

Make Steamed Pudding for Holidays Now
(See Recipes Below)

Holiday Favorites

STEAMED PUDDINGS and fruit cakes are age-old menu traditions that belong to Christmas and New Year feasts. As all of the more experienced home-makers know, these are both things which may be done, in fact, should be done before the holidays actually arrive.

Like most culinary heirlooms from other centuries, old-fashioned puddings and cakes would not please modern tastes. Many of them would be considered too heavy, lumpy and soggy.

Modern cakes and puddings are neither too heavy nor over-rich, and they combine all of the best and none of the bad features of the traditional concoctions.

Make them now, before you get too involved in shopping, making gifts and other decorations. Give them an opportunity to mellow.

• • •

HERE'S A PUDDING that's plump with goodness of fruits and nuts, fragrant with flavors and yet light enough to serve after ham, roast beef or turkey, whatever the choice for the holidays.

Steamed Date-Nut Pudding
(Serves 8)

- ¾ cup butter or substitute
- 1½ cups dates, chopped fine
- ¾ cup chopped nuts
- 3½ cups soft bread crumbs
- 3 teaspoons baking powder
- ½ teaspoon salt
- ¾ cup milk
- 3 eggs
- ¾ cup sugar
- ¾ cup apple juice

Cream butter; add dates and nuts and mix well. Combine bread crumbs, baking powder and salt and stir in milk. Add to date-nut mixture. Beat eggs, add sugar and beat until light. Add to batter. Finally, stir in ½ cup of the apple juice. Turn into one-quart pudding mold which has been well greased or oiled. Pour remaining apple juice over the pudding. Cover and steam for 2 to 3 hours.

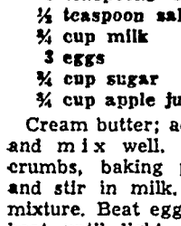
• • •

HERE'S AN UNUSUAL fruit cake which is rich and delicious. It will keep well for several months, provided you have enough left to keep after the festivities.

Rich Fruit Cake
(Makes 1 Cake)

- 1 pound dates
- ¾ cup candied cherries
- 1 slice candied green pinapple
- 1 slice red candied pineapple
- 2 slices white candied pineapple
- ¼ cup candied orange peel
- ¼ cup candied lemon peel
- ¼ cup candied citron
- 1 cup chopped pecans
- 1 can moist coconut
- 1 can sweetened condensed milk

Cut dates and cherries into thirds. Cut remaining fruits about the same size. Mix all ingredients together thoroughly and press into a small, greased loaf pan lined with greased brown paper or an 8-inch tube pan greased and lined with greased brown paper.



LYNN CHAMBERS' MENU
Onion Soup
Spaghetti with Meat Sauce
Cheese
Tossed Green Salad Olives
Crusty Rolls or Bread
Baked Caramel Custard Cookies
Beverage

Bake in a slow (300°F.) oven for 2 hours. Turn out on cake cooler. Decorate with blanched almonds, candied cherries and leaves from green candied pineapple, if desired. Cover with waxed paper and store in refrigerator.

• • •

Miniature Fruit Cakes
(Serves 10)

- 2 cups brown sugar
- 2 cups hot water
- ¼ cup shortening
- 1 cup raisins
- 2 cups sifted flour
- 1 teaspoon baking soda
- ½ teaspoon salt
- 1 teaspoon cinnamon
- ½ teaspoon cloves
- ½ teaspoon nutmeg
- 1 cup chopped candied cherries
- 1 cup chopped dates
- ½ cup chopped nutmeats
- 1 cup oats, uncooked (quick or old-fashioned)

Combine brown sugar, hot water, shortening and raisins in saucepan and bring to a boil; cook 5 minutes. Cool. Sift together flour, soda, salt and spices into a bowl. Add chopped fruit, nutmeats and rolled oats. Add brown sugar mixture, mixing thoroughly. Fill greased custard cups, ⅔ full. Bake in a slow (325°F.) oven about 1 hour. Cool for 10 minutes before removing from custard cups. Serve warm or cold with hard sauce.

• • •

IF YOU DON'T like to make your cake several weeks ahead of time, here's one that can be made during the last week before festivities. The cake has a rich, luscious texture and a flavorful combination of of citrus and nuts.

Santa's Prize Cake
(Makes 1 Cake)

- 1 cup butter
- 1 cup sugar
- 2 tablespoons grated orange peel
- 2 teaspoons grated lemon peel
- 2 eggs, slightly beaten
- 2½ cups sifted flour
- 2 teaspoons baking powder
- 1 teaspoon baking soda
- ½ teaspoon salt
- 1 cup sour milk
- 1 cup chopped walnuts

Cream together butter and sugar, beating until light and fluffy. Add orange and lemon peel, then blend in slightly beaten eggs; beat thoroughly. Sift together dry ingredients and mix into slightly creamed mixture alternately with milk. (To sour milk, add 1 tablespoon lemon juice to 1 cup sweet milk and allow to stand.) Fold in walnuts. Pour into greased ring mold pan and bake in a moderate (350°F.) oven for 50 to 60 minutes, or until cake springs back when lightly pressed.

LYNN SAYS:

Try these Short-Cuts On your Busy Days

Want some colored sugar? Add some food coloring to granulated sugar, and rub with fingertips to spread color. Sprinkle this on plain cookies before baking.

Need to speed measuring technique? Keep a set of graduated measuring cups or spoons, whichever are used most often, in the canisters or cans containing your dry ingredients.

Like some soup for supper? Use a boullion cube plus juices from canned vegetables and heat. Add leftover tomato juice and leftover vegetables, if desired while heating for variety.

Need some melted chocolate? Wrap the squares of chocolate in a square of aluminum foil, and fit over the top of your open teakettle so it doesn't slip. Heat the water in the kettle and chocolate will melt, then pour off chocolate and throw away the foil. There's nothing to wash!

Crime in America

United States Senator

Thirteen of a Series

Philadelphia: Police Tactics In the City of Brotherly Love

In Philadelphia, one of the nation's largest, most efficiently organized numbers rackets flourishes—operating through "a politico-gambler-police tie-up that makes it impossible for any intruder to edge his way in from the outside."

A paralyzing attitude of apathy seems to hang like an ether mist over the police department. One judge who agitated—finally with some success—for stiffer action against the numbers racketeers, told the Senate Crime Committee frankly that the "big fry" just didn't seem to get caught.

Evidence indicated that Philadelphia is organized by the numbers operators into various geographical territories, each with its own "numbers bank." Public Safety Director Samuel H Rosenberg told us he understood that was the way the racketeers operated We questioned Rosenberg

Q: Are you aware that it is common knowledge, in connection with gambling operation, that payments are made to police officers?

Rosenberg: I have never been able to prove that. We have asked for proof, and have never been able to obtain it!

One of his worst handicaps in administering the police department, the safety director stated, was the Philadelphia system of civil service regulations, "originally intended to be on the merit basis, but which have put us in an absolute straitjacket."

I was pleased, some months after our Philadelphia hearings, to hear that a long-desired city charter reform had been voted by the citizens The victory was achieved despite the opposition of Mayor Bernard Samuels' administration. and, among other things, will set up machinery to take civil service out of politics

The principal racket character we questioned was Harry Stromberg, alias Nig Rosen a stocky, swarthy balding man with intensely dark eyes and an annoying habit of repeating almost every question before giving an answer

• • •

At the age of nine, the Russian-born Stromberg was sent to a protectory as a juvenile delinquent. He has been arrested numerous times since, served time for attempted burglary, and admitted to us he had been a bootlegger and, more recently, a numbers operator and book-maker It was evident from his grudging testimony that he had been the rackets king-pin in the city of Brotherly Love Now, Stromberg argued, he was engaged in the dress manufacturing business in New York city He insisted he had no connection with the rackets.

The nemesis of Stromberg in Philadelphia was the assistant superintendent of police in charge of detectives, white-haired George Richardson, who heaped vilification upon him.

Richardson asserted that Stromberg had run his part of the Philadelphia numbers racket by remote control from New York, after leaving Philadelphia around 1914 and still had a hand in Philadelphia rackets. Eight months earlier, Richardson had written the director of the Greater Miami Crime Commission: "Rosen has connections with the underworld throughout the entire nation. So far as the local mob is concerned, he is their undisputed leader and is commonly known as 'The Mahoff.' Among his followers his word is law"

Since testifying before us, Chief Richardson has been suspended from duty on a charge that he had forced the "confession" of a man who had been sent to the penitentiary for homicide. After 12 years in prison, the victim was found to be innocent and released

• • •

Judge Joseph Sloane of the common pleas court told us that many of his colleagues on the bench were content merely to impose small fines and no jail sentences on persons pleading guilty of gambling offenses In five years prior to 1950, we learned, out of thousands of gambling arrests, only two defendants actually had gone to jail However, as our report summed up: "There has been a change in attitude on the part of judges since the committee held its hearings in Philadelphia More and more jail sentences are beginning to be imposed and it is a fact reported by municipal authorities, that the numbers game is no longer as easy to carry on in Philadelphia "

The committee took note of a local "cause celebre," which we regarded as 'indicative of the tie-up of gamblers, politicians and police." Michael McDonald, a Philadelphia policeman, had arrested a numbers writer named Jack Rogers. While Rogers was being booked, McDonald said, one Mike Caserta 'who had been named by Rogers as his backer" came into the station house

McDonald said that Caserta offered him $200 if he only would modify the charge against Rogers to disorderly conduct McDonald testified "I refused the offer As he turned away he said 'I will frame you good.' When he said that, I grabbed hold of him and placed him under arrest."

• • •

At that point, McDonald continued, Police Captain Vincent Elwell appeared and "wanted to know who locked up 'Mike' He addressed him as 'Mike'"

That night, McDonald said, he was called in to Captain Elwell's office and was ordered to alter his report on Caserta McDonald claimed he refused and that Captain Elwell then told him, 'Stick around I want to talk to you" In about 10 minutes, Captain Elwell walked to the door and asked, "Who is hollering out there?' A sergeant promptly stepped in and dutifully announced 'A man is complaining about being short some money out here"

Thereupon, on Captain Elwell's orders, the numbers writer, Rogers, was brought in and complained he was short about $123 McDonald was accused of turning in less money than he had taken from Rogers at the station house when he brought him in, and Captain Elwell immediately suspended him.

"McDonald gave a picture of the operations of the politico-gambler-police triumvirate," the report continued He named a policeman who, he said, was known as the "collector" for Captain Elwell—he would come into the station house with his pockets "bulging," McDonald testified—and a ward boss who frequently conferred with Captain Elwell at the station house. McDonald estimated that protection money paid to police alone, exclusive of "payment to the higher-ups," totaled at least $152,000 a month

• • •

The committee inquired, too, into the underworld penetration of a Philadelphia steel fabricating concern, which we concluded had been accomplished through "political influence." A numbers racketeer named Louis Crusco had bought his way into the Strunk Steel Co. by virtue, the committee inferred, "of his close association with the son of Philadelphia's mayor." Crusco was an old friend and neighbor of Richard Russell Samuel Sr., son of Mayor Samuel. The numbers man bought his interest in the company under extraordinary circumstances: he carried the purchase price, $34,000, in cash in a satchel to a stockholders' meeting. Richard Samuel Jr., 19-year-old grandson of the mayor, accompanied Crusco and, according to the testimony of one stockholder who was selling out, "apparently was the mouthpiece for Mr Crusco."

"Until Crusco came along," our report to the Senate summed up, "the company had never been able to get any business from the city of Philadelphia but, while Crusco was negotiating his stock purchase in the company, it received a contract from the Philadelphia Transit Co., a local public utility, on which there were no competitive bids. The president of the company testified that this deal had been suggested to him by the mayor's grandson, who coincidentally, was placed on the company's payroll as part of the Crusco stock deal"

Next week, Nevada: A case against Legalized Gambling.

THE CHARMING DECEIVER

Detective Disguises To Catch Crook

CLEVELAND—An ex-convict, attempting to extort $5,000 from the parents of a 10-year-old girl who has been missing since August, was nabbed by a detective who posed as a woman to trap him.

Frank Davis, 48, admitted to police that he phoned and wrote to Mr. and Mrs. Robert Potts, telling them their missing daughter, Beverly, would die unless they paid the money.

Then Potts informed police and Davis was captured when Detective Bernard Conley, masquerading as Mrs. Potts, handed him a paper sack, supposedly containing the $5,000.

Davis, who has served time for automobile theft, was turned over to the FBI and Postal authorities for prosecution.

Husband May Have 'Substitute Wife'

Does your husband have a substitute wife?

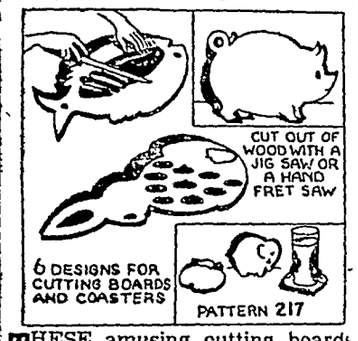
"Ridiculous as it may sound, such dramas of infidelity are being played out every day in countless of respectable American homes," according to a columnist and marriage consultant, Dr. George W. Crane, writing in Coronet.

In his article, SIX RULES OF LOVE TO HOLD A HUSBAND, Dr. Crane explains that the problem of the straying husband is fundamentally a problem in opposed views, and it can be solved if each party makes a special effort at understanding. At the cost of hours lost from doing things she would much rather do, today's average wife has become an excellent cook and housewife, dedicating herself to the high ideal of family life, and at the same time, neglecting the importance of extended physical love in a successful marriage.

A normal man feels frustrated unless he achieves normal sex expression, without it, his ego is impaired; his personality off balance. Yet, thousands of women are apparently unaware of this simple truth.

"Men, all over, seek romantic satisfaction," continues Dr. Crane, "First of all, in their own homes. If they fail to find it there, they go outside, not because they want to, but because they are driven to it. The average husband, deprived of this love and satisfaction in his home, is forced to resort to a substitute wife, despite the chance he takes of wrecking his home. "Tradition, notwithstanding, the way to hold a husband is not by being a matchless cook and housekeeper."

Kitchen Handies



THESE amusing cutting boards and coasters are a necessity in any kitchen. The tails make good handles when used for serving. Also note there is a hole in each for hanging in some handy place. The coasters are big enough to double as hot dish mats. Everything is complete on pattern 217, price 25c.

It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE —NOT GOOD FOOD

• Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon . . . right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.

FEEN-A-MINT

Former Klemme Youth Is Married To Girl At Clear Lake

MR. AND MRS. STANLEY LUDEKE

BECOMES DECEMBER BRIDE

Miss Patricia A. Hanley, daughter of Mr. and Mrs. Richard W. Hanley, 1305 N. 5th street, Clear Lake, became the bride of Stanley R. Ludeke, son of Mr. and Mrs. Ralph C. Ludeke, route 2, Clear Lake, Sunday evening.Dec. 2, at the Methodist church, Clear Lake. The Rev. Warner M. Hubbard read the double ring ceremony at 8 The candlelighted church was decorated with greenery and yellow and white mums and pompons in tall baskets

Mrs. Harry Mason, organist, played the traditional wedding marches and accompanied Paul Ludeke who sang "Because" & "O Promise Me" and Claire Tompkins in "The Lord's Prayer.

The bride wore a satin ankle length gown fashioned with a net overskirt apron effect trimmed in lace and with a lace bolero jacket. Her lace trimmed fingertip veil was fastened to a lace tiara trimmed with orange blossoms. She carried white carnations and roses on a bible, a gift of the groom. She wore a 3 strand pearl choker.

Miss Marilyn Ludeke, sister of the groom and student at Iowa State Teachers College, Cedar Falls, was maid of honor, and Miss Bettylou Bohn, Garner was bridesmaid They wore yellow ankle length taffeta made off the shoulder with fitted bodice and net overskirts. Each wore rhinestones and carried a corsage of white pompons and Talisman roses with matching flowers in their hair.

George Richards, Alexander, was bestman. Claire Tompkins, Garner, was an attendant. Ushers were Jack Dominic, Daniel Collins and Homer Schoenwetter.

Jill Dominic, niece of the groom and daughter of Mr. and Mrs Jack Dominic, dressed in shell pink net over taffeta, and with Sweetheart roses in her carried a basket of flowers. Richard D. Hanley, brother of the bride, carried the rings on a heart-shaped satin pillow.

Mrs. Hanley, mother of the bride, wore a carmel tan suit with brown accessories and Mrs. Ludeke, mother of the groom, black velvet with pink accessories. Each had a corsage of pink roses.

Out of town guests included Mrs. Amelia Arnold, Miss Minnie Lenz, Dr. and Mrs. D. P. Anderson, Messrs. and Mdms. Geo. Schoenwetter, Homer Schoenwetter, Art Schoenwetter, Lester Stille, Bob Hartzell, and Mrs. Lydia Ax and Irvin, all of Klemme;

Mr. and Mrs. C. L. Hartzell, Mr. and Mrs. Kenneth Hartzell, Miss Grace Hartzell and the Misses Marge and Elaine Hartzell of Britt; Mr. and Mrs. Dale Hartzell and Beni and Ted Hartzell of Dows;

Mr. and Mrs. Purd Tompkins and Dean of Garner;

Mr. and Mrs. Henry Ludeke, and Mr. and Mrs. Paul Ludeke of Goodell;

Mr. and Mrs. Morris Bailey of Dike; Mr. and Mrs. D. Collins of Mason City; Mr. and Mrs. Milo Hall of Stanhope; Mr. and Mrs. Phillip Thurte and Kay of Eagle Grove; Mr. and Mrs. C. B. Hill of Iowa Falls; Mr. and Mrs. Duane Murphy; Dewey, Paul and Berle Clawson, Mason City; and Mr. and Mrs. George Keiulike of Mason City.

Sells Purebred Brown Swiss

Alfred W. Jurgemeyer, a brown Swiss breeder of Ventura, Iowa, has recently sold the bull Jurgie's Dolly's Andy 108946 to Herman Harms, Titonka, Iowa, according to a report from Fred S. Idtse, Secretary of the Brown Swiss Cattle Breeder's Association, Beloit, Wisconsin.

A lady is a woman who makes it easy for a man to be a gentleman.

1ST ADJOURNED NOVEMBER MEETING

Garner, Iowa
November 19, 1951

The Hancock County, Iowa, Board of Supervisors met in session on above captioned date pursuant to adjournment with Clint Daniels. F. J. Schoun and Clarence Bird present.

The minutes of the last meeting were read and approved as read.

This being the 19th day of November 1951, a date heretofore fixed for a hearing on the report of Chas F. Merten, Engineer recommending that the contract of Howard Greiman of Garner, Iowa for labor and material on D. D. No. 3 & 4, Lateral No. 18, be accepted as complete and final estimate in the sum of $376.64 be paid, the hour for said hearing having arrived and the Board being fully advised said hearing was held as scheduled. / No objectors appeared.

BE IT THEREFORE RESOLVED by the Board of Supervisors acting for and in behalf of D. D. No. 3 & 4, Lateral No. 18, that the report of the Engineer recommending a final payment on the contract with Howard Greiman of Garner, Iowa for labor and material on D. D. No. 3 & 4, Lateral No. 18 be approved, is approved and final estimate ordered paid as by law directed.

On motion and second the bond of Stille and Greiman of Garner, Iowa, contractors on D. D. No 13, Lateral No. A-3 is hereby approved.

On motion and second the 1951 report of Hancock County Weed Commissioner, Ray Hunsley, is hereby approved.

On motion and second the report of allocation among counties of equalization farm to market road fund income for fiscal year July 1, 1949 to June 30, 1950, is hereby approved.

WHEREAS Wm. Henschen was appointed as commanded in Chapter 455, Code of Iowa 1950 and laws amendatory thereto, on May 21,1951 to make a survey, investigation and report on the necessity and feasibility of the cleanout to grade, of the main open ditch of Drainage District No. 114, petitioned for by Laurice Larson, et al, and said Engineer did file his report on November 15, 1951, which report states that he has investigated and surveyed the lands in said district and finds the present system of drainage inadequate and recommends that D. D No. 114 be cleaned out to grade, as prayed in the prayer of the petitioners and that such improvement will be conducive to the public health, welfare, convenience and utility and that the benefits to be derived will be greater than the cost thereof

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa acting for and in behalf of D. D. No. 114, ptitioned for by Laurice Larson, et al that the report of the Engineer be and the same is hreby approved and January 14, 1952, at the hour of 1 00 P M. at the Courthouse in Garner, Iowa is hereby fixed as a time and place for letting of the cleanout thereof in accordance with Sec. 455.135, Code of Iowa, 1950, no hearing being necessary.

The County Auditor be and he is directed to cause notice of such letting to be published in The Britt News-Tribune, a newspaper of genral circulation published at Britt, Iowa, which notice shall request bids on labor and material for the cleanout, to grade, os said drainage improvement, the time of commencement and completion, the approximate amount and kind of work to be done, that the Board reserves the right to waive technicalitis and to reject any or all bids, all in accordance with Chapter 455, Code of Iowa 1950.

The foregoing resolution was offered and read by Supervisor Bird who moved its adoption, was seconded by Supervisor Daniels, whereupon the Chairman F. J Cchoun, placed the motion of its adoption and upon roll call the vote thereon is Clarence Bird, Clint Daniels, and F. J. Schoun, ayes. Nays, none. Whereupon the Chairman declared the resolution duly adopted.

This being the 19th day of November, 1951, a date heretofore fixed for an adjourned hearing on the proposed construction of D. D. No 157, petitioned for by the Town of Goodell, Iowa, by its Mayor J. J. Cook, et al, the hour for said hearing having arrived, the orginal report and the amended report of the Engineer recommending such establishment being on file, the proof of publication being on file and the Board being fully advised, said adjourned hearing was held as scheduled.

All objectors and proponents were given an opportunity to discuss the necessity and feasibility of the establishment of the proposed construction of said D. D. No. 157 and objections thereto, as recommended in the reports of the Engineer, Chas F. Merten. All objections, oral and written, to said proposed construction were duly considered by the Board and after such consideration, it was deemed conductive to public health, welfare, convenience and utility and the benefits to be derived will be greater than the cost thereof and that said construction of D. D. No. 157 be established as petitioned.

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa acting for and in behalf of D. D. No. 157 petitioned for by the Town of Goodell, owa by its Mayor, J. J. Cook et al, which district is to be constructed through lands listed in the Engineer's reports, be and the same is hereby established.

On motion by Supervisor Daniels and second by Supervisor Bird that the proposed construcion of D. D. No. 157 be established in accordance with the recommendation of the Engineer and the report, amended report and plans on file, all in accordance with Sec. 455.28, Code of Iowa 1950 and laws amendatory thereto, and the hour of 1:30 P. M. on the 14th day of January A. D., 1952 at the Court House in Garner, Iowa is hereby fixed as a time and place for the letting of the construction thereof.

The County Auditor be and he is directed to cause notice of such letting to be published in the Klemme Times, a newspeper of general circulation, published at Klemme, Iowa which notice shall request bids on labor and material for the construction of said drainage improvement, the time of commencement and completion, the approximate amount and the kind of work to be done, that the Board reserves the right to waive technicalities and to reject any or all bids, all in accordance with Chapter 455, Code of Iowa 1950.

The foregoing resolution was offered and read by Supervisor Daniels, who moved its adoption, was seconded by Supervisor Bird, whereupon the Chairman F. J. Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels, Clarence Bird and F. J. Schoun, ayes. Nays, none. Whereupon the Chairman declared the resolution duly adopted.

On motion and second notice of non-residence is hereby ordered served on Mr. and Mrs. Vincent Behrens and family.

On motion and second the Board adjourned to November 26, 1951 at 9:00 o'clock A. M.

HAYFIELD TOOK DOUBLE-

The Hayfield high school racked up two wins at Klemme Tuesday night.

The Hayfield girls defeated the Rockettes 59-47 while the Hornets won over the Shamrocks 32 to 24.

Oldest Public Steno Recalls O. Henry, Other Great Writers

NEW YORK, N.Y.—Elsie Dugg, 40 years a veteran at a trade gradually vanishing from the American scene, is still busy at 80 years of age. She admits, however, that the job is not as glamorous as it used to be.

Miss Duff is said to be the oldest working public stenographer in New York city. And she doesn't know when she will retire. "I can't," she explains. "There's no one to take over my work."

She points out that few stenographers in these modern times are willing to gamble on earning an income on an hourly fee basis.

Miss Duff operates in the same cubbyhole office in the Old Prince George hotel where she started many years ago and she has a memory list of clients that includes many famous and interesting personalities.

The hotel was at one time a gathering spot for writers, and one she knew well, and served often. was the novelist Emerson Hough. She typed his whole manuscript for "The Magnificent Adventure," a story of the Lewis and Clark expedition.

She was also the first to hear and read the impassioned temperance lectures of John L. Sullivan, boxer turned crusader, for it was to her that he dictated them.

Once, she was even included in a story written by one of her customers. The author, a silent little man always brought in his stories written on yellow paper in a clean, beautiful hand. Once he handed her a manuscript, remarking, "By the way, I put you in this story."

As she typed the passage in O Henry's "The Face in the Circle" that told of a public stenographer, she was writing a description of herself.

One Broom Swept Heavily; Law Investigates Sweepings

CHICAGO—A good sweeper is a good man to have around for a janitor, but a heavy broom got Abe Forrest, 29, a Walgreen drugstore porter, into plenty of trouble.

Forrest was held to a grand jury on a larceny charge. Police said he "swept out" more than $60,000 worth of candy and cigarettes from the drugstore.

Also held to the grand jury was Forrest's half brother, John Cobbs, who police said told of hauling away the "sweepings" over a period of months.

Navy Chief Solves Mystery Of Woman Free With Dollars

NEW YORK—The mystery of the woman who happily passed out dollars and pep talks to navy recruits has been brought to light by a chief petty officer who received $150 from the lady to distribute among a contingent of 130 bound for Newport, R.I.

Petty Officer Steven Kotelas, Sr, Bridgeport, Conn., was approached by a woman asking how many men he had in his charge. Not knowing who she might be, he refused to answer.

"She says maybe I got a hundred men," he relates. "She peels off a $100 bill and tells me to divide it among my men. It's then I tell her I got 130. She gives me $50 more."

The next night same time, same place, same routine. Kotelas had 135 men, the lady gave him $135 and also gave the recruits on the train a fine pep talk. The petty officer then had a heart to heart talk with the generous donor and discovered that she was Mrs. Muriel McCormick Hubbard, sister of Chicago industralist Fowler McCormick and granddaughter of the late John D Rockefeller.

Poor Private Wilbur Hates Bugle Call in the Morning

Let it be known that Wilbur just hates to get up in the morning and if the Army buglers operate on Daylight Saving Time, he may not be able to stand it all.

His worried mother conveyed that information to Gen. Lewis B. Hershey, Draft Director.

She said that Wilbur, not otherwise identified, was about to be drafted and she feared that he would not fare so well with Army living.

"He never could stand to get up early in the mornings, and I no they may them get up awfully early in the Army," she wrote. "And it will be even a hour earlier if they have daylite savin. So pleese General Hershey dont let them hav daylite savin because I don't think Wilbur coold stand getting up so early in the mornins and wooldnt do justis to being a solder."

World's Oldest and Biggest Tree Said in South Mexico

WASHINGTON—The oldest, biggest tree in the world is said to be the Tule cypress of Santa Maria del Tule, six miles from Oaxaca in southern Mexico. It is a Taxodium mucronatum, the same cypress as the ones in Chapultepec Park in Mexico City.

Thousands of years old, it is still green and vigorous, and has a roundness suggestive of the oak rather than the usual slim cypress.

"El Tule," as it is called, is so massive that 28 people, touching fingertips of outstretched arms, barely can encircle it.

TOWN COUNCIL PROCEEDINGS

SPECIAL MEETING

November 19, 1951

Meeting called to order by Mayor Cook with Schultz, Barz, Schaefer, Arnold and Buseman, members of the Council present.

Minutes of the previous meeting were read and approved.

Mayor Cook directed Councilman Schaefer to make a report on the condition of Storm and Sanitary Sewer tile at a point near the intersection of Front Street and Iowa Street.

Councilman Schaefer reports that, at the point close to the intersection of Iowa and Front Streets, the two sewer lines pass one over the other At this point, broken tile was permitting flow from the Storm Sewer to pass into the Sanitary Sewer lines.Sewer lines. Examination at this point discloses that the storm Sewer tile is very seriously deterorated and in danger of collapsing.

After discussion of the report by Councilman Schaeftr, it was agreed that a qualified drainage engineer should be called to meet with and advise the Council on proper and necessary steps to be taken in repair or replacement of sertain sewer lines.

Meeting adjourned.

Mayor
A. R. ARNOLD
Clerk

GAS

Monoxide gas caused the death of Jack Hamp recently at his home in Sloan. Leaves had blocked the chimney of the house preventing the furnace fumes from escaping. His mother-in-law, Mrs. Mary Schuster, became violently ill from the fumes.

An ad in the Times will sell it.

Farm Implements Klemme, Iowa

Common Sense Demanded In Farm Modernization

Use a little common sense if you're planning on remodeling or modernizing old farm buildings.

Besides just getting something new, be sure it will save time and reduce the labor required in the performance of everyday chores.

Take into account effort put forth in walking—make new plans so they will cut steps to a minimum Be sure you are getting full use of electrical equipment. This is important in milking parlors, feeding areas and milk houses, he added.

For safety and ease of production make sure sufficient amounts of light appear in the right places. Make sure the barn has convenient outlets the same as the milk rooms and the feed-mixing areas.

Arrangement is important, too. When building or remodeling farm buildings see that unnecessry operations in feeding, watering and other chores are cut down. The feed processing room should be located for ease of delivery, automatically handled if possible.

Farmers should not get wrapped up in what appear to be big things, forgetting the many small obvious necessities For example, the water system with its tank, pump and wiring circuits should be as carefully planned for the barn and out buildings as the pressure system in the farm home Correct electric wiring with proper fuse and breaker box are items that are often overlooked.

War Dogs Called Up Again For Duty on Korean Front

U. S. war dogs are headed back into action The report that "K-9" (canine) warriors are being sent to the Korean front from a California Army base is a reminder that fighting dogs, like ground troops, have not yet been replaced by "push-button" warfare.

From prehistoric times, the dog's acute sense of smell and hearing, his watchfulness, speed, and above all his devotion to man, have made this animal a valuable military ally

By World War I, practically all the major belligerents, except the United States, were training many thousands of dogs for sentinel, messenger, rescue and other duties During World War II, Uncle Sam put into effect his first war-dog program, an extensive operation in which more than 10,000 American "Wags" were prepared for military service Many of these K-9 soldiers performed deeds of heroism in battle theaters that ranged from snowy fields of the Far North to the tropic jungles of Pacific islands

Altogether some 18,000 dogs were donated for military duty by American owners Among the 30-odd suitable breeds were Doberman Pinschers, Airedales, Boxers, German Shepherds, and Giant Schnauzers, along with such sturdy pack dogs as Alaska Malamutes and Siberian Huskies.

Government Jobholders

Indicative of the growth in government in the past half century, one out of every eight persons with a job in 1949 worked for government—federal, state and local—as compared with one out of every 23 in 1900, according to figures compiled by the National Industrial Conference board. Including the armed forces, a total of 7 3 million persons were on government payrolls last year as compared with 1.2 millions in 1900, a gain of more than 500 per cent.

Old Trees Need Care

A healthy old oak, sugar maple, hickory or beech has a majestic beauty that only years can give to a tree Just as the life span of man has been increased through the years by better knowledge of health and the conquest of diseases, so shade trees can live to a riper old age by greater care. Maintaining soil fertility is the first step. Feed lawn trees a well balanced, highly organic tree food Prune out the dead wood showing up.

Formula for Work Horses

To get farm horses in top condition for spring work, veterinarians advise these steps: (1) Build up the grain ration gradually over a period of a month—don't switch abruptly to heavy grain feeding after keeping horses on only hay and silage through the winter (2) Work them just a short time each day until they are in shape for a full schedule of hard work. (3) Have their teeth and feet examined and have them checked for internal parasites. (4) Have them vaccinated against equine encehphalomyelitis (sleeping sickness) before the start of warm weather.

Heavy Rainfall Regions

In the United States, Louisiana drawing Gulf of Mexico moisture, can claim state rainfall honors with four and one half feet per year over a 50-year period. Nevada is the only state averaging less than one foot of rain. The world's regions of heaviest rainfall are mostly close to the equator and on the seaward side of high mountain ranges. In Oregon and Washington, the Cascade range illustrates how mountains take moisture from sea winds.

Round Up Your Equipment and Find—

A CENTER FOR YOUR SEWING

This homemaker has fixed up a place to sew in the coner of he living room. A portable sewing box holds her small equipment, the pressing board at her right takes up little space and enables her to press as she goes along. The light from the window comes over her left shoulder, giving good illumination. For evening sewing she'll use a floor lamp at her left.

Where do you sew? Is the space around your sewing machine equipped and organized to zip you easily and efficiently through all those steps in making a garment- Or do you use the "hunt and peck" method of sewing- cut out here, sew there, press over yonder?

If so, chances are you haven't thought much about the needless hours, and energy you waste. Or you haven't realized how easy it would be to set up a compact, convenient sewing area.

Where Shall It Be?

Where in your home can you set up this sewing center? That's the first question, says Elsie Williams, clothing specialist of Iowa State College You'll want it to be out of the "beaten path ways" in the house perhaps a corner of the bedroon if you have central heating, or a corner of the living or dining room Maybe there's space in your utility room for a sewing center The corner of your kitchen might turn out to be most convenient or an unused bedroom

Once you've decided on the location, here's a good way to arrange your equipment If you work from right to left, it's convenient to place your cutting table to the right of your sewing machine and the ironing board and iron to the left Place them close enough together so you can easily reach from one to the other while sitting at your machine

If space is a problem, or you do your cutting at the dining or kitchen table, then place a small table at your right or left instead of the cutting table After cutting and marking your fabric pieces, fold them in units in the order in which you will sew them and put them on this small table at the right of your machine. This table also makes a handy work surface for pinning darts, laying pleats, and so on

An ironing board that can be adjusted to a height convenient for working while seated is a big asset, says Mrs Williams Many women around the state have made themselves a small pressing board for use at the machine, instead, and find that the best plan of all They make it by padding a piece of heavy cardboard with flannel or muslin. Other women have found a sleeve board adequate for most of those small pressing jobs.

For real comfort and handiness during long stretches of sewing, you may want to invest in a posture chair on swivel casters

Of course you'll want to provide storage space for your sewing equipment, too. A small sewing cabinet is a wonderful convenience If you sew in the bedroom, perhaps you can set aside a dresser drawer within easy reach There are also special portable sewing boxes with removable trays that are dandy for small equipment such as shears, thread, scissors, tape measure, buttons and the like.

Provide Good Light

Nothing creates eyestrain, fatgue and sewing nerves quicker than poor lighting, says Mrs. Williams. So be sure to choose a spot for your sewing area where there's good lighting. Best of all is an arrangement by a window so that the light comes over your left shoulder as you sew. If you sew at night, provide a good lamp at your left (in addition to the light on your sewing machine) and keep the overhead light in the room on for good over-all illumination.

Blind Brothers Successfully Manage Large Family Farm

KAUKAUNA, Wis —If you hadn't been told, you would hardly guess the truth as you watch the Willems brothers, Henry and Aloysius, go about the work on the farm that has been in the Willems family for 100 years. Even after you know, it is hard to believe that the two brothers, who move so quickly and surely, are both blind

For almost 30 years Henry and Aloysius have managed the farm and done all the chores. They have daily milked 30 head of cattle and care for a sizeable flock of chickens and several hogs

"We don't do field work, such as silo filling and plowing" Henry explains. "We have good neighbors and they help us out. If they are busy we hire someone to do it We make our own decisions as to when it is time to plant"

Although the brothers sold much of their stock at a recent auction they still have "enough to fuss around with' on the farm.

Recreation is not a big problem for the two Both enjoy trips to town for a chat with neighbors and during bad weather spells they listen to "talking books" supplied by the state

Three sisters, Alvira, Malenia and Hilaria, live with the brothers and take care of all paper work connected with management of the farm.

Cluster of Cabs Tips Cop To Illegal Poker Session

MILWAUKEE, Wis - Anyone looking for a taxicab at 2 45 here on a recent morning would have been faced with trouble finding one, providing he was not in one given block.

Patrolman Eugene Buraczewski although not looking for a cab, discovered eight of them parked in a neat row while walking his beat early in the morning This would ordinarily not have bothered the patrolman at all, except for the discovery that none of the vehicles had drivers

Buraczewski felt it his duty to investigate the situation. He noticed that lights were burning in only one nearby residence--on the second floor.

As he neared the room, he overheard voices "I'll raise," Then "Two aces win" He returned to an alarm box and called the station for help One cabbie faced charges of running a gaming house, the others of being patrons

Music Department Mothers Will Meet

The Music Mothers will meet Wednesday, December 19th at 2 30 in the the music room

We hope to see more of the glee club mothers as well as band mothers. When your son or daughter joins a band or glee club, the mother's name is added to the Music Mothers list

The dues are only 50c a yerr and we feel the instruction they receive, that we are asking very little Many have paid this years dues, several of the mothers of the Sr. Band have paid the cleaning bill of $1.00 on their band suits However, a few of the Sr. band mothers have not paid their last year's dues. So if you are not sure if you have paid them you may consult Mrs Ed. Christians, Treas. As a record has been kept since the Music Mothers were organized.

We have had splendid cooperation from the mothers both in work and donations which we greatly appreciate. We only ask more will find time to attend the meetings, to know what the music department is doing

—Mrs Alvin Goll

Last Week's

KINDERGARTEN NEWS

Last week we drew names for our Chrismtas Party. There is to be a 50c limit on the gifts

We have all learned to print our numbers to five.

Thursday and Friday we took the Pintner General Ability Tests.

We are learning some Christmas songs for our Christmas program.

—Miss Schiek

FIRST GRADE NEWS

In health class we have been studying a good breakfast. We brought pictures from home and made a good breakfast.

We made snowmen and Christmas trees in art. We also started to work on Christmas presents for our mothers.

We are just beginning to add and most of us find that it is fun

Our room helpers this week were Lois Block and Kathy Koerner.

—Mrs. Brinkman

SECOND GRADE NEWS

Thursday afternoon was spent in making Santa Claus and his sleigh with the reindeer We're going to make our first reindeer Rudolph, by putting a red light on his nose

Monday was Joyce Hummel's birthday. She brought treats for the class.

—Mrs. Lemke

THIRD GRADE NEWS

Geography class this week has been about farming We are quite interested since many of us live on farms. Friday we started a bulletin board showing cereal grains and their uses Jerry Stokesbary brought us some wheat Darryl Nuehring is bringing some oats, Jerry Kropp some corn and Billy DeMerritt some rice

This week our room changed from thoughts of Thanksgiving to thoughts of Christmas We still have many things to do before Christmas

Mrs. Barkema

FOURTH GRADE NEWS

Last Friday proved to be a very busy day for the Fourth Grade because for art we began decorating the room for Christmas and also practice on our Christmas play.

In Arithmetic we reviewed the fractions ½ and ¼ and learned how to divide even numbers

This week we will begin a new country in Geography It is Switzerland and we hope it will be as interesting as Holland proved to be

Those to get perfect scores in Spelling were Donald Anderson, Roxanne Back Candace Carlson, Sherryl Claubaugh Lowell Greiman, Edna Heginbarck, Jo Anne Helps, Jo Anne Jacobs, Maurine Johnson, Gordon Lassahn, Jane Renner.

—Miss Franken

This Week's

KINDERGARTEN NEWS

Wednesday and Thursday in the Kindergarten room was spent writing individual letters to Santa. After this project was completed we decided to write Santa a letter from the class. It includes the one thing each child wants most of all for Christmas. If any parents care to have the letter their child wrote, if they will send a stamped, self addressed envelope with their child, I will send the letter to them.

Hello Santa,

We have been good boys and girls and we would like to have you come and visit us.

Do your helpers have all the toys made? We hope you have enough for everyone. Larry Baack would like to have you bring him a truck. Marvin Green wants a banjo and Donna Lou Josten wants a washing machine for her doll clothes. Please bring Roger Schmidt a bike, Joyce Ann Bock and Deanna Barkema a sewing machine, Robert Ahrenkiel some handcuffs, Merlin Bachman a doctor set and Margie Katuin a doll bed

We hope your helpers made a lot of dolls because Merrie June Reinhurt, Karen Nuehring, Celeste Schaefer, Judy Rasmus and Zelda Heginger like to play house and each would like a new doll.

Most of the boys like to play cowboy and Danny Mau Willard Netland, Richard Meints, Darwin Swalve, Billy Schubert, Jerry Clements, Robert Evans, and Dennis Baack want a the gun. Some of the girls like to play cowboy also and Janette and Janelle Greimann think a cowboy suit from Santa would be a pretty nice present.

Glen Alden and Leslie Christians are hoping we have a lot of snow this winter and would like new sleds for Christmas.

Gregory Smith, Gary Bachman and Glen Sobek have decided that most of all they would like a train for Christmas.

We hope there is enough snow by Christmas Eve so you can use your sleigh and reindeers. We have all tried to be good boys and girls and we hope you have enough toys for every boy and girl Goodbye Santa.

Love,
The Kindergarten boys and girls at Klemme.
--Miss Schiek

FIRST GRADE NEWS

We decorated the Christmas tree Wednesday and we think it looks very nice We also made a little red sleigh out of match boxes

Mrs Verner Stromer was a visitor in our room Wednesday

Our room helpers were Jim Trubee and Dean Burk.

--Mrs Brinkman

SECOND GRADE NEWS

In Art class this week we made decorations for our Christmas tree We all enjoyed it very much We also made a border for our blackboard which consists of holly wreaths, carolers and candles.

In Arithmetic we have been learning some simple subtraction problems They seemed rather difficult to us at first, but now we are doing better with the problems

Mrs Lemke

THIRD GRADE NEWS

This week we completed the study of the grass family in Geography. Wednesday we baked bread in school. It took a long time between mixing up the dough and eating the rolls. We decided we are glad bakeries make bread every day. Now we know how the pioneers made their bread.

Our room looks more and more like Christmas. We have our tree decorated, a fireplace and a big santa standing beside it, and snowflakes are on our walls.

—Mrs. Barkema

FOURTH GRADE NEWS

The Fourth Grade received their Christmas tree last week and spent Friday decorating it for art. We decorated one wall with nineteen snowmen and women and put our names on each. Then we made letters out of snowflakes which spells the welcome,"H e l l o". We hope this will be a welcome to whoever visits our room.

We've also been busy practicing our Christmas Play which will be given on the evening of December 18th along with the other grades.

Those to receive "A's" in spelling were: Roxanne Back, Candace Carlson, Sherryle Clabaugh, Lowell Greiman, Miriam Hartbeck, Jo Ann Helps, Jo Anne Jacobs, Jane Renner, Roger Sobek, and Maurine Johnson.

—Miss Franken

GAME STORAGE PERMITS FREE

In cooperation with the Cold Storage Locker Association, the State Conservation Commission is making every effort to assist hunters in the legal storage of game and, at the same time, every effort is being made to prevent illegal storage All game in Iowa must be disposed of within ten days after the close of the season unless a storage permit has been secured. With the proper permit game, except waterfowl, may be held until June 30 of the following year. Permits may be issued to hold migratory waterfowl 90 days beyond the close of the season

To store game beyond 10 days after the seasons close, simply ask your locker operator for an application blank, fill it out, and mail it to the State Conservation Commission, East 7th and Court Ave., Des Moines 9, Iowa All locker plants have been supplied with permit applications. They cannot, however grant the permit. It is issued directly from the State Conservation office with no charge Game held in lockers may at no time exceed the legal posses ion limit and permits will be granted for each license under which game is taken.

C R O P COUNTY ORGANIZATIONAL MEETING

A meeting has been called for Monday evening, December 17, at 8 o'clock in the Courthouse at Garner to organize this year's Hancock County solicitation in support of the Christian Rural Overseas Program. "Crop" as the program is commonly called, is the cooperative effort of American Christians in giving voluntary aid to needy, deserving peoples in foreign countries by donations of farm commodities or cash with which food supplies are purchased and distributed.

Sharing in the sponsorship are: Catholic Rural Life, Roman Catholic Agency, Church World Service, representing many of the major Protestant Denominations; and Lutheran World Relief, a joint agency of a number of Lutheran Synods. Contributions may be designated for administration through any one of the three cooperating agencies.

The December 17th meeting will elect Hancock County Officers and enlist township and city chairman, who will supervise the actual solicitation. Harry E. Terrell, state CROP director, and J. C Sku of Wesley, district supervisor will attend the meeting. It is expected that laymen and clergy from all Hancock Co. Churches will be present.

Mr. and Mrs. Ted Dutheridge Spend Winter at Miami, Fla.

The Times received a card from Mr and Mrs. Ted Dutheridge stating they are enjoying staying at wonderful Miami, Fla., with the weather ideal and the temperature about 80 degrees. They said it was a long trip down there but they enjoyed it. Their friends can write them at Biltmore Gardens, 6750 S. W. 8th Street, Miami, Florida.

PICK UP AND SELL FARM SCRAP METAL

Industry Needs It And Will Pay Well For It

The new combine, tractor or other implement a farmer might be needing next year may be right in his own junk pile. That's the importance of the current farm scrap drive to farmers, in the opinion of Dale Hull, extension agricultural engineer at Iowa State College.

There's no question, he says, but that the supply of new farm machines for the next year will depend on how much of the scrap metal, much of which is now on farms, is moved to market. New steel is made from approximately one-half scrap and one-half pig iron. Put another way, a ton of scrap is equal to 4 tons of raw materials. Since scrap is already refined, it shortens the refining process and speeds the production with the nation's present production facilities.

It's Good Management

Reclaimed metal is as good as new metal for many purposes, according to Hull. Exceptions are in highly precisioned parts of such things as jet airplane engines. Scrap aluminum, brass, zinc and copper are needed as well as scrap iron.

By collecting and selling his scrap metal, a farmer will be both helping to build our national strength and following good management practices on his farm, according to Hull. Cash return from selling scrap is better than no return at all when farm machinery of equipment rusts away Prices now being paid for scrap are higher than those offered during World War II.

Aids In Safety

Keeping scrap picked up and out of the way makes the farm a more efficient place to work and a better place to live, Hull points out. Safety is another reason for cleaning out scrap, especially small pieces which may endanger workers, as well as livestock. Broken metal, for other forage crops feed to animals.

Hull says that the fall season is a good time to check all machinery and equipment on the farm to determine what repairs are needed and what needs to be scrapped and replaced. So the search for farm scrap is part of getting farm machinery ready for another planting season,

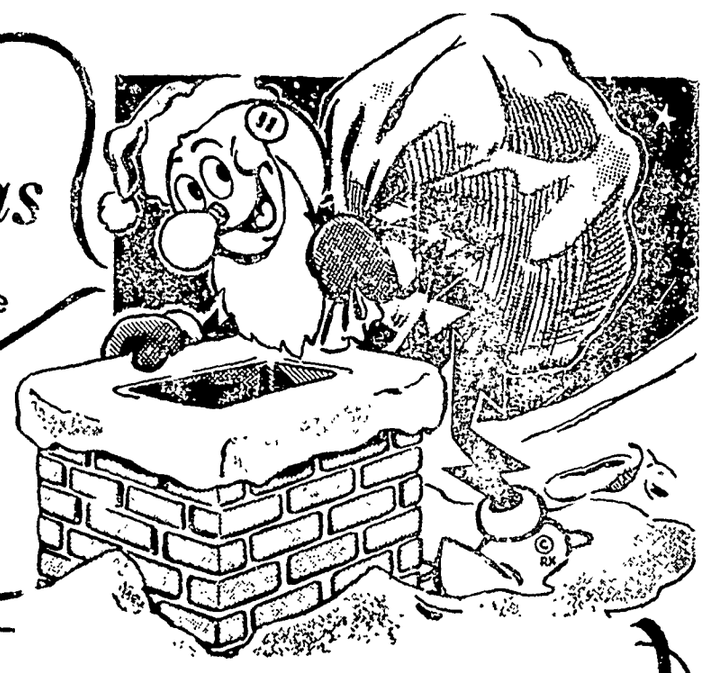
MY ELECTRIC GIFTS SAY--
Merry Christmas
To All and for All of Your Life



★ See Reddy Kilowatt for the gifts folks love and use happily for years. Electric gifts, so beautiful, so convenient, so lasting! Say "Merry Christmas" this thoughtful, happy way!

ELECTRIC GIFTS KEEP ON GIVING!

SUNBEAM MIXMASTER
Tirelessly mixes, mashes, stirs, whips, beats. Relieves you of tiring armwork. Makes cooking and baking a joy. The Christmas gift she's sure to want!

SUNBEAM TOASTER
Reddy suggests a beautiful Sunbeam Toaster . . . automatic beyond belief! Drop in bread, it lowers itself, raises to give you golden-brown toast.

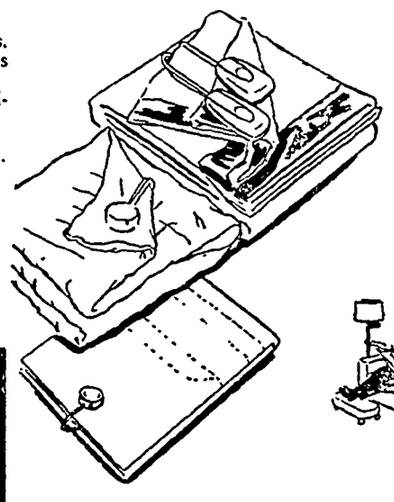
SUNBEAM WAFFLE-BAKER
Automatically makes four delicious good-sized waffles at one time. Makes light, dark or medium waffle, as desired. A gift for dependable service.

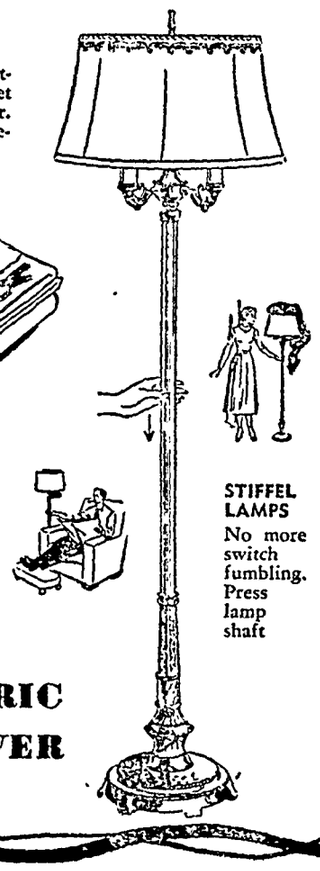
SUNBEAM COFFEEMASTER
The Coffeemaster is her assurance of perfect coffee EVERY time . . . automatically. All gem-like chromium plate. No glass bowls to break. She'll love it!

SUNBEAM SHAVEMASTER
America's most popular electric shaver. The gift he'll talk about most, appreciate longest and like the best. Twice-as-wide shaving surface. Powerful motor.

WESTINGHOUSE ROASTER OVEN
Cooks at controlled heats. Is portable, automatic, saves time and work.
Also available, with Cabinet Stand and Timer.

WESTINGHOUSE BEDCOVERINGS
You have your choice of lightweight sheet, colorful blanket or soft, non-skid comforter. Completely automatic for relaxed, comfortable sleep.





STIFFEL LAMPS
No more switch fumbling. Press lamp shaft

XMAS LIGHT HEADQUARTERS
Visit Reddy's headquarters, the Light Company, for every kind of indoor and outdoor light sets and replacement bulbs for all types of beautiful Christmas lighting.

EASY TERMS
Make a modest down payment. Put the rest in budget amounts on your monthly electric bill. Use convenient credit.

Ordnance Sergeant Kept Marine Rifles Active in Korea

WITH THE FIRST MARINE DIVISION IN KOREA—Many a news account of the northeast Korea winter fighting said that UN rifles and machine guns "froze" in the subzero temperatures.

The man who probably did more to overcome this crippling obstacle than any other was Marine Technical Sergeant Frank T. Varsage of Solana Beach, Calif. His official title is ordnance and ammunition chief in a battalion of the Fifth Marine regiment.

As soon as the First Marine Division collided with the North Korean winter, Versage realized the need for some method of weapons protection. Ordinary lubricating oil sealed rifles and machine guns as effectively as a welding job. Washing weapons with gasoline and firing them dry was tried but friction spon caused the mechanism to jam.

The ordnance chief dropped all other work and spent a precious week experimenting. He came up with a conglomeration of graphite grease, diesel oil, 80 octane gasoline and No. 10 motor oil.

First he coated an M-1 rifle with the "stuff." After 48 hours in 15-below weather the rifle functioned properly. He repeated this, this time including a rifle treated with ordinary oil and another dry. Oil permitted 100 per cent stoppages; the non-treated weapon scored 0 per cent. The rifle coated with the "stuff" fired perfectly.

During the most critical days of the Chosin reservoir operation, the "Versage Lubricant" kept rifles and automatic weapons firing for most of the division.

According to statistics, women live four years longer than men. So, you might as well give up, fellers, the wife will get in the last word anyway.

INFANT CARE

Government's Baby Book Is Best Seller; 28,000,000 Distributed

WNU Washington Bureau

Millions of people all over the world have paid approximately $5,600,000 for the government's baby book and best seller, "Infant Care," which has now reached a distribution of 28,000,000 copies.

Varying philosophies on the care of children from the time they are born till they celebrate their first birthday can be traced throughout the nine editions of this booklet, the first of which appeared in 1914.

In that year, for instance, babies didn't get a chance at even a tablespoon of strained fruit juice until they were 7 or 8 months old, but the 1951 baby is usually getting 2 ounces a day by the time he is two months old. The 1914 baby could not have solid foods at all during his first year, other than soft egg, crisp toast, or zwieback. The 1951 edition of Infant Care, however, says: "Your doctor will decide when your baby needs solid foods in addition to milk. Some start giving these extra foods when a baby is only a few weeks old, others wait until babies are 3 or 4 months old."

Thumb sucking was sharply criticized in early editions of Infant Care. The first edition even recommended pinning the sleeve of the baby's jacket down over the fingers of the offending hand for several days and nights to stop thumb sucking. This attitude has been greatly modified over the years, and the accepted idea now is that thumb sucking is one of the first pleasures that a baby gets. Many mothers now say that it seems to result in a very satisfied child.

Cod liver oil was added to the baby's diet in the 1926 edition, and was identified as containing Vitamin D in the 1929. Frozen foods are approved in the present edition.

Infant Care is sometimes called the "mother's bible". It has been translated into 8 languages. The government printing office sells the bulletin at 20 cents per copy, and has become accustomed to many requests for simply "the book".

• • •

INFANT CARE has undergone major changes since it was first published. During its lifetime, advances in medicine, science, and in what we know about the emotional development of children have altered much of the philosophy which the book carries.

In compiling information for the current edition, bureau specialists talked to doctors, nurses, social workers, psychiatrists, nutritionists, and parent educators on what the book should cover. They asked parents, living in both the city and the country, what they particularly wanted the book to discuss.

The first draft of the revised booklet was submitted for review to about 70 persons outside the bureau, including 37 doctors, 6 psychologists, 7 nurses, 3 nutritionists, 1 anthropologist, 6 social workers, 8 parents, and 2 parent-education workers.

Fan mail throughout the years of Infant Care's publication has been tremendous. From places as distant as Nigeria have come requests for it, and copies have even turned up in small Chinese villages.

The present edition of Infant Care, like those before it, is an attempt to bring together the most widely accepted modern ideas on the care of children. One unchanging philosophy throughout all its editions has been that babies need a maximum of tender, loving care to grow into healthy, happy, children.

By INEZ GERHARD

DON MacLAUGHLIN, who has the lead in NBC's "Counterspy" and stars as "Dr. Jim Brent" in "The Road of Life", is probably the only man in show business who got his start in the role of a horse. He had staked everything on making a success of acting, he'd got a small part on a network show—and it was cut during rehearsal. Don was assigned to help the sound effects man, and wound up by portraying a neighing horse.

DON MACLAUGHLIN

His first year's work netted him just $22.50. However, once he made his dent in radio the impression became permanent. Born and educated in Ohio, he's called "The man with the typical American voice."

"Mr. and Mrs. North", now in their 8th year on CBS Radio, with Alice Frost and Joe Curtin starring, have a comedy mystery sketch set for Dec. 11. Involving the murder of a safecracker, they call it "Each Dawn I Dial"!

Bess Myerson, former Miss America, has been doing fine on her own little television show. Now Walt Framer, producer of "Strike It Rich", has plans. Wants to star her in "The Big Payoff", a fashion quiz show, in which "the woman in a person's life"—mother, schoolteacher, wife, sweetheart, sister—can win all sorts of clothes, the big payoff being a mink coat.

Rock Hudson, young Universal-International actor who has been singled out for the same type of build-up that sent Tony Curtis soaring to stardom, gets his biggest break opposite Yvonne De Carlo in "Scarlet Angel."

THE FICTION CORNER

NARROW ESCAPE

By Richard Hill Wilkinson

3-Minute Fiction

LAURA knew her first feeling of fear when Jud took the whip from its socket and flicked it across the backs of the plodding horses. She had been watching the clouds pile out of the northwest with amazing speed for the past 15 minutes. But this was April, and there was no wind at all. Also, the day was mild, almost sultry. It was hard to imagine a blizzard even in Nebraska.

Beauty and Prince broke into a lumbering trot. The rhythm of the crunching wheels of the heavy farm wagon increased in tempo. Beneath them, at the foot of the long slope, Laura could see the buildings of their farm.

The cloud bank came toward them with astonishing speed, hanging an impenetrable gray curtain from sky to earth as it swept across the prairie. Jud stood up and lashed out with the whip.

Little Lucy began to cry, and a moment later Jud, junior, joined in with lusty bawls. Laura huddled one under each arm and said: "Sh! Sh, now!" But when she lifted her anxious eyes, she felt again the terror.

The farm buildings were not more than a quarter of a mile away. Now they could hear the roar of the wind. It drowned out the crunch of wheels; it plucked Jud's cries from his lips and sent them screaming back over his shoulder. The blizzard struck them like a blast from the Arctic.

Laura drew the heavy bear rugs about the children, and bound her own scarf about her face. She could

Snow whipped into their faces. The temperature dropped below freezing.

no longer hear the crying of the youngsters, nor the clopping of the horses' hoofs, nor Jud's shouts.

There was no point in looking up. She tried it once. It was like being suspended in a great vacuum with moving, screaming walls. Even the outlines of the horses were blotted out.

The progress of the team slowed. Jud was no longer using the whip. He sat humped forward, barely visible behind a veil of snow.

AFTER awhile Laura had the feeling that the team was swinging in a great arc. A new terror seized her. The road was straight. There was not a curve for miles.

She screamed at Jud, tugged at his sheepskin coat. He bent down and she tried to make him understand. He shook his head and pointed down. She bent forward, could barely make out the right front wheel. It was running even with the whippletree, had not turned at all.

She settled down once more, hugging the children close. Cold crept in under the blankets. Snow piled up in her lap and on her shoulders. The world had gone mad.

Again she had that feeling of swinging around. She fought it until the horror of it threatened her sanity. Then she poked her head from beneath the blankets. Jud was crouched forward, tense, pulling on the nigh rein. She beat against his shoulder.

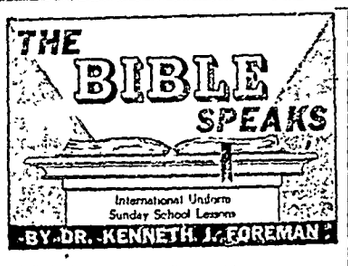
"We've missed the house! I'm turning back!" She could barely catch the words. A cold chill, a hideous fear congealed the blood of her veins. Missed the house! It would be hours—possibly days before the storm ended. They had no provisions aboard the wagon. They would freeze.

She clutched the children against her. They never should have started out. They wouldn't have if it had been a month later.

The storm attacked with a new fury, an uncombatable violence. It lashed and screamed and laughed in hideous triumph at their helplessness. Time once more stood still.

Laura was roused by someone rubbing snow against her cheeks. She sat up, trying to cry out, remembering the children. "They're all right," Jud said, "I gave the horses their heads. They took us home. Wouldn't have made it otherwise."

Stiff-legged, carrying a child in either arm, she went through the shed and into the kitchen. The heat beat against her face. She set the children on the table and went to the stove. The kettle was still steaming. In another five minutes they would have caught.



SCRIPTURE: Joshua 1-11.
DEVOTIONAL READING: Deuteronomy 32:9-13.

Living in Victory

Lesson for December 16, 1951

THE story of the conquest of Canaan is of course a story of historical events. By itself, however, it is not so "edifying" as it once was. Joshua repeatedly committed, or attempted to commit, what is now known as "genocide," or the total deliberate slaughter of an entire nation.

Dr. Foreman

So it is better, all around, to take the story of the conquest of Canaan not in its bare historical form but to follow the example of earlier generations of Christians and take it as a kind of parable, a parable of the victorious life.

• • •

Victory Has Many Wounds

BY the victorious life is meant the life that rises above its temptations, living for God against all opposition, the strong life, not overthrown by selfishness and sin but overcoming evil with good.

First of all, as a famous war correspondent said, "Victory has many wounds." Joshua and his armies won; but they had casualties. No victory is ever won without a fight; or to put it another way, no victory without a fight is worth much. Yet we forget this in our personal struggles against sin. We are tempted to think, I could be a better person if I did not have so many temptations. I could be a better person in more sympathetic surroundings. I could be a better Christian if I had had better upbringing. If . . . If . . .

Maybe you are right, more likely you are wrong. Is an oak a better tree if it is raised in a hot-house? Is a race-horse faster if he never has a hard race? We pray for strength and God sends us difficulties. That is God's way of answering our prayer.

• • •

Life-Long Campaign

IN another way Joshua's wars are a type of the war of our best against our worst. He never did quite conquer Palestine. In Judges I the repeated phrase strikes the eye, "—did not drive out . . ." In the very center of Palestine, for example, what we now know as the city of Jerusalem remained a hostile strong-point for centuries after Joshua.

The whole story of the Israelites after Joshua shows how imperfect the conquest was at first, and archaeology has underscored the record of the Bible. Yet it is true to say that there was a real conquest of Canaan. The country was won, though there was a vast deal of mopping-up to be done. This is again a parable. The victorious life is not the same as the sinless life.

The majority of Christians believe there was one sinless life, but only one. We have a right to call a man good (as the Bible does) without meaning that he is perfect. Some people are needlessly discouraged at this point. If we expect the victorious life to be so completely victorious that not a single tinge of evil remains in it anywhere, we shall not only be expecting ourselves to be better than the saints, but we shall be living in disillusionment.

• • •

D-Day and V-Day

THERE is another, brighter side to this. It is true, no present conquest of evil is complete; but final and complete victory is assured. For the "Captain of our salvation" is Christ, and we Christians believe he has actually conquered evil, once and for all.

As Dr. Cullman puts it, D-Day and V-Day are not the same. The battle of the beachheads came long before the surrender. Christ has put the powers of darkness to flight. The Cross and the Resurrection are the Christian's D-Day. There will be much fighting, many casualties, perhaps many backsets, before V-Day, but it will come.

The only assurance Joshua had that his cause would finally win was his confidence in God. So the real guarantee, and the only guarantee, which a Christian has of ultimate and total victory is that he fights in the name and in the strength of Jesus. As Martin Luther's hymn has it,

"Did we in our own strength confide,
Our striving would be losing."

"Christus Victor." Christ the Conqueror, is an ancient name for our Lord. But his victories are not old finished stories; they still go on—in us.

(Copyright 1951 by the Division of Christian Education, National Council of the Churches of Christ in the United States of America. Released by WNU Features.)

Paper Suggests Montana Be United With Alaska

LEWISTOWN, Mon. — A small town newspaper has come up with a solution for the problem of statehood for Alaska.

The Lewistown Daily News suggests that Montana and Alaska be combined into a new state of "Montanaska." The paper said the combination would offset Canada's proposed union of Alberta and British Columbia into the new province of British Calberta.

Increase in Third-Class Mail Rate Is Desirable

By Wright A. Patterson

EVERY TIME the mail carrier delivers mail at my door it consists largely of third class mail, circulars, solicitations of one kind and another. Things I did not ask for, do not want, and do not read, though they are made to appear as letters through the use of special envelopes, one flap of which is folded in so as to make it appear sealed.

An increase in third class mail should be considered, raising it to the price of second class or letter mail. This could be done without imposing any added cost to the people, other than those who use it for sales or other solicitations. Any increase on letter mail affects all of the people and constitutes an added government burden for all to pay. Any increase on second class mail, newspapers and periodicals, would mean an increase in the subscription prices on the newspapers and periodicals, which the public, the subscribers, would pay. An increase on third class mail would accomplish one of two things, or possibly both. It would increase the postal revenues by all or more, than the present annual deficit, if any, or it would reduce the amount of mail, and the cost of postal operations.

It could do some of both, and it would not cost the people of the nation generally a penny.

The only ones to be affected would be those using the postal facilities as a means of promoting sales for their products or services, those whose business is that of preparing direct mail advertising copy, and the printers who produce the circulars that are used in such advertising campaigns. All of them together represent but a limited few, not enough to cause any fear of reprisals on the part of those who might vote for the elimination of the third class, or for the repeal of any increase in second class congress may have made in an effort to balance the postal expenditures and receipts.

If the postoffice department has an actual annual deficit, a fact that has not been proven, the practical and sensible way to remedy that condition is by an increase in third class mail. Newspapers and periodicals should collectively urge that method.

—✳—

Should you be one of the 83 million holders of life insurance policies, or one of the 50 millions who have savings accounts in the banks and building and loan organizations, or one of the 80 million owners of government bonds, or one of the 100 million social security card holders, or one of the 38 million workers expecting to draw industrial insurance, or one with any investment from which it is expected to derive revenue to support you during declining years, you have a very definite interest in inflation. The dollars you would receive today from any one of these sources would pay for less than one half the things you need than would have one half of the dollars as late as even 10 years ago. That is inflation, and it seriously effects each one of us.

What can we, as individuals, do about it? We can demand action on the part of our representative in congress and our two United States senators and demand action in such terms that they will not fail to understand the full meaning of that demand. Tell them you want less new money issued, the government debt reduced, all payments in any form to all minority groups stopped, all government expenditures, unless they can be shown as essential, reduced by at least a million.

A sufficient number of demands will get such results, along with a decrease in taxes, and getting those results will stop inflation. That is your part in the fight against the inflation monster.

—✳—

The Republican nominee for the presidency may be left to write his own platform, but what about nominees for the house of representatives and the senate. Are they to be entirely on their own in their campaigns?

—✳—

Attorney General McGrath has headed a crusade for honesty and integrity in sports and athletics. Why not a crusade for honesty and integrity in government. It is needed there more than in sports and athletics.

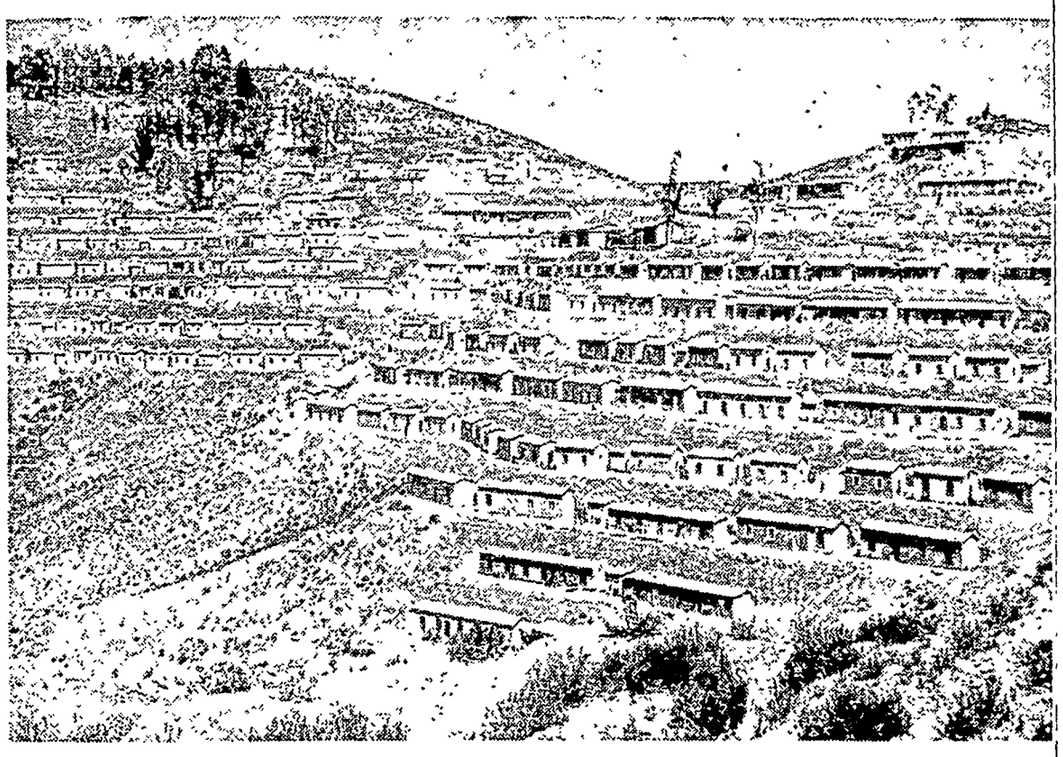
Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritation due to cold, dampness or wrong diet may cause getting up nights or frequent passage.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS

LABOR DEMONSTRATION IN TOKYO . . . Labor Union members stage a demonstration against the new anti-strike law and impending layoffs. Unions involved were government labor unions. Demonstrators tried to enter the grounds housing the Diet building and were met by police forces. A violent scuffle ensued. The demonstrators were repulsed, but not until they had incited a large-size riot. Demonstrations have been rife in this newly-democratized land. Recently students demonstrated against Emperor Hirohito, hissing him and clamoring against his position, the first time this inviolate "ruler" has suffered insult from humans.



HOUSES ON A MOUNTAIN . . . These terraced houses are homes of the iron mine workers at El Tofo, Chile. Iron fed to Chile's new steel plant at Huachipato comes from El Tofo mine, a virtual mountain of high-grade iron ore, located in the vast mineral area of northern Chile. Because of the richness of the land in iron ore, Chile no longer has to import steel from the United States. The industrialization that makes possible the production of sufficient steel to supply the nation was undertaken and completed with help from the United States. Chile received a 40 million dollar loan.

TOY PISTOL ROBBER . . . In Los Angeles, former convict James Dupriest was caught by police fleeing with $243 following a market holdup. But he was not caught red handed, for Dupriest lost both his hands in a prison mill accident and held the toy pistol, allegedly used in the robbery, with hooks. He was recently released from Folsom following a five-year term for robbery. "What else can I do?" he said, following arrest. "I've got to eat." The judge was not expected to take this as a good excuse for robbery.

TRANSNATION DIAL . . . Cross country dial telephone service became a reality for regular customers when Mayor Frank Osborne, Alameda, Calif. (above), was called by Mayor M. Leslie Denning of Englewood, N.J. General use is expected in a few years.

PIN BABY GOES HOME . . . Baby Elvira Difuntorum, flown to Chicago from the Philippines recently to have a straight pin removed from her lung, is none too happy about starting her homeward journey. Holding back tears, little Elvira bids goodbye to Nurse Carolyn Kappa at St. Luke's airport, accompanied by Nurse Manuela Bastita and Dr. Jose Reyes, both of Manila. The operation to remove the pin from the baby's lung apparently was successful.

CHINESE PUZZLE . . . Although suspended by the Chinese Nationalist government and ordered to return home to account for $19 million in government funds, K. T. Mow was still acting as the Nationalists' legal representative here.

THE BRIGHTER SIDE

A vistor to a remote little fishing village was making a tour of inspection with his host.

"What do these people live on?" he asked, indicating a group of dull-looking fishermen.

"Fish, mostly," was the reply.

"But I thought that fish was supposed to be a brain food," said the visitor in surprise. "These people are some of the most dull-witted specimens I've ever seen."

"Well," shrugged his host, "just think what they would look like if they didn't eat fish!"

CINDER-CONSCIOUS

A group of old-timers, engineers and firemen were sitting at a lunch table in the local Railroad Y, when a young brakeman joined them. He listened to them spin yarns about their respective past and present performances and then suddenly placed his cap over his cup.

"What's the matter?" asked one of the engineers.

"Afraid of the cinders," replied the brakeman.

Household Hints

Vitamin-C

Cook fresh peppers quickly in as little water as possible so that they will not lose their vitamin-C content.

• • •

Olive Oil

Olive oil has many uses in the home in addition to its age-old role of adding flavor to cooked, broiled and fried foods—and, of course, to salads. Here are a few: Brass will keep bright longer and need polishing less often if it is rubbed with olive oil after polishing. Sprinkle the oil lightly on a piece of warm flannel and rub well into the brass.

• • •

Peppers

Good-quality fresh peppers, whether the sweet type or the hot type, should be fresh-looking, firm, and well-shaped.

• • •

Patching Linoleum

Bothered by small holes in your linoleum? Mix a paste of finely chopped cork and shellac. Allow the paste to harden in the hole. Then sandpaper smooth and touch up with paint to match color of the linoleum.

• • •

Brighten Ebony

To brighten ebony, apply olive oil with a piece of flannel and polish with chamois.

• • •

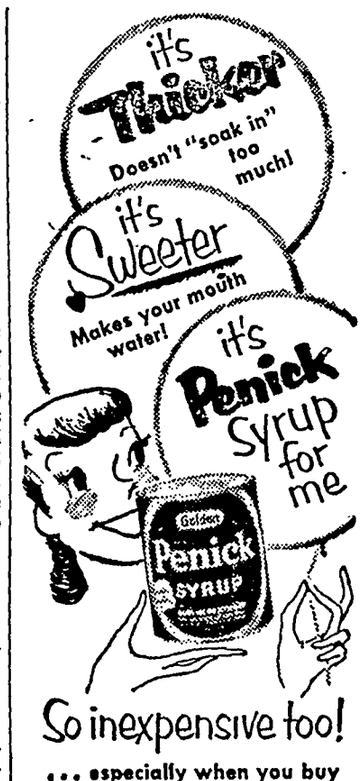
Holding Screws

Do you have trouble with screws which have come loose in wood knobs such as are on chests? Use twine soaked in shellac and wrap it around the screws while wet. After setting screws in place in the knobs, allow to dry for a full day. Then the knobs will hold fast.

• • •

Sandwich Filling

A hearty sandwich filling can be made from a combination of chopped cooked meat, green peppers, sweet pickles, horseradish, and prepared mustard.



So inexpensive too!

... especially when you buy the large-size cans!

● With delicious Penick Syrup on the table, you add flavor and *nourishment* to your meals. It's so rich in dextrose (for food energy). Use this *improved* corn syrup, too ... for ice cream sundaes, in tasty "milk shakes" and in your cooking, canning and freezing.

Two Generations of Prize-Winning Cooks Take Honors at Iowa State Fair

"This Active Dry Yeast is so easy to use"

15-year-old Shirley Kintner and her mother, Mrs. S. H. Kintner, talk over their cooking triumphs at the Iowa State Fair. Mrs. Kintner entered her first state fair cooking contest 4 years ago and has been a top winner ever since. Shirley has taken top awards for the past 2 years!

Mrs. Kintner is relatively new to the ranks of prize-winning cooks. But she agrees with so many long-time champions when it comes to Fleischmann's Active Dry Yeast. "I like it!" says Mrs. Kintner of Des Moines, Iowa. "This Active Dry Yeast rises in a hurry. And it's so easy to use!"

The holiday meals ahead call for plenty of yeast-raised goodies. They're so festive, so delicious ... wholesome and nourishing, too! When you bake at home, use yeast. And be sure to use the best—Fleischmann's Active Dry Yeast. It's so fast and easy—gives you grand results every time. Get several packages of Fleischmann's Active Dry Yeast today.

Mr. and Mrs. Leland Hummel Celebrated With Birthday Party

Mr. and Mrs. Leland Hummel entertained a group of young people at their home Friday evening, December 7th in honor of Leland's birthday.

The evening was spent in playing court whist at four tables. High scores were won by Wavel Schaefer and Mrs. Donald Alden and low scores by Donald Alden and Ronald Hummel.

After the games a nice lunch was enjoyed by all. Leland was presented with a number of nice gifts for his birthday.

KLEMME STORES OPEN TWO NIGHTS NEXT WEEK

The Klemme stores will be open two nights next week, Wednesday and Saturday, for convenience of Christmas shoppers.

Jr. High Girls Win, Boys Lost

The "Rockettes" coasted to their 3rd win of he season against Hayfield last Wednesday evening by the score of 42-23. Halftime score was 32-9. Coach Juhl substituted continously the last half, but the Rockettes still came out on top. Bridges hit for 22 points while Clabaugh had 12 and Thompson hit for 8. All the guards played a good defensive game.

The "Rockets" were on the tail end of the score again 51-38, but played their very best game of the year in losing. The score at halftime was 32-12 in Hayfield's favor. Haefner was high but all the boys played a good game.

Be sure to see the return game December 17, at 7:00.

COUNTY HOME EXPENSE LOW

The Iowa Taxpayers association issued a brochure recently dealing with the cost of operating county homes in Iowa. During the year 1949 there were 49 inmates cared for at the Hancock county home at a total cost of $10,392 for the year, or $4.08 per inmate.

Only 9 counties in the state showed a lower cost per inmate than Hancock county. Monroe was the lowest in the state with a cost of $2.12 per inmate and a close second was Cerro Gordo with a cost of $2.14 and Winnebago, $2.66,

Counties ranging from $3 to $4 per inmate were Hamilton, Chickasaw, Floyd, Black Hawk, Dubuque and Page.

Corwith Girls Win County Tourny By Beating Goodell

HAYFIELD WON OONSOLATION BY DOWNING THE WODEN GIRLS

Klemme, Kanawha, And Crystal Lake Went Down In The First Round Of Play

A scrappy little Goodell team went all the way in the Hancock County Girls Basketball Tournament here last week to meet a powerful Corwith team for the championship honors Saturday night, and came out runner-up after losing to Corwith 58-30

In the opening round of play Thursday night Goodell beat Kanawha 38-28, led by the scoring of Robbins with 20 points.

Woden downed Klemme 39-28 while Corwith put away Crystal Lake 42-24.

Friday evening Corwith went past Woden 51-22 and Goodell steamed away from Hayfield by an impressive 55-29 margin.

In the Consolation game Saturday night Hayfield nosed out Woden 47-44.

Goodell played a good game in the final against Corwith but lacked the reserve power and the Corwith girls had an advantage that put them in the win column 58-30.

The tournament was a success and there were good crowds for all sessions.

SCHOOL FACULTY HELD ANNUAL CHRISTMAS PARTY

The faculty of the Klemme Public School held their annual Christmas party last Sunday evening in the grade school building.

The evening was spent playing court whist, with Marvin Lemke and Marion Juhl winning high and Deloris Schiek, low.

Lunch was served by the committee in charge, after which gifts were exchanged

AROUND THE COURT HOUSE
By L. Q. B.

Motor vehicle owners are at least 8 days ahead of last year's schedule in making application for registration plates. At 2:00 o'clock A. M. on Tuesday, December 11, 1443 auto registration numbers had been issued.

On the other hand, the county abstractor, Dan Flood, would like to have a little reminder in advance on "open season" for getting license plates next year. Mr. Flood is accustomed to getting up and working and scratching while lazy mortals lie still abed like sluggards, sleeping. In the wee dark and eerie morning hours of December 1, he was preparing to go on a trip and had stopped by the court house to pick up some papers in his office. As he neared the building, he heard, of all unearthly things the sound of voices, clucking like sleepy contented chickens, coming from the "chicken coop" structure at the entrance to the courthouse. The shock of it, all but got the drop on him. As he tottered on his way, he was sure that the creatures were having high fun and hilarity over the soare that they had thrown into him. Mr. Flood learned later that what appeared to be invaders from the planet Mars, were really just avid hunters for low numbers on license plates.

Some property tax payers in the county are even more eager than automobile owners to get payments to the courthouse made and over with. When the news went out that County Auditor, Schoneman and his staff were two months ahead of schedule in finishing the tax list work, some taxpayers appeared immediately at the treasurer's office prepared to pay taxes due in 1952. These taxes, of course, are not payable until after the first of the year and cannot be processed by the treasurer's office until that time.

TOOK WEDDING TRIP TO TEXAS AND MEXICO

MR AND MRS. PETERS

The above is the wedding picture of Jo Ann Hummel and Harry Peters who were recently married at the Klemme Methodist Church.

Mr. and Mrs. Peters left on a wedding trip to Texas and Old Mexico. On their return they will be at home on their farm near Kanawha.

ELIGIBLE FOR CONTEST

FOUR KLEMME CHILDREN NAMED IN PHOTO CONTES

The 20th Century Studio announces that the children of the following parents: Don Schaefer, Ernest Gerardi, Clarence Christians and Mitchell Bock are eligible to compete in their state contest at the end of this year.

The above studio took pictures at Wellemeyer's store a few weeks ago.

HANCOCK BOARD OK's ESTIMATES ON GRAVEL JOBS

Hancock County supervisors last week approved the final estimates and the report of County Engineer Charles F. Merten on two gravel surfacing contracts totaling $62,911.31.

The board approved a final estimate for the Maudlin Construction company of Webster City in the sum of $1,912. 65 on a total contract in the sun of $19,077.62, and approved a final estimate in the sum of $4,381.38 on a total contract of $43,813.69.

Klemme Chorus Cantata Sunday

"CHIMES OF THE HOLY NIGHT" TO BE PRESENTED IN KLEMME

The musical "highlight" of the holiday season in Klemme will be the presentation of the melodious cantata, "Chimes of the Holy Night" by F. B. Holton. This cantata will be presented by the Community Chorus composed of fifty-three voices. Members of the chorus are from Klemme and nearby Goodell and the surrounding community. This Christmas Cantata will be presented on Sunday, December 23 at 8:00 P. M. in the Klemme High School Auditorium.

To augment the vocal portions of the cantata an electric organ will be supplied for the occasion by the Vance Music Company of Mason City and the chimes will be provided by the Klemme Methodist Church by the courtesy of Miss Marie Blank .

The entire community is invited to attend this musical presentation. A free will offering will be received to defray expenses in preparing for this cantata presentation.

The Community Chorus is under the direction of Mrs. William Reinhart, with Maurice Jacobs as the organist.

This is a public safety service of your safety-minded businesses and this newspaper in cooperation with the Iowa Safety Congress.

The world is not a big place for a child. It is all contained within the neighborhood of the family—a house, a church, a school, the corner store.

Nor is the world unkind for most children, for it is held within the magic circle of the family, that circle of love and warmth which holds out the darkness of uncertainty, the chill of loneliness.

Yet, a child's world can be ended as easily as you snap your fingers. A driver makes a mistake and a father or mother is killed. A family cirlce breaks. The world that is big, the world that is cold, floods in to overwhelm the child. The little neighborhood of the family is swept away and the lights and the warmth go out.

Never is the child's world brighter than now at Christmas time Never does the family circle hold more love and magic. Never has there been greater need for all men of good will to be good drivers, as well.

The Iowa Safety Congress Drive Right campaign begins tomorrow evening at 6:00 p. m. Give every Iowa family your best driving for Christmas. Help the children keep the world they live in Please DRIVE RIGHT. Don't break the family circle.

Bell Farm Sale Is Friday This Week

The William Bell Estate farm sale will be held this week on Friday afternoon at the farm 5½ miles southeast of Klemme beginning at 1:30 o'clock.

Jefferson Bell, Administrator of the Wm. Bell Estate, announces the bill of sale will consists of 33 head livestock; full line of farm machinery and a quantity of household goods.

B. A. Reemtsma of Garner is the auctioneer and the sale will be clerked by the First National Bank of Klemme.

EASTERN STAR CHAPTER ELECTED OFFICERS FOR 52

At the election of officers for the Eastern Star Chapter at Garner, Mrs. Bertha Brown was elected Worthy Matron for the coming year; and B. Beers was named Worthy Patron.

Other officers elected were Marge Elling, Associate Matron; Vern Grau, Associate Patron; Secretary, Elsie Moffat; Treasurer Bonnie Beers; Conductress, Vera Grau and Associate Conductress, Mildred Edelen. The Worthy Matron will name the balance of the officers for the coming year.

CROP MEETING

HANCOCK CROP DRIVE PLANNED

An organizational meeting for this year's CROP solicitation in Hancock County will be held at the courthouse in Garner Monday at 8.00 p. m. according to Rev. E. Morris Egeland of Klemme, county chairman for this year's CROP solicitation.

Every pastor in Hancock county has been requested to be present at the meeting and to bring and interested layman of two so that the organization can be perfected at the meeting. Solicitation is expected to get under way as soon as the preliminary organization has been set up.

KLEMME MAN HEADS MASONIC LODGE AT GARNER FOR 1952

Fred J. Arnold Elected Master, S. Trumbell To Board Of Trustees

The annual election of officers of Bethel Lodge No. 319 was held at the lodge rooms in Garner Thursday evening.

Fred J. Arnold of Klemme was elected Master for 1952 to succeed M. L. Harson of Klemme, who acted as head of the lodge the past year. Mr. Beers of Garner was elected Senior Warden and Rev. Cunningham of Garner was elected Junior Warden. Other elective offices filled were I. R. Beattie, secretary to succeed himself, and C. G. Waterman, Klemme to succeed himself as treasurer.

Fred J. Arnold, the new Master of the Lodge, will name the other officers of the lodge for several stations.

More Cold Weather

As we ate breakfast Tuesday morning, December 18th, there were beautiful Sun Dogs in the eastern sky. And the thermometer said one below zero. So I guess we are in for cold weather.

Avery-Twin Lake Hustlers Meet

The regular meeting of the Avery-Twin Lake Hustlers 4-H Club was held at the home of Kay Burke December 10, 1951 Fourteen members were present. The president, Delwyn Brede read a letter he received from the packing plant at Albert Lea. We decided to visit the plant and other places of interest there. We plan to go December 27 and are to be at Brede's at 8.00 a. m.

Bryon Heginger, Reporter

4-H LEADERS RECEIVE "AWARDS OF THE CLOVER"

Aaron Stromer Received Silver Clover Pin

"Awards of the Clover" to men and women who have served as leaders of Hancock County 4-H Clubs were presented Saturday evening, December 1st.

These awards are silver pins accompanied by a suitable certificate. For leaders with long period of service jeweled pins are provided. Presentation of these awards is part of a national recognition program for 4-H leaders. In Iowa the Iowa Farm Bureau Federation is the donor of the pins. The certificates are signed by M. L. Wilson, director of the federal extension service; Floyd Andre, director of the Iowa Agricultural Extension Service; and P. C. Taff, State 4-H Club Leader.

Aaron Stromer, Co. 4-H Boy's Committee Chairman, Mrs. Lester Bonnstetter, Magor Township 4-H leader and Co. 4-H Girls Committee member and Imko Huisinga leader of the Bingham Champions 4-H club for 5 years were presented the award of the silver 4-H Clover emblematic of five years of service.

Award of the emerald clover is given to leaders who have served 25 years or more, the diamond award represents 20 to 24 years of service and the pearl clover award is given for 15 to 19 years service. Leaders serving between 10 and 14 years get a gold clover and those with 5 to 9 years of leadership receive a silver award.

JUNIOR HIGH SPLITS GAME WITH HAYFIELD

Coach Juhl's 'Rockettes won the fourth game in a row against Hayfield here Monday evening. The score was 46-21.

The girls jumped off to an 18 to 0 lead the first quarter and led 30-5 at halftime. The reserves played most of the last half.

Carol Bridges was high with 28 points while Jo Ellen Clabaugh had 10. Shirley Barz 6, and Beverly Christiance 2.

This win boosts the record to 5 wins and one loss, a 2-pointer to Kanawha.

The 'Rockets playing their best game of the season nearly outclassed a Hayfield team but lost the game in the last 10 seconds on a free throw. The final score being 37-3.

Coach Juhl's boys were behind 8 points in the first quarter but took the lead 36-35 with two minutes remaining. Haefner was high with 21 points.

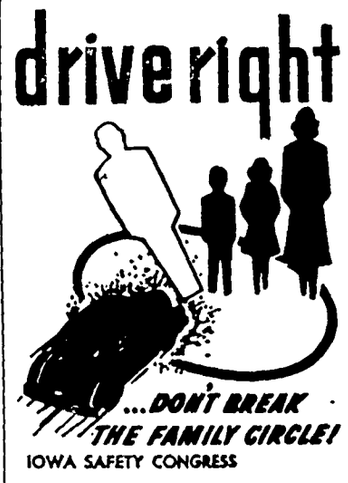
This makes the record 2 wins and 4 losses.

The next game is January 3rd at Thornton. The next home game at night is January 17 with Crystal Lake there. Be sure and attend these games for excitement and thrills.

Ruth Circle Met

The Ruth Circle had their Christmas meeting at the home of Mrs. D. P Anderson, with Mrs. Dave Schwichtenberg assisting hostess. Mrs. George Schoenwetter had the lesson, Carols were sung and a playlet was presented by the members.

There 17 members and children present and 10 guests present.



DRIVE RIGHT CAMPAIGN!

What might be history's biggest mass promise to drive safely was in the making in Iowa Thursday as the Iowa Safety Congress called on motorists to support its second Drive Right campaign which begins at 6.00 p. m. on Friday.

Thousands of Iowans are signing and mailing a Drive Right promise to Mrs. William Garlock, formerly of Grimes, who was left with four children by the death of her husband in a traffic accident last December.

Mrs. Garlock, who now lives at 1409 King Ave., Des Moines, has become the symbol of the campaign's theme: "Don't break the family circle."

The Iowa Safety Congress has distributed throughout the state 1,000,00 Drive Right "Christmas Cards" which combine a season's greetings with a safe driving pledge addressed to Mrs. Garlock.

The cards are available through sheriffs, chiefs of police, highway patrolmen, driver education teachers, county offices of the Farm Bureau, Junior Chambers of Commerce, local civic groups cooperating in the project and by request to the Iowa Safety Congress, 720 Grand Ave., Des Moines.

Iowans are urged to sign and mail the cards to Mrs. Garlock before Christmas and to make safe driving their "gift to every Iowa family."

Twenty persons were killed and 652 injured in 2,248 Iowa traffic accidents during the 11 day six hour period last year which corresponds to the approaching Drive Right Campaign.

Santa Claus Is Coming To Klemme Saturday At 1:30

TO BE MARRIED—Mr. and Mrs. Alvin Meyer of Garner announce the engagement of their daughter, Marilyn, to Carroll Albers of Klemme, son of Mr. and Mrs John Albers. The wedding date has not been set.

Avery Sunbeams

A regular meeting of the Avery Sunbeams was held December 15 at the home of Mrs. Harry Ostendorf. This was also our Christmas party. Fourteen members and one visitor attended, Diane and Della Mae Avery, two members were there.

We decided to give $5.00 to the Christmas Cheer Fund in Mason City.

We received our record and expense account books. Elizabeth Lemke told us about the music training school at Britt. We looked at our new songs for the coming year.

We played games that Judy Brede and Pauline Kramer had made-up. We exchanged gifts.

Lunch was served by Lois Helps, Darlene and Mrs. Ostendorf.

The next meeting will be January 19 at the home of Marlene Blumer.

—Marlene Blumer, Reporter

Grandmothers Xmas Party

Mrs. Albert Etchen was hostess to the newly organized Grandmothers Club at her home Monday vening, at a Christmas Party. Her home was beautifully decorated for the Christmas season. Mrs. Edna Thada, President, presided. After the business meeting Bingo was played with each guest receiving a gift. Mrs. Carl Wille, chairman of the games, had a Christmas Box tied up, and each person had one guess as to its contents and Mrs. Frances Swalve won it. Mrs. Roy Schaefer won the door prize. The net meeting will be held at the home of Mrs. Clara Barz, January 28th. If any grandmother in the community wishes to join the club, please contact Mrs. Thada before that date, as membership will close then. A nice lunch was served by Mesdames Etchen, Barz, Waddingham, Knoke and Swalve.

ILLEGAL TO USE OLD FRONT LICENSE

WARN AUTO OWNERS ABOUT FRONT PLATES

Auto owners were warned Friday by James Wolfe, North Iowa representative of the state motor vehicle department, thats carrying old license plates on the front of a car with a new one on the rear constitutes improper licensing.

Stickers indicating the weight limit or trucks also must be placed on the windshields, he emphasizes, even though they may have the glue on the wrong side.

The license stickers must be used even though they may appear in reverse from the front.

Summons tickets will be issued, Wolfe said, to either the auto or truck drivers if their licenses are not properly displayed.

FREE MOVIES WILL BE SHOWN AT HIGH SCHOOL GYM SATURDAY AT 1:30

All Children Will Be Given Big Treat By Old Santa

Santa Claus is coming to town! Santa says he will arrive in Klemme this Saturday afternoon at about 1.30 o'clock and wants all the kiddies in the Klemme community to be on hand at the High School Gymnasium to greet him.

Santa wants to shake hands with all the kiddies and ask them what they want most for Christmas. He has also arranged to have a free moving picture show for the kiddies and has organized a committee in Klemme to hand out some big sacks of candy to all the boys and girls.

Don't be late kiddies, Santa will be there on time, Saturday afternoon, December 22d.

CONTRACT FOR BRIDGE LET TO DAVEY & MOEN

Davey and Moen, Mason City contractors, were the successful bidders of a new county line bridge between Hancock & Cerro Gordo counties across the Winnebago river, at a letting held at the Hancock county courthouse Wednesday afternoon. The successful bid was $31,037.89. There were 5 bidders on the project.

A contract was awarded to Davey and Moen by the boards of supervisors from Hancock and Cerro Gordo counties at a joint session following the letting. Hancock county Engineer Charles F. Merten was appointed construction engineer on the project. Construction is to begin about May 1, 1952, contingent on the available of steel necessary for the construction.

BY RAY EASTMAN

"Bill' Garlock would have been attracted to the Drive Right Campaign that begins tomorrow evening at 6 o'clock. He would have taken it seriously and probably been involved in a local Drive Right project in Grimes or Adel or Johnston.

Except for that small patch of ice on the highway near Waukee.

Any project that had the good of the community or of people as its goal could count Bill Garlock among the workers. Probably the thing that gave him his warmest personal satisfaction, though, was his work with youngsters.

With four children of his own, Bill still found the time and energy to be an assistant cub scout master. Mrs. Garlock still recalls many a noisy afternoon when the basement was full of cubs all pounding and sawing away under Bill's direction.

The cub work gave birth to a family joke: Bill decided his young scout troop would have a lot of fun making Indian war bonnets out of white turkey feathers. He got in touch with a turkey raiser and asked him to save some of the better quills.

It happened that the right moment to collect the feathers came just before Thanksgiving. Bill drove out to the turkey farm and, while other people carried away their dressed birds, he carried away the feathers.

He always wondered after that what those people thought he was going to do with turkey feathers on Thanksgiving. He wouldn't tell them because he didn't want to spoil the joke.

Yes, Bill Garlock was a good man to lead the little scouts.

They'd have him yet except for that small patch of ice on the highway near Waukee.

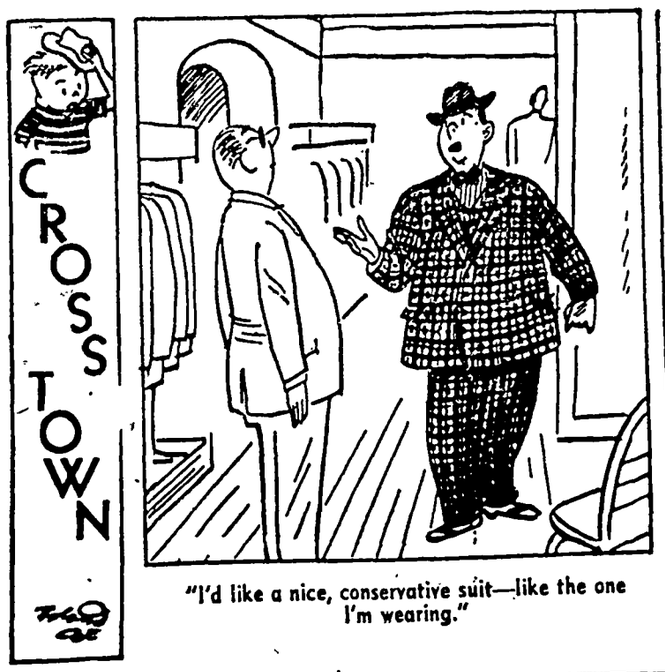
RANCHO
NO, I THINK I'LL WEAR LEVIS
THEN WHAT'S LEVI GONNA WEAR?!
I ASKED FOR THAT!



"I'd like a nice, conservative suit—like the one I'm wearing."

"I wish Alvin would realize we're not interested in his conversation with Emmy Lou."

KATHLEEN NORRIS
Puzzled Child

THE ABSURDITY of sending an eight-year-old child to a psychiatrist struck me forcefully when I first heard of it some years ago.

Nowadays it has become quite common for children to be sent to these specialists. Poor children! One wonders what they think about it.

"You heard Mother and Daddy quarrelling?" says the sympathetic voice of the strange man. The little girl, bewildered, but willing to help, leans against his knee. She nods solemnly. "And then you cried and tore your dolly into pieces?"

And then the psychiatrist works out the interpretation. It seems that the child's mother spoke of someone having a new baby and the child was afraid it was coming to their house and that, as she, the child, was secretly in love with her father she anticipated that her mother would perhaps love—

Into Mazes

And so on and on into the mazes that the twisted mind of a disgruntled old Austrian put into our healthy American way of thinking. According to Freud most girls are jealous of their brothers, and most boys want to take their father's place in Mother's room. And the tears and tantrums of the nursery, the vapors and discontents of the teens, the vague dissatisfactions of married life are all traceable to that.

There are mighty few books that I would undertake publicly to burn in the market-place, for I believe in free thought and free speech, but the works of Freud are among them. I'd like to prove to Freud

". . . tantrums of the nursery . . ."

that jealousy is a common failing among children, and that plenty of boys envy their sisters. Girls, who don't have to go to work unless they want to, who learn things faster in school, who never experience the embarrassment of a voice that shifts from baritone to tenor in the most horrifying way, who don't have to shave or enlist in the army, and who don't get bald! Gee, they're lucky!

If girls were smarter they wouldn't let a sour old man tell them that they envy their brothers and fall in love with their fathers. They'd burst out laughing instead.

But the truth is, it isn't funny, because like all other over-developed theories the Freudian one has a basis in scientific fact, and with our American enthusiasm, in which we successively exhaust ourselves with the bicycles of the 'Nineties, with dancing with the Castles, with miniature golf courses and radios and television and motor cars and all the other things we do too hard and too much—like everything else we've taken Freud too hard.

All having been conceived and born by exactly the same process, and that process being called the sex relationship, it is not unnatural that much of what we feel and are stems from sex.

Strange Doctors

And instead of married folk lifting their lives to the level of respect and dignity, and giving their children a background of security, peace and affection, to ship these puzzled little folk off to strange doctors may well be to permanently upset their sense of values.

Nothing is ever going to take the place of a good home, good talk, good nature, good ideals in that home. This is our children's only safety from the terrible troubled waters of today's thinking. Any woman who wants to give her children a priceless heritage needs only to love them and their father, keep peace and home fires burning, and solve the problems of the whole group with common sense, affection, and that worldly wisdom that all good fathers and mothers attain.

A ridiculous and yet tragic situation along these lines has recently arisen in my neighborhood. The family consists of a father and mother, both rich, both rather steady drinkers, her son by an earlier marriage, aged 17, his daughter by an early marriage, aged 8, his grandmother, in whose magnificent home they all live—and a young psychologist, aged 28

Yes, they have a resident psychologist, as grand old country families used to have a resident champlain. What the qualifications of this boy are I don't know; the father liked him, asked him to come look over the family, and pays him $300 a month to stay and keep them all in order. The younger mother likes to take long rambles with the psychologist, the 17-year-old hates him, the old mother has a congenial companion for canasta, and it would seem to me that Daddy had rather let himself in for trouble Just one of those crazy situations

Mother-Daughter Style Is Pretty as a Picture

PRETTY as a picture and fun to wear — adorable mother and daughter styles that are so nicely fitted, carefully detailed.

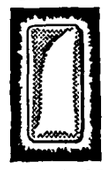
It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to
REMOVE WASTE —NOT GOOD FOOD



● Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon . . . right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.

HOUSEHOLD MEMOS... by Lynn Chambers

Let your Kitchen say, "Merry Christmas"
(See Recipes Below)

Kitchen Gifts

WHEN YOU SIMPLY can't face the ordeal of shopping among the crowds anymore, why not do your Christmas shopping right in your own kitchen?

Thoughtful gifts to fit almost anyone on your list can be made right in the warm and cozy kitchen. Children will adore confections that are tasty and colorful; neighbors and relatives will love your jellies; and any bachelor will appreciate a box of cookies to nibble over his favorite book on a long winter evening.

Containers for all these can be cheerful and full of Christmas spirit. Cover a cereal box of the cylindrical shape with gay wrapping paper and line with foil or waxed paper. This is excellent for cookies if you don't want to put them in tins.

Jelly glasses can be tucked in small baskets, or even muffin tins and the whole wrapped in colorful cellophane, then tied with gay ribbons. Confections can be wrapped individually and then placed in clear plastic containers which can be used for freezer or refrigerator use later.

• • •

Here are several jellies which can be made from canned juices if your own canning shelves do not provide enough for gifts.

Pink Apple Jelly
(Makes 5 6-ounce glasses)

3½ cups sugar
2 cups canned apple juice
Red coloring
½ bottle liquid fruit pectin

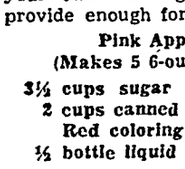
Add sugar to juice in saucepan and mix well. For a pink color, add a few drops of red coloring. Place over high heat and bring to a boil, stirring constantly. At once stir in fruit pectin. Bring to a full, rolling boil and boil hard 1 minute, stirring constantly. Remove from heat, skim and pour quickly into glasses. Cover jelly at once with ⅛ inch hot paraffin.

• • •

Grape-Grapefruit Jelly
(Makes 7 6-ounce glasses)

1½ cups grapefruit juice
1½ cups bottled grape juice
3½ cups sugar
1 box powdered fruit pectin

Squeeze and strain juice from 2 medium-sized grapefruit. Measure 1½ cups juice into a large saucepan. Add grape juice and mix well. Heat juice over high heat. Add powdered fruit pectin and stir until mixture comes to a hard boil. Stir in sugar. Bring to a full, rolling boil and boil hard 1 minute, stirring constantly. Remove from heat, skim and pour quickly into glasses. Paraffin at once.



• • •

Pinecot Jam
(Makes 10 6-ounce glasses)

1 pound dried apricots
2 No. 2½ cans broken pineapple slices
Sugar

Wash apricots and cut in pieces; soak overnight in syrup drained from pineapple. Dice pineapple and combine with apricots; measure and add ½ cup sugar for each cup of fruit and juice. Cook over low heat until thick and transparent. Seal in hot, sterile glasses.

LYNN CHAMBERS' MENU

Fried Oysters — Tartar Sauce
Buttered Broccoli — Mashed Potatoes
Lettuce Wedges — Blue Cheese Dressing
Crusty Rolls — Beverage
Canned Peaches — Cookies

• • •

Christmas Star Cookies
(Makes 1½ dozen 3-inch cookies)

½ cup mixed, candied fruit
½ cup seedless raisins
2 tablespoons sugar
1 tablespoon water
1 tablespoon orange juice

½ cup shortening
½ cup brown sugar
1¾ cup sifted flour
1 teaspoon baking powder
⅛ teaspoon salt
¼ cup water
¼ teaspoon vanilla
1 cup corn flakes

Chop fruit and raisins into fine pieces; mix with sugar, water and orange juice. Cook until a soft paste is formed.

Blend together shortening and sugar. Sift flour, baking powder and salt together and add alternately with water and vanilla to first mixture, then stir in finely crushed corn flakes. Chill thoroughly. Roll dough thin on lightly floured board. Cut with star cutter. Put small amount of filling in center of each star. Cover with another star cookie with center cut out with a smaller star cutter. Bake on a greased baking sheet in a moderately hot (425°F.) oven for 8-10 minutes.

• • •

Deluxe Candied Orange Peel

6 navel oranges
Water
2 cups brown sugar
1 cup water
2 tablespoons corn syrup
Sugar decorations

Cut the peel from oranges, then cut the peel with small cutters into star, tree or bell shapes. If you have no small cutters make a pasteboard pattern and cut around it. Place these designs as well as any leftover strips into saucepan and cover with cold water. Bring to a boil and boil 5 minutes. Drain and repeat this 3 times to prevent bitterness. Drain water and then add brown sugar, 1 cup water and corn syrup. Boil gently, stirring constantly, until syrup is thick and almost absorbed by the peel. Drain and roll peel in sugar or decorations.

Pink Popcorn Balls

1 cup sugar
½ cup water
1 teaspoon vinegar
2 tablespoons light corn syrup
¼ teaspoon salt
1 tablespoon butter
1 teaspoon red food coloring
6 cups popped corn

Combine sugar, water, vinegar, corn syrup and salt. Cook to a very hard ball stage (265°F.). Add butter and coloring. Pour over popped corn. Shape balls.

LYNN SAYS:
Use these Short-Cuts During Busy Holidays

Cut square biscuits from baking powder dough using the ice cube divider from a refrigerator tray. It's quicker than using a round cutter.

When you don't have time to make white or cheese sauce for vegetables like broccoli, cauliflower or brussels sprouts, simply melt some processed cheese in the top of the double boiler and pour over the vegetable.

When muffins bake before the rest of the meal is ready, loosen them from the pans and tip them in the pans slightly and keep in a warm oven until the meal is ready.

A small jar of softened butter or substitute kept on a kitchen table is a big time-saver for such things as buttering bread or toast and mixing with cooked vegetables.

As soon as you remove food from cooking utensils, put water in them. They will soak while you eat, and will be easy to wash quickly.

THE HOME TOWN REPORTER IN WASHINGTON

WALTER SHEAD, WNU Correspondent

A New Warning

FEW folks in this country, of whatever religious belief, or of whatever race or color, can disagree wholly with the recent warning issued by the top hierarchy of the Catholic church in the United States, in annual meeting here in Washington.

And this warning is that an alarming parallel exists between the situation which faces this country today and that which faced the Roman Empire 1500 years ago—namely, barbarism on the outside as exemplified by Communism, and refined materialism and moral decay within. It is not a pleasant or complimentary picture painted of us as a people by the three Cardinals, six Archbishops and four Bishops which made up the administrative board of the National Catholic Welfare Council.

Here are some barbs which hit home: "We have sent our young men on military expeditions to far-off lands so that justice and freedom may be kept alive in the world; and yet at home we have become careless about the foundations of justice and the roots of freedom:"

"Expressions such as, 'my life is my own affair', or 'I may do as I please', or 'in politics, anything goes', are all too common today. There is no time in man's life when he is excused from obeying the moral law. The clergyman, the educator, the doctor, the lawyer, the politician, the employer, the employee, husbands, wives and children are all alike strictly bound. All human rights and obligations have their source in God's law.

"Dishonesty, slander, detraction and defamation of character are as truly transgressions of God's commandments when resorted to by men in political life as they are for all other men.

"There are not two standards of morality. One and the same standard prohibits false statements about private individuals and false statements about members of minority groups and races. It will not do by way of excuse to say that statements of the latter kind can be excused because of long-standing prejudice.

"Morality has its place in business and industry because the conditions under which men work, the wages they get, the kind of work they do, all are subject to the jurisdiction of the moral law. When economic conditions are such that the raising of a family by working people is made difficult and at times impossible, then those responsible for this deplorable situation are guilty of breaking God's law and they are also accomplices in the sins resulting from their injustice." The prelates called upon Americans in every walk of life to rededicate themselves to the wisdom of our founding fathers and quoted the following passage from Washington's farewell address:

"Of all the disposition and habits which lead to political prosperity, religion and morality are indispensable supports . . . reason and experience both forbid us to expect that national morality can prevail in exclusion to religious principle."

• • •

Senator McCarthy

In the final edition of the Congressional Record for the first session of the 82nd congress, Sen. Joseph McCarthy of Wisconsin has caused to be inserted eighteen separate speeches, statements or whatnot, no doubt to be used in his campaign for re-election in Wisconsin. The theory is that the articles are supposed to have more authority when clipped from the Congressional Record.

• • •

Classroom Needs

The Office of Education of the Federal Security Agency points up the need for 600,000 new classrooms to accommodate public elementary and secondary school pupils each year until 1958 and the fact there will be something like 8,000,000 additional children enrolled by that time. Enrollment in elementary and secondary schools by that date will be 37,186,000. Costs of construction will run several billions.

• • •

Agriculture

First state to complete its streamlining of the Agricultural department into a one-stop service with all state offices of the department housed in one building, most significantly was in Iowa. Iowa is the home of Allan Kline, president of the American Farm Bureau Federation, most outstanding critic of Secretary Brannan and his department.

• • •

Economic Help

The Committee for Economic Development, non-partisan group of top business and professional men, in a recent statement says: "The economics of the free world calls for greater efforts by American businessmen to help in applying their 'know how' in raising the production and the standard of living of underdeveloped countries through the Point 4 program, expanding world trade and strengthening the North Atlantic nations.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY DR. KENNETH J. FOREMAN

SCRIPTURE: Luke 1—2.
DEVOTIONAL READING: Luke 1:46—55.

Christ Is the Answer

Lesson for December 23, 1951

EVERYONE is acquainted with Jesus the baby. The Christmas festival makes that certain. We know that the lot of babies in all Christian lands today is better because of Jesus the child. His coming hallowed childhood and motherhood for all time. But Jesus did not stay a baby. He was born not chiefly in order to be cuddled in a mother's arms. He was born to be a King; he was born to grow, to teach, to command, to save. Where is the festival that presents him King of Kings and Lord of Lords? There are such, but they never had the popularity of Christmas.

Dr. Foreman

• • •

Bethlehem Was a Beginning

IN innumerable pictures and statues the mother of Christ looms large, the baby small. In the Bible it is the other way around. The interest of the Bible is not centered at Bethlehem, important as that place was in the history of the world. The songs which only Luke has saved for us all point far beyond the manger-child.

Bethlehem marked the great moment, to be sure, the miracle of miracles when God became man. But that was the beginning, only the beginning. Two of the Gospels fail to mention the first Christmas at all. The two that do mention Jesus' childhood leave it after a few short paragraphs.

If anything is certain about what the writers of the New Testament thought, it is certain that when they thought of Jesus Christ, they seldom, if ever thought of him as a baby. The little Jesus is a helpless child, depending on the care of his mother. He is sweet and appealing, and every one loves him . . . But he only lies there perpetually smiling. We like babies, but we have our grown-up affairs to attend to. We think babies are "cute", but we take no orders from, we do not try to be like them. We cuddle them and talk baby-talk to them, but when we get ready to talk sense, when we are in any kind of trouble, when we need some one to tell us what to do, we never talk to babies.

• • •

The Power of God

SO, if Christ is to mean to us all what he should, it is time we got into the Bible's way of looking at him. He is called the "fulfilment of prophecy". What does that mean?

The great prophets looked forward to a coming king, a "Messiah"; he must begin life as a child, because he would be a human being, not an angel.

If our thinking stops with the babe in the manger, we shall never realize the tremendous truth about Jesus. Consider the words that Isaiah used (Isa. 9:6,7): "Wonderful, Counsellor, the Mighty God, the Everlasting Father, the Prince of Peace." These are grown-up words, more than grown-up. They point to something super-human, something coming into this world, as the Bible puts it, "from above".

The Christ of the Prophets is a person who will "rule the nations". The Christ of the apostles is likewise no child. He is the man sent from heaven; he is the "power of God and the wisdom of God" (I Cor. 1:24). He is King of Kings and Lord of Lords.

A baby lets us do as we please; but not the Lord of Lords. He challenges the world—from a throne, not a cradle. What he thinks, we desperately must know. What his will is, we must learn or perish. If the world is going to pieces today it is because we think no more of Jesus than of any other picturesque infant.

• • •

The Christ Who Commands

IT is said often, as a kind of slogan, that "Christ is the answer". If this means anything true, and it does, it means that the ways of the world are right ways only when they are the ways of Jesus. Thinking, planning, acting—personal and social living both—it is either as Jesus would have it or it is headed for a crash.

This is not to say that the commands of Christ are arbitrary, "just because . . ." Faith in him is the gateway to life, following him is life.

A sentimental glow as we pass the manger at Bethlehem is not what christianity means. It means saying as Paul did: Lord, what wilt thou have me to do? A Christ who can be patronized or pitied is no answer: the only answer is the Christ who commands.

(Copyright 1951 by the Division of Christian Education, National Council of the Churches of Christ of the United States of America. Released by WNU Features.)

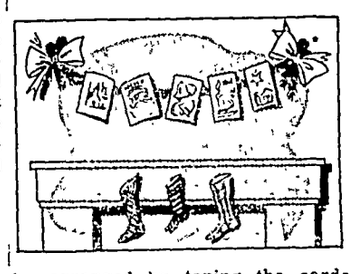
CHRISTMAS DREAMS

Decorative Effects May Be Obtained By Christmas Card

The deluge of Christmas cards that descend upon the family during the holiday period can be used in many decorative and attractive ways.

One of the most interesting ways they may be used is the form of a mantel or door decoration. They can be attractively grouped together with ribbon and evergreen and add a festive touch to any room.

An eye-catching display can also



be arranged by taping the cards to the panels of an inside door and accenting with sprigs of evergreen and gay, colored Christmas-tree balls.

The big, wide Christmas cards that feature reproductions of famous paintings will show well if placed in bleached-oak frames and hung singly or in pairs in a narrow wall space. Six of them, in a panel arrangement, will give a center of interest to one wall. If you wish to really make a display, then thumbtack the cards to cardboard cut in a tree shape and covered with gold metallic paper. Edge them with evergreen.

The famous carol, "The First Noel" means the first Christmas and this holy anthem goes so far back into history that there is no record as to who wrote or when it was first sung.

An old belief is that the shepherds sang the verses to the music of the angels heralding the birth of Christ, but no one knows for sure.

The beautiful carol, however, has come to be one of the many important things that make Christmas the holy, celebrated season that it is.

Weeks before Christmas, from radios, from concert halls and from the throats of carol singers and just plain singers, the strains of the First Noel remind us all that the celebration of the birth of Christ is once more upon us.

Christmas Eve in Syria Time for Earnest Prayer

There is little merriment in Syria on Christmas Eve. It is more a time of prayer. In both Syria and nearby Lebanon, the Christmas season begins on December 4th and is not concluded until January 6th.

In these two ancient countries there is no Santa Claus. The Syrian believes his gifts come from the camel, for legend tells that the youngest camel to accompany the Magi was tired and weary upon reaching the stable at Bethlehem and the new-born Saviour blessed it and gave it immortal life. In the Lebanon district the "magic mule" is the gift bearer. Children sprinkle freshly mown grass from the threshold to their beds to entice the mule to visit them during the night.

All during the Christmas season, pilgrimages are frequently made from Syria to Bethlehem. Then, on New Years Day, comes the celebrating. Presents are exchanged and children go from one house to another, receiving presents and gifts of money, like children everywhere.

Great Is He Honored This Christmas Day!

It is indeed significant, this birthday that is celebrated on the twenty-fifth of December!

It honors the birth of One who never delved into politics, Who belonged to no party, political or otherwise. He led no revolutions, conquered no vast domains with mighty armies or eloquent words. He advocated little more than a life for salvation—and for that He was crucified on Calvary.

AROUND THE HOUSE

Cleaning Range

When food spills over on the surface units of your electric range, let it char. When the unit is cool, remove the particles with a brush. If needed, enclosed units may be washed off.

• • •

Clothesline Slack

Homemaking specialists suggest adding a short piece of link chain to one end of a clothes line. Then the slack can easily be taken up by hooking a link further back on the chain.

• • •

Handy Tray

A handy tray for serving a sick person is the ordinary muffin tin. Small portions may be served in colorful paper muffin cups set inside and helps avoid the danger of spilling. A small glass fits in the tin, too.

• • •

Broiling

For ease and convenience when broiling food, homemaking specialists advise using aluminum foil or parchment on the bottom of your broiler pan. You can slide it off quick as a wink and save cleaning time.

Clearing Table

In clearing the table a big tray or a tea wagon—or your movable kitchen table on wheels brought at least to the kitchen door—will prove a great help in making one trip do the work of several.

• • •

Old Book Jackets

Old book jackets can transform an old or ordinary table top into a thing of interest. First paste the colorful book jackets to the table top by applying fresh shellac to the underside of each jacket. When the jackets are arranged satisfactorily, cover them with a thin coat or two of fresh white shellac for a protective, transparent and attractive appearance.

• • •

Peeling Onions

To save your tears when peeling onions, peel them under water.

• • •

Remove Bluing

If you get too much bluing in a garment on washday, you can remove most of it by soaking the article in a gallon of water to which two or three spoonfuls of vinegar have been added.

Joins other prize cooks in praising Dry Yeast

Springfield Cook Wins 50 Awards at Illinois State Fair

That's an impressive display of ribbons Miss Edith Smith has spread out on her dining-room table. And she won 50 of them just last year at the Illinois State Fair—including third prize as the "Grand Champion Cook of Today" and second prize for the "Governor's Cookie Jar" award. A record like that certainly makes Miss Smith one of this section's leading cooks.

Like so many good cooks and prize winners—all over the country—Miss Smith swears by Fleischmann's Active Dry Yeast. "It's such a time-saver," she says. "Dissolves so fast—rises in a hurry, too, and it gives me grand results!"

The holiday meals ahead call for plenty of yeast-raised goodies. They're so festive, so delicious . . . wholesome and nourishing, too! When you bake at home, use yeast. And use the best—Fleischmann'sActiveDry Yeast. It's so fast and easy—gives you grand results. Just add to warm water, stir well—it's ready to use. Get several packages of Fleischmann's Active Dry Yeast today.

Jolly Workers Club Met

The Jolly Worker Club met at the home of Edith Kramer, Wednesday, December 12. Lily Pearson was co-hostess.

Twenty three members answered roll call by telling what they would like to have for Chrictmas. Mrs. Merlyn Helps was a visitor and also joined the club.

At our meeting we decided to take $10 00 from our treasury and buy bedding for the Willard Palmer family who recently lost their home by fire. Some more useful things were also given by the club.

We are sending a box of candy to Dean Roths and to Harvey Ausborn. Both boys being in service. Also $1.00 to the Christmas Cheer fund at Mason City

We had election of officers and Edith Kramer is our new President, Ruth Trampel Vice-president, Mildred Gruis, Sec.-Treas., Ruth Bachman assistant, Verbell Gilpin will send the cards and flowers to the sick folks.

We opened our gifts from our Mystery Friends and all received some lovely gifts.

The January meeting will be held at the home of Freda Lass January 9th with Dorothy Helps as co-hostess.

AN INVITATION

Dorothy Mongan wishes to invite any person in the Klemme territory to the wedding dance at the Vet's Club in Belmond on Wednesday evening.

It's a wonderful family holiday--one we hope you all will enjoy to the utmost

HOME ECONOMICS GIRLS ENTERTAIN MOTHERS AT BREAKFAST

The Klemme high school Home Economics girls, under the able direction of their teacher, Mrs. Robt. Andreae, served a two-course breakfast to all the mothers of the girls this Wednesday morning at the high school

The tables were very beautifully decorated with Christmas colors and trimmings. The food was ideal and the mothers all said "Everything was lovely."

GARNER WOMAN DIED THIS WEDNESDAY MORNING

Mrs. Myron Haskins of Garner died this Wednesday morning. Funeral services will probably be Friday.

Pre-Christmas Dinner

All of the following brought well filled baskets to the Bud Murray home Sunday evening when they had a pre-Christmas dinner. Mr. and Mrs. George Thieman, Mrs. Clara Barz, and Mrs. George Born, Mr. and Mrs. Fred Nuehring, Mr. and Mrs. Erwin Nuehring and family, Mr. and Mrs. Harlan Nuehring and family, Mr and Mrs. Merlyn Helps, Mr. and Mrs. Raymond Barz and family, Mr. and Mrs. Eldon Hagen and family, and Mr and Mrs. Allen Barz and sons

U-Delt-Em Club Met

The U-Delt-Em Club met at the home of Mrs. R. A. Jorgenson Thursday afternoon. Mrs. Sumner Trumbell was a guest. High prize was won by Mrs. Myrtle Jacobs and low prize by Mrs. S. Trumbell. A nice lunch was served during the afternoon.

● MARRIAGE LICENSES

Robert Leroy Tiggeman, 26, Klemme, and Evelyn Leona Riddell, 17, Garner.

AROUND IOWA

WOLF—
Seven hunters bagged a 40-lb. wolf near Manning recently, following the first snowfall.

DIAMONDS—
The strange case of missing diamonds is still baffling law enforcement officers of Franklin county Recently Mrs. Robert Smith of Waverly went to Fort Dodge with $2,700 worth of diamonds in her purse, to be appraised She left the purse in a rest-room in a filling station at Hampton, she thinks, but on retracing her steps found it missing.

EARLY—
Duane, 30-day old son of Mr. and Mrs. Everett Rossman of Atlantic, is getting an early start in learning about hospitals. He has been operated upon at an Omaha hospital for an internal obstruction.

WOUNDED—
15-year old Ronald Stevens, of Emmetsburg, was wounded last week when he tripped and a shotgun blast through the calf of his left leg. The wound is serious but he will not lose the leg.

FLIES—
When icy roads threaten to prevent a trip to Illinois to attend his brother's funeral, E. V. Johnson of Gowrie took to the air and made the trip in a small private plane. It was the first flight for Mr. Johnson. He's 84.

WONDERFUL—
"People in Jefferson, Iowa are wonderful," says Mrs. Harold McClelland, who with her sergeant husband is spending a 30 day furlough there. The pretty Mrs. McClelland is a Japanese war bride, enjoying her first trip to the states.

DIES—
Morning Sun lost its oldest resident recently, in the death of Mrs. Sarah Jane Schofield. She was 96. Her husband was a Civil War veteran.

SERVICE—
The mail at Humboldt, Iowa is in veteran hands. Raymond Hansen has completed 30 years of service with the post office there and rural carrier Bill Bauman, 32 years.

HEN LAYS EGG AS BIG AS GOOSE EGG

Walt Blumer brought in an egg to The Times office this morning that had been laid by one of his year-old Leghorn hens.

The egg was as large as a big goose egg—weighed 6½ ounces and measured 7 3-4 by 9 1-8 inches. It was a single egg and had but one yoke.

Some egg! It was nearly1-3 of a dozen, as the standard for one dozen eggs is 21 ounces.

The editor will have this big egg for breakfast Thursday a m.

Church Christmas Programs

The three churches in our community, The Reformed, The Methodist, and The Liberty Methodist, will hold their Christmas programs at seven thirty, Monday evening, December, 34. Everyone in the community is welcome to attend the one of their choice.

Mr. and Mrs. Bert Johnson of Burt, Iowa, and Mr and Mrs. Leland Hummel were dinner guests Sunday in the Hugh Hummel home. Afternoon visitors were Mr. and Mrs. Otto Nuehring and Robert, and Miss Karen Eichman of Mason City

This Family of Eighteen Believes In Big Numbers

CLIFFWOOD BEACH, N. J. — Mr. and Mrs. Joseph Carey apparently like the patter of little feet around the house. Recently they welcomed the 18th addition to their family in 18 years of married life.

Carey, 51, the father of the large brood, admits that it often gets a little difficult to manage his family on the $60 a week he earns as a boiler engineer. "But we always get along," he says, "and sometimes even have spare money for little luxuries."

The family lives in a six room house which they get rent free in exchange for papa's services as caretaker and custodian

All but $10 of Carey's weekly check goes for the food bill, the remainder for miscellaneous items, such as laundry, and for the upkeep of an old, yet reliable auto.

Clothes, as in any large family, are passed from one offspring to another.

Mama Carey has an unusual philosophy about childhood diseases When one of them catches measles, mumps and chickenpox, "I let them all catch it. Then we get it over with at the same time"

Ocean waves have been known to go as high as 80 feet.

On a postman's uniform a red silk star means 15 years of service.

Christmas Cheer

Let us open our hearts to the wondrous peace and beauty of the season

Luther Schmidt, Prop. Klemme, Iowa

PROCEEDINGS OF COUNTY SUPERVISORS

2ND ADJOURNED NOVEMBER MEETING

Garner, Iowa, Nov 26, 1951

The Hancock County, Iowa, Board of Supervisors met in session on above captioned date pursuant to adjournment with F. J. Schoun, Clarence Bird and Clint Daniels present.

The minutes of the last meeting were read and approved as read.

On motion and second the report of allocation among counties of equalization farm to market road fund income for the fiscal year July 1, 1950 to June 30, 1951, is hereby approved

This being the 26th day of November, 1951, a date heretofore fixed for a hearing on the report of the commissioners heretofore appointed to reclassify lands in Drainage District No. 3 and 4, Lateral No. 18, Hancock County, Iowa, the hour for said hearing having arrived, the proof of publication being on file and the board being fully advised, said hearing was held as scheduled.

There were no written objections on file and all interested landowners present at the hearing were heard. There were no objectors present It is therefore deemed advisable by the Board of Supervisors that the commissioners report be approved as submitted and the classifications are hereby approved and confirmed and ordered placed on the drainage records as reported, and in accordance with Chapter 455 Code of Iowa, 1950

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors acting for and in behalf of Drainage District No. 3 and 4, Lateral No. 18, Hancock County, Iowa that the report of the commissioners heretofore appointed to reclassify lands in D. D No. 3 and 4, Lat. No. 18, which report was filed October 10, 1951, be and the same is hereby approved and confirmed as reported

BE IT FURTHER RESOLVED that said reclassification be levied and spread in accordance with the drainage laws of Iowa.

The foregoing resolution was offered and read by Supervisor Daniels, who moved its adoption, was seconded by Supervisor Bird, whereupon the chairman, F J Schoun, placed the motion of its adoption and upon roll call the vote thereon is Clint Daniels, Clarence Bird and F J Schoun, ayes. Nays, none. Whereupon the chairman declared the resolution duly adopted

On motion and second the agreements by and between Hancock County, Iowa, acting for and in behalf of D. D. No. 13, as recommended by Wm Henschen, construction engineer, and the following landowners and amounts as follows are hereby approved:

W F Dorow	$ 25.00
Ed Hollatz	100.00
Edwin B Wessner and Anna Boehnke	72.00

Said amounts to be allowed for completion of leveling of banks on D. D No. 13 by said landowners.

On motion and second the board adjourned to Dec 3, 1951 at 9 o'clock a. m

F J Schoun, Chairman

Attest: Maynard Schoneman, County Auditor

Army Employs German Dogs As "Walking Radar" Patrol

FRANKFURT, Germany—American infantrymen on Europe's defense line now have available the services of walking radar. Twenty-seven German shepherd dogs patrol the lines in absolute silence, picking up the enemy by scent or ear at distances up to 400 yards.

At Graefenwoehr, the army's dog training center, the animals are required to pass rugged tests. They must crawl through barbed wire and around log obstacles for 100 yards while live in machine gun ammunition whines overhead and ground charges of dynamite explode with deafening concussions.

Along with their dogs crawl their masters, members of the 42nd infantry scout dog platoon command. Each man has a dog assigned to him and they train together constantly.

Talking and barking are taboo, and a number of silent communication methods are used between man and dog. Most common is the raising of the hair on the back of the neck.

The platoon is the only one of its kind among the American forces in Europe.

Recently two of the dogs were used to track down a prisoner escaped from a military police stockade. It took the animals less than an hour to discover him, hiding in the brush.

Communications Have Important Battlefield Role

When the United States Army recently introduced a new "walkie-talkie" radio—one which is far superior to its World War II counterpart—it forged another link in its constant search for a better and reliable communications system.

Communications always have been a matter of prime interest and continuing study in the U S. Army because Control of small units in combat is one of the most difficult problems that faces the commander. Ten men without direction of concentration of force will succumb to five men acting as a controlled and directed team of force Only through communications can control be achieved.

Besides two communications nets, wire and radio, an Army unit has other communications It has messengers, liaison officers, forward artillery observers, visual signal systems, including infra-red devices, pyrotechnics, arm and hand signals, and ground panels to mark the front lines for aircraft.

Radio is preferred if security permits. However, the best radio in the front line company can be masked by a hill mass. All radio is subject to jamming. The telephone is reliable if enemy artillery has not broken the wire.

The composition of a wire team in a battalion varies from three to five men. One type of battalion switchboard weighs 81 pounds; another, 52 pounds. One provides 12 channels, the other six. An emergency switchboard used within the battalion weighs about 2¼ pounds and provides six channels This small board is similar in shape and slightly larger than a cigarette carton.

As a result of assistance from commercial research laboratories, there has been developed for the Signal Corps a new, portable switchboard, the SB-22/PT, which weighs only 22 pounds and provides switching facilities for 12 lines. Furthermore, by applying a "building block" principle in design, it is possible to stack three boards one atop the other, modify certain circuits slightly, and get switching facilities for 46 lines A 46-line board could take care of a regimental level.

In addition, a new lightweight field wire has been developed by the Army Signal Corps Engineering Laboratories, and is in use in Korea, which has less than half the bulk and weighs only one-third as much as standard World War II field wire and has an improved talking range. It uses no rubber It is packed in an improved, light dispenser so only one man is required to lay it.

The first set of the new walkie-talkie radios came off the production line on March 8, 1951 of the Radio Corporation of America, which developed it in conjunction with the Signal Corps Engineering Laboratories. The set has about half the weight and bulk of the old walkie-talkie. There are three variations of the set, primarily for use by Armor, Artillery and Infantry.

Through the use of miniature parts, the new walkie-talkie weighs only 25 pounds. It is 16 inches high, nine inches wide, and three inches deep. When a 36-inch antenna is used, it has a normal range of three miles. When a 10-foot antenna is used, the range is five miles. It is a battery-operated receiver-transmitter in a single unit.

These sets will operate, under an Army Signal Corps concept of "integrated communications," with a new handie-talkie radio (developed by the Raytheon Manufacturing Company) soon to be delivered, and with an extensive new series of frontline vehicular sets (developed by the Bell Telephone Laboratories), soon to be delivered.

Numbers Racket Suspect Is Finally Caught by Patrolman

NEW YORK—For a long time New York police suspected that Haywood Barrier, 33, was mixed up in the numbers racket, but they couldn't prove anything against him

Recently, when stopped by a patrolman for a routine check-up, the officer dropped Barrier's wallet. Barrier politely bent over to pick it up.

The officer saw what looked like blond hairs in Barrier's shock of thick black hair. The golden hair turned out to be five tiny slips of yellow paper with numbers accounts written on them.

Said the judge, accepting Barrier's guilty plea:

"You're one man who can really say the cops got in his hair."

Department of State Growth Depicts American History

WASHINGTON — The United States Department of State has grown from eight employees, including Thomas Jefferson, in 1790, and expanded until it now has 17,000 employees—five thousand in the U S and approximately twelve thousand abroad.

The new State Department building, originally the War Department building before the Pentagon was built, houses the majority of home front employees of the department and the department is also spread out in twenty other Washington, D.C. buildings.

Commanders Praise Front Line Morale Of Troops in Korea

A Pentagon general who toils far into each night to insure that Korean commanders are supplied equipment and trained troops is finding inspiration these days in a letter he received from a United States Army battalion commander who is leading army troops in battle.

"I've taken off at first light with them," the battalion commander writes, "fought all day and into the night, buttoned up on a mountain peak in two feet of snow, beat off two counterattacks during the night—and when morning came, found them ready to move out. No gripes no despair—

"How can you help but love men like that? I've almost decided that United States Army men just don't crack."

The commander said his battalion is well-trained, tough, sound as a dollar, and loves to fight At the time he wrote, the battalion had been in regimental reserve for five days.

"The men don't like it," he said, "they'd rather be on the move and so would I.

"I've got three rifle companies that are top-notch. There's little to choose between them In planning an attack, I can toss a coin to determine the company that's going to make the main effort.

"In the past two months, we've experienced almost every type of operation in the book except a river crossing and we're looking forward to that in the near future

"Of course, the most outstanding thing about this outfit—and it's none of my doing so I can brag about it—is the spirit of the men themselves.

"Whenever I feel low, I get out among them and talk with them—it's the best medicine in the world for the commander who wonders how much further he can push his outfit before it begins to crack."

Determined Traffic Officer Finally Gets Drunken Driver

OSHKOSH, Wis — Lt. Harry Kripner, traffic officer of Oshkosh, by gosh, is not a man to give up easily. Kripner recently nabbed a weaving motorist, but he had to get his squad car out of a ditch to do it.

As Kripner pulled alongside the weaving car, a third auto hit the squad car The pursued motorist drove on and Kripner and the other vehicle went into a ditch. The occupant of the third car was injured, so Kripner saw that he was cared for and then radioed for an ambulance.

The officer then backed his own car out of the ditch and caught up with the weaving vehicle, whose driver received a $100 drunken driving fine.

Paint-Up Programs

In Tall-i-Bakun, an excavated settlement near the Persian Gulf, some houses had as many as seven rooms. This was unusual for such early times—about 3800 B.C. In some cases, house walls were painted with red and yellow bands Others, a solid red or yellow. Apparently, the color was kept fresh by frequent coats of paint.

Ears Are Valuable

A hooked sidepiece going behind the ears seems to us a natural way to hold spectacles in place, yet it was centuries after glasses were invented before this method was used, says the Better Vision Institute Early glasses were held in the hand, or tied around the head with a ribbon cord or leather strap

We wish you the old-fashioned holiday happiness with a new and vigorous spirit

Undeclared Wars Not New To Uncle Sam's Marines

WASHINGTON, D.C.—Undeclared wars may be a new experience to most of the Americans now fighting in Korea, but the Marine Corps has been fighting in them for over a century and a half.—from Tripol to Tientsin

In addition to the present Korean war, Leathernecks have fought in nine major undeclared wars, and 14 smaller engagements, (one of which took place near Seoul, Korea in 1871

The Marines' first undeclared war was one against the French, 1798 1801 After that they fought against the Barbary Pirates (this later became a declared war), Seminole Indians, Philippine insurrectionists Boxer revolutionists, Nicaraguan bandits (twice) and revolutionists in the Dominican Republic and Haiti.

Among the minor engagements in which Marines participated are battles in Sumatra (1832), China (1854 '55, and '56), the Fiji Islands (1858) the Straights of Shimonoseki, Japan (1863), Samoa (1899), Vera Cruz Mexico (1914), and even the capture of John Brown at Harper's Ferry (1859)

The Marines have fought in seven declared wars

Speechless Talking Cow Never Finishes the Act

RANGOON—Popa Saya Thin is a tent show magician who made quite a hit with the native population who thronged to see his talking cow

The little town of Pegu, south Burma went almost en masse to witness this modern marvel. Thin led his "talking cow" onto the stage and explained to the audience the animal would answer any questions

Then he draped it with a showy blanket—and bedlam broke loose Someone in the audience had noticed an assistant slipping beneath the blanket The act turned into a disappearing one as magician, assistant and speechless cow fled before a shower of brickbats and clubs

Steel, Iron Seek Bottom

A solid piece of steel or iron would sink to the bottom even where the ocean has the greatest depth There is a slight compression of the water at great depth but practically the density remains the same as near the surface Bodies will float only if its average density is less than that of the liquid in which it is placed The average density of an object is equal to its total weight divided by its bulk and that of the ocean is several times as great as water

We are busy practicing for our part in the grade school program Tuesday night

—Mrs. Barkema

FOURTH GRADE NEWS

The fourth grade completed our Christmas presents for our mothers and fathers this week and took them home to put under their Christmas trees. We aiso painted Christmas cards to put on our packages.

We learned how to divide odd numbers and check our division. We've learned our time tables to 12 x 5.

Jo Ann Helps treated her class last Wednesday with candy bars to help celebrate her ninth birthday.

—Miss Franken

Ell Tip Toppetrs Held Tea

The Ell Tip Toppers held a tea for their mothers at Joyce Thieman's. Lois Christians called the meeting to order. Each girl introduced her mother and presented her with a box of home-made candy for roll call.

Plans were made for our Christmas party to be held at Doreen Lackore's.

Refreshment committee Doreen Lackore, Carol Humphrey and Luaine Weiland. Entertainment Emily Goll, Sharon Blau, Joyce Thieman and Deloris Thieman

The new officers were installed after which we sang the Four Leaf Clover Song

Miss Van Wert explained record and expense account books.

Graska Gerardi and Doreen Lackore played a duet on their accordians. Eva Thieman, Elaine Jurgemeyer and LaVohn Josten played their horns, they aiso played at award night.

Joyce Thieman and LaVohn Josten attended Music school at Britt.

Lunch was served by the hostess and her mother.

LaVohn Josten, Reporter

Lowly Earthworm Actually Some Sharp Character

FRANKFORT, Ky. — You don't have to be too close an observer to know that, as far as the earthworm family is concerned, spring has been around for some time.

This might not sound too interesting unless you are a zoologist, but, in bare truth, no one but the zoologist knows what an interesting specimen Mr Crawler really is. In fact, he is almost phenomenal.

Zoologists, who know more about the worm than anybody—except, maybe a few fishermen, are becoming more and more confused about the fellow as time goes by. For instance, there are around 1,000 classified species. Size ranges from a bare fraction of an inch to the Australian jumbo special variety that has been known to measure five feet.

Individually the little earthworm is not too important. He grows into adulthood in a period of less than six months and goes about in a century-old manner, eating dirt—or rather seeking the organic matter found in the dirt by taking it into the digestive system and seemingly just boring himself around the earth.

It is through group effort that the worms really make their contribution to civilization Crawlers, like humans, like to gather in rich areas In an acre of good soil there might be nearly a million earthworms As the busy worms go about their usual procedure of taking in dirt to obtain the organic matter therein, their burrows offer the soil room to breathe and also provide drainage for rain They might be called underground tillers of the soil for they contribute heavily to preservation of the good earth and the creation of new soil

And just why are there so many worms? It's simple Crawlers are hermaphroditic Every earthworm is both a male and a female, although two worms are needed to produce an offspring.

After fertilization both worms return to their life of eating dirt and later give offsprings One mating is believed sufficient for a worm's lifetime and is said to produce several groups of young

In case you have never been able to decide, the earthworm does have two ends. The head is the slim, tapered end and the tail is, of course, the other end

Although he is equipped with a special reproductive ability, you can kill Mr Crawler by cutting him into. A full grown worm is made up of little rings or segments, from 100 to 150 in number If less than 15 rings are whacked off from the tail, the reproductive organism furnishes a new tail and the worm goes about his business. If part of the head is clipped, the reproductive organism still functions, but the part produced is always a tail and the worm eventually dies from starvation, having no way to feed. Whack more than 15 rings from either end and Mr Crawler is definitely a gone gosling, for part of the reproductive system is lost.

The sometimes quoted belief that it "rains" the worms found on the ground after showers is an untruth. The rain swells the earth and cuts off the oxygen supply and the earthworms simply come up for air Which is probably what he would like very much to do when he finds himself attached to some angler's hook and several feet under water.

Hollywood's Favorite Chimp Victim of Compound Fire

THOUSAND OAKS, Calif.—One of Hollywood's engaging comics, and consistent scene stealer, Tamba, a five year old performing chimpanzee, is dead.

A veteran of scores of movies and television shows, Tamba performed in many pictures His latest film was "Bedtime for Bonzo"

The chimp was suffocated along with three other apes and a baby kangaroo when fire broke out in the chimp house of the World Jungle Compound, filling the cages with smoke.

Tamba, alias Bonzo, Pierre, Jo Jo and Rollo, understood more than 1,000 words and 500 commands. His salary was $500 a week.

He recently double crossed his press agent by flunking an intelligence test, but psychologists credited him with the intelligence of a three year old child.

Speaker Rayburn Surpasses Record Set by Henry Clay

WASHINGTON, D C.—Sam Rayburn of Texas has served the longest tenure as speaker of the house, surpassing the record of Henry Clay.

Rayburn assumed the post on Sept. 16, 1940, filling a vacancy created by the death of William B. Bankhead of Alabama. His service was interrupted during the Republican controlled 80th congress in 1947-48.

Congressional library statisticians have figured that Clay served a total of 3,056½ days between 1811 and 1825.

Rayburn has also exceeded the eight year record as speaker chalked up by Joseph G. (Uncle Joe) Cannon of Illinois, 1903 to 1911; and Champ Clark of Missouri, 1911 to 1919.

Shawl-Famed Cashmere Wool Accents Its Timeless Vogue

In 1950's fast-rising market for fine-quality wools, Asia's cashmere —the "wool of emperors"— accents its timeless popularity by running in extra heavy demand.

Cashmere wool is the soft winter underfleece of the small, semi-wild Tibetan, or cashmere, goat. Never shorn, it is plucked or combed out painstakingly by hand during the spring molt of this frugal denizen of Himalayan heights. The wool is collected, also, from shrubs and rocks against which the animal rubs when its downy underwear becomes too warm.

Comparatively few of these goats live in Kashmir, northern Indian state which gave the wool its name. They range in thin air and on thin diet from the Caspian sea to western China, and their wool is finest in regions of perpetual snow near the eastern limit of this range. Cashmere endures as the wool's name because of the long renown of scarfs and shawls handwoven from it at Srinagar, capital of Kashmir.

There in the storied and beautiful Vale of Kashmir, shawls known to the Caesars were loomed. Of matchless softness, they were hand-elaborated on the loom into masterpieces of blended color. Superb examples are displayed in Srinagar museums.

The collapse of the Roman empire disrupted the cashmere trade with the West, but early in the 16th century, Europe "rediscovered" Srinagar's exquisite shawls. Josephine and Eugenie, consorts of two Napoleons, multiplied the vogue. Shawl weaving in the Vale burgeoned into an industry of 25,000 workers and 16,000 looms a century ago.

Six New American Liners To Be Safest Ever Floated

America's six new passenger liners now under construction will be the safest liners to sail the seven seas. Specifications of the owners and designers call for the highest standards of safety that will produce ships that have little chance of burning or sinking.

Through the combined use of materials that are either incombustible, fire-resistant, flame-proof, or fire-retardant, along with other fire-prevention and fire-fighting devices, a conflagration of any consequence on American passenger liners will be virtually impossible. The new liners will be divided into several fire-tight zones bounded by steel bulkheads or decks, insulated to prevent passage of fire and extreme heat.

Stairways and stairhalls out of these zones are to be enclosed by fire casings. Doors in the fire zone bulkheads are of fire-resisting material and are thermostatically operated Automatic fire detectors are to be installed in areas containing combustible materials, including storerooms and lockers. Cargo spaces, holds, storerooms, carpenter shops, paint and lamp rooms will be protected by an audible and visual smoke detector combined with a carbon dioxide extinguishing system.

Best Humidity for Home

Air conditioning engineers consider that the range from 35 to 50 per cent relative humidity is the most healthful for the home and that this will not have a harmful effect on furniture. Thus air conditioning equipment for use during summer months is often designed to maintain 40 per cent, or sometimes as much as 50 per cent, relative humidity In the winter, however, the humidity must be continually lower. With 40 percent, in a home maintained at 75 F and with singly glazed windows, as soon as the outside temperature dropped to 36 F, there would be condensation of moisture which might damage In order to protect the house, it is usually considered that 20 per cent is as high as one should go in the winter in northern climates.

U.S. Shoe Production

Nearly two million pairs of shoes are made each day in the 1,200 shoe factories of the United States, according to the latest figures released by the U. S. government, and nearly one-half of the world's shoes are made and worn in America. The approximately 500 million pairs of shoes which skilled craftsmen will turn out this year in this country—actually one billion footwear units — will consume some 22 million hides of cattle for leather soles and other vital shoe parts, and many millions of hides and skins of other foreign and domestic animals, such as goats, sheep, horses and reptiles.

Knitting Industry

During the period 1939 to 1948, the volume of cotton consumed by the knitting industry increased 180 per cent, from 81,000 bales to 228,000. The consumption of materials competing with cotton declined 18 per cent during these years Cotton scored its biggest percentage gains in men's and boys' sweat shirts, women's, misses', and children's polo and "T" shirts. Volume-wise, gains in men's and boys' polo, "T" and basque shirts and men's and boys' sweat shirts were chalked up amounting to more than 100,000 bales annually.

Scientist Creates 'Fog' With Aid of Ping Pong Ball

A Cornell psychologist has succeeded in creating a fog with a ping-pong ball.

Conducted for the U S air force, the experiment is designed to test a theory of depth perception new to psychology.

Many psychologists believe that man's ability to see a three-dimensional world is due to a process which is the brain's duty, rather than the eye's. Dr. James J. Gibson, professor of psychology at Cornell, holds another theory—that this kind of perception can be explained in terms of images on the retina of the eye.

Dr Gibson maintains that texture is the most important property of a surface. In fact, he is trying to find out whether a surface without texture can be seen at all.

The ping-pong ball "fog", conceived at Cornell by Dr Julian E. Hochberg and an assistant, Gideon Seaman, is being used to create a world without any surfaces

Dr. Gibson has constructed a pair of goggles from the two halves of a ping pong ball. When a subject, wearing the goggles, is placed in a specially-lighted perception room, he can see brightness or darkness but he can't see any surfaces, because the celluloid is so close to his eyes that he can't make out its texture Because of the absence of texture, he has the sensation of being enveloped in a fog. By this means the Cornell scientist can study what we see when we can't make out surfaces.

Cooperative, Democratic Teachers Most Admired

The nation's school children have their own ideas of what it takes to make an effective teacher And the youngsters' ratings of their teachers are apt to be much different from the ratings of school supervisors and superintendents

This is the opinion of Dr Paul A Witty, Northwestern university professor of education, who analyzed approximately 90,000 letters from American school-age youngsters The letters on the subject, "The Teacher Who Helped Me Most," were written to the Quiz Kids radio program

Prof. Witty found that the teachers most admired by the first to twelfth grade pupils were those with a "cooperative, democratic attitude"

In one of the letters describing her favorite teacher, one school child said: "Our class is just like one big happy family; I am not afraid of school any more" Another youngster wrote: "She made me feel good and comfortable at school—just like you were home in your living room"

Other teachers who ranked high with their students, according to Prof Witty, were those who had such qualities as "kindliness and consideration for the individual," "patience," "wide interests," "pleasing personal appearance and manner," "fairness and impartiality," "sense of humor," and "good disposition and consistent behavior."

In Grandma's Day

When grandma kept house some half century ago she and the maid worked hard from the time the sun came up in the east until it set in the distant west. In those gay 90's there was an old saying that a housewife's work was never done That epitomized the fact that in those days housework was something of real drudgery. There were no labor saving devices which the housewife and maid enjoy today These modern conveniences are the electrical harnessed servants that do the work in minutes that in the long ago required hours.

Venezuelan Ore Development

The U. S. ambassador to Venezuela said at a recent press conference in Caracas that "there was prosperity and peace in Venezuela" He added that the country was progressing, supported by the petroleum industry and by the recent development of the iron ore fields It is estimated that Bethlehem and U. S. Steel corporations have invested one hundred fifty million dollars in the development of this industry.

Boost Steel Output

Five western steel producing states made 5.3 per cent of the nation's raw steel in 1948 compared with 2.5 per cent ten years earlier. The tonnage output of these states west of Missouri increased nearly fivefold during the same period. Steelmaking furances in California produced 2,013,800 tons in 1948, exceeding the record of the prevous year by 12.3 per cent. Colorado, Utah, Washington and Oregon combined to exceed their 1947 peak output by nearly 5 per cent.

U.K. Hydroelectric Plant

Lock Sloy—a mountain lake 800 feet above sea level and about two miles northwest of Loch Lomond—is the site of the largest hydroelectric development in the United Kingdom. It is the first of 29 such Highland projects to be completed. After centuries of oil lamps, coal and peat heat, Highland homes are now beginning to enjoy the luxury of electricity.

Adequate Rat Control Through Use of Poison

While there are several important measures in ridding a farm of rats, use of poison is the first step. Red squill and warfarin are recommended for this purpose.

Any poison program against rats ought to be combined with a general cleanup of the farmstead to eliminate hiding and breeding places. Ratproofing of buildings will keep the pests out and simplify the rat problem. It is best to observe a community control campaign, so the pests will not move from one farm to another, as so often happens.

In poisoning rats, mix the poison in different kinds of food. Put this bait out in small bunches—a teaspoonful at a place. Be sure to put it where the rats feed, so it will be found easily. Don't put it in the burrows. Bait the whole farm with enough bait for all the rats. Put the bait out in the afternoon, then pick up any uneaten particles the next morning. Use fresh food for the bait.

Moistened rolled oats, fresh bread, cornmeal, meat scraps, hamburger, fresh or canned fish, apples, carrots, tomatoes and cheese all make good baits.

Red squill is an excellent poison, is safe to use and will not injure farm animals. Warfarin is the newest rat poison available and is also safe to use. Rats and mice can not detect this poison in the bait and will continue eating it.

There are other poisons but more care must be taken in their use. Antu is one of these, but this poison will kill farm animals and chickens.

Other Side of Moon

Why can't we see the other side of the moon? The moon goes around the earth once in 27 1/3 days, and in this same period turns once on its axis. This is just enough to keep the same hemisphere always turned toward the earth. Sometimes people find it hard to understand why we say that the moon is rotating when it always keeps the same region toward us. However, an observer out in space toward the sun, watching the movements of the two bodies, would see all parts of the moon during the 27-day period.

Warning to Motorists

Even motorists with excellent vision are warned that the spacing between cars of one length for each 10 miles of speed—as stated by law in some states—is not enough A safe stopping distance can be calculated by squaring the speed in miles per hour and dividing by 10 Thus, at 30 miles per hour, 30 times 30 equals 900; divide by 10, and you find that your safe stopping distance is 90 feet. On packed snow or partly icy pavements divide by five instead of 10, and on ice or sleet divide by two.

FREAK SQUEAKS

Driving Dog Tops 1951's List Of Unusual, Wacky Accidents

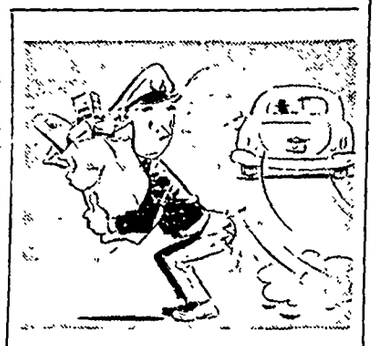
Do you ever have the feeling that things in this good old U S.A. may just possibly be a little wacky?

Well, take it from the National Safety Council—you're right!

The Council has just completed its annual roundup of odd accidents, and dazedly reports some mighty queer goings-on in the field of freak squeaks.

A dog who's a hot rod driver . . . a fish that caught a fisherman . . . an airplane that crashed a red traffic light . . . a horse and wagon that collided with a sailboat . . . a garden rake that shot the raker —these and many other dizzy doings indicate that things have been slightly screwy in 1951.

The pooch who pined to drive a hot rod was riding in a truck with



his master, William C. Hollis of Denver As Mr Hollis drove through Topeka, Kan., at a prudent pace the dog stirred impatiently, reached over and planted a heavy paw on the accelerator. The truck leaped forward, went out of control, collided with a passenger car. Four persons were injured. The dog hasn't driven since.

Police in Miami, Fla , are used to seeing all kinds of traffic on busy U S. Highway 1 during the tourist season. But even they were startled when Robert Simmons, of Dayton, Ohio, landed his airplane on the highway one August afternoon, rolled through a red traffic light and nudged a truck before he stopped. Simmons had been forced down by carburetor trouble. Nobody was hurt. No traffic ticket.

In Chicago a sailboat got on the wrong tack and collided with a horse and wagon driven by Randolph Johnson, a non-nautical pilot who found himself a little at sea when confronted by a boat traveling along a busy street on a trailer Damage to the boat was $500. The land forces suffered no casualties

Many a tired and perspiring gardener has moaned "I'm shot!" as he finished his raking. But Lincoln Stewart, of Columbus, Ohio, really meant it. He was raking trash in a dump when the rake struck and discharged a bullet in the trash. Stewart was shot in the ankle.

And all of us who have greeted a new day by groaning, "I feel like I've been run over by a steam roller," can get a first-hand report on the feeling from eight-year-old Stanley Willoughby, of Portland, Ore , who actually underwent the experience. Fascinated by a three-ton roller, Stanley grabbed on to a pipe at its back and walked along as it rolled. Suddenly the roller backed up It knocked Stanley down, passed over his legs and hip, and imbedded him neatly into the hot, soft asphalt. He was injured only slightly

TO SKEPTICS who believe chivalry is dead, here is a note of comfort. Cab Driver James Deeds, of Des Moines, Ia., gave up his seat for a lady—and did it the hard way. Helping a fair passenger unload a big sack of groceries from his cab, Deeds backed into a passing car, felt a draft, looked up in time to see the seat of his pants disappearing down the street on the door handle of the offending auto.

And in Boston, Mrs. Catherine Meenan was injured in an automobile accident as she sat in her second floor apartment. In the street below, a car had struck a pedestrian, knocked off his shoe, hurled it 25 feet through the open window of Mrs. Meenan's living room. It hit her on the head, inflicting scalp wounds.

Yes, it looks like good old 1951 was a little goofy in spots. But, as the saying goes, aren't we all!

Star Dust

STAGE-SCREEN-RADIO

By INEZ GERHARD

TONY MARTIN'S singing career really began when, at the age of 18, he was caught by a faculty member at Saint Mary's College, Moraga, Calif., playing jazz on the chapel organ. The teacher suggested that he concentrate on music He did, and met with nothing but disappointment until 1936 changed his luck That year he made several musicals for 20th Century-Fox and landed the singing spot on CBS Radio's "Burns and Allen Show" He is currently

TONY MARTIN

starred with Jo Stafford on CBS's "Carnation Contented Hour"; his latest picture is RKO's "Two Tickets to Broadway." And he's had two terrific engagements at London's famous Palladium.

Denise Darcel will find herself in lively company in her new assignment; Universal-International has signed her for the feminine lead opposite Abbott and Costello, as an Alaskan dance hall entertainer in "The Sourdoughs."

People die in unusual and amazing ways in "Across the Wide Missouri": trappers, hunters and Indians crowd the screen, there's never a dull moment. Clark Gable heads a fine cast; Adolphe Menjou gives a superb performance — but then, so does everyone else, from John Hodiak to Frankie Darro. This is a fine Western, with no cute blondes to clutter up the story.

Dinah Shore is plugging a new song, "You Gotta Show Me," which has been recorded by Bing Crosby.

THE FICTION CORNER

AVALANCHE

By Richard Hill Wilkinson

3-Minute Fiction

THE landslide occurred on March 8. It was the evening before that Lorelei and Stan quarreled. The real cause of the quarrel was Inez Thayer, Deke Whitman's stepdaughter. Deke was the mine superintendent, and Inez had come to spend a couple of weeks with him.

Inez was disappointed in the place. She had always thought of Arizona as a land of desert. Warm. Romantic. Nobody had told her that there were mountains in Arizona and that up in those mountains the temperature in March got well down below the freezing point.

She probably wouldn't have remained a week if it hadn't been for Stan Seymour. Stan was a young engineer. Inez took one look at him and decided to stay.

A woman in love sees many things that others let pass by unnoticed. Lorelei, who was the daughter of Jim Tristram, the mine foreman, had been in love with Stan since the day he arrived six months before, and he with her. Their love was unspoken, but it lay between them like a tangible thing.

Lorelei was glad now that neither had put into words the thing that both had felt, for now there need be no explaining or embarrassments. Some day, she knew, the hurt that grew inside of her as she watched Stan yield to the polished charm of Inez Thayer would fade and vanish.

So on the evening of March 7 Lorelei and Stan quarreled. And each knew that Inez was the cause of the quarrel, though both pretended it was over the matter of holding the annual spring dance in Redstone this year instead of at the mine.

"Help me!" she cried. And turned desperate eyes toward Inez.

IT was warm that night of March 7. Unnaturally warm. The heavy snows atop the mountain range against the base of which the mine buildings nestled began to melt, and on the morning of March 8 they began to move, slipping down the mountain, loosening tons of earth and ice and rock.

Lorelei was coming up from the rural delivery postoffice box with the mail: She heard the ominous roar and stopped. A moment before she had seen Stan and Inez enter the tiny engineer's field office, and, without thinking she started running toward it, shouting at the top of her lungs.

Men appeared from other buildings and took up the cry, and before long a great crowd was racing down the valley road out of the path of the onrushing avalanche.

But Stan and Inez didn't appear in the doorway of the engineer's office and Lorelei kept on running, screaming. Above the office was a sharp outcropping of rock. When the avalanche hit this it divided, and stones and earth were catapulted into space over the building.

Lorelei had pushed open the door when this happened. She glimpsed Inez in Stan's arms. Then a falling timber crashed toward them and she screamed. Stan pushed Inez away from him, and almost got clear himself, but 't grazed his shoulder and knocked him flat.

For a moment Lorelei stood transfixed. Then she leaped forward and began prying at the timber. "Help me!" she cried. And she turned desperate eyes toward Inez.

At the door, Inez turned. Her face was white. "Don't be a fool!" she shrieked. "Save yourself!" Then the roar and crash became louder, drowning out her words. The first avalanche had started a second.

Inez flung open the door and rushed outside. Stan pulled Lorelei down beside him and yelled into her ear: "Go on! You've still got a chance. You can't save me!" But she only stared at him in horror. Then she began picking up timbers and propping them in a sort of lean-to against the one undamaged wall, sheltering them.

Rescue crews came in and were amazed to find the two alive. They pried Stan loose and carried him away on a stretcher. One of his legs was broken.

When he came out of the ether, Lorelei was beside his bed. She smiled and said, "She's safe. She got clear and escaped without a bruise."

He looked at her and said nothing. Then he took her hand and drew her down close to him. "It's more important that you're safe—."

Is DuPont Really a Monopoly or Just Too Large?

By Wright A. Patterson

FOR SEVERAL YEARS an effort has been made to secure legislation that would provide for a national science foundation through which the top notch scientists could work at fundamental scientific discoveries. Last year the long desired legislation was passed.

As the bill was introduced, it provided an appropriation of 14 million dollars from which to provide compensation for the scientists, laboratories in which they could work, and materials with which to work. But in one of those rare economy spurts, the house appropriations committee, Clarence Cannon, Dem., Missouri, chairman, cut that 14 million down to $300,000, a sum entirely too meagre with which to start such a foundation, and nothing has happened because of that legislation.

In the DuPont hotel in Wilmington, Del. there is a display window in which are shown hundreds of those things which the scientific research of the DuPont laboratories, and the top notch scientists whose time and ability are at its disposal, have made possible That company spends something like 20 million dollars a year on scientific research.

From their unhampered research, there has come the commodities that are shown in that display window in Wilmington, a window before which I have stood many times to wonder at the accomplishments of this one company in providing hundreds of different things for the convenience and pleasure of the people of the world.

They make use of wastes that have been deemed valueless; they provide new industries that give employment to millions of workers; they increase American sales to the extent of millions, even billions, of dollars each year. And because of that increased business, the government collects a considerable portion of the nations' taxes

When the government wanted an A-bomb, it perfected its own organization, and spent billions of dollars on the project. Now the government wants an H-bomb, it turns to the DuPont company and its corps of scientists, working in DuPont laboratories with DuPont equipment and materials, to produce that more terrible, more destructive implement of warfare through which to insure our success against the Red hordes of communism. Whether or not those DuPont scientists will be able to construct such a bomb and the methods of exploding it, only time will tell, but if it can be done they will do it.

Now the attorney general says the DuPont Company is too big for the good of the nation, and has brought suit to break it up into small pieces so it would not be able to do for the government the things a congress refused to do for us. DuPont is a concern that has provided the munitions needed in practically every war in which we have engaged; a company that through its scientific research has provided millions of jobs for American workers; that has turned the wastes of mine, field and forests into commodities of value; a company that has added billions to America's sales, from which the government collects a large portion of the nation's taxes; a company that can do for the government, if it can be done, what the government is not prepared to do for itself.

It might be well for the attorney general to study, as I have, that display in the window of the DuPont hotel in Wilmington. From it he would probably get a new idea of the value of this too-big company, and what it, and others like it, mean to America.

DuPont is but one of a number of concerns that maintain extensive research departments into which they pour vast sums. From these laboratories come increased production, increased jobs, that 240-billion-dollars annual business from which the President insistently demands a federal government tax return of 70 billion dollars. It takes a too-big concern to stand the drain the government places upon business. Breaking them into small pieces would be but killing the goose that lays the golden eggs.

If Wheeler McMillen, editor of the Farm Journal and the Pathfinder, could be chairman of the agricultural committee of either the senate or the house, he would find a practical solution of the vexing farm problem.

Creeping socialism in America has become running socialism.

Crime in America

By ESTES KEFAUVER
United States Senator

Fourteen of a Series

Nevada: A Case Against Legalized Gambling

Both morally and financially, legalized gambling in Nevada is a flop. That was our conclusion after the Senate Crime Committee visited the only state which lawfully permits all gambling.

We had wanted to see whether, in the committee's opinion, it would deter organized crime if gaming were legalized nationally. We decided, instead, that "Nevada speaks eloquently in the negative."

It is true that revenue from state and local taxes on gambling is welcome in Nevada. However, what the state receives is only a pitiful fraction of the millions of dollars that the gamblers themselves drain from the public—not all of whom are out-of-state tourists, either

Furthermore, Las Vegas, Reno and other gambling centers have become headquarters for some of the nation's worst mobsters. A sample was the late Bugsy Siegel, formerly a director of New York's Murder, Inc. He became the gambling boss in Las Vegas until he was murdered in his mistress' home in California in 1947

Another is Lester (Benny) Binion (currently alive), who in 1936 was run out of Dallas, where he bossed a million-dollar-a-year policy racket. Binion still has a hand in running the Texas racket by remote control from Las Vegas, according to Dallas police.

In fact, he carried on a lurid feud with Harold Noble, the Dallas gambler who had been shot at so often (nine at the time) that he was known in the underworld as "The Cat." But after Noble's wife was blown up in a dynamite explosion, Binion quietly sent an emissary to Dallas to assure Noble that he was not behind the trouble Binion and the Nevada mob were unhappy over the bad publicity which was indirectly hurting business in the Nevada casinos

• • •

Studying what happens when a state or community is "Siegelized" or "Binionized," my own opposition to legalized gambling has become firm The casino type of operation is more often crooked than not—and legalizing it will not make it less so The fascination of gambling to many people is so strong that it would be complete folly to make the facilities more available

Employes of a magnesium plant near Las Vegas were paid extremely high wages and should have been prosperous. Yet, when the plant had to be moved several hundred miles, many of the employes simply did not have the money to move their families to the new locations: their earnings had gone into the convenient slot machines and gambling dens. There is more than an abundance of evidence that when gambling is minimized, legitimate business flourishes. Sen. Lester C. Hunt, a member of the committee, told us of his experience as governor of Wyoming. When gambling was outlawed in his state, business increased tremendously and sales tax revenue to the state immediately soared.

Nevada's gambling laws have been subject to periodic alterations The latest took effect in 1949. It required that persons engaging in gambling operations must be licensed by the state, county, and city. Such license power is vested in the Nevada state tax commission.

Ironically, the tax commission member appointed to "represent business" is William J. Moore, himself engaged in a gambling operation as part owner of the Last Frontier Hotel. The lanky, drawling Commissioner Moore addressed everyone as "fellow"—even the dignified Sen. Charles W Tobey of New Hampshire.

As part of the same "reform" in Nevada's gambling laws, there is supposed to be an "impartial" distribution to all licensed bookmakers of the race news wire service, the life blood of gambling. The tax commission is authorized to fix rates for this service and, in general, supervise its operation. The same Mr. Moore told us he recently made a deal for wire service for his own hotel at a rate which in the expressed opinion of the committee, "gives him a considerable financial advantage over his competitors."

The driving force behind the "reforms" was the frightening fact that the out-of-state hoodlums and killers who invaded Nevada had become so greedy and violent that an outbreak of gang warfare was feared. By "licensing" them, the state hoped to stabilize the industry Yet the tax commission promptly granted licenses to the same hoodlums.

This, as the dual-roled Mr. Moore explained, was a sort of "grandaddy clause" to protect the people who were in the business when the law was passed When Counsel Rudolph Halley asked how the commission possibly could have licensed a certain gambler who had a flagrant record for illegal operations in other states, Moore replied "How was he going to learn the business?"

• • •

We also were captivated by the unique role of Clifford Aaron Jones, attorney-at-law, lieutenant governor of the state and a partner in the Pioneer Club, the Golden Nugget, and the Thunderbird Hotel, all gambling operations. Lieutenant Governor Jones' 2½ per cent interest in the Pioneer Club, which he purchased for $5,000, has yielded him approximately $14,000 a year, and his 1 per cent interest in the Golden Nugget, for which he paid $23,310 pays about $12,000.

The move which placed the tax commission in the business of licensing gamblers, as a matter of fact, was precipitated by Robert E Jones, district attorney of the county in which Las Vegas is located and a law partner—though no relation—to Lieutenant Governor Jones He wrote the tax commission that the gangsters were getting too quarrelsome since Siegel's assassination and that warfare might break out at any time

Siegel an associate of Lucky Luciano, Frank Costello, Joe Adonis and other rulers of the Eastern mob, moved into Las Vegas around 1942, and established the plushy Flamingo Hotel. Working with Moe Sedway, ex-convict and long-time racketeer, he was the indisputable czar of the Nevada wire service Actually he was believed to have muscled in as a silent partner of every bookmaker to whom he sold the wire service and he would refuse service to any bookie who would not stand still for the "muscle"

He was shot to death in the home he was leaving for Virginia Hill in Beverly Hills, Calif. There are two theories for his assassination: (1) He attempted to carry his "muscle" tactics too far, and/or (2) His last East coast and Chicago mob backers were displeased with the way he had managed their Western interests.

• • •

The Fischetti brothers of the Chicago-Capone syndicate, the Frank Costello-Frank Erickson interests in New York, and certain members of the Detroit mob had invested heavily in Bugsy's Flamingo, which reputedly cost between $4,000,000 and $5,000,000. They were said to be displeased with Bugsy's management of the expensive property

Virginia Hill is said to have known that the killing was to happen and she was out of the United States at the time. In New York later, she furiously disclaimed such knowledge.

Anyway, after Siegel's murder, the Flamingo's operation was taken over by Morris Rosen and Moe Sedway. They attempted to carry on Bugsy's race wire monopoly, but weren't tough enough.

Soon the Stearns brothers, operators of the Santa Anita Club, next door, began tapping the Frontier Club's race wire. It was then that the district attorney began fearing that shooting would break out, and the licensing arrangement, which has led to dubious peace among the gamblers in Nevada, was set up

Next week: California: Where Lobbyists Grow Big and Mobsters Thrive.

Condensed from the book, "Crime in America," by Estes Kefauver. Cpr. 1951. Pub. by Doubleday, Inc. Dist. General Features Corp.—WNU

To Save A Life

Blood plasma, administered to wounded soldiers on the battlefield, needs only to be mixed with sterile water prior to injection into human veins.

Donating Blood

Any person in good health between the ages of 21 and 59 may donate blood, vitally needed by the Army as result of the Korean conflict.

A NATIONAL SYMPTOM

Doctor Cites Scandals as Morals Index

NEW YORK — Collegiate sports scandals and other corruption are "a challenge to Americans in general and especially to educational institutions," according to Dr. Oliver C. Carmichael, president of the Carnegie Foundation for the Advancement of Teaching.

In his 46th annual report on the state of American morals, Dr. Carmichael said the recent expose of college sports, gambling, municipal and governmental corruption "should surely be sufficient to arouse the American people."

The doctor pointed out that the finger of accusation had been pointed at thousands of innocents in loyalty probes, perhaps those involved in sports scandals, but those found guilty, "deserve no consideration or sympathy."

SANTA CLAUS IS COMING!

Yes, the old boy's beginning to pack the sleigh and soon he'll be on his way. Ordinarily that's as happy a thought as you could have —But if you've got a long Christmas list and a short shopping time, well, old Santa's impending appearance can cause you much apprehension. However, it needn't do that. You see, the cigarette smokers on your list will be delighted to receive king-size Cavalier Cigarettes this year—and the pipe-smokers and "roll-your-owners" will be grateful that you remembered to give Prince Albert, America's most popular smoking tobacco! As for gift packaging, extremely mild Cavaliers come all Christmasy in their bright, gay carton . . . while Prince Albert, in the pound size tin, is boxed beautifully in full holiday colors with the card built in. So, let Santa Claus come. You're ready for him, with Cavaliers and Prince Albert, now available at your dealers! These are time-saving, money-saving gifts — the kind you'd enjoy receiving yourself. Extremely mild Cavalier Cigarettes, and Prince Albert, the National Joy Smoke "The bite's out and the pleasure's in!" —Adv

EAT ANYTHING WITH FALSE TEETH!

If you have trouble with plates that slip, rock, cause sore gums—try Brimms Plasti-Liner. One application makes plates fit *snugly without powder or paste,* because Brimms Plasti-Liner hardens permanently to your plate. Relines and refits loose plates in a way no powder or paste can do. Even on old rubber plates you get good results six months to a year or longer. **YOU CAN EAT ANYTHING!** Simply lay a bit strip of Plasti-Liner on troublesome upper or lower. Bite and it molds perfectly. *Easy to use,* tasteless, odorless, harmless to you and your plates. Removable as directed. Money back if not completely satisfied. *Ask your druggist!*

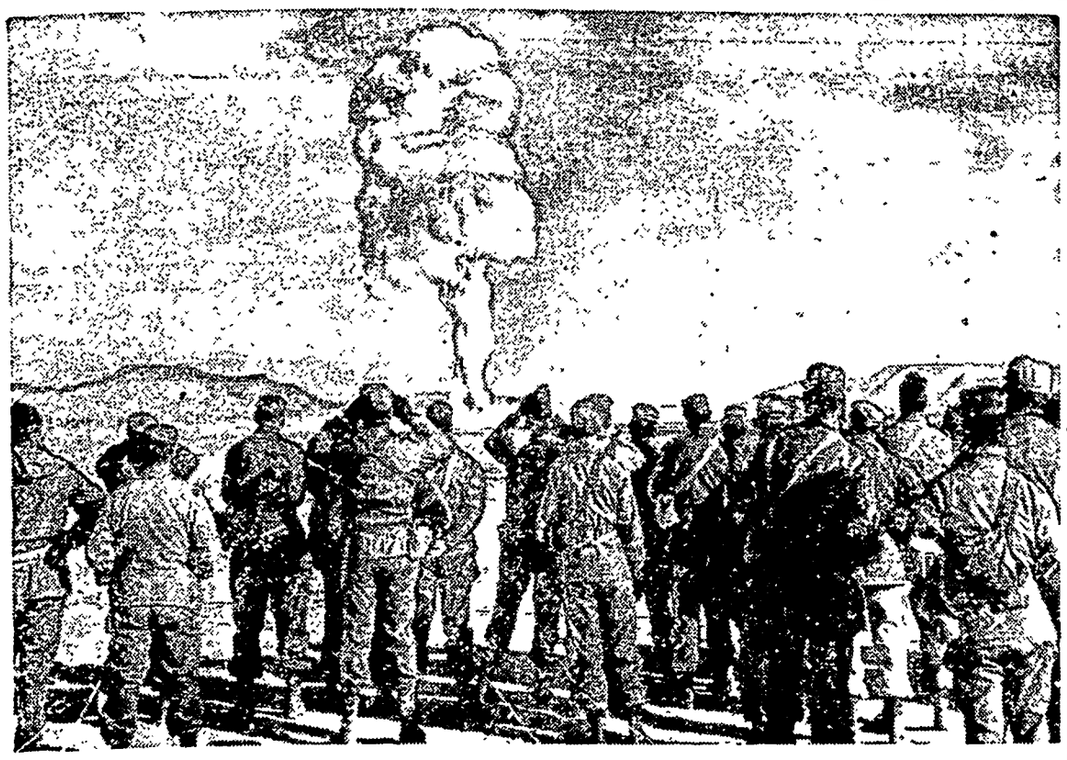
BRIMMS PLASTI-LINER
THE PERMANENT DENTURE RELINER

KIDNEYS MUST REMOVE EXCESS WASTE

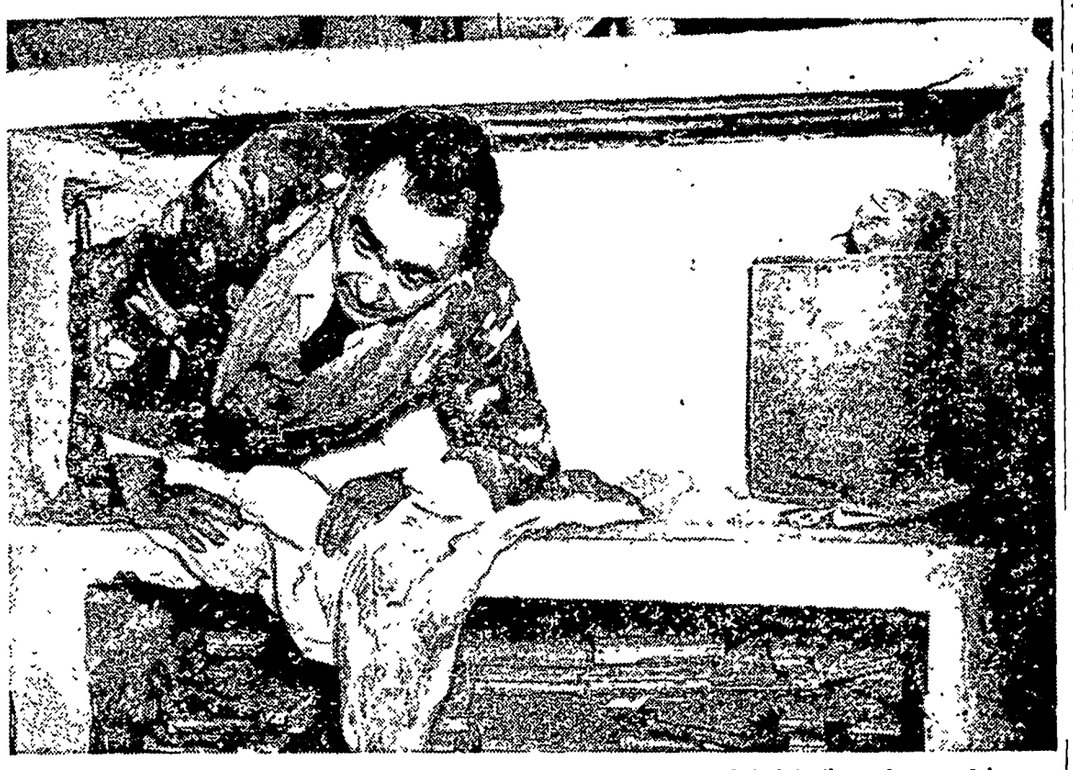
When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS



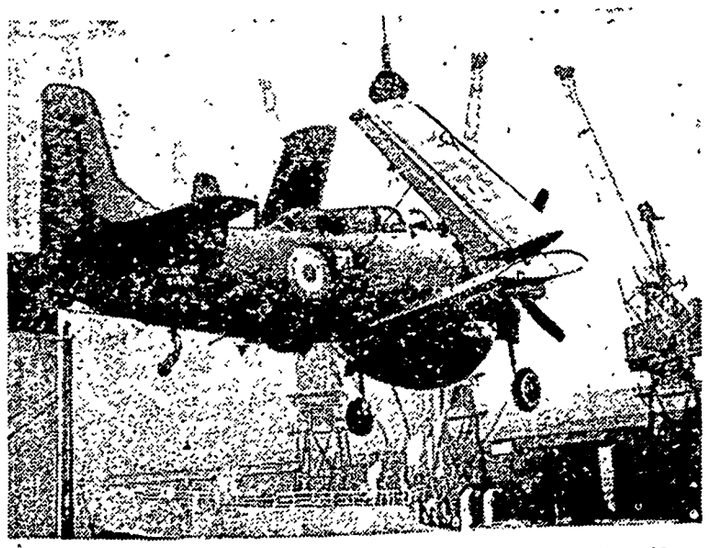
JUNIOR SIZE ATOMIC BLAST . . . These soldier observers are getting an eyefull of the junior-size nuclear blast in the latest atomic test in which the army participated. The atomic energy commission would not say how the blast was set off, whether dropped from a high-flying plane or set off on the ground. But the army expressed satisfaction in the results of the tests, held in Nevada. This explosion is believed to have started a new series of tests in the development of nuclear weapons for warfare. The huge mushroom was just a wind-swept cloud in less than one hour following the blast.



SPY RING SMASHED IN GREECE . . . An investigator comes through a hole into the underground hangout of a Communist spy at Glyfada, Greece. The hideout was discovered by helicopter crewmen of the U.S. eighth fleet who were dispatched over a suspected area. The Red operator of two powerful transmitters was trapped in the vault and refused to emerge. He shot himself as officials finally entered the hideout after lifting a marble slab. Police confiscated considerable amounts of Communist documents which the operator had not burned. Glyfada is a seaside suburb of Athens. The fleet was visiting Greek waters.

POLICE SEIZE HOLDUP SUSPECT . . . Detectives George Daly and Howard Birch question Joseph Grillo in Newark city hospital where he was treated after jumping from a third-story porch at his home. He was wanted for questioning in connection with the shooting of Patrolman James Law during a night of five holdups by an armed bandit pair. Law was slain in the $8,000 robbery of a food market in Newark. Grillo denied any knowledge of the shooting or the holdups for which he was held by officers.

COMMON CENTS . . . Brian Perrow, New York, knows there's a shortage of copper, so he converts his big cache of pennies into paper money at a penny party at his church. Keeping pennies in circulation keeps copper available for defense.



ROYAL NAVY GETS U.S. SKYRAIDERS . . . An American Skyraider, first of a number of such craft being transferred from the United States to the British royal navy under the military aid program, is unloaded from the S.S. American Clipper at Glasgow, Scotland. British naval markings are already on the airplane. The American aircraft were formally handed over to the British by Rear Admiral W. F. Boone, deputy commander in chief, eastern Atlantic, in dock ceremonies.

BOOMS IKE . . . Henry Cabot Lodge, Jr. (R., Mass.), the man who has been chosen to manage the Eisenhower-for-President campaign, speaks before 400 GOP women volunteers in Chicago. He predicts Ike will be a candidate.

CHRISTMAS IS EVERYWHERE

The fact that the many customs practiced at Christmastime stem from various peoples and nations is a sign of the universality of the great holiday.

The custom of the Christmas tree is believed to have originated with the Romans, although Martin Luther receives much credit for popularizing their use. From the tree-worshipping Druids came the using of mistletoe as a sign of good-will and peace. Mistletoe boughs once were used for arrow parts, and thus signified evil. The Druids conceived the idea of raising them high and out of reach, thus converting them to a sign of kindness and peace.

The Yule log came from England, where it was tradition that a tenant could feast at his lord's expense as long as a round of wood would burn. England also added the Wassail bowl, filled with spice and ale. Americans substituted with the egg-nog bowl.

The traditional and beautiful concept of the Crib of the Nativity, featured yearly in churches, homes, and on countless thousands of Christmas cards, came originally from the brush of St. Francis of Assisi in 1223.

There are hundreds of other Christmas customs practiced in countries around the world, either stemming from these, or in some way related. Those mentioned here might have descended from the Yuletide customs of civilizations centuries before man began writing competent histories. For Christmas customs were originated the night the Magi followed the gleaming star in the sky to worship at the crib of the newborn Saviour, and have continued since.

'Los Pastores' Is Traditional Feature Of Mexican Yule

ONE OF THE traditional features of the long Mexican Christmas celebration is "Los Pastores."

Participating actors are trained weeks early for this pageant that portrays the story of the shepherds who followed the star to the stable at Bethlehem and found the Christ Child.

Christmas songs passed down from one generation to another are sung by the actors as they pass through the streets at midnight Christmas Eve. Each carries a long pole on which are fastened stars of transparent paper illuminated from within by candles, and beats time to the singing with shepherds' staves ornamented with jingling bells.

The procession ends at the church, with midnight mass, the singing continuing until dawn, while the devout kneel about in prayer.

On January 6, the day of the Three Kings, Los Pastores sing traditional songs before images of

the Kings. On that day it is the custom for children to stuff their shoes with hay and place them on balconies in anticipation of the coming of the three Kings.

The horses of the Kings are supposed to eat the hay, in return for which the grateful Kings place toys and sweets in the children's shoes.

St. Nicholas So Called By American Tots Only

American children are the only ones who call the patron saint of Christmas St. Nicholas.

St. Nicholas is, of course, a slurring of the Dutch word San Nicholass, but the name has different forms around the world. Father Christmas is indigenous to Britain; Santa Claus to Germany; Kris Kringle to Holland. All, however, are but variants of St. Nick, who was an actual person.

Nicholas was a bishop, one of the youngest in the history of the church, at Lycia, Asia Minor, and he was renowned for his piety and grace. But it was his generosity that really made him remembered. Born of wealthy parents, he was a dispenser of the good things of life and one of the greatest givers of gifts in the history of the world.

Too Much Roasting Can Ruin the Turkey

Many a turkey, perfectly dressed and beautifully stuffed, has been all but ruined in the actual roasting process.

The temperature used in roasting is the most important factor—it is perfectly possible to transform an excellent, tender, high quality bird into a stringy, tough, dry turkey by too high heat in roasting. Modern methods recommend 300 degrees and require no tedious basting.

Bowl Games Approaching Crisis

By GRANTLAND RICE

NEW YORK—An amazing number of letters have come to us both for and against Bowl games.

Those against the Bowls are not all from the Ivy League country, or from the Big Ten or the Far West, where only two teams can be involved. Many come from the South.

The Cotton, Sugar, Orange and Gator Bowls involve a vast sweep of territory, from Texas to Florida.

Grantland Rice

In my opinion the Bowl situation is easily solved Here is the solution—play all the bowl games. But divide most of the money among the teams of the Conference involved

Don't give the winning or Bowl team more than all audited expenses and around $20,000 Or maybe $25,000 profit. Let the Southern or Southeastern or Southwestern Circuit split the rest.

The idea is that no team should make a big profit out of Bowl games through overpaying, overscouting, oversubsidizing football players—a common practice today, where you can be sure the leading teams will be far overpaid.

We can see no harm in the leading Bowls if handled under such conditions. I can slip a tip to the Sugar and Orange Bowls. They are headed for certain trouble if they maintain their present method. The Southern Conference has long been on record, 14 to 1, against Bowl competition.

Vanderbilt is also heading a Southeastern revolt that is gaining considerable support.

We are among many others who would hate to see the Bowls canceled through bad handling, when they might be carried on under smarter direction.

• • •

As Things Are Now

Today the Southern Conference, the Southeastern Conference and the Southwestern Conference are all involved in Bowl bids. Before Georgia Tech's acceptance of the recent invitation to play in the Orange Bowl, January 1, Bobby Dodds, Georgia Tech's smart coach, said that, "Only the 1950 Bowl winners, Tennessee and Kentucky, were solvent in the South. They got over $100,000 for postseason appearances One must get a Bowl bid to break even."

This is true—and it is also a sad thing But if the big financial stake were scattered around the teams of the Conference there would no longer be any mad rush over to go out for a winner, or to arrange Bowl schedules most likely to insure Bowl bids.

No team is going to invest $100,000 or more in order to get expenses and $20,000 or $25,000. But when the surplus from the Bowls is divided among many other teams there can be no complaint about financial concentration on a few.

We have the feeling that those at the head of Bowl organizations and leading teams from various Conferences don't quite appreciate the movement now gaining headway against Bowl play.

There is no denying the fact that Bowl receipts, from $100,000 to $125,000, are at least partly responsible for the mad stampede to build up winning combinations. Cut down the financial killing and you can save the Bowls. We are strongly for the Bowls if properly directed, if removed from the taint of overcommercialism.

Unless certain changes are made at an early date we feel the Bowls will be in a bad way, ruled out by Southern and Southeastern Conferences.

The Big Ten has its only Bowl game conducted under the plan we've suggested. Notre Dame and the Ivy League are not interested. The Bowl bunch might as well get busy.

• • •

Drawing Cards

Michigan and Ohio State should outdraw any other teams this season for two reasons—they both have violent and enthusiastic partisans, and both have tremendous stadiums that can handle 97,000 and 78,000 spectators

Michigan, for example, played to more than 71,000 at Champaign in a driving snowstorm once this year. That's drawing power.

But perhaps the most consistent record of them all belongs to Notre Dame. Year in and year out the Irish pack them in.

"I have been athletic publicity man at Notre Dame for six years," Charlie Callahan told me a day or two ago. "In that time we have played over 50 games Yet I'd say we've had only five games that were not sellouts And these were close to sellouts. This means both at home and on the road. Those five non-sellout games were only a few hundred shy. In the others our sellouts were complete."

Notre Dame, however, seats only 56,000 at South Bend. The Marauding Irish get no shot at Michigan's 97,000 stadium, Ohio State's 78,000 stands, Yale's 70,000 Bowl, or Philadelphia's 104,000 Sesquicentennial.

Purdue, Indiana, Navy, Iowa, etc., won't average over 40,000 capacity.

YOU'LL BE GLAD YOU DID!

You'll be glad you took this piece of advice. This Christmas give the cigarette-smokers on your list cartons of Camels . . . and the pipe-smokers and "roll-your-owners" Prince Albert Smoking Tobacco. You'll be glad for two reasons: first, they're gifts that are sure to please—they're by far the most popular cigarette and smoking tobacco in America. Second, they're gifts that are so easy to give. Camels come in bright and cheery Christmas cartons this time of year, all ready to give. There's a space right on the top where you just fill in your personal greeting. The big one-pound tin of Prince Albert ("The National Joy Smoke") comes in a festive Christmas box and it, too, is all ready for Christmas giving, with a built-in Christmas card. Don't put it off. Go right to your dealer today while he still has plenty of these time-saving, money-saving gifts . . . mild, flavorful Camels, by far America's most popular cigarette . . . and Prince Albert, America's largest-selling smoking tobacco. "The bite's out and the pleasure's in!" —Adv.

Holiday Greetings From The Times Staff

All Christmas Programs Were Very Well Attended

LARGE CROWDS AT ALL THE CHRISTMAS PROGRAMS MONDAY EVENING

Young People Will Present Play New Year's Eve

There was a capacity crowd at each of the Sunday School Christmas programs on Monday evening at the two Klemme churches, Liberty Methodist, and the E. U. B. Church at Goodell.

The weather was cold and it was snowing quite hard, but the roads were all open so that the people could come to the annual programs and enjoy seeing the children do their stuff.

New Year's Eve Play

The Young People's Bible Class of the Klemme Evangelical and Reformed Church will present their annual play on New Year's eve. Their play this year is entitled "Home For Christmas" They invite the public to attend.

Other churches are planning to hold their annual New Year's eve worship service and watch party with a late lunch.

WEDDING DATE ADVANCED

Mr. and Mrs. Verner Nelson, of Klemme, announce the marriage of their daughter, Erdene of Des Moines and Robert G. Halferty, son of Mr. and Mrs. Gilbert Halferty of Ollie.

The wedding date has been advanced from December 29th to December 26th because of changes made in Mr. Halferty's furlough. The ceremony took place today, Wednesday noon, at the Methodist Church.

GREETINGS FROM MISS 1952 . . . The little girl personifies a bright and shining year ahead as she burns the last page of a tattered and torn 1951. Millions throughout the nation are preparing to welcome the New Year with prayers for an enduring peace.

Former Klemme Boy Weds Joice Girl On Parents Ann.

Announcement is made of the marriage of Miss Dariel Jean Howland, daughter of Mr. and Mrs. Eugene Howland of Joice, and Donald Eugene Neuberger of Lackland Air Force Base, San Antonio, Texas, son of Mr. and Mrs Donald Neuberger of Clear Lake, which took place at the Radio Chapel in Mason City on the 22nd anniversary of the wedding of the bridegroom's parents. The Rev Carl Sentman read the double ring service. Baskets of pink gladioli and white 'mums and palms decorated the chapel.

Nuptial music was provided by Marlys Nyhus who also accompanied the vocalist, Faye Peitzman. Her numbers were "I Love You Truly," and "The Wedding Prayer."

The bride was given in marriage by her father. She wore a slipper satin gown trimmed with lace, with a fitted bodice and full skirt extending into a long train. Her fingertip veil of net, edged with lace, was held by a crown of net and lace. Her strand of pearls was a gift from the bridegroom. She carried red roses.

Miss Elaine Neuberger, cousin of the bridegroom, was maid of honor and Mrs. Earl Miller and Mrs. Morris Kluver were bridesmaids. Lois Ann, sister of the bride was flower girl, and Pamela Lemke, cousin of the bridegroom, was ringbearer. Roger Neuberger was his brother's best man Donald Howland, the brother of the bride, Dorance Rosendal, Kenneth Lemke, and Ralph Johnson were ushers.

The bride's mother wore a dark purple suit with black accessories and the bridegroom's mother a navy blue suit with white accessories. Both had corsages of white 'mums. The 4 grandmothers of the couple attended.

After a short wedding trip, the couple will leave for San Antonio, where the bridegroom is stationed.

The bride is a graduate of the Fertile high school and attended Waldorf college and was employed at the Iowa Hardware Mutuals in Mason City. Mr. Neuberger was graduated from Ventura high school and farmed with his father near Clear Lake before going into service

COMMUNITY CANTATA DREW CROWD OF SIX HUNDRED

An estimated crowd of close to six hundred people attended the Christmas Cantata given by the community chorus at the high school auditorium on Sunday evening.

The chorus was composed of some fifty singers from the choirs of the Goodell E. U. B., the Klemme Evangelical and Reformed Church and the Liberty and Klemme Methodist Churches. The large choir was most ably directed by Mrs. Wm. Reinhart.

All of the numbers presented were exceptionally well rendered and the several solos were very well sung. All who took a part are to be commended.

Nearly everyone present expressed their desire that the community chorus should be an annual event.

TWO NAMES LEFT OFF OF CREAMERY CHRISTMAS ADV.

The Times wishes to apologize to Eugene Beier and Cecil Katter, whose names were left out of the Klemme Cooperative Creamery Company Christmas adv last week.

Cecil Katter should be listed on the Board of Directors and Eugene is one of the employees in the plant. Sorry that the names dropped out of the adv while it was being made up for the press.

the Highway Story
IOWA DEPARTMENT OF PUBLIC SAFETY

BY RAY EASTMAN

For the past two weeks there has been an attempt through this column to define the loss a family and community suffered with the accidental death in a traffic accident of one young man - William Garlock Of course, the attempt failed. A few lines are not enough to catch the real meaning of any man or to outline the vacancy left when he is gone.

All the people that knew Bill Garlock hold a part of his loss, greater or smaller, according to their associaton with him. Perhaps, if the impression has been made that he gave as much - or more - to life as he drew from it, that is as much as can be done.

But it is hard to let go of Bill Garlock in the knowedge that he will become, once again, for most people, just another figure in the statistical total of traffic deaths for 1950 the year he was killed.

He was more than that to his wife and children. He was more than that to his own people. More than that to the men and women who often waited on porches or in yards just to exchange the morning's greeting with Bill as he went by on his daily routes.

No, when you think of Bill Garlock that way, and when you think how many like him must be lost now in the statistics of traffic deaths for other years, you begin to fear the mechanics of an age that reduce good people to figures in a year-end report. You wonder how love has grown so small that it can no longer bind two men who happen to be in separate automobiles.

If enough people want it, Bill Garlock won't have to go back into the statistics. In his name, Mrs. Garlock has given her support to the current Drive Right Campaign. She hopes Bill's death and her broken family circle will remind all of us of our responsibilities on the highway.

If we are reminded, then Bill Garlock and all those like him are not forgotten.

Emery Schaefers To Hold Open House Sunday P.M.

ENGAGEMENT ANNOUNCED

Mr. and Mrs Vernon Bisom of Klemme, announce the engagement of their daughter, Shirley, to Merle F. Orthel, son of Mr. and Mrs. William Orthel of Thompson. He is in the armed service in Korea.

BRITT EAGLES WIN DOUBLE HEADER FROM SHAMROCKS

The Britt Eagles won their 6th game of the season by defeating the Klemme Shamrocks 59-40 at Britt Thursday night.

Duane Garman of the Eagles was red-hot as he swished the net for 40 points on 14 field-goals and a dozen free tosses.

Larry Stille led the Shamrock attack with 12 points.

The Britt seconds won over the Little Shamrocks in the opener 32-25.

Christmas Eve Party

Mrs Esther Barz entertained her children and their families at her home Monday evening after the Christmas program at the church. All exchanged gifts and then enjoyed a nice lunch. This is an annual affair at the Esther Barz home

WILL OBSERVE SILVER WEDDING AT E. & R. CHURCH

Former Klemme Couple Will Celebrate Event December 30

Mr. and Mrs. Emery Schaefer, farmers near Forest City, but former residents of the Klemme community, will observe their Silver Wedding Anniversary on Sunday, December 30 by holding open house in the parlors of the Klemme Evangelical & Reformed Church from 2.00 until 5:00 o'clock

They are extending invitations to all their relatives and friends to visit them at the church Sunday afternoon and to enjoy lunch with them.

GOODELL CHOIR TO ENTERTAIN CANTATA CHORUS

Mayor J. J. Cook of Goodell extended an invitation from the E. and U. B. church choir to the members of the Community Chorus to come to the Goodell Church Friday evening at 8:00 o'clock.

A wire recording of the concert given in Klemme will be played after which the Goodell folks will be hosts at a social hour.

Husbands and wives of the members of the community chorus are also invited.

CARL WILLE TO HOLD PUBLIC SALE JANUARY 9th

Carl Wille has made arrangements at the Times office to hold a closing out farm sale on Wednesday, January 9th B. A. Reemstma will cry the sale which will be clerked by the First National Bank The Times is handling all the advertising for Mr. Wille.

Mr. and Mrs. Wille have built a new house in Klemme but will not be finished for another month or more, when they will move to town.

This is a public safety service of your safety-minded businesses and this newspaper in cooperation with the Iowa Safety Congress.

Experience of the past betrays the future and the new year is only a trick of the calendar. Most of us who feel that brief sense of renewal and effortless improvement with the approach of 1952 know, at the time, that nothing will be better unless we, ourselves, work to make it so.

We know that more than 550 men, women and children have died in Iowa traffic accidents this year. That is our experience. It betrays the fact that an equal number will die in 1952 unless each one of us determines now to do something about it

These are the closing days of the year and of the Iowa Safety Congress Drive Right Campaign. It is a time to Drive Right, for death works overtime on holidays. It is a time to Drive Right, for experience tells us how many must die if we, as drivers, fail once more in 1952.

Resolve to Drive Right through 1952. Don't break the family circle.

NEWS OF INTEREST TO OUR READERS FROM NEBR.

Panama, Nebr.,
Dec. 23, 1951.

The Klemme Times,
Klemme, Iowa.
Dear Sir:

I am writing to ask if you will please publish these items in your next issue of The Times as it will interest some of your readers:

"Twin daughters, Denice Janet and Delice Danet were born to Mr. and Mrs. Marion E. Ell of Bennet, Nebraska, on December 2, 1951. They are the first grandchildren of Mr. and Mrs.Earnest Ell of Panama, and the first great grandchildren of Mrs. Mary Ell of Panama and the late Lewis Ell."

"Cpl. Melvin Ell, who is stationed at the Marine Base at Paris Island, S. C., just recently spent a 30 day furlough with his parents and other relatives. He returned to his base Dec. 18th."

"Pfc. LeRoy Ell of the U. S. Army arrived in the northern part of Germany on November 19 to serve a year in the Occupational Forces. The young man is a son of Mr. and Mrs. Earnest Ell, as is also Cpl. Elvin Ell."

"Mrs. Mary Ell has completely recovered from a broken hip which she fractured last Mar. She has gone blind, had a broken arm and both hips broken in the past 8 years, and is now walking with the aid of a chair, and has done so for the past 4 1-2 months. She will celebrate her 76th birthday on Jan. 5."

I thank you for publishing these items, and wishing everyone a Merry Christmas and a Happy New Year.

Weather the past week was bitter cold and we have about six inches of snow. Will have a White Christmas!

Yours,
Miss Josephine Ell.

KLEMME YOUNG MAN IS GRAD OF PALMER SCHOOL

Last week Monday Mr. and Mrs. Ben Ridder drove to Davenport to attend graduation exercises held at the Palmer School of Chiropractic. Their son, Elwyn was a member of the 1951 graduating class and was conferred the degree of Doctor of Chiropractic.

Elwyn is a graduate of the Klemme high school.

Win-A-Prize Winners

THREE GRAND PRIZE WINNERS

Terry Kaduce ..... Boys Monarch Bicycle
Janelle Hanson ..... Girls Schwinn Bicycle
Tim Waddingham ..... G. E. Radio

SIX YEARS AND UNDER PRIZES

Jessie Christie ..... Large Tricycle
Sharon Polsdofer ..... Doll Carriage
Becky Back ..... Panda Bear
Bobby Ahrenkiel ..... Large Wagon

Platoon System Hides Grid Greats

By GRANTLAND RICE

NEW YORK—"The football old-timer has always been a joke," writes one of them somewhat moodily. "When we talk of the days that used to be, they slip us a laugh. But I'd like to ask a question or, rather, make a statement. I think I can prove the past much better than the present. I'll leave it to you.

"When I was around, the football writers were giving us a lot of stuff about Ted Coy, Eddie Mahan, Red Grange, Ed Weir of Nebraska, Bennie Costerbaan, Bennie Friedman, Tom Hamilton, Tack Hardwick, Charlie Brickley, George Gipp, the Four Horseman, and many, many more of the type.

"What do we get today? Recruiting, subsidizing, athletic scholarships, low-grade classroom assignments, phony courses, outright pay, bowl games, spring practice, choked-off television games, dopey college presidents and such other moody matter. We hear a little about Dick Kazmaier, Larry Isbell, Vito Parilli, Hank Lauricella, etc. But not too much about most of the stars.

"I think I can understand why Football's scandal or near-scandal has reached a new high. But, beyond that, who can pick out names or individuals from the forty-four men who race back and forth, twenty-two men on each side? With two teams, I think that makes forty-four.

"The best man on the field may never be seen or selected, since not even the coaches can follow them. This is proved by the trouble coaches have had in making substitutions at the right time with the right man. I have run across at least fifteen such costly mistakes. So I don't believe we can put too much blame on the football writer. If the coach doesn't know his players in a wild mob, why should the writers or public recognize the stars.

"At any rate, I thought I'd put in a word for the good old days that have been laughed at so long We had coaches with humor and striking personalities such as Rockne, Haughton, Warner, Yost, Zuppke, Stagg, McGugin, Alexander, Tad Jones, Roper, Sutherland, Andy Smith, Heisman, these and many more. But don't let anyone start laughing at the good old days compared to what we have today."

* * *

Quite A Difference

This reminds us that we haven't paid our annual tribute to one Amos Alonzo Stagg, who has just finished his 1951 season, at Susquehanna with an unbeaten team as an advisor to his son, a mere stripling who is somewhere in his 60's.

Mr. Stagg, who is having a brave and brilliant race with Connie Mack against time, could also tell you something about the "good old days" which you'll never see again.

It was back in 1891 or so, as I recall it dimly. Chicago was playing Illinois in a big Midwestern party.

Stagg was coaching Chicago. But before the game the referee was taken ill. So, at the request of the Illinois team, Stagg was named in his place. As I heard about it later, Lonnie pleased both teams.

Can you imagine Yale asking for Charlie Caldwell as one of the top officials when playing Princeton or Ohio State demanding Bennie Oosterbaan of Michigan for the Ohio State-Michigan meeting?

There was the time when Princeton and Pennsylvania met, and the total expenses were $60, which included sandwiches and coffee.

Today, you can get only four or five sandwiches, plus cups of coffee, for $60. Expenses today for a big game will run to at least $25,000. For bowl games even more.

In Stagg's day, $250,000 could have run football for four years all over the map.

Today $250,000 isn't enough to pay the full expenses of a single team for one season in more than a few cases. Ask Georgetown's president. Are the games better now with 22 men against 22 men or were they better with 11 men on each side in a fight to the finish? You tell 'em.

* * *

Attack on Football

The recent tidal wave attack on football is easily understood. There hasn't been enough proof offered to wreck the game as so many are trying to do.

But there has been more than enough proof offered to show how much college football needs in the way of cures. I have never thought such minor details as spring practice and bowls were important factors.

Especially if the bowls are controlled so that no college gets more than $20,000 or $25,000. Take away the financial incentive of $100,000 or $125,000 and split the swag among the bowl team's Conference members.

College football should be no financial rat race.

Good Question

"What's that?" asked the old man.

"A liquid that will dissolve anything" was the reply.

Zeb looked thoughtful a moment and then replied, "Well, by crackies, that's a durn good idea. But tell me, when you find it, what are you going to keep it in?"

WHAT? CHRISTMAS IS HERE AGAIN?

No, it's not here this very day, but Christmas is surely coming on, and it'll be here before you know it! Panic? Not a bit of it! For you, like all of us, probably have many cigarette smokers, pipe smokers, and "roll-your-owners" on your Christmas list . . . And, if you have, your worries are over . . . First of all, there are king-size Cavalier Cigarettes for those who want an extremely mild smoke. And Prince Albert Smoking Tobacco for pipes and "makin's" cigarettes. And both are specially gift-packaged for Christmas. The Cavaliers, for instance, have a space ready for your Christmas message right on the brightly colored carton that serves as a greeting card. And the pound-size can of Prince Albert comes in a gay, cheery red and green Christmas box! So you see, there's nothing to get upset about. Just remember two things that will make your Christmas shopping easier and more fun: Cavaliers and Prince Albert. You can get both at your dealer's today . . . Cavaliers, the **extremely** mild cigarette . . . and Prince Albert, America's most popular smoking tobacco! —Adv.

Let Holiday Dinner Reflect Gay Spirit Of Christmas, Too

CHRISTMAS DOESN'T mean just packages under a tree, or gay cards in the mail. A kitchen warm and cozy, fragrant with the smell of baking and the hustle of cooking spells Christmas in its own inimitable way, too.

The culmination of the holiday preparations is the festive dinner, so let it reflect the charm and goodness of Christmas in its planning and serving.

It's easy to use holiday green and red on the table with flowers and fruits. Garnish the meat platter with holly leaves and whole cranberries; make your salad in a star mold. Green vegetables can be studded with stars or bells cut from pimientoes.

***Mulled Tomato Juice**
(Serves 6-8)

- **4½ cups canned tomato juice**
- **⅛ teaspoon cloves**
- **4 teaspoons prepared mustard**
- **¼ teaspoon curry powder**
- **1 teaspoon basil**

Add seasonings to tomato juice; blend well. Heat to boiling, strain and serve hot or cold.

• • •

***Roast Ribs of Beef**

Select a 2- to 3-rib standing rib roast of beef (4 to 5 pounds). Place fat side up in roasting pan on a rack, then season with salt and pepper. Place in a moderately slow (300° to 350°F.) oven. Do not cover and do not add water. Roast to desired degree of doneness, allowing 18 to 20 minutes per pound for a rare roast, 22 to 25 minutes for medium and 27 to 30 minutes per pound for well done roast. If you're using a meat thermometer, for rare it should read 140°F., for medium 160°F., and for well done 170°F. Plan on 2 to 3 servings for each pound.

• • •

***Scalloped Potatoes with Onion**
(Serves 6-8)

- **6 cups sliced, pared potatoes**
- **2 cups sliced onions**
- **¼ cup minced parsley**
- **2½ cups medium white sauce**

Partially cook potato slices in boiling water, for 10 minutes. Drain. Alternate layers of potatoes and onions in greased 2-quart casserole. Add parsley to white sauce; stir to blend. Pour over potatoes and onions. Bake uncovered in moderate (350°F.) oven about 50 minutes, or until vegetables are tender.

• • •

***Cranberry Holiday Mold**
(Serves 8-10)

- **4 cups cranberries**
- **1 cup water**
- **1 cup fruit juice**
- **2 cups sugar**

Combine cranberries, water and fruit juice (pineapple, apple, orange or cider may be used) in saucepan Cook until berries are soft. Put through colander, strainer or food mill. Add sugar to cranberry puree and mix well. Boil rapidly for 10 to 12 minutes, or until a drop jells on a cold plate. Pour into star mold and chill until firm.

• • •

***Spice Puffs**

- **1 package compressed or dry yeast**
- **¼ cup warm water**
- **½ cup milk**
- **¼ cup soft shortening**
- **1 teaspoon salt**
- **½ teaspoon nutmeg**
- **½ teaspoon mace**
- **1 egg**
- **2½ cups sifted flour**

Add yeast to warm water and let stand. Scald milk and place in a large bowl with shortening, sugar, salt, nutmeg and mace. Blend together and cool until lukewarm Stir yeast mixture thoroughly and pour into bowl. Add egg, unbeaten and sifted flour. Beat for one minute, or about 100 strokes. Scrape dough down from sides of the bowl. Cover with a damp cloth and let rise in warm place until doubled, about 1½ to 2 hours. In the meantime, mix together in a small bowl, ½ cup sugar and 1 teaspoon cinnamon. Measure 6 tablespoons butter in a small pan. After dough has risen to double in bulk, beat down in 20 to 30 strokes. Drop by spoonfuls into 12 medium or 16 small greased muffin pans. Let rise 30 minutes in a warm place, or until they reach the top of the muffin pans. Bake 12 to 15 minutes in a moderately hot (400°F.) oven. Melt the butter in saucepan. After removing buns from the pans, let cool for just a moment on a rack.

Dip quickly in melted butter, then roll in cinnamon-sugar mixture.

• • •

Christmas dinner preparations are considerably simplified if the dessert can be prepared in advance.

***Holiday Mousse**
(Serves 6)

- **½ cup drained, crushed pineapple**
- **¼ cup chopped maraschino cherries**
- **1½ tablespoons maraschino cherry juice**
- **2 tablespoons lemon juice**
- **½ cup sugar**
- **⅛ teaspoon salt**
- **1 teaspoon vanilla**
- **2 cups heavy cream, whipped**

Combine pineapple and cherries, then blend in cherry and lemon juice, sugar, salt and vanilla. Fold in whipped cream. Pour into refrigerator tray and freeze until firm.

• • •

***Coconut Snowballs**
(Makes 24 medium)

- **½ cup shortening**
- **1½ cups sugar**
- **2 beaten eggs**
- **1 teaspoon vanilla**
- **2½ cups cake flour**
- **½ teaspoon salt**
- **3 teaspoons baking powder**
- **1 cup milk**

Cream together shortening and sugar; add eggs and vanilla, then beat well. Add sifted dry ingredients alternately with milk. Stir only until blended after each addition. Fill medium-sized muffin pans ⅔ full. Bake in a moderate (350°F.) oven for 20 to 25 minutes. Remove from pan and cool. Frost all over with fluffy frosting, then roll in shredded coconut. Place on small lace doilies for serving. To make Fluffy Frosting: beat 2 egg whites, dash of salt, 1 cup light corn syrup and 1 teaspoon vanilla until fluffy and of spreading consistency.

Roast Beef for the Christmas dinner will come to the table in a high state of perfection if it is roasted in a moderate oven, on a rack, fat side up so that it will baste itself. Neither a cover should be used, nor should water be added during the roasting.

LYNN SAYS:
Use Ingenious Holiday Trimmings

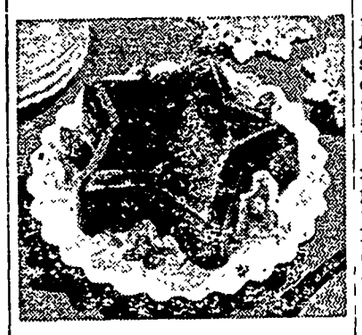
Having grapefruit for a holiday breakfast? Circle the plate with holly and garnish the fruit with whole cranberries. Or, heap a mound of crushed peppermint candy on the fruit, set on green leaves.

A beautiful and easy salad for holiday dinners uses a mound of red cabbage slaw in the center of a platter, bordered with green cabbage slaw on the outside.

Bake a holiday cake in a ring mold, using white or yellow cake batter. Frost this with hard sauce to which has been added finely cut candied fruits.

Sliced tomatoes studded with stars of cream cheese pressed through a pastry tube make a properly colorful garnish for cold meat platters.

Have you a small tree or star cutter? Mold your hard sauce for the pudding in a thin layer and when chilled cut in shapes. Serve around the pudding mold.



Holiday colors, red, green and white are featured in this star-shaped cranberry mold if it is served on a white platter and garnishes with lettuce or parsley and whole cranberries. With meat or fowl, it provides the properly tart texture required for a nicely balanced meal.

CHRISTMAS DINNER

***Mulled Tomato Juice Crackers**
***Roast Ribs of Beef**
***Scalloped Potatoes with Onion**
Slivered Green Beans
***Cranberry Holiday Mold**
***Spice Puffs Assorted Relishes**
***Holiday Mousse**
***Coconut Snowballs**
Beverage Salted Nuts Mints
***Recipes Given**

(First of two columns on the federal budget.)

Behind the Figures

There is an old saying that figures never lie, but that liars may figure. As a result, a man with a sharpened pencil can make the federal budget prove most anything by the complex set of figures contained in that document.

For instance, there was a story released recently without any explanation whatever to the effect that "President Truman has collected more taxes from the American people than all other presidents combined." That statement, as far as it goes, is true, but by the same token President Truman has distributed back into the pockets of the American people more tax money than all other presidents combined

Economists who study the federal budget strictly from a dollar-and-cents basis take into account factors which are not revealed in the figures approved by the congress These factors are the programs which the government operates as trustee through trust funds. They include unemployment insurance, old age and survivors insurance, and veterans life insurance.

As a matter of fact, the Bureau of the Budget estimates that for the fiscal year ending June 30, 1952, payments to the public from the budget, including these trust funds which have been growing for several years, will exceed receipts from the public under present tax laws by 12.8 billion dollars.

Most taxpayers get the impression that the 1952 budget of something like 70 billion dollars, recently approved by this congress, is a green light for government bureaucrats to go out and spend it all in this fiscal year, come what may. The fact is, however, that out of the new money appropriated for 1952 only some 37.1 billions will be spent in this fiscal year. Some 34.5 billions was appropriated prior to this year and 57.3 billions will not be spent until 1953 or later.

• • •

Actual Expenses

The actual expenses of running the government is about $1,351,000,000. However, we see an item of an estimated $1,429,000,000 for "agriculture and agricultural resources." The natural inference is that's a lot of money to run the Department of Agriculture, when actually it does not include administrative expense.

The sum is broken down approximately as follows: Farm price supports and related programs, $504,000,000; agricultural land and water conservation, $357,000,000; rural electrification and rural telephone loans $269,000,000 (which is payed back); farm ownership and operation loans $141,000,000 (also paid back with interest); and research and other agricultural services, $148,000,000. This takes about 1.6 per cent of the total budget.

• • •

General Government

Getting back to the $1,351,000,000 cost of operating the general government, this is broken down approximately as follows: Operation of all the agencies in the executive division, including 29 boards and commissions, nine cabinet offices, 12 departments and agencies, five temporary agencies, and six executive offices, $427,000,000; civilian employees retirement fund, $320,000,000; management of all government property and central services, $205,000,000; legislative and judicial functions, $73,000,000; weather bureau, immigration control, etc., $162,000,000; and dispersal and other functions, $164,000,000.

• • •

Economic Aid

Even the multi-billion appropriation for economic aid to foreign nations of something like $7,000,000,000 finds its way in part back into the pockets of American businessmen, industrialists and farmers, because the fund is largely credit for machinery, food, armament, etc., bought in this country.

And for the sake of the record, although about $2,000,000,000 will be paid out in old age and survivors insurance this year, there is a balance in that fund for more than $16 billion: There is a balance of $2.8 billion in the railroad retirement fund.

The expenses of military services and international obligations eat up 68 per cent of the budget; interest on the national debt, 8 per cent; veterans benefits, 7 per cent, and all other functions, 17 per cent.

Gamblers Quitting

The federal law requiring gamblers to purchase a tax stamp to operate is driving the professionals underground or out of business. According to latest reports only 1,200 have filed for the stamp. At least 17,000 were considered potential customers. One bookie expressed the general attitude of gamblers: "I'm quitting. This racket was tough enough in the first place. Now with the G-men breathing on your neck it's strickly for the birds."

Entire Family Helps With Preparations For the Holiday

Why not make this a real Christmas by having the entire family help in preparing for the great holiday? Follow the suggestions below and you may be amazed at the family solidarity shown around the Yuletide feast table.

First of all, getting the tree This is an assignment that should fall to the younger members of the family. Going to the woods is the American tradition, and there is a special thrill in bringing in a tree of one's choice. City dwellers, however, have to buy their tree, so be sure to let the youngsters be able to say, "We chose the tree."

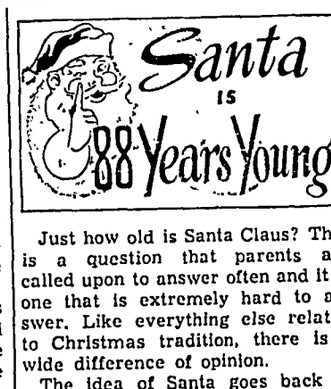
Decorating the home is a project that will offer jobs and fun for all. Arrange a nativity scene, decorate the doorways and windows, and, if there are any sick members of the family, decorate a small tree for the bedside. But, work together.

Then, have a party, complete with games, dancing, caroling, refreshments and the exchanging of presents. The exchange of gifts should be well planned, so that no member of the family is slighted. Drawing names from a hat is an old custom in many large families. Strive also to add some extra entertainment. If a member of the clan can sing well, or dance, a solo performance should be a highlight.

Finally, after the party is well under way, call everything to a halt and give each member of the family a pencil and piece of paper, asking them to write in 25 or less words, "What Christmas Means to Me " You may be surprised at the answers turned in by some Faith and sincerity may be found where you least expect it.

Old toys, adorned with a fresh coating of paint might make a wonderful gift for the very young.

You can make an attractive apron gift that would be appreciated by a young housekeeper from a feed or flour sack.



Just how old is Santa Claus? That is a question that parents are called upon to answer often and it is one that is extremely hard to answer. Like everything else related to Christmas tradition, there is a wide difference of opinion.

The idea of Santa goes back to Europe, hundreds of years ago. Santa came to life from legends that followed the great St. Nicholas, Bishop of Myra. He adopted different forms as suited to the different countries, but was mostly pictured as a thin, austere man with a long white beard.

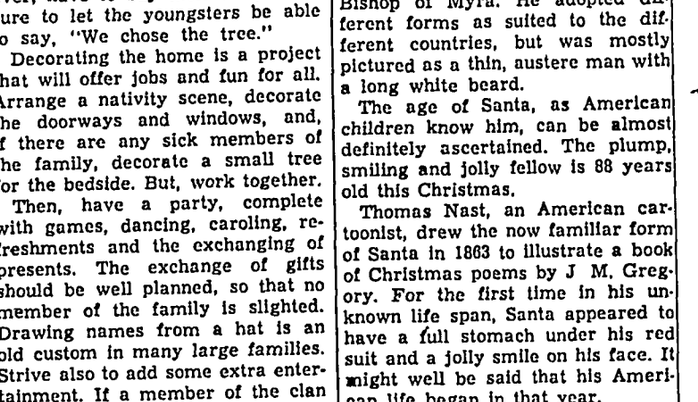
The age of Santa, as American children know him, can be almost definitely ascertained. The plump, smiling and jolly fellow is 88 years old this Christmas.

Thomas Nast, an American cartoonist, drew the now familiar form of Santa in 1863 to illustrate a book of Christmas poems by J M. Gregory. For the first time in his unknown life span, Santa appeared to have a full stomach under his red suit and a jolly smile on his face. It might well be said that his American life began in that year.

Early Puritans Frowned On Christmas Festivities

The early Puritans looked with disfavor upon the celebration of Christmas, preferring instead their own adopted celebration of Thanksgiving.

It was thus that in the year 1659 the general court of Massachusetts made a decree that would have startling effect in America today. It read: "Anybody who is found observing, by abstinence from labor, feasting or any other way such day as Christmas Day for each and every offense shall be fined five shillings."



A CHILD IS BORN
Sing forth the honor of his name

THE OLD AND THE NEW

Visitor Finds Two Worlds in Jerusalem

Palestinian merchants still create a scene reminiscent of the three wise men as they carry their wares along the desert sands bordering the blue Mediterranean near ancient Tel Aviv. Their camels, laden with wares, remind one of the gifts the Magi brought to the scene of the Nativity.

Today, the visitor finds two Jerusalems. One is the modern city with street cars, hotels and automobiles; the other the old walled city with narrow streets passing through many graceful archways and mounting from one level to another by well-worn steps. Donkeys and camels are the only means of transportation, and the section is little changed since the time Christ lived there. Life is much the same.

As The Old Crow Flies

A tourist in the Ozarks called to the old woman sitting on the porch, "How far is it to the nearest town?"

"Pa figgers it's about 10 miles thar and about 12 back," she answered. "Which is on account of him walking straighter goin' than comin'."

FEEL AWFUL?
DUE TO COLD MISERIES
666 gives fast symptomatic RELIEF

Housework Easy Without Nagging Backache

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DOAN'S PILLS

Praises Dry Yeast's Speed

Farmwife is Prize-winning Cook

Fifty-two prizes in 3 years—that's the impressive record set by prize cook Mrs. Joseph J. Rizzo. This Cedar Falls, Iowa, farmwife is the busy mother of three children, including twins Peter and Paula (above). Yet she finds time to enter and win both State and County Fair Contests. Her latest triumph came at the 1950 State Fair where she won eight prizes in three different classifications.

Like so many top cooks, Mrs. Rizzo has *one* favorite yeast—Fleischmann's Active Dry Yeast. "It's so fast—and easy to use," she says. "I depend on this grand dry yeast for prize-winning results."

The holiday meals ahead call for plenty of yeast-raised goodies. They're so festive, so delicious . . . wholesome and nourishing, too! When you bake at home, use yeast. And use the best—Fleischmann's Active Dry Yeast. It's so fast and easy—gives you grand results. Get several packages today.

MRS. HENRY HUENEMANN RITES HELD MONDAY AT PEACE CHURCH

WIFE OF PASTOR DIED AT MASON CITY HOSPITAL THURSDAY, DEC. 20

Funeral services for Mrs. Henry Huenemann, 80, wife of the Reverend Henry Huenemann, pastor of the Peace Reformed Church in Ell township and the Zion Reformed Church in Garner, was held at the Peace Reformed Church at 1:30 p m. Monday, December 24, with the Rev. John DeVries of Allison in charge of the services.

Interment was in the Peace Reformed Church cemetery in charge of the Bohn Funeral home.

Mrs. Huenemann recently underwent major surgery at a Mason City hospital, and died at the hospital Thursday.

Rena Doctor was born in Holland, Michigan, on March 6, 1871, and grew to womanhood in that city, attending the high school there and received her religious instruction in the Christian Reformed Church in Holland. On September 17, 1903, she was married to the Rev Henry Huenemann, who was pastor at Everly, 1903 to 1910, Lennoy, S. Dak., 1910 to 1925, Forreston, Ill., 1925 to 1940; Dell Rapids, S. Dak., 1940 to 1947, and supply pastor at Scotland, S. Dak., and at Garner since

Surviving are her husband, one foster daughter and family and one sister. An infant son and a foster son preceded her in death.

HELLO FOLKS

Mr. and Mrs. Virgil Stille of Liberty township are the parents of a baby girl born Wednesday, December 26, 1951, at the Belmond hospital.

Have you paid your subscription to The Klemme Times?

Mr. and Mrs. Evert Barz and children of Waterloo spent Christmas day with Mrs. Barz' parents at Crystal Lake.

MRS. EVERETT SELLERS RITES HELD AT GOODELL

Funeral services for Mrs. Everett Sellers, 56, were held last week Tuesday afternoon in the Goodell Evangelical and United Brethren church, with the Rev. G M. Talbott in charge. The mixed quartett sang. Another service was held Wednesday afternoon in the Trinity Lutheran church at Russell with burial in the cemetery there.

Cora May Sims, daughter of Mr. and Mrs. A. R. Sims was born April 5, 1895 at Russell. She was baptized at the Trinity Evangelical church there and served as Sunday school teacher and organist.

She was married to Everett Sellers on August 22, 1917, and to this union 7 children were born.

In the spring of 1930 the Sellers family moved to Goodell which has since been their home, having lived on the Cashman farm one mile north and now on the Carleton Beh farm 3 miles northwest of town.

Mrs. Sellers had been in failing health the past two years and died last week Sunday in her home.

Survivors are her husband, her children: Lt. Virgil Sellers of Vance Air Force Base, Enid, Oklahoma; Donald who farms at Thornton; Sgt. Burdette Sellers of Triest, Italy, who was home for a month this summer; Cpl. Robert Sellers of Camp Gordon, Ga.; Mrs. Bernard Nolte (Mary) of Goodell; and Carl at home. A son Herbert who was born in 1923, died in 1924. She also leaves 5 grandchildren, her aged mother, Mrs. A. R. Sims of Russell, and one sister, Mrs. Claude Husted of Clarion.

AROUND IOWA

FIRST SCHOOL

Vivacious little eight year old Sandra Burkhead, of Maquoketa, attended school for the first time recently. Unable to walk, she has spent most of her life in hospitals and wheel chairs. She is starting out in the first grade at Maquoketa.

MOTHER AND DAUGHTER

A not-too-usual combination is operating a 200 acre farm in Poweshiek county. Mrs. Elizabeth Schlesselman and daughter Glorene have been operating the farm since Mr. Schlesselman's health failed. They do a good job of it.

DIAL

Rock Valley residents are now using dial telephone there for the first time. The switch-over from the old system was completed recently.

TREE

Geo. Frimmel, Jr., of Marengo, was helping chop down a tree one day recently. He failed to get out of the way in time and received a broken thigh when the tree fell on him.

VISIT ENDS

A Nebraska lady, Mrs. Gustave Zoref, was widely publicized in Iowa two months ago when she survived a car-truck accident near Winterset that literally ripped the Zoref auto to shreds Those who recall that story might be interested to know that Mrs. Zoref left the hospital at Winterset last week.

COON

A stray raccoon caused a minor furore in Lamoni recently, when it was found on the roof of the Frank Shipman residence there. Barking dogs surrounded the house and eventually, the 'coon jumped off. It was a featured dish at the Legion's "wild game feed" a few evenings later.

TRAVELER

When Jim Hicks visited the home of his grandmother, Mrs. E. G. Hicks of Monticello recently, he had completed 36,000 miles of traveling within the past year and a half. The mileage was accumulated in the United States and Europe, where he has been studying for a Ph. D.

HURT

Fred Denley of Osceola hooked up a new gas range in a residence there, then stepped outside to get some tools. When he returned, he lit a match near the open oven door and receved a burned hand and face. During his brief absence, a small child had turned on the gas oven.

LOCKED

Red Oak residents were a little startled to see a man receiving his food through the barred windows of an automobile there recently. He turned out to be a 22-year old cowboy, Roy Ray, who is trying to establish a record of two years of living in a locked car.

FATALITY

The corn picker, which frequently maims, claimed a fatality near Defiance in late November. Mike Nollen, 54, died in the hospital at Manning as a result of injuries received the previous day. Mr. Nollen did not come home for supper on the day of his injury and a searching party found him still alive, tangled in the machinery.

NEW YEAR AROUND THE WORLD

Long before history was recorded the Persians discovered sugar cane and made sweetmeats an important part of their New Year celebration. These pagan Persians also made human sacrifices on the eve of the New Year in the belief that their barren fields would be fertilized by the gods.

In ancient China it was a custom to make visits shortly after the New Year had begun. Hilarity reigned supreme in old India and Babylon, where celebration of the first day of a New Year was a very wild affair

The superstitious people believed that during their frolicsome celebrations the pagan gods were asleep, else conveniently away from home.

The Japanese always used holly for decorations at New Year's. It is an old belief that "the prick of the thorns on the leaves would scare away devils" The emperor's first bath, Hatsumizy, taken early New Year morning, was called a "religious rite of cleansing and purification performed by the ruler to bring peace and prosperity to Japan and his people."

Smart children in Belgium gather keys to every room in the house on New Year's eve, and then lock the elders in their rooms on New Year's morning, refusing to release them until promised a portion of sweets.

YOU'RE ALL DONE, DAD . . . The old man, having served his time and done his duty during 1951, is ready for rest and retirement. Young 1952, however, eager and ready for the fray, is reaching out to take the cake—or is it pie? Happy New Year, anyway.

New Year Banquet Shows Variations All Around World

Feasting has always been an important part of the celebration of New Year's and menus differ around the world.

The New Year's Day banquet in England and Western Europe is similiar to our American feast, chief difference being in the choice of side dishes. Turkey, duck or goose makes the popular roast in England, with plum pudding topping off the meal

Turkey is again found in France, although capon and pheasant are as popular. The holiday fowls of the Latin countries are bedecked with truffles, chestnuts and olives and one might find snails on a menu in France.

An important dish among the Spaniards is sopa, rice cooked with olive oil, tomatoes, vegetables and meat particles. Africans partake of cous-cous, which is composed of wheat grains, lamb and vegetables

Pickled greens, raw fish, roast bird and shrimp fritters are head liners among the Japanese, with pickled chrysanthemum petals considered a delicacy. The Swedes temper their feast with a special drink called glogg, which is a claret wine sweetened with sugar and flavored with almonds, raisins, dried orange peel, cinnamon, cloves and cardamon. It is usually set afire before serving.

Old Romans Offered Gifts to God Janus

The word January comes from the Latin word "Janus" Janus was a god to whom the Romans offered sacrifices at the start of a new year to insure prosperity and good health for the days ahead. Strenia, goddess of strength, was also honored on the first day.

As early as 747 B.C., the Romans gathered gifts of bay and palm for New Year presents As the years passed and Rome prospered, the gifts became more elaborate yearly, and, in time, it became the custom to bestow them upon the emperor, a habit that contributed greatly to the wealth of the Caesars. Claudius, recognizing the fact that the giving had graduated through the years from a voluntary tribute to a regarded duty, issued a decree limiting the amount which might be given

Rome continued to celebrate the New Year under the Christian emperors The idolatrous rites of the people, however, caused the church to ban Christians from participating in the celebrations, and it was not until December 25 was legally fixed as the date of the Nativity that the church made January 1 a religious festival, in commemoration of the circumcision of Jesus.

Our Calendar, Relatively New, Unified Time

The Gregorian calendar has been in popular usage only since the late 18th century, and was the first calendar to bring about such a world unity on the time front.

Yet, it has not satisfied everyone In fact, someone is always trying to introduce a new one.

One of these, concocted by a schoolboy about the time of the first World War, was considered seriously for many years. It was even brought to the attention of congress in 1945 and the countries of China and Great Britain showed interest.

Entitled the Edwards Perpetual Calendar, the plan offers striking revisions from the present Gregorian. To start, New Year's Day is not attached to any month of the year, but precedes Monday, January 1. Monday, incidentally, always starts the week, with Saturday and Sunday at the end of the week, where, it would seem, a week-end belongs.

There are 91 days in each quarter, with 30 days in each of the first two months of a quarter; 31 in the third, sixth, ninth and twelfth months of the year. Christmas, birthdays and all other holidays would always fall on the same day each year, and, a feature appealing to the superstitious, there would never again be a Friday, the 13th.

And, lest we forget, something for the gals, leap year day would be a distinct 24-hour period between June and July—one more chance.

The calendar was worked out by Willard E Edwards A lieutenant in the navy during World War II, Edwards presented his calendar to the delegates to the San Francisco conference in 1945, where it met with much approval He was soon swamped with letters from all parts of the world acclaiming the proposed calendar Time, however, passes on and the pages of the Gregorian calendar still replace themselves, year after year.

Chatham Islanders Are First in World To See New Year In

Shepherds watching their flocks on the Chatham islands, New Zealand, will welcome the New Year while milkmen in America are making their rounds on the last day of the old year

When the bells of the little church on one of the islands, a British colony of about 200 persons, rings at midnight to welcome a new year It is high noon according to Big Ben of London and is but 7 a m in sleepy New York

Chatham islands always celebrate the New Year first because they are located nearest to the starting point of time—the admiralty s date line. It is made to curve east and west of the 180th meridian in such a way that it lies always in the ocean The islands are just east of the line

The incoming year leaves the islands and races westward along the equator at a speed of 1,000 miles per hour Chatham islanders will be preparing to sit down for their New Year's dinner when howling mobs are warming up to greet 1952 on Times Square.

Chinese Thought Debts Had to Be Paid Up By End of Old Year

The Chinese long held a New Year's tradition worthy of note No doubt made popular by early money lenders, there was an old belief that if one did not pay all debts before midnight on New Year's Day he lost "face."

For centuries China celebrated New Year's during the time of the first moon, usually about the first of the February—but this was before adoption of the Gregorian calendar in 1912.

In earlier times, celebration began a week prior to the Eve, when homage was paid to the Kitchen God and climaxed on the "fifteenth day of the First Moon" by the Feast of Lanterns, or "Teng Chieh." It was a custom to exchange greeting cards and presents through the entire

To French Canadians 'Jour de L'An' Is A Great Occasion

The exchanging of gifts and general family reunions are important to the French-Canadian celebration of "Jour de L'An"—New Year's Day.

The conclusion of Christmas day is the signal for a frenzied period of cooking and baking and making ready for an overflow of relatives and visitors that marks the celebration of the first day of the year In most Canadian cities, midnight Mass is celebrated just as it is at Christmas time.

The "Patriarch," or father, is an important man on New Year's Day As each member of a French-Canadian family arises on the first day of each new year, he speaks not a word to anyone until he has been to the father of the house to ask for his blessing. Individually, all members of the house come on bended knee to ask, "Father, give me your blessing," and the father extends a hand and says, "May God bless you, my child; I bless you with all my heart."

Just as at Christmas, everyone in the family goes to church, after which the family reunion gets underway. Married sons and daughters begin to arrive, and they, too, go first to the head of the house for his blessing.

The dinner for the day is almost a feast. The menu usually consists of soup, turkey, meat balls, tarts, rolls, creams, nuts and fruits

After-dinner hours are spent in conversation among the older family members, while the children play.

Sometime during the first month of the year, all the married members of the family take a turn at inviting the family over for a "fricot," or get-together, the idea being that it will start a custom which will continue the course of the year.

January 1 Date Fairly Modern

The custom of welcoming in the New Year on January 1 is a relatively modern one Down through history the holiday was a movable one, many people and nations celebrating at different times of the year.

The vernal equinox, March 22, was celebrated as the start of the new year by the Jews The Greeks celebrated on December 21, the time of the winter solstice The autumnal equinox, September 22, marked the beginning of a new year for ancient Egypt.

It was not until the coming of the Gregorian calendar, instituted by Pope Gregory in 1582, that the groundwork was laid for a universal celebration. The continent of Europe, having celebrated New Year's on March 25 since medieval times, was the first to adopt the calendar popularly.

Yet it was not a complete adoption. Great Britain provided the weight that finally tipped the scales in favor of Gregory's calendar in 1752, when the British parliament officially established New Year's day as January 1.

Bible Foretold Future On New Year for Scots

The early Scots believed that it was possiole to foretell the events of a coming year by turning to the Bible on New Year's Day.

It was long a custom to place the sacred book upon a table and open it at random, placing one finger on the printed page. The entire chapter then was read carefully, with the belief that the message it carried described in some way the happiness or misery in store for the person adhering to the practice.

New Year's Day Passes on All Old Superstitions

Through centuries of celebrations, New Year's Day has managed to pass on to each succeeding generation the superstitions that people of olden times held about the first day of the year.

Residents of England once believed it to be an ill omen if one shared a lighted match with another on New Year's morning. English maidens, and Scotch ones, as

well, made a custom of rushing to the well at the stroke of midnight. The first to taste of the water would have the best luck during the ensuing year.

Residents of the Isle of Man held that a dark complexioned person brought good fortune with him if he were the first to enter a house after the new year had begun. A light-haired visitor was believed a bearer of misfortune.

In early America, New Englanders considered it inviting bad luck to go outside the house on New Year's Day until someone had entered.

Southerners believe that it invites prosperity when black-eyed peas are included on the New Year's Day menu.

Truly speaking, the first day of the year has no more significance as a holiday than that which is given to it by the imagination of mankind It is important only because it marks a turning point—a spot on the calendar where civilization may say, "That period is done for, tomorrow we start anew."

If the passing year has been an unpleasant one, a time of war, plagues or poverty, the New Year becomes all the more important because it lies in a future that may offer blessed relief.

New Year's Day is a day of tomorrow and, for mankind, there are no unpleasant tomorrows.

To the poor, tomorrow offers security; for the sick there is a promise of health; the imprisoned may scale the walls of freedom; the smallest eaglet may learn to fly.

Thus, in essence, New Year's Day becomes one of the most important days in the year—the day of a new start. It is once more the moment that optimism becomes the asset of every human heart.

Days that have been passed with hours at once depart the world for the sketchy pages of history, and all men know that the world was—and shall be—according to the inhabitants. Mankind starts afresh, brimming with new hopes, ambitions and dreams, holding but one reservation:

If the new year fails to live up to expectation, there will be no regrets or contempt. It leads eternally to another year and another chance.

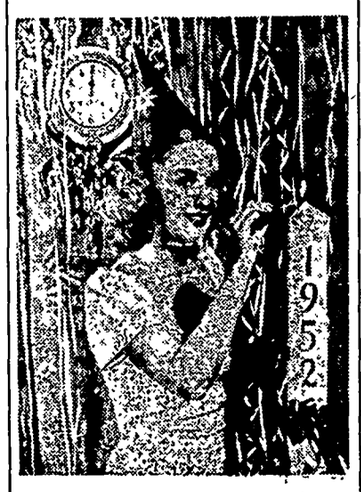
Happy Time in Japan Is First Day of Year

One of the happiest days on the Japanese calendar is the first day of the year. No matter how poor a man may be, he always manages to have a set of new clothes to wear when he visits all his friends on New Year's Day.

Celebrations in the land of the rising sun sometimes last as long as two weeks. Even the poorest of the land refrain from work for at least three or four days in order to celebrate.

At midnight on New Year's Eve the bells ring out loud and clear and a carnival atmosphere dominates the country.

YOUTH WILL BE SERVED . . . And this one apparently is calling for service right away, which, after all, is in keeping with the spirit of the season. In other words, do right by the New Year and it will do right by you.



LIGHTING UP . . . This young lady isn't trying to burn the candle at both ends—she just wants to get the New Year off to a good start. May it start, and finish, the same way for you.

KLEMME LOCAL NEWS

Dinner guests Christmas Day at the Wallace Pavey home were Mr. and Mrs. John Clements and sons.

Miss Evelyn Arnold of Humboldt and Bruce Arnold of Burlington, Ia. are spending the holidays at the E. J. Arnold home.

The Misses Mary and Sylvia Egeland, students at Northwestern University at Evanston, Ill., came home for the holiday vacation.

BLOOD FOR FREEDOM

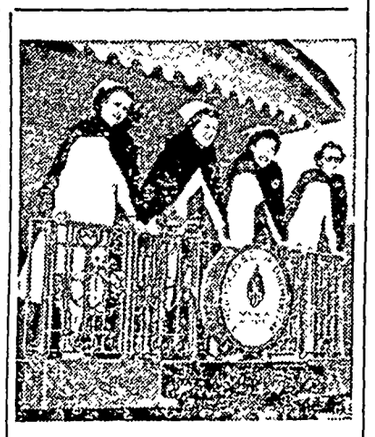
Four Nurses Plan 10,000 Mile, Ten State Tour for Red Cross

Four young women are out for blood, and they are going after it in a big way.

First of all, Union Pacific Railroad remodeled a business car, attached a baggage car to carry supplies, and promised to transport them anywhere they wished to go on the 10,000 miles of its tracks to complete their search.

Next the American Red Cross furnished them with supplies and offered to have their local chapters recruit enough patriotic American volunteers to part with a pint of the vital fluid.

So they are ready to hit the road, railroad that is, on a tour that will take them through the eleven western states served by Union Pacific beginning in December.



Wherever blood centers are not operating they will accept donors to supplement the national blood program.

Ambitious women, these Red Cross nurses, they are aiming at 2000 pints each month, and will work on "Blood For Freedom," the name of their mobile blood collection unit, until they make it. They must, they say with typical feminine determination, because every drop is going direct to the armed forces.

Heading the group of four nurses that staff the car is Kathryn McDonough, formerly of Waterloo, Iowa. She did private duty after training at St. Joseph's Hospital in Omaha and then served as an industrial nurse before joining the blood program in September, 1949.

Ramona Walla is another member of the crew. She lived at Linwood, Neb. originally and received her nurses training at St. Joseph's Hospital in Omaha. Before joining the blood program in December, 1949, Ramona did private duty nursing

Eileen Roth, who came from Elkhorn, Neb., before moving to Omaha, is the third member of the staff. She is another alumna of St. Joseph's in Omaha and was on private duty before joining the blood program in January, 1950.

Monica DeWulf of Cedar Rapids, Neb., has been with the Red Cross blood program since September, 1950. She was also a private nurse after her graduation from St. Elizabeth's Hospital Nursing School at Lincoln, Neb.

• • •

COLLECTIVELY, these four white-clad nurses have worked on more than 300 mobile trips made by the Omaha regional mobile unit, operating in Eastern Nebraska, so they have plenty of experience.

"Blood donors soon realize just how simple it is to donate their blood," says Miss McDonough.

"Men almost always joke about the possible high alcoholic content of their blood."

"Take a gallon, I've got a lot," is the comment Miss Walla hears from male stalwarts, and knowing the pressing need for blood on the battlefield, she certainly wishes she could.

Wherever they operate, the nurses will be under direction of a local physician, on their feet all day doing a tough job because they realize its importance.

Miss DeWulf summed it up neatly when she pointed out that, "Giving your life for your country is the supreme sacrifice, but saving a life is certainly as important. Any qualified citizen can do just that, once every three months, actually, by donating blood for our armed forces."

Star Dust
STAGE • SCREEN • RADIO

By INEZ GERHARD

STEVE COCHRAN'S dog, Tschaikowsky, now has a collar which his master says will put the rhinestone one belonging to Joan Crawford's Cliquot to shame. It's set with elks' teeth; Steve had it made by a soldier stationed at Fort Knox, Ky., where he spent several weeks filming "The Tanks Are Coming" for Warners'. Tschaikowsky appears in that one; his screen credits also include "Inside the Walls of Folsom Prison" and "Ton orrow Is Another Day"; as an actor, he rates really fancy accessories.

The play in which Ginger Rogers returned to Broadway, "Love and Let Love", closed after a month's run. But simultaneously with its closing came the announcement by Columbia Broadcasting that she had been signed for exclusive appearances on television, on a contract running more than five years. For a salary of more than one million

GINGER ROGERS

dollars, she will be the star and mistress of ceremonies of a half-hour weekly show, starting after April 1. She will sing, dance and act in adaptations of her numerous screen shows.

While on her four week's leave of absence from "Stop the Music" Kay Armen conferred with MGM's Joe Pasternak about doing a film musical in Hollywood. She also filled a three weeks' singing engagement at Las Vegas' Thunderbird Hotel.

THE FICTION CORNER

NEW LIFE

By Richard Hill Wilkinson

3-Minute Fiction

THERE WASN'T any particular reason why young Phil Davis and his wife should dislike Templer. Yet this was the case. For one thing neither of them were used to the habits and customs of small town people They were city bred, and hence misunderstood the kindly interest of their neighbors. Prying curiosity, they termed it.

"That Mrs. Bixby was over again this morning," Dot Davis said to her husband one night two months after they had become nicely settled. "She wanted to know where I had my washing done. Said she'd been curious ever since she discovered I didn't do it myself."

"Prying old buzzard," Phil muttered. "It's a blasted shame we have to put up with it. Tom Wheeler, who runs the local newspaper, was telling me today that Templer was no different from any small town. They're all the same, he said. God pity the people who have to live in them," he added bitterly.

"I'm sick of it," Dot wailed. "Sick of seeing and meeting no one but gossiping old hypocrites, sick of the familiarity these people assume, once they find you're here to stay."

"But we're not here to stay," Phil cried with sudden enthusiasm. "You remember I told you how I'd been working on the head office? Trying to persuade them to transfer me to Suffolk? Well, I think it's going through. We'll not have to put up with this drab, dull existence much longer, honey."

"I hope not," Dot cried fervently. "I can't stand it a great deal longer."

"I'm sick of it," Dot wailed. "Sick of seeing and meeting no one but old hypocrites."

Two weeks later the long-hoped-for day arrived. Phil received notice of his transfer to the Suffolk office. Joyously the two young people packed up their belongings and said goodbye to Templer. They took an apartment in the suburb of Ashfield and set about the task of getting acquainted.

This wasn't particularly difficult. Mrs. Hooper, who was rather a plain looking person and who occupied an apartment on the same floor with the Davises, seemed eager to help the young folks get settled. She came in every day and made suggestions which Dot found helpful.

Phil came home one evening to announce that he had joined a club, and would be out one night a week.

"It's just as well," said Dot agreeably. "Mrs. Hooper has asked me to join the Neighborhood Bridge Union, so I'll be out, too."

THEY learned things from Mrs. Hooper and other inhabitants of the apartment about other people in other apartment houses close by. For example, the Ricks were considered "fast." The Browns weren't all they appeared to be.

Bit by bit Phil and Dot adapted themselves to their new life. They learned with whom to associate, and whom to ignore. Gradually they settled into the usual routine.

A month after they had left Templer and its drab dullness behind, Phil arrived home one evening with a curious expression on his face. Dorothy noticed the change.

"Oh, nothing much," he replied to her question. "Bob Talbert was saying today that Ashfield was like a hundred other suburban towns. Same monotonous routine and dullness The only break they get is when someone new arrives."

"That's odd," Dot said slowly. "Mrs. Hooper was in today. She wanted to know where I had my washing done. She'd noticed, she said, that I didn't do it myself."

Phil and Dot stared at each other for a moment in alarmed silence. Then suddenly, of one accord, they burst into laughter.

"Dot," he said, "I wonder if it's the place we live in or if it's just us. We wanted to be near a large city, and now that we're here we've found conditions pretty much the same as elsewhere."

Dot nodded soberly. "I guess, Phil, dear, it isn't the place that makes one's life drab and dull, it's the people who live in those places, it's the way you treat them and they treat you. I guess human nature is pretty much the same everywhere. It's up to the individual whether or not he or she is happy."

Phil held his wife close.

THE BIBLE SPEAKS

SCRIPTURE: Joshua 23—24.
DEVOTIONAL READING: Joshua 24:14—18.

The People's Choice

Lesson for December 30, 1951

WITH New Year's Day right around the corner we should take stock of ourselves. What is to become of us as a nation? Can we survive in this atomic age? Is our future curve upward or down?

Dr. Foreman

The answer to such questions lies in the answer to another one: What will the people choose? The most important fact about any people, at any crisis in their life, is not what they have, not what they have done or accomplished or enjoyed, not what they have at the present moment in power or in possessions. It is not their reputation, their income, their history. It is simply their choices, their decisions. However grand a nation's past may be, however good their present may be, wrong decisions can destroy everything. What will the people choose?

• • •

Democracy Means Free Choice

THERE are some interesting parallels between the United States, or Canada, today, and Israel of more than three millenniums ago.

It was a little nation, so new it could scarcely be called a nation, so small it could be lost in one of our big cities. But when it was beginning its time in Palestine, it was much nearer a true democracy than it was in the more famous and glamorous times of David and Solomon.

There was at first no hereditary monarchy, the people had no precedents to go by, they had to pick their way through an uncertain world, much as we do only on a smaller scale.

In Joshua's time there had been a military government; first Moses and then Joshua had done most of the thinking for the people. But when he grew old, Joshua knew that in the future the people would have to think for themselves. When the people do think, it is democracy; when they think only what they are told to think, it is a police state. Now Joshua knew that the main choice before the people was basically religious. As he put it: Whom will you serve?

• • •

A High Way and a Low

THE choice was not merely between good and bad theology. If you choose a God you choose his way of life. The way of the true God was the high way, other ways were low. The Israelites' God was the God of the Law, the God of pure strong living. The gods of the Canaanites were pictured as golden calves, brass he-goats.

There is a world of difference between a man, or a nation, whose highest thoughts cannot rise above the level of the animals they worship, and a man or nation whose highest thoughts are expressed in the holiness, justice and mercy of the God of Abraham, Isaac and Jacob.

If any one has a sneaking feeling that all religions are really much the same, let him remember what happened in Palestine. The peoples who chose the animal-gods simply rotted away, leaving few traces in the dust of history. The nation that (not everybody, not all the time, but on the whole) chose the true and living God has made an impression on history such as no nation so small has ever made.

• • •

Idols of Today

THE Living God still challenges us, a free people. The words of Joshua might still be spoken in this 20th century: Choose this day whom you will serve. Millions make the wrong choice. Some worship the idol called success - at - any - price; some fall down and worship Mammon; others worship popular opinion; others will do anything for what is in a liquor bottle; others give their all for the goddess of sex, others for the "great god luck."

The dismissal of ninety cadets from West Point for cheating (who set them the example?), the revelations of the Kefauver Crime Committee, the strangle-hold gamblers have on national affairs, the crowded divorce courts and race tracks, the ravages of liquor and drugs even on young boys and girls, the general foggy confusion about what is right and what is wrong, the prevalence of the bare-faced lie in public life—all must cause a thoughtful person to ask: What kind of choices is our country making?

Can we be called a God-fearing nation or do we also still worship idols?

(Copyright 1951 by the Division of Christian Education, National Council of the Churches of Christ of the United States of America. Released by WNU Features.)

KATHLEEN NORRIS
Thoughtful Noel

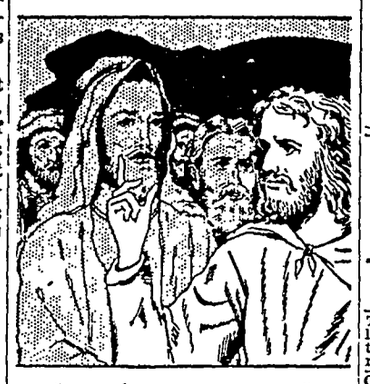
LET'S NOT HAVE a merry Christmas this year. Let's have instead a thoughtful and prayerful Christmas. Let's put Christmas first, this Christmas, and put the rush and confusion, the buying and wrapping and planning, the cooking and entertaining in second place.

Christmas, in our modern, scientific royally luxurious world, marks the birthday of a peasant; a man who never had an influential friend, or money, or power, a man who preached some simple things that yet were far too complicated for other men's understanding and who died the death of a common criminal.

MARCH OF DIMES
FIGHT INFANTILE PARALYSIS
JANUARY 2-31

This man never wrote a word, and it was only years after his death that his friends, who were mostly poor fisher folk, dared speak up, and remember what he had done and said. And yet that obscure and apparently unimportant testimony has come thundering down through the two thousand years that have passed ince then. Kingdoms have fallen, continents have been opened, books by the million have been written, whole new nations have been born. And the word goes on, and the life of that man remains the most important life that ever was lived.

Up and down the west coast of Europe this word spread, and miracles went with it. The great cities, the universities, the cathedrals and libraries and hospitals were all



"... unknown carpenter ..."

there—they were nowhere else. That part of the world called "Christendom," and those people who called their civilization "Christianity" built tha new world, and they named it for their leader.

Never before had anyone said "forgive your enemies, do good to them that hate you." Never before had anyone said "Overcome not evil with evil, but overcome evil with good." Never before had anyone dared to call the Deity "Father." The new world was built on love; love fulfilled the law. "By this," said the unknown carpenter of Nazareth, "shall men know that ye are my disciples, that ye love one another."

And did all the Christians' love their enemies, and do good to them that hated them? We know they did not—not always. They very soon came to the old human conclusion; that to all but destroy your enemies first and love them afterward was the proper interpretation of that law.

But just as often as they did forgive, in scattered cases and in humble ways, the miracle followed. It was the attacking enemy who was mysteriously halted. It was the stronger foe who was vanquished by fearless love, by patient suffrance and understanding, by faith in the leader who never had failed.

True, under that law a few meaningless words on paper might have been conceded, a few boundaries might have been infringed, a few lives might have been lost. But wherever men have had the outstanding courage to cling to forgiveness and love they have conquered.

And they would so conquer today, if they held to the law. Many do, of course, in their private lives. Many pulpits preach forgiveness, even against the horror of hate and retaliation heaped upon hate and retaliation. But most of the great branches of civilization that were built and that flourished and that knew no fear, in the name of Christ, are cowering in fear today—fear, not of enemies, for the word shifts about casually, and today's enemies are not those of yesterday, nor those of tomorrow. No. Fear of themselves, because they live as breakers of the law.

What can we do about it, at this Christmastime? Only go back to the way the mighty seeds of Christendom were sowed so long ago. Only by prayer, all day long, and the weapon of love.

If you use this weapon you will need no other. You will find yourself using it with the children's schoolteacher, with the trying mother-in-law, with every human being with whom you come in contact. You will find yourself stronger and stronger in that little nucleus of confidence and love that you have built about you, and you will begin to see that all down through the ages that has been the solution that could have cured sick humanity of all its despairs, that could have prevented the hideous long story of wars from ever beginning.

Baby Set

5205

THE perfect set for a new arrival—bonnet, sacque and bootees crocheted in an all-over lacy pineapple pattern stitch. Easy as can be to make—even for the beginner with the crochet hook.

Pattern No 5205 contains complete crocheting instructions, material requirements, stitch illustrations and finishing directions.

It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE —NOT GOOD FOOD

• Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon . . . right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or only 10¢.

FEEN-A-MINT

G. O. P. More Interested in Goats Than Integrity

By Wright A. Patterson

THOSE REPUBLICANS who are looked to as directors of the 1952 battle of the ballots have decreed that the issue on which the big-gun oratory will be charged will be that of "legal and moral honesty and integrity in the operations of the government."

It is a noble issue, but it is not one that will attract or change votes in the quantities that are needed. There is but little personal interest in the fact that a white house stenographer received as a present a mink coat, or that a presidential clerk was given free hotel accommodations in Florida, or that deep freeze units where handed out to several favored individuals by General Vaughn, or that others had free cameras, free vacation trips.

There is a greater number of Americans, who by the practice of industry and thrift, have accumulated two or more goats, than there are those who have only one or less, and those with two or more object to following the socialistic preachment of dividing with those who have less.

MARCH OF DIMES
FIGHT INFANTILE PARALYSIS
JANUARY 2-31

Self-preservation is the first law of nature, and those with two or more goats are not favorable to the socialistic trend of the nation and the present administration. Attacking that trend toward the left, the threat of socialism, will change far more votes than will legal and moral honesty and integrity in government, because it has a personal application, the promise to retain the old and tried and proven American profit system.

Then, too, government spending, the thing that calls for more taxes, which all must pay, can be a big vote getter, especially with the government running into the red with each passing month and government debts increasing at an alarming rate. Such things are of greater moment to the general run of American voters than is who gets a fur coat and other presents, or who goes to prison for embezzlement of government funds.

But orating about the need for legal and moral honesty and integrity in government can be a powerful appeal for turning the rascals out, especially for those who believe in such honesty and integrity. With such an inspiring subject, the big guns of the party should be able to create havoc in the ranks of the opposition, and keep the president on the defensive until the last gun is fired and the last vote is cast. But the Republican leaders must remember that the President is a good explainer.

The land-owning farmers do not want America to be turned into a socialistic state. They do not want to divide acres with the landless who prefers to sit in the shade during the hot summer hours, while the farmer works from sunup to sundown producing food for the nation.

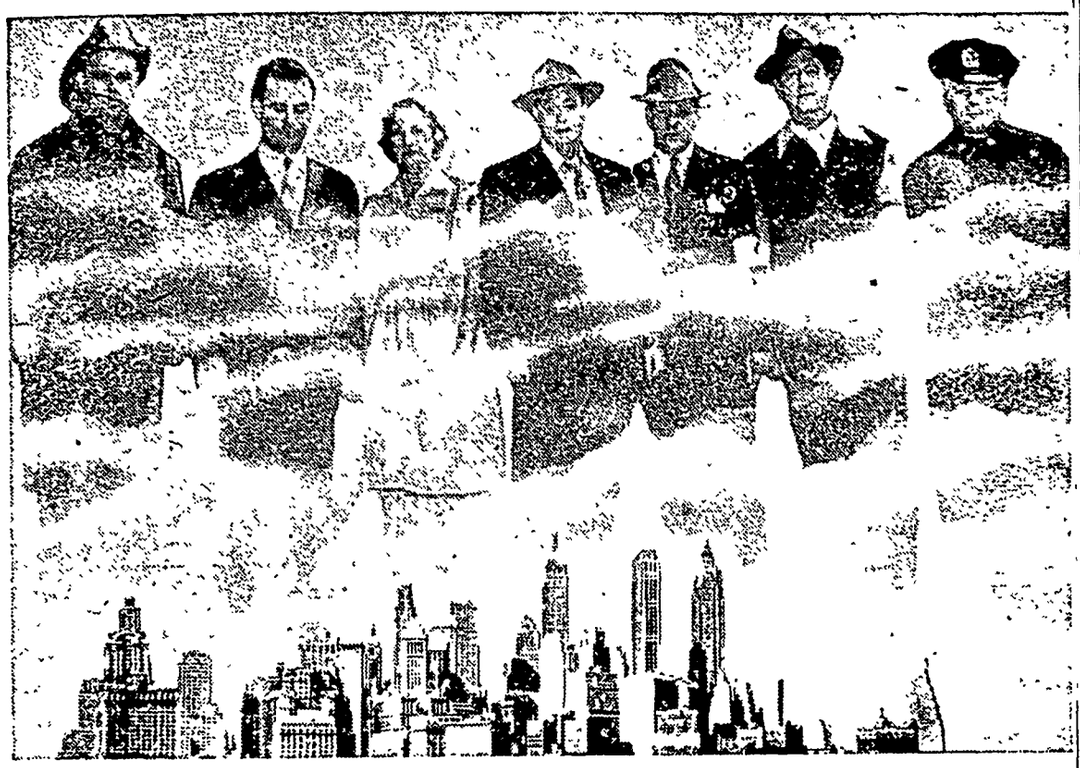
The worker with a job is opposed to socialism. He is supporting himself and family by industry, not by sitting on a park bench asking for a dole. The millions of those with bank accounts, the owners of stocks and bonds, the holders of life insurance, are not seeking an opportunity to divide their savings with the shiftless.

It is the thrifty and industrious men and women that Republican opposition to the socialistic state will appeal, and they represent a majority of the American voters They are more interested in protecting their two or more goats than in the question of legal and moral honesty and integrity in government, because the protection of what they have has a direct personal application.

Why not show this greater number the dangers for them in this rapid drift to the left, and make that the number one subject for the oratory of the battle of the ballots of 1952? Or is the party, as such, fearful of that scattering of Republicans who are tainted with the socialistic colors? Any such loss would be far more than offset by the gain. Such radicals are not a party asset.

And the Republicans should remember that President Truman has a long memory, and can revive the scandals of Harding's time.

EAST WENT WEST. . . . Pioneers traveled in crude railway coaches in 1886, but R. T. Zogbaum, the artist responsible for this sketch from Harper's Weekly labeled his work, "The Modern Ship of the Plains." The "modern ship" is in sharp contrast with today's sleek streamliners. The passing centuries of the American way of life were ably recorded by artists of the various eras in America's history, each depicting an era's life and times as the artist saw it with his own eyes. These reporter artists of United States history now occupy a unique niche, an eminence often overlooked by chroniclers.



ANGELS IN ARMBANDS . . . You have never seen their names in the gossip columns of your newspapers that tell the doings of cafe society, but when the chips are down, they will form the hard core of your community's civil defense, helping the helpless and injured. They are plain Americans giving their time as a public duty. Typical of this unselfish army in armbands that will protect the civilians of our nation is this group superimposed on the sky over the minarets of New York City, the biggest responsibility of civil defense in America. Your community may be smaller, but should be as alert.

A-BLAST SUIT . . . Immune perhaps, wearing a lead-layered suit, Richard Pauwela, 6, rides his bike in Los Angeles. Father, Leo Paulwela, who devised the covering, claims that it will afford protection from radioactivity following A-blast. "If it doesn't land on us, we're safe," advises Leo to his son in speaking of protection from blast in new suit. Richard does not find riding his bike in the new suit too awkward after a little practice.

DID HE WED AGAIN DURING AMNESIA? . . . David Yerke sits with his wife, Douglas, and his daughter, Sharon, 6, after their reunion in Detroit after Yerke had been missing for six years, believed drowned. The past six years do not exist in his memory. In New Orleans, Mrs. Reuben David Dry identified a newspaper picture of David as the man she married nearly six years ago, soon after he vanished. He called a brother recently, saying that he remembered who he is.

COLONEL'S A LADY . . . Real chicken colonel is Carolyn Irwin, queen and honorary national colonel for R.O.T.C. conference in Miami Beach. Appropriately, the colonel seems a bit up in the air for this picture.

FIRED . . . Paul Neff was fired from the presidency of the Missouri-Pacific railroad after he told the interstate commerce commission that the road's future earnings were uncertain. The railroad has been in bankruptcy for 19 years.

A TIME FOR CAROLS

Language of Christmas

How's your Christmas language? Let's take a ride around the world with Santa in the magical sleigh. In what country would you hear the following greetings?

(1) Felices Pascuas .....
(2) Feliz Navidad .....
(3) Maligayang Pasko .....
(4) Tin Hao Nian .....
(5) Wesolych Swiat .....
(6) Frolijke Kerstmis .....
(7) Gledelig Jul .....
(8) Joyeux Noel, or Zalige Kerstdag .....
(9) Feliz Natal .....
(10) Rozhdestvom Khristovym (if Santa Lands) .....

ANSWERS: (1) Costa Rica; (2) Bolivia; (3) Phillipines, (4) China; (5) Poland; (6) Holland, (7) Norway, (8) Belgium (French and Flemish both spoken), (9) Brazil; (10) U.S.S.R.

Did you ever wonder what ever happens to the thousands of letters boys and girls mail to Santa Claus, North Pole, Greenland?

Well, they really do get to Miss "Santa", who attempts to answer them all, but isn't always able to do so.

Miss Gerda Stauning, pretty 26-year-old employee of the Copenhagen office of the Greenland Colonial Administration, has charge of all of Santa's mail.

One day's mail last year brought her 800 letters, many of them from the United States.

Requests are for all kinds of toys. One little girl asked for a chocolate elephant, promising to be good until Christmas, and afterward, too. Two letters asked for bibles.

Sometimes Miss Santa Claus sends the children pictures of Greenland, saying that Santa will come, although he is a very busy man. The letters are so numerous, however, that it is impossible to reply to all of them.

The Hawthorn is another "thorn bush" or small tree that has found its way into the Christmas scene. An ancient legend connects it with Joseph of Arimathea, who is supposed to have brought the gospel to Britain about the year 70 A.D.

He came to Glastonbury where he built the first Christian church in Britain, tradition says, out of "twisted twigs."

It is related that he stuck his staff in the ground on top of Wyrralhill and that it grew into a beautiful tree which blossomed just at Christmas time.

An old rhyme declares:

The staff het budded and het grew
And at Christmas bloomed the whaldaroo
And still het blooms at Christmas bright,
But best they say at dark midnight.

Youngsters Don't Require Most Expensive Yule Gifts

You don't have to purchase expensive toys for the younger members of the clan. A broom-stick horse will delight any small child. Make it by using a three-foot piece of broom stick, with the head made of a sock padded with cotton and fastened tightly to the stick. Eyes, mouth and ears can be made by outlining with yarn.

Christmas, 1951, Tense Struggle of Two Worlds

Merry Christmas!

These words will soon ring around the world . . . In many tongues, in many manners of expression, yet a harmonious blend of a single wish . . . happiness to all on a happy day.

Christmas, 1951, like so many Christmases before, finds the world in a tense, turbulent condition, enmeshed in a struggle between two worlds, democracy and Communism.

Crime in America

Fifteen of a Series

California: Where Lobbyists Grow Big and Mobsters Thrive

Crime and corruption in California had a special flavor—exotic, over-ripe and a little sickening. The rackets, like the state itself, were big and colorful

For years, parts of California literally have been infested with every conceivable kind of gambling racket. The "take" runs into the millions.

One big gambling racket broken up in Los Angeles after the California Crime Commission went into business was the so-called Guarantee Finance Co which posed as a legitimate loan agency while fronting for a $6,000,000 bookmaking combine. Its records disclosed payments totalling $108,000 for "juice," the California gamblers euphemism (in Florida it's "ice") for "protection" money

• • •

The Los Angeles city police department was headed by a determined officer, Chief William H. Parker. Our committee, however, was not impressed by the Los Angeles County sheriff's office.

Guarantee Finance Co. shrewdly had set up its headquarters in a particular political "island" known as "Sunset Strip" inside Los Angeles proper. This was county territory and, accordingly, not subject to the tougher Los Angeles police.

One of Chief Parker's aggressive officers, Lt. James Fiske, finally became so incensed by the sheriff's inactivity that he entered Sunset Strip and came down through a skylight into the huge telephone room of the bookmaking operation

Out of his jurisdiction, he was unable to make any arrests, but he did tear up all the bookies' markers so they were at a loss as to how to settle their bets for that day As a result, Lieutenant Fiske said, a stern letter was received from Al Guasti, then a captain in the sheriff's office, demanding that city police stay out of county territory

A county grand jury was probing payoffs to law enforcement officers by Guarantee Finance. The grand jury foreman and four county officials met in secret to plan the inquiry The only other persons let in on the plans were two process servers who were to serve subpoenas. The very next day, someone "leaked" the plans to Sammy Rummel, lawyer for gangsters, and reputedly the brains behind the mobster, Mickey Cohen

• • •

A series of incredible events followed. First, Rummel arranged a rendezvous with Captain Guasti Guasti, in turn, arranged for the "mouthpiece" to meet that night with Captain Carl Pearson and Sgt Lawrence Shaffer, of the sheriff's vice squad At this meeting, Guasti said, Sergeant Shaffer actually exhibited to Rummel the sheriff's confidential files dealing with the Guarantee case Next morning Rummel was found dead—killed in his yard by a close-range shotgun blast.

• • •

Police Chief Parker, who has made life miserable for Mickey Cohen in recent years, told us that he does not go along with the rumor that the little ex-pug is now a second-rater

Mickey, gambler and bookmaker, extortionist and all-round racketeer, is still decidedly important His "business interests" invade many spheres, including prostitution, Chief Parker said.

• • •

"I have never been a strong-arm man for nobody," Mickey howled at us, almost hysterically "I have never bulldozed anybody in my life" His testimony contradicted this There was the time that one Max Shaman entered Mickey's "Paint Shop" (Mickey always seemed to have either a paint shop, a jewelry store or a haberdashery some investigators are unkind enough to believe that he used them as fronts for bookmaking.) Mickey had had a fist fight with Shaman's brother, and Shaman "came in with his gun." Mickey pulled his own out of the desk, killed Shaman first and was acquitted on his plea of self defense

There was at least one other arrest on suspicion of murder, and an assortment of beatings which Cohen admitted he had administered to various characters

Mickey painted us a lugubrious picture of his financial condition All the money he had in the world was in his pocket, he said. Checking his roll, Mickey sadly told us it came to only $286. However, in four years, Cohen had "borrowed" approximately $300,000, he said, from various sources Most remarkable of all his loans was the $35,000 he said he had borrowed from the president (no longer there) of a Hollywood bank, without giving a note or paying any interest.

"What do you do for them," I inquired, "that makes them so generous with you?" Cohen replied: "I can't answer that; they must just like me"

Our Committee had uncovered some interesting facts on Mickey's method of reporting income to the government These interested the Internal Revenue Bureau, too, and after our final hearings, Cohen and his blonde wife, Lavonne, were indicted for alleged income tax evasion over a period of three years Instead of paying taxes on approximately $318,500 income, they reported and paid on only $87,500, the government contends.

(Cohen was found guilty and sentenced to 5 years in prison)

The piece de resistance of our West coast investigation was the apearance of Arthur H. Samish, the portly million-dollar beer lobbyist. Californians have had snatches of his squalid story before, but never in quite such detail direct from the lips of the master string puller himself.

Samish stands over 6 feet, 2 inches and must weigh better than 300 pounds He is bald with a monk's tonsure of grey fringe, and a face of bland innocence. He gesticulates freely in the grand style, stabbing the air with his horn-rimmed glasses or fiddling with his watch chain, a heavy affair of white gold or platinum, made up of large links which form his initials.

From his 1949 tax return, we knew Samish's gross reported income had been $143,697. Of this income, $90,999.94 represented fees from his "public relations" clients. The principal contributor was the California State Brewers' Institute, which provided a modest $30,000 in salary and expenses, plus control of a $153,000-a-year slush fund.

A 1938 report from Howard R. Philbrick, investigator for a California legislative committee, had charged: "The principal source of corruption in the legislature has been money pressure . The principal offender among the lobbyists has been Arthur E. Samish . ." It was the Philbrick report which credited to Samish the famous declaration that he was "the governor of the legislature"—and "to hell with the governor of the state."

The State Brewers' Institute, a non-profit organization, has a special so-called "5-cent fund." For every barrel of beer produced, the brewers paid 5 cents into a fund which Samish spent as he saw fit.

Into the 5-cent "Samish fund," over a period of six years, $953,943 19 has flowed All but $43,913 29 of the $935,000 has been spent by sole and exclusive direction of Samish. Some of it, he admitted, went to pay his own personal hotel expenses when he was presumably engaged in business for the institute He didn't mention this in his tax returns

The fireworks began after our investigator had gone over the books and records which Samish had turned over with flourishes. It developed that Samish's personal records and books were in understandable shape, but there were no records concerning the "Samish fund" of nearly $1,000,000.

We asked him what happened to canceled checks and stubs written on this fund He said he throws them in the wastebasket.

Finally, he relinquished to us a typewritten "analysis." It wasn't much of an "analysis," it merely showed that most of the big checks —from $10,000 to $40,000—were made out to "cash" or "contributions." Samish admitted that " 'cash' and 'contributions' are the same thing," and that these items in most cases meant that money was distributed by him personally —and in cash—to good, honest, outstanding officials that subscribed to "the temperate use of beer, wine and spirits . . ." He demanded no receipts from them.

He made contributions to the candidates of both major parties, but he couldn't seem to remember to whom he gave the money.

Next week: How the Laws Are Enforced in Upstate New York

Condensed from the book, "Crime in America," by Estes Kefauver. Cpr. 1951. Pub. by Doubleday, Inc. Dist. General Features Corp.—WNU.

WHEELCHAIR BURGLAR

Cripple Boasts He's Master Criminal

OAKLAND, Calif. — Leo Whaley, a husky cripple of 15, doomed to life in a wheelchair because of a childhood accident 11 years ago, was caught burglarizing a home here. Booked for investigation, he proudly boasted to officers that he had masterminded two young gangs in previous burglaries.

Police Lt. Leon Carroll said that young Leo had the "most perfect set of pick keys I've ever seen." The youth demonstrated his ability to the awed policemen by opening police files.

Whaley "cased" the Harry J. MacDonald home to see that no one was there, then entered through a rear door that had been left unlocked. He told police that he attended classes for the handicapped at a local elementary school.

Scissors Holder

Flat curtain rod, cut in a short piece and tacked to the inside of your sewing machine drawer, makes a handy holder for your scissors. They're easy to slide into place and remove, and won't get lost among the other things in the drawer.

IT ISN'T TOO LATE!

If you still have last minute shopping to do, here's a suggestion you'll be grateful for. It's a simple solution—so easy to do and so sure to please. It's a solution that comes in two parts. First, give the Cigarette smokers on your list a carton or two of the cigarette that's by far America's favorite — cool, mild, flavorful Camels. The Camel Christmas carton is full of the Christmas spirit—bright and colorful and all ready to give. There's a space on the top reserved for your personal greeting. No wrapping, no fussing with paper or cards or ribbons. The second solution involves your pipe-smoking friends and the fellows who like to roll their own cigarettes. It's the one-pound tin of Prince Albert, America's largest-selling smoking tobacco. "The bite's out and the pleasure's in!" The pound tin of Prince Albert comes in a gay Christmas box, all ready to give—just put your message on the built-in Christmas card. Don't delay. Do it today. Your dealer still has Camel cartons and pound tins of Prince Albert. Pay him a visit! —Adv.

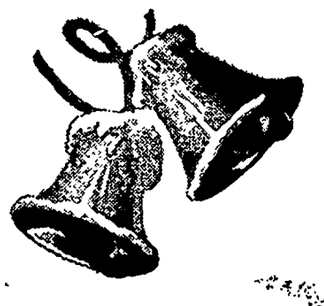
Don Stille of Los Angles arrived Sunday evening, being called here by the illness of his brother, Lester, a patient in the Mercy hospital; and his father, Mr. Wm. Stille who fell at the home of his daughter, Mrs. Lee Anderson at Charles City. Mr. Wm. Stille has not been well since his fall. Don will remain here until after Christmas.

The Misses Donna and Nellie Greiman of Mason City spent the week end and Christmas at the parental Ben F. Greiman home. Donna is an instructor at the LaJames Beauty School at Mason City Nellie has been working at the telephone exchange, but will start a business course at Hamilton's after the first of the year.

Klemme is well represented over the holiday by the Armed Forces and it is good to have some of the boys at home. Those who have furloughs over the holiday are: Sgt. Bill Back of Amarillo, Texas; Cpl. Jerry Finders of Weaver, South Dakota; Pfc. Melvin Howard of Eglin, Flordia; Pfc. Raymond Christians of Camp Atterbury, Indiana, and Pfc. Maurice Buckley of Camp Breckenridge, Kentucky.



Let us have faith in the future, courage in our efforts...

...and work together to make this a genuinely happy New Year
